# Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

**INSTRUCTIONS:** This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
  - the date on which the school district received the application;
  - the date the school district determined that the application was complete;
  - the date the school board decided to consider the application; and
  - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at [comptroller.texas.gov/economy/local/ch313/](http://comptroller.texas.gov/economy/local/ch313/). ## Detailed Description of the Project

Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

IP Radian, LLC (“IP Radian”) is requesting an appraised value limitation from Brookesmith Independent School District (“ISD”) for the IP Radian Project (the “Project”). IP Radian proposes to develop a utility-scale, grid-connected solar photovoltaic energy (PV) plant in Brookesmith Independent School District. The proposed Project will be constructed within a Reinvestment Zone that will be created by the Board of Trustees of Brookesmith ISD. Maps showing the location of the Project are attached in Tab 11.

The Project will be constructed on approximately 3,000 acres, which is part of a larger, long-term lease agreement. The Project will be located entirely within Brookesmith Independent School District. The proposed Project will include, but is not limited to, the following:

- Planned up to 300 MW-AC in size;
- Photovoltaic (PV) modules;
- DC-to-AC inverters;
- Medium and high-voltage electric cabling;
- Tracker racking system (mounting structures);
- Project substation which will include a high-voltage transformer, switchgear, transmission equipment, telecommunications and SCADA control equipment, and all necessary equipment needed to connect the Project to the substation and subsequently to a transmission line not owned by the Project;
- Operations and maintenance (O&M) building including telecommunications and computing equipment;
- Meteorological equipment to measure solar irradiance and other weather conditions; and
- Associated equipment to safely operate, maintain, and deliver electricity to the grid.

IP Radian requests a value limitation for all real property and tangible personal property installed for the Project, including but not limited to: solar modules/panels, racking and mounting structures, inverters, combiner boxes, meteorological equipment, foundations, roadways, buildings and offices, paving, fencing, collection system, electrical substations, generation transmission tie line and associated towers, and interconnection facilities.

Construction of the Project is anticipated to begin in February 2021 with anticipated project completion by the end of May 2022.

The ERCOT GINR is 21INR0205 which was assigned on September 27, 2018. The project is not known by any other name.

**TAB 5***Documentation to assist in determining if limitation is a determining factor.*

IP Renewable Energy Holdings, LLC, the parent of IP Radian, LLC, is a national solar developer with project opportunities across the United States. The ability to enter into a value limitation agreement with Brookesmith ISD is a determining factor for constructing the project in Brown County, Texas, as opposed to building and investing in another county, state or region. IP Renewable Energy Holdings LLC is considering investing in California and Colorado.

IP Renewable Energy Holdings, LLC is actively developing and constructing other projects throughout the US. The applicant requires this value limitation agreement in order to move forward with constructing this project in Texas. Specifically, without the available property tax incentives, the economics of the project become unappealing to investors and the likelihood of constructing the project becomes unlikely. The property tax liability of a project without tax incentives in Texas, including a value limitation agreement with Brookesmith ISD, lowers the return to investors and financiers to an unacceptable level at current contracted power rates under a power purchase agreement. As such, the applicant would not be able to finance and build its project without the property tax incentives. We want to avoid a situation where the applicant would be forced to have its development capital and prospective investment funds spent in other states where the rate of return is higher on a project basis.

However, the proposed site in Brown County is a desirable business location and can provide electricity at a price that is competitive with other projects in Brown County and elsewhere in Texas, assuming that the expected tax incentives, including a value limitation agreement, are obtained. Electric utilities and other wholesale electricity buyers are focused on providing low-cost energy to their customers, and contracting for the sale of solar electricity is highly competitive. Receiving a value limitation agreement from Brookesmith ISD is vital to ensuring the economics justify building the project and placing it into commercial operation in Brown County.

**About IP Renewable Energy Holdings LLC**

CUMMINGS WESTLAKE  
PROPERTY TAX ADVISORS

July 24, 2019

Mr. Steve Mickelson  
Superintendent  
Brookesmith Independent School District  
13400 FM 586 S  
Brookesmith, TX 76827

**Re: Chapter 313 Job Waiver Request**

Dear Mr. Mickelson,

IP Radian, LLC requests that the Brookesmith Independent School District's Board of Trustees waive the job requirement provision as allowed by Section 313.025(f-1) of the Tax Code. This waiver would be based on the school district's board findings that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application.

IP Radian, LLC requests that the Brookesmith Independent School District make such a finding and waive the job creation requirement for 10 permanent jobs. In line with industry standards for job requirements, IP Radian, LLC has committed to create two total jobs for the project, which will be in Brookesmith Independent School District.

Solar projects create a large number of full and part-time, but temporary jobs during the construction phase of the project but require a relatively small number of highly skilled technicians to operate and maintain the project after commercial operation commences. A number of our solar clients have advised that the industry standard for staffing new solar projects is one employee for every 200 megawatts AC of capacity.

The number of jobs specified in this application is in line with the industry standards for a solar farm of this scope and size. This is evidenced by previously filed limitation agreement applications by solar developers who also requested a

waiver of the job requirements. In addition, there is publicly available educational material and other documentation that also suggest that IP Radian has the appropriate number of jobs for this project.

Sincerely,

A handwritten signature in cursive script that reads "D. Dale Cummings".

D. Dale Cummings
