Qualifying Time Period usually begins with the final board approval of the application and extends generally for the following two complete tax years.

Column A: This represents the total dollar amount of planned investment in tangible personal property the applicant considers qualified investment - as defined in Tax Code §313.021(1)(A)-(D). For the purposes of investment, please list amount invested each year, not cumulative totals. [For the years outside the qualifying time period, this number should simply represent the planned investment in tangible personal property].

Column B: Include estimates of investment for "replacement" property-property that is part of original agreement but scheduled for probable replacement during limitation period. The total dollar amount of planned investment each year in buildings or nonremovable component of buildings that the applicant considers qualified investment under Tax Code §313.021(1)(E).

Column C: For the years outside the qualifying time period, this number should simply represent the planned investment in new buildings or nonremovable components of buildings. Dollar value of other investment that may not be qualified investment but that may affect economic impact and total value-for planning, construction and operation of the facility. The most significant example for many projects would be land. Other examples may be items such as professional services, etc.

Column D: Note: Land can be listed as part of investment during the "pre-year 1" time period. It cannot be part of qualifying investment.

Notes: For advanced clean energy projects, nuclear projects, projects with deferred qualifying time periods, and projects with lengthy application review periods, insert additional rows as needed. This schedule must be submitted with the original application and any application for tax credit. When using this schedule for any purpose other than the original application, replace original estimates with actual appraisal district data for past years and update estimates for current and future years. If original estimates have not changed, enter those amounts for future years.

Dear Property Owner:

We have appraised your property for the tax year 2011 based on an appraisal date of January 1 of this year. Your estimated taxes are calculated using the previous year's tax rates and the taxable value for this year. This is the amount you would pay if the governing body of each jurisdiction were to adopt the same tax rate as last year. "The Texas legislature does not set the amount of your local taxes. Your property tax burden is decided by your locally elected officials, and all inquiries concerning your taxes should be directed to those officials." The governing body of each jurisdiction decides whether taxes on the property will increase, and the appraisal district only determines the property value. The property is described adjacent to your mailing address. If you are 65 or older and you received the school tax exemption on your home, your school taxes for this year will not be higher than when you received the exemption, unless you have improved your property (by adding rooms, other buildings, swimming pool, etc.)
