Hubbard Independent School District
1803 NW 4th St,
Hubbard, Texas 76648

Re: Certificate for Limitation on Appraised Value of Property for School District
Maintenance and Operations taxes by and between Hubbard Independent School
District and Hubbard Wind, LLC, Application 1456

Dear Superintendent Norman:

On May 27, 2020, the Comptroller issued written notice that Hubbard Wind, LLC (applicant) submitted a completed application (Application 1456) for a limitation on appraised value under the provisions of Tax Code Chapter 313.¹ This application was originally submitted on December 11, 2019, to the Hubbard Independent School District (school district) by the applicant.

This presents the results of the Comptroller's review of the application and determinations required:

- 1) under Section 313.025(h) to determine if the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C; and
- 2) under Section 313.025(d), to issue a certificate for a limitation on appraised value of the property and provide the certificate to the governing body of the school district or provide the governing body a written explanation of the Comptroller's decision not to issue a certificate, using the criteria set out in Section 313.026.

Determination required by 313.025(h)

Sec. 313.024(a)	Applicant is subject to tax imposed by Chapter 171.
Sec. 313.024(b)	Applicant is proposing to use the property for an eligible project.

¹ All Statutory references are to the Texas Tax Code, unless otherwise noted.

Sec. 313.024(d) Applicant has requested a waiver to create the required number of new qualifying jobs and pay all jobs created that are not qualifying jobs a wage that exceeds the county average weekly wage for all jobs in the county where the jobs are located.

Sec. 313.024(d-2) Not applicable to Application 1456.

Based on the information provided by the applicant, the Comptroller has determined that the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C.

Certificate decision required by 313.025(d)

Determination required by 313.026(c)(1)

The Comptroller has determined that the project proposed by the applicant is reasonably likely to generate tax revenue in an amount sufficient to offset the school district's maintenance and operations *ad valorem tax* revenue lost as a result of the agreement before the 25th anniversary of the beginning of the limitation period, see Attachment B.

Determination required by 313.026(c)(2)

The Comptroller has determined that the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state, see Attachment C.

Based on these determinations, the Comptroller issues a certificate for a limitation on appraised value. This certificate is contingent on the school district's receipt and acceptance of the Texas Education Agency's determination per 313.025(b-1).

The Comptroller's review of the application assumes the accuracy and completeness of the statements in the application. If the application is approved by the school district, the applicant shall perform according to the provisions of the Texas Economic Development Act Agreement (Form 50-826) executed with the school district. The school district shall comply with and enforce the stipulations, provisions, terms, and conditions of the agreement, applicable Texas Administrative Code and Chapter 313, per TAC 9.1054(i)(3).

This certificate is no longer valid if the application is modified, the information presented in the application changes, or the limitation agreement does not conform to the application. Additionally, this certificate is contingent on the school district approving and executing the agreement by December 31, 2020.

Note that any building or improvement existing as of the application review start date of May 27, 2020, or any tangible personal property placed in service prior to that date may not become "Qualified Property" as defined by 313.021(2) and the Texas Administrative Code.

Should you have any questions, please contact Will Counihan, Director, Data Analysis & Transparency, by email at will.counihan@cpa.texas.gov or by phone toll-free at 1-800-531-5441, ext. 6-0758, or at 512-936-0758.

Sincerely,

DocuSigned by:

Attachment A – Economic Impact Analysis

The following tables summarize the Comptroller’s economic impact analysis of Hubbard Wind, LLC (project) applying to Hubbard Independent School District (district), as required by Tax Code, 313.026 and Texas Administrative Code 9.1055(d)(2).

Table 1 is a summary of investment, employment and tax impact of Hubbard Wind, LLC.

Applicant	Hubbard Wind, LLC
Tax Code, 313.024 Eligibility Category	Renewable Energy Electric Generation
School District	Hubbard ISD
2018-2019 Average Daily Attendance	84
County	Limestone & Hill
Proposed Total Investment in District	\$58,112,435
Proposed Qualified Investment	\$58,112,435
Limitation Amount	\$20,000,000
Qualifying Time Period (Full Years)	2021-2022
Number of new qualifying jobs committed to by applicant	2*
Number of new non-qualifying jobs estimated by applicant	0
Average weekly wage of qualifying jobs committed to by applicant	\$999
Minimum weekly wage required for each qualifying job by Tax Code, 313.021(5)(B)	\$999
Minimum annual wage committed to by applicant for qualified jobs	\$51,970
Minimum weekly wage required for non-qualifying jobs	\$822
Minimum annual wage required for non-qualifying jobs	\$42,731
Investment per Qualifying Job	\$29,056,218
Estimated M&O levy without any limit (15 years)	\$5,495,984
Estimated M&O levy with Limitation (15 years)	\$3,067,381
Estimated gross M&O tax benefit (15 years)	\$2,428,602

* Applicant is requesting district to waive requirement to create minimum number of qualifying jobs pursuant to Tax Code, 313.025 (f-1).

Table 2 is the estimated statewide economic impact of Hubbard Wind, LLC (modeled).

Year	Employment			Personal Income		
	Direct	Indirect + Induced	Total	Direct	Indirect + Induced	Total

Attachment B – Tax Revenue before 25th Anniversary of Limitation Start

This represents the Comptroller's determination that Hubbard Wind, LLC (project) is reasonably likely to generate, before the 25th anniversary of the beginning of the limitation period, tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement. This evaluation is based on an analysis of the estimated M&O portion of the school district property tax levy directly related to this project, using estimated taxable values provided in the application.

Attachment C – Limitation as a Determining Factor

Tax Code 313.026 states that the Comptroller may not issue a certificate for a limitation on appraised value under this chapter for property described in an application unless the comptroller determines that “the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state.” This represents the basis for the Comptroller’s determination.

Methodology

Texas Administrative Code 9.1055(d) states the Comptroller shall review any information available to the Comptroller including:

- the application, including the responses to the questions in Section 8 (Limitation as a Determining Factor);
- public documents or statements by the applicant concerning business operations or site location issues or in which the applicant is a subject;
- statements by officials of the applicant, public documents or statements by governmental or industry officials concerning business operations or site location issues;
- existing investment and operations at or near the site or in the state that may impact the proposed project;
- announced real estate transactions, utility records, permit requests, industry publications or other sources that may provide information helpful in making the determination; and
- market information, raw materials or other production inputs, availability, existing facility locations, committed incentives, infrastructure issues, utility issues, location of buyers, nature of market, supply chains, other known sites under consideration.

Determination

The Comptroller **has determined** that the limitation on appraised value is a determining factor in the Hubbard Wind, LLC’s decision to invest capital and construct the project in this state. This is based on information available, including information provided by the applicant. Specifically, the comptroller notes the following:

- Per Hubbard Wind, LLC in Tab 5 of their Application for a Limitation on Appraised Value:
 - A. “The decision to allocate investment in Texas for Hubbard Wind, LLC is solely based on a 313 value limitation agreement. In the event a 313 value limitation agreement is not granted, the capital for this project would likely be reallocated for the development of a facility within another state where economic incentives could be secured.”
 - B. “The state of Texas has a particularly high property tax burden—ranking in the top 10 across the United States. This factor is problematic for energy developers as property tax liability composes a substantial ongoing cost of operation that directly impacts the economic rate of return on the investment. Without a Chapter 313 agreement, the economic viability of developing an energy facility within Texas becomes uncertain as the rate of return often fails to exceed the minimum required to proceed with the investment. Thus, in the event a Chapter 313 is not granted for Hubbard Wind, LLC it is unlikely the facility will be developed and the investment for this project will be redirected to development in states where there is a lower property tax burden and economic incentives can be secured. Thus, the securance of a Chapter 313 Value Limitation Agreement is the determining factor in the development of Hubbard Wind, LLC.”
- Comptroller Research
 - A. Per the NextEra Energy public Website for the Hubbard Wind Project, the Project is proposed to be located in Limestone and Hill County. It will have the capacity of approximately 300 megawatts of renewable energy.
 - B. Lonestar reported that “the proposed 345 kV transmission line will cross portions of Hill County from Lone Star’s Sam Switch Station located off of Hill County Road 3165 to Hubbard Wind’s collection station that will be located just west of Mount Calm off of State Highway 31.”
 - C. The qualified property for Hubbard Wind, LLC located in Axtell ISD (Application #1454) is placed adjacent to the qualified property of Hubbard Wind, LLC located in Coolidge ISD (Application

#1455) and adjacent to the qualified property of Hubbard Wind, LLC located in Hubbard ISD (Application #1456) and adjacent to the qualified property of Hubbard Wind, LLC located in Mount Calm ISD (Application #1457). Construction for App #1454, App #1455, App #1456 & App #1457 is anticipated to begin in 2021. (Proximity Map provided)

- Provided by Applicant
 - A. Hubbard Wind, LLC is also known as Aquilla Lake Wind.
 - B. The project applied for ERCOT and the IGNR numbers are 19INR0145 & 20INR0256, both were assigned on 7/18/2018.
 - C. "The proposed site selected for Hubbard Wind, LLC that is featured on NextEra Energy's website is to provide interested parties, namely potential investors, with information regarding projects currently in the development phase under NextEra Energy. The availability of this information is not a commitment that Hubbard Wind, LLC will be developed in Hubbard ISD, but rather a statement that NextEra Energy has secured a site for future development, under the circumstances that the conditions and agreements necessary for the physical development of the project are obtained."
 - D. The only interconnections between App 1454 (Axtell ISD), App 1455 (Coolidge ISD), App 1456 (Hubbard ISD), and App 1457 (Mount Calm ISD) is the transmission line which originates in Mt. Calm and heads north through Penelope ISD, where we have not applied for a limitation agreement.

Data Analysis and
Transparency
Form 50-296-A

SECTION 6: Eligibility Under Tax Code Chapter 313.024

1. Are you an entity subject to the tax under Tax Code, Chapter 171? ☒ Yes ☐ No
2. The property will be used for one of the following activities:
 - (1) manufacturing ☐ Yes ☒ No
 - (2) research and development ☐ Yes ☒ No
 - (3) a clean coal project, as defined by Section 5.001, Water Code ☐ Yes ☒ No
 - (4) an advanced clean energy project, as defined by Section 382.003, Health and Safety Code ☐ Yes ☒ No
 - (5) renewable energy electric generation ☒ Yes ☐ No
 - (6) electric power generation using integrated gasification combined cycle technology ☐ Yes ☒ No
 - (7) nuclear electric power generation ☐ Yes ☒ No
 - (8) a computer center that is used as an integral part or as a necessary auxiliary part for the activity conducted by applicant in one or more activities described by Subdivisions (1) through (7) ☐ Yes ☒ No
 - (9) a Texas Priority Project, as defined by 313.024(e)(7) and TAC 9.1051 ☐ Yes ☒ No
3. Are you requesting that any of the land be classified as qualified investment? ☐ Yes ☒ No
4. Will any of the proposed qualified investment be leased under a capitalized lease? ☐ Yes ☒ No
5. Will any of the proposed qualified investment be leased under an operating lease? ☐ Yes ☒ No
6. Are you including property that is owned by a person other than the applicant? ☐ Yes ☒ No
7. Will any property be pooled or proposed to be pooled with property owned by the applicant in determining the amount of your qualified investment? ☐ Yes ☒ No

SECTION 7: Project Description

1. In **Tab 4**, attach a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.
2. Check the project characteristics that apply to the proposed project:

☒ Land has no existing improvements

☐ Land has existing improvements (*complete Section 13*)

☐ Expansion of existing operation on the land (*complete Section 13*)

☐ Relocation within Texas

SECTION 8: Limitation as Determining Factor

1. Does the applicant currently own the land on which the proposed project will occur? ☐ Yes ☒ No
2. Has the applicant entered into any agreements, contracts or letters of intent related to the proposed project? ☐ Yes ☒ No
3. Does the applicant have current business activities at the location where the proposed project will occur? ☐ Yes ☒ No
4. Has the applicant made public statements in SEC filings or other documents regarding its intentions regarding the proposed project location? ☒ Yes ☐ No
5. Has the applicant received any local or state permits for activities on the proposed project site? ☐ Yes ☒ No
6. Has the applicant received commitments for state or local incentives for activities at the proposed project site? ☐ Yes ☒ No
7. Is the applicant evaluating other locations not in Texas for the proposed project? ☒ Yes ☐ No
8. Has the applicant provided capital investment or return on investment information for the proposed project in comparison with other alternative investment opportunities? ☐ Yes ☒ No
9. Has the applicant provided information related to the applicant's inputs, transportation and markets for the proposed project? ☐ Yes ☒ No
10. Are you submitting information to assist in the determination as to whether the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in Texas? ☒ Yes ☐ No

Chapter 313.026(e) states "the applicant may submit information to the Comptroller that would provide a basis for an affirmative determination under Subsection (c)(2)." If you answered "yes" to any of the questions in Section 8, attach supporting information in Tab 5.

Limitation on Appraised Value

Tab 5

Limitation as a Determining Factor

As the world's largest generator of renewable wind energy, NextEra Energy Resources, LLC has a vast footprint. Their current portfolio consists of 119 wind projects, spanning across the United States and Canada. NextEra Energy Resources, LLC has the capability to locate investment for wind energy facilities across several different states including Oklahoma, Colorado, Iowa, North Dakota, South Dakota, California, and others.

The decision to allocate investment in Texas for Hubbard Wind, LLC is solely based on a 313 value limitation agreement. In the event a 313 value limitation agreement is not granted, the capital for this project would likely be reallocated for the development of a facility within another state where economic incentives could be secured.

NextEra Energy Resources, LLC is constantly evaluating various locations for development and substantial long-term investment based on anticipated economic rate of return. The benefits provided by a Chapter 313 agreement are one of the most important components in their analysis to locate development within Texas.

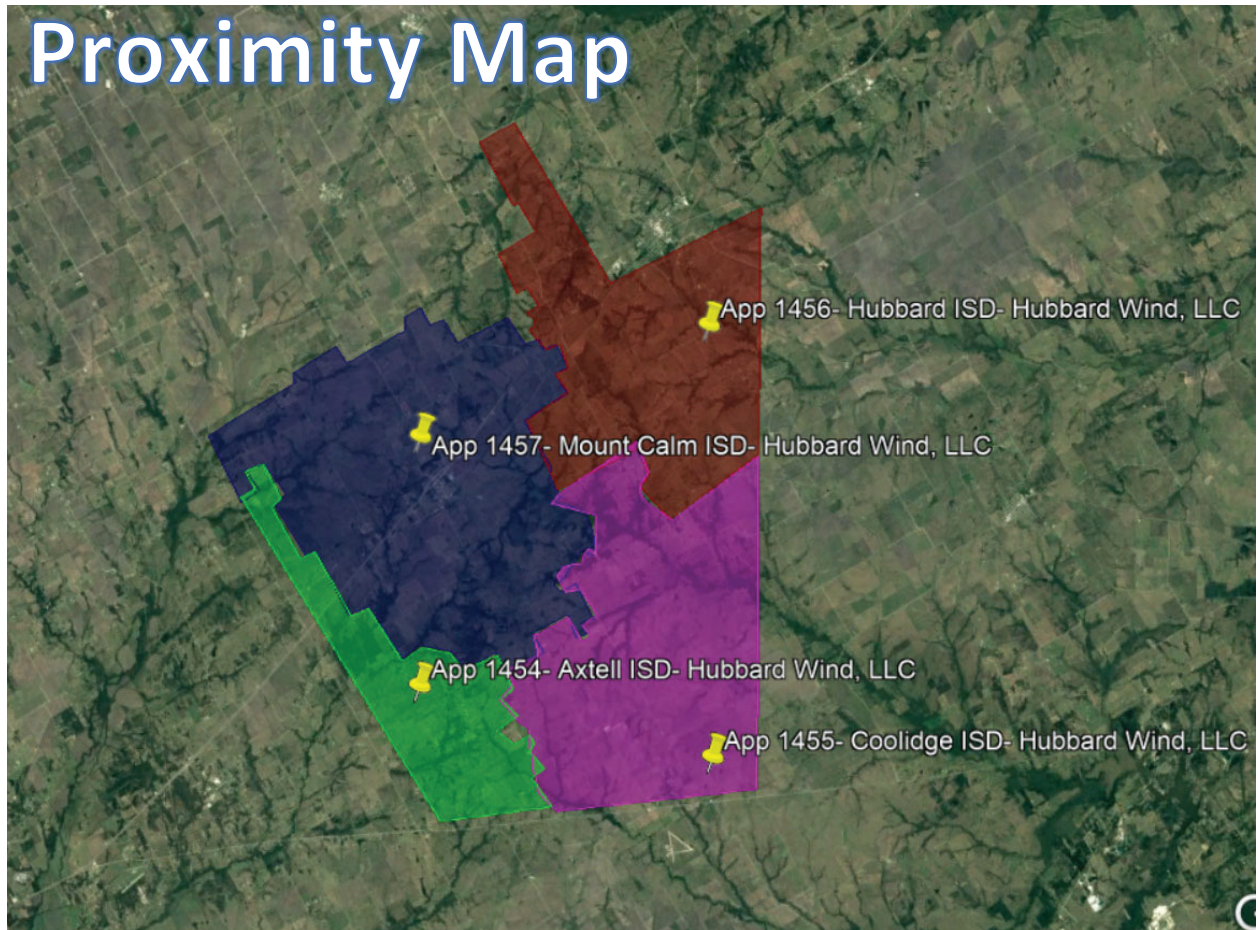

The state of Texas has a particularly high property tax burden—ranking in the top 10 across the United States. This factor is problematic for energy developers as property tax liability composes a substantial ongoing cost of operation that directly impacts the economic rate of return on the investment. Without a Chapter 313 agreement, the economic viability of developing an energy facility within Texas becomes uncertain as the rate of return often fails to exceed the minimum required to proceed with the investment. Thus, in the event a Chapter 313 is not granted for Hubbard Wind, LLC it is unlikely the facility will be developed and the investment for this project will be redirected to development in states where there is a lower property tax burden and economic incentives can be secured. Thus, the securance of a Chapter 313 Value Limitation Agreement is the determining factor in the development of Hubbard Wind, LLC.

COMPTROLLER QUERY RELATED TO TAX CODE CHAPTER 313.026(c)(2)
– Hubbard ISD– Hubbard Wind, LLC App. #1456

Comptroller Questions (via email on June 29, 2020):

1. Is Hubbard Wind, LLC currently known by any other project names?
2. Please also list any other names by which this project may have been known in the past--in media reports, investor presentations, or any listings with any federal or state agency.
3. Has this project applied to ERCOT at this time? If so, please provide the project's IGNR number and when was it assigned.
4. Will there be any interconnections between App 1454 (Axtell ISD), App 1455 (Coolidge ISD), App 1456 (Hubbard ISD), and App 1457 (Mount Calm ISD)? i.e. will they share any qualified property like transmission lines

Comptroller Questions (via email on July 9, 2020):

1. Please address the Project's website (<https://www.nexteraenergyresources.com/hubbard-wind.html>)? i.e. what was the purpose for the creation of the website

Applicant Response (via email on June 29, 2020):

1. Yes, Aquilla Lake Wind under the ERCOT interconnection procedures.
2. No.
3. Yes; 19INR0145 (7/18/2018), 20INR0256 (7/18/2018)
4. The transmission line for the project originates in Mt. Calm and heads north through Penelope ISD, where we have not applied for a limitation agreement.

Applicant Response (via email on July 10, 2020):

1. Letter dated July 10th provided by Nextera Energy addresses the Project's website.

July 10, 2020
Texas Comptroller of Public Accounts
ATT: Ms. Tabita Collazo

Austin, Texas 78774

**RE: Application #1456 Hubbard ISD Hubbard Wind, LLC Information Request
Regarding Public Statements on Hubbard Wind, LLC**

Ms. Collazo:

The proposed site selected for Hubbard Wind, LLC that is featured on NextEra Energy's website is to provide interested parties, namely potential investors, with information regarding projects currently in the development phase under NextEra Energy. The availability of this information is not a commitment that Hubbard Wind, LLC will be developed in Hubbard ISD, but rather a statement that NextEra Energy has secured a site for future development, under the circumstances that the conditions and agreements necessary for the physical development of the project are obtained.

The development of renewable energy facilities is a multi-step process that occurs over several years, requiring a series of actions before any physical development begins. One of the first steps in the development phase is site selection. It is not until after a site is selected, that developers can proceed with other fundamental actions such as permitting, environmental studies, site design, and financial contracts i.e. power purchase agreements. Without the selection of a site, it is impossible to proceed with the other necessary actions that transition a renewable energy project into an operational facility. During the development phase, many of these steps simultaneously occur, such as permitting and power purchase agreements. For example, if the necessary permits cannot be obtained or a power purchase agreement cannot be executed, the development of a project at a certain site will cease.

In the case of economic incentives, such as the Chapter 313 Value Limitation Agreement, securing these agreements is one of the last fundamental steps in the development phase. Whereas, like any other action that must take place in this phase, if a value limitation agreement cannot be secured for a given project, the developer would likely not be able to secure the financing to build and operate the project. Therefore, it would be necessary for the developer to start the process over at another potential site where they could obtain the permits, access to power markets, and all the economic incentives needed for a project to be financially viable.

If you have any further questions, please contact me.

Sincerely,
Reid Schupp

HUBBARD WIND

About the Project

Hubbard Wind is an innovative wind project proposed for Limestone and Hill County in Texas that will have a capacity of approximately 300 megawatts of clean, renewable energy. The Hubbard Wind project is more than wind turbines - it represents a significant capital investment in Texas. Once operational, it will create good-paying jobs and provide millions in additional revenue for landowners and the local community.

It is a subsidiary of NextEra Energy Resources (<https://www.nexteraenergyresources.com/>), LLC, the world's largest generator of renewable energy from the wind and the sun.

WE WANT YOUR INPUT

Lone Star hosted an online public meeting on June 11th at 7 p.m. Information presented at the meeting and detailed maps of the proposed route can be found here:

View Public Meeting Presentation > (/pdf/SamSwitch-HubbardWindTransmissionLineProject_Public%20Meeting_Secured.pdf)

View Presentation maps > (/pdf/SamSwitch-HubbardWindTransmissionLineProject_Public%20Meeting-Maps_Secured.pdf)

Public meetings are a means for Lone Star to provide the public with information about the transmission line project and to gather feedback from affected landowners, area residents, and businesses.

Lone Star encourages landowners crossed by the transmission line and other stakeholders to contact us before or after the public meeting to discuss how the proposed project may affect them. If you are unable to attend the public meeting, feel free to contact us directly to learn more about the project.

Contact Us > (</sam-switch-to-hubbard-wind/contact.html>)

The proposed 345 kV transmission line will cross portions of Hill County from Lone Star's Sam Switch Station located off of Hill County Road 3165 to Hubbard Wind's collection station that will be located just west of Mount Calm off of State Highway 31. The route identified for this project was developed in coordination with landowners that will be crossed by the transmission line. Additionally, the proposed transmission line route considered routing criteria established by the Public Utility Commission of Texas (PUCT).
