

Description of Qualified Investment **TAB 7**

Anson Solar Center 3, LLC plans to construct a 200 MW solar farm in Jones County.

This application covers all qualified property within the project boundaries for Anson ISD necessary for the commercial operations of the proposed solar farm described in Tab 4. Two hundred megawatts (200 MW) will be located in Anson ISD. Panel placement is subject to change but for purposes of this application, the Project anticipates using approximately 788,000 PV modules or equivalent and 67 inverters.

This application covers all qualified investment and qualified property necessary for the commercial operations of the solar farm.

Qualified Investment and qualified property includes but is not limited to; solar modules/panels, racking and mounting structures, inverters boxes, combiner boxes, meteorological equipment, foundations, roadways, paving, fencing, collection system, generation transmission tie line and associated towers, interconnection facilities and control systems necessary for commercial generation of electricity.

**NOTE:* The map in TAB 11 shows the potential locations of improvements within Anson ISD boundaries; however, the final number of panels and inverters and the location of each of these facilities is dependent upon ongoing negotiations with power purchasers and other factors.
