Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Detailed Description of the Project

Proposed Project Description

MarkWest Energy West Texas Gas Company, L.L.C is considering building a new 200 million cubic feet per day gas processing plant in Reeves County, Texas on approximately 88 acres of land located in the northwestern part of the County.

Feedstock

The gas plant will receive raw Natural Gas via a to-be-built high-pressure gas pipeline. Existing and new Gathering lines located throughout the Permian Basin will be used to collect the natural gas produced at the well-head. The gas in the gathering lines will connect to the high-pressure line that will feed the plant. The gathering lines are typically owned by the exploration and production companies.

Products

The gas plant will process the raw natural gas gathered in the field into pipeline grade natural gas by removing impurities, water, and heavier liquid hydrocarbons such that the natural gas meets the shipping pipeline's purity requirements.

Logistics

The gas plant will be connected via a new to-be-built pipeline that will deliver raw natural gas and via new to-be-built connector pipelines that will connect to existing pipeline grade natural gas and NGL pipelines that will deliver the natural gas and the NGLs to the Gulf Coast for marketing. The new to-be-built pipelines are not part of this application.

Equipment List

- Amine Unit
- Inlet Slug Catcher
- Condensate Stabilizer
- Distillation Towers
- Heaters
- Coolers
- Pumps
- Compression Equipment
- Distributed Control System "DCS" (Computer Control)
- Valves
- Piping
- Heat Exchangers
- Flare System
- Fire Protection
- Electricity and Steam
- Waste Water Processing

TAB 5

Documentation to Assist in Determining if Limitation is a Determining Factor

1. Does the applicant currently own land on which the proposed project will occur?

NO

2. Has the applicant entered into any agreements, contracts or letters of intent related to the proposed project?

NO

3. Does the applicant have current business activities at the location where the proposed project will occur?

YES

The applicant owns exiting pipelines and a Central Delivery Point. See Tab 10 for additional details.

4. Has the applicant made public statements in SEC filings or other documents regarding its intentions regarding the proposed project location?

NO

5. Has the applicant received any local or state permits for activities on the proposed project site?

NO

6. Has the applicant received commitments for state or local incentives for activities at the proposed project site?

NO

7. Is the applicant evaluating other locations not in Texas for the proposed project?

YES

MPLX LP, the parent company of MarkWest Energy West Texas Gas Company, L.L.C., is currently evaluating certain discretionary projects in multiple state-wide and out-of-state locations. The projects under review could all generate attractive returns on capital. However, MPLX's ability to finance these competing projects is limited and therefore dependent on a thorough and comprehensive financial analysis for each of the prospective projects and locations.

The Appraised Value Limitation from PBTISD will be a significant factor in determining whether to allocate the limited amount of capital to this specific project and location. As an example,

MARKWEST

Energy West Texas Gas Company, L.L.C.

CHAPTER 313 APPLICATION TO PECOS-BARSTOW-TOYAH ISD

TAB 5 (continued)

Louisiana offers up to a 10-year 100% exemption for new projects of this size and magnitude. Without the Appraised Value Limitation, this project would have a significant financial disadvantage when internally competing for capital versus a project in Louisiana.

The project will receive natural gas via pipeline from multiple Domestic gas producers including production from West Texas and New Mexico. The plant will produce products which are used as raw materials for other downstream products. The products will have the ability to be shipped via pipelines directly to downstream users as well as central marketing hubs. Due to the extensive existing pipeline and storage infrastructure in both Texas and New Mexico, this project could be located in either state and still have the necessary pipeline access.

The value limitation is a determining factor for several reasons, including but not limited to the following:

- a. Texas has high property tax rates when compared to New Mexico.
 - b. This project is competing for internal capital with projects that are being considered in other low-property tax rate states.
 - c. There are several direct competitors who have recently applied for and/or received limitation agreements for similar projects in Texas. For this project to be economically competitive with those other projects, a value limitation agreement is necessary.
8. Has the applicant provided capital investment or return on investment information for the proposed project in comparison with other alternative investment opportunities?
- NO
9. Has the applicant provided information related to the applicant's inputs, transportation and markets for the proposed project?
- YES
10. Are you submitting information to assist in the determination as to whether the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in Texas?

YES
