FINDINGS  
OF THE  
SNYDER INDEPENDENT SCHOOL DISTRICT  
BOARD OF TRUSTEES

UNDER THE  
TEXAS ECONOMIC DEVELOPMENT ACT  
ON THE APPLICATION SUBMITTED BY

CANYON WIND FARM, LLC  
TEXAS TAXPAYER ID #32072155636  
APPLICATION #1442

---

November 12, 2020

**B.** The Texas Commissioner of Education has determined that the project will not impact school enrollment.

The Board of Trustees has confirmed that the taxable value of property in the Snyder Independent School District for the preceding tax year, as determined under Subchapter M, Chapter 403, Government Code, is as stated in the 2018 ISD Summary Worksheet posted on the Texas Comptroller's website at:

<https://comptroller.texas.gov/data/property-tax/pvs/2018p/2082089021D.php>.

After receipt of the Application, the District submitted a proposed form of Agreement for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code, in the form required by the Comptroller of Public Accounts. The proposed Agreement and letter approving same are attached to these findings as **Exhibit C**.

After review of the Comptroller's recommendation, and in consideration of its own economic impact study the Board finds:

**Board Finding Number 1.**

**The Applicant qualifies for a limitation on appraised value of Qualified Property under Texas Tax Code § 313.024 in the eligibility category of Renewable Energy - Wind.**

**Board Finding Number 2.**

**The Applicant's entire proposed investment in the Snyder Independent School District is \$95,800,000—all of which is proposed to be Qualified Investment under Texas Tax Code § 313.021.**

**Board Finding Number 3.**

**The average salary level of qualifying jobs is expected to be at least \$50,000 per year. The review of the Application by the State Comptroller's Office indicates that this amount—based on Texas Workforce Commission data—complies with the requirement that qualifying jobs pay more than the minimum weekly wage required for Qualified Jobs under Texas Tax Code § 313.021.**

**Board Finding Number 4.**

**The level of the Applicant's average investment per qualifying job over the term of the Agreement is estimated to be approximately \$31,933,333 on the basis of the three new qualifying positions committed to by the Applicant for this project. The project's total investment is \$95,800,000, resulting in a relative level of investment per qualifying job of \$31,933,333.**

**Board Finding Number 5.**

The Applicant has requested a waiver of the job creation requirement under Texas Tax Code § 313.25(f-1), and the Board finds such waiver request should be granted. The Board notes that the number of jobs proposed for this project (three jobs) is consistent with industry standards in the Renewable Energy – Wind industry.

**Board Finding Number 6.**

Subsequent economic effects on the local and regional tax bases will be significant. In addition, the impact of the added infrastructure will be significant to the region. In support of Finding 6, the economic impact evaluation states:

Table 2 depicts this project’s estimated economic impact to Texas. It depicts the direct, indirect and induced effects to employment and personal income within the state. The Comptroller’s office calculated the economic impact based on 15 years of annual investment and employment levels.

Table 4 examines the estimated direct impact on ad valorem taxes to the school district, and Scurry County, with all property tax incentives sought being granted using estimated market value from the application. The project has applied for a value limitation under Chapter 313, Tax Code and tax abatement with the County, Scurry County Hospital District and Western Texas College. The difference noted in the last line is the difference between Table 3 and Table 4:

<sup>1</sup>Tax Rate per \$100 Valuation

**Board Finding Number 7.**

The revenue gains that will be realized by the school district if the Application is approved will be significant in the long-term, with special reference to revenues used for supporting school district debt.

**Board Finding Number 8.**

The effect of the Applicant's proposal, if approved, on the number or size of needed school district instructional facilities is not expected to increase the District's facility needs, with current trends suggesting little underlying enrollment growth based on the impact of the project.

**Board Finding Number 9.**

The Applicant's project is reasonably likely to generate, before the 25<sup>th</sup> anniversary of the beginning of the limitation period, tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement. This evaluation is based on an analysis of the estimated M&O portion of the school district property tax levy directly related to this project, using estimated taxable values provided in the application. Attachment B of the economic impact study contains a year-by-year analysis as depicted in the following table:

<b>Analysis Summary</b> Is the project reasonably likely to generate tax revenue in an amount sufficient to offset the M&O levy loss as a result of the limitation agreement?	<b>Yes</b>

**Board Finding Number 10.**

**The limitation on appraised value requested by the Applicant is a determining factor in the Applicant’s decision to invest capital and construct the project in this state.**

**Board Finding Number 11.**

**The ability of the Applicant to locate the proposed facility in another state or another region of this state is substantial, as a result of the highly competitive marketplace for economic development.**

In support of Findings 10 and 11, **Attachment C** of the economic impact study states:

The Comptroller has determined that the limitation on appraised value is a determining factor in the Canyon Wind Farm, LLC’s (parent company Silverpeak Renewables) decision to invest capital

and construct the project in this state. This is based on information available, including information provided by the applicant. Specifically, the comptroller notes the following:

- Per Canyon Wind Farm, LLC in Tab 5 of their Application for a Limitation on Appraised Value:
  - A. “Canyon Wind Farm, LLC” was formed in 2019 by Silverpeak Renewables as a special-purpose entity to hold all of the assets of the wind farm development.”
  - B. “Canyon Wind Farm, LLC and its associates have entered into the following representative agreements and contracts for the development of a project phase within Snyder ISD and have assigned these assets to Canyon Wind Farm, LLC: Grants of leases and easements covering approximately 38,000 acres with 150 landowners; D&O Insurance Policy & Public Liability insurance contract with MHBT Marsh & McLennan Agency LLC; Full Wind study with UL AWS Truepower; Full wind analysis and data monitoring contract with Arcvera Renewables; Environmental study contract with SWCA; Interconnection studies/contracts with ONCOR and ERCOT; Transformer agreement with SMIT Transformatoren; and Master monitoring agreement with Flash Technology.”
  - C. “The business activities and these agreements and contracts listed in B above will help to determine with greater certainty and granularity the feasibility of completing development of an economic renewable energy project in Snyder.”
  - D. Canyon Wind Farm, LLC has determined that a value limitation agreement with Snyder ISD is an essential economic driver to allow for the return on investment necessary to finance and construct the wind energy project.”
  - E. Canyon Wind Farm, LLC has determined that the identified site in Snyder ISD represents a location for deployment of its development resources and capital. A 313 Limitation of Appraised Value Agreement is a key tax incentive agreement necessary to ensure the Project is on a level playing field with other wind projects with similar incentives and with alternative forms of generation that receive their own forms of economic support.”
  - F. “Without the requested limitation the Project will be unable to generate sufficient operating margins and net income to produce economically competitive energy and associated returns necessary to attract tax and sponsor equity investment.
  - G. “The applicant continually evaluates locations outside of Texas for its project development activities. The project capital that is planned to be developed for the Applicant’s project (dependent upon approval of the Appraised Value Limitation) has been considered for us in projects located in numerous states, which included Colorado, Illinois, Indiana, Kansas, Minnesota, Nebraska, New Mexico, and Virginia.

Re: Certificate for Limitation on Appraised Value of Property for School District Maintenance and Operations taxes by and between Snyder Independent School District and Canyon Wind Farm, LLC, Application 1442

Dear Superintendent Bland:

On April 2, 2020, the Comptroller issued written notice that Canyon Wind Farm, LLC (applicant) submitted a completed application (Application 1442) for a limitation on appraised value under the provisions of Tax Code Chapter 313.<sup>1</sup> This application was originally submitted on October 10, 2019, to the Snyder Independent School District (school district) by the applicant.

This presents the results of the Comptroller's review of the application and determinations required:

- 1) under Section 313.025(h) to determine if the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C; and
- 2) under Section 313.025(d), to issue a certificate for a limitation on appraised value of the property and provide the certificate to the governing body of the school district or provide the governing body a written explanation of the Comptroller's decision not to issue a certificate, using the criteria set out in Section 313.026.

### **Attachment C – Limitation as a Determining Factor**

Tax Code 313.026 states that the Comptroller may not issue a certificate for a limitation on appraised value under this chapter for property described in an application unless the comptroller determines that “the limitation on appraised value is a determining factor in the applicant’s decision to invest capital and construct the project in this state.” This represents the basis for the Comptroller’s determination.

#### **Methodology**

Texas Administrative Code 9.1055(d) states the Comptroller shall review any information available to the Comptroller including:

- the application, including the responses to the questions in Section 8 (Limitation as a Determining Factor);
- public documents or statements by the applicant concerning business operations or site location issues or in which the applicant is a subject;
- statements by officials of the applicant, public documents or statements by governmental or industry officials concerning business operations or site location issues;
- existing investment and operations at or near the site or in the state that may impact the proposed project;
- announced real estate transactions, utility records, permit requests, industry publications or other sources that may provide information helpful in making the determination; and
- market information, raw materials or other production inputs, availability, existing facility locations, committed incentives, infrastructure issues, utility issues, location of buyers, nature of market, supply chains, other known sites under consideration.

#### **Determination**

The Comptroller **has determined** that the limitation on appraised value is a determining factor in the Canyon Wind Farm, LLC’s (parent company Silverpeak Renewables) decision to invest capital and construct the project in this state. This is based on information available, including information provided by the applicant. Specifically, the comptroller notes the following:

- Per Canyon Wind Farm, LLC in Tab 5 of their Application for a Limitation on Appraised Value:
  - A. “Canyon Wind Farm, LLC” was formed in 2019 by Silverpeak Renewables as a special-purpose entity to hold all of the assets of the wind farm development.”
  - B. “Canyon Wind Farm, LLC and its associates have entered into the following representative agreements and contracts for the development of a project phase within Snyder ISD and have assigned these assets to Canyon Wind Farm, LLC: Grants of leases and easements covering approximately 38,000 acres with 150 landowners; D&O Insurance Policy & Public Liability insurance contract with MHBT Marsh & McLennan Agency LLC; Full Wind study with UL AWS Truepower; Full wind analysis and data monitoring contract with Arcvera Renewables; Environmental study contract with SWCA; Interconnection studies/contracts with ONCOR and ERCOT; Transformer agreement with SMIT Transformatoren; and Master monitoring agreement with Flash Technology.”
  - C. “The business activities and these agreements and contracts listed in B above will help to determine with greater certainty and granularity the feasibility of completing development of an economic renewable energy project in Snyder.”
  - D. Canyon Wind Farm, LLC has determined that a value limitation agreement with Snyder ISD is an essential economic driver to allow for the return on investment necessary to finance and construct the wind energy project.”
  - E. Canyon Wind Farm, LLC has determined that the identified site in Snyder ISD represents a location for deployment of its development resources and capital. A 313 Limitation of Appraised Value Agreement is a key tax incentive agreement necessary to ensure the Project is on a level playing field with other wind projects with similar incentives and with alternative forms of generation that receive their own forms of economic support.”

- F. "Without the requested limitation the Project will be unable to generate sufficient operating margins and net income to produce economically competitive energy and associated returns necessary to attract tax and sponsor equity investment.
- G. "The applicant continually evaluates locations outside of Texas for its project development activities. **Has the applicant entered into any agreements, contracts or letters of intent related to the proposed project?**

Canyon Wind Farm, LLC was formed in 2019 by Silverpeak Renewables as a special-purpose entity to hold all of the assets of the wind farm development that began back in 2010.

Canyon Wind Project, LLC and its associate parties have entered into the following representative agreements and contracts for the development of a project within Snyder ISD and have assigned these assets to Canyon Wind Farm, LLC:

- Grants of leases and easements covering approximately 38,000 acres with 150 landowners.
- D&O Insurance Policy & Public Liability insurance contract with MHBT Marsh & McLennan Agency LLC
- Full wind study and contract with UL AWS Truepower
- Full wind analysis and data monitoring contract with Arcvera Renewables
- Environmental study contract with SWCA
- Interconnection studies/contracts with ONCOR and ERCOT
- Transformer agreement with SMIT Transformatoren
- Master monitoring agreement with Flash Technology

**Does the applicant have current business activities at the location where the proposed project will occur?**

The business activities and these agreements and contracts listed above will help to determine with greater certainty and granularity the feasibility of completing development of an economic renewable energy project in Snyder ISD. Canyon Wind Farm, LLC has determined that a value limitation agreement with Snyder ISD is an essential economic driver to allow for the return on investment necessary to finance and construct the wind energy project.

1442-Snyder-CanyonWindFarm-Amendment001

**Is the applicant evaluating other locations not in Texas for the proposed project?**

Canyon Wind Farm, LLC has determined that the identified site in Snyder ISD represents a location for deployment of its development resources and capital. A 313 Limitation of Appraised Value Agreement is a key tax incentive agreement necessary to ensure the Project is on a level playing field with other wind projects with similar incentives and with alternative forms of generation that receive their own forms of economic support. Without the requested limitation the Project will be unable to generate sufficient operating margins and net income to produce economically competitive energy and associated returns necessary to attract tax and sponsor equity investment. Such third-party investment is mandatory to finance the projected capital costs of approximately \$95M needed to purchase wind turbines and other infrastructure and to fund the construction and closing costs of the facility.

**Are you submitting information to assist in the determination as to whether the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in Texas?**

The information provided in this Attachment and throughout the application has been assembled to provide the reviewer with the best possible data on which to make an assessment and determination of the critical nature of the limitation on appraised value to the feasibility of the Canyon Wind Farm, LLC. The applicant continually evaluates locations outside of Texas for its project development activities. The project capital that is planned to be deployed for the Applicant's project (dependent upon approval of the Appraised Value Limitation) has been considered for use in projects located in numerous states, which include Colorado, Illinois, Indiana, Kansas, Minnesota, Nebraska, New Mexico, and Virginia.

## Introduction

Canyon Wind Farm LLC (“Company”) has submitted an application to the Snyder Independent School District (“District”) requesting a property value limitation on a proposed project located within the school district boundaries, under Chapter 313 of the Texas Tax Code. The proposed project is a renewable energy electric generation project located in Scurry County, TX. The company estimates that the total investment in this project will be approximately \$95 million.

Local government entities in Texas, including school districts, rely heavily on the ad valorem property tax to fund operations and building projects. Thus, the property tax burden that Texas imposes on individuals and business entities is higher compared to most other states. Seeking to encourage economic development and to attract large scale capital investment, the 77th Texas Legislature in 2001 enacted House Bill 1200 creating Tax Code Chapter 313, the Texas Economic Development Act. The act as amended by the legislature in 2007, 2009 and 2013 now grants eligibility to companies engaging in manufacturing, advanced clean energy projects, research and development, clean coal projects, renewable electric energy generation, electric power generation using integrated gasification combined cycle technology, nuclear electric power generation and a computer center used primarily in connection to one of the other categories or a Texas Priority Project. Under the provisions of this law, the Snyder Independent School District may grant a value limitation for maintenance and operation taxes in the amount of \$30 million dollars for a period of ten years.

The application calls for the project to be taxable for both maintenance and operation (M&O) and interest and sinking (I&S) during the 2020-21 school year. Beginning with the 2022-23 school year, the value of the project would be limited to \$30 million for maintenance and operation (M&O) tax purposes and remain limited through the 2031-32 school year. The full value of the project will be taxable for debt service purposes using the I&S tax rate in all years of the agreement.

Revenue Protection Payment to District -	\$584,781
Supplemental Payments to District -	\$3,486,000
Total Revenue to District Resulting From Tax Code Chapter 313 Agreement -	<u>\$4,070,781</u>
Total Tax Savings to Company after all Payments -	Negative <u>\$294,826</u>

## School Finance Mechanics

The Texas system of public-school funding is based on the ad valorem property tax. Schools levy a tax rate for maintenance and operation (M&O) and interest and sinking (I&S) against a current year tax roll. As a result of House Bill 3, as passed by the 86<sup>th</sup> Texas Legislature, signed into law and effective in relevant part on September 1, 2019, State funding is calculated using current year property value which is a significant change from prior law which since 1993 has relied on prior year values as certified by the Comptroller’s Property Tax Division (CPTD). However, for the purposes of districts with Tax Code Chapter 313 agreements and in accordance with Sec. 48.256 – LOCAL

SHARE OF PROGRAM COST (TIER I), Subsection d - *A revenue protection payment required as part of an agreement for a limitation on appraised value shall be based on the district's taxable value of property for the preceding tax year.* During any school year where there would have been a loss of property tax revenue from the prior year as a result of the Tax Code Chapter 313 agreement, a revenue protection payment equal to that reduction will be required.

Texas school districts are funded by a combination of local ad valorem property taxes and state aid. Most of the funds that a school district generates through the funding formulas is generated in Tier 1. Local M&O collections at the compressed tax rate generate Tier I funding. In 2019-20, a school district's Tier I revenue is the greater of the adjusted minimum target revenue amount or the state share of Tier 1 plus local M&O collections at the compressed rate. The Tier 1 formulas start with a Basic Allotment per student of \$6,160. Funding calculations use the number of students in average daily attendance, the number of students who participate in categorical/special programs and adjustments for size, sparsity and location determine a Total Cost of Tier 1. A Local Fund Assignment is determined by multiplying the district's compressed tax rate by the current year property value. This formula determines the local ad valorem property taxes the district must collect in order to satisfy the district's share of the Tier 1 cost. School districts that are relatively property wealthy per student fund most of the Total Cost of Tier 1 with local property taxes, while school districts that are relatively property poor per student receive most of the Total Cost of Tier 1 from state aid.

### **Underlying Assumptions**

A forecast of the financial impact that the proposed value limitation will have on Snyder ISD's future revenue is critical information that will be very useful to the district when making the decision to grant the limitation and for the district's long range financial planning process. Analysis for this application covers the 2019-20 through the 2036-37 school years.

The Revenue Protection Clause of the proposed agreement and Tax Code Chapter 313 Section 48.256 Subsection D calls for the school district to be held harmless against any potential losses as a result of the value limitation agreement. Revenue protection calculations are to be made using whatever property tax laws and school funding formulas are in place at that time in years one through ten of the agreement. This stipulation is a statutory requirement under Section 313.027 of the Tax Code.

The approach used in this report was to predict 16 years of base data including average daily attendance, M&O and I&S tax rates, maintenance and operation (M&O) tax collections, current year (CAD) values and prior year (CPTD) values for each year of the agreement. For the purposes of this analysis, final 2018 CPTD values were used as well as 2019 CAD values from Scurry CAD. Snyder ISD currently has other approved Chapter 313 projects. These values have been included in the base data illustrated in **Table 1**.

To isolate the impact of the value limitation on the District's finances over the term of the agreement, average daily attendance and maintenance and operation tax rates were held constant at levels that existed in the 2019-20 school year. An ADA of 2490, a WADA of 3543 and an M&O tax rate of \$0.9664 were used for each year of the of the initial forecast. Due to HB 3, however, the M&O tax rate will be compressed to \$0.97 for 2019-2020. A tax collection rate of 100% is assumed in all the calculations used in this analysis. The Scurry CAD certified value for 2019 was used as the 2019 CAD value. This value was used as the basis for subsequent current year (CAD) values in this report. The final 2018 T1, T2, T3 and T4 Comptroller Property Tax Division (CPTD) values certified to school districts in late July, 2018 were used as a basis for predicting future year (CPTD) values for each of the agreement years.

The proposed agreement and Tax Code Chapter 313 Section 48.256 Subsection D calls for Snyder ISD to be held harmless against potential state and local revenue losses that might occur as a result of the value limitation being in effect for any given year of the agreement. In order to predict when and if these tax revenue losses may occur, a state and local revenue projection for the 2019-2020 school year was completed to serve as baseline data and is displayed in **Table 2**. In any year of the limitation period where total state and local funding with the full project value exceeds the total state and local funding produced when the limited value is used, a Revenue Protection Payment is indicated for that year. The results of these calculations are illustrated in **Table 3**.

<b>HB 3 NET TOTAL STATE/LOCAL M&amp;O REVENUE</b>		25,678,768	26,449,131

## Financial Impact on the School District

Utilizing the assumptions and methodology described above, total maintenance and operation tax revenue was estimated for each year of the agreement. **Table 3** indicates that there will be a tax revenue loss to the district of \$3.776 million over the course of the agreement. The revenue loss by the district due to the agreement and Tax Code Chapter 313 Section 48.256 Subsection D is estimated to be mostly in the first year of the value limitation period.

## Financial Impact on the Taxpayer

The terms of the proposed agreement call for the maintenance and operation (M&O) value of the project to be limited to \$30 million starting in school year 2022-23 and remaining limited through school year 2031-32. The potential gross and net tax savings to Canyon Wind Farm LLC are shown in **Table 3**. As stated earlier, an M&O tax rate of \$0.9664 and a collection rate of 100% is used throughout the calculations in this report. **Table 3** shows gross tax savings due to the limitation of \$3.776 million over the length of the contract. Net tax savings are estimated to be a negative \$295 thousand. To estimate supplemental payments to the school district of \$100 per ADA, a model of ADA was applied to the base ADA of 2490, which was the ADA for Snyder ISD through the end of the the 2019-20 school year.

## Facilities Funding Impact on the District

Reports submitted by Canyon Wind Farm LLC show the full value of the property being depreciated over time. Even so, the full value of the project will be available to the district for I&S taxes and will enhance the district's ability to service current and future debt obligations. Texas funding laws provide assistance to school districts for debt service purposes in the form of the Instructional Facilities Allotment and the Existing Debt Allotment. The formulas provide a guarantee of \$35 per ADA per penny of tax effort. While the project is expected to provide additional employment opportunities in the area, the impact on student enrollment is predicted to be minimal.

## Conclusion

The Canyon Wind Farm LLC project proposed in this application will benefit the community, the district, Snyder ISD and the taxpayer, Canyon Wind Farm LLC. The community will receive economic development, the taxpayer will enjoy savings on property taxes and the district will be held harmless from revenue loss due to the provisions of the agreement and Tax Code Chapter 313 Section 48.256 Subsection D. The district will also enjoy an increased value available for I&S tax collections dedicated to debt service that can be leveraged to provide first class facilities for faculty and students.

Note, the Texas Legislature could take action that could potentially change the impact of this 313 valuation limitation agreement on the finances of Snyder ISD and result in estimates that differ significantly from the estimates presented in this analysis. Some of the factors that could significantly change these estimates are legislative or administrative changes made by the Texas Legislature, the Texas Education Agency or the Comptroller of Public Accounts. The changes could contain modifications to the school finance formulas, property value appraisals, tax exemptions or tax code. Other factors that could impact the estimates of this agreement could also include changes to property values, district tax rates and student enrollment.

#### **Section 4.1. INTENT OF PARTIES.**

It is the intent of the Parties in accordance with the provisions of Section 313.027(f)(1) of the TEXAS TAX CODE and Section 48.256 (d) of the TEXAS EDUCATION CODE that the District shall be compensated by the Applicant as provided in this Article IV for any Lost M&O Revenue as a result of, or on account of, entering into this Agreement, after taking into account any payments to be made under this Agreement. Such payments shall be independent of, and in addition to such other payments as set forth in Article V and Article VI of this Agreement. **It is the intent of the Parties that the risk of any and all Lost M&O Revenue as a result of, or on account of, entering into this Agreement, will be borne by the Applicant and not by the District.**

Subject to the limitations contained in this Agreement, the calculation of any Lost M&O Revenue required to be paid by the Applicant under this Article IV shall be made for the first time in the first complete Tax Year following the Application Approval Date and every year thereafter during the term of this Agreement.

Within 60 days from the date Commercial Operations begin, the Applicant shall provide to the District, the Comptroller, and the Appraisal District a verified written report, giving a specific and detailed description of the land, tangible personal property, buildings, or permanent, nonremovable building components (including any affixed to or incorporated into real property) to which the value limitation applies including maps or surveys of sufficient detail and description to locate all such Qualified Property within the boundaries of the land which is subject to the Agreement, if such final description is different than the description provided in the Application or any supplemental application information, or if no substantial changes have been made, a verification of the fact that no substantial changes have been made.

The Parties further agree that the printouts and projections produced during the negotiations and approval of this Agreement are:

- i. For illustrative purposes only, are not intended to be relied upon, and have not been relied upon by the Parties as a prediction of future consequences to either Party to the Agreement;
- ii. Are based upon current Applicable School Finance Law, which is subject to change by statute, by administrative regulation, or by judicial decision at any time; and,
- iii. May change in future years to reflect changes in the Applicable School Finance Law.

#### **Section 4.2 CALCULATING LOST M&O REVENUE.**

Subject to the limitations contained in this Agreement, the amount to be paid by the Applicant to compensate the District for loss of M&O Revenue resulting from, or on account of, this Agreement for each year starting in the year of the Application Approval Date and ending on Final Termination Date (the “Lost M&O Revenue”) shall be determined in compliance with the Applicable School Finance Law in effect for such year and according to the following formula:

Subject to the limitations contained in this Agreement, the Lost M&O Revenue owed by the Applicant to District means the Original M&O Revenue *minus* the New M&O Revenue.

In making the calculations required by this Section 4.2:

- i. The Taxable Value of property for each school year will be determined under the Applicable School Finance Law.
- ii. For purposes of this calculation, the tax collection rate on the Applicant’s Qualified Property will be presumed to be one hundred percent (100%).
- iii. If, for any year of this Agreement, the difference between the Original M&O Revenue and the New M&O Revenue, as calculated under this Section 4.2 of this Agreement, results in a negative number, the negative number will be considered to be zero.
- iv. For all calculations made for years during the Tax Limitation Period under this Section 4.2 of this Agreement, Subsection ii of this subsection will reflect the Tax Limitation Amount for such year.
- v. All calculations made under this Section 4.2 shall be made by a methodology which isolates only the full Maintenance and Operation Revenue impact caused by this Agreement. The Applicant shall not be responsible to reimburse the District for other revenue losses created by other agreements, or on account of or otherwise arising out of any other factors not contained in this Agreement.

**Section 4.3. CALCULATIONS TO BE MADE BY THIRD PARTY.**

All calculations under this Agreement shall be made annually by an independent third party (the “Third Party”) selected and appointed each year by the District, subject to approval by Applicant in writing, which approval shall not unreasonably be withheld.

**Section 4.4. DATA USED FOR CALCULATIONS.**

The calculations for payments under this Agreement shall be initially based upon the valuations that are placed upon all taxable property in the District, including the Applicant’s Qualified Property, by the Appraisal District in its annual certified tax roll submitted to the District for each Tax Year pursuant to Texas Tax Code § 26.01 on or about July 25 of each year of this Agreement. Immediately upon receipt of the valuation information by the District, the District shall submit the valuation information to the Third Party selected and appointed under Section 4.3. The certified tax roll data shall form the basis of the calculation of any and all amounts due under this Agreement. All other data utilized by the Third Party to make the calculations contemplated by this Agreement shall be based upon the best available current estimates. The data utilized by the Third Party shall be adjusted from time to time by the Third Party to reflect actual amounts, subsequent adjustments by the Appraisal District to the District’s certified tax roll or any other changes in student counts, tax collections, or other data.

**Section 4.5. EFFECT OF PROPERTY VALUE APPEAL OR OTHER ADJUSTMENT.**

If the Applicant has appealed any matter relating to the valuations placed by the Appraisal District on the Applicant’s Qualified Property, and such appeal remains unresolved at the time the Third Party selected under Section 4.3 makes its calculations under this Agreement, the Third Party shall base its calculations upon the values placed upon the Applicant’s Qualified Property by the Appraisal District. The calculations shall be readjusted, if necessary, based on the outcome of the appeal as set forth below.

If as a result of an appeal or for any other reason, the Taxable Value of the Applicant’s Qualified Investment is changed, once the determination of the new Taxable Value becomes final, the Parties shall immediately notify the Third Party who shall immediately issue new calculations for the applicable year or years using the new Taxable Value. In the event the new calculations result in a change in any amount paid or payable by the Applicant under this Agreement, the Party from whom the adjustment is payable shall remit such amount to the other Party within thirty (30) days of the receipt of the new calculations from the Third Party.

**Section 4.6. DELIVERY OF CALCULATIONS.**

On or before November 1 of each year for which this Agreement is effective, the Third Party appointed pursuant to Section 4.3 of this Agreement shall forward to the Parties a certification containing the calculations required under this Article IV, Article V, Article VI, and/or Section 7.1 of this Agreement in sufficient detail to allow the Parties to understand the manner in which the calculations were made. The Third Party shall simultaneously submit his, her or its invoice for fees for services rendered to the Parties, if any fees are being claimed, which fee shall be the sole responsibility of the District, but subject to the provisions of Section 4.8, below. Upon reasonable prior notice, the employees and agents of the Applicant shall have access, at all reasonable times, to the Third Party’s calculations, records, and correspondence

pertaining to the calculation and fee for the purpose of verification. The Third Party shall maintain supporting data consistent with generally accepted accounting practices, and the employees and agents of the Applicant shall have the right to reproduce and retain for purpose of audit, any of these documents. The Third Party shall preserve all documents pertaining to the calculation until four (4) years after the Final Termination Date of this Agreement. The Applicant shall not be liable for any of the Third Party's costs resulting from an audit of the Third Party's books, records, correspondence, or work papers pertaining to the calculations contemplated by this Agreement.

**Section 4.7. STATUTORY CHANGES AFFECTING MAINTENANCE & OPERATION REVENUE.**

Notwithstanding any other provision in this Agreement, in the event that, by virtue of statutory changes to the Applicable School Finance Law, administrative interpretations by the Comptroller, Commissioner of Education, or the Texas Education Agency, or for any other reason attributable to statutory change, the District will receive less Maintenance and Operations Revenue, or, if applicable, will be required to increase its payment of funds to the State, because of its participation in this Agreement, the Applicant shall make payments to the District that are necessary to fully reimburse and hold the District harmless from any actual negative impact on the District's Maintenance and Operation Revenue as a result of its participation in this Agreement. Such calculation shall take into account any adjustments to the amount calculated for the current fiscal year that should be made in order to reflect the actual impact on the District. Such payment shall be made no later than thirty (30) days following notice from the District of such determination and calculation. The District shall use reasonable efforts to mitigate the economic effects of any such statutory change or administrative interpretation, and if the Applicant disagrees with any calculation or determination by the District of any adverse impact described in this Article IV, the Applicant shall have the right to appeal such calculation or determination in accordance with the procedures set forth in Section 4.9.

**Section 4.8. PAYMENT BY APPLICANT.**

Subject to Section 4.9 below, the Applicant shall pay any amount determined by the Third Party to be due and owing to the District under this Agreement on or before the January 31 of the year next following the tax levy for each year for which this Agreement is effective. Subject to the limitation set forth in this Section 4.8 below, by such date, the Applicant shall also pay any amount billed by the Third Party for all calculations under this Agreement under Section 4.4, above, plus any reasonable and necessary legal expenses paid by the District to its attorneys, auditors, or financial consultants for the preparation and filing of any financial reports, disclosures, or other reimbursement applications filed with or sent to the State of Texas, for any audits conducted by the State Auditor's Office, or for other legal expenses which are, or may be required under the terms of, or because of, the execution of this Agreement. The Applicant shall only be responsible for the payment of an aggregate amount of fees and expenses under this Section 4.8 not to exceed Fifteen Thousand Dollars (\$15,000.00).

**Section 4.9. RESOLUTION OF DISPUTES.**

Should the Applicant disagree with the Third Party calculations made pursuant to this Article IV of this Agreement, the Applicant may appeal the findings, in writing, to the Third Party within thirty (30) days following the later of (i) receipt of the certification, or (ii) the date the Applicant is granted access to the books, records, and other information in accordance with Section 4.4 for purposes of auditing or reviewing the information in connection with the certification. Within thirty (30) days of receipt of the Applicant's

appeal, the Third Party will issue, in writing, a final determination of the calculations. Thereafter, the Applicant may appeal the final determination of the certification containing the calculations to the District's Board of Trustees within thirty (30) days after receipt of the final determination of the calculations. Any appeal by the Applicant of the final determination of calculations shall in no way limit Applicant's other rights and remedies available hereunder, at law or in equity.

#### **Section 4.10. PAYMENT LIMITATION; AGGREGATE LIMIT**

In the event for any Tax Year during the Limitation Period of this Agreement the calculation of the Cumulative Payments result in the Applicant's Net Tax Benefit for that Tax Year to be zero or less, the Cumulative Payments owed for that year shall be limited to the Applicant's any positive Net Tax Benefit for that Tax Year. Amounts otherwise due and owing by the Applicant to the District which, by virtue of this payment limitation, are not paid in that Tax Year shall be carried forward from year to year into subsequent Tax Years until paid in full, except that any amounts that remain unpaid as of the Final Termination Date shall not be owed, and Applicant's obligation to pay such amounts shall be canceled.

The Applicant shall not be responsible to the District or to any other person or persons in any form for the payment or transfer of money or any other thing of value in recognition of, anticipation of, or consideration for this Agreement for limitation on appraised value made pursuant to Chapter 313 of the TEXAS TAX CODE, unless it is explicitly set forth in this Agreement. Upon payment of such liquidated damages, the Applicant's obligations under this Agreement shall be deemed fully satisfied, and such payment shall constitute the District's sole remedy.

D. In the event that the District determines that the Applicant has committed a Material Breach identified in Section 9.1, after the notice and mediation periods provided by Sections 9.2 and 9.3, then the District may, in addition to the payment of liquidated damages required pursuant to Section 9.4.C, terminate this Agreement.

E. In determining the amount of penalty or interest, or both, due in the event of a breach of this Agreement, the District shall first determine the base amount of recaptured taxes less all credits under Section 9.4.C owed for each Tax Year during the Tax Limitation Period. The District shall calculate penalty or interest for each Tax Year during the Tax Limitation Period in accordance with the methodology set forth in Chapter 33 of the TEXAS TAX CODE, as if the base amount calculated for such Tax Year less all credits under Section 9.4.C had become due and payable on February 1 of the calendar year following such Tax Year. Penalties on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(a) of the TEXAS TAX CODE, or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(c) of

the TEXAS TAX CODE, or its successor statute.

**Section 9.5. LIMITATION OF OTHER DAMAGES.** Notwithstanding anything contained in this Agreement to the contrary, in the event of default or breach of this Agreement by the Applicant, the District's damages for such a default shall under no circumstances exceed the amounts calculated under Section 9.4. In addition, the District's sole right of equitable relief under this Agreement shall be its right to terminate this Agreement. The Parties further agree that the limitation of damages and remedies set forth in this Section 9.5 shall be the sole and exclusive remedies available to the District, whether at law or under principles of equity.

**Section 9.6. STATUTORY PENALTY FOR INADEQUATE QUALIFIED INVESTMENT.** Pursuant to Section 313.0275 of the TEXAS TAX CODE, in the event that the Applicant fails to make \$30,000,000 of Qualified Investment, in whole or in part, during the Qualifying Time Period, the Applicant is liable to the State for a penalty. The amount of the penalty is the amount determined by: (i) multiplying the maintenance and operations tax rate of the school district for that tax year that the penalty is due by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the Tax Year the penalty is due. This penalty shall be paid on or before February 1 of the year following the expiration of the Qualifying Time Period and is subject to the delinquent penalty provisions of Section 33.01 of the TEXAS TAX CODE. The Comptroller may grant a waiver of this penalty in the event of Force Majeure which prevents compliance with this provision.

**Section 9.7. REMEDY FOR FAILURE TO CREATE AND MAINTAIN REQUIRED NEW QUALIFYING JOBS**  
Pursuant to Section 313.0276 of the TEXAS TAX CODE, for any full Tax Year that commences after the project has become operational, in the event that it has been determined that the Applicant has failed to meet the job creation or retention requirements defined in Sections 9.1.C, the Applicant shall not be deemed to be in Material Breach of this Agreement until such time as the Comptroller has made a determination to rescind this Agreement under Section 313.0276 of TEXAS TAX CODE, and that determination is final.

**Section 9.8. REMEDY FOR FAILURE TO CREATE AND MAINTAIN COMMITTED NEW QUALIFYING JOBS**

A. In the event that the Applicant fails to create and maintain the number of New Qualifying Jobs specified in Schedule C of the Application, an event constituting a Material Breach as defined in Section 9.1.D, the Applicant and the District may elect to remedy the Material Breach through a penalty payment.

B. Following the notice and mediation periods provided by Sections 9.2 and 9.3, the District may request the Applicant to make a payment to the State in an amount equal to: (i) multiplying the maintenance and operations tax rate of the school district for that Tax Year that the Material Breach occurs by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the market value of the property identified on the Appraisal District's records for each tax year the Material Breach occurs.

C. In the event that there is no tax limitation in place for the tax year that the Material Breach occurs, the payment to the State shall be in an amount equal to: (i) multiplying the maintenance and operations tax rate of the School District for each tax year that the Material Breach occurs by (ii) the amount obtained after subtracting (a) the tax limitation amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the last Tax Year for which the Applicant received a tax limitation.

D. The penalty shall be paid no later than 30 days after the notice of breach and is subject to the delinquent penalty provisions of Section 33.01 of the TEXAS TAX CODE.

### **Section 10.3. ASSIGNMENT.**

A. Any assignment of any rights, benefits, obligations, or interests of the Parties in this Agreement, other than a collateral assignment purely for the benefit of creditors of the project, is considered an amendment to the Agreement and such Party may only assign such rights, benefits, obligations, or interests of this Agreement after complying with the provisions of Section 10.2 regarding amendments to the Agreement. Other than a collateral assignment to a creditor, this Agreement may only be assigned to an entity that is eligible to apply for and execute an agreement for limitation on appraised value pursuant to the provisions of Chapter 313 of the TEXAS TAX CODE and the Comptroller's Rules.

B. In the event of a merger or consolidation of the District with another school district or other governmental authority, this Agreement shall be binding on the successor school district or other governmental authority.

Upon such determination that any term or other provision is invalid, illegal, or incapable of being enforced, the Parties hereto shall negotiate in good faith to modify this Agreement in an acceptable manner so as to effect the original intent of the Parties as closely as possible so that the transactions contemplated hereby are fulfilled to the extent possible. WHEREAS, the Property Redevelopment and Tax Abatement Act, as amended (TEXAS TAX CODE § 312.0025) permits a school district to designate a reinvestment zone if that designation is reasonably likely to contribute to the expansion of primary employment in the reinvestment zone, or attract major investment in the reinvestment zone that would be a benefit to property in the reinvestment zone and to the school district and contribute to the economic development of the region of the state in which the school district is located; and,

WHEREAS, the Snyder Independent School District (the “District”) desires to promote the development of primary employment and to attract major investment in the District and contribute to the economic development of the region in which the school district is located; and,

WHEREAS, on November 12, 2020, the District’s Board of Trustees held a public hearing regarding the property proposed to be designated as the reinvestment zone, described in the attached Exhibits A and B; and,

WHEREAS, at such public hearing all interested members of the public were given an opportunity to appear and speak for or against the designation of the reinvestment zone and whether all or part of the territory described should be included in the proposed reinvestment zone, and approval of an Agreement for Value Limitation on Appraised Value of Qualified Property for School District Maintenance and Operations Taxes, as authorized by Chapter 313 of the TEXAS TAX CODE with Coyote Wind, LLC (Texas Taxpayer I.D.
