Application for Appraised Value Limitation on Qualified Property (Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Detailed Description of the Project

Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

Hecate Energy Roseland Solar LLC is requesting an Appraised Value Limitation from Riesel Independent School District for the Hecate Energy Roseland Solar LLC Project (the "Project"), a proposed solar powered electric generating facility in Falls County. The proposed Riesel ISD Project (this Application) would be constructed within a Reinvestment Zone that will be created by Falls County prior to execution of the Value Limitation Agreement. A map showing the location of the project is included in Tab 11. The project is also known by the name Roseland Solar. The Project IGNR Number is 20INR0205 and was assigned on October 25, 2018.

The proposed Project is anticipated to have a total capacity of 500 MW 40% of which will be located in Riesel ISD. Solar equipment selection is ongoing at this time and has not been finalized. The exact number of PV panels and their capacity will depend upon the panels and inverters selected, manufacturers availability and prices, ongoing engineering design optimization and the final megawatt generating capacity of the Project when completed. Current plans are to install approximately 668,973 PV panels and associated inverters within Riesel ISD. The Applicant requests a Value Limitation for all materials and equipment installed for the Project, including but not limited to underground collection systems, transmission lines, electrical interconnections, roads, control systems necessary for commercial generation of electricity, solar modules/panels, racking and mounting structures, inverters boxes, combiner boxes, meteorological equipment, roadways, paving, fencing, electrical substations, generation transmission tie line and associated towers, and interconnection facilities.

Construction of the Project is anticipated to begin in February 2021 with completion by May 2022.

Chapter 313 Application Riesel ISD

TAB 5

Documentation to assist in determining if limitation is a determining factor.

Founded six years ago, Hecate Energy has developed or built 363MW of operating solar projects totaling over \$600 million in asset value, 58 MWh of battery storage and has entered over 1 GW of renewable Power Purchase Agreements, including 180 MWH of battery storage projects. The company is in offtake negotiations for over 1,000 MW of new solar projects with a pipeline of approximately 6 GW of projects under development.

Hecate Energy has developed operating power projects in California, Florida, Texas, Rhode Island, Maryland, Massachusetts, Virginia and Georgia, with energy storage projects in Ontario. Sites in Washington, Louisiana, Rhode Island, South Carolina New York, Ohio, Texas, Georgia, Tennessee, California and Ontario Canada are currently being evaluated for Hecate Energy's current pipeline of potential projects.

Hecate Energy is a national solar developer with the ability to locate projects of this type in other states within the United States and other regions within Texas with favorable solar characteristics. The Applicant is actively assessing and developing other projects that are competing for limited investment funds. With Texas wholesale electricity prices already below the international average, it is necessary to limit the property tax liabilities for a solar project in order to be able to offer electricity at prices that are marketable to Texas customers at competitive rates. Markets such as California that have statewide available subsidies for renewable energy projects, and which have higher average contracted power rates, offer an attractive incentive for developers to build projects in those markets over Texas.

The property tax liability of a project without tax incentives in Texas would reduce the return to investors and financiers to an unacceptable level at todays contracted power rates under a power purchase agreement (PPA). Therefore, the applicant would not be able to finance and build the project in Texas even with a signed PPA because of the low price in the PPA. Without the 313 Value Limitation, the applicant would be forced to walk away from this project and spend the potential investment in other states where the rate of return is higher.

Description of Qualified Investment

Hecate Energy Roseland Solar LLC proposes to construct a 500 MW ac (net capacity) Photovoltaic solar facility that would be sited on approximately 6,169 acres of land between the towns of Mart, TX and Riesel, TX in Falls County. This application covers all qualified property within Riesel ISD necessary for the commercial operations of the proposed solar project described in Tab 4. The full project would have approximately 1,626,400 PV panels and associated inverters located in Falls County. Of those panels, 668,973 would be located in Mart ISD.

This application covers all qualified investment and qualified property necessary for the commercial operations of the solar project.

Qualified Investment and Qualified Property includes, but is not limited to underground collection systems, transmission lines, electrical interconnections, roads, control systems necessary for commercial generation of electricity, solar modules/panels, racking and mounting structures, inverters boxes, combiner boxes, meteorological equipment, roadways, maintenance and operations building, paving, fencing, electrical substations, generation transmission tie line and associated towers, and interconnection facilities.

NOTE- The map in TAB 11 shows the proposed project area with the preliminary panel and inverter locations. The exact placement of these panels and inverters is subject to ongoing planning, soil studies, and engineering and will be determined before construction begins.

Request for Waiver of Job Creation Requirement and supporting information (if applicable)

See Attached

August 15, 2019

Mr. Brandon Cope Superintendent Riesel Independent School District 600 E. Frederick Riesel, TX 76682

Re: Chapter 313 Jobs Waiver Request

Dear Superintendent Cope,

Hecate Energy Roseland Solar LLC requests that the Riesel Independent School District's Board of Trustees waive the job requirement provision as allowed by Section 313.025(f-1) of the Tax Code. This waiver would be based on the school district's board findings that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application.

Hecate Energy Roseland Solar LLC requests that the Board of Trustees make such a finding and waive the job creation requirement for 10 permanent jobs. In line with industry standards for job requirements, Roseland Solar, LLC has committed to create two total jobs for the Riesel ISD portion of the project.

Solar projects create a large number of full and part-time, but temporary jobs during the construction phase of the project but require a relatively small number of highly skilled technicians to operate and maintain the project after commercial operation commences.

The industry standard for employment is typically one full-time employee for approximately 100MW of facility generating capacity. This number will vary depending on the operations and maintenance requirements of the solar equipment selected as well as the support and technical assistance offered by the equipment manufacturer. The permanent employees of a solar project maintain, and service photovoltaic panels, underground electrical connections, substations and other infrastructure associated

with the safe and reliable operation of the project. In addition to the onsite employees, there may be managers or technicians who support the project from offsite locations.

Sincerely,

Sam Gregson

GUIDELINES AND CRITERIA FOR GRANTING TAX ABATEMENT IN REINVESTMENT ZONES CREATED IN THE JURISDICTION OF FALLS COUNTY, TEXAS.

WHEREAS, the creation and retention of job opportunities that bring new wealth is one of the highest civic priorities; and,

WHEREAS, new jobs and investments will benefit the area economy, provide needed opportunities, strengthen the real estate market, and generate tax revenue to support local services; and,

WHEREAS, Falls County must compete with other localities across the nation currently offering tax inducements to attrac; new and modernization projects; and,

WHEREAS, any tax incentives offered in Falls County would reduce needed tax revenue unless these tax incentives are strictly limited in application to those new and existing industries that bring new wealth to the community; and,

After consideration, the Commissioners' Court may finally vote by simple majority to enter into the tax abatement agreement, vote to modify the agreement or decline to enter into the agreement. An approved tax abatement agreement may be executed in the same manner as other contracts made by the County.
- (f) Confidentiality. As required by Section 312.003 of the Texas Tax Code, information that is provided to the County in connection with an application or a request for a tax abatement under this chapter that describes the specific processes or business activities to be conducted or the equipment or other property to be located on the property for which the abatement is sought is confidential and not subject to public disclosure until the tax abatement is executed.
- (g) When the abatement is disapproved, an applicant may be granted a review, or rehearing, in which a new application and hearing may be required.
- (h) Tax abatement may not be approved if the County finds that the application therefore was filed after the commencement of the construction, alteration, or installation of improvements related to a proposed modernization, expansion, or new facility.
- (i) Request for variance from the provisions of Section 2 may be made in written form to the Commissioners' Court of Falls County. Such request shall include all the items listed in Section 3 (b) above, together with a complete description of the circumstances that prompt the applicant to request variance. The approval process for a variance shall be identical to that for a standard application and may be supplemented by such additional requirements as may be deemed necessary by the County.

Sec. 4. Standards for denying Approval of Abatement.

- (a) If any affected jurisdiction is able to conclusively show cause in the public hearing why the granting of the abatement will have a substantial adverse effect on its bonds, tax revenue, service capacity, or the providing of services, Falls County shall deny the approval of abatement.
- (b) An abatement agreement shall not be granted if it is determined that:
- there would be substantial adverse effect on the providing of government services or tax basis;
 - (2) the apr licant has insufficient financial capacity;
- (3) planned or potential use of the property would constitute a hazard to public safety, health, or morals; or,
 - (4) codes or laws would be violated.

Sec. 5. Effect of Approval of Application

Falls County Commissioners' Court acts only for the taxing entity of Falls County and for no other taxing entity within Falls County. The County's approval or disapproval of an application has no effect on any other taxing entity within the jurisdiction or their right to approve or disapprove an application. Only the governing bodies of the effected jurisdictions may grant tax abatements, and enter into tax abatement agreements with applicants.

Sec. 6. Tax Abatement Agreements

The Falls County Commissioners' Court after approval of an application shall enter into an agreement with the applicant. Such agreements shall be executed with the owner of the facility, and with the lessee when required. Such agreements shall include:

- (1) the estimated value to be abated and the base year value;
- (2) the percentage of value to be abated each year as provided in Sec. 2 (g, h, &i);
- (3) the commencement date and the termination date of abatement;
- (4) the proposed use of the facility, nature of construction, time schedule, map, property description, and improvements list as provided in application, Section 3 (b);
- (5) contractual obligations in the event of default, violation of terms or conditions, delinquent taxes recapture, administration, and assignment as provided in Sections 2 (a), 2 (f), 2 (g, h, &i), 7, 8, and 9.
- (6) size of investment and number of jobs involved along with qualifiers as applicable including distinguishing between full, part time and seasonal jobs and general skills and paygrades. Such agreement be executed within 30 days after the applicant has forwarded all necessary information and documentation to the County; and
- (7) the agreement shall stipulate that employees, or designated representatives, or both, of

Falls County will have access to the reinvestment zone during the terms of the abatement to inspect the facility to determine if the terms and conditions of the agreement are being met. All inspections will be made only after the giving of 24 hours prior notice and will be conducted in such a manner that they will not unreasonably interfere with the construction or operation or both of the facility. All inspections will be made in the presence of one or more representatives of the company or individual and in accordance with the safety standards of the company or individual. The agreement shall further stipulate the form and frequency of the required reporting to demonstrate both initial and ongoing compliance.

Sec. 7 Recapture

- (a) If the facility is completed and begins producing products or services, but subsequently discontinues producing products or services for any reason excepting casualty or accident or natural disaster, for a period of one year during the abatement period, then the agreement shall terminate and so shall the abatement of the taxes for the calendar year during which the facility no longer produces. The taxes otherwise abated for that calendar year shall be paid to the affected jurisdiction within 60 days from the date of termination.
- (b) If the Falls County Commissioners' Court determines that the company or individual is in default according to the terms and conditions of its agreement, the Commissioners' Court shall notify the company or individual in writing at the address stated in the agreement, and if such default is not cured within 30 days from the date of such notice ("cure period"), then the agreement may be terminated.
- (c) If the company or individual (1) allows its ad valorem taxes owed to the County of Falls, or any other taxing entity in Falls County, to become delinquent and fails to timely and properly follow the legal procedures for their protest or contest or both; or (2) violates any of the terms and conditions of the abatement agreement and fails to cure during the cure-period, or (3) has liens or judgments filed against it by the IRS or (4) defaults in the payments of obligations to it's creditors or is subject to a voluntary or involuntary transfer for the benefit of its creditors then the agreement may then be terminated by Falls County, and all taxes previously abated by virtue of the agreement will be recaptured and payable within 60 days of the termination.

Sec. 8. Administration

- (a) The Chief Appraiser of the Falls County Appraisal District shall annually determine an assessment of the real and personal property comprising the reinvestment zone. Each year, any company or individual receiving abatement shall furnish the assessor with such information as may be necessary for the abatement. Once value has been established, the chief appraiser shall notify the affected jurisdictions that levy taxes of the amount of the assessment.
- (b) Upon completion of construction, a designated representative of Falls County shall annually evaluate each facility receiving abatement to ensure compliance with the agreement and shall make a report to the Commissioners' Court regarding the findings of each evaluation.

Sec. 9. Assignment

Abatement may be transferred and assigned by the holder to a new owner or lessee of the same facility upon the approval by resolution of Falls County Commissioners Court, subject to the financial capacity of the assignee and provided that all conditions and obligations in the

abatement agreement are guaranteed by the execution of a new contractual agreementbetween the new owner and Falls County. No assignment or transfer shall be approved if the parties to the existing agreement, the new owner, or the new lessee are liable to any taxing entity in Falls County for outstanding delinquent taxes or other obligations.

Sec. 10. Sunset Provision

The guidelines and criteria are effective upon the date of their adoption and will remain in force for two years unless amended by a three-quarters vote of the Falls County Commissioners' Court, at which time the tax abatement contracts created according to these provisions will be reviewed to determine whether or not the goals have been achieved. Based on that review, the guidelines and criteria may be further modified, renewed or eliminated.

Mr. Cope gave an update on current dual credit numbers. We have students enrolled in 96 dual credit courses this semester. This is down a couple from the spring semester of 2019. This is the first year we haven't seen an increase. Mr. Cope explained that he feels we have leveled off in our growth. He expects the current number to be fairly consistent going forward. He gave report that 71% of our dual credit courses received an A or B in the Spring of 2019. Mr. Cope reported that the application for the police department had been submitted to TCOLE and we are currently waiting for them to review the application and provide us with the next steps. Mr. Cope gave an update on attendance. We started the year with 661 students district wide. This down from the start of the 2018 school year, but an increase from where we ended in the 2018-2019 school year. Chapter 313 Application Riesel ISD

TAB 1

Pages 1 through 9 of application

Texas Comptroller of Public Accounts

Application for Appraised Value Limitation on Qualified Property (Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Detailed Description of the Project

Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

Hecate Energy Roseland Solar LLC is requesting an Appraised Value Limitation from Riesel Independent School District for the Hecate Energy Roseland Solar LLC Project (the "Project"), a proposed solar powered electric generating facility in Falls County. The proposed Riesel ISD Project (this Application) would be constructed within a Reinvestment Zone that will be created by Falls County prior to execution of the Value Limitation Agreement. A map showing the location of the project is included in Tab 11. The project is also known by the name Roseland Solar. The Project IGNR Number is 20INR0205 and was assigned on October 25, 2018.

The proposed Project is anticipated to have a total capacity of 500 MW 40% of which will be located in Riesel ISD. Solar equipment selection is ongoing at this time and has not been finalized. The exact number of PV panels and their capacity will depend upon the panels and inverters selected, manufacturers availability and prices, ongoing engineering design optimization and the final megawatt generating capacity of the Project when completed. Current plans are to install approximately 668,973 PV panels and associated inverters within Riesel ISD. The Applicant requests a Value Limitation for all materials and equipment installed for the Project, including but not limited to underground collection systems, transmission lines, electrical interconnections, roads, control systems necessary for commercial generation of electricity, solar modules/panels, racking and mounting structures, inverters boxes, combiner boxes, meteorological equipment, roadways, paving, fencing, electrical substations, generation transmission tie line and associated towers, and interconnection facilities.

Construction of the Project is anticipated to begin in February 2021 with completion by May 2022.

Documentation to assist in determining if limitation is a determining factor.

Founded six years ago, Hecate Energy has developed or built 363MW of operating solar projects totaling over \$600 million in asset value, 58 MWh of battery storage and has entered over 1 GW of renewable Power Purchase Agreements, including 180 MWH of battery storage projects. The company is in offtake negotiations for over 1,000 MW of new solar projects with a pipeline of approximately 6 GW of projects under development.

Hecate Energy has developed operating power projects in California, Florida, Texas, Rhode Island, Maryland, Massachusetts, Virginia and Georgia, with energy storage projects in Ontario. Sites in Washington, Louisiana, Rhode Island, South Carolina New York, Ohio, Texas, Georgia, Tennessee, California and Ontario Canada are currently being evaluated for Hecate Energy's current pipeline of potential projects.

Hecate Energy is a national solar developer with the ability to locate projects of this type in other states within the United States and other regions within Texas with favorable solar characteristics. The Applicant is actively assessing and developing other projects that are competing for limited investment funds. With Texas wholesale electricity prices already below the international average, it is necessary to limit the property tax liabilities for a solar project in order to be able to offer electricity at prices that are marketable to Texas customers at competitive rates. Markets such as California that have statewide available subsidies for renewable energy projects, and which have higher average contracted power rates, offer an attractive incentive for developers to build projects in those markets over Texas.

The property tax liability of a project without tax incentives in Texas would reduce the return to investors and financiers to an unacceptable level at todays contracted power rates under a power purchase agreement (PPA). Therefore, the applicant would not be able to finance and build the project in Texas even with a signed PPA because of the low price in the PPA. Without the 313 Value Limitation, the applicant would be forced to walk away from this project and spend the potential investment in other states where the rate of return is higher.

Description of Qualified Investment

Hecate Energy Roseland Solar LLC proposes to construct a 500 MW ac (net capacity) Photovoltaic solar facility that would be sited on approximately 6,169 acres of land between the towns of Mart, TX and Riesel, TX in Falls County. This application covers all qualified property within Riesel ISD necessary for the commercial operations of the proposed solar project described in Tab 4. The full project would have approximately 1,626,400 PV panels and associated inverters located in Falls County. Of those panels, 668,973 would be located in Mart ISD.

This application covers all qualified investment and qualified property necessary for the commercial operations of the solar project.

Qualified Investment and Qualified Property includes, but is not limited to underground collection systems, transmission lines, electrical interconnections, roads, control systems necessary for commercial generation of electricity, solar modules/panels, racking and mounting structures, inverters boxes, combiner boxes, meteorological equipment, roadways, maintenance and operations building, paving, fencing, electrical substations, generation transmission tie line and associated towers, and interconnection facilities.

NOTE- The map in TAB 11 shows the proposed project area with the preliminary panel and inverter locations. The exact placement of these panels and inverters is subject to ongoing planning, soil studies, and engineering and will be determined before construction begins.

Request for Waiver of Job Creation Requirement and supporting information (if applicable)

See Attached

August 15, 2019

Mr. Brandon Cope Superintendent Riesel Independent School District 600 E. Frederick Riesel, TX 76682

Re: Chapter 313 Jobs Waiver Request

Dear Superintendent Cope,

Hecate Energy Roseland Solar LLC requests that the Riesel Independent School District's Board of Trustees waive the job requirement provision as allowed by Section 313.025(f-1) of the Tax Code. This waiver would be based on the school district's board findings that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application.

Hecate Energy Roseland Solar LLC requests that the Board of Trustees make such a finding and waive the job creation requirement for 10 permanent jobs. In line with industry standards for job requirements, Roseland Solar, LLC has committed to create two total jobs for the Riesel ISD portion of the project.

Solar projects create a large number of full and part-time, but temporary jobs during the construction phase of the project but require a relatively small number of highly skilled technicians to operate and maintain the project after commercial operation commences.

The industry standard for employment is typically one full-time employee for approximately 100MW of facility generating capacity. This number will vary depending on the operations and maintenance requirements of the solar equipment selected as well as the support and technical assistance offered by the equipment manufacturer. The permanent employees of a solar project maintain, and service photovoltaic panels, underground electrical connections, substations and other infrastructure associated

with the safe and reliable operation of the project. In addition to the onsite employees, there may be managers or technicians who support the project from offsite locations.

Sincerely,

Sam Gregson

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Detailed Description of the Project

Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

Hecate Energy Roseland Solar LLC is requesting an Appraised Value Limitation from Riesel Independent School District for the Hecate Energy Roseland Solar LLC Project (the "Project"), a proposed solar powered electric generating facility in Falls County. The proposed Riesel ISD Project (this Application) would be constructed within a Reinvestment Zone that will be created by Falls County prior to execution of the Value Limitation Agreement. A map showing the location of the project is included in Tab 11. The project is also known by the name Roseland Solar. The Project IGNR Number is 20INR0205 and was assigned on October 25, 2018.

The full project would have approximately 1,626,400,PV panels and associated inverters located in Falls County with a total capacity of 500 MW. It is anticipated that 40% of the total project or 668,973 panels and associated inverters would be in Riesel ISD. Solar equipment selection is ongoing at this time and has not been finalized. The exact number of PV panels and their capacity will depend upon the panels and inverters selected, manufacturers availability and prices, ongoing engineering design optimization and the final megawatt generating capacity of the Project when completed. Current plans are to install approximately 668,973 PV panels and associated inverters within Riesel ISD. The Applicant requests a Value Limitation for all materials and equipment installed for the Project, including underground collection systems, transmission lines, electrical interconnections, roads, control systems necessary for commercial generation of electricity, solar modules/panels, racking and mounting structures, inverters boxes, combiner boxes, meteorological equipment, roadways, paving, fencing, electrical substations, generation transmission tie line and associated towers, and interconnection facilities. This application covers all qualified property in the reinvestment zone and the project boundary within Riesel ISD.

Construction of the Project is anticipated to begin in February 2021 with completion by May 2022.

Re:

Application for Limitation on Appraised Value of Property for School District Maintenance and Operations taxes by and between Riesel Independent School District and Hecate Energy Roseland Solar, LLC, Application 1426

Dear Superintendent Cope:

On September 18, 2019, the Comptroller's office received Hecate Energy Roseland Solar, LLC's (applicant) application for a limitation on appraised value (Application 1426) from Riesel Independent School District (school district).

The purpose of this letter is to inform you that the Comptroller's office has reviewed the submitted application and determined that it includes the information necessary to be determined as complete on October 29, 2019.

Texas Tax Code §313.025(d) directs the Comptroller's office to issue a certificate for a limitation on the appraised value of the property, or provide the governing body of the school district with a written explanation of the Comptroller's decision to not issue a certificate no later than the 90th day after receiving the completed application. The requirements to determine eligibility and to issue a certificate for a limitation do not begin until an application is complete as determined by this agency. The Comptroller's office will move forward with our economic impact evaluation and will send a letter of determination to the school district and the applicant.

This letter does not constitute a review of the application under Section 313.025(h) to determine if the project meets the requirements of Section 313.024 for eligibility for a limitation on appraised value. Likewise, this letter does not address the determinations required under Section 313.026(c).

Independent Economic Impact Report

Summary of the District's Financial Impact of Chapter 313 Agreement with Hecate Energy Roseland Solar, LLC

February 12, 2020

Summary of Riesel ISD Financial Impact

of the

Limited Appraised Value Application

from

Hecate Energy Roseland Solar, LLC

Introduction

Hecate Energy Roseland Solar, LLC applied for a property value limitation from Riesel Independent School District under Chapter 313 of the Tax Code. The application was submitted on September 16, 2019 and subsequently approved for consideration by the Riesel ISD Board of Trustees. Hecate Energy Roseland Solar, LLC ("Roseland Solar"), is requesting the property value limitation as a "renewable energy electric generation" project as listed in Sec. 313.024.(b) of the Tax Code.

"The Economic Development Act ", Tax Code Chapter 313, was created by House Bill 1200 of the 77th Texas Legislature in 2001. Further amendments were made to Chapter 313 as a result of House Bill 1470 from the 80th Texas Legislative Session in 2007 and additionally House Bill 3390 from the 83rd Legislative Session.

The Economic Development Act was created to attract qualifying businesses to Texas by allowing school districts the option of approving a property value limitation to these qualifying entities. The purpose of the property value limitation is to reduce the maintenance and operations taxes paid by the company, to a school district during the applicable years as displayed below:

The company must file an application with the school district to qualify for consideration of a Limited Appraised Value Agreement ("LAVA" or "Agreement") to begin the following tax year or a later year if agreed upon by the District and the Company.

Years Prior to Start of Value Limitation Period:

The tax years prior to the start of the value limitation period are considered the "Prior to Start of Value Limitation Period" and the company's school district taxes will be levied at one-hundred percent of the appraised value. The applicant has requested that tax years 2021 & 2022 are the years that are Prior to the Start of Value Limitation Period.

Value Limitation Period:

During the ten years of the Value Limitation Period, the qualifying entity's taxable value will be reduced to the Minimum Limitation Amount for the applicable school district as determined by the State Comptroller's Office. Riesel ISD is considered a Rural category 1 District as categorized with total taxable value of industrial property of at least \$200 million. Thus, Riesel ISD has a Minimum Qualified Investment amount of \$30 million and a Minimum Limitation Amount of \$30 million. A qualifying entity's taxable value would be reduced to \$30 million during this ten year period of the agreement for the purposes of computing the tax levy for the maintenance and operations (M&O) tax of Riesel ISD. The entire appraised value will be used for computing the interest and sinking (I&S) tax levy. The applicant has requested that the Value Limitation Period to begin in tax year 2023 and continue through tax year 2032.

<u>Final Five Years of the Agreement – Continue to Maintain a Viable Presence:</u>

Tax years 2033 through 2037 will be the final five years of the agreement and the applicant agrees to maintain a viable presence with this project during this time.

Roseland Solar's Tax Benefit from Agreement

The projected amount of the net tax savings for Roseland Solar is \$3.36 million over the life of the Agreement. This net savings is after all tax savings and after estimated payments have been made to the district to offset their revenue losses that were a direct result of entering into this Agreement.

Riesel ISD projected tax rates for maintenance & operations (M&O) and interest & sinking (I&S) are based on the following assumptions:

- The District has held a tax ratification election and the study projects that it will maintain the
 maximum M&O tax rate allowable that doesn't require an additional voter election for the life of
 this agreement.
- The district has outstanding bonds that are scheduled to payoff in 2040. This district's annual
 debt payment is approximately \$1,700,000. The debt rates below are calculated rates using the
 projected taxable values with the addition of Roseland Solar estimated taxable values. The
 district could pursue a bond election and issue additional bonded debt during the life of this
 agreement.

Financial Impact Study

This Financial Impact Study was performed to determine the financial impact of the Limited Appraised Value Agreement on Riesel ISD. First, a seventeen year financial forecast was prepared to establish a baseline without the added values of the renewable energy electric generation company. Second, a seventeen year financial forecast was prepared that incorporated the additional taxable value of the company without a LAVA in effect. Third, a seventeen year financial forecast was prepared that incorporates the additional taxable value of the company with an approved LAVA. These three forecasts are detailed in the "Calculation of LAVA Impact on District's Finances" section. The following assumptions were used to compare the financial impact of the LAVA:

- The current state funding formulas (in effect for 2019-2020 fiscal year) were used for state aid and recapture calculation purposes
 - Tier I Basic Allotment of \$6,160 multiplied by the number of students in average daily attendance (ADA).
 - Level 1 of Tier II yield \$98.56 per weighted student in average daily attendance
 (WADA) per penny of tax effort
 - o Level 2 of Tier II yield \$49.28 per WADA per penny of tax effort
- Use of current year property values for state funding calculations.
- Use of prior year property values for revenue protection payment calculations in accordance with Article IV of the Agreement.
- The district's tax rate for maintenance & operations (M&O) for 2018-19 of \$1.04 will be compressed to \$0.97 for 2019-20 and is projected to decrease based on estimated statewide property tax growth. No future tax ratification elections are projected in the calculations.
- An annual taxable value increase of 1.0% was used to project the district's taxable value, except as it related to the requested LAVA. The district's 2019 taxable value was used as a baseline for all projections.
- The district's enrollment is projected to increase; therefore, the projected ADA and WADA for school year 2019-2020 was increase by .5% per year for the life of the agreement.

Although these assumptions were used to develop a baseline scenario for comparison purposes, many of these factors will not remain constant for the years of this proposed agreement. Also, Legislative changes to the school finance formulas are almost certain during the life of this agreement.

Calculation of LAVA Impact on District's Finances

The tables displayed below (Table III, IV, V) show the different impacts on the school district's finances. These scenarios were computed to compare the District's revenue without the additional taxable value of Roseland Solar (Table III), the addition of Roseland Solar's taxable values without a Chapter 313 Agreement (Table IV), and the addition of Roseland Solar's taxable values with a Chapter 313 Agreement (Table V).

Current School Finance Law

A major overhaul of the school finance formulas was implemented as a result of House Bill 3 of the 86th Legislative Session and became effective for the 2019-2020 school year. The primary intent of the new legislation is to reduce maintenance & operations "M&O" tax rate and cooperatively reduce district's recapture payments; thus, increasing the State's share of school district funding. The maximum M&O tax rate prior to the Legislative Session was \$1.17 and that rate was reduced to a maximum rate of \$1.06835 for the 2019-2020 school year. The maximum tax rate is expected to continue to be compressed lower when statewide property values increase at a rate greater than 2.5% per year or also when a school district's property values increase by more than 2.5%. However, a school district's M&O tax rate can't be reduced to a rate lower than 90% of the maximum allowable Tier I rate for the respective year.

Prior to the 86th Legislative Session and the passage of House Bill 3, school finance law required the use of a district's prior year property values for the calculation of property wealth. House Bill 3 changed school finance law and now requires a district's current year property values for the property wealth calculation; however, it also contains language for the calculation of revenue protection payments for Chapter 313 Agreements using prior year values in Section 48.256(d) as follows:

(d) This subsection applies to a school district in which the board of trustees entered into a written agreement with a property owner under Section 313.027, Tax Code, for the implementation of a limitation on appraised value under Subchapter B or C, Chapter 313, Tax Code. For purposes of determining "DPV" under Subsection (a) for a school district to which this subsection applies, the commissioner shall exclude a portion of the market value of property not otherwise fully taxable by the district under Subchapter B or C, Chapter 313, Tax Code, before the expiration of the subchapter. The comptroller shall provide information to the agency necessary for this subsection. A revenue protection payment required as part of an agreement for a limitation on appraised value shall be based on the district's taxable value of property for the preceding tax year.

Supplemental Payments

Assuming that the District and Hecate Energy Roseland Solar, LLC mutually agree in the LAVA that the greater of \$100 per student in average daily attendance (ADA) or \$50,000, the projected amount of these payments over the life of the agreement is \$950,955 of the \$3.36 million net tax savings amount. This amount will be computed annually according to Section VI of the Agreement.

Impact of Projected Student Growth

On District Facilities

TABLE VII - Campus Capacity and Available Growth

Campus Name	Grade Level	# of Regular Classrooms	Building Capacity	Current Enrollment	Enrollment Growth Available
Foster Elem	EE-6	23	506	301	205
Riesel School	7-12	30	720	350	370
	Total	53	1,226	651	575

The building capacities are based on 22 students per classroom for early education through 6th grade, and 24 student per classroom for grades 7th through 12th. Riesel ISD is an early-education through 12th grade district.

Hecate Energy Roseland Solar, LLC provided supplemental information with their application that projected the number of full-time employees that are expected for permanent employment after construction of the project is completed. They projected that two employees are expected. It is not known whether these would be new employees to the Riesel ISD, or if current residents would occupy these positions; however, it is assumed that these employees would be new residents to the district.

Based on average statewide figures provided by a demographer, it is projected that each new household would produce .5 students. Thus, the new two positions equates to 1 new student.

This projected student growth can be accommodated with the current facilities of Riesel ISD as displayed in Table VII above.

Conclusion

This Financial Impact Study displays that entering into a Limited Appraised Value Agreement with Hecate Energy Roseland Solar, LLC, would be beneficial to both Roseland Solar and Riesel ISD under the current school finance system.

Hecate Energy Roseland Solar, LLC would benefit from reduced property taxes during the ten years of the Value Limitation Period. Although some of the tax savings would be used to offset district's revenue losses and supplemental payments to the District, Roseland Solar is projected to benefit from an 61% tax savings during that ten year period of this Agreement. Roseland Solar also has the option of terminating the Agreement if the amount paid to the District during a tax year is greater than the amount of taxes that would have been paid without the agreement; therefore, there is no inherent risk for the company from entering into the Agreement.

Riesel ISD would also have no inherent risk under the current school finance system and with the provisions in the LAVA that require Roseland Solar to offset any district losses caused by the LAVA. An annual calculation will be performed each year to determine if a loss to the District has been incurred. The revenue impact to the District will be computed by comparing the District's revenues with and without the LAVA in effect.

Re: Certificate for Limitation on Appraised Value of Property for School District Maintenance and Operations taxes by and between Riesel Independent School District and Hecate Energy Roseland Solar, LLC, Application 1426

Dear Superintendent Cope:

On October 29, 2019, the Comptroller issued written notice that Hecate Energy Roseland Solar, LLC (applicant) submitted a completed application (Application 1426) for a limitation on appraised value under the provisions of Tax Code Chapter 313. This application was originally submitted on September 16, 2019, to the Riesel Independent School District (school district) by the applicant.

This presents the results of the Comptroller's review of the application and determinations required:

- 1) under Section 313.025(h) to determine if the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C; and
- 2) under Section 313.025(d), to issue a certificate for a limitation on appraised value of the property and provide the certificate to the governing body of the school district or provide the governing body a written explanation of the Comptroller's decision not to issue a certificate, using the criteria set out in Section 313.026.

Determination required by 313.025(h)

Sec. 313.024(a) Applicant is subject to tax imposed by Chapter 171.

Sec. 313.024(b) Applicant is proposing to use the property for an eligible project.

¹ All Statutory references are to the Texas Tax Code, unless otherwise noted.

Sec. 313.024(d) Applicant has requested a waiver to create the required number of

new qualifying jobs and pay all jobs created that are not qualifying jobs a wage that exceeds the county average weekly wage for all jobs

in the county where the jobs are located.

Sec. 313.024(d-2) Not applicable to Application 1426.

Based on the information provided by the applicant, the Comptroller has determined that the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C.

Certificate decision required by 313.025(d)

Determination required by 313.026(c)(1)

The Comptroller has determined that the project proposed by the applicant is reasonably likely to generate tax revenue in an amount sufficient to offset the school district's maintenance and operations *ad valorem tax* revenue lost as a result of the agreement before the 25th anniversary of the beginning of the limitation period, see Attachment B.

Determination required by 313.026(c)(2)

The Comptroller has determined that the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state, see Attachment C.

Based on these determinations, the Comptroller issues a certificate for a limitation on appraised value. This certificate is contingent on the school district's receipt and acceptance of the Texas Education Agency's determination per 313.025(b-1).

The Comptroller's review of the application assumes the accuracy and completeness of the statements in the application. If the application is approved by the school district, the applicant shall perform according to the provisions of the Texas Economic Development Act Agreement (Form 50-826) executed with the school district. The school district shall comply with and enforce the stipulations, provisions, terms, and conditions of the agreement, applicable Texas Administrative Code and Chapter 313, per TAC 9.1054(i)(3).

This certificate is no longer valid if the application is modified, the information presented in the application changes, or the limitation agreement does not conform to the application. Additionally, this certificate is contingent on the school district approving and executing the agreement by December 31, 2020.

Note that any building or improvement existing as of the application review start date of October 29, 2019, or any tangible personal property placed in service prior to that date may not become "Qualified Property" as defined by 313.021(2) and the Texas Administrative Code.

Attachment B - Tax Revenue before 25th Anniversary of Limitation Start

This represents the Comptroller's determination that Hecate Energy Roseland Solar, LLC (project) is reasonably likely to generate, before the 25th anniversary of the beginning of the limitation period, tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement. This evaluation is based on an analysis of the estimated M&O portion of the school district property tax levy directly related to this project, using estimated taxable values

provided in the application.

Attachment C - Limitation as a Determining Factor

Tax Code 313.026 states that the Comptroller may not issue a certificate for a limitation on appraised value under this chapter for property described in an application unless the comptroller determines that "the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state." This represents the basis for the Comptroller's determination.

Methodology

Texas Administrative Code 9.1055(d) states the Comptroller shall review any information available to the Comptroller including:

- the application, including the responses to the questions in Section 8 (Limitation as a Determining Factor);
- public documents or statements by the applicant concerning business operations or site location issues or in which the applicant is a subject;
- statements by officials of the applicant, public documents or statements by governmental or industry officials concerning business operations or site location issues;
- existing investment and operations at or near the site or in the state that may impact the proposed project;
- announced real estate transactions, utility records, permit requests, industry publications or other sources that may provide information helpful in making the determination; and
- market information, raw materials or other production inputs, availability, existing facility locations, committed incentives, infrastructure issues, utility issues, location of buyers, nature of market, supply chains, other known sites under consideration.

Determination

The Comptroller **has determined** that the limitation on appraised value is a determining factor in the Hecate Energy Roseland Solar, LLC's decision to invest capital and construct the project in this state. This is based on information available, including information provided by the applicant. Specifically, the comptroller notes the following:

- Per Hecate Energy Roseland Solar, LLC in Tab 5 of their Application for a Limitation on Appraised Value:
 - A. "Hecate Energy is a national solar developer with the ability to locate projects of this type in other states within the United States and other regions within Texas with favorable solar characteristics. The Applicant is actively assessing and developing other projects that are competing for limited investment funds. With Texas wholesale electricity prices already below the international average, it is necessary to limit the property tax liabilities for a solar project in order to be able to offer electricity at prices that are marketable to Texas customers at competitive rates. Markets such as California that have statewide available subsidies for renewable energy projects, and which have higher average contracted power rates, offer an attractive incentive for developers to build projects in those markets over Texas."
 - B. "The property tax liability of a project without tax incentives in Texas would reduce the return to investors and financiers to an unacceptable level at todays contracted power rates under a power purchase agreement (PPA). Therefore, the applicant would not be able to finance and build the project in Texas even with a signed PPA because of the low price in the PPA. Without the 313 Value Limitation, the applicant would be forced to walk away from this project and spend the potential investment in other states where the rate of return is higher."
- Comptroller Research
 - A. On October 1, 2019, Hecate Energy reported that a purchase power agreement was signed with Google. Per the agreement, Hecate will develop and operate a new solar power in Texas. Chris Bullinger, President & CEO of Hecate Energy, stated "Hecate Energy is proud to put its clean energy expertise to work as part of Google's pioneering commitment to carbon-free energy. The new, renewable energy produced by Hecate solar power will to combat climate change, enhance environmental quality and contribute to the economic vitality of the region."

- B. The qualified property for App #1426 Hecate Energy Roseland Solar, LLC- Riesel ISD is located adjacent to App #1430 Hecate Energy Roseland Solar, LLC- Mart ISD. Construction for both Projects is anticipated to begin in February 2021 with completion by May 2022. (Map Provided)
- Provided by Applicant
 - A. The IGNR Number is 20INR0205 and was assigned on October 25, 2018.
 - B. Hecate seeks to designate this PPA to the Roseland site, contingent upon a) the successful completion of tax agreements with the County, and Mart and Riesel ISDs, b) successfully marketing the remaining 50 percent of the facility's output, and c) the completion of permitting and other development related activities. The tax agreements with the County and the ISDs are considered in the PPA price offered to Google (who would offtake only 50 percent of the solar facility's total capacity via said PPA). The execution of the abovementioned tax agreements is critical to both implementing the Google PPA, and marketing the remaining 50 percent of the facility. Hecate has an additional seven, 500 MW sites under development in Texas, including the Hecate Energy Ramsey Project (ERCOT INR 20INR0130), Hecate Energy Frye Solar (ERCOT INR 20INR0080) Hecate Energy Point Mountain Solar (ERCOT INR 22INR0236), Hecate Energy Harley Hand Solar (ERCOT INR 23INR0008), and Hecate Energy Outpost Solar (ERCOT INR 23INR0007).
 - C. Applications 1426 (Hecate Energy Roseland Solar, LLC- Riesel ISD) and 1430(Hecate Energy Roseland Solar, LLC- Mart ISD) are for the same project which spans two school districts. The qualified property listed in tab in this Application (1426) is distinct and specific to the 200 MW generation capacity that is in Riesel ISD and is not shared and/or part of any qualified property identified in Application 1430.

Founded six years ago, Hecate Energy has developed or built 363MW of operating solar projects totaling over \$600 million in asset value, 58 MWh of battery storage and has entered over 1 GW of renewable Power Purchase Agreements, including 180 MWH of battery storage projects. The company is in offtake negotiations for over 1,000 MW of new solar projects with a pipeline of approximately 6 GW of projects under development.

Hecate Energy has developed operating power projects in California, Florida, Texas, Rhode Island, Maryland, Massachusetts, Virginia and Georgia, with energy storage projects in Ontario. Sites in Washington, Louisiana, Rhode Island, South Carolina New York, Ohio, Texas, Georgia, Tennessee, California and Ontario Canada are currently being evaluated for Hecate Energy's current pipeline of potential projects.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Detailed Description of the Project

Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

Hecate Energy Roseland Solar LLC is requesting an Appraised Value Limitation from Riesel Independent School District for the Hecate Energy Roseland Solar LLC Project (the "Project"), a proposed solar powered electric generating facility in Falls County. The proposed Riesel ISD Project (this Application) would be constructed within a Reinvestment Zone that will be created by Falls County prior to execution of the Value Limitation Agreement. A map showing the location of the project is included in Tab 11. The project is also known by the name Roseland Solar. The Project IGNR Number is 20INR0205 and was assigned on October 25, 2018.

The full project would have approximately 1,626,400,PV panels and associated inverters located in Falls County with a total capacity of 500 MW. It is anticipated that 40% of the total project or 668,973 panels and associated inverters would be in Riesel ISD. Solar equipment selection is ongoing at this time and has not been finalized. The exact number of PV panels and their capacity will depend upon the panels and inverters selected, manufacturers availability and prices, ongoing engineering design optimization and the final megawatt generating capacity of the Project when completed. Current plans are to install approximately 668,973 PV panels and associated inverters within Riesel ISD. The Applicant requests a Value Limitation for all materials and equipment installed for the Project, including underground collection systems, transmission lines, electrical interconnections, roads, control systems necessary for commercial generation of electricity, solar modules/panels, racking and mounting structures, inverters boxes, combiner boxes, meteorological equipment, roadways, paving, fencing, electrical substations, generation transmission tie line and associated towers, and interconnection facilities. This application covers all qualified property in the reinvestment zone and the project boundary within Riesel ISD.

Construction of the Project is anticipated to begin in February 2021 with completion by May 2022.

ARTICLE IV PROTECTION AGAINST LOSS OF FUTURE DISTRICT REVENUES

Section 4.1. INTENT OF THE PARTIES. Subject to the limitations contained in this Agreement (including Section 7.1), it is the intent of the Parties that the District shall, in accordance with the provisions of Texas Tax Code § 313.027(f)(1), be compensated by the Applicant for any loss

that the District incurs in its Maintenance and Operations Revenue as a result of, or on account of, the Parties' entering into this Agreement. Such compensation shall be independent of, and in addition to, all such other payments as are set forth in Article V and Article VI. Subject only to the limitations contained in this Agreement (including Section 7.1), it is the intent of the Parties that the risk of any negative financial consequence to the District as a result of Applicant's location of Applicant's Qualified Investment and Applicant's Qualified Property in the District and the Parties' entering into this Agreement will be borne by the Applicant and not by the District and be paid by the Applicant to the District in addition to any and all payments due under Article V and Article VI.

Section 4.2. CALCULATING THE AMOUNT OF LOSS OF MAINTENANCE AND OPERATIONS REVENUES BY THE DISTRICT. Subject to the provisions of Section 7.1, the amount to be paid by the Applicant to compensate the District for loss of Maintenance and Operations Revenue resulting from, or on account of, this Agreement for each year during the term of this Agreement (the "Revenue Protection Amount") shall be determined in compliance with the Applicable School Finance Law in effect for such year and according to the following formula:

A. The Revenue Protection Amount owed by the Applicant to the District means the Original M&O Revenue minus the New M&O Revenue;

Where:

- (i) "Original M&O Revenue" means the total State and local Maintenance and Operations Revenue that the District would have received for the school year under Texas Education Code Section 48.256(d) had this Agreement not been entered into by the Parties and the Applicant's Qualified Property and/or the Applicant's Qualified Investment been subject to the District's ad valorem Maintenance and Operations tax rate without any limitation on value at the rate applicable for such Tax Year. For purposes of this calculation, the Consultant will base its calculations upon actual local taxable values for each applicable year as certified by the County Appraisal District for all other taxable accounts in the District, save and except for the Qualified Property subject to this Agreement, *plus* the total appraised value of the Qualified Property subject to this Agreement. The Original M&O Revenue is calculated using the taxable value of the Qualified Property as determined by the Appraisal District for purposes of calculating the value of the Qualified Property that is subject to the District's Interest & Sinking Fund tax.
- (ii) "New M&O Revenue" means the total State and local Maintenance and Operations Revenue that District actually received for such school year.
- B. In making the calculations required by this Section 4.2:
 - (i) The Taxable Value of property for each school year will be determined under the Applicable School Finance Law.

- (ii) For purposes of this calculation, the tax collection rate on the Applicant's Qualified Property and/or the Applicant's Qualified Investment will be presumed to be one hundred percent (100%).
- (iii) If, for any year of this Agreement, the difference between the Original M&O Revenue and the New M&O Revenue as calculated under this Section 4.2 results in a negative number, the negative number will be considered to be zero.
- (iv) All calculations made under this Section 4.2 of this Agreement will reflect the Limitation on Appraised Value for such year.
- (v) For all calculations made for any year during the tax Limitation Period under this Section 4.2, the New M&O Revenue will reflect the Tax Limitation Amount stated in Section 2.4 for such year. All calculations made under this Section 4.2 shall be made by a methodology which isolates the full M&O Revenue impact caused by this Agreement. The Applicant shall not be responsible to reimburse the District for other revenue losses created by other agreements, or any other factors not contained in this Agreement.
- **Section 4.3. COMPENSATION FOR LOSS OF OTHER REVENUES.** In addition to the amounts determined pursuant to Section 4.2 above, the Applicant, on an annual basis, shall also indemnify and reimburse the District for the following:
- A. All non-reimbursed costs incurred by the District for extraordinary education-related expenses, as set forth in Section 5.1 below;
- B. Any other loss of District revenues which are directly and solely attributable to the payment by the Applicant to or on behalf of any other third party beneficiary; and
- C. Any other cost to the District, including costs under Section 8.6(C) below (but subject to the limitation set forth in Section 4.4 below), which are directly and solely attributable to compliance with State-imposed requirements relating to this Agreement.

Section 4.4. CALCULATIONS TO BE MADE BY THIRD PARTY.

All calculations under this Agreement shall be made annually by an independent third party (the "Consultant") approved each year by the District. The District agrees that for all Tax Years the Consultant selected by the District shall be McDowell School Finance Consulting. If the District desires to select a Consultant other than McDowell School Finance Consulting, such selection must receive the Applicant's consent, which consent shall not be unreasonably withheld, delayed, or conditioned. To the extent not inconsistent with a statutory change to Applicable School Finance Law, all calculations made by the Consultant under this Agreement shall be made using a methodology which isolates only the revenue impact caused by this Agreement. Applicant shall not be responsible to reimburse District for other revenue losses created by other agreements or any other factors.

Applicant shall only be responsible for payment of fees and expenses under this Section 4.7 not to exceed either (i) \$12,000 per year for the years of the Limitation Period and for which the Consultant is required to prepare calculations under Section 4.4; or (ii) \$6,000 per year for years during the Qualifying Time Period and any year following the Limitation Period during which Supplemental Payments are due to the District and/or required reports are due to the State Comptroller on the Project.

Section 4.5. Data USED For Calculations. The calculations for payments under this Agreement shall be initially based upon the valuations placed upon the Applicant's Qualified Investment and/or the Applicant's Qualified Property by the Appraisal District in its annual certified tax rolls submitted to the District pursuant to Texas Tax Code § 26.01 on or about July 25 of each year of this Agreement. Immediately upon receipt of the valuation information by the District, the District shall submit the valuation information to the Consultant selected under Section 4.4. The certified tax roll data shall form the basis of the calculation of any and all amounts due under this Agreement. All other data utilized by the Consultant to make the calculations contemplated by this Agreement shall be based upon the best available current estimates. The data utilized by the Consultant shall be adjusted from time to time by the Consultant to reflect actual amounts, subsequent adjustments by the Appraisal District to the District's certified tax rolls or any other changes in student counts, tax collections, or other data.

Section 4.6. DELIVERY OF CALCULATIONS. On or before December 1 of each year for which this Agreement is effective, the Consultant appointed pursuant to Section 4.4 of this Agreement shall forward to the Parties a certification containing the calculations required under Section 4.2, Section 4.3 and Article V of this Agreement in sufficient detail to allow the Parties to understand the manner in which the calculations were made. The Consultant shall simultaneously submit his, her or its invoice for fees for services rendered to the Parties, if any fees are being claimed. Upon reasonable prior notice, the employees and agents of the Applicant shall have access, at all reasonable times, to the Consultant's offices, personnel, books, records, and correspondence pertaining to the calculation and fee for the purpose of verification. The Consultant shall maintain supporting data consistent with generally accepted accounting practices, and the employees and agents of the Applicant shall have the right to reproduce and retain for purpose of audit, any of these documents. The Consultant shall preserve all documents pertaining to the calculation and fee for a period of five (5) years after payment. The Applicant shall not be liable for any of Consultant's costs resulting from a review or audit of the Consultant's books, records, correspondence, or work papers pertaining to the calculations contemplated by this Agreement or the fee paid by the Applicant to the Consultant pursuant to Section 4.7, if such fee is timely paid.

Section 4.7. PAYMENT BY APPLICANT. The Applicant shall pay any amount determined to be due and owing to the District under this Agreement on or before the January 31 next following the tax levy for each year for which this Agreement is effective. By such date, the Applicant shall also pay any amount billed by the Consultant for all calculations under this Agreement under Section 4.6, above, plus any reasonable and necessary legal expenses paid by the District to its attorneys, auditors, or financial consultants (subject to the limitation set forth in Section 4.4 above) for the preparation and filing of any financial reports, disclosures, or Tax Credit or other reimbursement applications filed with or sent to the State of Texas which are, or may be required under the terms or because of the execution of this Agreement.

Section 4.8. RESOLUTION OF DISPUTES. Should the Applicant disagree with the certification prepared pursuant to Sections 4.2, 4.3, or Article V, the Applicant may appeal the findings, in

writing, to the Consultant within thirty (30) days of receipt of the certification. Within thirty (30) days of receipt of the Applicant's appeal, the Consultant will issue, in writing, a final determination of the certification containing the calculations. Thereafter, the Applicant may appeal the final determination of certification containing the calculations to the District's Board of Trustees, in writing, within thirty (30) days of the final determination of certification containing the calculations, and shall be without limitation of the Applicant's other rights and remedies available hereunder, at law or in equity.

Section 4.9. EFFECT OF PROPERTY VALUE APPEAL OR OTHER ADJUSTMENT. If at the time the Consultant selected under Section 4.4 makes its calculations under this Agreement, the Applicant has appealed any matter relating to the valuations placed by the Appraisal District on the Applicant's Qualified Property, and such appeal remains unresolved, the Consultant shall base its calculations upon the values placed upon the Applicant's Qualified Property by the Appraisal District. The calculations shall be readjusted, if necessary, based on the outcome of the appeal as set forth below.

If as a result of an appraisal appeal or for any other reason, the Taxable Value of the Applicant's Qualified Investment and/or the Applicant's Qualified Property is changed, once the determination of the new Taxable Value becomes final, the Parties shall immediately notify the Consultant who shall immediately issue new calculations for the applicable year or years using the new Taxable Value. In the event the new calculations result in a change in any amount paid or payable by the Applicant under this Agreement, the Party from whom the adjustment is payable shall remit such amounts to the other Party within thirty (30) days of the receipt of the new calculations from the Consultant.

Section 4.10. EFFECT OF STATUTORY CHANGES. Notwithstanding any other provision in this Agreement, but subject to the limitations contained in Section 7.1, in the event that, by virtue of statutory changes to the Applicable School Finance Law, administrative interpretations by the Comptroller, Commissioner of Education, or the Texas Education Agency, or for any other reason attributable to statutory change, the District will receive less Maintenance and Operations Revenue, or, if applicable, will be required to increase its payment of funds to the State, because of its participation in this Agreement, the Applicant shall make payments to the District, up to the Revenue Protection Amount limit set forth in Section 7.1, that are necessary to offset any negative impact on the District as a result of its participation in this Agreement. Such calculation shall take into account any adjustments to the Revenue Protection Amount calculated for the current fiscal year that should be made in order to reflect the actual impact on the District.

ARTICLE V PAYMENT OF EXTRAORDINARY EDUCATION-RELATED EXPENSES

Section 5.1. EXTRAORDINARY EDUCATION-RELATED EXPENSES. In addition to the amounts determined pursuant to Section 4.2 above, the Applicant, on an annual basis, shall also indemnify and reimburse the District for all non-reimbursable costs, certified by the District's external auditor to have been incurred by the District for extraordinary education-related expenses directly and solely related to the project that are not directly funded in state aid formulas, including expenses

for the purchase of portable classrooms and the hiring of additional personnel to accommodate a temporary increase in student enrollment directly and solely attributable to the project. Applicant shall have the right to contest the findings of the District's external auditor pursuant to Section 4.8 herein.

ARTICLE VI SUPPLEMENTAL PAYMENTS

Section 6.1. SUPPLEMENTAL PAYMENTS. In addition to undertaking the responsibility for the payment of all of the amounts set forth under Articles IV and V, and as further consideration for the execution of this Agreement by the District, the Applicant shall also be responsible for supplemental payments (the "Supplemental Payments") set forth in this Article VI.

A. Amounts Exclusive of Indemnity Amounts. It is the express intent of the Parties that the Applicant's obligation to make Supplemental Payments under this Article VI is separate and independent of the obligation of the Applicant to pay the amounts described in Articles IV and V; provided, however, that all payments under Articles IV and VI are subject to the limitations contained in Section 7.1.

- B. Adherence to Statutory Limits on Supplemental Payments. It is the express intent of the Parties that any Supplemental Payments made to or on behalf of the District by the Applicant, under this Article VI, shall not exceed the limit imposed by the provisions of TEXAS TAX CODE § 313.027(i), as such limit is allowed or required to be increased by the Legislature in a future year of this Agreement.
- C. Explicit Identification of Payments to District. The Applicant shall not be responsible to the District or to any other person or persons in any form for the payment or transfer of money or any other thing of value in recognition of, anticipation of, or consideration for this Agreement made pursuant to Chapter 313, TEXAS TAX CODE, unless it is explicitly set forth in this Agreement.

Section 6.2. SUPPLEMENTAL PAYMENT LIMITATION.

Notwithstanding the foregoing:

- A. the total of the Supplemental Payments made pursuant to this Article shall not exceed for any calendar year of this Agreement an amount equal to the greater of One Hundred Dollars (\$100.00) per student per year in average daily attendance, as defined by Section 42.005 of the Texas Education Code, or Fifty Thousand Dollars (\$50,000.00) per year times the number of years beginning with the first complete or partial year of the Qualifying Time Period identified in Section 2.3.C and ending with the year for which the Supplemental Payment is being calculated minus all Supplemental Payments previously made Application;
- B. Supplemental Payments may only be made during the period starting the first year of the Qualifying Time Period and ending December 31 of the third year following the end of the Tax Limitation Period.
- C. The limitation in Section 6.2.A does not apply to amounts described by Section 313.027(f)(1)-(2) of TEXAS TAX CODE as implemented in Articles IV and V of this Agreement.

D. For purposes of this Agreement, the calculation of the limit of the annual Supplemental Payment shall be greater of \$50,000 or \$100 multiplied by the District's Average Daily Attendance as calculated pursuant to Section 42.005 of the Texas Education Code, based upon the District's 2018-2019 Average Daily Attendance of 633.97, rounded to the whole number, except that if the District's Average Daily Attendance exceeds 633.97 in any year covered by this Agreement, that year's Average Daily Attendance will be used to calculate the amount of Supplemental Payments owed for the duration of the Agreement.

SECTION 6.3. STIPULATED SUPPLEMENTAL PAYMENT AMOUNT - SUBJECT TO ANNUAL LIMIT. On or before January 31, 2022 (the payment due date for Tax Year 2021), and continuing thereafter on or before the January 31 of each year for the maximum period permitted under Section 313.027(i) of the Texas Tax Code, except that Applicant agrees to make its final Supplemental Payment for tax year 2035 on or before December 31, 2035 (i.e., Applicant shall make annual Supplemental Payments beginning January 31, 2022 and continuing through January 31, 2034, the payment due date for Tax Year 2033. Applicant's final Supplemental Payment shall be due on or before December 31, 2035 for Tax Year 2035). The Applicant shall make a Supplemental Payment to District in an amount equal to the greater of the allowable amounts described in Section 6.2(D).

Section 6.4. ANNUAL LIMITATION. Notwithstanding anything contained in this Agreement to the contrary, and with respect to each Tax Year of the Tax Limitation Period beginning after the first Tax Year of the Tax Limitation Period, in no event shall (i) the sum of the maintenance and operations ad valorem taxes paid by the Applicant to the District for such Tax Year, plus the sum of all payments otherwise due from the Applicant to the District under Articles IV, V, and VI of this Agreement with respect to such Tax Year, exceed (ii) the amount of the maintenance and operations ad valorem taxes that the Applicant would have paid to the District for such Tax Year (determined by using the District's actual maintenance and operations tax rate for such Tax Year) if the Parties had not entered into this Agreement. The calculation and comparison of the amounts described in clauses (i) and (ii) of the preceding sentence shall be included in all calculations made pursuant to Article IV of this Agreement, and in the event the sum of the amounts described in said clause (i) exceeds the amount described in said clause (ii), then the payments otherwise due from the Applicant to the District under Articles IV, V, and VI shall be reduced until such excess is eliminated.

Section 6.5. OPTION TO TERMINATE AGREEMENT. In the event the Applicant determines that it will not commence or complete construction of the Applicant's Qualified Investment, the Applicant shall have the option, prior to the beginning of the Tax Limitation Period, to terminate this Agreement without penalty by notifying the District in writing of its exercise of such option. Additionally, in the event that any payment otherwise due from the Applicant to the District under Article IV, Article V, or Article VI of this Agreement with respect to a Tax Year is subject to reduction in accordance with the provisions of Section 7.1, then the Applicant shall have the option to terminate this Agreement. The Applicant may exercise such option to terminate this Agreement by notifying the District of its election in writing not later than the July 31 of the year following the Tax Year with respect to which a reduction under Section 7.1 is applicable. Any termination of this Agreement under the foregoing provisions of this Section shall be effective

immediately prior to the second Tax Year next following the Tax Year in which the reduction giving rise to the option occurred.

ARTICLE VII ANNUAL LIMITATION OF PAYMENTS BY APPLICANT

Section 7.1. EFFECT OF OPTIONAL TERMINATION. Upon the exercise of the option to terminate, this Agreement shall terminate and be of no further force or effect; provided, however, that:

A. the Parties' respective rights and obligations under this Agreement with respect to the Tax Year or Tax Years (as the case may be) through and including the Tax Year during which such notification is delivered to the District, shall not be impaired or modified as a result of such termination and shall survive such termination unless and until satisfied and discharged; and

B. the provisions of this Agreement regarding payments (including liquidated damages and tax payments), records and dispute resolution shall survive the termination or expiration of this Agreement.

ARTICLE VIII ADDITIONAL OBLIGATIONS OF APPLICANT

Section 8.1. APPLICANT'S OBLIGATION TO MAINTAIN VIABLE PRESENCE. In order to receive and maintain the limitation authorized by Section 2.4 in addition to the other obligations required by this Agreement, the Applicant shall Maintain Viable Presence in the District commencing at the start of the Tax Limitation Period through the Final Termination Date of this Agreement. Notwithstanding anything contained in this Agreement to the contrary, the Applicant shall not be in breach of, and shall not be subject to any liability for failure to Maintain Viable Presence to the extent such failure is caused by Force Majeure, provided the Applicant makes commercially reasonable efforts to remedy the cause of such Force Majeure.

District or any other entity on behalf of the District shall provide the requesting party with all information reasonably necessary for the requesting party to determine whether the Applicant is in compliance with its rights, obligations or responsibilities, including, but not limited to, any employment obligations which may arise under this Agreement.

Section 8.5. SITE VISITS AND RECORD REVIEW. The Applicant shall allow authorized employees of the District, the Comptroller, the Appraisal District, and the State Auditor's Office to have reasonable access to the Applicant's Qualified Property and business records from the Application Review Start Date through the Final Termination Date, in order to inspect the project to determine compliance with the terms hereof or as necessary to properly appraise the Taxable Value of the Applicant's Qualified Property.

A. All inspections will be made at a mutually agreeable time after the giving of not less than ninety-six (96) hours prior written notice, and will be conducted in such a manner so as not to unreasonably interfere with either the construction or operation of the Applicant's Qualified Property.

B. All inspections may be accompanied by one or more representatives of the Applicant, and shall be conducted in accordance with the Applicant's safety, security, and operational standards. Notwithstanding the foregoing, nothing contained in this Agreement shall require the Applicant to provide the District, the Comptroller, or the Appraisal District with any technical or business information that is proprietary, a trade secret, or is subject to a confidentiality agreement with any third party.

Section 8.6. RIGHT TO AUDIT; SUPPORTING DOCUMENTS; AUTHORITY OF STATE AUDITOR.

By executing this Agreement, implementing the authority of, and accepting the benefits provided by Chapter 313 of the Texas Tax Code, the Parties agree that this Agreement and their performance pursuant to its terms are subject to review and audit by the State Auditor as if they are parties to a State contract and subject to the provisions of Section 2262.154 of the Texas Government Code and Section 313.010(a) of the Texas Tax Code. The Parties further agree to comply with the following requirements:

A. The Applicant and the District shall cooperate with auditors and other authorized Comptroller and State of Texas representatives and shall provide them with prompt access to all of such property as requested by the Comptroller or the State of Texas. By example and not as an exclusion to other breaches or failures, the Applicant's or the District's failure to comply with this Section shall constitute a Material Breach of this Agreement.

C. In addition to and without limitation on the other audit provisions of this Agreement, the acceptance of tax benefits or funds by the Applicant or the District or any other entity or person directly under this Agreement acts as acceptance of the authority of the State Auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. Under the direction of the legislative audit committee, the Applicant or the District or other entity that is the subject of an audit or investigation by the State Auditor must provide the State Auditor with access to any information the State Auditor considers relevant to the investigation or audit. After receipt of the notice, the Applicant shall be given ninety (90) days to present any facts or arguments to the Board of Trustees showing that it is not in breach of its obligations under this Agreement, or that it has cured or undertaken to cure any such breach.

B. If the Board of Trustees is not satisfied with such response or that such breach has been cured, then the Board of Trustees shall, after reasonable notice to the Applicant, conduct a hearing called and held for the purpose of determining whether such breach has occurred and, if so, whether such breach has been cured. At any such hearing, the Applicant shall have the opportunity, together with their counsel, to be heard before the Board of Trustees. At the hearing, the Board of Trustees shall make findings as to:

- i. whether or not a breach of this Agreement has occurred;
- ii. whether or not such breach is a Material Breach;

A. After receipt of notice of the Board of Trustee's Determination of Breach and Notice of Contract Termination under Section 9.2, the Applicant shall have thirty (30) days in which either to tender payment or evidence of its efforts to cure, or to initiate mediation of the dispute by written notice to the District, in which case the District and the Applicant shall be required to make a good faith effort to resolve, without resort to litigation and within thirty (30) days after the Applicant initiates mediation, such dispute through mediation with a mutually agreeable mediator and at a mutually convenient time and place for the mediation. If the Parties are unable to agree on a mediator, a mediator shall be selected by the senior state district court judge then presiding in Falls County, Texas. The Parties agree to sign a document that provides the mediator and the mediation will be governed by the provisions of Chapter 154 of the TEXAS CIVIL PRACTICE AND REMEDIES

CODE and such other rules as the mediator shall prescribe. With respect to such mediation, (i) the District shall bear one-half of such mediator's fees and expenses and the Applicant shall bear one-half of such mediator's fees and expenses, and (ii) otherwise each Party shall bear all of its costs and expenses (including attorneys' fees) incurred in connection with such mediation.

B. In the event that any mediation is not successful in resolving the dispute or that payment is not received within the time period described for mediation in Section 9.3.A, either the District or the Applicant may seek a judicial declaration of their respective rights and duties under this Agreement or otherwise, in a judicial proceeding in a state district court in Falls County, assert any rights or defenses, or seek any remedy in law or in equity, against the other Party with respect to any claim relating to any breach, default, or nonperformance of any contract, agreement or undertaking made by a Party pursuant to this Agreement.

In the event that the District successfully prosecutes legal proceedings under this section, the Applicant shall also be responsible for the payment of attorney's fees to the attorneys representing the District pursuant to Section 6.30 of the Texas Tax Code and a tax lien shall attach to the Applicant's Qualified Property and the Applicant's Qualified Investment pursuant to Section 33.07 of the Texas Tax Code to secure payment of such fees.

Section 9.4. Consequences of Early Termination or Other Breach by Applicant.

A. In the event that the Applicant terminates this Agreement without the consent of the District, except as provided in Section 7.1 of this Agreement, the Applicant shall pay to the District liquidated damages for such failure within thirty (30) days after receipt of the notice of breach.

B. In the event that the District determines that the Applicant has failed to comply in any material respect with the terms of this Agreement or to meet any material obligation under this Agreement, the Applicant shall pay to the District liquidated damages, as calculated by Section 9.4.C, prior to, and the District may terminate the Agreement effective on the later of: (i) the expiration of the thirty (30) days provided for in Section 9.3.A, and (ii) thirty (30) days after any mediation and judicial proceedings initiated pursuant to Sections 9.3.A and 9.3.B are resolved in favor of the District.

C. The sum of liquidated damages due and payable shall be the sum total of the District ad valorem taxes for all of the Tax Years for which a tax limitation was granted pursuant to this Agreement prior to the year in which the default occurs that otherwise would have been due and payable by the Applicant to the District without the benefit of this Agreement, including penalty and interest, as calculated in accordance with Section 9.4.E. For purposes of this liquidated damages calculation, the Applicant shall be entitled to a credit for all payments made to the District pursuant to Articles IV, V, and VI. Upon payment of such liquidated damages, the Applicant's obligations under this Agreement shall be deemed fully satisfied, and such payment shall constitute the District's sole remedy.

D. In the event that the District determines that the Applicant has committed a Material Breach identified in Section 9.1, after the notice and mediation periods provided by Sections 9.2 and 9.3, then the District may, in addition to the payment of liquidated damages required pursuant to Section 9.4.C, terminate this Agreement.

E. In determining the amount of penalty or interest, or both, due in the event of a breach of this Agreement, the District shall first determine the base amount of recaptured taxes less all credits under Section 9.4.C owed for each Tax Year during the Tax Limitation Period. The District shall calculate penalty or interest for each Tax Year during the Tax Limitation Period in accordance with the methodology set forth in Chapter 33 of the Texas Tax Code, as if the base amount calculated for such Tax Year less all credits under Section 9.4.C had become due and payable on February 1 of the calendar year following such Tax Year. Penalties on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(a) of the Texas Tax Code, or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(c) of the Texas Tax Code, or its successor statute.

Section 9.5. LIMITATION OF OTHER DAMAGES. Notwithstanding anything contained in this Agreement to the contrary, in the event of default or breach of this Agreement by the Applicant, the District's damages for such a default shall under no circumstances exceed the amounts calculated under Section 9.4. In addition, the District's sole right of equitable relief under this Agreement shall be its right to terminate this Agreement. The Parties further agree that the limitation of damages and remedies set forth in this Section 9.5 shall be the sole and exclusive remedies available to the District, whether at law or under principles of equity.

Section 9.6. STATUTORY PENALTY FOR INADEQUATE QUALIFIED INVESTMENT. Pursuant to Section 313.0275 of the Texas Tax Code, in the event that the Applicant fails to make \$30,000,000.00 of Qualified Investment, in whole or in part, during the Qualifying Time Period, the Applicant is liable to the State for a penalty. The amount of the penalty is the amount determined by: (i) multiplying the maintenance and operations tax rate of the school district for that tax year that the penalty is due by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the Tax Year the penalty is due. This penalty shall be paid on or before February 1 of the year following the expiration of the Qualifying Time Period and is subject to the delinquent penalty provisions of Section 33.01 of the Texas Tax Code. The Comptroller may grant a waiver of this penalty in the event of Force Majeure which prevents compliance with this provision.

Section 9.7. REMEDY FOR FAILURE TO CREATE AND MAINTAIN REQUIRED NEW QUALIFYING JOBS. Pursuant to Section 313.0276 of the TEXAS TAX CODE, for any full Tax Year that commences after the project has become operational, in the event that it has been determined that the Applicant has failed to meet the job creation or retention requirements defined in Sections 9.1.C, the Applicant shall not be deemed to be in Material Breach of this Agreement until such time as the Comptroller has made a determination to rescind this Agreement under Section 313.0276 of TEXAS TAX CODE, and that determination is final.

Section 9.8. REMEDY FOR FAILURE TO CREATE AND MAINTAIN COMMITTED NEW QUALIFYING JOBS.

- A. In the event that the Applicant fails to create and maintain the number of New Qualifying Jobs specified in Schedule C of the Application, an event constituting a Material Breach as defined in Section 9.1.D, the Applicant and the District may elect to remedy the Material Breach through a penalty payment.
- B. Following the notice and mediation periods provided by Sections 9.2 and 9.3, the District may request the Applicant to make a payment to the State in an amount equal to: (i) multiplying the maintenance and operations tax rate of the school district for that Tax Year that the Material Breach occurs by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the market value of the property identified on the Appraisal District's records for each tax year the Material Breach occurs.
- C. In the event that there is no tax limitation in place for the tax year that the Material Breach occurs, the payment to the State shall be in an amount equal to: (i) multiplying the maintenance and operations tax rate of the School District for each tax year that the Material Breach occurs by (ii) the amount obtained after subtracting (a) the tax limitation amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the last Tax Year for which the Applicant received a tax limitation.
- D. The penalty shall be paid no later than 30 days after the notice of breach and is subject to the delinquent penalty provisions of Section 33.01 of the TEXAS TAX CODE.
