Application

# Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

**INSTRUCTIONS:** This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
  - the date on which the school district received the application;
  - the date the school district determined that the application was complete;
  - the date the school board decided to consider the application; and
  - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at [comptroller.texas.gov/economy/local/ch313/](http://comptroller.texas.gov/economy/local/ch313/). Detailed Description of Project

Myrtle Solar, LLC (Myrtle) is requesting an appraised value limitation form Danbury Independent School District (Danbury ISD) for the Myrtle Solar Project (Project). The Project is a solar-powered electric generating facility in Brazoria County, and will be constructed within a Reinvestment Zone to be established. A map of the Project and the proposed Reinvestment Zone is included in Tab 11.

The Project is anticipated to have a capacity of approximately 200MW located in Danbury and Angleton ISDs. No agreement is being pursued with Angleton ISD for the portion of the project located there, and this agreement is requested only for the portion of the project located in Danbury ISD (Approximately 80%). Maps clearly identifying the amount of property located in each district are included in Tab 11.

The applicant requests that this agreement cover all equipment and facilities located in Danbury ISD, including but not limited to solar modules and panels, racking and mounting structures, inverters, boxes, combiner boxes, meteorological equipment, foundations, roadways, operations and maintenance building, paving, fencing, collection systems, electrical substations, generation transmission lines and towers, and interconnection facilities.

Full construction of the project is anticipated to begin in December of 2019 with completion anticipated for the following December (2020)

# Tab 5

Limitation as a Determining Factor

The applicant's parent company, SunChase Power LLC is a renewable energy company focused on developing utility-scale and large industrial behind-the-meter solar energy projects. They work with landowners and large industrial electricity users to identify promising locations for profitable solar energy projects, and bring those projects to market. SunChase is active throughout the Southern US and has the ability to locate projects of this type in other states with strong solar characteristics and more favorable tax environments. SunChase is currently developing projects in Texas, Oklahoma, Louisiana, Arkansas, Mississippi, Tennessee, and Florida. Property taxes are often the highest operating expense for a solar generation facility, as solar plants do not have any associated fuel costs to produce electricity. Further, with the Texas wholesale electricity price already below the international average, the necessity of limiting the property tax liability becomes paramount. The magnitude at which tax expenses affect the feasibility of a project is what causes agreements like the Ch. 313 to be so important to companies like this applicant. If the 313 is not granted, the rate of return drops too low for investors to tolerate, and the capital once allocated to the project must be reapportioned to out-of-state projects with better cash flows (due to tax incentives and higher wholesale electricity rates). Effectively, whether or not the project is built hinges heavily on the execution of a 313 agreement.

Description of Qualified Investment

Myrtle Solar LLC plans to construct a 200MW solar farm in Brazoria County.

This application is intended to cover all qualified property within Danbury ISD necessary for the commercial operations of the proposed solar farm described in Tab 4. At least one hundred sixty megawatts (160MW) will be in Danbury ISD. Panel placement is subject to change, but for purposes of this application, the Project anticipates using approximately 640,000 PV Modules or equivalent and 80 inverters.

The applicant requests that this agreement cover all qualified investment and qualified property necessary for the commercial operations of the solar farm.

Qualified property and investment includes but is not limited to solar modules and panels, racking and mounting structures, inverters, boxes, combiner boxes, meteorological equipment, foundations, roadways, operations and maintenance building, paving, fencing, collection systems, electrical substations, generation transmission lines and towers, interconnection facilities, and control systems necessary for commercial generation of electricity.

Request for Waiver of Job Requirements

June 8<sup>th</sup>, 2018

Mr. Greg Anderson, Superintendent  
Danbury Independent School District  
5611 Panther Drive  
Danbury, Texas 79501

**RE: Chapter 313 Job Waiver Request**

Dear Mr. Anderson,

Myrtle Solar LLC requests that the Danbury Independent School District's Board of Trustees waive the job requirement provision as allowed by Section 313.025(f-1) of the tax code. This waiver would be based on the school district's board findings that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application.

Myrtle Solar LLC requests that the Danbury ISD makes such finding and waive the job creation requirement for 10 permanent jobs. In line with current industry standards for job requirements, Myrtles Solar LLC has committed to create two (2) qualifying job in Danbury ISD.

Solar projects create many full and part-time, but temporary jobs during the construction phase of the project. However, they require a relatively small number of highly-skilled technicians to operate and maintain the project after commercial operation commences. The number of jobs committed to in this application is in line with the industry standards for a solar project this size. This is evidenced by previously certified limitation agreement applications by solar developers who also requested and were granted a waiver of the job requirements.

The permanent employees of a solar project maintain and service PV panels and inverters, underground electrical connections, substations and other infrastructure associated with the safe and reliable operation of the project. In addition to the onsite employees, there may be managers or technicians who support the project from offsite locations.

Sincerely,

Mike Fry,  
Director-Energy Services

## Description of the Reinvestment Zone

\*Currently Danbury ISD plans to hold the public hearing and post action for adoption of the reinvestment zone at the same meeting the Board considers final approval of the application from Myrtle Solar LLC. We anticipate the Board meeting will be scheduled sometime in September or October of 2018. Because the public hearing requires advance publication notice in a newspaper of general circulation, the posting of the action to create the re-investment will be done accordingly.
