Re: Application #1182 from CED Crane Solar LLC to Crane Independent School
District-Amendment #003

Dear Economic Development Team:

The Crane Independent School District received the attached Amendment to the Application for Appraised Value Limitation on Qualified Property from CED Crane Solar LLC. The primary purpose of the amendment is to revise the lands associated with the value limitation. To accomplish this, maps and land descriptions in Tabs 4, 7, 8, 9 & 11 were revised reducing the amount of land utilized by the project.

The CED Crane Solar LLC has made the following changes to Application #1182. Enumerated below are the changes contained in Amendment #003:

1. **Tab 01 Section 1 School District Information-Question 1:** Revised to reflect the current Authorized School District Representative, Superintendent Janet Hunt
2. **Tab 01 Section 1 School District Information-Question 3:** Updated Firm Name, Phone Number, Fax Number and Email Address
3. **Tab 01 Section 2 Applicant Information-Questions 1, 2 and 2a:** Revised
Question 1: Paul Mapelli was added as an Authorized Company Representative
Question 2: Updated to *Yes*, because the original project company is now owned by CED Crane Solar LLC, requiring additional authorized personnel.
Question 2a: Section was previously blank, Robert Reichenberger's contact information was added
4. **Tab 04 Description of the Project:** Explanation Language revised and Map revised
5. **Tab 07 Description of Qualified Investment:** Explanation Language and Map revised
6. **Tab 08 Description of Qualified Property:** Explanation Language and Map revised to reduce the acreage associated with the project.

7. **Tab 09 Description of the Land:** Updated to include the legal description of the new land area, which is a reduction in land area from the original application.
8. **Tab 11 Maps:** Updated to vicinity map to show where the land is located in the reinvestment zone and county, showing more detail related to the project lands utilized within the reinvestment zone.
9. **Tab 17 Authorized Signatures and Certification page:** Signature page executed by Janet Hunt and Paul Mapelli.

Thank you for the update and let me know if you have any other questions.

Respectfully submitted,

Sara Hardner Leon

Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Tab 4

Description of the Project

The Applicant for this project, and its Parent, is a national solar developer with the ability to locate projects of this type in several other states in the US with strong solar characteristics. The applicant is actively developing other projects in Arizona, Colorado, New Mexico, Missouri, and Minnesota, which are competing for the limited investment funds.

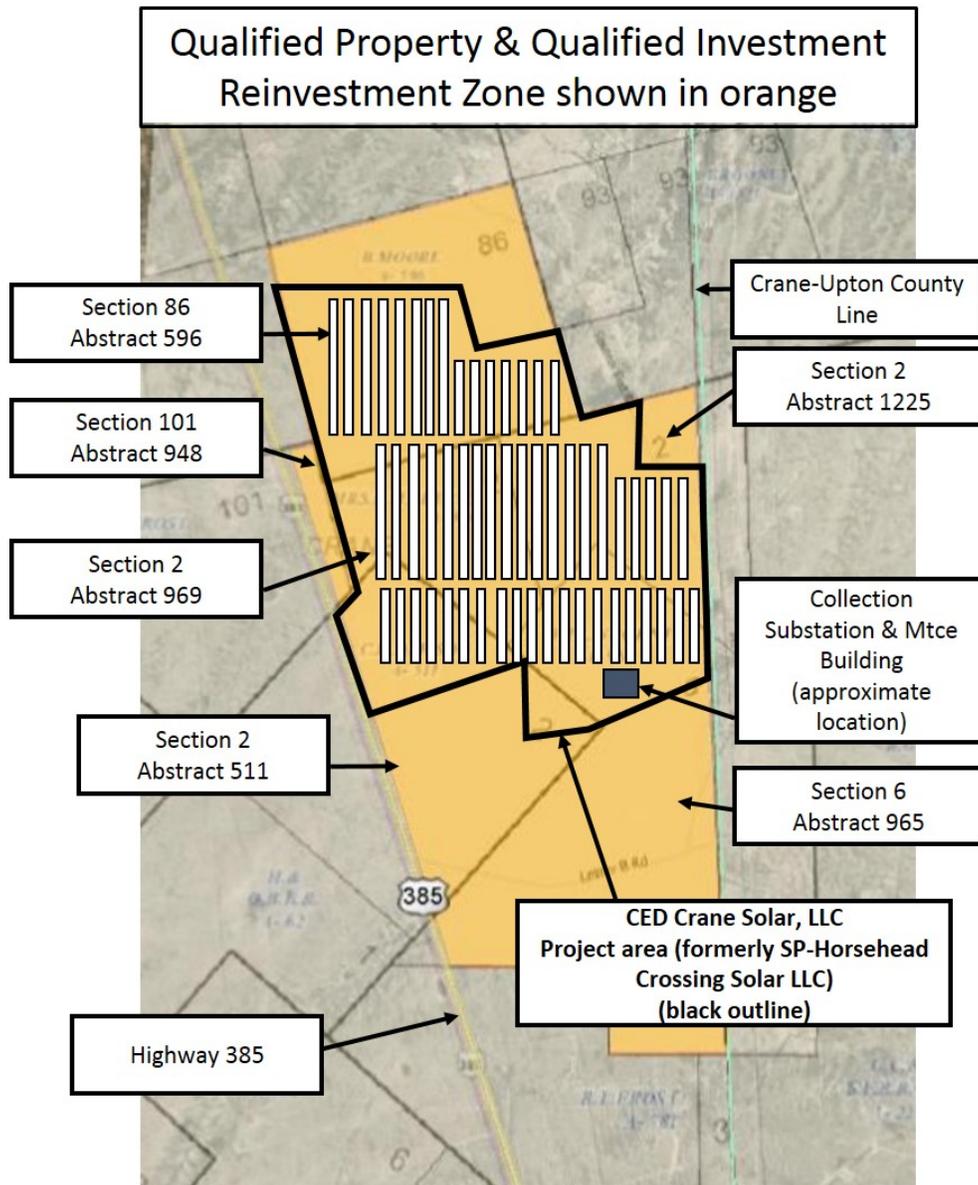

The project will be located entirely within Crane County and Crane Independent School District. It may utilize approximately 1206 acres of the land within the Reinvestment Zone. The project design has not yet been finalized so the final location of new buildings and improvements has not been determined. The land on which the project is located will be rented from the landowner, secured by a long-term lease.

The applicant anticipates commencing construction activities in the 3rd quarter of 2019 and completing construction in mid-2019. Once completed, the project may operate for 25 years or longer.

The Qualified Investment is described below:

- Approximately 150MW solar power generating facility containing:
 - Photovoltaic (PV) Solar Panels and DC-to-AC Inverters
 - Tracker system infrastructure, steel piles, foundations, & controllers
 - Collection substation including high voltage transformer, switch gear, transmission equipment, transmission tie line and towers, interconnection facilities and control systems
 - DC and AC wiring, insulators, combiner boxes, conduit, and connectors
 - Inverter boxes on concrete or gravel pads
 - Fencing for safety and security, Video Security System
 - Telephone System and Data Systems for communication and remote monitoring
 - Operations & maintenance (O&M) building
 - Meteorological equipment to measure solar irradiance & weather conditions
 - New or improved access roads and service roads.

The project will be located entirely within Crane County and Crane Independent School District. It may utilize approximately 1205.6 acres of the land within an existing Reinvestment Zone. This application covers all qualified investment and qualified property necessary for commercial operation of the solar facility. Project area & panel tracker layout illustration below. The project design has not yet been finalized so the final location of improvements has not yet been determined.
