RE: Application to the La Villa Independent School District from Monte Alto Windpower, LLC

To the Local Government Assistance & Economic Analysis Division:

By copy of this letter transmitting the application for review to the Comptroller's Office, the La Villa Independent School District is notifying Monte Alto Windpower, LLC of its intent to consider the application for appraised value limitation on qualified property should a positive certificate be issued by the Comptroller. The Applicant submitted the Application to the school district on February 18, 2019. The Board voted to accept the application on February 22, 2019. The application has been determined complete as of March 8, 2019. The Applicant has provided the schedules in both electronic format and paper copies. The electronic copy is identical to the hard copy that will be hand delivered.

The Applicant has requested that a portion of Tab 11, specifically the detailed layout of the planned wind farm, be kept confidential until such time the Board votes to approve the application. In accordance with 34 TAC 9.1053, the information that is the subject of this request is segregated from the materials submitted contemporaneously with this application, that is, the proprietary commercial information regarding the competitive siting decisions for the possible project and proprietary information regarding the proposed layout of the project. The confidential materials are being submitted separately to protect against unintended disclosure. The maps depicting the planned location of the project display proprietary commercial information regarding the specific location of the possible project and the nature of the business that will be conducted at the site. The materials are protected by the trade secret exception set forth in Texas Government Code §552.110.

A copy of the application will be submitted to the Hidalgo County Appraisal District.

Sincerely,

Kevin O'Hanlon  
School District Consultant

# Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

**INSTRUCTIONS:** This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
  - the date on which the school district received the application;
  - the date the school district determined that the application was complete;
  - the date the school board decided to consider the application; and
  - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at [comptroller.texas.gov/economy/local/ch313/](http://comptroller.texas.gov/economy/local/ch313/). There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

- 3. Does the qualified investment meet the requirements of Tax Code §313.021(1)? .....  Yes  No
- 4. Attach a description of the qualified investment [See §313.021(1).] The description must include:
  - a. a specific and detailed description of the qualified investment you propose to make on the property for which you are requesting an appraised value limitation as defined by Tax Code §313.021 (**Tab 7**);
  - b. a description of any new buildings, proposed new improvements or personal property which you intend to include as part of your minimum qualified investment (**Tab 7**); and
  - c. a detailed map of the qualified investment showing location of tangible personal property to be placed in service during the qualifying time period and buildings to be constructed during the qualifying time period, with vicinity map (**Tab 11**).
- 5. Do you intend to make at least the minimum qualified investment required by Tax Code §313.023 (or §313.053 for Subchapter C school districts) for the relevant school district category during the qualifying time period? .....  Yes  No

**SECTION 12: Qualified Property**

1. Attach a detailed description of the qualified property. [See §313.021(2)] (If qualified investment describes qualified property exactly, you may skip items a, b and c below.) The description must include:
  - 1a. a specific and detailed description of the qualified property for which you are requesting an appraised value limitation as defined by Tax Code §313.021 (Tab 8);
  - 1b. a description of any new buildings, proposed new improvements or personal property which you intend to include as part of your qualified property (Tab 8); and
  - 1c. a map of the qualified property showing location of new buildings or new improvements with vicinity map (Tab 11).
  
2. Is the land upon which the new buildings or new improvements will be built part of the qualified property described by §313.021(2)(A)?  Yes  No
  - 2a. If yes, attach complete documentation including:
    - a. legal description of the land (Tab 9);
    - b. each existing appraisal parcel number of the land on which the new improvements will be constructed, regardless of whether or not all of the land described in the current parcel will become qualified property (Tab 9);
    - c. owner (Tab 9);
    - d. the current taxable value of the land. Attach estimate if land is part of larger parcel (Tab 9); and
    - e. a detailed map showing the location of the land with vicinity map (Tab 11).
  
3. Is the land on which you propose new construction or new improvements currently located in an area designated as a reinvestment zone under Tax Code Chapter 311 or 312 or as an enterprise zone under Government Code Chapter 2303?  Yes  No
  - 3a. If yes, attach the applicable supporting documentation:
    - a. evidence that the area qualifies as a enterprise zone as defined by the Governor's Office (Tab 16);
    - b. legal description of reinvestment zone (Tab 16);
    - c. order, resolution or ordinance establishing the reinvestment zone (Tab 16);
    - d. guidelines and criteria for creating the zone (Tab 16); and
    - e. a map of the reinvestment zone or enterprise zone boundaries with vicinity map (Tab 11)
  - 3b. If no, submit detailed description of proposed reinvestment zone or enterprise zone with a map indicating the boundaries of the zone on which you propose new construction or new improvements to the Comptroller's office within 30 days of the application date. What is the anticipated date on which you will submit final proof of a reinvestment zone or enterprise zone? \_\_\_\_\_ N/A

**SECTION 13: Information on Property Not Eligible to Become Qualified Property**

1. In Tab 10, attach a specific and detailed description of all **existing property**. This includes buildings and improvements existing as of the application review start date (the date the application is determined to be complete by the Comptroller). The description must provide sufficient detail to locate all existing property on the land that will be subject to the agreement and distinguish existing property from future proposed property.
2. In Tab 10, attach a specific and detailed description of all **proposed new property that will not become new improvements** as defined by TAC 9.1051. This includes proposed property that: functionally replaces existing or demolished/removed property; is used to maintain, refurbish, renovate, modify or upgrade existing property; or is affixed to existing property; or is otherwise ineligible to become qualified property. The description must provide sufficient detail to distinguish existing property (question 1) and all proposed new property that cannot become qualified property from proposed qualified property that will be subject to the agreement (as described in Section 12 of this application).
3. For the property not eligible to become qualified property listed in response to questions 1 and 2 of this section, provide the following supporting information in Tab 10:
  - a. maps and/or detailed site plan;
  - b. surveys;
  - c. appraisal district values and parcel numbers;
  - d. inventory lists;
  - e. existing and proposed property lists;
  - f. model and serial numbers of existing property; or
  - g. other information of sufficient detail and description.
  
4. Total estimated market value of existing property (that property described in response to question 1): \$ \_\_\_\_\_ 0.00
5. In Tab 10, include an appraisal value by the CAD of all the buildings and improvements existing as of a date within 15 days of the date the application is received by the school district.
  
6. Total estimated market value of proposed property not eligible to become qualified property (that property described in response to question 2): \$ \_\_\_\_\_ 0.00

**Note:** Investment for the property listed in question 2 may count towards qualified investment in Column C of Schedules A-1 and A-2, if it meets the requirements of 313.021(1). Such property cannot become qualified property on Schedule B.

SECTION 14: Wage and Employment Information

1. What is the estimated number of permanent jobs (more than 1,600 hours a year), with the applicant or a contractor of the applicant, on the proposed qualified property during the last complete quarter before the application review start date (date your application is finally determined to be complete)? ..... 0
2. What is the last complete calendar quarter before application review start date:  
 First Quarter     Second Quarter     Third Quarter     Fourth Quarter of 2018  
(year)
3. What were the number of permanent jobs (more than 1,600 hours a year) this applicant had in Texas during the most recent quarter reported to the Texas Workforce Commission (TWC)? ..... 0  
**Note:** For job definitions see TAC §9.1051 and Tax Code §313.021(3).
4. What is the number of new qualifying jobs you are committing to create? ..... 3
5. What is the number of new non-qualifying jobs you are estimating you will create? ..... 0
6. Do you intend to request that the governing body waive the minimum new qualifying job creation requirement, as provided under Tax Code §313.025(f-1)? .....  Yes     No
  - 6a. If yes, attach evidence in **Tab 12** documenting that the new qualifying job creation requirement above exceeds the number of employees necessary for the operation, according to industry standards.
7. Attach in **Tab 13** the four most recent quarters of data for each wage calculation below, including documentation from the TWC website. The final actual statutory minimum annual wage requirement for the applicant for each qualifying job — which may differ slightly from this estimate — will be based on information from the four quarterly periods for which data were available at the time of the application review start date (date of a completed application). See TAC §9.1051(21) and (22).
  - a. Average weekly wage for all jobs (all industries) in the county is ..... 658.75
  - b. 110% of the average weekly wage for manufacturing jobs in the county is ..... 861.58
  - c. 110% of the average weekly wage for manufacturing jobs in the region is ..... 785.91
8. Which Tax Code section are you using to estimate the qualifying job wage standard required for this project? .....  §313.021(5)(A) or  §313.021(5)(B)
9. What is the minimum required annual wage for each qualifying job based on the qualified property? ..... 40,867.32
10. What is the annual wage you are committing to pay for each of the new qualifying jobs you create on the qualified property? ..... 40,867.32
11. Will the qualifying jobs meet all minimum requirements set out in Tax Code §313.021(3)? .....  Yes     No
12. Do you intend to satisfy the minimum qualifying job requirement through a determination of cumulative economic benefits to the state as provided by §313.021(3)(F)? .....  Yes     No
  - 12a. If yes, attach in **Tab 12** supporting documentation from the TWC, pursuant to §313.021(3)(F).
13. Do you intend to rely on the project being part of a single unified project, as allowed in §313.024(d-2), in meeting the qualifying job requirements? .....  Yes     No
  - 13a. If yes, attach in **Tab 6** supporting documentation including a list of qualifying jobs in the other school district(s).

SECTION 15: Economic Impact

1. Complete and attach Schedules A1, A2, B, C, and D in **Tab 14**. Note: Excel spreadsheet versions of schedules are available for download and printing at URL listed below.
2. Attach an Economic Impact Analysis, if supplied by other than the Comptroller's Office, in **Tab 15**. (*not required*)
3. If there are any other payments made in the state or economic information that you believe should be included in the economic analysis, attach a separate schedule showing the amount for each year affected, including an explanation, in **Tab 15**.

## Attachment 4

### *Detailed description of the project.*

***In Tab 4, attach a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.***

Monte Alto Windpower, LLC, (“Monte Alto”) is a special purpose entity formed to facilitate the development and commercialization of a utility-scale wind energy project. Terra-Gen Development Company, LLC, (“Terra-Gen”) the exclusive developer of Monte Alto, is in the business of initiating, developing, producing and owning and operating electricity from renewable energy projects including wind, solar, and geothermal.

Terra-Gen currently has many projects in development across the United States and is evaluating other renewable energy project opportunities across the country.

Monte Alto Windpower, LLC was recently created for the purpose of interconnecting Monte Alto into the ERCOT market and there are no existing 312 or 313 agreements in place for this project. Monte Alto is requesting an appraised value limitation from La Villa ISD for a proposed wind energy project using wind turbines and transmission located in Hidalgo and Cameron Counties. Monte Alto will NOT be requesting an appraised value of limitation for the portion of the project located within the La Feria ISD school district boundary. The wind farm and its associated infrastructure will be constructed within the jurisdiction of La Villa ISD, Mercedes ISD, Santa Rosa ISD, and La Feria ISD and located within Hidalgo & Cameron Counties, Texas. A map showing the location of the wind farm is included as Attachment 11a.

The wind farm will have an estimated capacity of 201 megawatts (“MW”). To construct the wind farm, Monte Alto expects: 88 wind turbines comprised of 82 wind turbines with a nameplate capacity of 2.2 Megawatts (“MW”) and 6 wind turbines with a nameplate capacity of 3.45MW of which:

- 47 wind turbines being within the La Villa ISD boundaries,
- 15 wind turbines within the Mercedes ISD boundaries,
- 22 wind turbines within the Santa Rosa ISD boundaries, and
- 4 wind turbines within the La Feria ISD boundaries.

In addition to the wind turbine generating units, there will be the supporting electrical collection system and roads to be constructed and improved as necessary, as well as a collection substation to permit the interconnection and transmission of electricity generated by the wind turbines, and an operations and maintenance building constructed within the Project’s boundary.

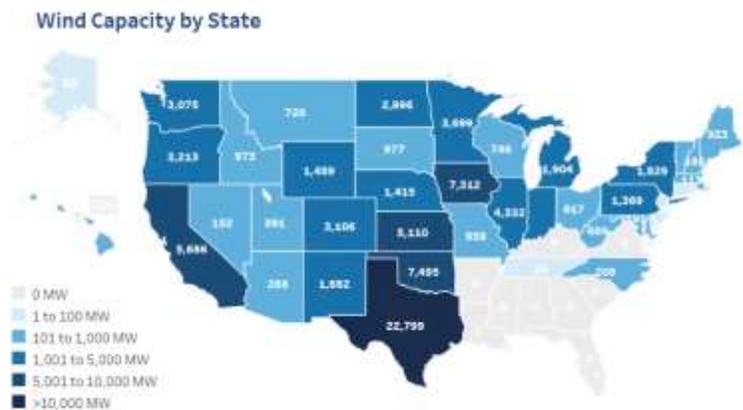

Construction of the wind farm is expected to take approximately 12 months to complete, contingent upon favorable economics for the project.

While the wind regime for Monte Alto is very good, there are many favorable locations for wind projects that could be developed across the United States. Monte Alto has modeled its economics with an expectation that having a Limitation of Appraised Value Agreements with La Villa ISD, Mercedes ISD, and Santa Rosa ISD as a key and invaluable portion of the project.

In today’s competitive energy market, project investors and power purchasers require wind energy projects to have secured tax incentives, so that they can compete with wind projects across the U.S. and can locate projects in a wide variety of locations should Monte Alto be unable to develop a competitive project in Texas that is able to generate returns sufficient to attract investment capital.

Wind farms are operating and under development in many states throughout the country. According to the American Wind Energy Association (“AWEA”) there are now over 54,000 turbines with a combined capacity of 89,379 MW operating in 41 states within the United States, Guam and Puerto Rico. During 2017, the U.S. wind industry grew 9% adding 7,017 MW of new wind power capacity. During the first quarter of 2018, the U.S. wind industry installed an additional 406 MW of wind power capacity.

A graphic provided by AWEA demonstrates the national geographic diversity of capacity throughout the United States for 2017.

Clearly locations for the development of wind projects are abundant and the Applicant can locate a project in a wide variety of locations across the United States, should it be unable to develop a competitive project in Texas that is able to generate returns sufficient enough to attract investment capital.

Terra-Gen, the developer of Monte Alto Windpower, LLC, is a national developer of wind projects, and has operations across the US and states within the contiguous United States. As construction is one of the most significant costs in creating wind farm, the physical improvements of the Monte Alto, once completed, cannot be feasibly moved to another location. The wind turbines and supporting infrastructure are long-lived assets engineered and designed specifically for this project location. The cost of installing the improvements on the site is substantial and the cost to remove, redesign, and relocate the improvements to a different location would be prohibitive.

Monte Alto Windpower, LLC was formed for the express purpose of developing a community sponsored wind farm that would help bring significant economic development to an area that is historically economically distressed. Terra-Gen identified Texas, and in particular Hidalgo & Cameron Counties, for its strong wind resource, access to available transmission capacity and the

ERCOT market, and favorable property tax incentives under the Tax Code for Chapter 312 abatement and Chapter 313 Appraised Value Limitation.

Terra-Gen prefers to develop and build the proposed Monte Alto Windpower Project as described throughout this Application but should it not be granted the limitation, then it is likely that Monte Alto Windpower would not be economically viable compared to other projects in development across the U.S.

As of September 2018, Monte Alto has no physical assets on site. Monte Alto has invested additional capital in an Interconnection Study with ERCOT, avian studies, environmental studies, federal aviation studies, and in leasing land for the project.

Should the Appraised Value Limitation be granted, Monte Alto has created a development and investment plan that is capitalized to implement the project. Without such a limitation the Project, competing against other Texas projects that have qualified, would likely be forced to redeploy its assets and capital to other states competing for similar wind projects.

## Attachment 5

***Documentation to assist in determining if limitation is a determining factor.***

***Chapter 313.026(e) states “the applicant may submit information to the Comptroller that would provide a basis for an affirmative determination under Subsection (c) (2).” If you answered “yes” to any of the questions in Section 8, attach supporting information in Tab 5.***

### **2. Has the applicant entered into any agreements, contracts or letters of intent related to the proposed project?**

Monte Alto Windpower, LLC was formed in 2017. In support of its creation, the participating members of Terra-Gen, executed documents necessary to form the entity including an Operating Agreement and a Development Agreement with Monte Alto Windpower, LLC.

Terra-Gen has entered into the following representative agreements and contracts for the development of a project within La Villa ISD, Mercedes ISD, Santa Rosa ISD, and La Feria ISD and intends to assign these assets to Monte Alto Windpower, LLC:

- Grants of leases and easements covering
- Avian Study and contract
- Bat Acoustic Study and contract
- Threatened & Endangered Species Studies and contract
- Enterprise Zone with Hidalgo County Commissioners Court
- Interconnection Application with ERCOT
- Federal Aviation Studies

### **7. Is the applicant evaluating other locations not in Texas for the proposed project?**

Yes. Terra-Gen management team is uniquely qualified to develop and construct wind and other renewable energy projects in the United States. In North America, Terra-Gen currently operates over 2,000 MW of renewable energy projects. Based on this experience the management team evaluates all potential projects for feasibility, finance-ability, and the economic returns they represent in comparison to other project opportunities both OUTSIDE the State of Texas as WITHIN the State of Texas. Other locations being evaluated include, but are not limited to:

California  
Oklahoma  
Louisiana  
Colorado  
Wyoming  
Nevada

For these reasons, Terra-Gen studies and evaluates various competing sites throughout the market areas across the U.S. where wind development is attractive. Without a Value Limitation program, Terra-Gen would seek to move to alternative sites outside of the State of Texas.

Monte Alto is currently in a period of assessment to determine whether the identified site within La Villa ISD, Mercedes ISD, Santa Rosa ISD, and La Feria ISD represents the best location or whether redeployment of its development resources and capital to other power markets in the United States is more advisable. As such, the development resources necessary to advance the Project for a planned 201 MW could be redeployed to other renewable energy development projects in other power markets in the United States.

Therefore, a 313 Limitation of Appraised Value Agreement is a vital tax incentive necessary to ensure the Project is economically competitive with other wind projects with similar incentives. Without the requested value limitation, the Monte Alto Project will be unable to generate sufficient operating margins and net income to produce economically competitive energy and associate returns necessary to attract tax and sponsor equity investment. Such third-party investment is mandatory to finance the projected capital costs of approximately \$228.388M needed to purchase wind turbines and other infrastructure, and to fund the construction of the facility.

**10. Are you submitting information to assist in the determination as to whether the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in Texas?**

The information provided in this Attachment and throughout the Application has been assembled to provide the reviewer with the best possible information to make an assessment and determination of the critical nature of the Limitation on Appraised Value to the feasibility of the Project.

## Attachment 6

***Description of how project is located in more than one district, including list of percentage in each district and, if determined to be a single unified project, documentation from the Office of the Governor (if applicable).***

It is anticipated that 53% of the planned Qualified Property for the Project will be located within La Villa ISD boundaries, 17% located within the Mercedes ISD boundaries being within Hidalgo County, Texas. 25% will be located within the Santa Rosa ISD boundaries, and the remaining 5% located within La Feria ISD being within Cameron County, Texas. However, Monte Alto, LLC will NOT be applying for an appraised value limitation for the portion of the project located within La Feria ISD boundaries.

### *Description of Qualified Investment*

- a. A specific and detailed description of the qualified investment you propose to make on the property for which you are requesting an appraised value limitation as defined by Tax Code 313.021(7) (Tab 7).***

The Applicant is requesting an appraised value limitation on all of the property constructed or placed upon the real property within La Villa ISD, which is located in Hidalgo County, Texas.

The property for which the Applicant is requesting an appraised value limitation shall include, but is NOT limited to, the following: up to 47 wind turbines, with a combined make up of 41- 2.2 MW wind turbines and 6- 3.45 MW wind turbines and a combined total generating capacity of approximately 110 MW; up to 47 steel reinforced concrete foundations supporting the weight of each turbine tower; up to 47 electric power transformers; underground conductor cables used to transport electricity from each turbine tower to an electrical substation; and a new electrical substation interconnected to the AEP Rio Hondo to North Edinburg, 345kV transmission line located in Cameron and Hidalgo Counties.

Additionally, the map provided does not represent the final location of the improvements; however, all of the improvements that make up the amount of Qualified Investment will be made within the Project Investment Area as shown on Map Exhibit on Attachment 11a.

- b. A description of any new buildings proposed new improvements or personal property which you intend to include as part of your minimum qualified investment (Tab 7).***

The Applicant intends to construct a Maintenance and Operations building to house equipment i.e. junction boxes, transformer equipment, and turbine electronic controls. The Applicant will also be constructing an electrical substation facility for integration and transmission of power into the electrical grid.

## Attachment 8

### *Description of Qualified Property*

Monte Alto Windpower, LLC plans to construct an estimated 201 MW wind farm in Hidalgo and Cameron Counties, located within La Villa ISD, Mercedes ISD, Santa Rosa ISD, and La Feria ISD boundaries. Additional improvements of Qualified Property located within La Villa ISD boundary include:

- 47 Wind Turbines: 41 wind turbines with a nameplate capacity of 2.2 MW and 6 wind turbines with a nameplate capacity of 3.45MW;
- 47 Wind Turbine Foundations;
- Several thousand feet of Transmission Collection System cable & Junction Boxes;
- Overhead Transmission and Interconnection infrastructure;
- Meteorological towers;
- All weather Road work sloped for drainage;
- Operations and maintenance building for storage of control systems necessary for commercial generation of electricity;
- Electric substation including power transformers, associated circuit breakers, switches, reactive power compensation equipment and control building & fencing of perimeter.

Monte Alto anticipates using 82 wind turbines with a nameplate capacity of 2.2 MW and 6 wind turbines with a nameplate capacity of 3.45 MW. Although final turbine selection and location of the infrastructure may change, 53% of equipment outlined above is expected to be located within La Villa ISD, 17% is anticipated to be within Mercedes ISD, 25% located within Santa Rosa ISD, and 5% is anticipated to be within La Feria ISD boundaries. Current plans are to install turbines in one phase.

The exact placement of turbines is subject to ongoing planning, wind resource evaluation, engineering, land leasing, and turbine selection. The final number and location of turbines and supporting structures will be determined before construction begins. However, any changes in the number and location of turbines will not have a significant impact on the total investment. Monte Alto intends to connect to AEP Rio Hondo to North Edinburg, 345kV transmission line internal to the Project, located within La Villa ISD, Mercedes ISD, Santa Rosa ISD, and La Feria ISD boundaries. All of the infrastructure will remain within the project boundary and within the Hidalgo and Cameron County Enterprise Zones. The map in Attachment 11b shows the proposed project area with the anticipated improvement locations.

**Re: Confidentiality of Maps Submitted with Monte Alto Windpower, LLC Chapter 313 Appraised Value limitation Application with La Villa ISD**

To Whom It May Concern:

As an attachment to the Monte Alto Windpower, LLC Chapter 313 Appraised Value Limitation Application submitted to La Villa ISD on February 18, 2019 ("Application"), we designated certain maps, the Qualified Investment and Qualified Property maps (Attachments 11b & 11c), attached thereto ("Maps") as "Confidential". We submit this letter to comply with the requirements by which both La Villa ISD and the Comptroller's office can withhold confidential or proprietary information from public release while the Application is pending. This letter is submitted to identify the documents for which confidentiality is sought and provide the specific reasons, stating why the material is believed to be confidential.

The Maps reflect the proposed specific site plan and the location of tangible personal property to be located on real property covered by the Application- all of which continue to be refined. In addition, and at this time, disclosure of the Maps could be potentially valuable to our competitors and any disclosure could negatively impact the project. The Maps include commercially valuable geological or geophysical information regarding the exploration or development of natural resources and is protected from disclosure under section 552.113 of the Texas Government Code.

As required, the Maps were submitted as segregated in the application from other information in the application and specifically notated as "Confidential".

It is our intention to complete negotiations relating to both the location of the property and the tangible personal property during the time the Application is pending and understand that the Maps can only remain confidential and withheld from public release unless and until the governing body of the school district acts on the application.

To the extent you have any questions regarding this letter, please contact me for further clarification.

Sincerely,

Milton Howard  
Vice President of Renewable Development

Alejos Salazar, Superintendent

P.O. Box 9  
La Villa, TX 78562

**Re: Ch-313 Application for Appraised Value Limitation – Job Waiver Request**

Dear Mr. Salazar,

This letter is to advise you that Monte Alto Windpower, LLC is submitting its Chapter 313 Application for Appraised Value Limitation on Qualified Property with a request for a waiver of the jobs creation requirement.

House Bill 1470 altered the jobs requirement by adding Section 313-025 (f-I) to permit a school district's board of trustees to make a finding that the job requirement could be waived if the job requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application. Monte Alto Windpower, LLC, requests that La Villa ISD's Board of Trustees make such a finding and waive the job creation requirement for the permanent jobs. Based on the industry standard, the size and scope of this project will require approximately three (3) permanent jobs.

As background information on the creation of the full-time jobs by wind energy projects, these types of projects create a large number of full-time, temporary jobs during the construction phase, but require a small number of highly skilled technicians to operate a wind project once construction operations cease and commercial operations begin. The permanent employees of a wind project maintain, and service wind turbines, underground electrical connections, substations and other infrastructure associated with the safe and reliable operation of the project. The industry standard for permanent employment is one full-time employee for every fifteen to twenty (15-20) turbines, although this number varies depending on the turbines selected as well as the support and technical assistance offered by the turbine manufacturer. In addition to the onsite employees described, there may be asset managers or technicians who supervise, monitor, and support the wind project operations from offsite locations.

Sincerely,

Milton Howard

\* All investments made through the qualifying time period are captured and totaled on Schedule A1 [blue box] and incorporated into this schedule in the **first row**.

\*\* Only investment made during deferrals of the start of the limitation (after the end of qualifying time period but before the start of the Value Limitation Period) should be included in the "year prior to start of value limitation period" row(s). If the limitation starts at the end of the qualifying time period or the qualifying time period overlaps the limitation, no investment should be included on this line.

\*\*\* If your qualifying time period will overlap your value limitation period, do not also include investment made during the qualifying time period in years 1 and/or 2 of the value limitation period, depending on the overlap. Only include investments/years that were **not** captured on Schedule A1.

For All Columns: List amount invested each year, not cumulative totals. Only include investments in the remaining rows of Schedule A2 that were not captured on Schedule A1.

Column A: This represents the total dollar amount of planned investment in tangible personal property. Only include estimates of investment for "replacement" property if the property is specifically described in the application.

Only tangible personal property that is specifically described in the application can become qualified property.

Column B: The total dollar amount of planned investment each year in buildings or nonremovable component of buildings.

Column C: Dollar value of other investment that may affect economic impact and total value. Examples of other investment that will not become qualified property include investment meeting the definition of 313.021(1) but not creating a new improvement as defined by TAC 9.1051. This is proposed property that functionally replaces existing property; is used to maintain, refurbish, renovate, modify or upgrade existing property; or is affixed to existing property—described in SECTION 13, question #5 of the application.

Column D: Dollar value of other investment that may affect economic impact and total value. Examples of other investment that may result in qualified property are land or professional services.
