Re: Application for a Chapter 313 Value Limitation Agreement between the Lyford Consolidated Independent School District and Ponte Alto Windpower, LLC

First Year of Qualifying Time Period – 2020
First Year of Limitation – 2022

Dear Local Government Assistance and Economic Analysis Division:

The Lyford Consolidated Independent School District Board of Trustees approved the enclosed Application for Appraised Value Limitation on Qualified Property at a duly called meeting held on May 13, 2019. The Application was determined to be complete on May 23, 2019. The Applicant proposes to construct a wind energy project using wind turbines and transmission located in Willacy, Hidalgo, and Cameron Counties, Texas.

A copy is being provided to the Hidalgo County Appraisal District by copy of this correspondence. The Board of Trustees believes this project will be beneficial to the District and looks forward to your review and certification of this Application.

Thanks so much for your kind attention to this matter.

Respectfully submitted,

Sara Hardner Leon

Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

(Name, tax rate and percent of project) (Name, tax rate and percent of project)
- 5. Is the project located entirely within the ISD listed in Section 1? Yes No
 5a. If no, attach in **Tab 6** additional information on the project scope and size to assist in the economic analysis.
- 6. Did you receive a determination from the Texas Economic Development and Tourism Office that this proposed project and at least one other project seeking a limitation agreement constitute a single unified project (SUP), as allowed in §313.024(d-2)? Yes No
 6a. If yes, attach in **Tab 6** supporting documentation from the Office of the Governor.

SECTION 11: Investment

NOTE: The minimum amount of qualified investment required to qualify for an appraised value limitation and the minimum amount of appraised value limitation vary depending on whether the school district is classified as Subchapter B or Subchapter C, and the taxable value of the property within the school district. For assistance in determining estimates of these minimums, access the Comptroller's website at comptroller.texas.gov/economy/local/ch313/.

- 1. At the time of application, what is the estimated minimum qualified investment required for this school district? 10,000,000.00
- 2. What is the amount of appraised value limitation for which you are applying? 20,000,000.00
Note: The property value limitation amount is based on property values available at the time of application and may change prior to the execution of any final agreement.
- 3. Does the qualified investment meet the requirements of Tax Code §313.021(1)? Yes No
- 4. Attach a description of the qualified investment [See §313.021(1).] The description must include:
 - a. a specific and detailed description of the qualified investment you propose to make on the property for which you are requesting an appraised value limitation as defined by Tax Code §313.021 (**Tab 7**);
 - b. a description of any new buildings, proposed new improvements or personal property which you intend to include as part of your minimum qualified investment (**Tab 7**); and
 - c. a detailed map of the qualified investment showing location of tangible personal property to be placed in service during the qualifying time period and buildings to be constructed during the qualifying time period, with vicinity map (**Tab 11**).
- 5. Do you intend to make at least the minimum qualified investment required by Tax Code §313.023 (or §313.053 for Subchapter C school districts) for the relevant school district category during the qualifying time period? Yes No

SECTION 12: Qualified Property

1. Attach a detailed description of the qualified property. [See §313.021(2)] (If qualified investment describes qualified property exactly, you may skip items a, b and c below.) The description must include:
 - 1a. a specific and detailed description of the qualified property for which you are requesting an appraised value limitation as defined by Tax Code §313.021 (Tab 8);
 - 1b. a description of any new buildings, proposed new improvements or personal property which you intend to include as part of your qualified property (Tab 8); and
 - 1c. a map of the qualified property showing location of new buildings or new improvements with vicinity map (Tab 11).

2. Is the land upon which the new buildings or new improvements will be built part of the qualified property described by §313.021(2)(A)? Yes No
 - 2a. If yes, attach complete documentation including:
 - a. legal description of the land (Tab 9);
 - b. each existing appraisal parcel number of the land on which the new improvements will be constructed, regardless of whether or not all of the land described in the current parcel will become qualified property (Tab 9);
 - c. owner (Tab 9);
 - d. the current taxable value of the land. Attach estimate if land is part of larger parcel (Tab 9); and
 - e. a detailed map showing the location of the land with vicinity map (Tab 11).

3. Is the land on which you propose new construction or new improvements currently located in an area designated as a reinvestment zone under Tax Code Chapter 311 or 312 or as an enterprise zone under Government Code Chapter 2303? Yes No
 - 3a. If yes, attach the applicable supporting documentation:
 - a. evidence that the area qualifies as a enterprise zone as defined by the Governor's Office (Tab 16);
 - b. legal description of reinvestment zone (Tab 16);
 - c. order, resolution or ordinance establishing the reinvestment zone (Tab 16);
 - d. guidelines and criteria for creating the zone (Tab 16); and
 - e. a map of the reinvestment zone or enterprise zone boundaries with vicinity map (Tab 11)
 - 3b. If no, submit detailed description of proposed reinvestment zone or enterprise zone with a map indicating the boundaries of the zone on which you propose new construction or new improvements to the Comptroller's office within 30 days of the application date. What is the anticipated date on which you will submit final proof of a reinvestment zone or enterprise zone? _____ N/A

SECTION 13: Information on Property Not Eligible to Become Qualified Property

1. In Tab 10, attach a specific and detailed description of all **existing property**. This includes buildings and improvements existing as of the application review start date (the date the application is determined to be complete by the Comptroller). The description must provide sufficient detail to locate all existing property on the land that will be subject to the agreement and distinguish existing property from future proposed property.
2. In Tab 10, attach a specific and detailed description of all **proposed new property that will not become new improvements** as defined by TAC 9.1051. This includes proposed property that: functionally replaces existing or demolished/removed property; is used to maintain, refurbish, renovate, modify or upgrade existing property; or is affixed to existing property; or is otherwise ineligible to become qualified property. The description must provide sufficient detail to distinguish existing property (question 1) and all proposed new property that cannot become qualified property from proposed qualified property that will be subject to the agreement (as described in Section 12 of this application).
3. For the property not eligible to become qualified property listed in response to questions 1 and 2 of this section, provide the following supporting information in Tab 10:
 - a. maps and/or detailed site plan;
 - b. surveys;
 - c. appraisal district values and parcel numbers;
 - d. inventory lists;
 - e. existing and proposed property lists;
 - f. model and serial numbers of existing property; or
 - g. other information of sufficient detail and description.

4. Total estimated market value of existing property (that property described in response to question 1): \$ _____ 0.00
5. In Tab 10, include an appraisal value by the CAD of all the buildings and improvements existing as of a date within 15 days of the date the application is received by the school district.

6. Total estimated market value of proposed property not eligible to become qualified property (that property described in response to question 2): \$ _____ 0.00

Note: Investment for the property listed in question 2 may count towards qualified investment in Column C of Schedules A-1 and A-2, if it meets the requirements of 313.021(1). Such property cannot become qualified property on Schedule B.

SECTION 14: Wage and Employment Information

1. What is the estimated number of permanent jobs (more than 1,600 hours a year), with the applicant or a contractor of the applicant, on the proposed qualified property during the last complete quarter before the application review start date (date your application is finally determined to be complete)? 0
2. What is the last complete calendar quarter before application review start date:
 First Quarter Second Quarter Third Quarter Fourth Quarter of 2019
(year)
3. What were the number of permanent jobs (more than 1,600 hours a year) this applicant had in Texas during the most recent quarter reported to the Texas Workforce Commission (TWC)? 0
Note: For job definitions see TAC §9.1051 and Tax Code §313.021(3).
4. What is the number of new qualifying jobs you are committing to create? 4
5. What is the number of new non-qualifying jobs you are estimating you will create? 0
6. Do you intend to request that the governing body waive the minimum new qualifying job creation requirement, as provided under Tax Code §313.025(f-1)? Yes No
 - 6a. If yes, attach evidence in **Tab 12** documenting that the new qualifying job creation requirement above exceeds the number of employees necessary for the operation, according to industry standards.
7. Attach in **Tab 13** the four most recent quarters of data for each wage calculation below, including documentation from the TWC website. The final actual statutory minimum annual wage requirement for the applicant for each qualifying job — which may differ slightly from this estimate — will be based on information from the four quarterly periods for which data were available at the time of the application review start date (date of a completed application). See TAC §9.1051(21) and (22).
 - a. Average weekly wage for all jobs (all industries) in the county is 660.50
 - b. 110% of the average weekly wage for manufacturing jobs in the county is 863.23
 - c. 110% of the average weekly wage for manufacturing jobs in the region is 785.91
8. Which Tax Code section are you using to estimate the qualifying job wage standard required for this project? §313.021(5)(A) or §313.021(5)(B)
9. What is the minimum required annual wage for each qualifying job based on the qualified property? 40,867.33
10. What is the annual wage you are committing to pay for each of the new qualifying jobs you create on the qualified property? 40,867.33
11. Will the qualifying jobs meet all minimum requirements set out in Tax Code §313.021(3)? Yes No
12. Do you intend to satisfy the minimum qualifying job requirement through a determination of cumulative economic benefits to the state as provided by §313.021(3)(F)? Yes No
 - 12a. If yes, attach in **Tab 12** supporting documentation from the TWC, pursuant to §313.021(3)(F).
13. Do you intend to rely on the project being part of a single unified project, as allowed in §313.024(d-2), in meeting the qualifying job requirements? Yes No
 - 13a. If yes, attach in **Tab 6** supporting documentation including a list of qualifying jobs in the other school district(s).

SECTION 15: Economic Impact

1. Complete and attach Schedules A1, A2, B, C, and D in **Tab 14**. Note: Excel spreadsheet versions of schedules are available for download and printing at URL listed below.
2. Attach an Economic Impact Analysis, if supplied by other than the Comptroller's Office, in **Tab 15**. (*not required*)
3. If there are any other payments made in the state or economic information that you believe should be included in the economic analysis, attach a separate schedule showing the amount for each year affected, including an explanation, in **Tab 15**.

Attachment 4

Detailed description of the project.

In Tab 4, attach a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

Ponte Alto Windpower, LLC, (“Ponte Alto”) is a special purpose entity formed to facilitate the development and commercialization of a utility-scale wind energy project. Terra-Gen, LLC, (“Terra-Gen”) the exclusive developer of Ponte Alto, is in the business of initiating, developing, producing and owning and operating electricity from renewable energy projects including wind, solar, and geothermal.

Terra-Gen currently has many projects in development across the United States and is evaluating other renewable energy project opportunities across the country.

Ponte Alto Windpower, LLC was recently created for the purpose of interconnecting Ponte Alto into the ERCOT market and there are no existing 312 or 313 agreements in place for this project. Ponte Alto is requesting an appraised value limitation from Lyford CISD and La Villa ISD for a proposed wind energy project using wind turbines and transmission located in Willacy, Hidalgo, and Cameron Counties, Texas. Ponte Alto will NOT be requesting an appraised value of limitation for the portion of the project located within the Monte Alto ISD, Lasara ISD, or Raymondville ISD boundaries. The wind farm and its associated infrastructure will be constructed within the jurisdiction of Lyford CISD, La Villa ISD, Lasara ISD, Monte Alto ISD, Raymondville ISD, Edcouch-Elsa ISD, Harlingen CISD, and Santa Rosa ISD and is located within Hidalgo, Willacy and Cameron Counties, Texas. However, as of May 2019 there *are no* proposed qualified investments within Edouch-Elsa ISD, Harlingen CISD, or Santa Rosa ISD. A map showing the location of the wind farm is included as Attachment 11a.

The wind farm will have an estimated capacity of 207 megawatts (“MW”). To construct the wind farm, Ponte Alto expects: 46 wind turbines with a nameplate capacity of 4.5 Megawatts (“MW”) of which:

- 30 wind turbines being within the Lyford CISD boundaries,
- 6 wind turbines within the La Villa ISD boundaries,
- 3 wind turbines within the Monte Alto ISD boundaries,
- 4 wind turbines within the Lasara ISD boundaries, and
- 3 wind turbines within the Raymondville ISD boundaries.

In addition to the wind turbine generating units, there will be the supporting electrical collection system and roads to be constructed and improved as necessary, as well as a collection substation

to permit the interconnection and transmission of electricity generated by the wind turbines, and an operations and maintenance building constructed within the Project's boundary.

Construction of the wind farm is expected to take approximately 12 months to complete, contingent upon favorable economics for the project.

While the wind regime for Ponte Alto is very good, there are many favorable locations for wind projects that could be developed across the United States. Ponte Alto has modeled its economics with an expectation that having a Limitation of Appraised Value Agreements with Lyford CISD and La Villa ISD as a key and invaluable portion of the project.

In today's competitive energy market, project investors and power purchasers require wind energy projects to have secured tax incentives, so that they can compete with wind projects across the U.S. and can locate projects in a wide variety of locations should Ponte Alto be unable to develop a competitive project in Texas that is able to generate returns sufficient to attract investment capital.

Wind farms are operating and under development in many states throughout the country. According to the American Wind Energy Association ("AWEA") there are now over 54,000 turbines with a combined capacity of 89,379 MW operating in 41 states within the United States, Guam and Puerto Rico. During 2017, the U.S. wind industry grew 9% adding 7,017 MW of new wind power capacity. During the first quarter of 2018, the U.S. wind industry installed an additional 406 MW of wind power capacity.

A graphic provided by AWEA demonstrates the national geographic diversity of capacity throughout the United States for 2017.

Wind Capacity by State

Clearly locations for the development of wind projects are abundant and the Applicant can locate a project in a wide variety of locations across the United States, should it be unable to develop a competitive project in Texas that is able to generate returns sufficient enough to attract investment capital.

Terra-Gen, the developer of Ponte Alto Windpower, LLC, is a national developer of wind projects, and has operations across the US and states within the contiguous United States. As construction is one of the most significant costs in creating wind farm, the physical improvements of the Ponte Alto, once completed, cannot be feasibly moved to another location. The wind turbines and supporting infrastructure are long-lived assets engineered and designed specifically for this project location. The cost of installing the improvements on the site is substantial and the cost to remove, redesign, and relocate the improvements to a different location would be prohibitive.

Ponte Alto Windpower, LLC was formed for the express purpose of developing a community sponsored wind farm that would help bring significant economic development to an area that is historically economically distressed. Terra-Gen identified Texas, and in particular Hidalgo & Cameron Counties, for its strong wind resource, access to available transmission capacity and the ERCOT market, and favorable property tax incentives under the Tax Code for Chapter 312 abatement and Chapter 313 Appraised Value Limitation.

Terra-Gen prefers to develop and build the proposed Ponte Alto Windpower Project as described throughout this Application but should it not be granted the limitation, then it is likely that Ponte Alto Windpower would not be economically viable compared to other projects in development across the U.S.

As of April 2019, Ponte Alto has no physical assets on site. Ponte Alto has invested additional capital in an Interconnection Study with ERCOT, avian studies, environmental studies, federal aviation studies, and in leasing land for the project.

Should the Appraised Value Limitation be granted, Ponte Alto has created a development and investment plan that is capitalized to implement the project. Without such a limitation the Project, competing against other Texas projects that have qualified, would likely be forced to redeploy its assets and capital to other states competing for similar wind projects.

Attachment 5

Documentation to assist in determining if limitation is a determining factor.

Chapter 313.026(e) states “the applicant may submit information to the Comptroller that would provide a basis for an affirmative determination under Subsection (c) (2).” If you answered “yes” to any of the questions in Section 8, attach supporting information in Tab 5.

2. Has the applicant entered into any agreements, contracts or letters of intent related to the proposed project?

Ponte Alto Windpower, LLC was formed in 2019. In support of its creation, the participating members of Terra-Gen, executed documents necessary to form the entity including an Operating Agreement and a Development Agreement with Ponte Alto Windpower, LLC.

Terra-Gen has entered into the following representative agreements and contracts for the development of a project and intends to assign these assets to Ponte Alto Windpower, LLC:

- Grants of leases and easements covering,
- Avian Study and contract,
- Bat Acoustic Study and contract,
- Threatened & Endangered Species Studies and contract,
- Enterprise Zone with Hidalgo County Commissioners Court
- Interconnection Application with ERCOT
- Federal Aviation Studies

7. Is the applicant evaluating other locations not in Texas for the proposed project?

Yes. Terra-Gen management team is uniquely qualified to develop and construct wind and other renewable energy projects in the United States. In North America, Terra-Gen currently operates over 2,000 MW of renewable energy projects. Based on this experience the management team evaluates all potential projects for feasibility, finance-ability, and the economic returns they represent in comparison to other project opportunities both OUTSIDE the State of Texas as WITHIN the State of Texas. Other locations being evaluated include, but are not limited to:

California
Oklahoma
Louisiana
Colorado
Wyoming
Nevada

For these reasons, Terra-Gen studies and evaluates various competing sites throughout the market areas across the U.S. where wind development is attractive. Without a Value Limitation program, Terra-Gen would seek to move to alternative sites outside of the State of Texas.

Ponte Alto is currently in a period of assessment to determine whether the identified site within Lyford CISD and La Villa ISD represents the best location or whether redeployment of its development resources and capital to other power markets in the United States is more advisable. As such, the development resources necessary to advance the Project for a planned 207 MW could be redeployed to other renewable energy development projects in other power markets in the United States.

Therefore, a 313 Limitation of Appraised Value Agreement is a vital tax incentive necessary to ensure the Project is economically competitive with other wind projects with similar incentives. Without the requested value limitation, the Ponte Alto Project will be unable to generate sufficient operating margins and net income to produce economically competitive energy and associate returns necessary to attract tax and sponsor equity investment. Such third-party investment is mandatory to finance the projected capital costs of approximately \$228M needed to purchase wind turbines and other infrastructure, and to fund the construction of the facility.

10. Are you submitting information to assist in the determination as to whether the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in Texas?

The information provided in this Attachment and throughout the Application has been assembled to provide the reviewer with the best possible information to make an assessment and determination of the critical nature of the Limitation on Appraised Value to the feasibility of the Project.

Attachment 6

Description of how project is located in more than one district, including list of percentage in each district and, if determined to be a single unified project, documentation from the Office of the Governor (if applicable).

5a. If no, attach in Tab 6 additional information on the project scope and size to assist in the economic analysis.

It is anticipated that 65% of the total planned Qualified Property for the Project will be located within Lyford CISD boundaries, 13% located within the La Villa ISD boundaries. 7% will be located within the Monte Alto ISD boundaries, 9% will be located within Lasara ISD boundaries, and the remaining 7% located within Raymondville ISD. However, Ponte Alto Windpower, LLC will NOT be applying for an appraised value limitation for the portion of the project located within Monte Alto ISD, Lasara ISD, or Raymondville ISD boundaries. Additionally, there is no proposed qualified investment located within the Edcouch-Elsa ISD, Harlingen CISD, or Santa Rosa ISD.

School District	County	Percentage of Project	Anticipated Number of Turbines
Lyford CISD	Hidalgo County, Texas	65%	30

Attachment 7

Description of Qualified Investment

- a. A specific and detailed description of the qualified investment you propose to make on the property for which you are requesting an appraised value limitation as defined by Tax Code 313.021(7) (Tab 7).***

The Applicant is requesting an appraised value limitation on all of the property constructed or placed upon the real property within Lyford CISD, which is located in Hidalgo County, Texas.

The property for which the Applicant is requesting an appraised value limitation shall include, but is NOT limited to, the following: up to 30 wind turbines, with a nameplate capacity of 4.5 MW and a combined total generating capacity of approximately 135 MW; up to 30 steel reinforced concrete foundations supporting the weight of each turbine tower; up to 30 electric power transformers; underground conductor cables used to transport electricity from each turbine tower to an electrical substation; and a new electrical substation interconnected to the AEP Rio Hondo to North Edinburg, 345kV transmission line located in Cameron and Hidalgo Counties.

Additionally, the map provided does not represent the final location of the improvements; however, all of the improvements that make up the amount of Qualified Investment will be made within the Project Investment Area as shown on Map Exhibit on Attachment 11a.

- b. A description of any new buildings proposed new improvements or personal property which you intend to include as part of your minimum qualified investment (Tab 7).***

Not Applicable. The proposed Operations and Maintenance building and electrical substation facility to be constructed will be located within La Villa ISD boundaries.

Attachment 8

Description of Qualified Property

Ponte Alto Windpower, LLC plans to construct an estimated 135 MW of 207 MW wind farm within Lyford CISD boundaries. Additional improvements of Qualified Property located within Lyford CISD boundary include:

- 30 Wind Turbines with a nameplate capacity of 4.5 MW;
- 30 Wind Turbine Foundations;
- Several thousand feet of Transmission Collection System cable & Junction Boxes;
- Overhead Transmission and Interconnection infrastructure;
- Meteorological towers;
- All weather Road work sloped for drainage;

Ponte Alto anticipates using 30 wind turbines with a nameplate capacity of 4.5 MW. Although final turbine selection and location of the infrastructure may change, all of equipment outlined above is expected to be located within Lyford CISD boundaries. Current plans are to install turbines in one phase. Ponte Alto has obtained grants of lease and easement covering approximately 5,330 acres within Lyford CISD boundaries.

The exact placement of turbines is subject to ongoing planning, wind resource evaluation, engineering, land leasing, and turbine selection. The final number and location of turbines and supporting structures will be determined before construction begins. However, any changes in the number and location of turbines will not have a significant impact on the total investment. Ponte Alto intends to connect to AEP Rio Hondo to North Edinburg, 345kV transmission line internal to the Project. All of the infrastructure will remain within the project boundary and within the Hidalgo, Willacy, and Cameron County Enterprise Zones. The map in Attachment 11b shows the proposed project area with the anticipated improvement locations.

Re: Confidentiality of Maps Submitted with Ponte Alto Windpower, LLC Chapter 313 Appraised Value Limitation Application with Lyford CISD

To Whom It May Concern:

As an attachment to the Ponte Alto Windpower, LLC Chapter 313 Appraised Value Limitation Application submitted to Lyford CISD on May 13, 2019 ("Application"), we designated certain maps, the Qualified Investment and Qualified Property maps (Attachments 11b & 11c), attached thereto ("Maps") as "Confidential". We submit this letter to comply with the requirements by which both Lyford CISD and the Comptroller's office can withhold confidential or proprietary information from public release while the Application is pending. This letter is submitted to identify the documents for which confidentiality is sought and provide the specific reasons, stating why the material is believed to be confidential.

The Maps reflect the proposed specific site plan and the location of tangible personal property to be located on real property covered by the Application- all of which continue to be refined. In addition, and at this time, disclosure of the Maps could be potentially valuable to our competitors and any disclosure could negatively impact the project. The Maps include commercially valuable geological or geophysical information regarding the exploration or development of natural resources and is protected from disclosure under section 552.113 of the Texas Government Code.

As required, the Maps were submitted as segregated in the application from other information in the application and specifically notated as "Confidential".

It is our intention to complete negotiations relating to both the location of the property and the tangible personal property during the time the Application is pending and understand that the Maps can only remain confidential and withheld from public release unless and until the governing body of the school district acts on the application.

To the extent you have any questions regarding this letter, please contact me for further clarification.

Sincerely,

Milton Howard
Vice President of Renewable Development

Request for Waiver of Job Creation Requirement and supporting information (if applicable).

Please see attached waiver request below.

May 13, 2019

Eduard Infante, Superintendent
Lyford Consolidated Independent School District

Lyford, TX 78536

Re: Ch-313 Application for Appraised Value Limitation – Job Waiver Request

Dear Superintendent Infante,

This letter is to advise you that Ponte Alto Windpower, LLC is submitting its Chapter 313 Application for Appraised Value Limitation on Qualified Property with a request for a waiver of the jobs creation requirement.

House Bill 1470 altered the jobs requirement by adding Section 313-025 (f-I) to permit a school district's board of trustees to make a finding that the job requirement could be waived if the job requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application. Ponte Alto Windpower, LLC, requests that Lyford CISD's Board of Trustees make such a finding and waive the job creation requirement for the permanent jobs. Based on the industry standard, the size and scope of this project will require approximately four (4) permanent jobs.

As background information on the creation of the full-time jobs by wind energy projects, these types of projects create a large number of full-time, temporary jobs during the construction phase, but require a small number of highly skilled technicians to operate a wind project once construction operations cease and commercial operations begin. The permanent employees of a wind project maintain, and service wind turbines, underground electrical connections, substations and other infrastructure associated with the safe and reliable operation of the project. The industry standard for permanent employment is one full-time employee for every fifteen to twenty (15-20) turbines, although this number varies depending on the turbines selected as well as the support and technical assistance offered by the turbine manufacturer. In addition to the onsite employees described, there may be asset managers or technicians who supervise, monitor, and support the wind project operations from offsite locations.

Sincerely,

Milton Howard
Vice President of Renewable Development
