FINDINGS OF THE HASKELL CONSOLIDATED INDEPENDENT SCHOOL DISTRICT
BOARD OF TRUSTEES UNDER THE TEXAS ECONOMIC DEVELOPMENT ACT ON THE
APPLICATION SUBMITTED BY MILLERS BRANCH SOLAR, LLC

STATE OF TEXAS §
 §
COUNTY OF HASKELL §

On the 16th day of December, 2021, a public meeting of the Board of Trustees of the Haskell Consolidated Independent School District was held. The meeting was duly posted in accordance with the provisions of the Texas Open Meetings Act, Chapter 551, Texas Government Code. At the meeting, the Board of Trustees took up and considered the Application of Millers Branch Solar, LLC (Application #1612) for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code. The Board of Trustees solicited input into its deliberations on the Application from interested parties within the District. After hearing presentations from the District’s administrative staff, and from attorneys and consultants retained by the District to advise the Board in this matter, the Board of Trustees of the Haskell Consolidated Independent School District makes the following findings with respect to the Application of Millers Branch Solar, LLC #1612, and the economic impact of that Application:

On May 27, 2021, the Superintendent of Schools of the Haskell Consolidated Independent School District, acting as agent of the Board of Trustees, and the Texas Comptroller of Public Accounts received an Application from Millers Branch Solar, LLC #1612 for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code. A copy of the Application is posted on the Texas Comptroller’s website at:

<https://comptroller.texas.gov/economy/local/ch313/agreement-docs-details.php?id=1612>.

The Applicant, Millers Branch Solar, LLC (Taxpayer ID 32078349308) (“Applicant”), consists of entities subject to Chapter 171, Texas Tax Code, and is certified to be in good standing with the Texas Comptroller of Public Accounts. The Board of Trustees acknowledges receipt of the Application, along with the required Application fee, as established pursuant to Texas Tax Code § 313.025(a)(1) and Local District Policy.

The Application was delivered to the Texas Comptroller’s Office for review pursuant to Texas Tax Code § 313.025(d). A copy of the Application was delivered to the Haskell County Appraisal District for review pursuant to 34 Texas Administrative Code § 9.1054. The Application was reviewed by the Texas Comptroller’s Office pursuant to Texas Tax Code § 313.026, and a determination that the Application was complete was issued on July 28, 2021.

After receipt of the Application, the Texas Comptroller of Public Accounts caused to be conducted an economic impact evaluation on October 11, 2021, pursuant to Texas Tax Code § 313.026, and the Board of Trustees has carefully considered such evaluation. A copy of the economic impact evaluation is attached to these findings as **Exhibit A**.

The Board of Trustees also directed that a specific financial analysis be conducted of the impact of the proposed value limitation on the finances of the Haskell Consolidated Independent School District. A copy of a report prepared by Education Service Center, Region 12 is attached to these findings as **Exhibit B**. The Texas Commissioner of Education has determined that the project will not impact school enrollment.

The Board of Trustees has confirmed that the taxable value of property in the Haskell Consolidated Independent School District for the preceding tax year, as determined under Subchapter M, Chapter 403, Government Code, is as stated in the 2020 ISD Summary Worksheet posted on the Texas Comptroller's website at:

<https://comptroller.texas.gov/auto-data/PT2/PVS/2020P/2171049011D.php>.

After receipt of the Application, the District submitted a proposed form of Agreement for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code, in the form required by the Comptroller of Public Accounts. The proposed Agreement and letter approving same are attached to these findings as **Exhibit C**.

After review of the Comptroller's recommendation, and in consideration of its own economic impact study the Board finds:

Board Finding Number 1. The Applicant qualifies for a limitation on appraised value of Qualified Property under Texas Tax Code § 313.024 in the eligibility category of Renewable Energy Electric Generation (Solar).

Board Finding Number 2. The Applicant's entire proposed investment in the Haskell Consolidated Independent School District is \$170,500,000—all of which is proposed to be Qualified Investment under Texas Tax Code § 313.021.

Board Finding Number 3. The average salary level of qualifying jobs is expected to be at least \$49,947 per year. The review of the Application by the State Comptroller's Office indicates that this amount—based on Texas Workforce Commission data—complies with the requirement that qualifying jobs pay more than the minimum weekly wage required for Qualified Jobs under Texas Tax Code § 313.021.

Board Finding Number 4. The level of the Applicant's average investment per qualifying job over the term of the Agreement is estimated to be \$170,500,000 based on the one (1) new qualifying position the Applicant commits to create for this project. The project's total investment is \$170,500,000, resulting in a relative level of investment of \$170,500,000 per qualifying job.

Board Finding Number 5. The Applicant has requested a waiver of the job creation requirement under Texas Tax Code § 313.025(f-1), and the Board finds such waiver request should be granted. The Board notes that the number of jobs proposed for this project (1 job) is consistent with industry standards in the solar renewable energy industry.

Board Finding Number 6. Subsequent economic effects on the local and regional tax bases will be significant. In addition, the impact of the added infrastructure will be significant to the region. In support of Finding 6, the economic impact evaluation shows the following.

Table 2 depicts this project's estimated economic impact to Texas. It depicts the direct, indirect and induced effects to employment and personal income within the state. The Comptroller's office calculated the economic impact based on 15 years of annual investment and employment levels.

Board Finding Number 7. The revenue gains that will be realized by the school district if the Application is approved will be significant in the long-term, with special reference to revenues available to support school district debt.

Board Finding Number 8. The effect of the Applicant's proposal, if approved, on the number or size of needed school district instructional facilities is not expected to increase the District's facility needs, with current trends suggesting little underlying enrollment growth based on the impact of the project.

Board Finding Number 9. The Applicant's project is reasonably likely to generate, before the 25th anniversary of the beginning of the limitation period, tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement. This evaluation is based on an analysis of the estimated M&O portion of the school district property tax levy directly related to this project, using estimated taxable values provided in the application. **Attachment B** of the economic impact study contains a year-by-year analysis as depicted in the following table:

Re: Certificate for Limitation on Appraised Value of Property for School District
Maintenance and Operations taxes by and between Haskell Consolidated
Independent School District and Millers Branch Solar, LLC, Application 1612

Dear Superintendent Hise:

On July 28, 2021, the Comptroller issued written notice that Millers Branch Solar, LLC (applicant) submitted a completed application (Application 1612) for a limitation on appraised value under the provisions of Tax Code Chapter 313.¹ This application was originally submitted on May 27, 2021, to the Haskell Consolidated Independent School District (school district) by the applicant.

This presents the results of the Comptroller's review of the application and determinations required:

- 1) under Section 313.025(h) to determine if the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C; and
- 2) under Section 313.025(d), to issue a certificate for a limitation on appraised value of the property and provide the certificate to the governing body of the school district or provide the governing body a written explanation of the Comptroller's decision not to issue a certificate, using the criteria set out in Section 313.026.

Determination required by 313.025(h)

Sec. 313.024(a)	Applicant is subject to tax imposed by Chapter 171.
Sec. 313.024(b)	Applicant is proposing to use the property for an eligible project.

¹ All Statutory references are to the Texas Tax Code, unless otherwise noted.

Sec. 313.024(d) Applicant has requested a waiver to create the required number of new qualifying jobs and pay all jobs created that are not qualifying jobs a wage that exceeds the county average weekly wage for all jobs in the county where the jobs are located.

Sec. 313.024(d-2) Not applicable to Application 1612.

Based on the information provided by the applicant, the Comptroller has determined that the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C.

Certificate decision required by 313.025(d)

Determination required by 313.026(c)(1)

The Comptroller has determined that the project proposed by the applicant is reasonably likely to generate tax revenue in an amount sufficient to offset the school district's maintenance and operations *ad valorem tax* revenue lost as a result of the agreement before the 25th anniversary of the beginning of the limitation period, see Attachment B.

Determination required by 313.026(c)(2)

The Comptroller has determined that the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state, see Attachment C.

Based on these determinations, the Comptroller issues a certificate for a limitation on appraised value. This certificate is contingent on the school district's receipt and acceptance of the Texas Education Agency's determination per 313.025(b-1).

The Comptroller's review of the application assumes the accuracy and completeness of the statements in the application. If the application is approved by the school district, the applicant shall perform according to the provisions of the Texas Economic Development Act Agreement (Form 50-826) executed with the school district. The school district shall comply with and enforce the stipulations, provisions, terms, and conditions of the agreement, applicable Texas Administrative Code and Chapter 313, per TAC 9.1054(i)(3).

This certificate is no longer valid if the application is modified, the information presented in the application changes, or the limitation agreement does not conform to the application. Additionally, this certificate is contingent on the school district approving and executing the agreement within a year from the date of this letter.

Note that any building or improvement existing as of the application review start date of July 28, 2021, or any tangible personal property placed in service prior to that date may not become "Qualified Property" as defined by 313.021(2) and the Texas Administrative Code.

Attachment C – Limitation as a Determining Factor

Tax Code 313.026 states that the Comptroller may not issue a certificate for a limitation on appraised value under this chapter for property described in an application unless the comptroller determines that “the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state.” This represents the basis for the Comptroller’s determination.

Methodology

Texas Administrative Code 9.1055(d) states the Comptroller shall review any information available to the Comptroller including:

- the application, including the responses to the questions in Section 8 (Limitation as a Determining Factor);
- public documents or statements by the applicant concerning business operations or site location issues or in which the applicant is a subject;
- statements by officials of the applicant, public documents or statements by governmental or industry officials concerning business operations or site location issues;
- existing investment and operations at or near the site or in the state that may impact the proposed project;
- announced real estate transactions, utility records, permit requests, industry publications or other sources that may provide information helpful in making the determination; and
- market information, raw materials or other production inputs, availability, existing facility locations, committed incentives, infrastructure issues, utility issues, location of buyers, nature of market, supply chains, other known sites under consideration.

Determination

The Comptroller **has determined** that the limitation on appraised value is a determining factor in EDF Renewables decision to invest capital and construct the project in this state. This is based on information available, including information provided by the applicant. Specifically, the comptroller notes the following:

- With origins dating back to 1985, EDF Renewables has a presence worldwide having built 16 GW of operating projects with an additional 1,000MW of renewable energy projects currently under construction. EDF Renewables has developed operating power projects supplying power on the West Coast, Mid-west and Northeast portions of the US.
- Per EDG in Tab 5 of their Application for a Limitation on Appraised Value:
 - A. “EDF Renewables is a national wind and solar developer currently evaluating a large project pipeline of approximately 24GW of wind and solar project opportunities in Washington, Oregon, California, Nevada, Utah, Arizona, Colorado Wyoming, New Mexico, Texas, Oklahoma, Kansas, Nebraska North Dakota Minnesota, Iowa, Missouri, Arkansas, Louisiana Michigan, Illinois, Indiana, Ohio Kentucky North Carolina Alabama, Georgia, Florida, New York, Maine and new Jersey as well as locations in Canada and Mexico. With both domestic U.S and international opportunities, the company has the ability to locate projects of this type in any of these states and countries where favorable wind and solar conditions exist. The Applicant is actively assessing the financial viability and potential development of this project against other projects in the development pipeline that are competing for limited investment funds.”
 - B. “Consistent with the 313 applications filed by these companies on other renewable energy projects, the successful completion of market-competitive tax incentives is a necessity that provides a level playing field for all successful utility-scale solar projects in Texas. Key development characteristics, such as securing tax abatement commercial terms for example, will determine the ultimate location of the Millers Branch Project. Tax abatements, along with several other development variables, have a significant impact on the competitiveness of the project’s generation and ultimately likelihood for success. Therefore, EDF is continually comparing investment opportunities, rate of return, and market viability of each project based upon financial metrics.”

- C. “Due to an extremely competitive power market in Texas, the Chapter 313 appraised value limitation agreement is a necessity for a solar project of this size, and the commercial terms associated have a significant impact on the project’s likelihood for success. There are only a few developmental variables for solar project which enhance the economics (i.e., property taxes, land rental payment, geotechnical adders), and since solar projects all compete with each other within Texas, a project without an appraised value limitation agreement is not competitive and is very unlikely to reach the point of construction. Therefore, this appraised value limitation is critical to the ability of the proposed project to move forward as currently sited within the Haskell CISD.”
- A July 5, 2021 *Business & Industry Connection* magazine article states that “EDF Renewables, a subsidiary of the French utility EDF Group is looking to build a 200-megawatt solar facility in Texas that would cost about \$170.5 million. The project is called Millers Branch Solar and construction is slated to begin in June 2023. At its peak, that work would provide jobs for 350 full-time-equivalent workers, according to documents published EDF expects construction on Millers Branch to be complete by the end of 2024, at which time direct employment provided by the project would drop to one full-time worker.”
 - A July 1, 2021 *Houston Business Journal* article states that “France-based EDF Renewables is looking to build a 200-megawatt solar facility in Texas that would cost about \$170.5 million.”
 - Per email on August 2, 2021, Millers Branch Solar, LLC has also been known as Brass Fork. The project has applied to ERCOT and was assigned 22INR0270 on January 6, 2020.

The Texas Panhandle may get 170.5M solar farm project

JULY 5, 2021 10:02 AM

EDF Renewables, a subsidiary of the French utility EDF Group, is looking to build a 200-megawatt solar facility in Texas that would cost about \$170.5 million.

The project is called Millers Branch Solar and construction is slated to begin in June 2023. At its peak, that work would provide jobs for 350 full-time-equivalent workers, according to documents published

EDF expects construction on Millers Branch to be complete by the end of 2024, at which time direct employment provided by the project would drop to one full-time worker.

The company has asked the local school district, Haskell Consolidated Independent School District, for a tax incentive that would limit the taxable value of the final asset, according to comptroller records. The incentive would come under Chapter 313 of the Texas Tax Code, which allows such deals between school districts and the companies behind certain kinds of industrial projects, including renewable power generation.

In this case, Haskell CISD would tax the asset as though it was worth \$30 million rather than the \$170.5 million the company will spend to build it.

The Chapter 313 agreement must be approved by the Texas comptroller, who must decide that the incentives are a determining factor for the project.

In this case, Haskell CISD would tax the asset as though it was worth \$30 million rather than the \$170.5 million the company will spend to build it.

EDF's North American headquarters is in San Diego, California, but it has a development team in Houston, which the company lists as the primary contact point for the project, according to EDF's tax incentive application.

All Chapter 313 agreements must be approved by the Texas comptroller, who must decide that the incentives are a determining factor for the project.

Because of the way the Texas school funding formula works, school districts generally don't face individual financial risk for accepting Chapter 313 deals, whether or not the project would have been built otherwise. That risk is spread out to broader state education funding instead.

The Texas Legislature did not advance a bill that would have extended the Chapter 313 incentives program by two years, so the program is slated to expire in December 2022.

Introduction

Millers Branch Solar, LLC (“Millers Branch Solar” or “Company”) has submitted an application to the Haskell Consolidated Independent School District (“HCISD” or “District”) requesting a property value limitation on a proposed project, located within the school district boundaries, under Chapter 313 of the Texas Tax Code. The proposed project is a solar powered electric generating facility in Haskell County, TX. The company estimates that the total investment in this project will be in excess of \$109 million.

Local government entities in Texas, including school districts, rely heavily on the ad valorem property tax to fund operations and building projects. Thus, the property tax burden that Texas imposes on individuals and business entities is higher compared to most other states. Seeking to encourage economic development and to attract large scale capital investment, the 77th Texas Legislature in 2001 enacted House Bill 1200 creating Tax Code Chapter 313, the Texas Economic Development Act. The act as amended by the legislature in 2007, 2009, and 2013 now grants eligibility to companies engaging in manufacturing, advanced clean energy projects, research and development, clean coal projects, renewable electric energy generation, electric power generation using integrated gasification combined cycle technology, nuclear electric power generation and a computer center used primarily in connection to one of the other categories, or a Texas Priority Project. Under the provisions of this law, the Haskell Consolidated Independent School District may grant a value limitation for maintenance and operation taxes in the amount of \$30 million dollars for a period of ten years.

The application calls for the project to be fully taxable for both M&O (maintenance and operation) and I&S (interest and sinking) during the 2023-24 and 2024-25 school years. Beginning with the 2025-26 school year, the value of the project would be limited to \$30 million for M&O tax purposes and remain limited through the 2034-35 school year. The full value of the project will be taxable for debt service purposes using the I&S tax rate in all years of the agreement.

Projected Revenue Protection Payment to Haskell CISD -	\$770,407
Projected Supplemental Payments to Haskell CISD -	\$795,000
Projected Total Revenue to Haskell CISD -	\$1,565,407
Projected Total Tax Savings to Company after all Payments -	\$1,831,785

School Finance Mechanics

The Texas system of public-school funding is based on the ad valorem property tax. Schools levy a tax rate for maintenance and operation (M&O) and interest and sinking (I&S) against a current year tax roll. As a result of House Bill 3, as passed by the 86th Texas Legislature, signed into law, and effective in relevant part, on September 1, 2019, State funding is calculated using current year property value, which is a significant change from prior law which has relied on prior year values as certified by the Comptroller's Property Tax Division (CPTD), since 1993. However, for the purposes of districts with Tax Code Chapter 313 agreements and in accordance with Sec. 48.256 – LOCAL SHARE OF PROGRAM COST (TIER I), Subsection d - *A revenue protection payment required as part of an agreement for a limitation on appraised value shall be based on the district's taxable value of property for the preceding tax year.*

Texas school districts are funded by some combination of local ad valorem property taxes and state aid. Most of the money that a school district generates through the funding formulas is generated in Tier 1. Local M&O collections at the compressed tax rate generate Tier I funding. In 2021-22, a school district's Tier I revenue is the greater of the adjusted minimum target revenue amount or the state share of Tier 1 plus local M&O collections at the compressed rate. The Tier 1 formulas start with a Basic Allotment per student of \$6,160. Funding calculations use the number of students in average daily attendance, the number of students who participate in categorical/special programs, and adjustments for size, sparsity, and location determine a Total Cost of Tier 1. A Local Fund Assignment is determined by multiplying the district's compressed tax rate by the current year property value. This formula determines the local ad valorem property taxes the district must collect in order to satisfy the district's share of the Tier 1 cost. School districts that are relatively property wealthy per student fund most of the Total Cost of Tier 1 with local property taxes, while school districts that are relatively property poor per student receive most of the Total Cost of Tier 1 from state aid.

Haskell CISD is a relatively property low wealth district per student and so most of its M&O revenue is not generated from local ad valorem property taxes. In attempting to provide some degree of funding equity among school districts, the formulas provide guaranteed yields for both Tier I (formula funding) and for Tier II (enrichment). For those districts that generate local revenue in excess of entitlement amounts, the excess revenue is recaptured. Under prior law, recapture was a function of excess property wealth per weighted student. The system continues to rely on both golden (equalized up to \$98.56/WADA) and copper (equalized up to \$49.28/WADA) enrichment pennies (Tier II tax rate). Under HB 3 as modified by HB 1525, districts can access up to 8 golden pennies. Copper pennies will be compressed in manner that generates the same revenue for the compressed number of pennies as were taxed under old law.

HCISD currently has property wealth per weighted ADA that is less than the second equalized wealth level at \$312,667 per weighted ADA. Under prior law, HCISD was not considered a Chapter 41 district and would not have paid recapture. The implementation of HB 3 as modified by HB 1525, is not expected to alter Haskell's status in terms of being required to pay recapture. Millers Branch Solar is requesting that the value of the solar powered electric generating facility be limited to \$30,000,000 in years one through ten of the agreement, corresponding to the 2025-26 school year through the 2034-35 school year. The full value of the project would be subject to interest and sinking (I&S) taxes levied by Haskell CISD in all years of the agreement.

Underlying Assumptions

A forecast of the financial impact the proposed value limitation agreement will have on HCISD's future revenue is critical information that will be very useful to the district when making the decision to grant the limitation and for the district's long range financial planning process. Analysis for this application covers the 2023-24 through the 2039-40 school years. The Revenue Protection Clause of the proposed agreement calls for the school district to be held harmless against any potential state and local maintenance and operation revenue losses as a result of the value limitation agreement. Revenue protection calculations are to be made using the definition of lost M&O revenue as found in section 1.2 of the negotiated definitions of the agreement, along with property tax laws and school funding formulas are in place at that time in years one through ten of the agreement. This stipulation is a statutory requirement under Section 313.027 of the Tax Code.

The approach used in this report was to predict 17 years of base data including average daily attendance, M&O and I&S tax rates, maintenance and operation (M&O) tax collections and current year (CAD) values and prior year (CPTD) values for each year of the agreement. For the purposes of this analysis, final 2020 CPTD values were used as well as TEA estimates of 2021 T2 values. These values have been included in the base data illustrated in **Table 1**.

To isolate the impact of the value limitation on the District's finances over this 17 year agreement, average daily attendance and maintenance and operation tax rates were held constant at levels that were projected to exist in the 2021-22 school year. An ADA of 530.024, a WADA of 963.458 and a 2021 compressed M&O tax rate of .9634 were used for each year of the forecast. A tax collection rate of 100% is assumed in all of the calculations used in this analysis. 2021 CAD certified values were used in place of final T2 values which will not be available until summer of 2022. This value was used as the basis for subsequent current year (CAD) values in this report. Final 2020 T1, T2, T3 and T4 Comptroller Property Tax Division (CPTD) values, certified to school districts in late July, 2021, were used as a basis for predicting prior year (CPTD) values for each of the agreement years.

The proposed agreement calls for Haskell CISD to be held harmless against potential state and local revenue losses that might occur as a result of the value limitation being in effect for any given year of the agreement. In order to predict when and if these revenue losses may occur, a state and local revenue projection for the 2021-2022 school year was completed to serve as base line data and is displayed in **Table 2**. In any year of the limitation period where revenue loss occurs, as defined by the terms of the agreement, a Revenue Protection Payment is indicated for that year. The results of these calculations are illustrated in Table 3.

Financial Impact on the School District

Utilizing uncollected taxes as the definition of lost M&O revenue and the assumptions/methodology described above, total maintenance and operation revenue was estimated for each year of the agreement. **Table 3**, which summarizes the difference between the two models, indicates that there will be a total revenue loss of \$770,407 over the course of the agreement. The revenue loss by the district, due to the agreement, is estimated to be mostly in the first year of the value limitation period.

Financial Impact on the Taxpayer

The terms of the proposed agreement call for the maintenance and operation (M&O) value of the project to be limited to \$30 million starting in school year 2025-2026 and remaining limited through school year 2034-35. The potential gross and net tax savings to Millers Branch Solar are shown in Table 3. As stated earlier, an M&O tax rate of \$.9634 and a collection rate of 100% is used throughout the calculations in this report. Table 3 shows gross tax savings due to the limitation of \$3.39 million over the length of the contract. Net tax savings are estimated to be \$2.63 million. To estimate supplemental payments to the school district of \$100 per ADA, a growth model was applied to the base ADA of 530.024, which was the projected ADA for HCISD for the 2021-22 school year.

Facilities Funding Impact on the District

Reports submitted by Millers Branch Solar show the full value of the property being depreciated over time. Even so, the full value of the project will be available to the district for I&S taxes and will enhance the district's ability to service current and future debt obligations. While the project is expected to provide additional employment opportunities in the area, the impact on student enrollment is predicted to be minimal.

Conclusion

The Millers Branch Solar project proposed in this application will benefit the community, the district, HCISD, and the taxpayer, Miller Branch Solar. The community will receive economic development, the taxpayer will enjoy savings on property taxes and the district will be held harmless from revenue loss due to the provisions of the agreement. The district will also enjoy an increased value available for I&S tax collections dedicated to debt service that can be leveraged to provide first class facilities for faculty and students.

It should be noted, the Texas Legislature could take additional action that could potentially change the impact of this agreement on the finances of Haskell CISD and result in estimates that differ significantly from the estimates presented in this analysis. Some of the factors that could significantly alter these estimates are legislative or administrative action by the Texas Legislature, the Texas Education Agency or the Comptroller of Public Accounts. Those actions could contain changes to the school finance formulas, property value appraisals and tax exemptions. Other factors which could change, and will impact the estimates of this agreement, include increases or decreases to property values, district tax rates and student enrollment.

“Maintenance and Operations Revenue” means (i) those revenues which the District receives from the levy of its annual ad valorem maintenance and operations tax pursuant to Section 45.002 of the Texas Education Code, and Article VII § 3 of the Texas Constitution, plus (ii) all State revenues to which the District is or may be entitled under Chapter 42 or 48 of the Texas Education Code, or any other statutory provision as well as any amendment or successor statute to these provisions, plus (iii) any indemnity payments received by the District under other agreements similar to this Agreement to the extent that such payments are designed to replace the District’s Maintenance and Operations Revenue lost as a result of such similar agreements, minus (iv) any amounts necessary to reimburse the State of Texas or another school district for the education of additional students pursuant to Chapter 41 or 49 of the Texas Education Code, in each case, as any of the items in clauses (i), (ii), and (iv) above may be amended by Applicable School Finance Law from time to time, and plus or minus, as applicable, any other revenues, payments or amounts received or required to be reimbursed by the District from State and local funding for maintenance and operations purposes under Applicable School Finance Law, such that Maintenance and Operations Revenue shall be the net amount of all such revenues, payments, or other amounts which the District is entitled to receive and retain from State and local funding for maintenance and operations purposes under Applicable School Finance Law.

“Net Tax Benefit” means, for any Tax Year during the term of this Agreement, an amount equal to (but not less than zero): (i) the amount of maintenance and operations ad valorem taxes which the Applicant would have paid to the District for such Tax Year if this Agreement had not been entered into by the Parties; minus, (ii) an amount equal to the sum of (A) all maintenance and operations ad valorem school taxes actually due to the District or any other governmental entity, including the State of Texas, for such Tax Year, plus (B) any and all payments due to the District under Articles IV, V, and VI of this Agreement.

“New M&O Revenue” means, with respect to any school year, the total State and local Maintenance and Operations Revenue that the District received, after all adjustments have been made to such Maintenance and Operations Revenue in accordance with the provisions of the Applicable School Finance Law for such school year.

“Original M&O Revenue” means, with respect to any school year, the total State and local Maintenance and Operations Revenue that the District would have received for the school year under the Applicable School Finance Law had this Agreement not been entered into by the Parties and the Applicant’s Qualified Property been subject to the ad valorem maintenance and operations tax at the tax rate actually adopted by the District for the applicable Tax Year. For purposes of this calculation, the Third Party will base its calculations upon actual local Taxable Values for each applicable Tax Year as certified by the Appraisal District for all taxable accounts in the District, except that with respect to the Applicant’s Qualified Property during the Tax Limitation Period,

such calculations shall use the Taxable Value for each applicable Tax Year of the Applicant's Qualified Property which is used for the calculation of the District's tax levy for debt service (interest and sinking fund) ad valorem tax purposes. For the calculation of Original M&O Revenue, the Taxable Value for Applicant's Qualified Property for maintenance and operations ad valorem tax purposes will not be used during the Tax Limitation Period.

"Third Party" shall have the meaning set forth in Section 4.3 of this Agreement.

Section 3.2. LOCATION OF QUALIFIED PROPERTY AND INVESTMENT. Section 3.3. DESCRIPTION OF QUALIFIED PROPERTY. The Qualified Property that is subject to the Tax Limitation Amount is described in **EXHIBIT 4**, which is attached hereto and incorporated herein by reference for all purposes. ARTICLE IV

PROTECTION AGAINST LOSS OF FUTURE DISTRICT REVENUES

Section 4.1. INTENT OF THE PARTIES. Subject only to the limitations contained in this Agreement, it is the intent of the Parties that the District shall, in accordance with the provisions of Section 313.027(f)(1) of the TEXAS TAX CODE, be compensated by Applicant for any loss that District incurs in its Maintenance and Operations Revenue in each year of this Agreement for which this Agreement was, in any manner, a producing cause, resulting, at least in part because of or on account of, the execution of this Agreement. Such payments shall be independent of, and in addition to such other payments as set forth in Article V and Article VI in this Agreement. Subject only to the limitations contained in this Agreement, it is the intent of the Parties that the risk of any and all negative financial consequences to the District's total annual Maintenance and Operations Revenue, to which the execution of this Agreement contributed in any matter, will be borne solely by Applicant and not by the District.

The Parties hereto expressly understand and agree that, for all Tax Years to which this Agreement may apply, the calculation of negative financial consequences will be defined for each applicable Tax Year in accordance with the Applicable School Finance Law, as defined in Section 1.2 above, and that such definition specifically contemplates that calculations made under this Agreement may well periodically change in accordance with changes made from time to time in the Applicable School Finance Law. The Parties further agree that the printouts and projections produced during the negotiations and approval of this Agreement are: (i) for illustrative purposes only, are not intended to be relied upon, and have not been relied upon by the Parties as a prediction of future consequences to either Party to the Agreement; (ii) are based upon current School Finance Law, which is subject to change by statute, by administrative regulation, or by judicial decision at any time; and (iii) may change in future years to reflect changes in the Applicable School Finance Law.

Section 4.2. CALCULATING LOST M&O REVENUE. The Parties agree that notwithstanding anything to the contrary in this Article IV, Applicant shall satisfy its obligation to the District for Lost M&O Revenue with respect to any years under this Agreement in which the provisions of Applicable School Finance Law applicable to the calculation of Original M&O Revenue and New M&O Revenue are materially similar to those enacted by House Bill 3, 86th Texas Legislature by paying the District (A) for the first year of the Tax Limitation Period, an amount equal to (i) the amount of maintenance and operations ad valorem taxes which the Applicant would have paid to the District for the first year of the Tax Limitation Period if this Agreement had not been entered into by the Parties; *minus*, (ii) the amount of maintenance and operations ad valorem school taxes actually paid by Applicant for such year; and (B) for the remaining years of the Tax Limitation Period, years second through the tenth, should the value of Applicant's Qualified Property exceed the appraised value of Applicant's Qualified Property in the year prior, an amount equal to (i) the amount of maintenance and operations ad valorem school taxes which the Applicant would have paid to the District for such year if this Agreement had not been entered into by the Parties; *minus* (ii) the amount of maintenance and operations ad valorem school taxes that would have been paid by Applicant for the prior year if this Agreement had not been entered into by the Parties. The Parties agree that such amounts are revenue protection payments based on the District's taxable value of property for the preceding tax year in satisfaction of TEXAS EDUCATION CODE Section 48.256(d). Furthermore, the Parties agree that any revenue protection payment calculated pursuant to this paragraph shall be paid to the District by January 31 following the year for which such payment is calculated, in accordance with Section 4.8 below.

With respect to any years in which the preceding paragraph does not apply, then subject to the limitations contained in this Agreement, the amount to be paid by Applicant to compensate the District for loss of Maintenance and Operations Revenue resulting from, or on account of, or for which this Agreement was the producing cause or substantial factor for each year starting in the first year of the Tax Limitation Period and ending on December 31st of the last year of the Tax Limitation Period, (the "Lost M&O Revenue") shall be determined in compliance with the Applicable School Finance Law in effect for such year and according to the following formula:

A. Subject to the limitations contained in this Section 4.2, the Lost M&O Revenue owed by Applicant to District means the Original M&O Revenue *minus* the New M&O Revenue.

B. In making the calculations required by this Section 4.2 of this Agreement:

i. The Taxable Value of property for each school year will be determined under the Applicable School Finance Law as that law exists for each year for which the calculation is made.

ii. For purposes of this calculation, the tax collection rate on the Applicant's Qualified Property will be presumed to be one hundred percent (100%).

iii. If, for any year of this Agreement, the difference between the Original M&O Revenue and the New M&O Revenue, as calculated under this Section 4.2 of this Agreement, results in a negative number, the negative number will be considered to be zero.

iv. For all calculations made for years during the Tax Limitation Period under Section 4.2 of this Agreement, New M&O Revenue will reflect the Tax Limitation Amount for such year.

v. All calculations made under this Section 4.2 shall be made by a methodology which isolates only the full Maintenance and Operations Revenue impact caused by this Agreement. The Applicant shall not be responsible to reimburse the District on account of or otherwise arising out of any other factors not contained in this Agreement.

C. All such payments owed and made by the Applicant to the District under this Section IV shall be independent of, and in addition to such other payments as set forth in Article V and Article VI in this Agreement.

Section 4.3. CALCULATIONS TO BE MADE BY THIRD PARTY. All calculations under this Agreement shall be made annually by an independent third party (the "Third Party") selected and appointed each year by the District, subject to approval by Applicant in writing, which approval shall not be unreasonably withheld.

Section 4.4. DATA USED FOR CALCULATIONS. The calculations for payments under this Agreement shall be initially based upon the valuations that are placed upon all taxable property in the District, including the Applicant's Qualified Property, by the Appraisal District in its annual certified tax roll submitted to the District for each Tax Year pursuant to TEXAS TAX CODE § 26.01 on or about July 25 of each year of this Agreement. Immediately upon receipt of the valuation information by the District, the District shall submit the valuation information to the Third Party selected and appointed under Section 4.3. The certified tax roll data shall form the basis of the calculation of any and all amounts due under this Agreement. All other data utilized by the Third Party to make the calculations contemplated by this Agreement shall be based upon the best available current estimates. The data utilized by the Third Party shall be adjusted from time to time by the Third Party to reflect actual amounts, subsequent adjustments by the Appraisal District to the District's certified tax roll or any other changes in student counts, tax collections, or other data.

Section 4.5. EFFECT OF PROPERTY VALUE APPEAL OR OTHER ADJUSTMENT. If the Applicant has appealed any matter relating to the valuations placed by the Appraisal District on the Applicant's Qualified Property, and such appeal remains unresolved at the time the Third Party selected under Section 4.3 makes its calculations under this Agreement, the Third Party shall base its calculations upon the values placed upon the Applicant's Qualified Property by the

Appraisal District. The calculations shall be readjusted, if necessary, based on the outcome of the appeal as set forth below. In the event that the Taxable Value of the Qualified Property is changed after an appeal of its valuation, or the Taxable Value is otherwise altered for any reason, the calculations required under Article IV of this agreement shall be recalculated by the Third Party at Applicant's sole expense using the revised property values.

If as a result of an appeal or for any other reason, the Taxable Value of the Applicant's Qualified Property is changed, once the determination of the new Taxable Value becomes final, the Parties shall immediately notify the Third Party who shall immediately issue new calculations for the applicable year or years using the new Taxable Value. In the event the new calculations result in a change in any amount paid or payable by the Applicant under this Agreement, the Party from whom the adjustment is payable shall remit such amount to the other Party within thirty (30) days of the receipt of the new calculations from the Third Party.

Section 4.6. DELIVERY OF CALCULATIONS. On or before November 1 of each year for which this Agreement is effective, the Third Party appointed pursuant to Section 4.3 of this Agreement shall forward to the Parties a certification containing the calculations required under this Article IV, Article V, Article VI, of this Agreement in sufficient detail to allow the Parties to understand the manner in which the calculations were made. The Third Party shall simultaneously submit his, her, or its invoice for fees for services rendered to the Parties, if any fees are being claimed, which fee shall be the sole responsibility of the District, but subject to the provisions of Section 4.8, below. Upon reasonable prior notice, the employees and agents of the Applicant shall have access, at all reasonable times, to the Third Party's calculations, records, and correspondence pertaining to the calculation and fee for the purpose of verification. The Third Party shall maintain supporting data consistent with generally accepted accounting practices, and the employees and agents of the Applicant shall have the right to reproduce and retain for purpose of audit, any of these documents. The Third Party shall preserve all documents pertaining to the calculation until four (4) years after the Final Termination Date of this Agreement. The Applicant shall not be liable for any of the Third Party's costs resulting from an audit of the Third Party's books, records, correspondence, or work papers pertaining to the calculations contemplated by this Agreement.

Section 4.7. STATUTORY CHANGES AFFECTING MAINTENANCE & OPERATION REVENUE. Notwithstanding any other provision in this Agreement, in the event that, by virtue of statutory changes to the Applicable School Finance Law, administrative interpretations by the Comptroller, Commissioner of Education, or the Texas Education Agency, or for any other reason attributable to statutory change, the District will receive less Maintenance and Operations Revenue, or, if applicable, will be required to increase its payment of funds to the State, because of its participation in this Agreement, the Applicant shall make payments to the District that are necessary to fully reimburse and hold the District harmless from any actual negative impact on the District's Maintenance and Operation Revenue as a result of its participation in this Agreement. Such calculation shall take into account any adjustments to the amount calculated for the current fiscal year that should be made in order to reflect the actual impact on the District. Such payment shall be made no later than thirty (30) days following notice from the District of such determination and calculation. The District shall use reasonable efforts to mitigate the economic effects of any such statutory change or administrative interpretation, and if the Applicant disagrees with any calculation or determination by the District of any adverse impact described in this Article IV, the

Applicant shall have the right to appeal such calculation or determination in accordance with the procedures set forth in Section 4.9.

Section 4.8. PAYMENT BY APPLICANT. Subject to Section 4.9 below, the Applicant shall pay any amount determined by the Third Party to be due and owing to the District under this Agreement on or before the January 31 of the year next following the tax levy for each year for which this Agreement is effective; provided that Applicant shall have the option – in its sole discretion – to make prepayments to the District at any time toward Applicant’s future liabilities under this Agreement. Any such prepayments shall be deducted from amounts due and owing by Applicant on the next bill or bills issued by the Third Party until the full amount of such prepayments have been credited to Applicant. Subject to the limitation set forth in this Section 4.8 below, by such date, the Applicant shall also pay any amount billed by the Third Party for all calculations under this Agreement under Section 4.4, above, plus any reasonable and necessary legal expenses paid by the District to its attorneys, auditors, or financial consultants for the preparation and filing of any financial reports, disclosures, or other reimbursement applications filed with or sent to the State of Texas, for any audits conducted by the State Auditor’s Office, or for other legal expenses which are, or may be required under the terms of, or because of, the execution of this Agreement. The Applicant shall only be responsible for the payment of an aggregate amount of fees and expenses under this Section 4.8 not to exceed Fifteen Thousand Dollars (\$15,000.00) for any Tax Year during the Tax Limitation Period, and for any Tax Year during the term of this Agreement for which the Comptroller’s Biennial Report is required. For any Tax Year outside of the Tax Limitation Period and for which the Comptroller’s Biennial Report is not required, Applicant shall not be responsible for the payment of an aggregate amount of fees and expenses under this Section 4.8 which exceeds Seven Thousand, Five Hundred Dollars (\$7,500.00).

Section 4.9. DISPUTE RESOLUTION PERTAINING TO THIRD PARTY CALCULATIONS. Should the Applicant disagree with the Third Party calculations made pursuant to this Article IV of this Agreement, the Applicant may dispute the findings, in writing, to the Third Party within thirty (30) days following the later of (i) receipt of the certification, or (ii) the date the Applicant is granted access to the books, records, and other information in accordance with Section 4.4 for purposes of auditing or reviewing the information in connection with the certification. Within thirty (30) days of receipt of the Applicant’s dispute in writing, the Third Party will issue, in writing, a final determination of the calculations. Thereafter, the Applicant may further dispute the final determination, in writing, of the certification containing the calculations to the District’s Board of Trustees within thirty (30) days after receipt of the final determination of the calculations from the Third Party. Applicant shall be responsible for ensuring timely submission of all payments calculated under Article IV by the Third Party owed to the District even if Applicant disputes the Third-Party calculations and is appealing the Third Party’s determination. Any overage in payment as determined by the Third Party and/or Board of Trustees, if any, shall be reimbursed to the Applicant, within 30 days, upon resolution of the dispute. Any dispute by the Applicant of the final determination of calculations shall in no way limit the Applicant’s other rights and remedies available hereunder, at law or in equity.

Section 4.10. OPTION TO TERMINATE AGREEMENT. In the event the Applicant determines that it will not commence or complete construction of the Applicant’s Qualified

Investment, the Applicant shall have the option, prior to the commencement of the Tax Limitation Period, to terminate this Agreement pursuant to Section 7.1 by notifying the District in writing of its exercise of such option. Applicant shall pay any payments due and not yet paid as of termination under Articles IV, V, or Supplemental Payments payable under Article VI for the year of termination including payments deferred from prior years pursuant to Section 6.3, within thirty (30) days after Applicant delivers its termination election. Any termination of this Agreement under the foregoing provision of this Section 4.10 shall be effective immediately.

ARTICLE V

PAYMENT OF EXTRAORDINARY EDUCATION-RELATED EXPENSES

Section 5.1. PAYMENT OF EXTRAORDINARY EDUCATION-RELATED EXPENSES.

In addition to the amounts determined pursuant to Articles IV and VI of this Agreement, the Applicant on an annual basis shall also indemnify and reimburse the District for the following: all non-reimbursed costs, certified by the District's external auditor to have been incurred by the District for extraordinary education-related expenses arising out of, through and from, the execution of this Agreement and/or related to this project that are not directly funded in state aid formulas, including expenses for the purchase of portable classrooms and the hiring of additional personnel to accommodate a temporary increase in student enrollment caused directly by such project. Applicant shall have the right to contest the findings of the District's external auditor pursuant to Section 4.9 above.

ARTICLE VI

SUPPLEMENTAL PAYMENTS

Section 6.1. INTENT OF PARTIES WITH RESPECT TO SUPPLEMENTAL PAYMENTS.

In interpreting the provisions of this Article VI, the Parties agree that, in addition to undertaking the responsibility for the payment of all of the amounts set forth under Articles IV and V, and as further consideration for the execution of this Agreement by the District, the Applicant shall also be responsible for the Supplemental Payments set forth in this Article VI. The Applicant shall not be responsible to the District or to any other person or persons in any form for the payment or transfer of money or any other thing of value in recognition of, anticipation of, or consideration for this Agreement for limitation on appraised value made pursuant to Chapter 313 of the TEXAS TAX CODE, unless it is explicitly set forth in this Agreement. It is the express intent of the Parties that the obligation for Supplemental Payments under this Article VI are separate and independent of the obligation of the Applicant to pay the amounts described in Articles IV and V; and that all payments under Article VI are subject to the separate limitations contained in Section 6.2 and Section 6.3. Each Supplemental Payment shall be due and payable on January 31st of the year following that in which such Supplemental Payment is accrued.

B. Supplemental Payments may only be made during the period starting the first year of the Qualifying Time Period and ending December 31 of the third year following the end of the Tax Limitation Period.

C. The limitation in Section 6.2.A does not apply to amounts described by Section 313.027(f)(1)–(2) of the TEXAS TAX CODE as implemented in Articles IV and V of this Agreement.

D. For purposes of this Agreement, the calculation of the limit of the annual Supplemental Payment shall be the greater of \$50,000 or \$100 multiplied by the District's Average Daily Attendance as calculated pursuant to Section 42.005 of the TEXAS EDUCATION CODE, based upon the District's 2020-2021 Average Daily Attendance of 530, rounded to the nearest whole number.

(determined by using the District's actual maintenance and operations tax rate for such Tax Year) if the Parties had not entered into this Agreement. The calculation and comparison of the amounts described in clauses (i) and (ii) of the preceding sentence shall be included in all calculations made pursuant to Article IV of this Agreement, and in the event the sum of the amounts described in said clause (i) exceeds the amount described in said clause (ii), then the payments otherwise due from the Applicant to the District under Articles IV, V, and VI shall be deferred and carried forward from year to year until paid in full.

By example and not as an exclusion to other breaches or failures, the Applicant's or the District's failure to comply with this Section shall constitute a Material Breach of this Agreement.

C. In addition to and without limitation on the other audit provisions of this Agreement, the acceptance of tax benefits or funds by the Applicant or the District or any other entity or person directly under this Agreement acts as acceptance of the authority of the State Auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. Under the direction of the legislative audit committee, the Applicant or the District or other entity that is the subject of an audit or investigation by the State Auditor must provide the State Auditor with access to any information the State Auditor considers relevant to the investigation or audit. Section 9.2. DETERMINATION OF BREACH AND TERMINATION OF AGREEMENT.

A. After receipt of the notice, the Applicant shall be given ninety (90) days to present any facts or arguments to the Board of Trustees showing that it is not in breach of its obligations under this Agreement, or that it has cured or undertaken to cure any such breach.

B. If the Board of Trustees is not satisfied with such response or that such breach has been cured, then the Board of Trustees shall, after reasonable notice to the Applicant, conduct a hearing called and held for the purpose of determining whether such breach has occurred and, if so, whether such breach has been cured. At any such hearing, the Applicant shall have the opportunity, together with their counsel, to be heard before the Board of Trustees. At the hearing, the Board of Trustees shall make findings as to:

- i. whether or not a breach of this Agreement has occurred;
- ii. whether or not such breach is a Material Breach;

Section 9.3. DISPUTE RESOLUTION.

A. After receipt of notice of the Board of Trustee's Determination of Breach and Notice of Contract Termination under Section 9.2, the Applicant shall have sixty (60) days in which either to tender payment or evidence of its efforts to cure, or to initiate mediation of the dispute by written notice to the District, in which case the District and the Applicant shall be required to make a good faith effort to resolve, without resort to litigation and within thirty (30) days after the Applicant initiates mediation, such dispute through mediation with a mutually agreeable mediator and at a mutually convenient time and place for the mediation. If the Parties are unable to agree on a mediator, a mediator shall be selected by the senior state district court judge then presiding in

Haskell County, Texas. The Parties agree to sign a document that provides the mediator and the mediation will be governed by the provisions of Chapter 154 of the TEXAS CIVIL PRACTICE AND REMEDIES CODE and such other rules as the mediator shall prescribe. With respect to such mediation, (i) the District shall bear one-half of such mediator's fees and expenses and the Applicant shall bear one-half of such mediator's fees and expenses, and (ii) otherwise each Party shall bear all of its costs and expenses (including attorneys' fees) incurred in connection with such mediation.

B. In the event that any mediation is not successful in resolving the dispute or that payment is not received within the time period described for mediation in Section 9.3.A, either the District or the Applicant may seek a judicial declaration of their respective rights and duties under this Agreement or otherwise, in a judicial proceeding in a state district court in Haskell County, assert any rights or defenses, or seek any remedy in law or in equity, against the other Party with respect to any claim relating to any breach, default, or nonperformance of any contract, agreement or undertaking made by a Party pursuant to this Agreement.

Section 9.4. CONSEQUENCES OF EARLY TERMINATION OR OTHER BREACH BY APPLICANT.

A. In the event that the Applicant terminates this Agreement without the consent of the District, except as provided in Section 7.1 of this Agreement, the Applicant shall pay to the District liquidated damages for such failure within thirty (30) days after receipt of the notice of breach.

B. C. The sum of liquidated damages due and payable shall be the sum total of the District ad valorem taxes for all of the Tax Years for which a tax limitation was granted pursuant to this Agreement prior to the year in which the default occurs that otherwise would have been due and payable by the Applicant to the District without the benefit of this Agreement, including penalty and interest, as calculated in accordance with Section 9.4.E. For purposes of this liquidated damages calculation, the Applicant shall be entitled to a credit for all payments made to the District pursuant to Articles IV, V, and VI. Upon payment of such liquidated damages, the Applicant's obligations under this Agreement shall be deemed fully satisfied, and such payment shall constitute

the District's sole remedy.

D. In the event that the District determines that the Applicant has committed a Material Breach identified in Section 9.1, after the notice and mediation periods provided by Sections 9.2 and 9.3, then the District may, in addition to the payment of liquidated damages required pursuant to Section 9.4.C, terminate this Agreement.

E. In determining the amount of penalty or interest, or both, due in the event of a breach of this Agreement, the District shall first determine the base amount of recaptured taxes less all credits under Section 9.4.C owed for each Tax Year during the Tax Limitation Period. The District shall calculate penalty or interest for each Tax Year during the Tax Limitation Period in accordance with the methodology set forth in Chapter 33 of the TEXAS TAX CODE, as if the base amount calculated for such Tax Year less all credits under Section 9.4.C had become due and payable on February 1 of the calendar year following such Tax Year. Penalties on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(a) of the TEXAS TAX CODE, or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(c) of the TEXAS TAX CODE, or its successor statute.

Section 9.5. LIMITATION OF OTHER DAMAGES. Notwithstanding anything contained in this Agreement to the contrary, in the event of default or breach of this Agreement by the Applicant, the District's damages for such a default shall under no circumstances exceed the amounts calculated under Section 9.4. In addition, the District's sole right of equitable relief under this Agreement shall be its right to terminate this Agreement. The Parties further agree that the limitation of damages and remedies set forth in this Section 9.5 shall be the sole and exclusive remedies available to the District, whether at law or under principles of equity.

Section 9.6. STATUTORY PENALTY FOR INADEQUATE QUALIFIED INVESTMENT. Pursuant to Section 313.0275 of the TEXAS TAX CODE, in the event that the Applicant fails to make Thirty Million Dollars (\$30,000,000) of Qualified Investment, in whole or in part, during the Qualifying Time Period, the Applicant is liable to the State for a penalty. The amount of the penalty is the amount determined by: (i) multiplying the maintenance and operations tax rate of the school district for that tax year that the penalty is due by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the Tax Year the penalty is due. This penalty shall be paid on or before February 1 of the year following the expiration of the Qualifying Time Period and is subject to the delinquent penalty provisions of Section 33.01 of the TEXAS TAX CODE. The Comptroller may grant a waiver of this penalty in the event of Force Majeure which prevents compliance with this provision.

Section 9.7. REMEDY FOR FAILURE TO CREATE AND MAINTAIN REQUIRED NEW QUALIFYING JOBS. Pursuant to Section 313.0276 of the TEXAS TAX CODE, for any full Tax Year that commences after the project has become operational, in the event that it has been determined that the Applicant has failed to meet the job creation or retention requirements defined in Sections 9.1.C, the Applicant shall not be deemed to be in Material Breach of this Agreement until such time as the Comptroller has made a determination to rescind this Agreement under Section 313.0276 of TEXAS TAX CODE, and that determination is final.

Section 9.8. REMEDY FOR FAILURE TO CREATE AND MAINTAIN COMMITTED

NEW QUALIFYING JOBS

A. In the event that the Applicant fails to create and maintain the number of New Qualifying Jobs specified in Schedule C of the Application, an event constituting a Material Breach as defined in Section 9.1.D, the Applicant and the District may elect to remedy the Material Breach through a penalty payment.

B. Following the notice and mediation periods provided by Sections 9.2 and 9.3, the District may request the Applicant to make a payment to the State in an amount equal to: (i) multiplying the maintenance and operations tax rate of the school district for that Tax Year that the Material Breach occurs by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the market value of the property identified on the Appraisal District's records for each tax year the Material Breach occurs.

C. In the event that there is no tax limitation in place for the tax year that the Material Breach occurs, the payment to the State shall be in an amount equal to: (i) multiplying the maintenance and operations tax rate of the School District for each tax year that the Material Breach occurs by (ii) the amount obtained after subtracting (a) the tax limitation amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the last Tax Year for which the Applicant received a tax limitation.

D. The penalty shall be paid no later than 30 days after the notice of breach and is subject to the delinquent penalty provisions of Section 33.01 of the TEXAS TAX CODE.

Waiver of any term, condition, or provision of this Agreement by any Party shall only be effective if in writing and shall not be construed as a waiver of any subsequent breach of, or failure to comply with, the same term, condition, or provision, or a waiver of any other term, condition, or provision of this Agreement.

Section 10.3. ASSIGNMENT.

A. Any assignment of any rights, benefits, obligations, or interests of the Parties in this Agreement, other than a collateral assignment purely for the benefit of creditors of the project, is considered an amendment to the Agreement and such Party may only assign such rights, benefits, obligations, or interests of this Agreement after complying with the provisions of Section 10.2 regarding amendments to the Agreement. Other than a collateral assignment to a creditor, this Agreement may only be assigned to an entity that is eligible to apply for and execute an agreement for limitation on appraised value pursuant to the provisions of Chapter 313 of the TEXAS TAX CODE and the Comptroller's Rules.

DESCRIPTION AND LOCATION OF LAND

The Land on which all qualified property and investment will be located is within the Reinvestment Zone described in **Exhibit 1**, and is demarked by the attached map.

EXHIBIT 3
APPLICANT'S QUALIFIED INVESTMENT

Millers Branch Solar, LLC plans to construct a 200 MW solar farm in Haskell County.

The application covers all qualified investment in the reinvestment zone and the project boundary within Haskell CISD necessary for the commercial operations of the proposed solar farm. Two hundred megawatts (200 MW) will be located in Haskell CISD. Panel placement is subject to change but for purposes of the application, the Project anticipates using approximately 470,820 PV modules or equivalent and 59 inverters.

The application covers all qualified investment necessary for the commercial operations of the solar farm. 100% of the Project will be located in the Haskell CISD.

Qualified investment includes: solar modules/panels, tracking systems, racking and mounting structures, inverters boxes, combiner boxes, meteorological equipment, foundations, roadways, paving, fencing, O&M Building, substation, collection system, generation transmission line, interconnection facilities, control systems necessary for commercial generation of electricity and all eligible ancillary and necessary equipment for commercial generation of electricity.

NOTE: The map shows the potential locations of improvements within Haskell CISD boundaries; however, the final number of panels and inverters and the location of each of these facilities is dependent upon ongoing negotiations with power purchasers and other factors.
