**RE: Application for Section 313 – Value Limitation Agreement**

Brazos Delaware, LLC is considering plans to build a (Phase I) 60mmscf/d gas processing plant followed by (Phase II) a 200mmscf/d gas processing plant inside Pecos-Barstow-Toyah ISD. That will allow us the ability to process raw natural gas into useable products. The estimated total investment for this project will be approximately \$135mm, with estimated completion in the 4<sup>th</sup> quarter of 2017.

The positive economic impact stretches beyond the investment by providing a number of jobs during the construction phase, and at least 10 full time local jobs once construction is complete.

Brazos Delaware, LLC is committed to the growth and welfare of the community. We believe our investment in Reeves County affirms our dedication to maintaining a considerable presence in the area.

Attached is our application for property tax limitation. We respectfully request this 10 year limitation under The Appraised Value Limitation on Qualified Property (Chapter 313 of the Texas Tax Code).

Please feel free to contact me if you have any questions. I can be reached via telephone 469-298-1594 or by email [mfry@keatax.com](mailto:mfry@keatax.com).

Sincerely,

Mike Fry

**Form 50-296-A**

**INSTRUCTIONS:** This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
  - the date on which the school district received the application;
  - the date the school district determined that the application was complete;
  - the date the school board decided to consider the application; and
  - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at [www.texasahead.org/tax\\_programs/chapter313/](http://www.texasahead.org/tax_programs/chapter313/). Detailed Description of Project

**DETAILED PROJECT DESCRIPTION OF QUALIFIED INVESTMENT**  
**PECOS-BARSTOW-TOYAH INDEPENDENT SCHOOL DISTRICT**

Brazos Delaware, LLC (or “the Company”) is a midstream energy company, whose primary activities include gas and crude gathering, treating, terminals and processing. With an initial focus on Texas and the adjoining states of New Mexico and Oklahoma, Brazos desires to ensure constrained producers reliable access to high value markets.

Oklahoma  
New Mexico  
Texas

**Proposed Project Description**

Brazos Delaware, LLC proposes to build a new (Phase I) 60 MMcf/d Gas Processing Plant and (Phase II) a 200MMcf/d Gas Processing Plant in Pecos-Barstow-Toyah ISD/Reeves County, Texas. Projected timeline for Brazos to start construction is July of 2016 and start hiring the new employees in August of 2016. This should allow for completion and commencement of Phase I commercial operations to start in December of 2016, followed by Phase II with an estimated completion date of December 2017.

**Cryogenic Natural Gas Processing Plants**

The Comanche Plant would include the installation of two (2) refrigerated cryogenic gas plants. (Phase I 60MMcf/d and Phase II 200MMcf/d) If completed, the Comanche Gas Processing Plant will be designed to process 260MMcf/d of gas and would include the following components, providing long-term processing, compression and residue gas takeaway:

- Buildings, Foundations, Inlet Separator, Amine Unit, Boilers, Heat Exchangers, Natural Gas/Air/H2O Piping, Control
- Valves, Dehydration Units, Knock Out Drums, Slug Catcher, Compressors, Vessels, Heat Exchanger, SCADA plus Controls.
- Environmental: (A) Flare-Stack, Scrubber, and Leak Detection; (L) Liners, Containment.

# TAB 05

Limitation as Determining Factor

**Limitation as Determining Factor w/ability to locate or relocate:**

**Brazos Delaware, LLC (or "the Company")** Brazos Delaware, LLC provides gathering systems, and liquids handling and compressor stations. The company offers designs and operates natural gas or crude oil gathering facilities; low-pressure and high-pressure compression facilities; and processing and treating facilities, as well as condensate stabilization and vapor recovery systems. It serves producers in Texas and the adjoining states. Brazos Midstream currently operates a crude terminal and natural gas gathering systems in far West Texas soon to be expanding into Southern New Mexico.

As the primary available property tax incentive in Texas, a 313 agreement is vital to the proposed Comanche Plant economics just as potential customer response will be. Both factors will be considered before any determination is made. Moreover, other potential projects are presently competing for the same capital expenditures by our company, including possible gas processing plants, gathering and crude terminals in Southern New Mexico.
