RE: Application to the Deer Park Independent School District from The Lubrizol Corporation

(First Value Limitation Year 2019)

Application and Confidential Materials

To the Local Government Assistance & Economic Analysis Division:

By copy of this letter transmitting the application for review to the Comptroller's Office, the Deer Park Independent School District is notifying The Lubrizol Corporation of its intent to consider the application for appraised value limitation on qualified property should a positive certificate be issued by the Comptroller. The Applicant submitted the Application to the school district on July 13, 2015. The Board voted to accept the application on July 13, 2015. The application has been determined complete as of July 14, 2015. Please prepare the economic impact report.

The Applicant has requested the following information be kept confidential.

1. Tab 4, a portion of the project description
2. Tab 5, a portion about alternate sitings
2. Tab 7, the description of qualified investment
3. Tab 8, the description of qualified property
4. The maps of the project vicinity, qualified investment, and reinvestment zone located in Tab 11 of the Application

In accordance with 34 TAC 9.1053, the information that is the subject of this request is segregated from the supplemental materials submitted with the application, that is. The items depicted in the maps are indexed before each section.

The description of the investment and the maps depicting existing property and the planned location of the project display proprietary commercial information regarding the specific location of the possible project and the nature of the business that will be conducted at the site. The materials are protected by the trade secret exception set forth in Texas Government Code §552.110. The determination of whether specific material is protected as a trade secret is a question of fact. While not defined in the statute, Texas has long recognized the definition of trade secrets set forth in the Restatement of Torts. See, *Hyde v. Huffings*, 314 S.W. 2d 763, 776 (Tex. 1957), cert denied, 358 U.S. 898 (1958). The Texas Attorney General's office has consistently applied the Restatement of Torts in determining whether information submitted to Texas governmental agencies is exempt from disclosure in response to Open Records requests under the "trade secret" doctrine. See e.g., Open Records Decision No. 652, pp. 3-5 (1997); See also, OR2002-2871 (May 28, 2002). The Restatement of Torts lists six factors to be utilized in determining whether material is, in fact a trade secret. These factors will be discussed below.

1. Extent to which information is known outside of LUBRIZOL;
2. Extent to which information is known by employees.
3. Security Measures.
4. Value of Information.
5. Effort Expended.
6. Ease of Duplication.

LUBRIZOL maintains security on the internal item specifications from which plans for site development are written, performance statistics, and other data from which the layout and location has been developed. This type of information is held to be a trade secret by LUBRIZOL. In fact, the maintenance of confidentiality of this type of information is the industry standard among all of the companies engaged in this industry.

Project confidentiality is maintained inside the company and with the consultants engaged to prepare the application. LUBRIZOL requires confidentiality of all employees and contractual confidentiality provisions with its consultants. LUBRIZOL uses proprietary methods for the development of layout and locating decisions. The chemical manufacturing industry is highly competitive. LUBRIZOL feels that secure information cannot be duplicated without access to its proprietary processes. The release of any information regarding these proprietary processes would give competitors of LUBRIZOL an unfair competitive position.

Section 552.104

This Section of the Texas Government Code provides that information is excepted from disclosure if it would give advantage to a competitor. As for the same reasons stated above, maintaining the confidential status of the underlying data is critical to maintaining LUBRIZOL's competitive position in the market.

Letter to Local Government Assistance & Economic Analysis Division

July 14, 2015

Page 3 of 3

The public release of this information would reveal information which the company considers to be a trade secret. Furthermore, the public production of this information would cause the company to suffer substantial competitive harm and weaken its position in competitive siting decisions.

Sincerely,

Application

Application for Appraised Value Limitation on Qualified Property (Tax Code, Chapter 313, Subchapter B or C)

Economic Development
and Analysis
Form 50-296-A

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at www.texasahead.org/tax_programs/chapter313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Detailed Description of Project

NON-CONFIDENTIAL

THE LUBRIZOL CORPORATION PROJECT SUMMARY

The Lubrizol Corporation (Lubrizol) plans to construct a new chemical manufacturing plant and is considering multiple sites for the proposed new construction, including 13 undeveloped acres in an existing location that Lubrizol owns at 41 Tidal Road, Deer Park, Texas. Lubrizol anticipates spending approximately \$300 million on the project and creating at least 25 new, permanent, production-related jobs if the project is consummated. Lubrizol plans to commence construction in the third quarter of 2016 and estimates construction completion by the third quarter of 2018.

Lubrizol already operates a chemical production facility at 41 Tidal Road, Deer Park, Texas. The facility at Deer Park is between State Highway 225 and the Houston Ship Channel and is 180 +/- acres. The land at Deer Park has unimproved areas, including the 13 acres involved here, that would be suitable for the proposed construction of the new chemical manufacturing unit; hence, Lubrizol included the Texas site in the selection process. But, the value limitation that is provided for in Chapter 313 of the Tax Code and that the Deer Park Independent School District is willing to agree to is necessary for us to finalize our decision to locate the new manufacturing unit at Deer Park
