Dear Superintendent Cowley:

Please find the attached application for abatement in Calhoun County Independent School District's jurisdiction on behalf of Union Carbide Corporation. We hope that this tax abatement will prove to be a valuable incentive and entice the proposed \$130,000,000 investment to Seadrift.

We are submitting this application well in advance of any construction and we ask, per the guidelines, that the abatement commencement date be deferred to January 1, 2018. I welcome any questions that you may have and thank you for your continued support of Union Carbide Corporation.

Application for Appraised Value Limitation on Qualified Property (Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is fully determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at www.texasahead.org/tax_programs/chapter313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Union Carbide Corporation

School Limitation on Appraised Value

(Tab 5)

November 7, 2016

The Union Carbide Corporation (UCC) has analyzed the property tax liability of constructing a catalyst manufacturing plant in Texas. The Union Carbide Corporation site at Seadrift, Texas is well situated to attract this project. To incentivize this project, the public partnership with the State and Local Governments in Texas is critical.

The investment in and siting of this project is complex, and while no one factor alone can determine site location, there are many factors taken as a group that can. Texas has many economic advantages to attract investments; however one area where Texas is not competitive is in property tax liability. Union Carbide Corporation is a capital intensive company and as such carries a substantial property tax liability. The property taxes for ongoing and particularly new investment can greatly impact the competitiveness of the company. Approval of the 313 agreement is key in creating a more competitive investment environment in Texas. Without approval of the 313 agreement, the company's property tax liability from the new investment will negatively impact the competitiveness of the project in Texas.

Property taxes in the State of Texas are levied on Real and Personal property as well as inventory while an alternate location in consideration in the State of Louisiana also taxes the same property types but provides a more competitive tax abatement program. Projected property tax liability to the company based on the same \$130 million capital investment in Texas compared to Louisiana, is considerably higher (in Texas) over a 10 year period after considering estimated tax savings from negotiated agreements with State and Local authorities in the two locations.

School Limitation on Appraised Value

(Tab 5)

November 7, 2016

The proposed manufacturing plant will use raw materials acquired globally, which is equally desirable for both Texas and Louisiana locations. Finished products are also shipped globally. Both the Texas and Louisiana proposed locations, and potentially other global locations, have the ability to add this manufacturing process as it is not dependent on existing infrastructure.

Approval of the 313 agreement is essential to allow the property tax liabilities in Texas to be as favorable, certain, and competitive as possible for this project. Approval of this school limitation agreement will help ensure the competitiveness of the project so the important capital investment decision can be made, bringing growth to the area.

I, Jesse W. Hubbell, Chief Appraiser for the Calhoun County Appraisal District, do hereby certify that the 2016 appraised values for the tracts listed below, together with the improvements located thereon, is true and correct. These tracts do not make up the entire value of all land and improvements for Union Carbide, but only for the specific tracts listed below. The individual parcels listed below are part of a larger parcel of land identified by the Calhoun County Appraisal District as being part of property identification number 35743. Parcel ID 35743 does not carry any of the improvement values for Union Carbide on this account. These values were abstracted by taking the land value of \$2,995,890, dividing it by the amount of acreage in PID 35743,(998.63 acres), multiplying the result, (\$3,000), by the acreage in each tract and adding the value of the improvements,(provided by Capitol Appraisal Group), if any, located on each tract.
