Tax Abatement Guidelines and Criteria

The purpose of this document is to establish guidelines, and a uniform policy of tax abatement for owners or lessees of eligible facilities willing to execute tax abatement contracts designed to provide long term significant positive economic impact to the community by utilizing the area contractors and work force to the maximum extent feasible, and by developing, redeveloping, and improving property.

In order to be eligible for designation as a reinvestment zone and receive tax abatement, the planned improvement:

1. Must be reasonably expected to have an increase in positive net economic benefit to Crane County of at least Ten Million Dollars (\$10,000,000.00) over the life of the abatement, computed to include (but not limited to) new sustaining payroll and /or capital improvement. The creation of (number and type) new jobs will also factor into the decision to grant an abatement; and
2. Must not be expected to solely or primarily have the effect of merely transferring employment from one area of Crane County to another.

In addition to the criteria set forth above, the Crane County Commissioners Court reserves the right to negotiate a tax abatement agreement in order to compete favorably with other communities.

Only that increases in the fair market value of the property directly resultant from the development, redevelopment, and improvement specified in the contract will be eligible for abatement and then only to the extent that such increase exceeds any reduction in the fair market value of the other property of the Applicant located within the jurisdiction creating the reinvestment zone.

All abatement contracts will be for a term no longer than allowed by law.

It is the goal of Crane County to grant tax abatements on terms and conditions beneficial to the economic interests of the residents of Crane County and to other taxing units having jurisdiction of the property. However, nothing herein shall limit the discretion of the Crane County Commissioners Court to consider, adopt, modify or decline any tax abatement request.

This policy is effective as of April 15, 2019 and shall at all times be kept current with regard to the needs of Crane County and reflective of the official views of the County Commissioners Court and shall be reviewed every two years.

The adoption of these guidelines and criteria by the Crane County Commissioners Court does not:

1. Limit the discretion of the governing body to decide whether or not to enter into a specific tax abatement agreement;
2. Limit the discretion of the governing body to delegate to its employees the authority to determine whether or not the governing body should consider a particular application or request for tax abatement;
3. Create or deny any property, contract, or other legal right in any person to have the governing body consider or grant a specific application or request for tax abatement;

- a. Estimated tax revenues annually for the term of the requested abatement, taking into account any requested abatement.

 7. Disclosure of any environmental permits required or additional environmental impacts.
 8. A \$ 1,000.00 non-refundable application fee.
- C. In the case of modernization, a statement of the assessed value of the facility, separately stated for real and personal property, shall be given for the tax year immediately preceding the Application. The County may require such financial and other information as deemed appropriate for evaluating the financial capacity and other factors pertaining to the Applicant, to be attached to the Application.
- D. All checks in payment of the administrative fee shall be made payable to Crane County. In addition to the application fee, which shall be applied to any fee charged by legal or financial analysis of the application, the applicant shall also agree to pay reasonable consulting and attorney fees as may be incurred by Crane County in the examination of

the application as well as the preparation and negotiation of any tax abatement agreement. Such fee reimbursement shall not exceed \$10,000.00.

A variance granted to any applicant shall not be deemed a variance for any subsequent applicant.
- H. Confidentiality Required. Information that is provided to the County in connection with an application or request for Tax Abatement and that describes the specific processes or business activities to be conducted or the equipment or other property to be located on the property for which Tax Abatement is sought may be deemed as confidential and not subject to public disclosure only if specifically identified by the Applicant, and segregated from the remaining portions of the Application. Once the Tax Abatement Agreement is executed, all attachments to the Abatement Agreement shall become public. All
