ON THE APPLICATION SUBMITTED BY PONTE ALTO
WINDPOWER, LLC (#1423)

STATE OF TEXAS §

COUNTY OF HIDALGO §

On March 5, 2020, a public meeting of the Board of Trustees of the La Villa Independent School District (“District”) was held. The meeting was duly posted in accordance with the provisions of the Texas Open Meetings Act, Chapter 551, Texas Government Code. At the meeting, the Board of Trustees took up and considered the application of Ponte Alto Windpower, LLC (“Applicant”) for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code. The Board of Trustees solicited input into its deliberations on the Application from interested parties within the District. The Board of Trustees has considered the economic impact analysis and the project certification issued by the Texas Comptroller of Public Accounts. After hearing presentations from the District’s administrative staff, and from consultants retained by the District to advise the Board in this matter, and after considering the relevant documentary evidence, the Board of Trustees makes the following findings with respect to application from Applicant, and the economic impact of that application:

On May 13, 2019, the Superintendent of the District, acting as agent of the Board of Trustees, and the Texas Comptroller of Public Accounts (“Comptroller”) received an Application from Applicant for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code. The Application was determined to be complete as of October 4, 2019. A copy of the Application is attached as **Attachment A**.

The Applicant, (Texas Taxpayer Id. 32070490373), is an entity subject to Chapter 171, Texas Tax Code, and is certified to be an active franchise taxpayer by the Comptroller. See **Attachment B**.

The Board of Trustees acknowledged receipt of the Application, along with the requisite application fee, established pursuant to Texas Tax Code § 313.025(a)(1) and Local District Policy.

The Application was delivered to the Comptroller for review pursuant to Texas Tax Code § 313.025(d). A copy of the Application was delivered to the Hidalgo County Appraisal District for review pursuant to 34 Tex. Admin. Code § 9.1054.

The Application was reviewed by the Comptroller pursuant to Texas Tax Code §313.026, and a Comptroller Certificate was issued on November 8, 2019, in which the Comptroller has determined, inter alia, that: 1) Application is subject to the provisions of Chapter 171, Texas Tax Code; 2) the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised values; 3) the proposed project is reasonably likely to generate tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement before the 25th anniversary of the beginning of the limitation period; and, 4) the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state. A copy of the Certificate is attached to the findings as **Attachment C**.

The Board of Trustees has previously directed that a specific financial analysis be conducted concerning the impact of the proposed value limitation on the finances of District. A copy of the report prepared by Moak, Casey & Associates, Inc., is attached to these findings as **Attachment D**. An updated financial summary has also been prepared, reflecting updates to the original application.

The Board of Trustees has confirmed that the taxable value of property in the District for the preceding tax year, as determined under Subchapter M, Chapter 403, Government Code, is as stated in **Attachment E**.

The Texas Education Agency has evaluated the impact of the project on the District's facilities. TEA's determination is to be attached to these findings as **Attachment F**.

The Board has adopted the Texas Economic Development Agreement (Form 50-826) as promulgated by the Comptroller's Office. Form 50-826 has been altered only in accordance only the provisions of the template that the Comptroller permitted. The proposed Agreement is attached to these findings as **Attachment G**.

After review of the Comptroller's Certificate and economic analysis, and in consideration of its own studies the Board finds:

Board Finding Number 1.

The Board finds that the property described in the Application meets the requirements of Tex. Tax Code §313.024 for eligibility for a limitation on appraised value.

In support of Finding 1, the Application indicates that:

Ponte Alto Windpower, LLC was recently created for the purpose of interconnecting Ponte Alto into the ERCOT market and there are no existing 312 or 313 agreements in place for this project. Ponte Alto is requesting an appraised value limitation from Lyford CISD and La Villa ISD for a proposed wind energy project using wind turbines and transmission located in Willacy, Hidalgo, and Cameron Counties. Ponte Alto will NOT be requesting an appraised value of limitation for the portion of the project located within the Monte Alto ISD, Lasara ISD, or Raymondville ISD boundaries. The wind farm and its associated infrastructure will be constructed within the jurisdiction of La Villa ISD, Lyford CISD, Lasara ISD, Monte Alto ISD, Raymondville ISD, Edcouch-Elsa ISD, Harlingen CISD, or Santa Rosa ISD and is located within Hidalgo, Willacy, and Cameron Counties, Texas.

The wind farm will have an estimated capacity of 207 megawatts (“MW”). To construct the wind farm, Ponte Alto expects: 46 wind turbines with a nameplate capacity of 4.5 Megawatts (“MW”) of which:

- 6 wind turbines being within the La Villa ISD boundaries,
- 30 wind turbines within the Lyford CISD boundaries,
- 3 wind turbines within the Monte Alto ISD boundaries,
- 4 wind turbines within the Lasara ISD boundaries, and
- 3 wind turbines within the Raymondville ISD boundaries.

In addition to the wind turbine generating units, there will be the supporting electrical collection system and roads to be constructed and improved as necessary, as well as a collection substation to permit the interconnection and transmission of electricity generated by the wind turbines, and an operations and maintenance building constructed within the Project’s boundary.

Property used for renewable electric energy generation is eligible for a limitation under §313.024(b)(5).

Board Finding Number 2.

The project proposed by the applicant is reasonably likely to generate, before the 25th anniversary of the beginning of the limitation period, tax revenue, including state tax revenue, school district maintenance and operations ad valorem tax revenue attributable to the project, and any other tax revenue attributable to the effect of the project on the

economy of the state, in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement (as detailed in Attachment B of the Comptroller's Certification).

Board Finding Number 3.

Based on the information certified by the Comptroller, the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state (as detailed in Attachment C of the Comptroller's Certification).

Board Finding Number 4.

The Board finds that the Application Fee received was reasonable and only in such an amount as was necessary to cover the District's costs of processing the Application under consideration.

In support of Finding 4, the Board reviewed the Application Fee payment included in the Application at Attachment A, the contract with the District's consultants and the internal costs for processing the application, if any.

Board Finding Number 5.

Based upon the Application and in the Comptroller's Economic Impact Evaluation and Certification, Attachment A, the Board finds that the number of jobs to be created and the wages to be paid comply with the requirements of statute; and, the Board further finds that the Chapter 313 Tax Limitation Agreement (Attachment G) contains all required provisions and information related to job creation requirements, to wit: the provisions set forth in Subsections 9.1C&D of such Agreement.

In its Application, the Applicant has committed to creating one (1) new qualifying job. The average salary level of qualifying jobs must be at least \$39,384 per year. The review of the application by the Comptroller's Office indicated that this amount—based on Texas Workforce Commission data—complies with current Tex. Tax Code §313.021(5)(B) requirement that qualifying jobs must pay 110 percent of the county average manufacturing wage. As defined in Section 313.021 of the Tax Code, "Qualifying Job" means a permanent full-time job that:

- (A) requires at least 1,600 hours of work a year;
- (B) is not transferred from one area in this state to another area in this state;

- (C) is not created to replace a previous employee;
- (D) is covered by a group health benefit plan for which the business offers to pay at least 80 percent of the premiums or other charges assessed for employee-only coverage under the plan, regardless of whether an employee may voluntarily waive the coverage; and
- (E) pays at least 110 percent of the county average weekly wage for manufacturing jobs in the county where the job is located.

Board Finding Number 6.

Based upon the information provided to the District with regard to the industry standard for staffing ratios of similar projects in the State of Texas, the District has determined that if the job creation requirement set forth in Texas Tax Code § 313.021(2)(A)(iv)(b) was applied, for the size and scope of the project described in the Application, the required number of jobs meets or exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility.

Board Finding Number 7.

The Applicant does not intend to create any non-qualifying jobs.

In its Application, Applicant has indicated that it does not intend to create any non-qualifying jobs. For any non-qualifying jobs the Applicant should create, the Applicant will be required to pay at least the county average wage of \$34,438 for all jobs in the county in accordance with the provisions of Tex. Tax Code §313.024(d).

Board Finding Number 8.

The revenue gains that will be realized by the school district if the Application is approved will be significant in the long-term, with special reference to revenues used for supporting school district debt.

In support of this finding, the analysis prepared by Moak, Casey & Associates projects that the project would initially add \$28.25 million to the tax base that would be available for debt service purposes at the peak investment level for the 2022-23 school year. While there may be a short-term benefit for local taxpayers from this increase, one concern is that the additional I&S taxes raised as a result of the new project will largely

offset state aid from the Existing Debt Allotment (EDA) and Instructional Facilities Allotment (IFA) programs.

Board Finding Number 9.

The effect of the applicant's proposal, if approved, on the number or size of needed school district instructional facilities is not expected to increase the District's facility needs, with current trends suggest little underlying enrollment growth based on the impact of the project.

The summary of financial impact prepared by Moak, Casey & Associates, Inc., indicates that there will be little to no impact on school facilities created by the new project. This finding is confirmed by the TEA evaluation of this project's impact on the number and size of school facilities in the District as stated in **Attachment F**.

Board Finding Number 10.

The Board finds that with the adoption of District Policy CCGB (Local), implemented in conformance with both Comptroller and Texas Education Agency Rules governing Chapter 313 Agreements, it has developed a process to verify, either directly or through its consultants, the accuracy and completeness of information in annual eligibility reports and biennial progress reports regarding (1) the reported number of jobs created and (2) the reported amount invested in the property.

Board Finding Number 11.

The Board of Trustees hired consultants to review and verify the information in the Application. Based upon the consultants' review, the Board has determined that the information provided by the Applicant is true and correct.

The Board has developed a written policy CCGB (Local) which requires, upon the filing of an Application under Tax Code Chapter 313, the retention of consultants in order to verify: (1) that Applicant's information contained in the Application as to existing facts is true and correct; (2) that Applicant's information contained in the Application with respect to projections of future events are commercially reasonable and within the ability of Applicant to execute; (3) that information related to job creation is commercially

reasonable and within the ability of Applicant to execute; (4) that Applicant's representations concerning and economic incentives being offered, if any, and (5) the proposed project meets eligibility requirements.

As a part of its verification process the Board notes that the Chapter 313 Application for which these Findings are being made has been submitted by the Applicant under oath. Chapter 313 Applications are governmental records under Tex. Penal Code §37.01(2)(A); as a result, all statements contained therein are representations of fact within the meaning of Tex. Penal Code § 37.01(3). Since Board action upon the adoption of these Findings and the approval of the Chapter 313 Tax Limitation Agreement (**Attachment G**) is an "official proceeding," a false statement on a Chapter 313 application constitutes perjury under Tex. Penal Code § 37.03.

The Board finds that sworn statements are routinely used as an acceptable verification method for reliance by fact finders in each of the three separate branches of government, including trials.

The consultants have prepared signed statements that the consultants have reviewed and verified the contents of the Application and have determined that the current statements of fact contained in the Application are true and correct. (**Attachment H**) The Board finds that reliance by the Board and its consultants upon verified statements of the Applicant, especially as to Applicant's future intentions which cannot be objectively verified is reasonable and within the intent of Chapter 313, Texas Tax Code.

Board Finding Number 12.

The Board of Trustees has determined that the Tax Limitation Amount requested by Applicant is currently Twenty Million Dollars, which is consistent with the minimum values currently set out by Tax Code, § 313.054(a).

The Board finds that the Chapter 313 Tax Limitation Agreement (**Attachment G**), in accordance with Comptroller's Form 50-826, contains all required provisions and information related to the required investment amount, to wit: the amount set forth in

Section 2.5 of said Agreement. According to the Texas Comptroller of Public Accounts' School and Appraisal Districts' Property Value Study 2018 Final Findings made under Subchapter M, Chapter 403, Government Code for the preceding tax year (**Attachment E**). The total industrial value for the District is \$22,846,335. The District is categorized as Subchapter C district. Given that the value of industrial property is at least \$1 million but less than \$90 million, it is classified as a Category III district which can offer a minimum value limitation of \$20 million.

Board Finding Number 13.

The Board finds that the Chapter 313 Tax Limitation Agreement (Attachment G) contains all necessary provisions and information related to establishing the required investment amount, to wit: the amount set forth in Section 2.5 of said Agreement.

The Board relies on the certifications of its consultants and the Comptroller's Approval of the Agreement form to make this Finding. (**Attachment I**)

Board Finding Number 14.

The Applicant (Taxpayer No. 32070490373) is eligible for the limitation on appraised value of qualified property as an active franchise-tax paying entity.

The Applicant, (Texas Taxpayer No. 32070490373), is an entity subject to Chapter 171, Texas Tax Code, and is certified to be an active franchise taxpayer by the Comptroller. See **Attachment B**. The Board also finds that the Chapter 313 Tax Limitation Agreement (**Attachment G**) contains all required provisions necessary for the Board to assess eligibility of any business to which an agreement is transferred.

Board Finding Number 15.

The Agreement for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code, attached hereto as Attachment G, includes adequate and appropriate revenue protection provisions for the District, and such provisions comply with the specific terms of Texas Tax Code, Chapter 313.

In support of this finding, the finance report prepared by Moak, Casey & Associates, Inc. shows that the District will incur revenue losses in the initial year that the value limitation is in effect without the proposed Agreement under current law. With this Agreement, the negative consequences of granting the value limitation are offset through the revenue protection provisions agreed to by the Applicant and the District. The Agreement contains adequate revenue protection measures for the duration of the Agreement. In support of this Finding, the Board relies upon the recommendation of its consultants. (**Attachment H**)

Board Finding Number 16.

The Board finds that the Chapter 313 Tax Limitation Agreement (Attachment G) contains all required provisions necessary for the Board to assess performance standards and to require periodic deliverables that will enable it to hold businesses accountable for achieving desired results, to wit: the reporting requirements set forth in Article VIII of said Agreement.

Board Finding Number 17.

The Board finds that there are no conflicts of interest at the time of considering the agreement.

The Board finds that with the adoption of District Policies BBFA and BBFB, both (Legal) and (Local), set forth at <https://pol.tasb.org/Home/Index/645>, that it has taken appropriate action to ensure that all District Trustees and the Superintendent, have disclosed any potential conflicts of interest, and that such disclosures will be made if any conflict of interest arises in the future, in compliance with the requirements of Texas Local Gov't Code §171.004.

In addition, at the public hearing, the Board caused the statement set forth in **Attachment J** to be read into the public record and that only Board members audibly responding that no conflict of interest existed either deliberated or voted on the Tax Limitation Agreement, these Findings or any matter relating to the Application upon which these Findings have been premised.

The Board finds that with the adoption of District Policies DBD, DGA, DH, and BBFB, both (Legal) and (Local) that it has taken appropriate action to ensure that all District employees and/or consultants, have disclosed any potential conflicts of interest, and that such disclosures will be made if any conflict of interest arises in the future, in compliance with the requirements of Texas Local Gov't Code §171.004.

The Board finds that that no non-disclosed conflicts of interest exist as to the Application for which these Findings are being made, as of the time of action on these Findings.

Board Finding Number 18.

The Board directs that a link on its Website be established to the Comptroller's Office Website where appraisal-limitation-related documents are made available to the public.

Board Finding Number 19.

Considering the purpose and effect of the law and the terms of the Agreement, that it is in the best interest of the District and the State to enter into the attached Agreement for Limitation on Appraised Value of Property for School District Maintenance and Operations Taxes.

It is therefore ORDERED that the Agreement attached hereto as **Attachment G** is approved and hereby authorized to be executed and delivered by and on behalf of the District. It is further ORDERED that these findings and the Attachments referred to herein be attached to the Official Minutes of this meeting and maintained in the permanent records of the Board of Trustees of the District.

Dated the 5th day of March 2020.

Application for Appraised Value Limitation on Qualified Property (Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Attachment 4

Detailed description of the project.

In Tab 4, attach a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

Ponte Alto Windpower, LLC, ("Ponte Alto") is a special purpose entity formed to facilitate the development and commercialization of a utility-scale wind energy project. Terra-Gen, LLC, ("Terra-Gen") the exclusive developer of Ponte Alto, is in the business of initiating, developing, producing and owning and operating electricity from renewable energy projects including wind, solar, and geothermal.

Terra-Gen currently has many projects in development across the United States and is evaluating other renewable energy project opportunities across the country.

Ponte Alto Windpower, LLC was recently created for the purpose of interconnecting Ponte Alto into the ERCOT market and there are no existing 312 or 313 agreements in place for this project. Ponte Alto is requesting an appraised value limitation from La Villa ISD for a proposed wind energy project using wind turbines and transmission located in Hidalgo County, Texas. Ponte Alto will NOT be requesting an appraised value of limitation for the portion of the project located within the Monte Alto ISD, Lasara ISD, or Raymondville ISD boundaries. The wind farm and its associated infrastructure will be constructed within the jurisdiction of La Villa ISD and is located within Hidalgo County, Texas. A map showing the location of the wind farm is included as Attachment 11a.

The wind farm will have an estimated capacity of 240 megawatts ("MW"). To construct the wind farm, Ponte Alto expects a total of 57 wind turbines, with 7 wind turbines with a nameplate capacity of 2.3 MW and 50 with a nameplate capacity of 4.5 MW of which:

- 32 wind turbines; with a nameplate capacity of 4.5 MW within the Lyford CISD boundaries,
- 11 wind turbines; 7 with a nameplate capacity of 2.3 MW and 4 with a nameplate capacity of 4.5 MW within the La Villa ISD boundaries,
- 4 wind turbines; with a nameplate capacity of 4.5 MW within the Monte Alto ISD boundaries,
- 6 wind turbines; with a nameplate capacity of 4.5 MW within the Lasara ISD boundaries, and
- 4 wind turbines; with a nameplate capacity of 4.5 MW within the Raymondville ISD boundaries.

In addition to the wind turbine generating units, there will be the supporting electrical collection system and roads to be constructed and improved as necessary constructed within the Project's boundary.

Construction of the wind farm is expected to take approximately 12 months to complete, contingent upon favorable economics for the project.

While the wind regime for Ponte Alto is very good, there are many favorable locations for wind projects that could be developed across the United States. Ponte Alto has modeled its economics with an expectation that having a Limitation of Appraised Value Agreements La Villa ISD as a key and invaluable portion of the project.

In today's competitive energy market, project investors and power purchasers require wind energy projects to have secured tax incentives, so that they can compete with wind projects across the U.S. and can locate projects in a wide variety of locations should Ponte Alto be unable to develop a competitive project in Texas that is able to generate returns sufficient to attract investment capital.

Wind farms are operating and under development in many states throughout the country. According to the American Wind Energy Association ("AWEA") there are now over 54,000 turbines with a combined capacity of 89,379 MW operating in 41 states within the United States, Guam and Puerto Rico. During 2017, the U.S. wind industry grew 9% adding 7,017 MW of new wind power capacity. During the first quarter of 2018, the U.S. wind industry installed an additional 406 MW of wind power capacity.

Wind Capacity by State

A graphic provided by AWEA demonstrates the national geographic diversity of capacity throughout the United States for 2017.

Clearly locations for the development of wind projects are abundant and the Applicant can locate a project in a wide variety of locations across the United States, should it be unable to develop a competitive project in Texas that is able to generate returns sufficient enough to attract investment capital.

Terra-Gen, the developer of Ponte Alto Windpower, LLC, is a national developer of wind projects, and has operations across the US and states within the contiguous United States. As construction is one of the most significant costs in creating wind farm, the physical improvements of the Ponte Alto, once completed, cannot be feasibly moved to another location. The wind turbines and supporting infrastructure are long-lived assets engineered and designed specifically for this

project location. The cost of installing the improvements on the site is substantial and the cost to remove, redesign, and relocate the improvements to a different location would be prohibitive.

Ponte Alto Windpower, LLC was formed for the express purpose of developing a community sponsored wind farm that would help bring significant economic development to an area that is historically economically distressed. Terra-Gen identified Texas, and in particular Hidalgo & Cameron Counties, for its strong wind resource, access to available transmission capacity and the ERCOT market, and favorable property tax incentives under the Tax Code for Chapter 312 abatement and Chapter 313 Appraised Value Limitation.

Terra-Gen prefers to develop and build the proposed Ponte Alto Windpower Project as described throughout this Application but should it not be granted the limitation, then it is likely that Ponte Alto Windpower would not be economically viable compared to other projects in development across the U.S.

As of April 2019, Ponte Alto has no physical assets on site. Ponte Alto has invested additional capital in an Interconnection Study with ERCOT, avian studies, environmental studies, federal aviation studies, and in leasing land for the project.

Should the Appraised Value Limitation be granted, Ponte Alto has created a development and investment plan that is capitalized to implement the project. Without such a limitation the Project, competing against other Texas projects that have qualified, would likely be forced to redeploy its assets and capital to other states competing for similar wind projects.

Attachment 5

Documentation to assist in determining if limitation is a determining factor.

Chapter 313.026(e) states "the applicant may submit information to the Comptroller that would provide a basis for an affirmative determination under Subsection (c) (2)." If you answered "yes" to any of the questions in Section 8, attach supporting information in Tab 5.

2. Has the applicant entered into any agreements, contracts or letters of intent related to the proposed project?

Ponte Alto Windpower, LLC was formed in 2019. In support of its creation, the participating members of Terra-Gen, executed documents necessary to form the entity including an Operating Agreement and a Development Agreement with Ponte Alto Windpower, LLC.

Terra-Gen has entered into the following representative agreements and contracts for the development of a project specifically within La Villa ISD and intends to assign these assets to Ponte Alto Windpower, LLC:

- Grants of leases and easements covering approximately 3,000 acres,
- Avian Study and contract,
- Bat Acoustic Study and contract,
- Threatened & Endangered Species Studies and contract,
- Enterprise Zone with Hidalgo County Commissioners Court
- Interconnection Application with ERCOT
- Federal Aviation Studies

7. Is the applicant evaluating other locations not in Texas for the proposed project?

Yes. Terra-Gen management team is uniquely qualified to develop and construct wind and other renewable energy projects in the United States. In North America, Terra-Gen currently operates over 2,000 MW of renewable energy projects. Based on this experience the management team evaluates all potential projects for feasibility, finance-ability, and the economic returns they represent in comparison to other project opportunities both OUTSIDE the State of Texas as WITHIN the State of Texas. Other locations being evaluated include, but are not limited to:

California
Oklahoma
Louisiana
Colorado
Wyoming
Nevada

For these reasons, Terra-Gen studies and evaluates various competing sites throughout the market areas across the U.S. where wind development is attractive. Without a Value Limitation program, Terra-Gen would seek to move to alternative sites outside of the State of Texas.

Ponte Alto is currently in a period of assessment to determine whether the identified site within Lyford CISD and La Villa ISD represents the best location or whether redeployment of its development resources and capital to other power markets in the United States is more advisable. As such, the development resources necessary to advance the Project for a planned 240 MW could be redeployed to other renewable energy development projects in other power markets in the United States.

Therefore, a 313 Limitation of Appraised Value Agreement is a vital tax incentive necessary to ensure the Project is economically competitive with other wind projects with similar incentives. Without the requested value limitation, the Ponte Alto Project will be unable to generate sufficient operating margins and net income to produce economically competitive energy and associate returns necessary to attract tax and sponsor equity investment. Such third-party investment is mandatory to finance the projected capital costs of approximately \$268M needed to purchase wind turbines and other infrastructure, and to fund the construction of the facility.

10. Are you submitting information to assist in the determination as to whether the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in Texas?

The information provided in this Attachment and throughout the Application has been assembled to provide the reviewer with the best possible information to make an assessment and determination of the critical nature of the Limitation on Appraised Value to the feasibility of the Project.

Attachment 6

Description of how project is located in more than one district, including list of percentage in each district and, if determined to be a single unified project, documentation from the Office of the Governor (if applicable).

5a. If no, attach in Tab 6 additional information on the project scope and size to assist in the economic analysis.

It is anticipated that 56% of the total planned Qualified Property for the Project will be located within Lyford CISD boundaries, 19% located within the La Villa ISD boundaries. 7% will be located within the Monte Alto ISD boundaries, 11% will be located within Lasara ISD boundaries, and the remaining 7% located within Raymondville ISD. However, Ponte Alto Windpower, LLC will NOT be applying for an appraised value limitation for the portion of the project located within Monte Alto ISD, Lasara ISD, or Raymondville ISD boundaries. Additionally, there is no proposed qualified investment located within the Edcouch-Elsa ISD, Harlingen CISD, or Santa Rosa ISD. Ponte Alto has submitted for an appraised value of limitation with Lyford CISD.

School District	County	Percentage of Project	Anticipated Number of Turbines
Lyford CISD	Hidalgo County, Texas	56%	32
La Villa ISD	Hidalgo County, Texas	19%	11
Monte Alto ISD	Hidalgo County, Texas	7%	4
Lasara ISD	Cameron County, Texas	11%	6
Raymondville ISD	Willacy County, Texas	7%	4

Attachment 7

Description of Qualified Investment

- a. A specific and detailed description of the qualified investment you propose to make on the property for which you are requesting an appraised value limitation as defined by Tax Code 313.021(7) (Tab 7).*

The Applicant is requesting an appraised value limitation on all of the property constructed or placed upon the real property within La Villa ISD, which is located in Hidalgo County, Texas.

The property for which the Applicant is requesting an appraised value limitation shall include, but is NOT limited to, the following: up to 11 wind turbines, 7 with a nameplate capacity of 2.3 MW and 4 with a nameplate capacity of 4.5 MW and a combined total generating capacity of approximately 34.1 MW; up to 11 steel reinforced concrete foundations supporting the weight of each turbine tower; up to 11 electric power transformers; and underground conductor cables used to transport electricity from each turbine tower to an electrical substation.

Additionally, the map provided does not represent the final location of the improvements; however, all of the improvements that make up the amount of Qualified Investment will be made within the Project Investment Area as shown on Map Exhibit on Attachment 11a.

- b. A description of any new buildings proposed new improvements or personal property which you intend to include as part of your minimum qualified investment (Tab 7).*

Not Applicable.

Attachment 8

Description of Qualified Property

Ponte Alto Windpower, LLC plans to construct an estimated 34.1 MW of 240 MW wind farm within La Villa ISD boundaries. Additional improvements of Qualified Property located within La Villa ISD boundary include:

- 11 Wind Turbines; 7 with a nameplate capacity of 2.3 and 4 with a nameplate capacity of 4.5 MW;
- 11 Wind Turbine Foundations;
- Several thousand feet of Transmission Collection System cable & Junction Boxes;
- Overhead Transmission and Interconnection infrastructure;
- Meteorological towers;
- All weather Road work sloped for drainage;

Ponte Alto anticipates using 7 wind turbines with a nameplate capacity of 2.3 MW and 4 wind turbines with a nameplate capacity of 4.5 MW. Although final turbine selection and location of the infrastructure may change, all of equipment outlined above is expected to be located within La Villa ISD boundaries. Current plans are to install turbines in one phase. Ponte Alto has obtained grants of lease and easement covering approximately 3,000 acres within La Villa ISD boundaries.

The exact placement of turbines is subject to ongoing planning, wind resource evaluation, engineering, land leasing, and turbine selection. The final number and location of turbines and supporting structures will be determined before construction begins. However, any changes in the number and location of turbines will not have a significant impact on the total investment. Ponte Alto intends to connect to AEP Rio Hondo to North Edinburg, 345kV transmission line internal to the Project. All of the infrastructure will remain within the project boundary and within the Hidalgo County Enterprise Zones. The map in Attachment 11b shows the proposed project area with the anticipated improvement locations.

Re: Confidentiality of Maps Submitted with Ponte Alto Windpower, LLC Chapter 313 Appraised Value Limitation Application with La Villa ISD

To Whom It May Concern:

As an attachment to the Ponte Alto Windpower, LLC Chapter 313 Appraised Value Limitation Application submitted to La Villa ISD on **February 18, 2019** ("Application"), we designated certain maps, the Qualified Investment and Qualified Property maps (Attachments 11b & 11c), attached thereto ("Maps") as "Confidential". We submit this letter to comply with the requirements by which both La Villa ISD and the Comptroller's office can withhold confidential or proprietary information from public release while the Application is pending. This letter is submitted to identify the documents for which confidentiality is sought and provide the specific reasons, stating why the material is believed to be confidential.

The Maps reflect the proposed specific site plan and the location of tangible personal property to be located on real property covered by the Application- all of which continue to be refined. In addition, and at this time, disclosure of the Maps could be potentially valuable to our competitors and any disclosure could negatively impact the project. The Maps include commercially valuable geological or geophysical information regarding the exploration or development of natural resources and is protected from disclosure under section 552.113 of the Texas Government Code.

As required, the Maps were submitted as segregated in the application from other information in the application and specifically notated as "Confidential".

It is our intention to complete negotiations relating to both the location of the property and the tangible personal property during the time the Application is pending and understand that the Maps can only remain confidential and withheld from public release unless and until the governing body of the school district acts on the application.

To the extent you have any questions regarding this letter, please contact me for further clarification.

Re: Ch-313 Application for Appraised Value Limitation – Job Waiver Request

Dear Mr. Salazar,

This letter is to advise you that Ponte Alto Windpower, LLC is submitting its Chapter 313 Application for Appraised Value Limitation on Qualified Property with a request for a waiver of the jobs creation requirement.

House Bill 1470 altered the jobs requirement by adding Section 313-025 (f-1) to permit a school district's board of trustees to make a finding that the job requirement could be waived if the job requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application. Ponte Alto Windpower, LLC, requests that La Villa ISD's Board of Trustees make such a finding and waive the job creation requirement for the permanent jobs. Based on the industry standard, the size and scope of this project will require approximately one (1) permanent job.

As background information on the creation of the full-time jobs by wind energy projects, these types of projects create a large number of full-time, temporary jobs during the construction phase, but require a small number of highly skilled technicians to operate a wind project once construction operations cease and commercial operations begin. The permanent employees of a wind project maintain, and service wind turbines, underground electrical connections, substations and other infrastructure associated with the safe and reliable operation of the project. The industry standard for permanent employment is one full-time employee for every fifteen to twenty (15-20) turbines, although this number varies depending on the turbines selected as well as the support and technical assistance offered by the turbine manufacturer. In addition to the onsite employees described, there may be asset managers or technicians who supervise, monitor, and support the wind project operations from offsite locations.

Sincerely,

A handwritten signature in cursive script that reads 'Milton Howard'.

Application for Appraised Value Limitation on Qualified Property (Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller’s website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller’s rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller’s website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Re: Confidentiality of Maps Submitted with Ponte Alto Windpower, LLC Chapter 313 Appraised Value limitation Application with La Villa ISD

To Whom It May Concern:

As an attachment to the Ponte Alto Windpower, LLC Chapter 313 Appraised Value Limitation Application submitted to La Villa ISD on **May 17, 2019** ("Application"), we designated certain maps, the Qualified Investment and Qualified Property maps (Attachments 11b & 11c), attached thereto ("Maps") as "Confidential". We submit this letter to comply with the requirements by which both La Villa ISD and the Comptroller's office can withhold confidential or proprietary information from public release while the Application is pending. This letter is submitted to identify the documents for which confidentiality is sought and provide the specific reasons, stating why the material is believed to be confidential.

The Maps reflect the proposed specific site plan and the location of tangible personal property to be located on real property covered by the Application- all of which continue to be refined. In addition, and at this time, disclosure of the Maps could be potentially valuable to our competitors and any disclosure could negatively impact the project. The Maps include commercially valuable geological or geophysical information regarding the exploration or development of natural resources and is protected from disclosure under section 552.113 of the Texas Government Code.

As required, the Maps were submitted as segregated in the application from other information in the application and specifically notated as "Confidential".

It is our intention to complete negotiations relating to both the location of the property and the tangible personal property during the time the Application is pending and understand that the Maps can only remain confidential and withheld from public release unless and until the governing body of the school district acts on the application.

To the extent you have any questions regarding this letter, please contact me for further clarification.

Sincerely,

Milton Howard

Re: Certificate for Limitation on Appraised Value of Property for School District Maintenance and Operations taxes by and between La Villa Independent School District and Ponte Alto Windpower, LLC, Application 1423

Dear Superintendent Salazar:

On October 4, 2019, the Comptroller issued written notice that Ponte Alto Windpower, LLC (applicant) submitted a completed application (Application 1423) for a limitation on appraised value under the provisions of Tax Code Chapter 313.¹ This application was originally submitted on May 13, 2019, to the La Villa Independent School District (school district) by the applicant.

This presents the results of the Comptroller's review of the application and determinations required:

- 1) under Section 313.025(h) to determine if the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C; and
- 2) under Section 313.025(d), to issue a certificate for a limitation on appraised value of the property and provide the certificate to the governing body of the school district or provide the governing body a written explanation of the Comptroller's decision not to issue a certificate, using the criteria set out in Section 313.026.

Determination required by 313.025(h)

Sec. 313.024(a) Applicant is subject to tax imposed by Chapter 171.
Sec. 313.024(b) Applicant is proposing to use the property for an eligible project.

¹ All Statutory references are to the Texas Tax Code, unless otherwise noted.

- Sec. 313.024(d) Applicant has requested a waiver to create the required number of new qualifying jobs and pay all jobs created that are not qualifying jobs a wage that exceeds the county average weekly wage for all jobs in the county where the jobs are located.
- Sec. 313.024(d-2) Not applicable to Application 1423.

Based on the information provided by the applicant, the Comptroller has determined that the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C.

Certificate decision required by 313.025(d)

Determination required by 313.026(c)(1)

The Comptroller has determined that the project proposed by the applicant is reasonably likely to generate tax revenue in an amount sufficient to offset the school district's maintenance and operations *ad valorem tax* revenue lost as a result of the agreement before the 25th anniversary of the beginning of the limitation period, see Attachment B.

Determination required by 313.026(c)(2)

The Comptroller has determined that the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state, see Attachment C.

Based on these determinations, the Comptroller issues a certificate for a limitation on appraised value. This certificate is contingent on the school district's receipt and acceptance of the Texas Education Agency's determination per 313.025(b-1).

The Comptroller's review of the application assumes the accuracy and completeness of the statements in the application. If the application is approved by the school district, the applicant shall perform according to the provisions of the Texas Economic Development Act Agreement (Form 50-826) executed with the school district. The school district shall comply with and enforce the stipulations, provisions, terms, and conditions of the agreement, applicable Texas Administrative Code and Chapter 313, per TAC 9.1054(i)(3).

This certificate is no longer valid if the application is modified, the information presented in the application changes, or the limitation agreement does not conform to the application. Additionally, this certificate is contingent on the school district approving and executing the agreement within a year from the date of this letter.

Note that any building or improvement existing as of the application review start date of October 4, 2019, or any tangible personal property placed in service prior to that date may not become "Qualified Property" as defined by 313.021(2) and the Texas Administrative Code.

Attachment C – Limitation as a Determining Factor

Tax Code 313.026 states that the Comptroller may not issue a certificate for a limitation on appraised value under this chapter for property described in an application unless the comptroller determines that “the limitation on appraised value is a determining factor in the applicant’s decision to invest capital and construct the project in this state.” This represents the basis for the Comptroller’s determination.

Methodology

Texas Administrative Code 9.1055(d) states the Comptroller shall review any information available to the Comptroller including:

- the application, including the responses to the questions in Section 8 (Limitation as a Determining Factor);
- public documents or statements by the applicant concerning business operations or site location issues or in which the applicant is a subject;
- statements by officials of the applicant, public documents or statements by governmental or industry officials concerning business operations or site location issues;
- existing investment and operations at or near the site or in the state that may impact the proposed project;
- announced real estate transactions, utility records, permit requests, industry publications or other sources that may provide information helpful in making the determination; and
- market information, raw materials or other production inputs, availability, existing facility locations, committed incentives, infrastructure issues, utility issues, location of buyers, nature of market, supply chains, other known sites under consideration.

Determination

The Comptroller has determined that the limitation on appraised value is a determining factor in the Ponte Alto Windpower LLC’s decision to invest capital and construct the project in this state. This is based on information available, including information provided by the applicant. Specifically, the comptroller notes the following:

- Per Ponte Alto Windpower, LLC in Tab 5 of their Application for a Limitation on Appraised Value:
 - A. “Ponte Alto Windpower, LLC was formed in 2019. In support of its creation, the participating members of Terra-Gen, executed documents necessary to form the entity including an Operating Agreement and a Development Agreement with Ponte Alto Windpower, LLC. Terra-Gen has entered into the following representative agreements and contracts for the development of a project specifically within La Villa ISD and intends to assign these assets to Ponte Alto Windpower, LLC: Grants of leases and easements covering approximately 3,000 acres, Avian Study and contract, Bat Acoustic Study and contract, Threatened & Endangered Species Studies and contract, Enterprise Zone with Hidalgo County Commissioners Court, Interconnection Application with ERCOT, and Federal Aviation Studies.”
 - B. “Yes. Terra-Gen management team is uniquely qualified to develop and construct wind and other renewable energy projects in the United States. In North America, Terra-Gen currently operates over 2,000 MW of renewable energy projects. Based on this experience the management team evaluates all potential projects for feasibility, finance-ability, and the economic returns they represent in comparison to other project opportunities both OUTSIDE the State of Texas as WITHIN the State of Texas. Other locations being evaluated include, but are not limited to: California, Oklahoma, Louisiana, Colorado, Wyoming, and Nevada. For these reasons, Terra-Gen studies and evaluates various competing sites throughout the market areas across the U.S. where wind development is attractive. Without a Value Limitation program, Terra-Gen would seek to move to alternative sites outside of the State of Texas.”
 - C. “Ponte Alto is currently in a period of assessment to determine whether the identified site within Lyford CISD and La Villa ISD represents the best location or whether redeployment of its development resources and capital to other power markets in the United States is more advisable. As such, the development resources necessary to advance the Project for a planned

240 MW could be redeployed to other renewable energy development projects in other power markets in the United States."

- D. "Therefore, a 313 Limitation of Appraised Value Agreement is a vital tax incentive necessary to ensure the Project is economically competitive with other wind projects with similar incentives. Without the requested value limitation, the Ponte Alto Project will be unable to generate enough operating margins and net income to produce economically competitive energy and associate returns necessary to attract tax and sponsor equity investment. Such third-party investment is mandatory to finance the projected capital costs of approximately \$268M needed to purchase wind turbines and other infrastructure, and to fund the construction of the facility."
- E. "The information provided in this Attachment and throughout the Application has been assembled to provide the reviewer with the best possible information to make an assessment and determination of the critical nature of the Limitation on Appraised Value to the feasibility of the Project."
- According to a Special Meeting of the Board of Trustees of La Villa ISD dated June 24, 2019, "Discussion and possible Board action to accept the Application of Terra-Gen, LLC for an Appraised Value Limitation on Qualified Property; authorize the Superintendent to review the Application for completeness and submit to the Comptroller; and authorize the Superintendent to enter into any agreement to extend the deadline for Board action beyond 150 days subject to Board ratification."
- Supplemental information provided by the applicant indicated the following:
 - A. "Formerly known as West Willacy Windpower, LLC"
 - B. "Yes, GINR Number: 19INR0023; Assigned: July 6, 2017."

Chapter 313.026(e) states "the applicant may submit information to the Comptroller that would provide a basis for an affirmative determination under Subsection (c) (2)." If you answered "yes" to any of the questions in Section 8, attach supporting information in Tab 5.

2. Has the applicant entered into any agreements, contracts or letters of intent related to the proposed project?

Ponte Alto Windpower, LLC was formed in 2019. In support of its creation, the participating members of Terra-Gen, executed documents necessary to form the entity including an Operating Agreement and a Development Agreement with Ponte Alto Windpower, LLC.

Terra-Gen has entered into the following representative agreements and contracts for the development of a project specifically within La Villa ISD and intends to assign these assets to Ponte Alto Windpower, LLC:

- Grants of leases and easements covering approximately 3,000 acres,
- Avian Study and contract,
- Bat Acoustic Study and contract,
- Threatened & Endangered Species Studies and contract,
- Enterprise Zone with Hidalgo County Commissioners Court
- Interconnection Application with ERCOT
- Federal Aviation Studies

7. Is the applicant evaluating other locations not in Texas for the proposed project?

Yes. Terra-Gen management team is uniquely qualified to develop and construct wind and other renewable energy projects in the United States. In North America, Terra-Gen currently operates over 2,000 MW of renewable energy projects. Based on this experience the management team evaluates all potential projects for feasibility, finance-ability, and the economic returns they represent in comparison to other project opportunities both OUTSIDE the State of Texas as WITHIN the State of Texas. Other locations being evaluated include, but are not limited to:

California

Nevada

For these reasons, Terra-Gen studies and evaluates various competing sites throughout the market areas across the U.S. where wind development is attractive. Without a Value Limitation program, Terra-Gen would seek to move to alternative sites outside of the State of Texas.

Ponte Alto is currently in a period of assessment to determine whether the identified site within Lyford CISD and La Villa ISD represents the best location or whether redeployment of its development resources and capital to other power markets in the United States is more advisable. As such, the development resources necessary to advance the Project for a planned 240 MW could be redeployed to other renewable energy development projects in other power markets in the United States.

Summary of Financial Impact

**CHAPTER 313 PROPERTY VALUE LIMITATION
FINANCIAL IMPACT OF THE PROPOSED PONTE ALTO
WINDPOWER, LLC PROJECT IN THE LA VILLA
INDEPENDENT SCHOOL DISTRICT
(PROJECT # 1423)**

PREPARED BY

OCTOBER 18, 2019

Executive Summary

Ponte Alto Windpower, LLC (Company) has requested that the La Villa Independent School District (LVISD) consider granting a property value limitation under Chapter 313 of the Tax Code, also known as the Texas Economic Development Act. In an application submitted to LVISD on June 24, 2019 the Company plans to invest \$28.3 million in new taxable value to construct a renewable wind energy electric generation facility. Moak, Casey & Associates (MCA) has been retained to prepare an analysis of this value limitation and help the district navigate the overall application and agreement process.

The Ponte Alto project is consistent with the state's goal to "encourage large scale capital investments in this state." When enacted as House Bill 1200 in 2001, Chapter 313 of the Tax Code granted eligibility to companies engaged in manufacturing, research and development, and renewable electric energy production to apply to school districts for property value limitations. Subsequent legislative changes expanded eligibility to clean coal projects, nuclear power generation and data centers, among others, although few of these other types of projects have been the basis for Chapter 313 applications.

Under the provisions of Chapter 313, LVISD may offer a minimum value limitation of \$20 million. This value limitation, under the proposed application, will begin in the 2022-23 school year and remain at the lesser of the actual taxable value or the \$20 million level for Maintenance and Operations (M&O) tax purposes for ten years. The entire project value will remain taxable for I&S or debt service purposes for the term of the agreement.

MCA's initial school finance analysis is detailed in this report. This analysis incorporates to the fullest extent possible the changes approved in House Bill 3 as approved in 2019, the most significant school finance revisions in more than 30 years. The overall conclusions are as follows, but please read all of the subsequent details in the report below for more information.

Total Revenue Loss Payment owed to LVISD	\$156,549
Total Savings to Company after Revenue Loss Payment. (This does not include any supplemental benefit payments to the district.)	\$164,679

Application Process

After the school district has submitted an application to the Comptroller's Office (Comptroller), the Comptroller begins reviewing the application for completeness. The purpose of this review is to ensure all necessary information and attachments are included in the application before moving forward with the formal review process. A Completeness Letter was issued for this application on October 4, 2019.

The issuance of a Completeness Letter is important because it sets the timeline for the rest of process. From the date of issuance, the Comptroller has 90 days to conduct its full review of

the project and provide its certificate for a limitation on appraised value. After the certificate is received, the district has until the 150th day from the receipt of the Completeness Letter to adopt an agreement, although extensions may be requested by the Company and granted by the District.

After the Comptroller's certificate is received, O'Hanlon, Demerath & Castillo will contact the school district to discuss the value limitation agreement and begin negotiations of the supplemental benefit payment with the Company. A final version of the agreement must be submitted to the Comptroller for review 30 days prior to final adoption by the school district's board of trustees.

Prior to final board meeting, O'Hanlon, Demerath & Castillo will provide the district with the necessary agenda language and any additional action items. The school board will review the Value Limitation Agreement and Findings of Fact that detail the project's conformance with state law. In some instances, the school board may also be required to adopt a job waiver or create a reinvestment zone during this meeting.

How the 313 Agreement Interacts with Texas School Finance

A taxpayer receiving a value limitation pays M&O taxes on the reduced value for the project in years 1-10 and receives a tax bill for I&S taxes based on the full project value throughout the qualifying and value limitation period (and thereafter).

M&O funding for Texas schools relies on two methods of finance: local school district property taxes and state aid. State aid consists of two components: Tier I (based on ADA, special student populations and M&O taxes at the compressed tax rate) and Tier II (based on weighted ADA for each penny of tax effort above a specified level). Recapture costs are primarily a Tier I issue, although Tier II also can involve recapture costs for some school districts.

The basic allotment is now set at \$6,160 per weighted ADA (WADA) and is the basis for Tier I calculations. In the case of Tier II, the first eight cents of additional tax effort can be used to generate state aid of up to \$98.56 per WADA for what are known as "golden" pennies. Tax effort for golden pennies is not subject to recapture. Up to an additional nine cents may be levied to generate \$49.28 per WADA for what are known as "copper" pennies (generating half the revenue per WADA of the golden pennies).

Changes in the recapture calculation are an important part of HB 3, for those districts subject to recapture under the new law. Rather than being tied to property wealth exceeding an equalized wealth level per WADA, recapture is now defined as the amount of revenue collected in excess of a district's Tier I allotment, or for Tier II the amount of collections in excess of the entitlement provided for tax effort generating copper-penny level state aid. (Golden pennies are not subject to recapture.) The changes in the recapture methodology may affect the results of revenue protection payments relative to what was calculated when the equalized wealth level was used to determine the amount of recapture owed the state by school districts subject to recapture. It does not appear to be an issue for LVISD, based on the calculations shown below.

Another significant school funding change is establishing current-year property values to determine state funding and recapture under the Foundation School Program. The traditional

approach for the last 30 years has been to rely upon prior-year state property values as determined annually under the Comptroller's State Property Value Study (Section 403 of the Government Code). The change in House Bill 3 calls for using current-year property values as determined by the Comptroller's Property Value Study, without an explanation as to how the property value study is to be completed on a real-time basis.

While school district funding will now be determined based on current-year property values, House Bill 3 included language that addressed the property values to be used in determining calculating revenue protection payments under Chapter 313 agreements. This information is contained in Section 48.256(d), Education Code, as shown below:

- d) This subsection applies to a school district in which the board of trustees entered into a written agreement with a property owner under Section 313.027, Tax Code, for the implementation of a limitation on appraised value under Subchapter B or C, Chapter 313, Tax Code. For purposes of determining "DPV" under Subsection (a) for a school district to which this subsection applies, the commissioner shall exclude a portion of the market value of property not otherwise fully taxable by the district under Subchapter B or C, Chapter 313, Tax Code, before the expiration of the subchapter. The comptroller shall provide information to the agency necessary for this subsection. **A revenue protection payment required as part of an agreement for a limitation on appraised value shall be based on the district's taxable value of property for the preceding tax year [emphasis added].**

Given the directive regarding the use of preceding-tax-year values to calculate revenue protection payments required under Chapter 313 agreements, the amounts collected are expected to be consistent with the patterns shown since these calculations were first calculated under the standard Chapter 313 agreement language, dating back to 2004. The most significant impact is typically in the first limitation year, although major value increases in project values in later limitation years may also trigger a revenue protection payment. The additional factor that may generate a variance with the traditional pattern of revenue protection amounts is the new methodology in the calculation of recapture, as noted previously.

The calculations shown below are based on the Section 48.256(d), Education Code directive to use preceding-tax-year property values to determine the revenue protection payment, if any, owed to the school district under the terms of the Chapter 313 Agreement between the Applicant and the School District. These calculations are to be made for each of the 10 limitation years under the terms of the Agreement. Chapter 313 will be subject to legislative renewal in 2021 and any changes made may impact these calculations moving forward.

(For more detailed information on the school finance funding system, please review the Texas Education Agency's (TEA) website. The current information is expected to be updated as the details of House Bill 3 implementation are determined by TEA.

The implementation of recent legislative action on school funding in House Bill 3 could potentially affect the impact of the value limitation on the school district's finances and result in revenue-loss estimates that differ from the estimates presented in this report.

Underlying School District Data Assumptions

The agreement between the school district and the applicant calls for a calculation of the revenue impact of the value limitation in years 1-10 of the agreement, under whatever school finance and property tax laws are in effect in each of those years. The Basic Allotment is now set to \$6,160, the Tier II golden penny yield is set to \$98.56 per WADA for up to eight cents, while the copper penny yield is \$49.28 per WADA for up to nine cents of local tax effort. These are maintained for future years at this time.

Static school district enrollment and property values are used to isolate the effects of the value limitation under the school finance system. Any previously-approved Chapter 313 projects are also factored into the M&O tax bases used.

M&O Impact of the Ponte Alto project on LVISD

A model is established to make a calculation of the “Baseline Revenue Model” (Table 2) by adding the total value of the project to the model, without assuming a value limitation is approved. A separate model is established to make a calculation of the “Value Limitation Revenue Model” (Table 3) by adding the project’s limited value of \$20 million to the model. The difference between the two models (Table 4) indicates there will be a total revenue loss of \$156,549 over the course of the Agreement, with all the loss reflected in the first limitation year (2022-23).

M&O Impact on the Taxpayer

Under the assumptions used here, the potential tax savings from the value limitation total \$0.3 million over the life of the agreement. The LVISD revenue losses are expected to total approximately \$156,549. The total potential net tax benefits (after hold-harmless payments are made) are estimated to reach \$164,679, prior to any negotiations with Ponte Alto on supplemental payments. (See Table 5.)

It should be noted that a key element in the revenue-loss calculation appears to be linked to the retention of prior-year property values in the calculation of the revenue protection amount for the 2022-23 school year. Under the standard agreement, these calculations are based on whatever school finance and property tax laws are in effect each year. With a legislative session occurring in 2021, there could be changes made to current school finance law. While the District will still be protected against revenue losses, these calculations may be reduced below what we are projecting under what is now current law.

Note: School district revenue-loss estimates are subject to change based on numerous factors, including:

- Legislative and Texas Education Agency administrative changes to the underlying school finance formulas used in these calculations, which could be significant under HB 3.
- Legislative changes addressing property value appraisals and exemptions.
- Year-to-year appraisals of project values and district taxable values.
- Changes in school district tax rates and student enrollment.

I&S Funding Impact on School District

The project remains fully taxable for debt services taxes, with LVISD currently levying a \$0.3138 I&S rate. As shown in the Table 6 below, local taxpayers could see a modest benefit from the addition of the Ponte Alto project to the local I&S tax roll, although under the state facilities programs—the Existing Debt Allotment (EDA) and Instructional Facilities Allotment (IFA)—it is expected that the increase in the local I&S tax base will result in additional tax collections that offset state aid under these programs. Coupled with the move to current-year state property values for school funding. Any I&S tax benefit to local taxpayers will be modest at best.

The project is not expected to affect school district enrollment and is expected to depreciate over the life of the agreement and beyond. Continued expansion of the project and related development could result in additional employment in the area and an increase in the school-age population, but this project is unlikely to have much impact on a stand-alone basis.

IFA and EDA state aid are now based on current-year values, which could affect the tax rate needed for bond payments in districts eligible for these funds.

PO Box 9

Dear Mr. Castillo:

As required by the Tax Code, §313.025 (b-1), the Texas Education Agency (TEA) has evaluated the impact of the proposed Ponte Alto Windpower LLC project #1423 on the number and size of school facilities in La Villa Independent School District (LVISD). Based on an examination of LVISD enrollment and the number of potential new jobs, the TEA has determined that the Ponte Alto Windpower LLC project should not have a significant impact on the number or size of school facilities in LVISD.

Please feel free to contact me by phone at (512) 463-8732 or by email at amy.copeland@tea.texas.gov if you have any questions.

Sincerely,

A handwritten signature in blue ink that reads "Amy Copeland".

Section 3.2. LOCATION OF QUALIFIED PROPERTY AND INVESTMENT. The Land on which the Qualified Property shall be located and on which the Qualified Investment shall be made is described in **EXHIBIT 2**, which is attached hereto and incorporated herein by reference for all purposes. The Parties expressly agree that the boundaries of the Land may not be materially changed from its configuration described in **EXHIBIT 2** unless amended pursuant to the provisions of Section 10.2 of this Agreement.

Section 3.3. DESCRIPTION OF QUALIFIED PROPERTY. The Qualified Property that is subject to the Tax Limitation Amount is described in **EXHIBIT 4**, which is attached hereto and incorporated herein by reference for all purposes. Property which is not specifically described in **EXHIBIT 4** shall not be considered by the District or the Appraisal District to be part of the Applicant's Qualified Property for purposes of this Agreement, unless by official action the Board of Trustees provides that such other property is a part of the Applicant's Qualified Property for purposes of this Agreement in compliance with Section 313.027(e) of the TEXAS TAX CODE, the Comptroller's Rules, and Section 10.2 of this Agreement.

ARTICLE IV
PROTECTION AGAINST LOSS OF FUTURE DISTRICT REVENUES

Section 4.1. INTENT OF THE PARTIES. Subject only to the limitations contained in Section 7.1 of this Agreement, it is the intent of the Parties that the District shall, in accordance with the provisions of Section 313.027(f)(1) of the TEXAS TAX CODE, be compensated by Applicant for any loss that District incurs in its Maintenance and Operations Revenue in each year of this Agreement for which this Agreement was, in any manner, a producing cause, solely and directly resulting because of or on account of the execution of this Agreement. Such payments shall be independent of, and in addition to such other payments as set forth in Article V and Article VI in this Agreement. Subject only to the limitations contained in Section 7.1 of this Agreement, it is the intent of the Parties that the risk of any and all negative financial consequences to the District's total annual Maintenance and Operations Revenue, for which the execution of this Agreement was a sole and direct producing cause, will be borne solely by Applicant and not by District.

The Parties hereto expressly understand and agree that, for all years to which this Agreement may apply, the calculation of negative financial consequences will be defined for each applicable year in accordance with the Applicable School Finance Law, as defined in Section 1.2 above, and that such definition specifically contemplates that calculations made under this Agreement may well periodically change in accordance with changes made from time to time in the Applicable School Finance Law. The Parties further agree that the printouts and projections produced during the negotiations and approval of this Agreement are: (i) for illustrative purposes only, are not intended to be relied upon, and have not been relied upon by the Parties as a prediction of future consequences to either Party to the Agreement; (ii) are based upon current Applicable School Finance Law, which is subject to change by statute, by administrative regulation, or by judicial decision at any time; and (iii) may change in future years to reflect changes in the Applicable School Finance Law.

Section 4.2. CALCULATING THE AMOUNT OF LOSS OF REVENUES BY THE DISTRICT

A. Calculation of the Revenue Protection Amount.

The amount to be paid by the Applicant to compensate the District for loss of Maintenance and Operations Revenue resulting from, or on account of, this Agreement for each year during the term of this Agreement (the "Revenue Protection Amount") shall be determined in compliance with the Applicable School Finance Law in effect for such year and according to the following formula:

The Revenue Protection Amount owed by the Applicant to District means the Original M&O Revenue minus the New M&O Revenue;

Where:

1. "Original M&O Revenue" means the total State and local Maintenance & Operations Revenue that the District would have received for the school year under the Applicable School Finance Law had this Agreement not been entered

into by the Parties and the Qualified Property and/or Qualified Investment been subject to the ad valorem maintenance & operations tax at the tax rate actually adopted by the District for the applicable year. For purposes of this calculation, the Third Party will base its calculations upon taxable values for the prior school year as certified by the County Appraisal District for all other taxable accounts in the District, save and except for the Qualified Property subject to this Agreement, plus the taxable value of the Qualified Property for the prior school year subject to this Agreement. (For clarification, the taxable value used by the District in calculating the taxes payable for Interest and Sinking Fund taxation purposes on Applicant's Qualified Property will be used for the Qualified Property in lieu of the property's M&O taxable value.)

2. *"New M&O Revenue"* means the total State and local Maintenance & Operations Revenue that the District would have actually received for such school year, if calculated using prior year taxable values.

B. In making the calculations required by this Section 4.2 of this Agreement:

- i. The Taxable Value of property for each school year will be determined under the Applicable School Finance Law as that law exists for each year for which the calculation is made.
- ii. For purposes of this calculation, the tax collection rate on the Applicant's Qualified Property will be presumed to be one hundred percent (100%).
- iii. If, for any year of this Agreement, the difference between the Original M&O Revenue and the New M&O Revenue, as calculated under this Section 4.2 of this Agreement, results in a negative number, the negative number will be considered to be zero.
- iv. For all calculations made for years during the Tax Limitation Period under Section 4.2 of this Agreement, Subsection ii of this subsection will reflect the Tax Limitation Amount for such year.

Section 4.3. CALCULATIONS TO BE MADE BY THIRD PARTY. All calculations under this Agreement shall be made annually by an independent third party (the "Third Party") approved each year by the District. To the extent not inconsistent with a statutory change to Applicable School Finance Law, all calculations made by the Third Party under this Agreement shall be made using a methodology which isolates only the revenue impact caused by this Agreement. Applicant shall not be responsible to reimburse District for other revenue losses created by other agreements or any other factors.

Section 4.4. DATA USED FOR CALCULATIONS. The calculations for payments under this Agreement shall be initially based upon the valuations placed upon the Applicant's Qualified Investment and/or the Applicant's Qualified Property by the Appraisal District in its annual certified tax roll submitted to the District for each Tax Year pursuant to Texas Tax Code § 26.01 on or about July 25 of each year of this Agreement. Immediately upon receipt of the valuation information by the District, the District shall submit the valuation information to the Third Party selected under Section 4.5. The certified tax roll data shall form the basis of the calculation of any and all amounts due under this Agreement. All other data utilized by the Third Party to make the calculations contemplated by this Agreement shall be based upon the best available current estimates. The data utilized by the Third Party shall be adjusted from time to time by the Third Party to reflect actual amounts, subsequent adjustments by the Appraisal District to the District's certified tax roll or any other changes in student counts, tax collections, or other data.

Section 4.5. DELIVERY OF CALCULATIONS. On or before November 1 of each year for which this Agreement is effective, the Third Party appointed pursuant to Section 4.3 of this Agreement shall forward to the Parties a certification containing the calculations required under Article IV, Article VI, and/or Section 7.1 of this Agreement in sufficient detail to allow the Parties to understand the manner in which the calculations were made. The Third Party shall simultaneously submit his, her or its invoice for fees for services rendered to the Parties, if any fees are being claimed, which fee shall be the sole responsibility of the Applicant, but subject to the provisions of Section 4.7, below. Upon reasonable prior notice, the employees and agents of the Applicant shall have access, at all reasonable times, to the Third Party's calculations, records, and correspondence pertaining to the calculation and fee for the purpose of verification. The Third Party shall maintain supporting data consistent with generally accepted accounting practices, and the employees and agents of the Applicant shall have the right to reproduce and retain for purpose of audit, any of these documents. The Third Party shall preserve all documents pertaining to the calculation until the Final Termination Date of this Agreement. The Applicant shall not be liable for any of the Third Party's costs resulting from an audit of the Third Party's books, records, correspondence, or work papers pertaining to the calculations contemplated by this Agreement.

Section 4.6. PAYMENT BY APPLICANT. The Applicant shall pay any amount determined by the Third Party to be due and owing to the District under this Agreement on or before the January 31 next following the tax levy for each year for which this Agreement is effective; provided, however, that the District and the Applicant may mutually agree in writing to extend the date of payment. By such date, the Applicant shall also pay any amount billed by the Third Party, plus any reasonable and necessary legal expenses paid by the District to its attorneys, auditors, or financial consultants for the preparation and filing of any financial reports, disclosures, or other reimbursement applications filed with or sent to the State of Texas which are, or may be required under the terms or because of the execution of this Agreement. For no Tax Year during the term of this Agreement shall the Applicant be responsible for the payment of an aggregate amount of fees and expenses under this Section 4.6 which exceeds Fifteen Thousand Dollars (\$15,000.00). For any Tax Year outside of the Tax Limitation Period, Applicant shall not be responsible for the payment of an aggregate amount of fees

and expenses under this Section 4.6 which exceeds Seven Thousand Five Hundred Dollars (\$7,500.00).

Section 4.7. EFFECT OF PROPERTY VALUE APPEAL OR OTHER ADJUSTMENT. If at the time the Third Party selected under Section 4.6 makes its calculations under this Agreement, the Applicant has appealed any matter relating to the valuations placed by the Appraisal District on the Applicant's Qualified Property, and/or the Applicant's Qualified Property and such appeal remains unresolved, the Third Party shall base its calculations upon the values placed upon the Applicant's Qualified Property and/or the Applicant's Qualified Property by the Appraisal District.

If as a result of an appeal or for any other reason, the Taxable Value of the Applicant's Qualified Investment and/or the Applicant's Qualified Property is changed, once the determination of the new Taxable Value becomes final, the Parties shall immediately notify the Third Party who shall immediately issue new calculations for the applicable year or years using the new Taxable Value. In the event the new calculations result in a change in any amount paid or payable by the Applicant under this Agreement, the Party from whom the adjustment is payable shall remit such amounts to the other Party within thirty (30) days of the receipt of the new calculations from the Third Party.

Section 4.8. STATUTORY CHANGES AFFECTING M&O REVENUE. Notwithstanding any other provision in this Agreement, but subject to the limitations contained in Section 7.1 of this Agreement, in the event that, by virtue of statutory changes to the Applicable School Finance Law, administrative interpretations by Comptroller, Commissioner of Education, or the Texas Education Agency, or for any other reason attributable to statutory change, District will receive less Maintenance and Operations Revenue, or, if applicable, will be required to increase its payment of funds to the State, as a sole and direct cause of its participation in this Agreement, Applicant shall make payments to District, up to the limit set forth in Section 7.1, that are necessary to offset any negative impact on District's Maintenance and Operations Revenue, as a sole and direct cause of its participation in this Agreement. Such calculation shall take into account any adjustments to the amount calculated for the current fiscal year that should be made in order to reflect the actual impact on District.

ARTICLE V

PAYMENT OF EXTRAORDINARY EDUCATION-RELATED EXPENSES

Section 5.1. EXTRAORDINARY EXPENSES. In addition to the amounts determined pursuant to Section 4.2 of this Agreement above, Applicant on an annual basis shall also indemnify and reimburse District for the following: all non-reimbursed costs, certified by District's external auditor to have been incurred by District for extraordinary education-related expenses related to the project that are not directly funded in state aid formulas, including expenses for the purchase of portable classrooms and the hiring of additional personnel to accommodate a temporary increase in student enrollment attributable to the project during any project construction year.

ARTICLE VI
SUPPLEMENTAL PAYMENTS

Section 6.1. INTENT OF PARTIES WITH RESPECT TO SUPPLEMENTAL PAYMENTS

A. Amounts Exclusive of Indemnity Amounts. In addition to undertaking the responsibility for the payment of all of the amounts set forth under Articles IV and V, and as further consideration for the execution of this Agreement by the District, the Applicant shall also be responsible for the supplemental payments set forth in this Article VI, (the “Supplemental Payments”). The Applicant shall not be responsible to the District or to any other person or persons in any form for the payment or transfer of money or any other thing of value in recognition of, anticipation of, or consideration for this Agreement for limitation on appraised value made pursuant to Chapter 313, Texas Tax Code, unless it is explicitly set forth in this Agreement. It is the express intent of the Parties that the Applicant’s obligation to make Supplemental Payments under this Article VI is separate and independent of the obligation of the Applicant to pay the amounts described in Articles IV and V; provided, however, that all payments under Articles IV and V are subject to the limitations contained in Section 7.1, and that all payments under this Article IV are subject to the separate limitations contained in Section 6.2.

B. Supplemental Payments may only be made during the period starting the first year of the Qualifying Time Period and ending December 31 of the third year following the end of the Tax Limitation Period;

C. The limitation in Section 6.2.A does not apply to amounts described by Section 313.027(f)(1)– (2) of the TEXAS TAX CODE as implemented in Articles IV and V of this Agreement; and

D. For purposes of this Agreement, the calculation of the limit of the annual Supplemental Payment shall be the greater of \$50,000 or \$100 multiplied by the District’s Average Daily Attendance

as calculated pursuant to Section 42.005 of the TEXAS EDUCATION CODE, based upon the District's 2017-2018 Average Daily Attendance of 537.

Section 6.3. STIPULATED SUPPLEMENTAL PAYMENT AMOUNT – SUBJECT TO AGGREGATE LIMIT

In addition to the Supplemental Payment limitation set forth in Section 6.2 of this Agreement, during the term of this Agreement, the District shall not be entitled to receive Supplemental Payments that exceed the lesser of:

- (b) the "Aggregate Limit," as such term is defined in Section 1.2, above.

Section 6.4. PROCEDURES FOR SUPPLEMENTAL PAYMENT CALCULATIONS.

- A. All calculations required by this Article shall be calculated by the Third Party selected pursuant to Section 4.3, above.

The alternative entity may only use such funds received under this Article to support the educational mission of the District and its students. Any designation of an alternative entity must be made by recorded vote of the District's Board of Trustees at a properly posted public Board meeting. Any such designation will become effective after public vote and the delivery of notice of said vote to the Applicant in conformance with the provisions of Section 10.1, below. Such designation may be rescinded, with respect to future payments only, by action of the District's Board of Trustees at any time.

Any designation of a successor beneficiary under this Section shall not alter the Supplemental Payments calculated as described in Section 6.5, above.

ARTICLE VII

The calculation and comparison of the amounts described in clauses (i) and (ii) of the preceding sentence shall be included in all calculations made pursuant to Article IV of this Agreement, and in the event the sum of the amounts described in said clause (i) exceeds the amount described in said clause (ii), then the payments otherwise due from the Applicant to the District under Articles IV, V, and VI shall be reduced until such excess is eliminated.

Section 7.2. OPTION TO TERMINATE AGREEMENT. In the event that any payment otherwise due from the Applicant to the District under Article IV, Article V, or Article VI of this Agreement with respect to a Tax Year is subject to reduction in accordance with the provisions of Section 7.1, then the Applicant shall have the option to terminate this Agreement. The Applicant may exercise such option to terminate this Agreement by notifying the District of its election in writing not later than the July 31 of the year following the Tax Year with respect to which a reduction under Section 7.1 is applicable. Any termination of this Agreement under the foregoing provisions of this Section 7.2 shall be effective immediately prior to the second Tax Year next following the Tax Year in which the reduction giving rise to the option occurred.

Section 7.3. EFFECT OF OPTIONAL TERMINATION. Upon the exercise of the option to terminate pursuant to Section 7.2, this Agreement shall terminate and be of no further force or effect; provided, however, that:

Under the direction of the legislative audit committee, the Applicant or the District or other entity that is the subject of an audit or investigation by the State Auditor must provide the State Auditor with access to any information the State Auditor considers relevant to the investigation or audit. Section 9.2. DETERMINATION OF BREACH AND TERMINATION OF AGREEMENT.

A. After receipt of the notice, the Applicant shall be given ninety (90) days to present any facts or arguments to the Board of Trustees showing that it is not in breach of its obligations under this Agreement, or that it has cured or undertaken to cure any such breach.

B. If the Board of Trustees is not satisfied with such response or that such breach has been cured, then the Board of Trustees shall, after reasonable notice to the Applicant, conduct a hearing called and held for the purpose of determining whether such breach has occurred and, if so, whether such breach has been cured. At any such hearing, the Applicant shall have the opportunity, together with their counsel, to be heard before the Board of Trustees. At the hearing, the Board of Trustees shall make findings as to:

- i. whether or not a breach of this Agreement has occurred;
- ii. whether or not such breach is a Material Breach;

Section 9.3. DISPUTE RESOLUTION.

A. After receipt of notice of the Board of Trustee’s Determination of Breach and Notice of Contract Termination under Section 9.2, the Applicant shall have thirty (30) days in which either to tender payment or evidence of its efforts to cure, or to initiate mediation of the dispute by written notice to the District, in which case the District and the Applicant shall be required to make a good faith effort to resolve, without resort to litigation and within thirty (30) days after the Applicant initiates mediation, such dispute through mediation with a mutually agreeable mediator and at a mutually convenient time and place for the mediation. If the Parties are unable to agree on a mediator, a mediator shall be selected by the senior state district court judge then presiding in Hidalgo County. The Parties agree to sign a document that provides the mediator and the mediation will be governed by the provisions of Chapter 154 of the TEXAS CIVIL PRACTICE AND REMEDIES CODE and such other rules as the mediator shall prescribe. With respect to such mediation, (i) the District shall bear one-half of such mediator’s fees and expenses and the Applicant shall bear one-half of such

mediator's fees and expenses and (ii) otherwise each Party shall bear all of its costs and expenses (including attorneys' fees) incurred in connection with such mediation.

B. In the event that any mediation is not successful in resolving the dispute or that payment is not received within the time period described for mediation in Section 9.3.A, either the District or the Applicant may seek a judicial declaration of their respective rights and duties under this Agreement or otherwise, in a judicial proceeding in a state district court in Hidalgo County, assert any rights or defenses, or seek any remedy in law or in equity, against the other Party with respect to any claim relating to any breach, default, or nonperformance of any contract, agreement or undertaking made by a Party pursuant to this Agreement.

Section 9.4. CONSEQUENCES OF EARLY TERMINATION OR OTHER BREACH BY APPLICANT.

A. In the event that the Applicant terminates this Agreement without the consent of the District, except as provided in Section 7.2 of this Agreement, the Applicant shall pay to the District liquidated damages for such failure within thirty (30) days after receipt of the notice of breach.

C. The sum of liquidated damages due and payable shall be the sum total of the District ad valorem taxes for all of the Tax Years for which a tax limitation was granted pursuant to this Agreement prior to the year in which the default occurs that otherwise would have been due and payable by the Applicant to the District without the benefit of this Agreement, including penalty and interest, as calculated in accordance with Section 9.4.E. For purposes of this liquidated damages calculation, the Applicant shall be entitled to a credit for all payments made to the District pursuant to Articles IV, V, and VI. Upon payment of such liquidated damages, the Applicant's obligations

under this Agreement shall be deemed fully satisfied, and such payment shall constitute the District's sole remedy.

D. In the event that the District determines that the Applicant has committed a Material Breach identified in Section 9.1, after the notice and mediation periods provided by Sections 9.2 and 9.3, then the District may, in addition to the payment of liquidated damages required pursuant to Section 9.4.C, terminate this Agreement.

E. In determining the amount of penalty or interest, or both, due in the event of a breach of this Agreement, the District shall first determine the base amount of recaptured taxes less all credits under Section 9.4.C owed for each Tax Year during the Tax Limitation Period. The District shall calculate penalty or interest for each Tax Year during the Tax Limitation Period in accordance with the methodology set forth in Chapter 33 of the TEXAS TAX CODE, as if the base amount calculated for such Tax Year less all credits under Section 9.4.C had become due and payable on February 1 of the calendar year following such Tax Year. Penalties on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(a) of the TEXAS TAX CODE, or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(c) of the TEXAS TAX CODE, or its successor statute.

Section 9.5. LIMITATION OF OTHER DAMAGES. Notwithstanding anything contained in this Agreement to the contrary, in the event of default or breach of this Agreement by the Applicant, the District's damages for such a default shall under no circumstances exceed the amounts calculated under Section 9.4. In addition, the District's sole right of equitable relief under this Agreement shall be its right to terminate this Agreement. The Parties further agree that the limitation of damages and remedies set forth in this Section 9.5 shall be the sole and exclusive remedies available to the District, whether at law or under principles of equity.

Section 9.6. STATUTORY PENALTY FOR INADEQUATE QUALIFIED INVESTMENT. Pursuant to Section 313.0275 of the TEXAS TAX CODE, in the event that the Applicant fails to make \$10,000,000 of Qualified Investment, in whole or in part, during the Qualifying Time Period, the Applicant is liable to the State for a penalty. The amount of the penalty is the amount determined by: (i) multiplying the maintenance and operations tax rate of the school district for that tax year that the penalty is due by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the Tax Year the penalty is due. This penalty shall be paid on or before February 1 of the year following the expiration of the Qualifying Time Period and is subject to the delinquent penalty provisions of Section 33.01 of the TEXAS TAX CODE. The Comptroller may grant a waiver of this penalty in the event of Force Majeure which prevents compliance with this provision.

Section 9.7. REMEDY FOR FAILURE TO CREATE AND MAINTAIN REQUIRED NEW QUALIFYING JOBS. Pursuant to Section 313.0276 of the TEXAS TAX CODE, for any full Tax Year that commences after the project has become operational, in the event that it has been determined that the Applicant has failed to meet the job creation or retention requirements defined in Sections 9.1.C, the Applicant shall not be deemed to be in Material Breach of this Agreement until

such time as the Comptroller has made a determination to rescind this Agreement under Section 313.0276 of TEXAS TAX CODE, and that determination is final.

Section 9.8. REMEDY FOR FAILURE TO CREATE AND MAINTAIN COMMITTED NEW QUALIFYING JOBS

A. In the event that the Applicant fails to create and maintain the number of New Qualifying Jobs specified in Schedule C of the Application, an event constituting a Material Breach as defined in Section 9.1.D, the Applicant and the District may elect to remedy the Material Breach through a penalty payment.

B. Following the notice and mediation periods provided by Sections 9.2 and 9.3, the District may request the Applicant to make a payment to the State in an amount equal to: (i) multiplying the maintenance and operations tax rate of the school district for that Tax Year that the Material Breach occurs by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the market value of the property identified on the Appraisal District's records for each tax year the Material Breach occurs.

C. In the event that there is no tax limitation in place for the tax year that the Material Breach occurs, the payment to the State shall be in an amount equal to: (i) multiplying the maintenance and operations tax rate of the School District for each tax year that the Material Breach occurs by (ii) the amount obtained after subtracting (a) the tax limitation amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the last Tax Year for which the Applicant received a tax limitation.

D. The penalty shall be paid no later than 30 days after the notice of breach and is subject to the delinquent penalty provisions of Section 33.01 of the TEXAS TAX CODE.

Current plans are to install turbines in one phase. Ponte Alto has obtained grants of lease and easement covering approximately 3,000 acres within La Villa ISD boundaries. The exact placement of turbines is subject to ongoing planning, wind resource evaluation, engineering, land leasing, and turbine selection. The final number and location of turbines and supporting structures will be determined before construction begins. However, any changes in the number and location of turbines will not have a significant impact on the total investment. Ponte Alto intends to connect to AEP Rio Hondo to North Edinburg, 345kV transmission line internal to the Project. All of the infrastructure will remain within the project boundary and within the Hidalgo County Enterprise Zones. The map in Attachment 11b shows the proposed project area with the anticipated improvement locations.
