Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller, as indicated on page 9 of this application, separating each section of the documents in addition to an electronic copy. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, and has determined that all assertions of confidentiality are appropriate, the Comptroller will publish all submitted non-confidential application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller’s website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller’s rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller’s website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Detailed Description of the Project

Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

Mockingbird Solar Center, LLC (aka Mockingbird Solar Center) is requesting a Chapter 313 Appraised Value Limitation Agreement from North Lamar ISD for a proposed solar powered electric generating facility (the "Project") to be constructed on private land in North Lamar ISD in west Lamar County, Texas. The installed capacity of the proposed project in North Lamar ISD is expected to be approximately 120 megawatts (MWac). Solar panel type and size have yet to be finalized.

Construction of the Project is expected to commence in the first quarter of 2022 and is anticipated to start commercial operations in the first quarter of 2023. Construction of the project will include the following: solar modules/panels, metal mounting system with tracking capabilities, , underground conduit, communication cables, electric collection system wiring, combiner boxes, DC-to-AC converter stations, and meters, overhead transmission lines, inverter boxes on concrete pads, fencing for safety and security, telephone and internet communication system, access and service roads, and meteorological equipment to measure solar radiation and weather conditions.

Tab Item 5

Documentation to assist in determining if limitation is a determining factor:

Mockingbird Solar Center, LLC is being developed by Orsted Onshore North America, LLC (“Orsted”), a developer, owner, and operator of solar and wind projects.

Orsted has successfully developed projects involving over \$1 billion in capital investments in some of the largest electricity markets in the United States, including California, Nebraska, New Jersey, South Dakota, and Texas.

The Applicant for this Project has entered into several contracts related to the project, including long-term lease option agreements with an area landowner and service agreements and scopes with various environmental consultants to assess the suitability of the site, and a request for studies leading to an interconnection agreement with the transmission provider. None of these contracts obligate Applicant to construct the Project, and each of these contracts may be terminated by Applicant without incurring any significant liability.

The Project applied to ERCOT on March 26th, 2020, and it has been assigned GINR number 23INR0026.

The applicant is a national solar developer with the ability to locate projects of this type in other states within the United States and other regions within Texas with favorable solar characteristics. The Applicant is actively assessing and developing other projects outside of Texas that are competing for limited investment funds. In addition to its projects in Texas, the developer is assessing or developing projects in California, Nevada, Colorado, Texas, Nebraska, Illinois, Mississippi, Michigan, Missouri, Indiana, Florida, New York, Maryland, and Virginia. The appraised value limitation is critical to the ability of the Project to move forward as currently sited.

Without the available tax incentives, the economics of the Project become far less attractive and the likelihood of selling the electricity at a competitive price will significantly decrease. The Applicant for this project is competing against other developers who have been offered or are in the process of applying for Value Limitation Agreements with other school districts. Obtaining the limitation is critical to the economic and competitive viability of this Project. Without the limitation approval, the Applicant would likely terminate the Project, including the aforementioned contracts, leases, and limited improvements, in order to reallocate resources in areas with more favorable economics.

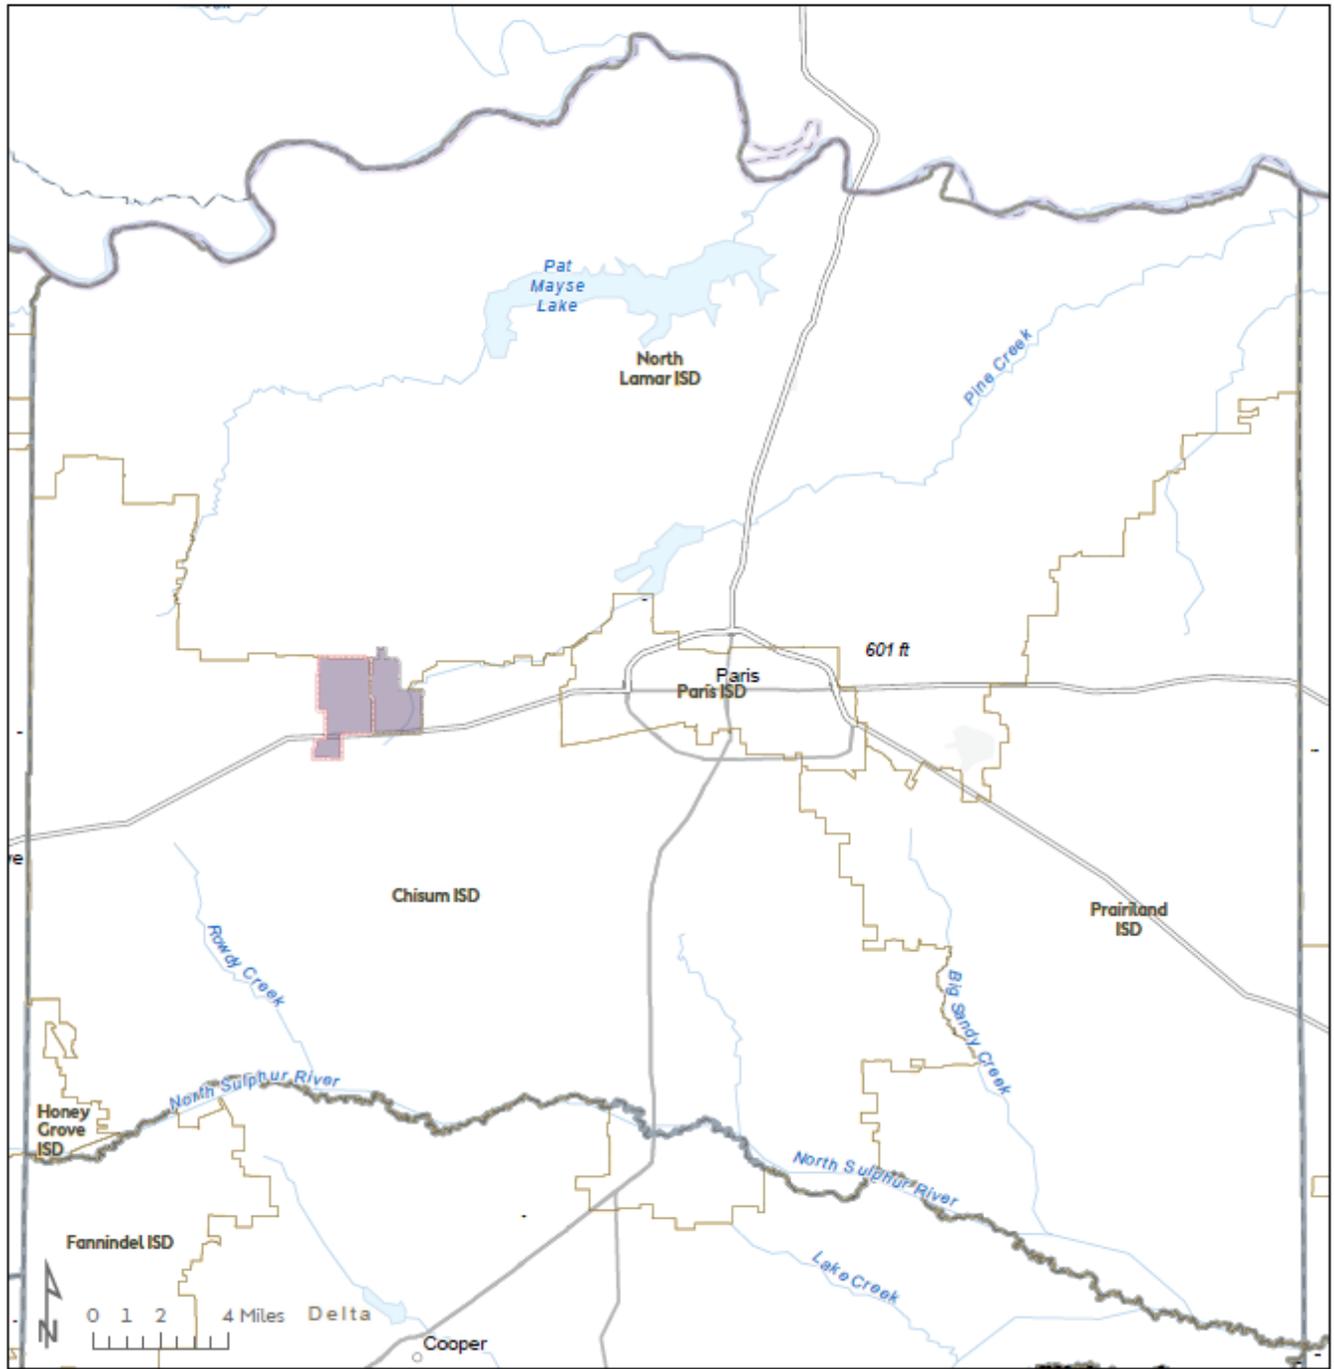

Mockingbird Solar Center has a project website available to the public. Orsted has websites for several of its development projects, and none are intended to imply that further investment of resources into the projects are a foregone conclusion. Rather, the project websites are intended as resource for the communities to find information about potential developments in their community, communicate with Orsted, and learn more about the respective project technologies.

Tab Item 6

The Mockingbird Solar Center anticipates that approximately 70% of the Project will be sited in Chisum ISD boundaries, and the remaining 30% located within North Lamar ISD, as shown in the map below. 100% of the Project will be in Lamar County, Texas.

School District	Percentage of Project	Anticipated Number of MWac
Chisum ISD	70%	280 MWac

Request For Waiver of Job Creation Requirement

See attached letter.

August 10th, 2020

Superintendent Stewart
North Lamar ISD
3130 N Main St.
Paris, TX 75460

Re: Chapter 313 Job Waiver Request

Dear Superintendent Stewart,

Please consider this letter to be Mockingbird Solar Center, LLC's formal request to waive the minimum new job creation requirement, as provided under Texas Tax Code 313.025(f-1).

The governing body of a school district may waive the new jobs creation requirement in Section 313.021(2)(A)(iv)(b) or 313.051(b) and approve an application if the governing body makes a finding that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property that is described in this application. Solar energy projects create many full-time jobs during the construction phase, but these jobs are temporary by nature. Once the project is in operation, a small crew of full-time employees will maintain and operate the facility. The industry standard is approximately 1 job per 200 MW, and based upon our experience in the solar industry, we expect that one (1) employee would be needed to operate a 120 MWac facility in North Lamar ISD, and we can commit to creating one (1) full-time position to fill those needs. All would be qualifying jobs as described in Section 313.021(3) of the Texas Tax Code.

The applicant requests that the North Lamar ISD's Board of Trustees make such a finding and waive the job creation requirement. This waiver request is in line with industry standards for the job requirements for a solar energy facility of this size, as evidenced by limitation agreement applications that have been filed by other solar energy developers, and by documentation related to the development and operation of solar energy generation facilities.

The project stands to provide significant benefits to the community with respect to increased tax base.

Kind Regards,

The Lamar County Tax Abatement Guidelines and Criteria are:

See enclosure 1: Policy Statement Criteria and Guidelines for Tax Abatement. Dated 12-11-2018

(Updated 12-11-2018)
POLICY STATEMENT
CRITERIA AND GUIDELINES FOR TAX ABATEMENT

I. General Purpose and Objectives.

The City of Paris (City), Lamar County Government (County) and Paris Junior College (PJC) (collectively, herein called the "Taxing Jurisdictions") are committed to enhancing the competitiveness and the expansion potential of the local industry; to attracting and encouraging new manufacturing industry and investment; to improving the City of Paris, Lamar County and its infrastructure, which attracts and supports development; and, to expanding the tax base, employment opportunities, and the overall quality of life for its citizens. Therefore, the governing bodies of the Taxing Jurisdictions will give consideration, on a case-by-case basis, to providing tax abatements to the owners of real and personal property for projects that stimulate economic growth and diversification in the geographic areas served by the Taxing Jurisdictions, according to state law and consistent with these policies, criteria and guidelines.

Tax abatements may be made available to industrial, manufacturing, distribution, service facilities, or any "primary jobs" creating industry as defined by the Economic Development Act of the State of Texas. The facility must be currently in, or locating in the areas served by the Taxing Jurisdictions, and located in a designated Enterprise Zone or Reinvestment Zone. New facilities and structures as well as the expansion and modernization of existing facilities and structures, will be considered. Evaluation of a tax abatement request will be based on the information provided in the tax abatement application. However, the City of Paris, Lamar County and Paris Junior College are under no obligation to provide tax abatement to any applicant.

The Paris City Council acts as the lead entity for projects located in the City limits. The Lamar County Commissioners Court acts as the lead entity for projects in Lamar County, which are located outside of the City limits. All governing bodies of the three Taxing Jurisdictions have adopted this policy, criteria and guidelines and will consider tax abatement requests that qualify hereunder.

II. Definitions.

Definitions are provided as an Appendix A.

III. Designation of a Reinvestment Zone.

For any facility located within the area served by the Taxing Jurisdictions to be eligible for tax abatement it must meet the criteria for designation as a tax abatement reinvestment zone as set forth in the Property Redevelopment and Tax Abatement Act, Texas Tax Code Chapter 312. The City or County may designate an area as a reinvestment zone in accordance with the criteria and procedural requirements set forth in the Property Redevelopment & Tax Abatement Act, as amended (Texas Tax Code Sec. 312.401 (b)).

IV. Tax Abatement Authorized.

The Taxing Jurisdictions, through their elected governing bodies, may agree in writing with the owner and/or lessee of taxable real and/or personal property that is located in a reinvestment zone, but that is not in an improvement project financed by tax increment bonds, to exempt from taxation a portion of the value of the real property, or of personal property located on the real property, or both. The period of the abatement granted under the agreement shall not exceed the term authorized by law. Such agreement will be based on the condition that the owner or

(Updated 12-11-2018)

lessee of the property makes specific improvements or repairs to the property. An agreement may provide for the exemption of the real property in each year covered by the agreement only to the extent its value for that year exceeds the base year value. An agreement may provide for the exemption of personal property located on the real property in each year covered by the agreement other than personal property that was located on the real property at any time before the period covered by the agreement. Inventory or supplies cannot be abated as personal property.

Tax abatements may only be granted for additional value of eligible property improvements made subsequent to and specified in an abatement agreement between the Taxing Jurisdictions and the property owner or lessee subject to such limitation as the Taxing Jurisdictions may require. The additional value must exceed any reduction in the fair market value of other property of the owner already on the tax roll within the area served by the Taxing Jurisdictions. Change in appraised value does not qualify for abatement except in an instance where a previously vacant authorized facility is utilized. Value added to the tax rolls must come from actual capital expenditures.

The negotiation of tax abatement agreements will be conducted by the Tax Abatement Advisory Committee, and facilitated by the Paris Economic Development Corporation. In determining where and how tax abatements will be utilized, the Tax Abatement Advisory Committee will examine the potential return on the public's investment. Return on public investment will be measured in terms of (i) jobs created, (ii) jobs retained in cases of existing employers within the Taxing Jurisdictions, and (iii) broadening of the tax base, and expansion of the economic base (e.g. capital investment, payroll, local spending, etc.)

Must be necessary because capacity cannot be provided efficiently utilizing existing improved property when reasonable allowance is made for necessary improvements or relevant governmental actions.

Capital Investment, Payroll and Job Creation Criteria

(Updated 12-11-2018)
POLICY STATEMENT
CRITERIA AND GUIDELINES FOR TAX ABATEMENT

A tax abatement may be made available to employers who are increasing new capital investment and creating jobs with respect to an authorized facility located anywhere within the area served by the Taxing Jurisdictions based on the following criteria.

1. To be eligible for any tax abatement, there must be a minimum capital investment in the authorized facility of \$1,000,000 and at least ten (10) new jobs added to the new employer's labor force.
2. Any project with a capital investment of more than twenty-five million dollars (\$25,000,000), AND accompanied by a newly created minimum annual payroll of two and one-half million dollars (\$2,500,000), OR creating more than two hundred twenty-five (225) jobs will be individually negotiated.
3. As specified in state law, no abatement will be granted for more than 10 years and the total abatement shall not exceed 100%.
4. A newly created business must be (or will be) located within an enterprise zone or a designated reinvestment zone.
5. The taxing jurisdictions recognize a significant difference in the valuation of real property versus personal property. Because of depreciation schedules, the abatement of personal property could result in a tax exemption. For this reason, the abatement schedule for personal property versus real property may be different. Each industrial account is looked at and valued on an individual basis by the Lamar County Appraisal District (LCAD). The typical depreciation used for industrial accounts by LCAD is as follows:
 - a. Computers – 3 year life
 - b. Furniture & Fixtures – 10 year life
 - c. Vehicles – 7 to 10 year life (depending on type)
 - d. Machinery & Equipment – 15 year life (maybe longer or shorter depending on the type)
6. For each abatement request the Abatement Committee will evaluate the equipment (personal property) investment and useful life separate from the real estate (real property) investment to determine the length of the abatement for each.
7. If approved by the perty should become obsolete and be replaced while under an abatement agreement, the replacement personal property is not eligible for abatement.
8. The charts below provide capital investment guidelines to qualify for tax abatement and the related schedule and percentage of abatement.

For Capital Investment (\$1M minimum investment AND 10 jobs for new employers.)

 - a. A project that creates a minimum of 10 new jobs.

4. *Year 1 cannot exceed 100%.							

VI. Tax Abatement for Existing Employers Regarding Real or Personal Property.

The Taxing Jurisdictions recognize the value of its existing employers to the wellbeing of the City and County. The Taxing Jurisdictions desire to encourage existing employers to remain in the Taxing Jurisdictions and to improve their respective businesses and industries, as well as their profitability.

Accordingly, if an existing employer (as opposed to a newly created business or industry moving into the Taxing Jurisdictions), owns or leases an authorized facility and has plans to improve such property by constructing new improvements on its real property and/or adding new personal property to its authorized facility which qualify for tax abatement under these Policies, Criteria and Guidelines, such employer may be eligible for tax abatement with respect to such improvements to its real property or its new personal property under the provisions of Article V above, even if no new jobs or newly created minimum annual payroll are created.

In projects involving existing employers, the criteria for tax abatements for improvements to real property and for new personal property at authorized facilities set forth in Article V above shall be

waived. These projects shall be individually negotiated without regard to the criteria in Article V above. However, in accordance with state law, no abatement will be granted for more than 10 years and the total abatement shall not exceed 100%.

The local taxing jurisdictions encourage existing employers to retain as many jobs and as much existing annual payroll as is economically feasible for the existing employer, while remaining competitive in its industry.

VII. Greenfield projects

In order to encourage the development of greenfield properties and also to be able to expedite certain new projects, the criteria for tax abatements for improvements to real property and for new personal property at authorized facilities set forth in Article V above shall be waived for projects exclusively involving greenfield properties and shall be individually negotiated without regard to the criteria in Article V above. However, in accordance with state law, no abatement will be granted for more than 10 years and the total abatement shall not exceed 100%.

VIII. Application Process

VIII. Abatement Agreement Terms and Conditions.

Appendix B provides many of the terms and conditions to be included in any formal tax abatement legal agreement.
