Limitation is a Determining Factor:

Targa Resources, LP (or “the Company”) is a leading midstream energy company whose primary activities include:

- Gathering, treating, processing and transporting natural gas and natural gas liquids to a variety of markets and states
- Storing, fractionating, treating, transporting, and selling NGL’s and NGL products, including services to LPG exporters
- Gathering, storing, and terminaling crude oil
- Storing, terminaling, and selling refined petroleum products

Targa currently operates over 27,000 miles of pipeline, 40 gas processing plants, 4 G&P crude terminals, 2 fractionation locations, 1 hydrotreater facility, 1 gas treating facility, 18 NGL terminals, 3 petroleum logistics facilities, and 2 storage facilities. There are also transportation assets, including 700 railcars, 90 tractors, and 20 barges. Locations for these operations included Arizona, Florida, Kansas, Louisiana, Maryland, Mississippi, North Dakota, New Mexico, Oklahoma, Texas, and Washington.

Targa’s pipeline footprint provides substantial flexibility in where future facilities or investments may be located. Effectively, there will always be infrastructure available to pipe product in and out of anywhere a facility of this type is chosen to sit, regardless of state.

Further, the amount of capital allotted to each project the applicant undertakes is heavily dependent on the economic return said project will generate. With the property tax burden in Texas as high as it is, operating profit is particularly sensitive to the existence of tax incentives. What this means, is that if the property taxes are too great a burden for a project to carry and still meet its targeted return, the capital that would have been allotted to that project will be re-allocated to another project outside of Texas, and with a lesser burden. (Ex. Oklahoma-Manufacturing Exemption, Kansas & North Dakota-No Personal Property Tax, Louisiana-Industrial Tax Exemption)

Economic value is almost entirely dependent on cash flows, and property taxes are often in the top three of the largest expenses that projects like this will encounter. As was mentioned above and illustrated on the following map, Targa has an incredible level of flexibility in choosing sites for its facilities, with potential pipeline systems and tie-ins so abundant that logistics are almost not even considered when evaluating situs. This leaves the economic return as the sole determinant of the future of the project. With so many other states offering incentives, the economic return of this fractionator will not be able to compete for capital without this Chapter 313 agreement.

Re: Chapter 313 Job Waiver Request; Fractionation Unit Chapter 313 Application

Dear Dr. Poole:

Targa Downstream LLC (“Targa”) respectfully requests that Barbers Hill Independent School District’s Board of Trustees waive the job requirement provision as allowed in Section 313.025(f-1) of the tax code in connection with its Fractionation Unit Chapter 313 Application. This waiver would require that the School District make a finding that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility described in the Targa application for the Fractionation Unit. Targa Downstream LLC requests that Barbers Hill ISD makes such findings and waive the job creation requirement of twenty-five (25) permanent jobs.

Targa currently operates multiple plants and facilities in Chambers County and expects to integrate the new facility with existing operations. Based on this and other plant operation experience Targa expects to create twelve (12) permanent jobs for the proposed project. The proposed project is expected to directly create approximately 500 jobs during construction, which will increase the need for local goods and services and generate incremental state and local tax revenue.

The table below represents an industry sampling of regional fractionation units, the first two of which are owned and operated by Cedar Bayou, an affiliate of Targa Resources.

AMENDMENT 1 [8/2/2018]

We believe this facility will promote economic growth and welfare to the community by creating permanent full-time positions. The wages for these positions will be at least 110% of the Chambers County average wage rate. Additionally, benefits such as medical, dental, and life insurance will be provided.

We appreciate your consideration of the job waiver request and if you have any questions, please feel free to contact me by telephone at 469-298-1618 or by email at mfry@keatax.com

Sincerely,
