

Tulsita Solar, LLC
Chapter 313 Application to Goliad ISD

CHECKLIST ITEM #8

Description of Qualified Property

The Applicant anticipates constructing a solar photovoltaic electric generating facility with an operating capacity of approximately 274 MW and will cover a surface area of approximately 2000 acres. The exact capacity and specific technology components will be determined during the development and design process. The facility may include the following improvements:

- Solar modules/panels
- Metal mounting system with tracking capabilities
- Underground conduit, communications cables, and electric collection system wiring
- Combiner boxes
- A project substation including breakers, a transformer and meters
- Overhead transmission lines
- Inverter boxes on concrete pads
- Operations and maintenance facility
- Fencing for safety and security
- Telephone and internet communications system
- Meteorological equipment to measure solar irradiation and weather conditions

The Project site facilities are proposed for location in Goliad County and Goliad ISD, and the Applicant estimates that 100% will be located in Goliad County and Goliad ISD and will be considered qualified property for this application.
