RE: (1591) Supplement One of the Application to the Danbury Independent School
District from Cottonwood Bayou Solar II, LLC

To the Local Government Assistance & Economic Analysis Division:

Attached. Please find Supplement One of the Application to the Danbury
Independent School District from Cottonwood Bayou Solar II, LLC (1591). The
following changes have been made:

1. Tab 3. Can you please provide the Texas Franchise Affiliate List? **Resolved.**
2. In Tab 4, 7 and 8 "Energy Storage System" is listed but not listed in Tab 8. For clarification, will this project have a battery? Will this battery be claimed as qualified property? If not, please state this battery is not qualified property. If it will be claimed as qualified property you will need to state that the battery will only be used for this App 1591. **Yes, this project will potentially have battery storage as part of the qualified property. The potential storage will only be used for Application #1591.**
3. Answer the following questions
 - a. Is this project known by any other names? **This project has been referred to as "Amsterdam Solar."**
 - b. Please also list any other names by which this project may have been known in the past--in media reports, investor presentations, or any listings with any federal or state agency. **This project has been referred to as "Amsterdam Solar."**

Has this project applied to ERCOT at this time? **If so, please provide the project's IGNR number and when was it assigned. Yes, this project applied to ERCOT and was assigned IGNR# 21INR0256 on 2/4/2019.**

A copy of the application will be submitted to the Brazoria County Appraisal District.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin O'Hanlon", with a stylized flourish at the end.

Kevin O'Hanlon
School District Consultant

Cottonwood Bayou Solar II, LLC

Tab 4: Detailed Description of the Project

In its entirety, Cottonwood Bayou Solar II, LLC will be a 500MW/AC solar energy generation facility that will be partially located in Danbury ISD and partially located in Angleton ISD. There will be 175MW/AC located in Danbury ISD with approximately 562,294 photovoltaic panels and 59 central inverters

Cottonwood Bayou Solar II, LLC is being developed by Brazos Renewable Energy, LLC. Brazos Renewable Energy is a joint venture managed by SunChase Power, LLC, focused on developing utility-scale solar projects. They have over 2GW of projects in development, and over 1GW of projects currently under construction or slated to be in construction before the end of the year

Please Note: This application covers all qualified property in the reinvestment zone and project boundary within Danbury ISD including the following:

- Substation
- Transmission Line
- Inverter and Transformers
- Foundations
- Roadways, Paving, & Fencing
- Posts & Racking Equipment
- Meteorological Towers & Equipment
- Mounting & Tracker Equipment
- Interconnection Facilities
- Solar Modules & Panels
- Power Conditioning Equipment
- Combiner Boxes
- Operation & Maintenance Buildings
- DC and AC collection wires, cables, and equipment
- SCADA equipment
- Energy Storage Systems*

Generation of Solar Energy:

When sunlight strikes photovoltaic panels, photons from the sun's energy are absorbed by the semiconductors that compose the photovoltaic cells in the panel. After the semiconductor absorbs enough of these photons, electrons are dislodged from the atoms. These electrons then flow to the front of the cell, creating an imbalance in charge due to their negative properties. This imbalance creates a voltage potential which in turn is collected by electrical conductors in the cell and carried to either storage batteries or circuits to provide power.

*The potential energy storage system associated with this application will be used to store energy solely generated from the qualified property related to this application.

Tab 7: Description of Qualified Investment

In its entirety, Cottonwood Bayou Solar II, LLC will be a 500MW/AC solar energy generation facility that will be partially located in Danbury ISD and partially located in Angleton ISD. There will be 175MW/AC located in Danbury ISD with approximately 562,294 photovoltaic panels and 59 central inverters.

Cottonwood Bayou Solar II, LLC requests that the limitation covers all qualified investment and qualified property located within Danbury ISD. It is our request that the limitation includes all eligible and ancillary equipment including the following:

- Substation
- Transmission Line
- Inverter and Transformers
- Foundations
- Roadways, Paving, & Fencing
- Posts & Racking Equipment
- Meteorological Towers & Equipment
- Mounting & Tracker Equipment
- Interconnection Facilities
- Solar Modules & Panels
- Power Conditioning Equipment
- Combiner Boxes
- Operation & Maintenance Buildings
- DC and AC collection wires, cables, and equipment
- SCADA equipment
- Energy Storage Systems*

Please Note: This application covers all qualified property in the reinvestment zone and project boundary within Danbury ISD.

*The potential energy storage system associated with this application will be used to store energy solely generated from the qualified property related to this application.

Tab 8: Description of Qualified Property

In its entirety, Cottonwood Bayou Solar II, LLC will be a 500MW/AC solar energy generation facility that will be partially located in Danbury ISD and partially located in Angleton ISD. There will be 175MW/AC located in Danbury ISD with approximately 562,294 photovoltaic panels and 59 central inverters

Cottonwood Bayou Solar II, LLC requests that the limitation covers all qualified investment and qualified property located within Danbury ISD. It is our request that the limitation includes all eligible and ancillary equipment including the following:

- Substation
- Transmission Line
- Inverter and Transformers
