Application

See attached.

Application for Appraised Value Limitation on Qualified Property (Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- · provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34
 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

5	ECTION 12: Qualified Property
1.	Attach a detailed description of the qualified property. [See §313.021(2)] (If qualified investment describes qualified property exactly, you may skip items a, b and c below.) The description must include: 1a. a specific and detailed description of the qualified property for which you are requesting an appraised value limitation as defined by Tax Code §313.021 (Tab 8); 1b. a description of any new buildings, proposed new improvements or personal property which you intend to include as part of your qualified property (Tab 8); and 1c. a map of the qualified property showing location of new buildings or new improvements with vicinity map (Tab 11).
2.	Is the land upon which the new buildings or new improvements will be built part of the qualified property described by §313.021(2)(A)?
3.	Is the land on which you propose new construction or new improvements currently located in an area designated as a reinvestment zone under Tax Code Chapter 311 or 312 or as an enterprise zone under Government Code Chapter 2303?

SECTION 13: Information on Property Not Eligible to Become Qualified Property

- 1. In Tab 10, attach a specific and detailed description of all existing property. This includes buildings and improvements existing as of the application review start date (the date the application is determined to be complete by the Comptroller). The description must provide sufficient detail to locate all existing property on the land that will be subject to the agreement and distinguish existing property from future proposed property.
- 2. In Tab 10, attach a specific and detailed description of all proposed new property that will not become new improvements as defined by TAC 9.1051. This includes proposed property that: functionally replaces existing or demolished/removed property; is used to maintain, refurbish, renovate, modify or upgrade existing property; or is affixed to existing property; or is otherwise ineligible to become qualified property. The description must provide sufficient detail to distinguish existing property (question 1) and all proposed new property that cannot become qualified property from proposed qualified property that will be subject to the agreement (as described in Section 12 of this application).
- 3. For the property not eligible to become qualified property listed in response to questions 1 and 2 of this section, provide the following supporting information in Tab 10:
 - a. maps and/or detailed site plan;
 - b. survevs:
 - appraisal district values and parcel numbers;
 - d. inventory lists;
 - existing and proposed property lists;
 - model and serial numbers of existing property; or f.
 - other information of sufficient detail and description.
- 4. Total estimated market value of existing property (that property described in response to question 1): \$ _
- In Tab 10, include an appraisal value by the CAD of all the buildings and improvements existing as of a date within 15 days of the date the application is received by the school district.

6.	Total estimated market value of proposed property not eligible to become qualified property
	(that property described in response to question 2):

Note: Investment for the property listed in question 2 may count towards qualified investment in Column C of Schedules A-1 and A-2, if it meets the requirements of 313.021(1). Such property cannot become qualified property on Schedule B.

8.	Which Tax Code section are you using to estimate the qualifying job wage standard required for this project?										
9.	What is the minimum required annual wage for each qualifying job based on the qualified property?										
10.	What is the annual wage you are committing to pay for each of the new qualifying jobs you create on the qualified property?										
11.	Will the qualifying jobs meet all minimum requirements set out in Tax Code §313.021(3)? Yes No										
12.	Do you intend to satisfy the minimum qualifying job requirement through a determination of cumulative economic benefits to the state as provided by §313.021(3)(F)?										
	12a. If yes, attach in Tab 12 supporting documentation from the TWC, pursuant to §313.021(3)(F).										
13.	Do you intend to rely on the project being part of a single unified project, as allowed in §313.024(d-2), in meeting the qualifying job requirements?										
	13a. If yes, attach in Tab 6 supporting documentation including a list of qualifying jobs in the other school district(s).										

SECTION 15: Economic Impact

- 1. Complete and attach Schedules A1, A2, B, C, and D in **Tab 14**. Note: Excel spreadsheet versions of schedules are available for download and printing at URL listed below.
- 2. Attach an Economic Impact Analysis, if supplied by other than the Comptroller's Office, in Tab 15. (not required)
- 3. If there are any other payments made in the state or economic information that you believe should be included in the economic analysis, attach a separate schedule showing the amount for each year affected, including an explanation, in **Tab 15**.

CHECKLIST ITEM #4

Detailed Description of Project

Paris Farm Solar, LLC (Paris Farm Solar) is developing a utility scale single axis tracker photovoltaic facility designed to use solar power to generate electricity. The Project will be capable of generating approximately 200 MWac and will cover a surface lease of approximately 1,600 acres. The exact capacity and specific technology will be determined during the design process, and so the exact location of the improvements cannot be specified at this time.

If granted an Appraised Value Limitation pursuant to Texas Tax Code 313, Paris Farm Solar expects to issue a full notice to proceed for construction in Q2 of 2021 and expects to complete construction in Q4 2022.

The investment may include the following: solar modules/panels, metal mounting system with tracking capabilities, underground conduit, communications cables and electric system wiring, combiner boxes, a project substation including breakers, a transformer and meters, overhead transmission lines, inverter boxes, an operations and maintenance facility, fencing for safety and security, telephone and internet communication system, meteorological equipment to measure solar irradiation and weather conditions, and any other equipment necessary to safely operate, maintain, and transmit power to the ERCOT electrical grid.

Paris Farm Solar, LLC has applied to ERCOT under the project name of "Eiffel Solar" and has received the following IGNR number: 22INR0223. This project has been known by no other names in past media reports, investor presentations, or any other listings with any federal or state agency.

CHECKLIST ITEM #5

Documentation to assist in determining if limitation is a determining factor.

2. Has the applicant entered into any agreements, contracts or letters of intent related to the proposed project?

The Applicant for this Project has entered into a number of contracts related to the Project, including long-term lease option agreements with area landowners, contracts with environmental consultants to assess the suitability of the site, and a request for studies leading to an interconnection agreement with the transmission provider. The Project was selected as a candidate for development based on the favorable solar data, nearby access to the electric grid, and favorable tax incentives under Texas Tax Code chapters 312 and 313. Obtaining a value limitation agreement is critical to the economic and competitive viability of this Project.

None of the current Project agreements firmly commit the Applicant to the development of the Project. A number of variables remain undetermined at this stage, including the approval of this application. The Applicant could still elect to devote resources to other projects that it has in development. Without the available tax incentives, the economics of the Project become far less attractive and the likelihood of selling the electricity at a competitive price will decrease.

7. Is the applicant evaluating other locations not in Texas for the proposed project?

The Applicant is an international solar developer with the ability to locate projects of this type and other types of projects in other states within the United States and locations around the world. The Applicant is actively assessing and developing other projects that are competing for limited investment funds. The appraised value limitation is critical to the ability of the Project to move forward as currently sited. Examples of the Applicant's other project locations that are competing with the Project for funding include:

States within the US

- California
- Georgia
- Michigan
- Illinois
- Virginia

- Tennessee
- Minnesota
- Arkansas
- Mississippi

Countries outside the US

- Canada
- Mexico
- Korea

Vietnam

CHECKLIST ITEM #6

Description of how project is located in more than one district, including list of percentage in each district and, if determined to be a single unified project, documentation from the Office of the Governor (if applicable).

The project is planned to be installed in Prairiland and Chisum ISDs, with approximately 75% of the project to be located and taxed in Prairiland ISD, and the remaining 25% being located and taxed in Chisum ISD.

CHECKLIST ITEM #7

Description of Qualified Investment

The Applicant anticipates constructing a solar photovoltaic electric generating facility with an operating capacity of approximately 200 MW. Applicant estimates 75% of the project will be located in Prairiland ISD. The entire Prairiland ISD portion will be considered qualified investment for this application. The exact capacity and specific technology components will be determined during the development and design process. The facility may include the following improvements:

- · Solar modules/panels
- Metal mounting system with tracking capabilities
- · Underground conduit, communications cables, and electric collection system wiring
- · Combiner boxes
- · A project substation including breakers, a transformer and meters
- · Overhead transmission lines
- · Inverter boxes on concrete pads
- · Operations and maintenance facility
- · Fencing for safety and security
- · Telephone and internet communications system
- · Meteorological equipment to measure solar irradiation and weather conditions

Re: Chapter 313 Job Waiver Request

Dear Mr. Ballard:

Please consider this letter to be Paris Farm Solar, LLC's formal request to waive the minimum new job creation requirement, as provided under Texas Tax Code 313.025(f-1).

The governing body of a school district may waive the new jobs creation requirement in Section 313.021(2)(A)(iv)(b) or 313.051(b) and approve an application if the governing body makes a finding that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property that is described in this application. Solar energy projects create a large number of full-time jobs during the construction phase, but these jobs are temporary by nature. Once the project is in operation, a small crew of full-time employees will maintain and operate the facility. Based upon our experience in the solar industry, we expect that one (1) employee would be needed to operate a 200 MW facility, and we can commit to creating one (1) full-time position to fill those needs. The newly created position will be a qualifying job as described in Section 313.021(3) of the Texas Tax Code.

The applicant requests that the Prairiland ISD's Board of Trustees make such a finding and waive the job creation requirement. This waiver request is in line with the industry standards for the job requirements for a solar facility of this size, as evidenced by limitation agreement applications that have been filed by other solar developers, and by documentation related to the development and operation of solar generation facilities.

The project stands to provide significant benefits to the community with respect to increased tax base and the ongoing royalty payments it will make to local landowners.

Yours sincerely,

Jong-Hu Manager
