
FINDINGS
OF THE
VALLEY MILLS INDEPENDENT SCHOOL DISTRICT
BOARD OF TRUSTEES

UNDER THE
TEXAS ECONOMIC DEVELOPMENT ACT
ON THE APPLICATION SUBMITTED BY

GLORY LEASING, LLC
TEXAS TAXPAYER ID #32034709793
APPLICATION #1381

March 25, 2020

findings as **Exhibit B**. The Texas Commissioner of Education has determined that the project will not impact school enrollment.

The Board of Trustees has confirmed that the taxable value of property in the Valley Mills Independent School District for the preceding tax year, as determined under Subchapter M, Chapter 403, Government Code, is as stated in the 2018 ISD Summary Worksheet posted on the Texas Comptroller's website at:

<https://comptroller.texas.gov/data/property-tax/pvs/2018p/0180189041D.php>.

After receipt of the Application, the District submitted a proposed form of Agreement for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code, in the form required by the Comptroller of Public Accounts. The proposed Agreement and letter approving same are attached to these findings as **Exhibit C**.

After review of the Comptroller's recommendation, and in consideration of its own economic impact study the Board finds:

Board Finding Number 1.

The Applicant qualifies for a limitation on appraised value of Qualified Property under Texas Tax Code § 313.024 in the eligibility category of Renewable Energy Electric Generation.

Board Finding Number 2.

The Applicant's entire proposed investment in the Valley Mills Independent School District is \$66,300,000—\$59,670,000 of which is proposed to be Qualified Investment under Texas Tax Code § 313.021.

Board Finding Number 3.

The average salary level of qualifying jobs is expected to be at least \$51,970 per year. The review of the Application by the State Comptroller's Office indicates that this amount—based on Texas Workforce Commission data—complies with the requirement that qualifying jobs pay more than the minimum weekly wage required for Qualified Jobs under Texas Tax Code § 313.021.

Board Finding Number 4.

The level of the Applicant's average investment per qualifying job over the term of the Agreement is estimated to be approximately \$66,300,000 on the basis of the one (1) new qualifying position committed to by the Applicant for this project. The project's total investment is \$66,300,000, resulting in a relative level of investment per qualifying job of \$66,300,000.

Board Finding Number 5.

The Applicant has requested a waiver of the job creation requirement under Texas Tax Code § 313.25(f-1), and the Board finds such waiver request should be granted. The Board notes that the number of jobs proposed for this project (one (1) job) is consistent with industry standards in the Renewable Energy Electric Generation industry.

Board Finding Number 6.

Subsequent economic effects on the local and regional tax bases will be significant. In addition, the impact of the added infrastructure will be significant to the region. In support of Finding 6, the economic impact evaluation states:

Table 2 depicts this project’s estimated economic impact to Texas. It depicts the direct, indirect and induced effects to employment and personal income within the state. The Comptroller’s office calculated the economic impact based on 15 years of annual investment and employment levels.

Table 4 examines the estimated direct impact on ad valorem taxes to the school district, and Bosque County, with all property tax incentives sought being granted using estimated market value from the application. The project has applied for a value limitation under Chapter 313, Tax Code and tax abatement with the county.

Board Finding Number 7.

The revenue gains that will be realized by the school district if the Application is approved will be significant in the long-term, with special reference to revenues used for supporting school district debt.

Board Findings of the Valley Mills Independent School District

Board Finding Number 8.

The effect of the Applicant’s proposal, if approved, on the number or size of needed school district instructional facilities is not expected to increase the District’s facility needs, with current trends suggesting little underlying enrollment growth based on the impact of the project.

Board Finding Number 9.

The Applicant’s project is reasonably likely to generate, before the 25th anniversary of the beginning of the limitation period, tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement. This evaluation is based on an analysis of the estimated M&O portion of the school district property tax levy directly related to this project, using estimated taxable values provided in the application. Attachment B of the economic impact study contains a year-by-year analysis as depicted in the following table:

Analysis Summary	
Is the project reasonably likely to generate tax revenue in an amount sufficient to offset the M&O levy loss as a result of the limitation agreement?	Yes

Board Finding Number 10.

The limitation on appraised value requested by the Applicant is a determining factor in the Applicant's decision to invest capital and construct the project in this state.

Board Finding Number 11.

The ability of the Applicant to locate the proposed facility in another state or another region of this state is substantial, as a result of the highly competitive marketplace for economic development.

In support of Findings 10 and 11, **Attachment C** of the economic impact study states:

The Comptroller has determined that the limitation on appraised value is a determining factor in the Glory Leasing, LLC's decision to invest capital and construct the project in this state. This is based on information available, including information provided by the applicant. Specifically, the comptroller notes the following:

- I. Per Glory Leasing, LLC in Tab 5 of their Application for a Limitation on Appraised Value:
 - A. "Linn Partners is family investment firm established in 2005 and based out of Fort Worth. As a firm, we invest in real estate, agriculture and ranch opportunities, and other business ventures where we can add value. Renewable energy projects are slowly becoming synonymous with ranching investments not only in Texas but also neighboring states, especially to the north in Oklahoma and Kansas, and to the west in New Mexico."
 - B. "Linn Partners is keen to develop and build the proposed Glory Leasing Solar Project as per this application on L Bar L Ranch, which is situated within the Valley Mills Independent School District, but since this Project is still in early- to mid- stage of development, further investment could be redeployed to other counties within the state of Texas or an entirely different state within the United States. Linn Partners is currently considering comparable solar development opportunities within New Mexico, Arizona, and Colorado. This Project, as with the aforementioned projects, are limited to a finite amount of capital investment."
 - C. "In addition to the capital that will be deployed by Glory Leasing LLC, the solar project's ultimate financier/operator will be a nationally-renowned entity with limited investment capital to deploy across the U.S. Consistent with the 313 applications filed by these companies on other renewable energy projects, the successful completion of market-competitive tax incentive is a necessity that provides a level playing field for all successful utility-scale solar projects in Texas. Key development characteristics, such as securing tax abatement commercial terms for example, will determine the ultimate location of the Glory Leasing Solar Project. Tax abatements, along with a few several other development variables, have a significant impact on the competitiveness of the project's generation and ultimately likelihood for success. Therefore, Linn Partners is continually comparing investment opportunities, rate of return, and market viability of each project based upon financial metrics."
 - D. "Due to an extremely competitive power market in ERGOT, the Chapter 313 appraised value limitation agreement is a necessity for a solar project of this size, and the commercial terms associated have a significant impact on the project's likelihood

for success. There are only a few developmental variables for solar project which enhance the economics [i.e. property taxes, land rental payment, geotechnical adders), and since solar projects all compete with each other within ERGOT, a project without an appraised value limitation agreement is not competitive and is very unlikely to reach the point of construction.”

- E. “Therefore, this appraised value limitation is critical to the ability of the proposed project to move forward as currently sited within the Valley Mills Independent School District.”
- II. According to a Regular Meeting of the Board of Trustees of Valley Mills ISD dated June 19, 2019, “The motion was made by Jim Blackford and seconded by John Bullion to accept an Application for Value Limitation Agreement from Markum Solar pursuant to Chapter 313 of the Texas Property Tax Code; authorize the Superintendent of Schools to review the Application for completeness and submit the Application to the Comptroller of Public Accounts; and authorize the Superintendent of Schools to approve any request for extension of the deadline for Board action beyond the 150-day Board review period as may be required.”
- III. Supplemental information provided by the applicant indicated the following:
 - A. “Markham Solar.”
 - B. “Yes, the project is currently being studied as a 161MWac solar energy facility proceeding through the Full Interconnection Study process. The GNIR for the project is 20INR0230.”

Re: Certificate for Limitation on Appraised Value of Property for School District
Maintenance and Operations taxes by and between Valley Mills Independent School
District and Glory Leasing, LLC, Application 1381

Dear Superintendent Kelly:

On September 3, 2019, the Comptroller issued written notice that Glory Leasing, LLC (applicant) submitted a completed application (Application 1381) for a limitation on appraised value under the provisions of Tax Code Chapter 313.¹ This application was originally submitted on June 19, 2019, to the Valley Mills Independent School District (school district) by the applicant.

This presents the results of the Comptroller's review of the application and determinations required:

- 1) under Section 313.025(h) to determine if the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C; and
- 2) under Section 313.025(d), to issue a certificate for a limitation on appraised value of the property and provide the certificate to the governing body of the school district or provide the governing body a written explanation of the Comptroller's decision not to issue a certificate, using the criteria set out in Section 313.026.

Determination required by 313.025(h)

Sec. 313.024(a) Applicant is subject to tax imposed by Chapter 171.
Sec. 313.024(b) Applicant is proposing to use the property for an eligible project.

¹ All Statutory references are to the Texas Tax Code, unless otherwise noted.

- Sec. 313.024(d) Applicant has requested a waiver to create the required number of new qualifying jobs and pay all jobs created that are not qualifying jobs a wage that exceeds the county average weekly wage for all jobs in the county where the jobs are located.
- Sec. 313.024(d-2) Not applicable to Application 1381.

Based on the information provided by the applicant, the Comptroller has determined that the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C.

Certificate decision required by 313.025(d)

Determination required by 313.026(c)(1)

The Comptroller has determined that the project proposed by the applicant is reasonably likely to generate tax revenue in an amount sufficient to offset the school district's maintenance and operations *ad valorem tax* revenue lost as a result of the agreement before the 25th anniversary of the beginning of the limitation period, see Attachment B.

Determination required by 313.026(c)(2)

The Comptroller has determined that the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state, see Attachment C.

Based on these determinations, the Comptroller issues a certificate for a limitation on appraised value. This certificate is contingent on the school district's receipt and acceptance of the Texas Education Agency's determination per 313.025(b-1).

The Comptroller's review of the application assumes the accuracy and completeness of the statements in the application. If the application is approved by the school district, the applicant shall perform according to the provisions of the Texas Economic Development Act Agreement (Form 50-826) executed with the school district. The school district shall comply with and enforce the stipulations, provisions, terms, and conditions of the agreement, applicable Texas Administrative Code and Chapter 313, per TAC 9.1054(i)(3).

This certificate is no longer valid if the application is modified, the information presented in the application changes, or the limitation agreement does not conform to the application. Additionally, this certificate is contingent on the school district approving and executing the agreement within a year from the date of this letter.

Note that any building or improvement existing as of the application review start date of September 3, 2019, or any tangible personal property placed in service prior to that date may not become "Qualified Property" as defined by 313.021(2) and the Texas Administrative Code.

Attachment C – Limitation as a Determining Factor

Tax Code 313.026 states that the Comptroller may not issue a certificate for a limitation on appraised value under this chapter for property described in an application unless the comptroller determines that “the limitation on appraised value is a determining factor in the applicant’s decision to invest capital and construct the project in this state.” This represents the basis for the Comptroller’s determination.

Methodology

Texas Administrative Code 9.1055(d) states the Comptroller shall review any information available to the Comptroller including:

- the application, including the responses to the questions in Section 8 (Limitation as a Determining Factor);
- public documents or statements by the applicant concerning business operations or site location issues or in which the applicant is a subject;
- statements by officials of the applicant, public documents or statements by governmental or industry officials concerning business operations or site location issues;
- existing investment and operations at or near the site or in the state that may impact the proposed project;
- announced real estate transactions, utility records, permit requests, industry publications or other sources that may provide information helpful in making the determination; and
- market information, raw materials or other production inputs, availability, existing facility locations, committed incentives, infrastructure issues, utility issues, location of buyers, nature of market, supply chains, other known sites under consideration.

Determination

The Comptroller has determined that the limitation on appraised value is a determining factor in the Glory Leasing, LLC’s decision to invest capital and construct the project in this state. This is based on information available, including information provided by the applicant. Specifically, the comptroller notes the following:

- Per Glory Leasing, LLC in Tab 5 of their Application for a Limitation on Appraised Value:
 - A. “Linn Partners is family investment firm established in 2005 and based out of Fort Worth. As a firm, we invest in real estate, agriculture and ranch opportunities, and other business ventures where we can add value. Renewable energy projects are slowly becoming synonymous with ranching investments not only in Texas but also neighboring states, especially to the north in Oklahoma and Kansas, and to the west in New Mexico.”
 - B. “Linn Partners is keen to develop and build the proposed Glory Leasing Solar Project as per this application on L Bar L Ranch, which is situated within the Valley Mills Independent School District, but since this Project is still in early- to mid- stage of development, further investment could be redeployed to other counties within the state of Texas or an entirely different state within the United States. Linn Partners is currently considering comparable solar development opportunities within New Mexico, Arizona, and Colorado. This Project, as with the aforementioned projects, are limited to a finite amount of capital investment.”
 - C. “In addition to the capital that will be deployed by Glory Leasing LLC, the solar project’s ultimate financier/operator will be a nationally-renowned entity with limited investment capital to deploy across the U.S. Consistent with the 313 applications filed by these companies on other renewable energy projects, the successful completion of market-competitive tax incentive is a necessity that provides a level playing field for all successful utility-scale solar projects in Texas. Key development characteristics, such as securing tax abatement commercial terms for example, will determine the ultimate location of the Glory Leasing Solar Project. Tax abatements, along with a few several other development variables, have a significant impact on the competitiveness of the project’s generation and ultimately likelihood for success. Therefore, Linn Partners is continually comparing investment opportunities, rate of return, and market viability of each project based upon financial metrics.”

- D. "Due to an extremely competitive power market in ERCOT, the Chapter 313 appraised value limitation agreement is a necessity for a solar project of this size, and the commercial terms associated have a significant impact on the project's likelihood for success. There are only a few developmental variables for solar project which enhance the economics (i.e. property taxes, land rental payment, geotechnical adders), and since solar projects all compete with each other within ERCOT, a project without an appraised value limitation agreement is not competitive and is very unlikely to reach the point of construction."
- E. "Therefore, this appraised value limitation is critical to the ability of the proposed project to move forward as currently sited within the Valley Mills Independent School District."
- According to a Regular Meeting of the Board of Trustees of Valley Mills ISD dated June 19, 2019, "The motion was made by Jim Blackford and seconded by John Bullion to accept an Application for Value Limitation Agreement from Markum Solar pursuant to Chapter 313 of the Texas Property Tax Code; authorize the Superintendent of Schools to review the Application for completeness and submit the Application to the Comptroller of Public Accounts; and authorize the Superintendent of Schools to approve any request for extension of the deadline for Board action beyond the 150-day Board review period as may be required."
- Supplemental information provided by the applicant indicated the following:
 - A. "Markham Solar."
 - B. "Yes, the project is currently being studied as a 161MWac solar energy facility proceeding through the Full Interconnection Study process. The GNIR for the project is 201NR0230."

Documentation to assist in determining if limitation is a determining factor.

Linn Partners is family investment firm established in 2005 and based out of Fort Worth. As a firm, we invest in real estate, agriculture and ranch opportunities, and other business ventures where we can add value. Renewable energy projects are slowly becoming synonymous with ranching investments not only in Texas but also neighboring states, especially to the north in Oklahoma and Kansas, and to the west in New Mexico.

Linn Partners is keen to develop and build the proposed Glory Leasing Solar Project as per this application on L Bar L Ranch, which is situated within the Valley Mills Independent School District, but since this Project is still in early- to mid- stage of development, further investment could be redeployed to other counties within the state of Texas or an entirely different state within the United States. Linn Partners is currently considering comparable solar development opportunities within New Mexico, Arizona, and Colorado. This Project, as with the aforementioned projects, are limited to a finite amount of capital investment.

In addition to the capital that will be deployed by Glory Leasing LLC, the solar project's ultimate financier/operator will be a nationally-renowned entity with limited investment capital to deploy across the U.S. Consistent with the 313 applications filed by these companies on other renewable energy projects, the successful completion of market-competitive tax incentives is a necessity that provides a level playing field for all successful utility-scale solar projects in Texas. Key development characteristics, such as securing tax abatement commercial terms for example, will determine the ultimate location of the Glory Leasing Solar Project. Tax abatements, along with a few several other development variables, have a significant impact on the competitiveness of the project's generation and ultimately likelihood for success. Therefore, Linn Partners is continually comparing investment opportunities, rate of return, and market viability of each project based upon financial metrics.

Due to an extremely competitive power market in ERCOT, the Chapter 313 appraised value limitation agreement is a necessity for a solar project of this size, and the commercial terms associated have a significant impact on the project's likelihood for success. There are only a few developmental variables for solar project which enhance the economics (i.e. property taxes, land rental payment, geotechnical adders), and since solar projects all compete with each other within ERCOT, a project without an appraised value limitation agreement is not competitive and is very unlikely to reach the point of construction. Therefore, this

appraised value limitation is critical to the ability of the proposed project to move forward as currently sited within the Valley Mills Independent School District.

Introduction

Glory Leasing, LLC (“Glory Leasing” or “Company”) has submitted an application to the Valley Mills Independent School District (“VMISD” or “District”) requesting a property value limitation on a proposed project, located within the school district boundaries, under Chapter 313 of the Texas Tax Code. The proposed project is a solar powered electric generating facility in Bosque County, TX. The company estimates that the total investment in this project will be in excess of \$42 million.

Local government entities in Texas, including school districts, rely heavily on the ad valorem property tax to fund operations and building projects. Thus, the property tax burden that Texas imposes on individuals and business entities is higher compared to most other states. Seeking to encourage economic development and to attract large scale capital investment, the 77th Texas Legislature in 2001 enacted House Bill 1200 creating Tax Code Chapter 313, the Texas Economic Development Act. The act as amended by the legislature in 2007, 2009, and 2013 now grants eligibility to companies engaging in manufacturing, advanced clean energy projects, research and development, clean coal projects, renewable electric energy generation, electric power generation using integrated gasification combined cycle technology, nuclear electric power generation and a computer center used primarily in connection to one of the other categories, or a Texas Priority Project. Under the provisions of this law, the Valley Mills Independent School District may grant a value limitation for maintenance and operation taxes in the amount of \$20 million dollars for a period of ten years.

The application calls for the project to be fully taxable for both M&O (maintenance and operation) and I&S (interest and sinking) during the 2021-22 school year. Beginning with the 2022-23 school year, the value of the project would be limited to \$20 million for M&O tax purposes and remain limited through the 2031-32 school year. The full value of the project will be taxable for debt service purposes using the I&S tax rate in all years of the agreement.

Total Tax Savings to Company after all Payments -	\$452,252

School Finance Mechanics

The Texas system of public-school funding is based on the ad valorem property tax. Schools levy a tax rate for maintenance and operation (M&O) and interest and sinking (I&S) against a current year tax roll. As a result of House Bill 3, as passed by the 86th Texas Legislature, signed into law, and effective in relevant part, on September 1, 2019, State funding is calculated using current year property value, which is a significant change from prior law which has relied on prior year values as certified by the Comptroller's Property Tax Division (CPTD), since 1993. However, for the purposes of districts with Tax Code Chapter 313 agreements and in accordance with Sec. 48.256 – LOCAL SHARE OF PROGRAM COST (TIER I), Subsection d - *A revenue protection payment required as part of an agreement for a limitation on appraised value shall be based on the district's taxable value of property for the preceding tax year.*

Texas school districts are funded by some combination of local ad valorem property taxes and state aid. Most of the money that a school district generates through the funding formulas is generated in Tier 1. Local M&O collections at the compressed tax rate generate Tier I funding. In 2019-20, a school district's Tier I revenue is the greater of the adjusted minimum target revenue amount or the state share of Tier 1 plus local M&O collections at the compressed rate. The Tier 1 formulas start with a Basic Allotment per student of \$6,160. Funding calculations use the number of students in average daily attendance, the number of students who participate in categorical/special programs, and adjustments for size, sparsity, and location determine a Total Cost of Tier 1. A Local Fund Assignment is determined by multiplying the district's compressed tax rate by the current year property value. This formula determines the local ad valorem property taxes the district must collect in order to satisfy the district's share of the Tier 1 cost. School districts that are relatively property wealthy per student fund most of the Total Cost of Tier 1 with local property taxes, while school districts that are relatively property poor per student receive most of the Total Cost of Tier 1 from state aid.

Valley Mills ISD is a relatively property low wealth district per student and so most of its M&O revenue is not generated from local ad valorem property taxes. In attempting to provide some degree of funding equity among school districts, the formulas provide guaranteed yields for both Tier I (formula funding) and for Tier II (enrichment). For those districts that generate local revenue in excess of entitlement amounts, the excess revenue is recaptured. Under prior law, recapture was a function of excess property wealth per weighted student. The system continues to rely on both golden (greater of 96th percentile of wealth up to 160% of basic allotment) and copper (equalized up to \$49.28/WADA) enrichment pennies (Tier II tax rate). Under HB 3, districts can access up to 8 golden pennies. Copper pennies will be compressed in manner that generates the same revenue for the compressed number of pennies as were taxed under old law.

VMISD currently has property wealth per weighted ADA that is less than the second equalized wealth level at \$233,915 per weighted ADA. Under prior law, VMISD was not considered a Chapter 41 district and would not have paid recapture. The implementation of HB 3, is not expected to alter Valley Mill's status in terms of being required to pay recapture. Glory Leasing is requesting that the value of the solar powered electric generating facility be limited to \$20,000,000 in years one through ten of the agreement, corresponding to the 2022-23 school year through the 2031-32 school year. The full value of the project would be subject to interest and sinking (I&S) taxes levied by Valley Mills ISD in all years of the agreement.

Underlying Assumptions

A forecast of the financial impact that the proposed value limitation will have on VMISD's future revenue is critical information that will be very useful to the district when making the decision to grant the limitation and for the district's long range financial planning process. Analysis for this application covers the 2021-22 through the 2036-37 school years.

The Revenue Protection Clause of the proposed agreement calls for the school district to be held harmless against any potential state and local maintenance and operation revenue losses as a result of the value limitation agreement. Revenue protection calculations are to be made using whatever property tax laws and school funding formulas are in place at that time in years one through ten of the agreement. This stipulation is a statutory requirement under Section 313.027 of the Tax Code.

The approach used in this report was to predict 16 years of base data including average daily attendance, M&O and I&S tax rates, maintenance and operation (M&O) tax collections and current year (CAD) values and prior year (CPTD) values for each year of the agreement. For the purposes of this analysis, final 2018 CPTD values were used as well as 2019 CAD values from Bosque, McLennan, and Coryell CADs (Central Appraisal District). These values have been included in the base data illustrated in **Table 1**.

To isolate the impact of the value limitation on the District's finances over this 16 year agreement, average daily attendance and maintenance and operation tax rates were held constant at levels that were projected to exist in the 2019-20 school year. An ADA of 612, a WADA of 1,099 and a 2019 M&O tax rate of \$1.04, compressed to \$0.97 under HB 3, were used for each year of the forecast. A tax collection rate of 100% is assumed in all of the calculations used in this analysis. The Bosque, McLennan, and Coryell CAD certified value for 2019 was used as the 2019 CAD value. This value was used as the basis for subsequent current year (CAD) values in this report. The final 2018 T1, T2, T3 and T4 Comptroller Property Tax Division (CPTD) values, certified to school districts in late July, 2019, were used as a basis for predicting prior year (CPTD) values for each of the agreement years.

The proposed agreement calls for Valley Mills ISD to be held harmless against potential state and local revenue losses that might occur as a result of the value limitation being in effect for any given year of the agreement. In order to predict when and if these revenue losses may occur, a state and local revenue projection for the 2019-2020 school year was completed to serve as base line data and is displayed in **Table 2**. In any year of the limitation period where total state and or local funding with the full project value exceeds the total state and local funding produced when the limited value is used, a Revenue Protection Payment is indicated for that year. The results of these calculations are illustrated in Table 3.

Financial Impact on the School District

Utilizing the assumptions and methodology described above, total maintenance and operation revenue was estimated for each year of the agreement. **Table 3**, which summarizes the difference between the two models, indicates that there will be a total revenue loss of \$220,163 over the course of the agreement. The revenue loss by the district, due to the agreement, is estimated to be mostly in the first year of the value limitation period.

Financial Impact on the Taxpayer

The terms of the proposed agreement call for the maintenance and operation (M&O) value of the project to be limited to \$20 million starting in school year 2022-23 and remaining limited through school year 2031-32. The potential gross and net tax savings to Glory Leasing are shown in Table 3. As stated earlier, an M&O tax rate of \$.97 and a collection rate of 100% is used throughout the calculations in this report. Table 3 shows gross tax savings due to the limitation of \$753,754 over the length of the contract. Net tax savings are estimated to be \$533,591. To estimate supplemental payments to the school district of \$100 per ADA, a growth model was applied to the base ADA of 612, which was the projected ADA for VMISD for the 2019-20 school year. VMISD's growth rate for the last 10 years has averaged less than 1% which is also reflected by demographic studies.

Facilities Funding Impact on the District

Reports submitted by Glory Leasing show the full value of the property being depreciated over time. Even so, the full value of the project will be available to the district for I&S taxes and will enhance the district's ability to service current and future debt obligations. While the project is expected to provide additional employment opportunities in the area, the impact on student enrollment is predicted to be minimal.

Conclusion

The Glory Leasing project proposed in this application will benefit the community, the district, VMISD, and the taxpayer, Glory Leasing. The community will receive economic development, the taxpayer will enjoy savings on property taxes and the district will be held harmless from revenue loss due to the provisions of the agreement. The district will also enjoy an increased value available for I&S tax collections dedicated to debt service that can be leveraged to provide first class facilities for faculty and students.

Remember that the Texas Legislature could take additional action that could potentially change the impact of this agreement on the finances of Valley Mills ISD and result in estimates that differ significantly from the estimates presented in this analysis. Some of the factors that could significantly change these estimates are legislative or administrative changes by the Texas Legislature, the Texas Education Agency or the Comptroller of Public Accounts. Those changes could contain changes to the school finance formulas, property value appraisals and tax exemptions. Other factors which could change, and will impact the estimates of this agreement, include changes to property values, district tax rates and student enrollment.

PROTECTION AGAINST LOSS OF FUTURE DISTRICT REVENUES

Section 4.1. INTENT OF PARTIES.

It is the intent of the Parties in accordance with the provisions of Section 313.027(f)(1) of the TEXAS TAX CODE and Section 48.256 (d) of the TEXAS EDUCATION CODE that the District shall be compensated by the Applicant as provided in this Article IV for any Lost M&O Revenue as a result of, or on account of, entering into this Agreement, after taking into account any payments to be made under this Agreement. Such payments shall be independent of, and in addition to such other payments as set forth in Article V and Article VI of this Agreement. **It is the intent of the Parties that the risk of any and all Lost M&O Revenue as a result of, or on account of, entering into this Agreement, will be borne by the Applicant and not by the District.**

Subject to the limitations contained in this Agreement, the calculation of any Lost M&O Revenue required to be paid by the Applicant under this Article IV shall be made for the first time in the first complete Tax Year following the Application Approval Date and every year thereafter during the term of this Agreement.

Within 60 days from the date Commercial Operation begins, the Applicant shall provide to the District, the Comptroller, and the Appraisal District a verified written report, giving a specific and detailed description of the land, tangible personal property, buildings, or permanent, nonremovable building components (including any affixed to or incorporated into real property) to which the value limitation applies including maps or surveys of sufficient detail and description to locate all such Qualified Property within the boundaries of the land which is subject to the Agreement, if such final description is different than the description provided in the Application or any supplemental application information, or if no substantial changes have been made, a verification of the fact that no substantial changes have been made.

The Parties further agree that the printouts and projections produced during the negotiations and approval of this Agreement are:

- i. For illustrative purposes only, are not intended to be relied upon, and have not been relied upon by the Parties as a prediction of future consequences to either Party to the Agreement;
- ii. Are based upon current Applicable School Finance Law, which is subject to change by statute, by administrative regulation, or by judicial decision at any time; and,
- iii. May change in future years to reflect changes in the Applicable School Finance Law.

Section 4.2 CALCULATING LOST M&O REVENUE.

Subject to the limitations contained in this Agreement, the amount to be paid by the Applicant to compensate the District for loss of M&O Revenue resulting from, or on account of, this Agreement for each year starting in the year of the Application Approval Date and ending on Final Termination Date (the “Lost M&O Revenue”) shall be determined in compliance with the Applicable School Finance Law in effect for such year and according to the following formula:

Subject to the limitations contained in this Agreement, including the Aggregate Limit, the Lost M&O Revenue owed by the Applicant to District means the Original M&O Revenue *minus* the New M&O Revenue.

In making the calculations required by this Section 4.2:

- i. The Taxable Value of property for each school year will be determined under the Applicable School Finance Law.
- ii. For purposes of this calculation, the tax collection rate on the Applicant’s Qualified Property will be presumed to be one hundred percent (100%).
- iii. If, for any year of this Agreement, the difference between the Original M&O Revenue and the New M&O Revenue, as calculated under this Section 4.2 of this Agreement, results in a negative number, the negative number will be considered to be zero.
- iv. For all calculations made for years during the Tax Limitation Period under this Section 4.2 of this Agreement, Subsection ii of this subsection will reflect the Tax Limitation Amount for such year.
- v. All calculations made under this Section 4.2 shall be made by a methodology which isolates only the full Maintenance and Operation Revenue impact caused by this Agreement. The Applicant shall not be responsible to reimburse the District for other revenue losses created by other agreements, or on account of or otherwise arising out of any other factors not contained in this Agreement.

Section 4.3. CALCULATIONS TO BE MADE BY THIRD PARTY.

All calculations under this Agreement shall be made annually by an independent third party (the “Third Party”) selected and appointed each year by the District, subject to approval by Applicant in writing, which approval shall not unreasonably be withheld.

Section 4.4. DATA USED FOR CALCULATIONS.

The calculations for payments under this Agreement shall be initially based upon the valuations that are placed upon all taxable property in the District, including the Applicant’s Qualified Property, by the Appraisal District in its annual certified tax roll submitted to the District for each Tax Year pursuant to

TEXAS TAX CODE § 26.01 on or about July 25 of each year of this Agreement. Immediately upon receipt of the valuation information by the District, the District shall submit the valuation information to the Third Party selected and appointed under Section 4.3. The certified tax roll data shall form the basis of the calculation of any and all amounts due under this Agreement. All other data utilized by the Third Party to make the calculations contemplated by this Agreement shall be based upon the best available current estimates. The data utilized by the Third Party shall be adjusted from time to time by the Third Party to reflect actual amounts, subsequent adjustments by the Appraisal District to the District's certified tax roll or any other changes in student counts, tax collections, or other data.

Section 4.5. EFFECT OF PROPERTY VALUE APPEAL OR OTHER ADJUSTMENT.

If the Applicant has appealed any matter relating to the valuations placed by the Appraisal District on the Applicant's Qualified Property, and such appeal remains unresolved at the time the Third Party selected under Section 4.3 makes its calculations under this Agreement, the Third Party shall base its calculations upon the values placed upon the Applicant's Qualified Property by the Appraisal District. The calculations shall be readjusted, if necessary, based on the outcome of the appeal as set forth below.

If as a result of an appeal or for any other reason, the Taxable Value of the Applicant's Qualified Investment is changed, once the determination of the new Taxable Value becomes final, the Parties shall immediately notify the Third Party who shall immediately issue new calculations for the applicable year or years using the new Taxable Value. In the event the new calculations result in a change in any amount paid or payable by the Applicant under this Agreement, the Party from whom the adjustment is payable shall remit such amount to the other Party within thirty (30) days of the receipt of the new calculations from the Third Party.

Section 4.6. DELIVERY OF CALCULATIONS.

On or before November 1 of each year for which this Agreement is effective, the Third Party appointed pursuant to Section 4.3 of this Agreement shall forward to the Parties a certification containing the calculations required under this Article IV, Article V, Article VI, and/or Section 7.1 of this Agreement in sufficient detail to allow the Parties to understand the manner in which the calculations were made. The Third Party shall simultaneously submit his, her or its invoice for fees for services rendered to the Parties, if any fees are being claimed, which fee shall be the sole responsibility of the District, but subject to the provisions of Section 4.8, below. Upon reasonable prior notice, the employees and agents of the Applicant shall have access, at all reasonable times, to the Third Party's calculations, records, and correspondence pertaining to the calculation and fee for the purpose of verification. The Third Party shall maintain supporting data consistent with generally accepted accounting practices, and the employees and agents of the Applicant shall have the right to reproduce and retain for purpose of audit, any of these documents. The Third Party shall preserve all documents pertaining to the calculation until four (4) years after the Final Termination Date of this Agreement. The Applicant shall not be liable for any of the Third Party's costs resulting from an audit of the Third Party's books, records, correspondence, or work papers pertaining to the calculations contemplated by this Agreement.

Section 4.7. STATUTORY CHANGES AFFECTING MAINTENANCE & OPERATION REVENUE.

Notwithstanding any other provision in this Agreement, in the event that, by virtue of statutory changes to the Applicable School Finance Law, administrative interpretations by the Comptroller, Commissioner of Education, or the Texas Education Agency, or for any other reason attributable to statutory change, the District will receive less Maintenance and Operations Revenue, or, if applicable, will be required to increase its payment of funds to the State, because of its participation in this Agreement, the Applicant shall make payments to the District that are necessary to fully reimburse and hold the District harmless from any actual negative impact on the District's Maintenance and Operation Revenue as a result of its participation in this Agreement. Such calculation shall take into account any adjustments to the amount calculated for the current fiscal year that should be made in order to reflect the actual impact on the District. Such payment shall be made no later than thirty (30) days following notice from the District of such determination and calculation. The District shall use reasonable efforts to mitigate the economic effects of any such statutory change or administrative interpretation, and if the Applicant disagrees with any calculation or determination by the District of any adverse impact described in this Article IV, the Applicant shall have the right to appeal such calculation or determination in accordance with the procedures set forth in Section 4.9.

Section 4.8. PAYMENT BY APPLICANT.

Subject to Section 4.9 below, the Applicant shall pay any amount determined by the Third Party to be due and owing to the District under this Agreement on or before the January 31 of the year next following the tax levy for each year for which this Agreement is effective. Subject to the limitation set forth in this Section 4.8 below, by such date, the Applicant shall also pay any amount billed by the Third Party for all calculations under this Agreement under Section 4.4, above, plus any reasonable and necessary legal expenses paid by the District to its attorneys, auditors, or financial consultants for the preparation and filing of any financial reports, disclosures, or other reimbursement applications filed with or sent to the State of Texas, for any audits conducted by the State Auditor's Office, or for other legal expenses which are, or may be required under the terms of, or because of, the execution of this Agreement. The Applicant shall only be responsible for the payment of an aggregate amount of fees and expenses under this Section 4.8 not to exceed Fifteen Thousand Dollars (\$15,000.00).

Section 4.9. RESOLUTION OF DISPUTES.

Should the Applicant disagree with the Third Party calculations made pursuant to this Article IV of this Agreement, the Applicant may appeal the findings, in writing, to the Third Party within thirty (30) days following the later of (i) receipt of the certification, or (ii) the date the Applicant is granted access to the books, records, and other information in accordance with Section 4.4 for purposes of auditing or reviewing the information in connection with the certification. Within thirty (30) days of receipt of the Applicant's appeal, the Third Party will issue, in writing, a final determination of the calculations. Thereafter, the Applicant may appeal the final determination of the certification containing the calculations to the District's Board of Trustees within thirty (30) days after receipt of the final determination of the calculations. Any appeal by the Applicant of the final determination of calculations shall in no way limit Applicant's other rights and remedies available hereunder, at law or in equity.

Section 6.1. INTENT OF PARTIES WITH RESPECT TO SUPPLEMENTAL PAYMENTS

Each Supplemental Payment shall be due and payable on January 31st of the year following that in which such Supplemental Payment accrued.

Section 6.2. SUPPLEMENTAL PAYMENT. Notwithstanding the foregoing:

- B. Supplemental Payments may only be made during the period starting the first year of the Qualifying Time Period and ending December 31 of the third year following the end of the Tax Limitation Period.
- C. The limitation in Section 6.2.A does not apply to amounts described by Section 313.027(f)(1)–(2) of the TEXAS TAX CODE as implemented in Articles IV and V of this Agreement.
- D. For purposes of this Agreement, the calculation of the limit of the annual Supplemental Payment shall be the greater of \$50,000 or \$100 multiplied by the District’s Average Daily Attendance as calculated pursuant to Section 42.005 of the TEXAS EDUCATION CODE, based upon the District’s Average Daily Attendance for the previous school year.

Failure to pay such Supplemental Payments shall constitute Material Breach of this Agreement, as set forth more fully herein at Article IX.

Section 6.3. CALCULATION OF ANNUAL SUPPLEMENTAL PAYMENTS TO THE DISTRICT.

For each Tax Year beginning with the period starting the first year of the Limitation Period (2022) and ending on the final year of the Limitation Period (2031), Supplemental Payments shall be owed.

All calculations required by this Article VI, including but not limited to: (i) the calculation of the Applicant’s Cumulative Payment Amount; (ii) the determination of both the Annual Limit and the Aggregate Limit; (iii) the effect, if any, of the Aggregate Limit upon the actual amount of Cumulative Payments eligible to be paid to the District by the Applicant; and (iv) the carry forward and accumulation of any of the Applicant’s Stipulated Supplemental Payment Amounts unpaid by the Applicant due to the Aggregate Limit in previous years, shall be calculated by the Third Party selected pursuant to Section 4.3.

- (a) The calculations made by the Third Party shall be made at the same time and on the same schedule as the calculations made pursuant to Section 4.6.
- (b) The payment of all amounts due under this Article VI shall be made at the time set forth in Section 4.8.
- (c) Any appeal by the Applicant of the calculations made by the Third Party under this Article VI shall be done in the same manner as set forth in Section 4.9, above.

Section 6.5. DISTRICT'S OPTION TO DESIGNATE SUCCESSOR BENEFICIARY.

At any time during this Agreement, the Board of Trustees may, in its sole discretion, direct that any of the Applicant's payments under this Article VI be made to the District's educational foundation or to a similar entity. Such foundation or entity may only use such funds received under this Article VI to support the educational mission of the District and its students. Any designation of such foundation or entity must be made by recorded vote of the Board of Trustees at a properly posted public meeting of the Board of Trustees.

ARTICLE VII

ANNUAL LIMITATION OF PAYMENTS BY APPLICANT

Section 7.1. ANNUAL LIMITATION.

Notwithstanding anything contained in this Agreement to the contrary, and with respect to each Tax Year of the Tax Limitation Period beginning after the first Tax Year of the Tax Limitation Period, in no event shall (i) the sum of the maintenance and operations ad valorem taxes paid by the Applicant to the District for such Tax Year, plus the sum of all payments otherwise due from the Applicant to the District under Articles IV, V, and VI of this Agreement with respect to such Tax Year, exceed (ii) the amount of the maintenance and operations ad valorem taxes that the Applicant would have paid to the District for such Tax Year (determined by using the District's actual maintenance and operations tax rate for such Tax Year) if the Parties had not entered into this Agreement. The calculation and comparison of the amounts described in clauses (i) and (ii) of the preceding sentence shall be included in all calculations made pursuant to Article IV of this Agreement, and in the event the sum of the amounts described in said clause (i) exceeds the amount described in said clause (ii), then the payments otherwise due from the Applicant to the District under Articles IV, V, and VI shall be reduced until such excess is eliminated.

Section 7.2. OPTION TO TERMINATE AGREEMENT.

In the event that any payment otherwise due from the Applicant to the District under Article IV, Article V, or Article VI of this Agreement with respect to a Tax Year is subject to reduction in accordance with the provisions of Section 7.1, then the Applicant shall have the option to terminate this Agreement. The Applicant may exercise such option to terminate this Agreement by notifying the District of its election in writing not later than the July 31 of the year following the Tax Year with respect to which a reduction under Section 7.1 is applicable. Any termination of this Agreement under the foregoing provisions of this Section 7.2 shall be effective immediately prior to the second Tax Year next following the Tax Year in which the reduction giving rise to the option occurred.

Section 7.3. EFFECT OF OPTIONAL TERMINATION.

Upon the exercise of the option to terminate pursuant to Section 7.2, this Agreement shall terminate and be of no further force or effect; provided, however, that:

A. the Parties respective rights and obligations under this Agreement with respect to the Tax Year or Tax Years (as the case may be) through and including the Tax Year during which such notification is

C. In addition to and without limitation on the other audit provisions of this Agreement, the acceptance of tax benefits or funds by the Applicant or the District or any other entity or person directly under this Agreement acts as acceptance of the authority of the State Auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. C. The sum of liquidated damages due and payable shall be the sum total of the District ad valorem taxes for all of the Tax Years for which a tax limitation was granted pursuant to this Agreement prior to the year in which the default occurs that otherwise would have been due and payable by the Applicant to the District without the benefit of this Agreement, including penalty and interest, as calculated in accordance with Section 9.4.E. For purposes of this liquidated damages calculation, the Applicant shall be entitled to a credit for all payments made to the District pursuant to Articles IV, V, and VI. E. In determining the amount of penalty or interest, or both, due in the event of a breach of this Agreement, the District shall first determine the base amount of recaptured taxes less all credits under Section 9.4.C owed for each Tax Year during the Tax Limitation Period. The District shall calculate penalty or interest for each Tax Year during the Tax Limitation Period in accordance with the methodology set forth in Chapter 33 of the TEXAS TAX CODE, as if the base amount calculated for such Tax Year less all credits under Section 9.4.C had become due and payable on February 1 of the calendar year following such Tax Year. Penalties on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(a) of the TEXAS TAX CODE, or its successor statute. In addition, the District's sole right of equitable relief under this Agreement shall be its right to terminate this Agreement. The Parties further agree that the limitation of damages and remedies set forth in this Section 9.5 shall be the sole and exclusive remedies available to the District, whether at law or under principles of equity.

Section 9.6. STATUTORY PENALTY FOR INADEQUATE QUALIFIED INVESTMENT.

Pursuant to Section 313.0275 of the TEXAS TAX CODE, in the event that the Applicant fails to make \$10,000,000 of Qualified Investment, in whole or in part, during the Qualifying Time Period, the Applicant is liable to the State for a penalty. The amount of the penalty is the amount determined by: (i) multiplying the maintenance and operations tax rate of the school district for that tax year that the penalty is due by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the Tax Year the penalty is due. This penalty shall be paid on or before February 1 of the year following the expiration of the Qualifying Time Period and is subject to the delinquent penalty provisions of Section 33.01 of the TEXAS TAX CODE. The Comptroller may grant a waiver of this penalty in the event of Force Majeure which prevents compliance with this provision.

Section 9.7. REMEDY FOR FAILURE TO CREATE AND MAINTAIN REQUIRED NEW QUALIFYING JOBS.
