FINDINGS OF THE BENJAMIN INDEPENDENT SCHOOL
DISTRICT BOARD OF TRUSTEES UNDER THE
TEXAS ECONOMIC DEVELOPMENT ACT
ON THE APPLICATION SUBMITTED BY
TG EAST WIND PROJECT LLC (#1274)

STATE OF TEXAS §

COUNTY OF KNOX §

On the 11th day of February 2019, a public meeting of the Board of Trustees of the Benjamin Independent School District (“District”) was held. The meeting was duly posted in accordance with the provisions of the Texas Open Meetings Act, Chapter 551, Texas Government Code. At the meeting, the Board of Trustees took up and considered the application of TG East Wind Project LLC (“Applicant”) for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code. The Board of Trustees solicited input into its deliberations on the Application from interested parties within the District. The Board of Trustees has considered the economic impact analysis and the project certification issued by the Texas Comptroller of Public Accounts. After hearing presentations from the District’s administrative staff, and from consultants retained by the District to advise the Board in this matter, and after considering the relevant documentary evidence, the Board of Trustees makes the following findings with respect to application from Applicant, and the economic impact of that application:

On June 11, 2018, the Superintendent of the District, acting as agent of the Board of Trustees, and the Texas Comptroller of Public Accounts (“Comptroller”) received an Application from Applicant for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code. A copy of the Application is attached as **Attachment A**.

The Applicant, (Texas Taxpayer Id. 32065148002), is an entity subject to Chapter 171, Texas Tax Code, and is certified to be an active franchise taxpayer by the Comptroller. See **Attachment B**.

The Board of Trustees acknowledged receipt of the Application, along with the requisite application fee, established pursuant to Texas Tax Code § 313.025(a)(1) and Local District Policy.

The Application was delivered to the Comptroller for review pursuant to Texas Tax Code § 313.025(d). A copy of the Application was delivered to the Knox County Appraisal District for review pursuant to 34 Tex. Admin. Code § 9.1054. On October 16, 2018, the Comptroller determined the Application to be complete.

The Application was reviewed by the Comptroller pursuant to Texas Tax Code §313.026, and a Comptroller Certificate was issued on January 11, 2019 in which the Comptroller has determined, inter alia, that: 1) Application is subject to the provisions of Chapter 171, Texas Tax Code; 2) the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised values; 3) the proposed project is reasonably likely to generate tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement before the 25th anniversary of the beginning of the limitation period; and, 4) the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state. A copy of the Certificate is attached to the findings as **Attachment C**.

The Board of Trustees has previously directed that a specific financial analysis be conducted concerning the impact of the proposed value limitation on the finances of District. A copy of the report prepared by Moak, Casey & Associates, Inc., is attached to these findings as **Attachment D**.

The Board of Trustees has confirmed that the taxable value of property in the District for the preceding tax year, as determined under Subchapter M, Chapter 403, Government Code, is as stated in **Attachment E**.

The Texas Education Agency has evaluated the impact of the project on the District's facilities. TEA's determination is to be attached to these findings as **Attachment F**.

The Board has adopted the Texas Economic Development Agreement (Form 50-826) as promulgated by the Comptroller's Office. Form 50-826 has been altered only in accordance only the provisions of the template that the Comptroller permitted. The proposed Agreement is attached to these findings as **Attachment G**.

After review of the Comptroller's Certificate and economic analysis, and in consideration of its own studies the Board finds:

Board Finding Number 1.

The Board finds that the property described in the Application meets the requirements of Tex. Tax Code §313.024 for eligibility for a limitation on appraised value.

In support of Finding 1, the Application indicates that:

TG East Wind Project, LLC {"TG East"} {the "Project"} is a special purpose entity formed to facilitate the development and commercialization of a utility-scale wind energy project initiated by Northrenew Energy {"Northrenew"} in conjunction with Taaleri Energia North America {"Taaleri"}. Northrenew Energy, the original developer of TG East, is in the business of initiating and developing plants generating electricity from renewable energy projects.

Property used for renewable energy electric generation is eligible for a limitation under §313.024(b)(5).

Board Finding Number 2.

The project proposed by the applicant is reasonably likely to generate, before the 25th anniversary of the beginning of the limitation period, tax revenue, including state tax revenue, school district maintenance and operations ad valorem tax revenue attributable to the project, and any other tax revenue attributable to the effect of the project on the economy of the state, in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement (as detailed in Attachment B of the Comptroller's Certification).

Board Finding Number 3.

Based on the information certified by the Comptroller, the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state (as detailed in Attachment C of the Comptroller's Certification).

Board Finding Number 4.

The Board finds that the Application Fee received was reasonable and only in such an amount as was necessary to cover the District's costs of processing the Application under consideration.

In support of Finding 4, the Board reviewed the Application Fee payment included in the Application at Attachment A, the contract with the District's consultants and the internal costs for processing the application, if any.

Board Finding Number 5.

Based upon the Application and in the Comptroller's Economic Impact Evaluation and Certification, Attachment A, the Board finds that the number of jobs to be created and the wages to be paid comply with the requirements of statute; and, the Board further finds that the Chapter 313 Tax Limitation Agreement (Attachment G) contains all required provisions and information related to job creation requirements, to wit: the provisions set forth in Subsections 9.1C&D of such Agreement.

In its Application, Applicant has committed to creating three (3) new qualifying job. The average salary level of qualifying jobs will be at least \$48,596 per year. The review of the application by the Comptroller's indicated that this amount—based on Texas Workforce Commission data—complies with current Tex. Tax Code §313.021(3) requirement that qualifying jobs must pay 110 percent of the county average manufacturing wage. As defined in Section 313.021 of the Tax Code, "Qualifying Job" means a permanent full-time job that:

- (A) requires at least 1,600 hours of work a year;
- (B) is not transferred from one area in this state to another area in this state;
- (C) is not created to replace a previous employee;
- (D) is covered by a group health benefit plan for which the business offers to pay at least 80 percent of the premiums or other charges assessed for employee-only coverage under the plan, regardless of whether an employee may voluntarily waive the coverage; and
- (E) pays at least 110 percent of the county average weekly wage for manufacturing jobs in the county where the job is located.

Board Finding Number 6.

Based upon the information provided to the District with regard to the industry standard for staffing ratios of similar projects in the State of Texas, the District has determined that if the job creation requirement set forth in Texas Tax Code § 313.021(2)(A)(iv)(b) was applied, for the size and scope of the project described in the Application, the required number of jobs meets or exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility.

Board Finding Number 7.

The Applicant does not intend to create any non-qualifying jobs.

In its Application, Applicant has indicated that it does not intend to create any non-qualifying jobs. For all non-qualifying jobs, the Applicant should create the Applicant will be required to pay at least the county average wage of \$40,548 for all jobs in the county in accordance with the provisions of Tex. Tax Code §313.024(d).

Board Finding Number 8.

The revenue gains that will be realized by the school district if the Application is approved will be significant in the long-term, with special reference to revenues used for supporting school district debt.

In support of this finding, the analysis prepared by Moak, Casey & Associates projects that the project would initially add \$348 million to the tax base that would be available for debt service purposes at the peak investment level for the 2020-21 school year. The District does not currently levy an I&S tax rate.

Board Finding Number 9.

The effect of the applicant's proposal, if approved, on the number or size of needed school district instructional facilities is not expected to increase the District's facility needs, with current trends suggest little underlying enrollment growth based on the impact of the project.

The summary of financial impact prepared by Moak, Casey & Associates, Inc., indicates that there will be little to no impact on school facilities created by the new project. This

finding is confirmed by the TEA evaluation of this project's impact on the number and size of school facilities in the District as stated in **Attachment F**.

Board Finding Number 10.

The Board finds that with the adoption of District Policy CCG (Local), implemented in conformance with both Comptroller and Texas Education Agency Rules governing Chapter 313 Agreements, it has developed a process to verify, either directly or through its consultants, the accuracy and completeness of information in annual eligibility reports and biennial progress reports regarding (1) the reported number of jobs created and (2) the reported amount invested in the property.

Board Finding Number 11.

The Board of Trustees hired consultants to review and verify the information in the Application. Based upon the consultants' review, the Board has determined that the information provided by the Applicant is true and correct.

The Board has developed a written policy CCG (Local) which requires, upon the filing of an Application under Tax Code Chapter 313, the retention of consultants in order to verify: (1) that Applicant's information contained in the Application as to existing facts is true and correct; (2) that Applicant's information contained in the Application with respect to projections of future events are commercially reasonable and within the ability of Applicant to execute; (3) that information related to job creation is commercially reasonable and within the ability of Applicant to execute; (4) that Applicant's representations concerning and economic incentives being offered, if any, and (5) the proposed project meets eligibility requirements.

As a part of its verification process the Board notes that the Chapter 313 Application for which these Findings are being made has been submitted by the Applicant under oath. Chapter 313 Applications are governmental records under Tex. Penal Code §37.01(2)(A); as a result, all statements contained therein are representations of fact within the meaning of Tex. Penal Code § 37.01(3). Since Board action upon the adoption of these Findings and the approval of the Chapter 313 Tax Limitation Agreement (**Attachment G**) is an

“official proceeding,” a false statement on a Chapter 313 application constitutes perjury under Tex. Penal Code § 37.03.

The Board finds that sworn statements are routinely used as an acceptable verification method for reliance by fact finders in each of the three separate branches of government, including trials.

The consultants have prepared signed statements that the consultants have reviewed and verified the contents of the Application and have determined that the current statements of fact contained in the Application are true and correct. (**Attachment H**) The Board finds that reliance by the Board and its consultants upon verified statements of the Applicant, especially as to Applicant’s future intentions which cannot be objectively verified is reasonable and within the intent of Chapter 313, Texas Tax Code.

Board Finding Number 12.

The Board of Trustees has determined that the Tax Limitation Amount requested by Applicant is currently Twenty Million Dollars, which is consistent with the minimum values currently set out by Tax Code, § 313.054(a).

The Board finds that the Chapter 313 Tax Limitation Agreement (**Attachment G**), in accordance with Comptroller’s Form 50-826, contains all required provisions and information related to the required investment amount, to wit: the amount set forth in Section 2.5 of said Agreement. According to the Texas Comptroller of Public Accounts’ School and Appraisal Districts’ Property Value Study 2017 Final Findings made under Subchapter M, Chapter 403, Government Code for the preceding tax year, Attachment F. The total industrial value for the District is \$10.29 million. The District is categorized as Subchapter C, which applies only to a school district that has territory in a strategic investment area, as defined under Subchapter O, Chapter 171, Tax Code or in a county: (1) that has a population of less than 50,000 and (2) in which, from 1990 to 2000, according to the federal decennial census, the population: (A) remained the same; (B) decreased; or (C) increased, but at a rate of not more than three percent per annum. The District is classified as a “rural” district due to its demographic characteristics. Given that the value

of industrial property is more than \$1 million but less than \$90 million, it is classified as a Category III district which can offer a minimum value limitation of \$20 million.

Board Finding Number 13.

The Board finds that the Chapter 313 Tax Limitation Agreement (Attachment G) contains all necessary provisions and information related to establishing the required investment amount, to wit: the amount set forth in Section 2.5 of said Agreement.

The Board relies on the certifications of its consultants and the Comptroller's Approval of the Agreement form to make this Finding. (Attachment I)

Board Finding Number 14.

The Applicant (Taxpayer No. 32065148002) is eligible for the limitation on appraised value of qualified property as an active franchise-tax paying entity.

The Applicant, (Texas Taxpayer No. 32065148002), is an entity subject to Chapter 171, Texas Tax Code, and is certified to be an active franchise taxpayer by the Comptroller. See Attachment B. The Board also finds that the Chapter 313 Tax Limitation Agreement (Attachment G) contains all required provisions necessary for the Board to assess eligibility of any business to which an agreement is transferred.

Board Finding Number 15.

The project will be located within an area that is designated as a reinvestment zone, pursuant to Chapter 312 of the Texas Tax Code.

Board Finding Number 16.

The Agreement for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code, attached hereto as Attachment G, includes adequate and appropriate revenue protection provisions for the District, and such provisions comply with the specific terms of Texas Tax Code, Chapter 313.

In support of this finding, the report of Moak, Casey & Associates, Inc. shows that the District will incur a revenue loss in the first and subsequent years that the value limitation is in effect without the proposed Agreement. However, with this Agreement, the negative consequences of granting the value limitation are offset through the revenue protection

provisions agreed to by the Applicant and the District. The Agreement contains adequate revenue protection measures for the duration of the Agreement. In support of this Finding, the Board relies upon the recommendation of its consultants. (**Attachment H**)

Board Finding Number 17.

The Board finds that the Chapter 313 Tax Limitation Agreement (Attachment G) contains all required provisions necessary for the Board to assess performance standards and to require periodic deliverables that will enable it to hold businesses accountable for achieving desired results, to wit: the reporting requirements set forth in Article VIII of said Agreement.

Board Finding Number 18.

The Board finds that there are no conflicts of interest at the time of considering the agreement.

The Board finds that with the adoption of District Policies BBFA and BBFB, both (Legal) and (Local), set forth at <https://pol.tasb.org/Home/Index/782>, that it has taken appropriate action to ensure that all District Trustees and the Superintendent, have disclosed any potential conflicts of interest, and that such disclosures will be made if any conflict of interest arises in the future, in compliance with the requirements of Texas Local Gov't Code §171.004.

In addition, at the public hearing, the Board caused the statement set forth in **Attachment J** to be read into the public record and that only Board members audibly responding that no conflict of interest existed either deliberated or voted on the Tax Limitation Agreement, these Findings or any matter relating to the Application upon which these Findings have been premised.

The Board finds that with the adoption of District Policies DBD, DGA, DH, and BBFB, both (Legal) and (Local) that it has taken appropriate action to ensure that all District employees and/or consultants, have disclosed any potential conflicts of interest, and that such disclosures will be made if any conflict of interest arises in the future, in compliance with the requirements of Texas Local Gov't Code §171.004.

The Board finds that no non-disclosed conflicts of interest exist as to the Application for which these Findings are being made, as of the time of action on these Findings.

Board Finding Number 19.

The Board directs that a link on its Web site to the Comptroller's Office's Web site where appraisal limitation related documents are made available to the public.

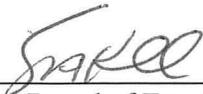

Board Finding Number 20.

Considering the purpose and effect of the law and the terms of the Agreement, that it is in the best interest of the District and the State to enter into the attached Agreement for Limitation on Appraised Value of Property for School District Maintenance and Operations Taxes.

It is therefore ORDERED that the Agreement attached hereto as **Attachment G** is approved and hereby authorized to be executed and delivered by and on behalf of the District. It is further ORDERED that these findings and the Attachments referred to herein be attached to the Official Minutes of this meeting, and maintained in the permanent records of the Board of Trustees of the District.

Dated the 11th day of February 2019.

In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Attachment 4

Detailed description of the project.

In Tab 4, attach a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

TG East Wind Project, LLC ("TG East") (the "Project") is a special purpose entity formed to facilitate the development and commercialization of a utility-scale wind energy project initiated by Northrenew Energy ("Northrenew") in conjunction with Taaleri Energia North America ("Taaleri"). Northrenew Energy, the original developer of TG East, is in the business of initiating and developing plants generating electricity from renewable energy projects.

TG East has evolved as a subset of the original "Truscott Gilliland" project which covered approximately 26,000 acres in Knox County, Texas. TG East is a separately held, wholly owned project known only under the TG East Wind Project name.

TG East Wind Project, LLC is requesting an appraised value limitation from Benjamin ISD for a proposed wind energy project using wind turbines, operational structures, and a transmission line located in Knox County. The wind farm and its associated infrastructure will be constructed within a Reinvestment Zone established by Knox County, Texas. A map showing the location of the wind farm is included as Attachment 11a. The wind farm will have an estimated capacity of 278 megawatts ("MW"). To construct the wind farm, TG East Wind Project, LLC will install 68 wind turbines all within Benjamin ISD that will have an estimated rated capacity of between 2.0 and 4.0 MW. In addition to the wind turbines, roads will be constructed and improved as necessary along with transmission lines. A collection substation and associated infrastructure will be installed to permit the interconnection and transmission of electricity generated by the wind turbines and an operations and maintenance building will be erected along with necessary utilities required for operations.

Construction of the wind farm is proposed to begin in February of 2019 and is expected to take approximately 12 months to complete, with an estimated commercial operations date by February 28th, 2020, contingent upon favorable economics for the project. The ERCOT IGNR number for the facility is 19INR0052.

**NOTE*—The maps shown in Tab 11 may provide indicative locations for turbines, O&M Facilities, collection systems, transmission lines, and associated substations. The final location of these improvements is currently under review and should be considered in draft form. The final placement will be dependent upon ongoing review and studies of the site.

Attachment 5

Documentation to assist in determining if limitation is a determining factor.

Chapter 313.026(e) states “the applicant may submit information to the Comptroller that would provide a basis for an affirmative determination under Subsection (c)(2).” If you answered “yes” to any of the questions in Section 8, attach supporting information in Tab 5.

While the wind regime for the TG East Wind Project, LLC is very good, there are currently many favorable locations for wind projects that could be developed across the US. TG East Wind Project, LLC has modeled its economics with an expectation that it will have a Limitation of Appraised Value Agreement with Benjamin ISD. Investors are looking for wind projects across the US and can locate projects in a wide variety of locations. Should TG East Wind Project, LLC be unable to develop a competitive project in Texas that is able to generate sufficient returns, these investors may deploy their investments elsewhere.

Wind farms are operating and under development in many states throughout the country. According to the American Wind Energy Association (“AWEA”) there are now 89,077 MW of installed wind capacity in the United States and over 54,000 wind turbines. At the beginning of 2017 there has been more U.S. wind power under development than ever in history with more than 13,332 MW that are currently under construction.

When completed, these projects will generate enough electricity annually to power millions of households. A graphic provided by AWEA in its market report demonstrates the national geographic diversity of successfully completed projects.

Clearly wind projects are abundant and the Applicant can locate the Project in a wide variety of locations across the United States should it be unable to develop a competitive project in Texas that is able to generate returns sufficient to attract investment capital.

Taaleri team member accomplishments include leadership roles in the development, construction, and operations of approximately 5.3 Billion Euros worth of installations. Taaleri Energia North America's President, Don Curry, has served in multiple roles across the renewable energy and finance space in the United States. His experience, combined with the overall Taaleri group's expertise, provide for a very competitive group uniquely positioned to find suitable projects across not only the State of Texas, but also global markets.

The Northrenew staff have a proven track record of sourcing strong projects and moving them through the development process. Team members have been involved in the development of over 3,500MW's of wind and over 1,000MW's of solar projects.

As such, the development resources necessary to advance the subject planned 278 MW TG East Wind Project, LLC could be redeployed to other renewable energy development projects in other power markets in the United States. TG East Wind Project, LLC, however, was formed for the express purpose of developing a wind farm that would help bring economic development to the area. Northrenew and Taaleri identified Texas, and in particular Benjamin ISD, for its strong wind resource, access to available transmission capacity, participation in the ERCOT market, and favorable property tax incentives under the Tax Code for Chapter 312 tax abatement and Chapter 313 Appraised Value Limitation.

Taaleri prefers to finalize development and build the proposed TG East Wind Project, LLC as described throughout this Application. Should the appraised value limitation be granted, TG East Wind Project, LLC has created a development and investment plan that it is capitalized to implement. Without such a limitation the Project, competing against other Texas projects that have qualified, would likely be forced to redeploy its assets and capital to other counties or states competing for similar wind projects.

Has the applicant entered into any agreements, contracts or letters of intent related to the proposed project?

TG East Wind Project, LLC was formed in 2018.

Since its formation, TG East Wind Project, LLC and its associate parties have entered into the following representative agreements and contracts for the development of a project phase within Benjamin ISD and intend to assign these assets to TG East Wind Project, LLC:

- Grants of leases and easements covering approximately 26,400 acres with 39 landowners.
- Full wind study and contract with Adams Wind
- Geotechnical study contract with Adams Wind
- Interconnection studies with AEP

Does the applicant have current business activities at the location where the proposed project will occur?

The business activities these agreements and contracts listed above will help to determine with greater certainty and granularity the feasibility of completing development of an economic renewable energy project in Benjamin ISD.

These contracts and initial investments are preliminary in nature as TG East Wind Project, LLC has determined that a value limitation agreement with Benjamin ISD is an essential economic driver to allow for the return on investment necessary to finance and construct the wind energy project.

Is the applicant evaluating other locations not in Texas for the proposed project?

Taaleri's team along with Northrenew has extensive experience in markets across the country. Based on this experience the management team evaluates all potential projects for feasibility, finance-ability, and the economic returns they represent in comparison to other project opportunities across the country.

The TG East Project is currently in such a period of assessment to determine whether the identified site in Benjamin ISD represents the best location or whether redeployment of its development resources and capital to other power markets in the United States is more advisable.

A 313 Limitation of Appraised Value Agreement is a key tax incentive agreement necessary to ensure the Project is on a level playing field with other wind projects with similar incentives and with alternative forms of generation that receive their own forms of economic support. Without the requested limitation the Project will be unable to generate sufficient operating margins and net income to produce economically competitive energy and associated returns necessary to attract tax and sponsor equity investment. Such third-party investment is mandatory to finance the projected capital costs of approximately 347M needed to purchase wind turbines and other infrastructure and to fund the construction and closing costs of the facility.

Are you submitting information to assist in the determination as to whether the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in Texas?

The information provided in this Attachment and throughout the application has been assembled to provide the reviewer with the best possible data on which to make an assessment and determination of the critical nature of the limitation on appraised value to the feasibility of the TG East Wind Project, LLC.

The applicant continually evaluates locations outside of Texas for its project development activities. The project capital that is planned to be deployed for the Applicant's project (dependent upon approval of the Appraised Value Limitation) has been considered for use in projects located in numerous states, which include Kansas, New Mexico, Colorado, Illinois, Montana, Pennsylvania, and Oklahoma.

- b. A description of any new buildings, proposed new improvements or personal property which you intend to include as part of your minimum qualified investment (Tab 7).*

TG East Wind Project, LLC plans to construct an estimated 278 MW wind farm in Knox County, located entirely within Benjamin ISD. All of the Qualified Investment for this Project is planned to be located entirely within Benjamin ISD.

The intended qualified investment includes wind turbines, foundations, collection systems, transmission lines and interconnection infrastructure, additional meteorological towers, roads, operations and maintenance facilities, and control systems necessary for commercial generation of electricity.

For purposes of this application, the Project anticipates using 2.0 to 4.0 MW turbines. Although final turbine selection and location of the infrastructure may change, all equipment outlined above is expected to be located within Benjamin ISD. Current plans are to install 68 turbines in one phase.

The exact placement of turbines is subject to ongoing planning, wind studies, engineering, and discussions with landowners and turbine manufacturers. The final number and location of turbines and supporting structures will be determined before construction begins. TG East Wind Project, LLC intends to connect to the Oncor Substation via a 345KV transmission line. All of the infrastructure will remain within the project boundary and within the Reinvestment Zone. The map in Attachment 11b shows the proposed project area with the anticipated improvement locations.

**NOTE – The maps shown in Tab 11 may provide indicative locations for turbines, O&M Facilities, collection systems, transmission lines, and associated substations. Request for Waiver of Job Creation Requirement and supporting information (if applicable).

See attached waiver request below.

TG East Wind Project, LLC

June 11th, 2018

Olivia Del Hierro Gloria
Benjamin Independent School District
300 W. Hays St., Benjamin, TX 79505

Re: Chapter 313 Job Waiver Request for TG East Wind Project, LLC

Dear Ms. Del Hierro-Gloria,

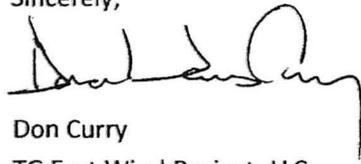

TG East Wind Project, LLC requests that the Benjamin Independent School District's Board of Trustees waive the job requirement provision as allowed by Section 313.025 (f-1) of the tax code. This waiver would be based on the school district's board findings that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application.

TG East Wind Project, LLC requests that the Benjamin Independent School District makes such a finding and waive the job creation requirement for 10 permanent jobs. In line with industry standards for job requirements, TG East Wind Project, LLC has committed to create 3 total jobs for the project, all of which will be in Benjamin I.S.D.

Wind projects create a large number of full and part-time, but temporary jobs during the construction phase of the project, but require a relatively small number of highly skilled technicians to operate and maintain the project after commercial operation commences.

The industry standard for employment is typically one full-time employee for approximately every 15 – 25 turbines. This number may vary depending on the operations and maintenance requirements of the turbines selected as well as the support and technical assistance offered by the turbine manufacturer. The permanent employees of a wind project maintain and service wind turbines, underground electrical connections, substations and other infrastructure associated with the safe and reliable operation of the project. In addition to the onsite employees, there may be managers or technicians who support the project from offsite locations.

Sincerely,

Don Curry
TG East Wind Project, LLC

**A RESOLUTION DESIGNATING A CERTAIN AREA AS A REINVESTMENT ZONE
FOR A COMMERCIAL/INDUSTRIAL TAX ABATEMENT IN KNOX COUNTY,
TEXAS, ESTABLISHING THE BOUNDARIES THEREOF, AND PROVIDING FOR AN
EFFECTIVE DATE**

WHEREAS, the Commissioners Court of Knox County, Texas (the "**County Commissioners Court**") desires to promote the development or redevelopment of a certain contiguous geographic area within its jurisdiction by the creation of a reinvestment zone as authorized by the Property Redevelopment and Tax Abatement Act, as amended (Texas Tax Code § 312.001, *et seq.*), and the Knox County Tax Abatement Guidelines and Criteria (the "**Guidelines**");

WHEREAS, on this date, a hearing before the County Commissioners Court was held, such date being at least seven (7) days after the date of publication of the notice of such public hearing in the local newspaper of general circulation in Knox County (the "**County**") and the delivery of written notice to the respective presiding officers of each taxing entity that includes within its boundaries real property that is to be included in the proposed reinvestment zone;

WHEREAS, the County Commissioners Court at such public hearing invited any interested person to appear and speak for or against the creation of the reinvestment zone and whether all or part of the territory described should be included in the proposed reinvestment zone; and

WHEREAS, the proponents of the reinvestment zone offered evidence, both oral and documentary, in favor of all of the foregoing matters relating to the creation of the reinvestment zone and opponents, if any, of the reinvestment zone appeared to contest the creation of the reinvestment zone.

BE IT RESOLVED BY THE COUNTY COMMISSIONERS COURT:

SECTION 1. That the facts and recitations contained in the preamble of this Resolution are hereby found and declared to be true and correct.

SECTION 2. That the County Commissioners Court, after conducting such hearing and having heard such evidence and testimony, has made the following findings and determinations based on the evidence and testimony presented to it:

- (a) That the public hearing on adoption of the Knox-Gilliland Reinvestment Zone has been properly called, held and conducted and that notice of such hearing has been published as required by law and mailed to the respective presiding officers of the governing bodies of all taxing units overlapping the territory inside the proposed reinvestment zone;

- (b) That the boundaries of the Knox-Gilliland Reinvestment Zone should be the area described in the legal description and corresponding map attached hereto as Exhibit "A," which is incorporated herein by reference for all purposes;
- (c) That creation of the Knox-Gilliland Reinvestment Zone will result in benefits to the County and to land included in the reinvestment zone and that the improvements sought are feasible and practical; and
- (d) The Knox-Gilliland Reinvestment Zone meets the criteria set forth in Chapter 312 of the Texas Tax Code for the creation of a reinvestment zone as set forth in the Property Redevelopment and Tax Abatement Act, as amended, and the Guidelines, in that it is reasonably likely as a result of the designation to contribute to the retention or expansion of primary employment or to attract investment in the zone that would be a benefit to the property and that would contribute to the economic development of the County, and that the entire tract of land is located entirely within an unincorporated area of the County.

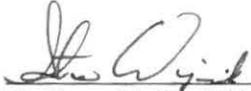

SECTION 3. That pursuant to the Property Redevelopment and Tax Abatement Act, as amended, and the Guidelines, the County Commissioners Court hereby creates the Knox-Gilliland Reinvestment Zone; a reinvestment zone for commercial-industrial tax abatement encompassing only the area described on and as shown on the map in Exhibit A, and such reinvestment zone is hereby designated and shall hereafter be referred to as the Knox-Gilliland Reinvestment Zone.

SECTION 4. That the Knox-Gilliland Reinvestment Zone shall take effect on the date of this Resolution and shall remain designated as a commercial-industrial reinvestment zone for a period of five (5) years from such date of designation, and may be renewed for an additional five (5) year period thereafter.

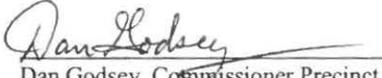

SECTION 5. That if any section, paragraph, clause or provision of this Resolution shall for any reason be held to be invalid or unenforceable, the invalidity or unenforceability of such section, paragraph, clause, or provision shall not affect any of the remaining provisions of this Resolution.

SECTION 6. That it is hereby found, determined and declared that a sufficient notice of the date, hour, place and subject, of the meeting of the County Commissioners Court at which this Resolution was adopted was posted at a place convenient and readily accessible at all times as required by the Texas Open Meetings Act, Texas Government Code, Chapter 551, as amended, and that a public hearing was held prior to the designation of such reinvestment zone and that proper notice of the hearing was published in the official newspaper of general circulation within the County, and furthermore, such notice was in fact delivered to the presiding officer of any affected taxing entity as prescribed by the Property Redevelopment and Tax Abatement Act.

KNOX COUNTY GUIDELINES AND CRITERIA

**STATE OF TEXAS
KNOX COUNTY
TAX ABATEMENT GUIDELINES AND CRITERIA**

Knox County (the "County") is committed to the promotion of quality development in all parts of Knox County and to improving the quality of life for its citizens. In order to help meet these goals, the County will consider providing Tax Abatements (as defined below) to stimulate economic development. It is the policy of the County that such an incentive will be provided in accord with the guidelines and criteria outlined in this document. All applicants for Tax Abatements shall be considered on an individual basis.

In order to be eligible for designation as a Reinvestment Zone and receive Tax Abatement, and unless otherwise approved by the County, the planned improvement:

1. must be an Eligible Facility (as defined below);
2. must add at least Five Hundred Thousand Dollars (\$500,000.00) to the tax roll of eligible property;
3. must be reasonably expected to have an increase in positive net economic benefit to Knox County of at least One Million Dollars (\$1,000,000.00) over the life of the Abatement, computed to include (but not limited to) new sustaining payroll and/or capital improvement; and
4. must not be expected to solely or primarily have the effect of transferring employment from one part of Knox County to another.

In addition to the criteria set forth above, the County reserves the right to negotiate a Tax Abatement Agreement in order to compete favorably with other communities.

Only that increase in the fair market value of the property that is a direct result of the development, redevelopment, and improvement specified in the Agreement will be eligible for Abatement and then only to the extent that such increase exceeds any reduction in the fair market value of the other property of the applicant located within the jurisdiction creating the reinvestment zone.

All Tax Abatement Agreements will be no longer than allowed by law.

It is the goal of the County to grant Tax Abatements on the same terms and conditions as the other taxing units having jurisdiction of the property. However, nothing herein shall limit the discretion of the County to consider, adopt, modify, or decline any Tax Abatement request.

This policy is effective as of the 17 day of August 2017, and shall at all times be kept current with regard to the needs of Knox County and reflective of the official views of the County, and shall be reviewed every two (2) years.

The adoption of these guidelines and criteria by the Commissioners does not:

1. limit the discretion of the governing body to decide whether to enter into a specific Tax Abatement Agreement;
2. limit the discretion of the governing body to delegate to its employees the authority to determine whether or not the governing body should consider a particular application or request for Tax Abatement; or
3. create any property, contract, or other legal right in any person to have the governing body consider or grant a specific application or request for Tax Abatement.

Eligible facilities may include, but shall not be limited to a(n):

C. **New and Existing Facilities.** Abatement may be granted for the additional value of eligible property improvement(s) made subsequent to and specified in an Abatement Agreement between the County and the property owner or lessee, subject to such limitations as the County may require.

D. **Eligible Property.** Abatement may be extended to the value of new, expanded, or modernized buildings, structures, fixed machinery and equipment, site improvements, and related fixed improvements necessary to the operation and administration of the facility, and all other real and tangible personal property permitted by Chapter 312 of the Texas Tax Code.

E. **Ineligible Property.** The following types of property shall be fully taxable and ineligible for Tax Abatement: land; animals; inventories, supplies; tools; furnishings; vehicles; vessels; aircraft; deferred maintenance investments; housing and property to be rented or leased, except as provided in Section II(F); property owned or used by the State of Texas.

Knox County Tax Abatement Guidelines and Criteria

constructed or installed thereon is owned by the lessee, the lessee shall execute the Agreement.

G. **Economic Qualifications.** In order to be eligible for designation as a reinvestment zone and receive Tax Abatement, the planned improvement:

- (1) must be an Eligible Facility;
- (2) must add at least Five Hundred Thousand Dollars (\$500,000.00) to the tax roll of eligible property;
- (3) must be reasonably expected to have an increase in positive net economic benefit to Knox County of at least One Million Dollars (\$1,000,000.00) over the life of the Abatement, computed to include (but not limited to) new sustaining payroll and/or capital improvement. The creation of (number and type) of new jobs will also factor into the decision to grant an Abatement; and
- (4) must not be expected to solely or primarily have the effect of transferring employment from one part of Knox County to another.

H. **Standards for Tax Abatement.** The following factors, among others, will be considered in determining whether to grant Tax Abatement:

- (1) value of existing improvements, if any;
- (2) type and value of proposed improvements;
- (3) productive life of proposed improvements;
- (4) number of existing jobs to be retained by proposed improvements;
- (5) number and type of new jobs to be created by proposed improvements;
- (6) amount of local payroll to be created;
- (7) whether the new jobs to be created will be filled by persons residing or projected to reside within the affected taxing jurisdiction;
- (8) amount by which property tax base valuation will be increased during the term of Abatement and after Abatement, which shall include a definitive commitment that such valuation shall not, in any case, be less than Five Hundred Thousand Dollars (\$500,000.00);
- (9) expenses to be incurred in providing facilities directly resulting from the new improvements;

(10) the amount of ad valorem taxes to be paid to the County during the Abatement period considering (a) the existing values, (b) the percentage of new value abated, (c) the Abatement period, and (d) the value after expiration of the Abatement period;

(11) the population growth of Knox County that occurs directly as a result of new improvements;

(12) the types and values of public improvements, if any, to be made by applicant seeking Abatement;

(13) whether the proposed improvements compete with existing businesses to the detriment of the local economy;

(14) the impact on the business opportunities of existing business;

(15) the attraction of other new businesses to the area;

(16) the overall compatibility with the zoning ordinances and comprehensive plan for the area; and

(17) whether the project obtains all necessary permits from the applicable environmental agencies.

Each Eligible Facility shall be reviewed on its merits utilizing the factors provided above. After such review, Abatement may be denied entirely or may be granted to the extent deemed appropriate after full evaluation.

I. Denial of Abatement. An Abatement Agreement shall not be authorized if it is determined that:

(1) there would be substantial adverse effect on the provision of government services or tax base;

(2) the applicant has insufficient financial capacity;

(3) violation of other codes or laws; or

(4) any other reason deemed appropriate by the County.

J. Taxability. From the execution of the Abatement to the end of the Agreement period, taxes shall be payable as follows:

(1) the value of ineligible property as provided in Section II(E) shall be fully taxable;

(2) the base year value of existing eligible property as determined each year shall be fully taxable; and

(3) the additional value of new eligible property shall be fully taxable at the end of the Abatement period.

SECTION III. APPLICATION

A. Any present or potential owner of taxable property in the County may request Tax Abatement by filing a written application with the Commissioners.

B. The application shall consist of a general description of the new improvements to be undertaken; a descriptive list of the improvements for which an Abatement is requested; a list of the kind, number and location of all proposed improvements of a property; a map and property description; and a time schedule for undertaking and completing the proposed improvements. In the case of modernization, a statement of the assessed value of the facility, separately stated for real and personal property, shall be given for the tax year immediately preceding the application. The Commissioners may require such financial and other information as deemed appropriate for evaluating the financial capacity and other factors pertaining to the applicant, to be attached to the application. The completed application must be accompanied by the payment of a non-refundable application fee for administrative costs and legal fees associated with the processing of the Tax Abatement request. All checks in payment of the administrative fee shall be made payable to the County. The fee for Abatement requests shall be One Thousand and No/100 Dollars (\$1,000.00).

C. The County shall give notice as provided by the Property Tax Code, including written notice to the presiding officer of the governing body of each taxing unit in which the property to be subject to the Agreement is located, not later than seven (7) days before acting upon the application.

D. The application process described in Section III(A) hereof shall be followed regardless of whether a particular reinvestment zone is created by Knox County or a taxing entity within Knox County. No other notice or hearing shall be required except compliance with the open meetings act, unless the Commissioners deem them necessary in a particular case.

SECTION IV. AGREEMENT

A. After approval, the Commissioners shall formally pass a resolution and execute an Agreement with the owner of the facility and lessee as required which shall:

(1) include a list of the kind, number and location of all proposed improvements to the property;

(2) provide access to and authorize inspection of the property by the taxing unit to insure compliance with the Agreement;

- (3) limit the use of the property consistent with the taxing unit's development goals;
- (4) provide for recapturing property tax revenues that are lost if the owner fails to make improvements as provided by the Agreement;
- (5) include each term that was agreed upon with the property owner and require the owner to annually certify compliance with the terms of the Agreement to each taxing unit; and
- (6) allow the taxing unit to cancel or modify the Agreement at any time if the property owner fails to comply with the terms of the Agreement.

SECTION V. RECAPTURE

A. In the event that the applicant or its assignee (1) allows its ad valorem taxes owed to become delinquent and fails to timely and properly follow the legal procedures for their protest and/or content; or (2) violates any of the terms and conditions of the Abatement Agreement and fails to cure during the cure period, the Agreement then may be terminated and all taxes previously abated by virtue of the Agreement will be recaptured and paid within thirty (30) days of the termination.

B. Should the County determine that the applicant or its assignee is in default according to the terms and conditions of its Agreement, the County shall notify the company or individual in writing at the address stated in the Agreement, and if such is not cured within the time set forth in such notice (the "Cure Period"), then the Agreement may be terminated.

SECTION VI. ADMINISTRATION

A. The Chief Appraiser of the Knox County Appraisal District will annually determine an assessment of the real and personal property comprising the reinvestment zone. Each year, the company or individual receiving Abatement shall furnish the appraiser with such information as may be necessary for the Abatement. Once value has been established, the Chief Appraiser will notify the Commissioners of the amount of the assessment.

B. The County may execute a contract with any other jurisdiction(s) to inspect the facility to determine if the terms and conditions of the Abatement Agreement are being met. The Abatement Agreement shall stipulate that employees and/or designated representatives of the County will have access to the reinvestment zone during the term of the Abatement to inspect the facility to determine if the terms and conditions of the Agreement are being met. All inspections will be made only after the giving of twenty-four (24) hours prior notice and will only be conducted in such manner as to not unreasonably interfere with the construction and/or operation of the facility. All inspections will be made with one or more representatives of the company or individual and in accordance with its safety standards.

C. Upon completion of construction, a designated representative of the County shall annually evaluate each facility receiving Abatement to insure compliance with the Agreement and shall formally report such evaluations to the Commissioners.

SECTION VII. ASSIGNMENT

The Abatement Agreement may be transferred and assigned by the holder to a new owner or lessee of the same facility either upon the approval by resolution of the Commissioners, or in accordance with the terms of an existing Tax Abatement Agreement. No assignment or transfer shall be approved if the parties to the existing Agreement, the new owner, or new lessee are liable to any jurisdiction for outstanding taxes or other obligations. Approval shall not be unreasonably delayed or withheld. Notice shall be given to the Commissioners at least twenty (20) days in advance of any transfer or assignment.

SECTION VIII. SUNSET PROVISION

These Guidelines and Criteria are effective upon the date of their adoption, and shall supersede and replace any and all prior guidelines and criteria for Tax Abatement in the County. These Guidelines and Criteria shall remain in force for two (2) years, unless amended by three-quarters vote of the Commissioners, at which time all reinvestment zones and Tax Abatement Agreements created pursuant to these provisions will be reviewed to determine whether the goals have been achieved. Based on such review, the Guidelines and Criteria will be modified, renewed or eliminated; provided, however, no modification or elimination of the Guidelines and Criteria shall affect Tax Abatement Agreements that have been previously approved until the parties thereto shall agree to amend such Agreements.

Re: Certificate for Limitation on Appraised Value of Property for School District Maintenance and Operations taxes by and between Benjamin Independent School District and TG East Wind Project, LLC, Application 1274

Dear Superintendent Del Hierro Gloria:

On October 16, 2018, the Comptroller issued written notice that TG East Wind Project, LLC (applicant) submitted a completed application (Application 1274) for a limitation on appraised value under the provisions of Tax Code Chapter 313.¹ This application was originally submitted on July 9, 2018, to the Benjamin Independent School District (school district) by the applicant.

This presents the results of the Comptroller's review of the application and determinations required:

- 1) under Section 313.025(h) to determine if the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C; and
- 2) under Section 313.025(d), to issue a certificate for a limitation on appraised value of the property and provide the certificate to the governing body of the school district or provide the governing body a written explanation of the Comptroller's decision not to issue a certificate, using the criteria set out in Section 313.026.

Determination required by 313.025(h)

Sec. 313.024(a) Applicant is subject to tax imposed by Chapter 171.
Sec. 313.024(b) Applicant is proposing to use the property for an eligible project.

¹ All Statutory references are to the Texas Tax Code, unless otherwise noted.

Sec. 313.024(d) Applicant has requested a waiver to create the required number of new qualifying jobs and pay all jobs created that are not qualifying jobs a wage that exceeds the county average weekly wage for all jobs in the county where the jobs are located.

Sec. 313.024(d-2) Not applicable to Application 1274.

Based on the information provided by the applicant, the Comptroller has determined that the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C.

Certificate decision required by 313.025(d)

Determination required by 313.026(c)(1)

The Comptroller has determined that the project proposed by the applicant is reasonably likely to generate tax revenue in an amount sufficient to offset the school district's maintenance and operations *ad valorem tax* revenue lost as a result of the agreement before the 25th anniversary of the beginning of the limitation period, see Attachment B.

Determination required by 313.026(c)(2)

The Comptroller has determined that the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state, see Attachment C.

Based on these determinations, the Comptroller issues a certificate for a limitation on appraised value. This certificate is contingent on the school district's receipt and acceptance of the Texas Education Agency's determination per 313.025(b-1).

The Comptroller's review of the application assumes the accuracy and completeness of the statements in the application. If the application is approved by the school district, the applicant shall perform according to the provisions of the Texas Economic Development Act Agreement (Form 50-826) executed with the school district. The school district shall comply with and enforce the stipulations, provisions, terms, and conditions of the agreement, applicable Texas Administrative Code and Chapter 313, per TAC 9.1054(i)(3).

This certificate is no longer valid if the application is modified, the information presented in the application changes, or the limitation agreement does not conform to the application. Additionally, this certificate is contingent on the school district approving and executing the agreement by December 31, 2019.

Note that any building or improvement existing as of the application review start date of October 16, 2018, or any tangible personal property placed in service prior to that date may not become "Qualified Property" as defined by 313.021(2) and the Texas Administrative Code.

Attachment C – Limitation as a Determining Factor

Tax Code 313.026 states that the Comptroller may not issue a certificate for a limitation on appraised value under this chapter for property described in an application unless the comptroller determines that “the limitation on appraised value is a determining factor in the applicant’s decision to invest capital and construct the project in this state.” This represents the basis for the Comptroller’s determination.

Methodology

Texas Administrative Code 9.1055(d) states the Comptroller shall review any information available to the Comptroller including:

- the application, including the responses to the questions in Section 8 (Limitation as a Determining Factor);
- public documents or statements by the applicant concerning business operations or site location issues or in which the applicant is a subject;
- statements by officials of the applicant, public documents or statements by governmental or industry officials concerning business operations or site location issues;
- existing investment and operations at or near the site or in the state that may impact the proposed project;
- announced real estate transactions, utility records, permit requests, industry publications or other sources that may provide information helpful in making the determination; and
- market information, raw materials or other production inputs, availability, existing facility locations, committed incentives, infrastructure issues, utility issues, location of buyers, nature of market, supply chains, other known sites under consideration.

Determination

The Comptroller **has determined** that the limitation on appraised value is a determining factor in the TG East Wind Project, LLC’s decision to invest capital and construct the project in this state. This is based on information available, including information provided by the applicant. Specifically, the comptroller notes the following:

- Per TG East Wind Project, LLC in Tab 5 of their Application for a Limitation on Appraised Value:
 - “While the wind regime for the TG East Wind Project, LLC is very good, there are currently many favorable locations for wind projects that could be developed across the US. TG East Wind Project, LLC has modeled its economics with an expectation that it will have a Limitation of Appraised Value Agreement with Benjamin ISD. Investors are looking for wind projects across the US and can locate projects in a wide variety of locations. Should TG East Wind Project, LLC be unable to develop a competitive project in Texas that is able to generate sufficient returns, these investors may deploy their investments elsewhere.”
 - “Without such a limitation the Project, competing against other Texas projects that have qualified, would likely be forced to redeploy its assets and capital to other counties or states competing for similar wind projects.”
- Supplemental information provided by the applicant stated the following:
 - A. TG East is a separately held, wholly owned project known only under the TG East Wind Project name.
 - B. The ERCOT IGNR number for the facility is 19INR0052 and was assigned on January 23, 2018.
- A February 8, 2018 news release by *Taaleri* states “Taaleri Energia Ltd has acquired the company’s first U.S. wind project. Located in Knox County, Texas, the 277 MW Truscott-Gilliland East Wind Project represents approximately USD 350 million of investment in the North American renewable power sector.”

- A July 16, 2018 *reNEWS* article states, "Finnish outfit Taaleri Energia has entered the US wind market with the acquisition of the 277MW Truscott-Gilliland East project in Texas for \$350m. The wind farm, which will be located in Knox County, will be developed with Taaleri's North American partner NorthRenew Energy. It was acquired from Truscott Gilliland Wind."

Documentation to assist in determining if limitation is a determining factor.

Chapter 313.026(e) states "the applicant may submit information to the Comptroller that would provide a basis for an affirmative determination under Subsection (c)(2)." If you answered "yes" to any of the questions in Section 8, attach supporting information in Tab 5.

While the wind regime for the TG East Wind Project, LLC is very good, there are currently many favorable locations for wind projects that could be developed across the US. TG East Wind Project, LLC has modeled its economics with an expectation that it will have a Limitation of Appraised Value Agreement with Benjamin ISD. Investors are looking for wind projects across the US and can locate projects in a wide variety of locations. Should TG East Wind Project, LLC be unable to develop a competitive project in Texas that is able to generate sufficient returns, these investors may deploy their investments elsewhere.

Wind farms are operating and under development in many states throughout the country. According to the American Wind Energy Association ("AWEA") there are now 89,077 MW of installed wind capacity in the United States and over 54,000 wind turbines. At the beginning of 2017 there has been more U.S. wind power under development than ever in history with more than 13,332 MW that are currently under construction.

When completed, these projects will generate enough electricity annually to power millions of households. A graphic provided by AWEA in its market report demonstrates the national geographic diversity of successfully completed projects.

Clearly wind projects are abundant and the Applicant can locate the Project in a wide variety of locations across the United States should it be unable to develop a competitive project in Texas that is able to generate returns sufficient to attract investment capital.

Taaleri team member accomplishments include leadership roles in the development, construction, and operations of approximately 5.3 Billion Euros worth of installations. Taaleri Energia North America's President, Don Curry, has served in multiple roles across the renewable energy and finance space in the United States. His experience, combined with the overall Taaleri group's expertise, provide for a very competitive group uniquely positioned to find suitable projects across not only the State of Texas, but also global markets.

The Northrenew staff have a proven track record of sourcing strong projects and moving them through the development process. Team members have been involved in the development of over 3,500MW's of wind and over 1,000MW's of solar projects.

As such, the development resources necessary to advance the subject planned 278 MW TG East Wind Project, LLC could be redeployed to other renewable energy development projects in other power markets in the United States. TG East Wind Project, LLC, however, was formed for the express purpose of developing a wind farm that would help bring economic development to the area. Northrenew and Taaleri identified Texas, and in particular Benjamin ISD, for its strong wind resource, access to available transmission capacity, participation in the ERCOT market, and favorable property tax incentives under the Tax Code for Chapter 312 tax abatement and Chapter 313 Appraised Value Limitation.

Taaleri prefers to finalize development and build the proposed TG East Wind Project, LLC as described throughout this Application. Should the appraised value limitation be granted, TG East Wind Project, LLC has created a development and investment plan that it is capitalized to implement. Without such a limitation the Project, competing against other Texas projects that have qualified, would likely be forced to redeploy its assets and capital to other counties or states competing for similar wind projects.

Has the applicant entered into any agreements, contracts or letters of intent related to the proposed project?

TG East Wind Project, LLC was formed in 2018.

Since its formation, TG East Wind Project, LLC and its associate parties have entered into the following representative agreements and contracts for the development of a project phase within Benjamin ISD and intend to assign these assets to TG East Wind Project, LLC:

- Grants of leases and easements covering approximately 26,400 acres with 39 landowners.
- Full wind study and contract with Adams Wind
- Geotechnical study contract with Adams Wind
- Interconnection studies with AEP

Does the applicant have current business activities at the location where the proposed project will occur?

The business activities these agreements and contracts listed above will help to determine with greater certainty and granularity the feasibility of completing development of an economic renewable energy project in Benjamin ISD.

These contracts and initial investments are preliminary in nature as TG East Wind Project, LLC has determined that a value limitation agreement with Benjamin ISD is an essential economic driver to allow for the return on investment necessary to finance and construct the wind energy project.

Is the applicant evaluating other locations not in Texas for the proposed project?

Taaleri's team along with Northrenew has extensive experience in markets across the country. Based on this experience the management team evaluates all potential projects for feasibility, finance-ability, and the economic returns they represent in comparison to other project opportunities across the country.

The TG East Project is currently in such a period of assessment to determine whether the identified site in Benjamin ISD represents the best location or whether redeployment of its development resources and capital to other power markets in the United States is more advisable.

A 313 Limitation of Appraised Value Agreement is a key tax incentive agreement necessary to ensure the Project is on a level playing field with other wind projects with similar incentives and with alternative forms of generation that receive their own forms of economic support. Without the requested limitation the Project will be unable to generate sufficient operating margins and net income to produce economically competitive energy and associated returns necessary to attract tax and sponsor equity investment. Such third-party investment is mandatory to finance the projected capital costs of approximately 347M needed to purchase wind turbines and other infrastructure and to fund the construction and closing costs of the facility.

Are you submitting information to assist in the determination as to whether the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in Texas?

The information provided in this Attachment and throughout the application has been assembled to provide the reviewer with the best possible data on which to make an assessment and determination of the critical nature of the limitation on appraised value to the feasibility of the TG East Wind Project, LLC.

The applicant continually evaluates locations outside of Texas for its project development activities. The project capital that is planned to be deployed for the Applicant's project (dependent upon approval of the Appraised Value Limitation) has been considered for use in projects located in numerous states, which include Kansas, New Mexico, Colorado, Illinois, Montana, Pennsylvania, and Oklahoma.

TAALERI PLC

PRESS RELEASE

8 February 2018

Taaleri Energia secures its first wind project in the U.S.

Taaleri Energia Ltd has acquired the company's first U.S. wind project. Located in Knox County, Texas, the 277 MW Truscott-Gilliland East Wind Project represents approximately USD 350 million of investment in the North American renewable power sector.

"This project is located in a strong wind area with excellent grid connectivity. By avoiding areas within ERCOT plagued by high levels of curtailment, the TG East project represents an excellent first American project for Taaleri," says Mr. **Taamir Fareed** who is in charge of Taaleri Energia's operations in the U.S.

Taaleri Energia is finalizing the project together with its North American development partner NorthRenew Energy. The project is planned to reach commercial operations in the end of 2019. The project was acquired from Truscott Gilliland Wind LLC, who had development assistance from Chermac Energy Corporation.

Taaleri Energia will begin negotiations for the full financing package for the project in mid-2018, and due to the project size Taaleri will be seeking co-investors to invest alongside with its renewable energy fund.

"This project is a great addition to our existing wind energy portfolio. Our strategy of working with co-investors on large-scale projects has served Taaleri well throughout global markets. We are excited to have the same opportunity in the U.S.," explains Dr. **Kai Rintala**, Managing Director of Taaleri Energia.

Taaleri has identified the North American market as one of the key market areas for renewable energy future growth. Due to the corporate social responsibility initiatives, the falling cost of

renewable technologies and flexible policy instruments, private enterprises and public institutions other than utilities signed in 2017 a record amount of 2.8 GW of contracts to purchase renewable energy power.

"Cost of energy produced by wind and solar has constantly been decreasing. It has led to a situation in several regions in the U.S. where wind and solar are cheaper to build than coal and natural gas. Therefore the future of renewables in the U.S. market looks very bright," says Fareed.

Due to the constantly growing market opportunities, Taaleri Energia is looking forward to expanding its U.S. portfolio with new wind and solar projects during 2018.

Finnish outfit Taaleri Energia has entered the US wind market with the acquisition of the 277MW Truscott-Gilliland East project in Texas for \$350m.

The wind farm, which will be located in Knox County, will be developed with Taaleri's North American partner NorthRenew Energy. It was acquired from Truscott Gilliland Wind.

Finland-based Taaleri Energia Ltd. has acquired its first U.S. wind farm, the 277 MW Truscott-Gilliland East Wind Project in Knox County, Texas.

The project represents an approximately \$350 million investment in the North American renewable power sector, the company says.

"This project is located in a strong wind area with excellent grid connectivity. By avoiding areas within ERCOT plagued by high levels of curtailment, the TG East project represents an excellent first American project for Taaleri," says Taamir

Fareed, who is in charge of Taaleri Energia's operations in the U.S.

Taaleri Energia is finalizing the project with its North American development partner, NorthRenew Energy. The wind farm is expected to reach commercial operations by the end of 2019. The project was acquired from Truscott Gilliland Wind LLC, which had development assistance from Chermac Energy Corp.

Taaleri Energia will begin negotiations for the full financing package for the project in mid-2018, and due to the project size, Taaleri will be seeking co-investors.

"This project is a great addition to our existing wind energy portfolio. Our strategy of working with co-investors on large-scale projects has served Taaleri well throughout global markets. We are excited to have the same opportunity in the U.S.," says Kai Rintala, managing director of Taaleri Energia.

Taaleri says it has identified North America as a key market area for future renewable energy growth for the company. It plans to further expand its U.S. portfolio with more wind and solar projects in 2018.

Summary of Financial Impact

**CHAPTER 313 PROPERTY VALUE LIMITATION
FINANCIAL IMPACT OF THE PROPOSED TG EAST WIND
PROJECT LLC PROJECT IN THE BENJAMIN INDEPENDENT
SCHOOL DISTRICT
(PROJECT # 1274)**

PREPARED BY

JANUARY 30, 2019

Executive Summary

TG East Wind Project LLC (Company) has requested that the Benjamin Independent School District (BISD) consider granting a property value limitation under Chapter 313 of the Tax Code, also known as the Texas Economic Development Act. In an application submitted to BISD on June 11, 2018 the Company plans to invest \$348 million to construct a renewable wind energy electric generation facility. Moak, Casey & Associates (MCA) has been retained to prepare an analysis of this value limitation and help the district navigate the overall application and agreement process.

The TG East Wind project is consistent with the state's goal to "encourage large scale capital investments in this state." When enacted as House Bill 1200 in 2001, Chapter 313 of the Tax Code granted eligibility to companies engaged in manufacturing, research and development, and renewable electric energy production to apply to school districts for property value limitations. Subsequent legislative changes expanded eligibility to clean coal projects, nuclear power generation and data centers, among others.

Under the provisions of Chapter 313, BISD may offer a minimum value limitation of \$20 million. This value limitation, under the proposed application, will begin in the 2020-21 school year and remain at that level of taxable value for Maintenance and Operations (M&O) tax purposes for ten years. The entire project value will remain taxable for I&S or debt service purposes for the term of the agreement.

MCA's initial school finance analysis is detailed in this report, incorporating the major legislative changes adopted in 2017. The overall conclusions are as follows, but please read all of the subsequent details in the report below for more information.

Total Revenue Loss Payment owed to BISD	\$4.6 million
Total Savings to Company after Revenue Loss Payment. (This does not include any supplemental benefit payments to the district.)	\$24.6 million

Application Process

After the school district has submitted an application to the Comptroller's Office (Comptroller), the Comptroller begins reviewing the application for completeness. The purpose of this review is to ensure all necessary information and attachments are included in the application before moving forward with the formal review process. The Comptroller issued a Completeness Letter for this application on October 16, 2018.

The issuance of a Completeness Letter is important because it sets the timeline for the rest of process. From the date of issuance, the Comptroller has 90 days to conduct its full review of the project and provide its certificate for a limitation on appraised value. After the certificate is received, the district has until the 150th day from the receipt of the Completeness Letter to

adopt an agreement. The Certificate for the TG East Wind Project was issued on January 11, 2019.

After the Comptroller's certificate is received, O'Hanlon, McCollom & Demerath contacted the school district to discuss the value limitation agreement and begin negotiations of the supplemental benefit payment with the Company. A final version of the agreement must be submitted to the Comptroller for review prior to final adoption by the school district's board of trustees.

Prior to final board meeting, O'Hanlon, McCollom & Demerath will provide the district with the necessary agenda language and any additional action items. The school board will review the Value Limitation Agreement and Findings of Fact that detail the project's conformance with state law. The school board will also be asked to consider the adoption of a job waiver during this meeting, as requested in the TG East Wind application.

How the 313 Agreement Interacts with Texas School Finance

M&O funding for Texas schools relies on two methods of finance: local school district property taxes and state aid. State aid consists of two components: Tier I (based on ADA, special student populations and M&O taxes at the compressed tax rate) and Tier II (based on weighted ADA for each penny of tax effort above a specified level). (For more detailed information on the school finance funding system, please review the Texas Education Agency's website ([Manuals and Presentations](#)) or ([School Finance-One Page Descriptions](#)).

Because the general school finance formula system calculates state aid entitlements using the Comptroller's certified property value for the preceding year, the first year is often problematic financially. The implementation of the value limitation often results in an M&O revenue loss to the school district in the first year of the limitation that would not be reimbursed by the state but require some type of compensation from the Company under the revenue protection provisions of the agreement. **If the full value of the project increases significantly during the value limitation period, the revenue losses may be greater than originally estimated.**

A taxpayer receiving a value limitation pays M&O taxes on the reduced value for the project in years 1-10 and receives a tax bill for I&S taxes based on the full project value throughout the qualifying and value limitation period (and thereafter).

Future legislative action on school funding could potentially affect the impact of the value limitation on the school district's finances and result in revenue-loss estimates that differ from the estimates presented in this report. In 2019, the Texas Legislature is expected to consider a major overhaul of the public-school finance system which could have an impact on future calculations under the proposed Agreement.

Underlying School District Data Assumptions

The agreement between the school district and the applicant calls for a calculation of the revenue impact of the value limitation in years 1-10 of the agreement, under whatever school finance and property tax laws are in effect in each of those years. The Basic Allotment

remained at \$5,140 and the Tier II Austin yield increased to \$106.28 for 2018-19, which is maintained for future years.

Static school district enrollment and property values are used to isolate the effects of the value limitation under the school finance system. Any previously-approved Chapter 313 projects are also factored into the M&O tax bases used, if applicable. The impact of the Chapter 313 project value returning to the total tax roll for M&O funding purposes is beyond the scope of this revenue report.

M&O Impact of the TG East Wind project on BISD

A model is established to make a calculation of the “Baseline Revenue Model” (Table 2) by adding the total value of the project to the model, without assuming a value limitation is approved. A separate model is established to make a calculation of the “Value Limitation Revenue Model” (Table 3) by adding the project’s limited value of \$20 million to the model. The difference between the two models (Table 4) indicates there will be a total revenue loss of \$4.6 million over the course of the Agreement, with nearly all the loss reflected in the first limitation year (2020-21). Nearly all reduction in M&O taxes under the limitation agreement

is offset through a reduction in recapture costs that would be owed to the state under current law.

M&O Impact on the Taxpayer

Under the assumptions used here, the potential tax savings from the value limitation total \$29.2 million over the life of the agreement. The BISD revenue losses are expected to total approximately \$4.6 million over the course of the agreement. The potential total net tax benefits (after hold-harmless payments are made) are estimated to total \$24.6 million, prior to any negotiations with TG East Wind on supplemental payments.

I&S Funding Impact on School District

The project remains fully taxable for debt services taxes, with BISD not currently levying an I&S tax rate. The project is not expected to affect school district enrollment and is expected to depreciate over the life of the agreement and beyond. Continued expansion of the project and related development could result in additional employment in the area and an increase in the school-age population, but this project is unlikely to have much impact on a stand-alone basis.

Note: School district revenue-loss estimates are subject to change based on numerous factors, including:

- Legislative and Texas Education Agency administrative changes to the underlying school finance formulas used in these calculations.
- Legislative changes addressing property value appraisals and exemptions.
- Year-to-year appraisals of project values and district taxable values.
- Changes in school district tax rates and student enrollment.

ARTICLE IV
PROTECTION AGAINST LOSS OF FUTURE DISTRICT REVENUES

Section 4.1. INTENT OF THE PARTIES. Subject only to the limitations contained in Section 7.1 of this Agreement, it is the intent of the Parties that the District shall, in accordance with the provisions

of Section 313.027(f)(1) of the TEXAS TAX CODE, be compensated by Applicant for any loss that District incurs in its Maintenance and Operations Revenue in each year of this Agreement for which this Agreement was, in any manner, a producing cause, resulting, at least in part because of or on account of, the execution of this Agreement. Such payments shall be independent of, and in addition to such other payments as set forth in Article V and Article VI in this Agreement. Subject only to the limitations contained in Section 7.1 of this Agreement, it is the intent of the Parties that the risk of any and all negative financial consequences to the District's total annual Maintenance and Operations Revenue, to which the execution of this Agreement contributed in any manner, will be borne solely by Applicant and not by District.

The Parties hereto expressly understand and agree that, for all years to which this Agreement may apply, the calculation of negative financial consequences will be defined for each applicable year in accordance with the Applicable School Finance Law, as defined in Section 1.2 above, and that such definition specifically contemplates that calculations made under this Agreement may well periodically change in accordance with changes made from time to time in the Applicable School Finance Law. The Parties further agree that the printouts and projections produced during the negotiations and approval of this Agreement are: (i) for illustrative purposes only, are not intended to be relied upon, and have not been relied upon by the Parties as a prediction of future consequences to either Party to the Agreement; (ii) are based upon Applicable School Finance Law, which is subject to change by statute, by administrative regulation, or by judicial decision at any time; and (iii) may change in future years to reflect changes in the Applicable School Finance Law.

Section 4.2. CALCULATING THE AMOUNT OF LOSS OF REVENUES BY THE DISTRICT.

Subject only to the provisions of Section 7.1 of this Agreement, the amount to be paid by Applicant to compensate District for loss of Maintenance and Operations Revenue resulting from, or on account of, this Agreement for each year starting in the year of the Application Review Start Date and ending on the Final Termination Date, the "M&O Amount" shall be determined in compliance with the Applicable School Finance Law in effect for such year and according to the following formula:

- A. Notwithstanding any other provision in this Agreement, the M&O Amount owed by Applicant to District means the Original M&O Revenue *minus* the New M&O Revenue.
- B. In making the calculations required by this Section 4.2 of this Agreement:
 - i. The Taxable Value of property for each school year will be determined under the Applicable School Finance Law as that law exists for each year for which the calculation is made.
 - ii. For purposes of this calculation, the tax collection rate on the Applicant's Qualified Property will be presumed to be one hundred percent (100%).
 - iii. If, for any year of this Agreement, the difference between the Original M&O Revenue and the New M&O Revenue, as calculated under this Section 4.2 of this Agreement, results in a negative number, the negative number will be considered to be zero.

- iv. For all calculations made for years during the Tax Limitation Period under Section 4.2 of this Agreement, Subsection ii of this subsection will reflect the Tax Limitation Amount for such year

Section 4.3. CALCULATIONS TO BE MADE BY THIRD PARTY. All calculations under this Agreement shall be made annually by an independent third party (the “Third Party”) approved each year by the District.

Section 4.4. DATA USED FOR CALCULATIONS. The calculations for payments under this Agreement shall be initially based upon the valuations placed upon the Applicant’s Qualified Investment and/or the Applicant’s Qualified Property by the Appraisal District in its annual certified tax roll submitted to the District for each Tax Year pursuant to Texas Tax Code § 26.01 on or about July 25 of each year of this Agreement. Immediately upon receipt of the valuation information by the District, the District shall submit the valuation information to the Third Party selected under Section 4.3. The certified tax roll data shall form the basis of the calculation of any and all amounts due under this Agreement. All other data utilized by the Third Party to make the calculations contemplated by this Agreement shall be based upon the best available current estimates. The data utilized by the Third Party shall be adjusted from time to time by the Third Party to reflect actual amounts, subsequent adjustments by the Appraisal District to the District’s certified tax roll or any other changes in student counts, tax collections, or other data.

Section 4.5. DELIVERY OF CALCULATIONS. On or before November 1 of each year for which this Agreement is effective, the Third Party appointed pursuant to Section 4.3 of this Agreement shall forward to the Parties a certification containing the calculations required under Sections 4.2 and/or 4.3, Article VI, and/or Section 7.1 of this Agreement in sufficient detail to allow the Parties to understand the manner in which the calculations were made. The Third Party shall simultaneously submit his, her or its invoice for fees for services rendered to the Parties, if any fees are being claimed, which fee shall be the sole responsibility of the District, but subject to the provisions of Section 4.7, below. Upon reasonable prior notice, the employees and agents of the Applicant shall have access, at all reasonable times, to the Third Party’s calculations, records, and correspondence pertaining to the calculation and fee for the purpose of verification. The Third Party shall maintain supporting data consistent with generally accepted accounting practices, and the employees and agents of the Applicant shall have the right to reproduce and retain for purpose of audit, any of these documents. The Third Party shall preserve all documents pertaining to the calculation until the Final Termination Date of this Agreement. The Applicant shall not be liable for any of the Third Party’s costs resulting from an audit of the Third Party’s books, records, correspondence, or work papers pertaining to the calculations contemplated by this Agreement.

Section 4.6. PAYMENT BY APPLICANT. The Applicant shall pay any amount determined by the Third Party to be due and owing to the District under this Agreement on or before the January 31 next following the tax levy for each year for which this Agreement is effective. By such date, the Applicant shall also pay any amount billed by the Third Party, plus any reasonable and necessary legal expenses paid by the District to its attorneys, auditors, or financial consultants for the preparation and filing of any financial reports, disclosures, or other reimbursement applications filed with or sent to the State of Texas which are, or may be required under the terms or because of the execution of this Agreement. For no Tax Year during the term of this Agreement shall the Applicant be responsible for the payment

of an aggregate amount of fees and expenses under this Section 4.6 which exceeds Fifteen Thousand Dollars (\$15,000.00).

Section 4.7. EFFECT OF PROPERTY VALUE APPEAL OR OTHER ADJUSTMENT. If at the time the Third Party selected under Section 4.3 makes its calculations under this Agreement, the Applicant has appealed any matter relating to the valuations placed by the Appraisal District on the Applicant's Qualified Property, and/or the Applicant's Qualified Property and such appeal remains unresolved, the Third Party shall base its calculations upon the values placed upon the Applicant's Qualified Property and/or the Applicant's Qualified Property by the Appraisal District.

If as a result of an appeal or for any other reason, the Taxable Value of the Applicant's Qualified Investment and/or the Applicant's Qualified Property is changed, once the determination of the new Taxable Value becomes final, the Parties shall immediately notify the Third Party who shall immediately issue new calculations for the applicable year or years using the new Taxable Value. In the event the new calculations result in a change in any amount paid or payable by the Applicant under this Agreement, the Party from whom the adjustment is payable shall remit such amounts to the other Party within thirty (30) days of the receipt of the new calculations from the Third Party.

Section 4.8. STATUTORY CHANGES AFFECTING M&O REVENUE. Notwithstanding any other provision in this Agreement, but subject to the limitations contained in Section 7.1 of this Agreement, in the event that, by virtue of statutory changes to the Applicable School Finance Law, administrative interpretations by Comptroller, Commissioner of Education, or the Texas Education Agency, or for any other reason attributable to statutory change, District will receive less Maintenance and Operations Revenue, or, if applicable, will be required to increase its payment of funds to the State, because of its participation in this Agreement, Applicant shall make payments to District, up to the revenue protection amount limit set forth in Section 7.1, that are necessary to offset any negative impact on District's Maintenance and Operations Revenue, as a result of its participation in this Agreement. Such calculation shall take into account any adjustments to the amount calculated for the current fiscal year that should be made in order to reflect the actual impact on District.

Section 4.9. REVENUE PROTECTION PAYMENT FOR FIRST YEAR OF LIMITATION. The Parties agree that the amount calculated by the Third Party for the first year of the Tax Limitation Period will be paid to the District in four equal installments. Each installment payment is due on or before the January 31 next following the tax levy for each of the first four years of the Tax Limitation Period. All payments made by the Applicant to the District under this Section 4.9 will be independent of and in addition to any payments due in the future from the Applicant to the District under this Agreement.

ARTICLE V

Section 5.1. EXTRAORDINARY EXPENSES. In addition to the amounts determined pursuant to Section 4.2 of this Agreement above, Applicant on an annual basis shall also indemnify and reimburse District for the following: all non-reimbursed costs, certified by District's external auditor to have

C. The limitation in Section 6.2.A does not apply to amounts described by Section 313.027(f)(1)– (2) of the TEXAS TAX CODE as implemented in Articles IV and V of this Agreement; and

D. For purposes of this Agreement, the calculation of the limit of the annual Supplemental Payment shall be the greater of \$50,000 or \$100 multiplied by the District’s Average Daily Attendance as calculated pursuant to Section 42.005 of the TEXAS EDUCATION CODE, based upon the District’s Average Daily Attendance for the previous school year.

In calculating any amount owed under this provision, Applicant shall be entitled to a credit for all payments made to the District under the chart set forth in the foregoing paragraph. Any designation of an alternative entity must be made by recorded vote of the District's Board of Trustees at a properly posted public Board meeting. Any such designation will become effective after public vote and the delivery of notice of said vote to the Applicant in conformance with the provisions of Section 10.1, below. After receipt of the notice, the Applicant shall be given ninety (90) days to present any facts or arguments to the Board of Trustees showing that it is not in breach of its obligations under this Agreement, or that it has cured or undertaken to cure any such breach.

B. If the Board of Trustees is not satisfied with such response or that such breach has been cured, then the Board of Trustees shall, after reasonable notice to the Applicant, conduct a hearing called and held for the purpose of determining whether such breach has occurred and, if so, whether such breach has been cured. At any such hearing, the Applicant shall have the opportunity, together with their counsel, to be heard before the Board of Trustees. At the hearing, the Board of Trustees shall make findings as to:

- i. whether or not a breach of this Agreement has occurred;
- ii. whether or not such breach is a Material Breach;
- iii. the date such breach occurred, if any; and
- iv. whether or not any such breach has been cured.

C. In the event that the Board of Trustees determines that such a breach has occurred and has not been cured, it shall at that time determine:

Section 9.3. DISPUTE RESOLUTION.

A. After receipt of notice of the Board of Trustees’ Determination of Breach and Notice of Contract Termination under Section 9.2, the Applicant shall have not greater than thirty (30) days in which either to tender payment or evidence of its efforts to cure, or to initiate mediation of the dispute by written notice to the District, in which case the District and the Applicant shall be required to make a good faith effort to resolve, without resort to litigation and within thirty (30) days after the Applicant initiates mediation, such dispute through mediation with a mutually agreeable mediator and at a mutually convenient time and place for the mediation. If the Parties are unable to agree on a mediator, a mediator shall be selected by the senior state district court judge then presiding in Knox County. The Parties agree to sign a document that provides the mediator and the mediation will be governed by the provisions of Chapter 154 of the TEXAS CIVIL PRACTICE AND REMEDIES CODE and such other rules as the mediator shall prescribe. With respect to such mediation, (i) the District shall bear one-half of such mediator’s fees and expenses and the Applicant shall bear one-half of such mediator’s fees and expenses and (ii) otherwise each Party shall bear all of its costs and expenses (including attorneys’ fees) incurred in connection with such mediation.

B. In the event that any mediation is not successful in resolving the dispute or that payment is not received within the time period described for mediation in Section 9.3.A, either the District or the Applicant may seek a judicial declaration of their respective rights and duties under this Agreement or otherwise, in a judicial proceeding in a state district court in Knox County, assert any rights or defenses, or seek any remedy in law or in equity, against the other Party with respect to any claim relating to any breach, default, or nonperformance of any contract, agreement or undertaking made by a Party pursuant to this Agreement.

C. If payments become due under this Agreement and are not received before the expiration of the 30 days provided for such payment in Section 9.3.A, and if the Applicant has not contested such payment calculations under the procedures set forth herein, including judicial proceedings, the District shall have the remedies for the collection of the amounts determined under Section 9.4 as are set forth in Chapter 33, Subchapters B and C, of the TEXAS TAX CODE for the collection of delinquent taxes. In the event that the District successfully prosecutes legal proceedings under this

section, the Applicant shall also be responsible for the payment of attorney's fees to the attorneys representing the District pursuant to Section 6.30 of the TEXAS TAX CODE and a tax lien shall attach to the Applicant's Qualified Property and the Applicant's Qualified Investment pursuant to Section 33.07 of the TEXAS TAX CODE to secure payment of such fees.

Section 9.4. CONSEQUENCES OF EARLY TERMINATION OR OTHER BREACH BY APPLICANT.

A. In the event that the Applicant terminates this Agreement without the consent of the District, except as provided in Section 7.2 of this Agreement, the Applicant shall pay to the District liquidated damages for such failure within thirty (30) days after receipt of the notice of breach.

B. In the event that the District determines that the Applicant has failed to comply in any material respect with the terms of this Agreement or to meet any material obligation under this Agreement, the Applicant shall pay to the District liquidated damages, as calculated by Section 9.4.C, prior to, and the District may terminate the Agreement effective on the later of: (i) the expiration of the (60) days provided for in Section 9.3.A, and (ii) thirty (30) days after any mediation and judicial proceedings initiated pursuant to Sections 9.3.A and 9.3.B are resolved in favor of the District.

C. The sum of liquidated damages due and payable shall be the sum total of the District ad valorem taxes for all of the Tax Years for which a tax limitation was granted pursuant to this Agreement prior to the year in which the default occurs that otherwise would have been due and payable by the Applicant to the District without the benefit of this Agreement, including penalty and interest, as calculated in accordance with Section 9.4.E. For purposes of this liquidated damages calculation, the Applicant shall be entitled to a credit for all payments made to the District pursuant to Articles IV, V, and VI. Upon payment of such liquidated damages, the Applicant's obligations under this Agreement shall be deemed fully satisfied, and such payment shall constitute the District's sole remedy.

D. In the event that the District determines that the Applicant has committed a Material Breach identified in Section 9.1, after the notice and mediation periods provided by Sections 9.2 and 9.3, then the District may, in addition to the payment of liquidated damages required pursuant to Section 9.4.C, terminate this Agreement.

E. In determining the amount of penalty or interest, or both, due in the event of a breach of this Agreement, the District shall first determine the base amount of recaptured taxes less all credits under Section 9.4.C owed for each Tax Year during the Tax Limitation Period. The District shall calculate penalty or interest for each Tax Year during the Tax Limitation Period in accordance with the methodology set forth in Chapter 33 of the TEXAS TAX CODE, as if the base amount calculated for such Tax Year less all credits under Section 9.4.C had become due and payable on February 1 of the calendar year following such Tax Year. Penalties on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(a) of the TEXAS TAX CODE, or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(c) of the TEXAS TAX CODE, or its successor statute.

Section 9.5. LIMITATION OF OTHER DAMAGES. Notwithstanding anything contained in this Agreement to the contrary, in the event of default or breach of this Agreement by the Applicant, the District's damages for such a default shall under no circumstances exceed the amounts calculated under Section 9.4. In addition, the District's sole right of equitable relief under this Agreement shall be its right to terminate this Agreement. The Parties further agree that the limitation of damages and remedies set forth in this Section 9.5 shall be the sole and exclusive remedies available to the District, whether at law or under principles of equity.

Section 9.6. STATUTORY PENALTY FOR INADEQUATE QUALIFIED INVESTMENT. Pursuant to Section 313.0275 of the TEXAS TAX CODE, in the event that the Applicant fails to make \$20,000,000 of Qualified Investment, in whole or in part, during the Qualifying Time Period, the Applicant is liable to the State for a penalty. The amount of the penalty is the amount determined by: (i) multiplying the maintenance and operations tax rate of the school district for that tax year that the penalty is due by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the Tax Year the penalty is due. This penalty shall be paid on or before February 1 of the year following the expiration of the Qualifying Time Period and is subject to the delinquent penalty provisions of Section 33.01 of the TEXAS TAX CODE. The Comptroller may grant a waiver of this penalty in the event of Force Majeure which prevents compliance with this provision.

Section 9.7. REMEDY FOR FAILURE TO CREATE AND MAINTAIN REQUIRED NEW QUALIFYING JOBS. Pursuant to Section 313.0276 of the TEXAS TAX CODE, for any full Tax Year that commences after the project has become operational, in the event that it has been determined that the Applicant has failed to meet the job creation or retention requirements defined in Sections 9.1.C, the Applicant shall not be deemed to be in Material Breach of this Agreement until such time as the Comptroller has made a determination to rescind this Agreement under Section 313.0276 of TEXAS TAX CODE, and that determination is final.

Section 9.8. REMEDY FOR FAILURE TO CREATE AND MAINTAIN COMMITTED NEW QUALIFYING JOBS

A. In the event that the Applicant fails to create and maintain the number of New Qualifying Jobs specified in Schedule C of the Application, an event constituting a Material Breach as defined in Section 9.1.D, the Applicant and the District may elect to remedy the Material Breach through a penalty payment.

B. Following the notice and mediation periods provided by Sections 9.2 and 9.3, the District may request the Applicant to make a payment to the State in an amount equal to: (i) multiplying the maintenance and operations tax rate of the school district for that Tax Year that the Material Breach occurs by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the market value of the property identified on the Appraisal District's records for each tax year the Material Breach occurs.

C. In the event that there is no tax limitation in place for the tax year that the Material Breach occurs, the payment to the State shall be in an amount equal to: (i) multiplying the maintenance and operations tax rate of the School District for each tax year that the Material Breach occurs by (ii) the amount obtained after subtracting (a) the tax limitation amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the last Tax Year for which the Applicant received a tax limitation.

D. The penalty shall be paid no later than 30 days after the notice of breach and is subject to the delinquent penalty provisions of Section 33.01 of the TEXAS TAX CODE.

Conflict Of Interest Disclosure

Conflicts of Interest Disclosure Procedure

In its recent audits of Chapter 313 Agreements, The Texas State Auditor's Office has required documentation of inquiries concerning Board Member conflicts of interest at critical junctions in the Chapter 313 approval process. A local public official or a person related to a local public official in the first degree by either affinity or consanguinity has a substantial interest in a business entity or in real property, the local public official, before a vote or decision on any matter involving the business entity or the real property, is required to file an affidavit with an official Board record keeper stating the nature and extent of the interest and shall abstain from further participation in the matter if:

1. In the case of a substantial interest in a business entity, the action on the matter will have a special economic effect on the business entity that is distinguishable from the effect on the public; or
2. In the case of a substantial interest in real property, it is reasonably foreseeable that an action on the matter will have a special economic effect on the value of the property, distinguishable from its effect on the public.
3. A person has a substantial interest in a business entity if:
The person owns at least:
 - a. Ten percent of the voting stock or shares of the business entity, or
 - b. Either ten percent or \$15,000 of the fair market value of the business entity; or
 - c. Funds received by the person from the business entity exceed ten percent of the person's gross income for the previous year.
4. In the case of a substantial interest in real property, it is reasonably foreseeable that an action on the matter will have a special economic effect on the value of the property, distinguishable from its effect on the public.

The Board may contract with a business entity in which a Trustee has a substantial interest if the Trustee follows the disclosure and abstention procedure set out above.

Does any Board Member have a conflict of interest as defined above?

If so, has the required Affidavit, set forth at District Policy BBFA (Exhibit) been filed?

Please have the answers to the foregoing 2 questions and a copy of this Procedure included in the minutes of this meeting.
