OF THE
ARCHER CITY INDEPENDENT
SCHOOL DISTRICT BOARD OF TRUSTEES
UNDER THE
TEXAS ECONOMIC DEVELOPMENT ACT
ON THE APPLICATION SUBMITTED BY
BRIAR CREEK LLC**

AUGUST 27, 2012

Board Findings of the Archer City Independent School District

The Application was delivered to the Texas Comptroller's Office for review pursuant to Texas Tax Code § 313.025(d). A copy of the Application was delivered to the Archer City Appraisal District for review pursuant to 34 Tex. Admin. Code § 9.1054.

The Application was reviewed by the Texas Comptroller's Office pursuant to Texas Tax Code § 313.026, and a favorable recommendation was issued on August 14, 2012. A copy of the Comptroller's letter is attached to the findings as **Attachment C**.

After receipt of the Application, the Texas Comptroller of Public Accounts caused to be conducted an economic impact evaluation pursuant to Texas Tax Code § 313.026 and the Board of Trustees has carefully considered such evaluation. A copy of the economic impact evaluation is attached to these findings as **Attachment D**.

The Board of Trustees also directed that a specific financial analysis be conducted of the impact of the proposed value limitation on the finances of the Archer City Independent School District. A copy of a report prepared by Moak, Casey & Associates, Inc. is attached to these findings as **Attachment E**.

The Board of Trustees has confirmed that the taxable value of property in the Archer City Independent School District for the preceding tax year, as determined under Subchapter M, Chapter 403, Government Code, is as stated in **Attachment F**.

After receipt of the Application, the District entered into negotiations with Briar Creek, over the specific language to be included in the Agreement for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code, including appropriate revenue protection provisions for the District. The proposed Agreement is attached to these findings as **Attachment G**.

Board Findings of the Archer City Independent School District

After review of the Comptroller's recommendation, and in consideration of its own economic impact study the Board finds:

Board Finding Number 1.

There is a strong relationship between the Applicant's industry and the types of qualifying jobs to be created by the Applicant and the long-term economic growth plan of this State as described in the strategic plan for economic development (ED Plan) submitted by the Texas Strategic Economic Development Planning Commission under Section 481.033, Texas Government Code.

In support of Finding 1, the economic impact evaluation states:

The Texas Economic Development Plan focuses on attracting and developing industries using technology. It also identifies opportunities for existing Texas industries. The plan centers on promoting economic prosperity throughout Texas and the skilled workers that the Briar Creek LLC project requires appear to be in line with the focus and themes of the plan. Texas identified energy as one of six target clusters in the Texas Cluster Initiative. The plan stresses the importance of technology in all sectors of the energy industry.

Board Finding Number 2.

The economic condition of Archer County, Texas, is in need of long-term improvement.

Based on information provided by the Comptroller's Office, Archer County is the 173rd largest in the state in terms of population. Population growth in Archer County is positive and was the state's 169th fastest growing county from 2009 to 2010. The state population grew by 1.8 percent between 2009 and 2010, while the population of Archer County increased by 0.3 percent over the same period.

September 2011 employment for Archer County was down 2.2 percent from September 2010, well below the state's 0.9 percent increase in total employment during the same period. The unemployment rate in Archer County was 6.7 percent in September 2011, significantly less than the current state average of 8.5 percent. It is noteworthy that the Archer County

Board Findings of the Archer City Independent School District

unemployment rate increased from 5.6 percent a year ago to the 6.7 percent level in September 2011.

Archer County continues to have a somewhat higher per capita personal income than the state as a whole. In terms of per capita income, Archer County's \$41,857 in 2009 ranked 24th among the 254 counties in Texas, while the Texas average was \$38,609 for the same period.

In the fourth quarter of 2010, taxable sales totaled \$12.95 million in Archer County. This figure reflects a 6.1 percent increase from the year-earlier fourth quarter.

While a number of these indicators are positive, the local economy in Archer County is susceptible to adverse changes because of its relatively small population base and dependence on the oil and gas industry. Archer County will benefit from economic activity like that associated with the Briar Creek project. Major capital investments like this project are beneficial to the community on a number of fronts, including direct and indirect employment, expanded opportunities for existing businesses and increased local tax bases.

Board Finding Number 3.

The average salary level of qualifying jobs is expected to be at least \$41,968 per year. The review of the application by the State Comptroller's Office indicated that this amount—based on Texas Workforce Commission data—complies with the requirement that qualifying jobs must pay 110 percent of the regional average manufacturing wage. Briar Creek indicates that total employment will be approximately seven (7) new jobs, six (6) of which will be qualifying jobs.

In support of Finding 3, the economic impact evaluation states:

After construction, the project will create seven new jobs when fully operational. Six of those jobs will meet the criteria for qualifying jobs as specified in Tax Code Section 313.021(3). According to the Texas Workforce Commission (TWC), the regional manufacturing wage for the Nortex Regional Planning Commission Region, where Archer County is located was \$38,153 in 2010. The annual average manufacturing wage for 2010-2011 for Archer County is \$27,742. That same year, the county annual average wage for all industries was \$31,697. In addition to a salary

Board Findings of the Archer City Independent School District

of \$41,968, each qualifying position will receive medical, dental, vision, and life insurance.

Board Finding Number 4.

The level of the applicant's average investment per qualifying job over the term of the Agreement is estimated to be approximately \$50.00 million on the basis of the goal of six (6) new qualifying positions for the entire Briar Creek project.

In support of Finding 4, the economic impact evaluation states:

The project's total investment is \$300 million, resulting in a relative level of investment per qualifying job of \$50 million.

Board Finding Number 5.

Based upon the information provided to the District with regard to the industry standard for staffing ratios of similar projects in the State of Texas, the District has determined that if the job creation requirement set forth in Texas Tax Code § 313.021(2)(A)(iv)(b) was applied, for the size and scope of the project described in the Application, the required number of jobs meets or exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility.

Board Finding Number 6.

Subsequent economic effects on the local and regional tax bases will be significant. In addition, the impact of the added infrastructure will be significant to the region.

Table 1 depicts Briar Creek LLC's estimated economic impact to Texas. It depicts the direct, indirect and induced effects to employment and personal income within the state. The Comptroller's office calculated the economic impact based on 16 years of annual investment and employment levels using software from Regional Economic Models, Inc. (REMI). The impact includes the construction period and the operating period of the project.

The statewide average ad valorem tax base for school districts in Texas was \$1.6 billion in 2010. Archer City ISD's ad valorem tax base in 2010 was \$181 million. The statewide average wealth per WADA was estimated at \$345,067 for fiscal 2010-2011. During that same year, Archer City ISD's estimated wealth per WADA was \$221,995. The impact on the facilities and finances of the district are presented in Attachment 2.

Table 2 examines the estimated direct impact on ad valorem taxes to the school district and Archer County with all property tax incentives sought being granted using estimated market value from Briar Creek LLC's application. Briar Creek LLC has applied for both a value limitation under Chapter 313, Tax Code and tax abatement with the county. Table 3 illustrates the estimated tax impact of the Briar Creek LLC project on the region if all taxes are assessed.

¹Tax Rate per \$100 Valuation

Board Finding Number 7.

The revenue gains that will be realized by the school district if the Application is approved will be significant in the long-term, with special reference to revenues used for supporting school district debt.

In support of this finding, the analysis prepared by Moak, Casey & Associates projects that the project would initially add \$255 million to the tax base for debt service purposes at the peak investment level for the 2013-14 school year. The Briar Creek project remains fully taxable for debt services taxes, with Archer County ISD currently levying a \$0.08 per \$100 I&S rate. At its peak of taxable value, the project should permit AISD to reduce its I&S rate by an estimated \$0.0475 as a result of the Briar Creek project. The value of the Briar Creek project is expected to depreciate over the life of the agreement and beyond, but full access to the additional value will add to the District's tax base.

Board Finding Number 8.

The effect of the applicant's proposal, if approved, on the number or size of needed school district instructional facilities is not expected to increase the District's facility needs, with current trends suggest little underlying enrollment growth based on the impact of the Briar Creek project.

The summary of financial impact prepared by Moak, Casey & Associates, Inc., indicates that there will be little to no impact on school facilities created by the new wind energy project. This finding is confirmed by the TEA evaluation of this project's impact on the number and size of school facilities in Archer County ISD as stated in **Attachment D**.

Board Finding Number 9.

The ability of the applicant to locate the proposed facility in another state or another region of this state is substantial, as a result of the highly competitive marketplace for economic development.

In support of Finding 8, the economic impact evaluation states:

According to Briar Creek LLC's application,

“Briar Creek LLC has the ability to relocate to another state or another region of the state. Wind farms are currently being developed in numerous

Board Findings of the Archer City Independent School District

other states, including, but not limited to, Colorado, Kansas, New Mexico, Oklahoma, California and Minnesota. Within Texas, at least 25 other counties have wind farms proposed, under construction or are currently operating with potential new sites growing yearly. The Company could invest its resources in any of these locations.”

Board Finding Number 10.

During the past two years, six projects in the Nortex Regional Planning Commission Region applied for value limitation agreements under Tax Code, Chapter 313.

Board Finding Number 11.

The Board of Trustees hired consultants to review and verify the information in the Application from Briar Creek. Based upon the consultants’ review, the Board has determined that the information provided by the Applicant is true and correct.

Board Finding Number 12.

The Board of Trustees has determined that the Tax Limitation Amount requested by Applicant is currently Ten Million Dollars, which is consistent with the minimum values currently set out by Tax Code, §§ 313.054(a).

According to the Texas Comptroller of Public Accounts’ School and Appraisal Districts’ Property Value Study 2010 Final Findings made under Subchapter M, Chapter 403, Government Code for the preceding tax year, Attachment F, the total 2010 industrial value for Archer County ISD is \$17.8 million. Archer County ISD is categorized as Subchapter C, which applies to rural schools districts, in this case based on their demographic characteristics. Given that the value of industrial property in Archer County ISD exceeds \$1 million but is less than \$90 million, it is classified as a Category III district which can offer a minimum value limitation of \$10 million.

Board Finding Number 13.

The Applicant (Taxpayer Id. 32039891240) is eligible for the limitation on appraised value of qualified property as specified in the Agreement based on its “good standing” certification as a franchise-tax paying entity.

Board Findings of the Archer City Independent School District

Board Finding Number 14.

The Agreement for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code, attached hereto as Attachment G, includes adequate and appropriate revenue protection provisions for the District.

In support of this finding, the report of Moak, Casey & Associates, Inc. shows that the District will incur a revenue loss in the first year that the value limitation is in effect without the proposed Agreement. However, with this Agreement, the negative consequences of granting the value limitation are offset through the revenue protection provisions agreed to by the Applicant and the District. Revenue protection measures are also in place for the duration of the Agreement.

Board Finding Number 15.

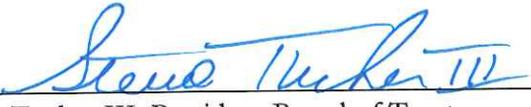

Considering the purpose and effect of the law and the terms of the Agreement, that it is in the best interest of the District and the State to enter into the attached Agreement for Limitation on Appraised Value of Property for School District Maintenance and Operations Taxes.

It is therefore ORDERED that the Agreement attached hereto as **Attachment G** is approved and hereby authorized to be executed and delivered by and on behalf of the Archer County Independent School District. It is further ORDERED that these findings and the Attachments referred to herein be attached to the Official Minutes of this meeting, and maintained in the permanent records of the Board of Trustees of the Archer County Independent School District.

This represents the total dollar amount of planned investment in tangible personal property the applicant considers qualified investment - as defined in Tax Code §313.021(1)(A)-(D).
Column A:
For the purposes of investment, please list amount invested each year, not cumulative totals.
[For the years outside the qualifying time period, this number should simply represent the planned investment in tangible personal property].
Include estimates of investment for "replacement" property-property that is part of original agreement but scheduled for probable replacement during limitation period.
Column B:
The total dollar amount of planned investment each year in buildings or nonremovable component of buildings that the applicant considers qualified investment under Tax Code §313.021(1)(E).
Column C:
For the years outside the qualifying time period, this number should simply represent the planned investment in new buildings or nonremovable components of buildings.
Dollar value of other investment that may not be qualified investment but that may affect economic impact and total value-for planning, construction and operation of the facility.
The most significant example for many projects would be land. Other examples may be items such as professional services, etc.
Note: Land can be listed as part of investment during the "pre-year 1" time period. It cannot be part of qualified investment.
Notes: For advanced clean energy projects, nuclear projects, projects with deferred qualifying time periods, and projects with lengthy application review periods, insert additional rows as needed.
This schedule must be submitted with the original application and any application for tax credit. When using this schedule for any purpose other than the original application, replace original estimates with actual appraisal district data for past years and update estimates for current and future years. If original estimates have not changed, enter those amounts for future years.

Attachment 4

Briar Creek LLC is proposing to construct, operate, and maintain a wind-powered electric generation facility to be located in the County which will expand the local tax base and contribute to employment in the County. The Project will have an operating capacity of up to one hundred and seventy five (175) megawatts ("MW") and up to 120 wind turbines.

Phase A. Construction of Phase A, approximately 57% of the total project, is anticipated to begin in August 2012. Phase A will have an estimated nameplate capacity of 100 MW and will be fully operational by December 2012.

Phase B. Approximately 43% of the project is allocated to Phase B. Construction of Phase B is planned for Spring of 2014, with Phase B fully operational by December 2014. Phase B will have an estimated nameplate capacity of 75 MW.

The exact number of wind turbines and the size of the wind turbines will vary depending upon the wind turbine model selected and the nameplate capacity of each wind turbine. The additional improvements will consist of all related materials and equipment installed for the Project including, but not limited to, wind turbines, towers, foundations, roadways, permanent buildings and offices, office equipment and computers, anemometers towers, electrical transmission interconnects, cables, towers, and electrical substations, spare parts and control systems necessary for commercial generation of electricity.

Ability to relocate

Briar Creek LLC has the ability to relocate to another state or another region of the state. Wind farms are currently being developed in numerous other states, including, but not limited to, Colorado, Kansas, New Mexico, Oklahoma, California and Minnesota. Within Texas, at least 25 other counties have wind farms proposed, under construction or are currently operating with potential new sites growing yearly. The Company could invest its resources in any of these locations.

Attachment 5

Attachment 6

The qualified investment will consist of up to 120 wind turbines in the Archer City ISD with an operating capacity of up to 175 MWs, depending upon the wind turbine model selected and the nameplate capacity of each wind turbine. In addition to the wind turbines, electrical connections will be installed to permit the interconnection and transmission of electricity generated by the wind turbines. The size and number of turbines will ultimately be determined by the timing of the development and construction of the project and availability of turbines. There will be an electrical substation within the project boundary, a transmission line to the inter-connection, permanent buildings and offices, office equipment and computers, anemometers towers, electrical transmission interconnects, cables, towers, spare parts, control systems necessary for commercial generation of electricity, fencing and other equipment as needed for safety and security and related office and control buildings and personal property supporting the project.

Briar Creek LLC requests that Archer City ISD waive the job creation requirement as allowed by Tax Code §313.025(f-1).

Wind projects create a large number of construction jobs but require a small number of highly skilled technicians to operate a wind project once commercial operations start. The permanent employees of a wind project maintain and service wind turbines, underground electrical connections, substations, and other infrastructure associated with the safe and reliable operation of the project. Based upon a survey of experienced developers and operators of large scale wind projects, we find that industry standard for permanent employment is one full-time employee for every fifteen turbines. This number can and does vary depending upon the operator, turbine type, and the support and technical assistance (warranty) offered by the turbine manufacturer. In addition to the onsite employees described above, there may be asset managers or technicians who supervise, monitor, and support wind project operations from offsite locations.

Qualifying Time Period usually begins with the final board approval of the application and extends generally for the following two complete tax years. This represents the total dollar amount of planned investment in tangible personal property the applicant considers qualified investment - as defined in Tax Code §313.021(1)(A)-(D).

Column A: For the purposes of investment, please list amount invested each year, not cumulative totals.

Column B: For the years outside the qualifying time period, this number should simply represent the planned investment in tangible personal property. Include estimates of investment for "replacement" property-property that is part of original agreement but scheduled for probable replacement during limitation period.

Column C: The total dollar amount of planned investment each year in buildings or nonremovable component of buildings that the applicant considers qualified investment under Tax Code §313.021(1)(E).

Column D: For the years outside the qualifying time period, this number should simply represent the planned investment in new buildings or nonremovable components of buildings. Dollar value of other investment that may not be qualified investment but that may affect economic impact and total value-for planning, construction and operation of the facility. The most significant example for many projects would be land. Other examples may be items such as professional services, etc.

Column E: Note: Land can be listed as part of investment during the "pre-year 1" time period. It cannot be part of qualifying investment. Notes: For advanced clean energy projects, nuclear projects, projects with deferred qualifying time periods, and projects with lengthy application review periods, insert additional rows as needed. This schedule must be submitted with the original application and any application for tax credit. When using this schedule for any purpose other than the original application, replace original estimates with actual appraisal district data for past years and update estimates for current and future years. If original estimates have not changed, enter those amounts for future years.

Randel Beaver
Superintendent
Archer City Independent School District
P. O. Box 926
Archer City, Texas 76351

Dear Superintendent Beaver:

On February 7, 2012, the Comptroller received the completed application for a limitation on appraised value under the provisions of Tax Code Chapter 313¹. This application was originally submitted in December 19, 2011 to the Archer City Independent School District (Archer City ISD) by Briar Creek LLC. On June 1, 2012, the Comptroller received revised application schedules and other supplemental application materials. This letter presents the results of the comptroller's review of the application:

- 1) under Section 313.025(h) to determine if the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C; and
- 2) under Section 313.025(d), to make a recommendation to the governing body of the school district as to whether the application should be approved or disapproved using the criteria set out by Section 313.026.

Archer City ISD is currently classified as a rural school district in Category 3 according to the provisions of Chapter 313. Therefore, the applicant properly applied under the provisions of Subchapter C, applicable to rural school districts. The amount of proposed qualified investment (\$300 million) is consistent with the proposed appraised value limitation sought (\$10 million). The property value limitation amount noted in this recommendation is based on property values available at the time of application and may change prior to the execution of any final agreement. Briar Creek LLC is proposing the construction of a wind power electric generation facility in Archer County. Briar Creek LLC is an active franchise taxpayer in good standing, as required by Tax Code Section 313.024(a).

As required by Section 313.024(h), the Comptroller has determined that the property, as described by the application, meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C.

After reviewing the application using the criteria listed in Section 313.026, and the information provided by Briar Creek LLC, the Comptroller's recommendation is that Briar Creek's application under Tax Code Chapter 313 be approved.

Our review of the application assumes the truth and accuracy of the statements in the application and that, if the application is approved, the applicant would perform according to the provisions of the agreement reached with the school district. Our recommendation does not address whether the applicant has complied with all Chapter 313 requirements. The school district is responsible for verifying that all requirements of the statute have been fulfilled. Additionally, Section 313.025 requires the school district to determine if the evidence supports making specific findings that the information in the application is

¹ All statutory references are to the Texas Tax Code, unless otherwise noted.

true and correct, the applicant is eligible for a limitation and that granting the application is in the best interest of the school district and state. When approving a job waiver requested under Section 313.025 (f-1), the school district must also find that the statutory jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility. As stated above, we prepared the recommendation by generally reviewing the application and supporting documentation in light of the Section 313.026 criteria and a cursory review of the industry standard evidence necessary to support the waiver of the required number of jobs.

The Comptroller's recommendation is based on the application that has been submitted and reviewed by the Comptroller. The recommendation may not be used by the ISD to support its approval of the property value limitation agreement if the application is modified, the information presented in the application changes, or the limitation agreement does not conform to the application. Additionally, this recommendation is contingent on future compliance with the Chapter 313 and the Texas Administrative Code, with particular reference to the following requirements related to the execution of the agreement:

1. The applicant must provide the Comptroller a copy of the proposed limitation on appraised value agreement no later than 10 days prior to the meeting scheduled by the district to consider approving the agreement, so that the Comptroller may review it for compliance with the statutes and the Comptroller's rules as well as consistency with the application;
2. The Comptroller providing written confirmation that it received and reviewed the draft agreement and affirming the recommendation made in this letter;
3. The district must approve and execute a limitation agreement that has been reviewed by this office within a year from the date of this letter; and
4. Section 313.025 requires the district to provide to the Comptroller a copy of the signed limitation agreement within 7 days after execution.

Should you have any questions, please contact Robert Wood, director of Economic Development & Analysis Division, by email at robert.wood@cpa.state.tx.us or by phone at 1-800-531-5441, ext. 3-3973, or direct in Austin at 512-463-3973.

Martin A. Hubert

Dear Mr. Wood:

The Texas Education Agency has again reanalyzed the revenue gains that would be realized by the proposed Briar Creek LLC project for the Archer City Independent School District (ACISD). Projections prepared by our Office of School Finance confirm the further-revised analysis that was prepared by Moak, Casey and Associates and provided to us by your division. We believe their assumptions regarding the potential revenue gain are valid, and their estimates of the impact of the Briar Creek LLC project on ACISD are correct.

Dear Mr. Wood:

As required by the Tax Code, §313.025 (b-1), the Texas Education Agency (TEA) has evaluated the impact of the proposed Briar Creek LLC project on the number and size of school facilities in Archer City Independent School District (ACISD). Based on the further-revised analysis prepared by Moak, Casey and Associates for the school district, the TEA has found that the Briar Creek LLC project still would not have a significant impact on the number or size of school facilities in ACISD.

Please feel free to contact Al McKenzie, manager of forecasting, facilities, and transportation, by phone at (512) 463-9186 or by email at al.mckenzie@tea.state.tx.us if you need further information regarding this issue.

**SUMMARY OF FINANCIAL IMPACT OF THE PROPOSED BRIAR
CREEK, LLC PROJECT ON THE FINANCES OF THE ARCHER CITY
INDEPENDENT SCHOOL DISTRICT UNDER A REQUESTED
CHAPTER 313 PROPERTY VALUE LIMITATION**

August 20, 2012

Amended Final Report

PREPARED BY

Estimated Impact of the Proposed Briar Creek, LLC Project on the Finances of the Archer City Independent School District under a Requested Chapter 313 Property Value Limitation

Introduction

Briar Creek, LLC (Briar Creek) has requested that the Archer City Independent School District (ACISD) consider granting a property value limitation under Chapter 313 of the Tax Code, also known as the Texas Economic Development Act. In an application submitted to ACISD on December 16, 2011, as amended on May 9, 2012, Briar Creek proposes to invest \$263 million to construct a new wind energy project in ACISD.

The Briar Creek project is consistent with the state's goal to "encourage large scale capital investments in this state." When enacted as House Bill 1200 in 2001, Chapter 313 of the Tax Code granted eligibility to companies engaged in manufacturing, research and development, and renewable electric energy production to apply to school districts for property value limitations. Subsequent legislative changes expanded eligibility to clean coal projects, nuclear power generation and data centers, among others.

Under the provisions of Chapter 313, ACISD may offer a minimum value limitation of \$10 million. The provisions of Chapter 313 call for the project to be fully taxable in the 2013-14 and 2014-15 school years, unless the District and the Company agree to an extension of the start of the two-year qualifying time period. For the purpose of this analysis, it is assumed that the qualifying time period will be the 2013-14 and 2014-15 school years. Beginning in the 2015-16 school year, the project would go on the local tax roll at \$10 million and remain at that level of taxable value for eight years for maintenance and operations (M&O) taxes.

The full taxable value of the project could be assessed for debt service taxes on voter-approved bond issues throughout the limitation period, with ACISD currently levying a \$0.08 per \$100 I&S tax rate. The full value of the investment is expected to reach \$255 million in 2013-14, with relatively rapid depreciation over the next five years expected to reduce the taxable value of the project, reaching a terminal value of \$51 million in the 2018-19 school year.

In the case of the Briar Creek project, the agreement calls for a calculation of the revenue impact of the value limitation in years 3-10 of the agreement, under whatever school finance and property tax laws are in effect in each of those years. ACISD would experience a revenue loss as a result of the implementation of the value limitation in the 2015-16 school year (-\$166,185), with no future revenue losses anticipated after the first year the value limitation takes effect.

Under the assumptions outlined below, the potential tax benefits under a Chapter 313 agreement could reach an estimated \$7.08 million over the course of the agreement. This amount is net of any anticipated revenue losses for the District.

School Finance Mechanics

Under the current school finance system, the property values established by the Comptroller's Office that are used to calculate state aid and recapture lag by one year, a practical consequence of the fact that the Comptroller's Office needs this time to conduct its property value study and now the planned audits of appraisal district operations in alternating years. A taxpayer receiving a value limitation pays M&O taxes on the reduced value for the project in years 3-10 and receives a tax bill for I&S taxes based on the full project value throughout the qualifying and value limitation period (and thereafter). The school funding formulas use the Comptroller's property values that reflect a reduction due to the property value limitation in years 4-11 as a result of the one-year lag in property values.

The third year is often problematical financially for a school district that approves a Chapter 313 value limitation. The implementation of the value limitation often results in a revenue loss to the school district in the third year of the agreement that would not be reimbursed by the state, but require some type of compensation from the applicant under the revenue protection provisions of the agreement. In years 4-10, smaller revenue losses would be anticipated when the state property values are aligned at the minimum value established by the Board on both the local tax roll and the corresponding state property value study, assuming a similar deduction is made in the state property values.

Under the HB 1 system adopted in 2006, most school districts received additional state aid for tax reduction (ASATR) that was used to maintain their target revenue amounts established at the revenue levels under old law for the 2005-06 or 2006-07 school years, whichever was highest. In terms of new Chapter 313 property value limitation agreements, adjustments to ASATR funding often moderated the impact of the reduced M&O collections as a result of the limitation, in contrast with the earlier formula-driven finance system.

House Bill 3646 as enacted in 2009 created more "formula" school districts that were less dependent on ASATR state aid than had been the case previously. The formula reductions enacted under Senate Bill 1 (SB 1) as approved in the First Called Session in 2011 are designed to make \$4 billion in reductions to the existing school funding formulas for the 2011-12 and 2012-13 school years. For the 2011-12 school year, across-the-board reductions were made that reduced each district's WADA count and resulted in an estimated 786 school districts still receiving ASATR to maintain their target revenue funding levels, while an estimated 241 districts operating directly on the state formulas.

For the 2012-13 school year, the SB 1 changes called for smaller across-the-board reductions and funding ASATR-receiving target revenue districts at 92.35 percent of the level provided for under the existing funding formula. These changes result in 624 formula districts and 403 ASATR districts.

For the 2013-14 school year and beyond, the ASATR reduction percentage will be set in the General Appropriations Act. The recent legislative session also saw the adoption of a statement of legislative intent to no longer fund target revenue (through ASATR) by the 2017-18 school year. ASATR state funding could be reduced in future years and is anticipated to be eliminated by the 2017-18 school year, based on current state policy.

One key element in any analysis of the school finance implications is the provision for revenue protection in the agreement between the school district and the applicant. In the case of the Briar Creek project, the agreement calls for a calculation of the revenue impact of the value limitation

in years 3-10 of the agreement, under whatever school finance and property tax laws are in effect in each of those years. This meets the statutory requirement under Section 313.027(f)(1) of the Tax Code to provide school district revenue protection language in the agreement.

Underlying Assumptions

There are several approaches that can be used to analyze the future revenue stream of a school district under a value limitation. Whatever method is used, a reasonable analysis requires the use of a multi-year forecasting model that covers the years in which the agreement is in effect. The Chapter 313 application now requires 15 years of data and analysis on the project being considered for a property value limitation.

The general approach used here is to maintain static enrollment and property values in order to isolate the effects of the value limitation under the school finance system. The current SB 1 reductions are reflected in the underlying models. With regard to ASATR funding the 92.35 percent reduction enacted for the 2012-13 school year and thereafter, until the 2017-18 school year. A statement of legislative intent was adopted in 2011 to no longer fund target revenue by the 2017-18 school year, so that change is reflected in the estimates presented below. The projected taxable values of the Briar Creek, LLC project are factored into the base model used here. The impact of the limitation value for the proposed Briar Creek project is isolated separately and the focus of this analysis.

Student enrollment counts are held constant at 470 students in average daily attendance (ADA) in analyzing the effects of the Briar Creek project on the finances of ACISD. The District's local tax base is expected to reach \$212 million for the 2011 tax year and is maintained for the forecast period in order to isolate the effects of the property value limitation. An M&O tax rate of \$1.04 is used throughout this analysis. ACISD has estimated state property wealth per weighted ADA or WADA of approximately \$229,686 for the 2012-13 school year. The enrollment and property value assumptions for the 15 years that are the subject of this analysis are summarized in Table 1.

School Finance Impact

School finance models were prepared for ACISD under the assumptions outlined above through the 2027-28 school year. Beyond the 2012-13 school year, no attempt was made to forecast the 88th percentile or Austin yield that influence future state funding beyond the projected level for that school year. In the analyses for other districts and applicants on earlier projects, these changes appeared to have little impact on the revenue associated with the implementation of the property value limitation, since the baseline and other models incorporate the same underlying assumptions.

Under the proposed agreement, a model is established to make a calculation of the "Baseline Revenue" by adding the value of the proposed Briar Creek facility to the model, but without assuming that a value limitation is approved. The results of the model are shown in Table 2.

A second model is developed which adds the Briar Creek value but imposes the proposed property value limitation effective in the third year, which in this case is the 2015-16 school year. The results of this model are identified as "Value Limitation Revenue Model" under the revenue protection provisions of the proposed agreement (see Table 3).

A summary of the differences between these models is shown in Table 4. The model results show approximately \$4.3 million annually in net General Fund revenue for most years, after recapture (if appropriate) and other adjustments have been made, as needed.

Under these assumptions, ACISD would experience a revenue loss as a result of the implementation of the value limitation in the 2015-16 school year (-\$166,185). The revenue reduction results from the mechanics of the up to six cents beyond the compressed M&O tax rate equalized to the Austin yield or not subject to recapture, which reflect the one-year lag in value associated with the property value study.

As noted previously, no attempt was made to forecast further reductions in ASATR funding beyond the 92.35 percent adjustment adopted for the 2012-13 school year, although it is assumed that ASATR will be eliminated beginning in the 2017-18 school year, based on the 2011 statement of legislative intent.

One risk factor under the estimates presented here relates to the implementation of the value limitation in the 2015-16 school year. The formula loss of \$166,185 cited above between the base and the limitation models is based on an assumption of Briar Creek achieving \$1.35 million in M&O tax savings when the \$10 million limitation is implemented. Under the estimates presented here and as highlighted in Table 4, a \$1.15 million increase in ASATR funding is expected to offset most of the reduction in M&O taxes in the first year the value limitation is in effect.

In general, the ASATR offset poses little financial risk to the school district as a result of the adoption of the value limitation agreement. But a significant reduction of ASATR funding for the 2015-16 school year could reduce the residual tax savings for Briar Creek in the first year that the \$10 million value limitation takes effect.

The Comptroller's state property value study influences these calculations, as noted previously. At the school-district level, a taxpayer benefiting from a property value limitation has two property values assigned by the local appraisal district for their property covered by the limitation: (1) a reduced value for M&O taxes, and (2) the full taxable value for I&S taxes. This situation exists for the eight years that the value limitation is in effect. The Comptroller's Property Tax Assistance Division makes two value determinations for school districts granting Chapter 313 agreements, consistent with local practice. A consolidated single state property value had been provided previously.

Impact on the Taxpayer

Table 5 summarizes the impact of the proposed property value limitation in terms of the potential tax savings under the property value limitation agreement. The focus of this table is on the M&O tax rate only. As noted previously, the property is fully taxable in the first two years under the agreement. A \$1.04 per \$100 of taxable value M&O rate is assumed in 2012-13 and thereafter.

Under the assumptions used here, the potential tax savings from the value limitation total \$5.0 million over the life of the agreement. In addition, Briar Creek would be eligible for a tax credit for M&O taxes paid on value in excess of the value limitation in each of the first two qualifying years. The credit amount is paid out slowly through years 4-10 due to statutory limits on the scale of these payments over these seven years, with catch-up payments permitted in years 11-13. Given the ramp-up of the project in the initial qualifying year as reflected in the application, tax credits are expected to total approximately \$4.3 million over the life of the agreement, although it

appears that only \$2.2 million of this amount will be eligible tax credits. The school district is to be reimbursed by the Texas Education Agency for the cost of these credits.

The key ACISD revenue losses are expected to total approximately -\$166,185 in the initial 2015-16 tax year, when the \$10 million value limitation agreement takes effect. The potential net tax benefits (inclusive of tax credits but after hold-harmless payments are made) are estimated to total \$7.08 million over the life of the agreement. While legislative changes to ASATR funding could increase the hold-harmless amount owed in the initial year the limitation takes effect, there would still be a substantial tax benefit to Briar Creek under the value limitation agreement for the remaining years that the limitation is in effect.

Facilities Funding Impact

The Briar Creek project remains fully taxable for debt services taxes, with ACISD currently levying a \$0.08 per \$100 I&S rate. While the value of the Briar Creek project is expected to depreciate rapidly in the first five years of the agreement, full access to the additional value should permit ACISD to reduce its I&S tax rate by an estimated \$0.0475 cents in the peak value year.

The Briar Creek project is not expected to affect ACISD in terms of enrollment. Continued expansion of the project and related development could result in additional employment in the area and an increase in the school-age population, but this project is unlikely to have much impact on a stand-alone basis.

Conclusion

The proposed Briar Creek wind energy project enhances the tax base of ACISD. It reflects continued capital investment in keeping with the goals of Chapter 313 of the Tax Code.

Under the assumptions outlined above, the potential tax savings for the applicant under a Chapter 313 agreement could reach an estimated \$7.08 million. (This amount is net of any anticipated revenue losses for the District.) The additional taxable value also enhances the tax base of ACISD in meeting its future debt service obligations.

***Note:** School District Revenue-Loss estimates are subject to change based on numerous factors, including legislative and Texas Education Agency administrative changes to school finance formulas, year-to-year appraisals of project values, and changes in school district tax rates. One of the most substantial changes to the school finance formulas related to Chapter 313 revenue-loss projections could be the treatment of Additional State Aid for Tax Reduction (ASATR). Legislative intent is to end ASATR in 2017-18 school year. Additional information on the assumptions used in preparing these estimates is provided in the narrative of this Report.

PROTECTION AGAINST LOSS OF FUTURE DISTRICT REVENUES

Section 3.1. INTENT OF THE PARTIES

Subject to the limitations contained in this Agreement (including Section 5.1), it is the intent of the Parties that the District shall, in accordance with the provisions of Texas Tax Code, §313.027(f)(1), be compensated by the Applicant for any loss that the District incurs in its Maintenance and Operations Revenue solely as a result of, or on account of, entering into this Agreement, after taking into account any payments to be made under this Agreement. Such payments shall be independent of, and in addition to such other payments as set forth in Article IV. Subject to the limitations contained in this Agreement (including Section 5.1), it is the intent of the Parties that the risk of any negative financial consequence to the District in making the decision to enter into this Agreement will be borne by the Applicant and not by the District.

Section 3.2. CALCULATING THE AMOUNT OF LOSS OF REVENUES BY THE DISTRICT

Subject to the provisions of Sections 5.1 and 5.2, the amount to be paid by the Applicant to compensate the District for loss of Maintenance and Operations Revenue resulting from, or on account of, this Agreement for each year during the term of this Agreement (the "M&O Amount") shall be determined in compliance with the Applicable School Finance Law in effect for such year and according to the following formula:

The M&O Amount owed by the Applicant to the District means the Original M&O Revenue *minus* the New M&O Revenue;

Where:

- i. "Original M&O Revenue" means the total State and local Maintenance & Operations Revenue that the District would have received for the school year under the Applicable School Finance Law had this Agreement not been entered into by the Parties and the Applicant's Qualified Property and/or Applicant's Qualified Investment been subject to the ad valorem maintenance and operations tax.
- ii. "New M&O Revenue" means the total State and local Maintenance & Operations Revenue that the District actually received for such school year, after all adjustments have been made to such Maintenance and Operations Revenue because of any portion of this Agreement.

In making the calculations required by this Section 3.2:

- i. The Taxable Value of property for each school year will be determined under the Applicable School Finance Law.
- ii. For purposes of this calculation, the tax collection rate on the Applicant's Qualified Property and/or the Applicant's Qualified Investment will be presumed to be one hundred percent (100%).
- iii. If, for any year of this Agreement, the difference between the Original M&O Revenue and the New M&O Revenue as calculated under this Section 3.2 results in a negative number, the negative number will be considered to be zero.
- iv. All calculations made for years three (3) through ten (10) of this Agreement under Section 3.2, Subsection ii, of this Agreement relating to the definition of "New M&O Revenue" will reflect the Tax Limitation Amount for such year.
- v. All calculations made under this Section 3.2 shall be made by a methodology which isolates only the revenue impact caused by this Agreement. The Applicant shall not be responsible to reimburse the District for other revenue losses created by other agreements or any other factors not contained in this Agreement.

Section 3.3. COMPENSATION FOR LOSS OF OTHER REVENUES

In addition to the amounts determined pursuant to Section 3.2 above, and to the extent provided in Section 6.3, the Applicant, on an annual basis, shall also indemnify and reimburse the District for the following:

- (a) all non-reimbursed costs, certified by a Third Party pursuant to Section 3.4, incurred by the District in paying or otherwise crediting to the account of the Applicant, any applicable Tax Credit to which the Applicant may be entitled pursuant to Chapter 313, Subchapter D of the Texas Tax Code, and for which the District does not receive reimbursement from the State pursuant to Texas Education Code §42.2515, or other similar or successor statute.
- (b) all non-reimbursed costs, certified by the District's external auditor to have been incurred by the District for extraordinary education-related expenses directly related to the Applicant's Qualified Investment that are not directly funded in state aid formulas, including expenses for the purchase of portable classrooms and the hiring of additional personnel to accommodate a temporary increase in student enrollment directly attributable to the Applicant's Qualified Investment.

- (c) any other loss of the District's revenues which directly result from, or are reasonably attributable to any payment made by the Applicant to or on behalf of any third party beneficiary of this Agreement.

Section 3.4. CALCULATIONS TO BE MADE BY THIRD PARTY

All calculations under this Agreement shall be made annually by an independent third party (the "Third Party") jointly approved each year by the District and the Applicant. If the Parties cannot agree on the Third Party, then the Third Party shall be selected by the mediator provided in Section 7.9 of this Agreement.

Section 3.5. DATA USED FOR CALCULATIONS

The calculations for payments under this Agreement shall be initially based upon the valuations placed upon the Applicant's Qualified Investment and/or the Applicant's Qualified Property by the Appraisal District in its annual certified tax roll submitted to the District pursuant to Texas Tax Code §26.01 on or about July 25 of each year of this Agreement. Immediately upon receipt of the valuation information by the District, the District shall submit the valuation information to the Third Party selected under Section 3.4. The certified tax roll data shall form the basis of the calculation of any and all amounts due under this Agreement. All other data utilized by the Third Party to make the calculations contemplated by this Agreement shall be based upon the best available current estimates. The data utilized by the Third Party shall be adjusted from time to time by the Third Party to reflect actual amounts, subsequent adjustments by the Appraisal District to the District's certified tax roll or any other changes in student counts, tax collections, or other data.

Section 3.6. DELIVERY OF CALCULATIONS

On or before November 1 of each year for which this Agreement is effective, the Third Party appointed pursuant to Section 3.4 of this Agreement shall forward to the Parties a certification containing the calculations required under Sections 3.2 and/or 3.3, Article IV, and/or Section 5.1 of this Agreement in sufficient detail to allow the Parties to understand the manner in which the calculations were made. The Third Party shall simultaneously submit his, her or its invoice for fees for services rendered to the Parties, if any fees are being claimed, which fee shall be the sole responsibility of the District, subject to the limit of Section 3.7. Upon reasonable prior notice, the employees and agents of the Applicant shall have access, at all reasonable times, to the Third Party's offices, personnel, books, records, and correspondence pertaining to the calculation and fee for the purpose of verification. The Third Party shall maintain supporting data consistent with generally accepted accounting practices, and the employees and agents of the Applicant shall have the right to reproduce and retain for purpose of audit, any of these documents. The Third Party shall preserve all documents pertaining to the calculation and fee for a period of three (3) years after payment. The Applicant shall not be liable for any of the Third Party's costs resulting from an audit of the Third Party's books, records, correspondence, or work papers pertaining to the calculations contemplated by this Agreement or the fee paid by the Applicant to the Third Party pursuant to Section 3.7, if such fee is timely paid.

Section 3.7. PAYMENT BY APPLICANT

The Applicant shall pay any amount determined to be due and owing to the District under this Agreement on or before the January 31 next following the tax levy for each year for which this Agreement is effective. By such date, the Applicant shall also pay any amount billed by the Third Party plus any reasonable and necessary legal expenses paid by the District to its attorneys, auditors, or financial consultants for the preparation and filing of any financial reports, disclosures, or Tax Credit or other reimbursement applications filed with or sent to the State of Texas which are, or may be required under the terms or because of the execution of this Agreement. For no Tax Year during the term of this Agreement shall the Applicant be responsible for the payment of an aggregate amount of fees and expenses under this Section 3.7 and Section 3.6 which exceeds Ten Thousand Dollars (\$10,000.00).

Section 3.8. RESOLUTION OF DISPUTES

Within fifteen (15) days of receipt of the Applicant's appeal, the Third Party will issue, in writing, a final determination of the certification containing the calculations. Thereafter, the Applicant may appeal the final determination of certification containing the calculations to the District. Any appeal by the Applicant of the final determination of the Third Party may be made, in writing, to the District's Board of Trustees within thirty (30) days of the final determination of certification containing the calculations, without limitation of Applicant's other rights and remedies available hereunder, at law or in equity.

Section 3.9. EFFECT OF PROPERTY VALUE APPEAL OR OTHER ADJUSTMENT

If at the time the Third Party selected under Section 3.4 makes its calculations under this Agreement, the Applicant has appealed any matter relating to the valuations placed by the Appraisal District on the Applicant's Qualified Property, and/or the Applicant's Qualified Property and such appeal remains unresolved, the Third Party shall base its calculations upon the values placed upon the Applicant's Qualified Property and/or the Applicant's Qualified Property by the Appraisal District.

If as a result of a final appeal or for any other reason, the Taxable Value of the Applicant's Qualified Investment and/or the Applicant's Qualified Property is changed, once the determination of the new Taxable Value becomes final, the Parties shall immediately notify the Third Party who shall immediately issue new calculations for the applicable year or years using the new Taxable Value. In the event the new calculations result in a change in any amount paid or payable by the Applicant under this Agreement, the Party from whom the adjustment is payable shall remit such amounts to the other Party within thirty (30) days of the receipt of the new calculations from the Third Party.

Section 3.10. EFFECT OF STATUTORY CHANGES

Notwithstanding any other provision in this Agreement, but subject to the limitations contained in Section 5.1, in the event that, by virtue of statutory changes to the Applicable School Finance Law, administrative interpretations by the Comptroller, Commissioner of Education, or the Texas Education Agency, or for any other reason attributable to statutory change, the District reasonably determines that it will receive less Maintenance and Operations Revenue, or, if applicable, will be required to increase its payment of funds to the State, because of its participation in this Agreement, the Applicant shall make payments to the District, up to the revenue protection amount limit set forth in Section 5.1, that are necessary to offset any actual negative impact on the District as a result of its participation in this Agreement. Such calculation shall take into account any adjustments to the amount calculated for the current fiscal year that should be made in order to reflect the actual impact on the District. Such payment shall be made no later than thirty (30) days following notice from the District of such determination.

ARTICLE IV

SUPPLEMENTAL PAYMENTS

Section 4.1. INTENT OF PARTIES WITH RESPECT TO SUPPLEMENTAL PAYMENTS

(a) Amounts Exclusive of Indemnity Amounts

In addition to undertaking the responsibility for the payment of all of the amounts set forth under Article III, and as further consideration for the execution of this Agreement by the District, the Applicant shall also be responsible for the supplemental payments set forth in this Article IV, (the "Supplemental Payments"). The Applicant shall not be responsible to the District or to any other person or persons in any form for the payment or transfer of money or any other thing of value in recognition of, anticipation of, or consideration for this Agreement for limitation on appraised value made pursuant to Chapter 313, Texas Tax Code, unless it is explicitly set forth in this Agreement. It is the express intent of the Parties that the Applicant's obligation to make Supplemental Payments under this Article IV is separate and independent of the obligation of the Applicant to pay the amounts described in Article III; provided, however, that all payments under Articles III and IV are subject to the limitations contained in Section 5.1, and that all payments under this Article IV are subject to the separate limitations contained in Section 4.4.

(b) Adherence to Statutory Limits on Supplemental Payments

It is the express intent of the Parties that any Supplemental Payments made to or on behalf of the District by the Applicant under this Article IV shall not exceed the limit imposed by the provisions of Texas Tax Code §313.027(i), as such limit is allowed to be increased by the Legislature for any future year of this Agreement.

Section 4.2. STIPULATED SUPPLEMENTAL PAYMENT AMOUNT - SUBJECT TO AGGREGATE LIMIT

During the term of this Agreement, the District shall not be entitled to receive Supplemental Payments that exceed the lesser of:

- (a) the "Applicant's Stipulated Supplemental Payment Amount," which is hereby defined as forty percent (40%) of the Applicant's Net Tax Benefit, as the term is defined in Section 1.3, above, as a result of this Agreement; or,
- (b) the Aggregate Limit, as the term is defined in Section 1.3, above.

Section 4.3. ANNUAL CALCULATION OF STIPULATED SUPPLEMENTAL PAYMENT AMOUNT

The Parties agree that for each Tax Year during the term of this Agreement, beginning with the third full Tax Year (Tax Year 2015) the Applicant's Stipulated Supplemental Payment Amount, described in Section 4.2 will annually be calculated based upon the then most current estimate of tax savings to the Applicant, which will be made, based upon assumptions of student counts, tax collections, and other applicable data, in accordance with the following formula:

Taxable Value of the Applicant's Qualified Property for such Tax Year had this Agreement not been entered into by the Parties (i.e., the Taxable Value of the Applicant's Qualified Property used for the District's interest and sinking fund tax purposes for such Tax Year, or school taxes due to any other governmental entity, including the State of Texas, for such Tax Year);

Minus,

The Taxable Value of the Applicant's Qualified Property for such Tax Year after giving effect to this Agreement (i.e., the Taxable Value of the Applicant's Qualified Property used for the District's maintenance and operations tax purposes for such Tax Year, or school taxes due to any other governmental entity, including the State of Texas, for such Tax Year);

Multiplied by,

The District's maintenance and operations tax rate for such Tax Year, or the school tax rate of any other governmental entity, including the State of Texas, for such Tax Year;

Plus,

Any Tax Credit received by the Applicant with respect to such Tax Year;

Minus,

Any amounts previously paid to the District under Article III;

Multiplied by,

The number 0.4;

Minus,

Any amounts previously paid to the District under Sections 4.2 and 4.3 with respect to such Tax Year.

In the event that there are objectively verifiable and material changes in the data upon which the calculations set forth herein are made, the Third Party described in Section 3.4, above, shall adjust the Applicant's Stipulated Supplemental Payment Amount calculation to reflect such changes in the data.

Section 4.4. CALCULATION OF ANNUAL SUPPLEMENTAL PAYMENTS TO THE DISTRICT AND APPLICATION OF AGGREGATE LIMIT

For each Tax Year during the term of this Agreement, beginning with Tax Year three (Tax Year 2015) and continuing thereafter through Tax Year thirteen (Tax Year 2025), the District, or its successor beneficiary should one be designated under Section 4.6, below, shall not be entitled to receive Supplemental Payments, computed under Sections 4.2 and 4.3, above, that exceed the Aggregate Limit.

If, for any Tax Year during the term of this Agreement the amount of the Applicant's Stipulated Supplemental Payment Amount, calculated under sections 4.2 and 4.3 above for such Tax Year, exceeds the Aggregate Limit for such Tax Year, the difference between the Applicant's Stipulated Supplemental Payment Amount so calculated and the Aggregate Limit for such Tax Year, shall be carried forward from year-to-year into subsequent Tax Years during the term of this Agreement, and to the extent not limited by the Aggregate Limit in any subsequent Tax Year during the term of this Agreement, shall be paid to the District. If there are changes in Chapter 313 Tax Laws, higher or lower payments that first became due prior to the effective date of any statutory change will not be adjusted.

Any of the Applicant's Stipulated Supplemental Payment Amounts which cannot be paid to the District prior to the end of year thirteen (Tax Year 2025) because such payment would exceed the Aggregate Limit, will be deemed to have been cancelled by operation of law, and the Applicant shall have no further obligation with respect thereto.

Section 4.5. PROCEDURES FOR SUPPLEMENTAL PAYMENT CALCULATIONS

- (a) All calculations required by this Article IV, including but not limited to: the calculation of the Applicant's Stipulated Supplemental Payment Amount; the determination of both the Annual Limit and the Aggregate Limit; the effect, if any, of the Aggregate Limit upon the actual amount of Supplemental Payments eligible to be paid to the District by the Applicant; and the carry forward and accumulation of any of the Applicant's Stipulated Supplemental Payment Amounts unpaid by the Applicant due to the Aggregate Limit in previous years, shall be calculated by the Third Party selected pursuant to Section 3.4.
- (b) The calculations made by the Third Party shall be made at the same time and on the same schedule as the calculations made pursuant to Section 3.6.
- (c) The payment of all amounts due under this Article IV shall be made at the time set forth in Section 3.7.

Section 4.6. DISTRICT'S OPTION TO DESIGNATE SUCCESSOR BENEFICIARY

At any time during this Agreement, the Board of Trustees may, in its sole discretion, direct that the Applicant's payment under this Article IV be made to the District's educational foundation or to a similar entity. Such foundation or entity may only use such funds received under this Article IV to support the educational mission of the District and its students. Any designation of such foundation or entity must be made by recorded vote of the Board of Trustees at a properly posted public meeting of the Board of Trustees. Any such designation will become effective after such public vote and the delivery of notice of said vote in conformance with the provisions of Section 8.1, below. Such designation may be rescinded by the Board of Trustees, by Board action, at any time, and any such rescission will become effective after delivery of notice of such action to the Applicant in conformance with the provisions of Section 8.1.

Any designation of a successor beneficiary under this Section shall not alter the Aggregate Limitation on Supplemental payments described in Section 4.4, above.

Notwithstanding the foregoing, any payments made by Applicant shall be made in the manner and to the party designated in this Agreement unless Applicant receives unambiguous written notice from the District that such payments are to be made to a different party.

ARTICLE V

ANNUAL LIMITATION OF PAYMENTS BY APPLICANT

SECTION 5.1. ANNUAL LIMITATION AFTER FIRST THREE YEARS

Notwithstanding anything contained in this Agreement to the contrary, and with respect to each Tax Year during the term of this Agreement after the 2015 Tax Year, in no event shall (i) the sum of the maintenance and operations ad valorem taxes paid by the Applicant to the District for

such Tax Year, plus the sum of all payments otherwise due from the Applicant to the District under Articles III and IV with respect to such Tax Year, exceed (ii) the amount of the maintenance and operations ad valorem taxes that the Applicant would have paid to the District for such Tax Year (determined by using the District's actual maintenance and operations tax rate for such Tax Year) if the Parties had not entered into this Agreement. The calculation and comparison of the amounts described in clauses (i) and (ii) of the preceding sentence shall be included in all calculations made pursuant to Sections 3.4 and 3.6, and in the event the sum of the amounts described in said clause (i) exceeds the amount described in said clause (ii), then the payments otherwise due from the Applicant to the District under Articles III and IV shall be reduced until such excess is eliminated.

Section 5.2. OPTION TO CANCEL AGREEMENT

In the event that any payment otherwise due from the Applicant to the District under Article III and/or Article IV with respect to a Tax Year is subject to reduction in accordance with the provisions of Section 5.1 above, then the Applicant shall have the option to terminate this Agreement. The Applicant may exercise such option to cancel this Agreement by notifying the District of its election in writing not later than the July 31 of the year next following the Tax Year with respect to which a reduction under Section 5.1 is applicable. Any cancellation of this Agreement under the foregoing provisions of this Section 5.2 shall be effective immediately prior to the second Tax Year next following the Tax Year in which the reduction giving rise to the option occurred. In addition to the foregoing, in the event the Applicant determines that it will not commence or complete construction of the Applicant's Qualified Investment, the Applicant shall have the option, during the Qualifying Time Period, to terminate this Agreement by notifying the District in writing of its exercise of such option. Any termination of this Agreement under the immediately preceding sentence shall be effective immediately prior to the beginning of the Tax Year immediately following the Tax Year during which such notification is delivered to the District. Upon any termination of this Agreement under this Section 5.2, this Agreement shall terminate and be of no further force or effect; provided, however, that the Parties' respective rights and obligations under this Agreement with respect to the Tax Year or Tax Years (as the case may be) through and including the Tax Year during which such notification is delivered to the District, shall not be impaired or modified as a result of such termination and shall survive such termination unless and until satisfied and discharged.

ARTICLE VI

TAX CREDITS

SECTION 6.1. Applicant's Entitlement to Tax Credits

The Applicant shall be entitled to Tax Credits from the District under and in accordance with the provisions of Subchapter D of the Act and the Comptroller's Rules, provided that the Applicant complies with the requirements under such provisions, including the filing of a completed application under Section 313.103 of the Texas Tax Code and the Comptroller's Rules.

SECTION 6.2. District's Obligations with Respect to Tax Credits

The District shall timely comply and shall cause the District's collector of taxes to timely comply with its obligations under Subchapter D of the Act and the Comptroller's Rules, including, but not limited to, such obligations set forth in Section 313.104 of the Texas Tax Code and either the Comptroller's Rules and/or Texas Education Agency rules.

Section 6.3. COMPENSATION FOR LOSS OF TAX CREDIT PROTECTION REVENUES

If after the Applicant has actually received the benefit of a Tax Credit under Section 6.1, the District does not receive aid from the State pursuant to Texas Education Code §42.2515 or other similar or successor statute with respect to all or any portion of such Tax Credit for reasons other than the District's failure to comply with the requirements for obtaining such aid, then the District shall notify the Applicant in writing thereof and the circumstances surrounding the State's failure to provide such aid to the District. The Applicant shall pay to the District the amount of such Tax Credit for which the District did not receive such aid within thirty (30) calendar days after receipt of such notice. If the District receives aid from the State for all or any portion of a Tax Credit with respect to which the Applicant has made a payment to the District under this Section 6.3, then the District shall pay to the Applicant the amount of such aid within thirty (30) calendar days after the District's receipt thereof.

ARTICLE VII

ADDITIONAL OBLIGATIONS OF APPLICANT

Section 7.1. DATA REQUESTS

During the term of this Agreement, and upon the written request of one Party or by the Comptroller (the "Requesting Party"), the other Party shall provide the Requesting Party with all information reasonably necessary for the Requesting Party to determine whether the other Party is in compliance with its obligations, including any employment obligations which may arise under this Agreement. The Applicant shall allow authorized employees of the District, the Comptroller, and/or the Appraisal District to have reasonable access to the Applicant's Qualified Property and/or business records, in accordance with Texas Tax Code Section 22.07, during the term of this Agreement, in order to inspect the project to determine compliance with the terms hereof or as necessary to properly appraise the Taxable Value of the Applicant's Qualified Property. All inspections will be made at a mutually agreeable time after the giving of not less than forty-eight (48) hours prior written notice, and will be conducted in such a manner so as not to unreasonably interfere with either the construction or operation of the Applicant's Qualified Property. All inspections may be accompanied by one or more representatives of the Applicant, and shall be conducted in accordance with the Applicant's safety, security, and operational standards. Notwithstanding the foregoing, nothing contained in this Agreement shall require the Applicant to provide the District, the Comptroller, or the Appraisal District with any technical or business information that is private personnel data, proprietary, a trade secret or confidential or privileged in nature or is subject to a confidentiality agreement with any third party or any other information that is not necessary for the District to determine the Applicant's compliance with this Agreement.

Section 7.2. REPORTS TO OTHER GOVERNMENTAL AGENCIES

The Applicant shall timely make any and all reports that are or may be required under the provisions of law or administrative regulation as a result of this Agreement, including but not limited to the annual report or certifications that may be required to be submitted by the Applicant to the Comptroller under the provisions of Texas Tax Code §313.032 and the provisions of Title 34, Part 1, Chapter 9, Subchapter F of the Texas Administrative Code. The Applicant shall forward a copy of all such required reports or certifications to the District contemporaneously with the filing thereof. Currently, the Comptroller requires an Annual Eligibility Report and the Biennial Progress Reports, Form 50-772 and 50-773 respectively, and an Application for Tax Credit, Form 50-300. The obligation to make all such required filings shall be a material obligation under this Agreement. The Applicant shall not be in default of any reporting obligation hereunder, unless the Applicant has received thirty (30) days prior notice of its reporting obligation from the District.

Section 7.3. APPLICANT'S OBLIGATION TO MAINTAIN VIABLE PRESENCE

By entering into this Agreement, the Applicant warrants that:

- (a) it will abide by all of the terms of this Agreement;
- (b) it will Maintain Viable Presence in the District through the Final Termination Date of this Agreement; provided, however, that notwithstanding anything contained in this Agreement to the contrary, the Applicant shall not be in breach of this Agreement, and shall not be subject to any liability for failure to Maintain Viable Presence to the extent such failure is caused by Force Majeure, provided the Applicant makes commercially reasonable efforts to remedy the cause of such Force Majeure; and,
- (c) it will meet the applicable minimum eligibility requirements under Texas Tax Code, Chapter 313, throughout the period from and including the Tax Year 2015 through and including the last Tax Year during the term of this Agreement with respect to which the Applicant receives the benefit of a Tax Credit.

Section 7.4. CONSEQUENCES OF EARLY TERMINATION OR OTHER BREACH BY APPLICANT

(a) In the event of a Material Breach (hereinafter defined), except as provided in Section 5.2, after the notice and cure period provided by Section 7.8, then the District shall be entitled, as its sole and exclusive remedy, to the recapture of all ad valorem tax revenue lost as a result of this Agreement together with the payment of penalty and interest, as calculated in accordance with Section 7.5, on that recaptured ad valorem tax revenue. For purposes of this recapture calculation, the Applicant shall be entitled to a credit for all payments made to the District pursuant to Article III. The Applicant shall also be entitled to a credit for any amounts paid to the District pursuant to Article IV.

(b) Notwithstanding Section 7.4(a), in the event that the District determines that the Applicant has failed to Maintain Viable Presence and provides written notice of termination of this Agreement, after the notice and cure period provided by Section 7.8, then the Applicant shall pay to the District liquidated damages for such failure within thirty (30) days after receipt of such termination notice. The sum of liquidated damages due and payable shall be the sum total of the District ad valorem maintenance and operations taxes for all of the Tax Years for which the Tax Limitation Amount was allowed pursuant to this Agreement that are prior to the Tax Year in which the default occurs that otherwise would have been due and payable by the Applicant to the District without the benefit of this Agreement, including penalty and interest, as calculated in accordance with Section 7.5. For purposes of this liquidated damages calculation, the Applicant shall be entitled to a credit for all payments made to the District pursuant to Article III. The Applicant shall also be entitled to a credit for any amounts paid to the District pursuant to Article IV. Upon payment of such liquidated damages, the Applicant's obligations under this Agreement shall be deemed fully satisfied, and such payment shall constitute the District's sole remedy. Notwithstanding the foregoing, penalties shall only be due to the extent it is determined that the breach of this Agreement by the Applicant was willful and without a good faith, reasonable belief by the Applicant that its action or omission constituting such breach was in compliance with this Agreement.

Section 7.5. CALCULATION OF PENALTY AND INTEREST

In determining the amount of penalty or interest, or both, due in the event of a breach of this Agreement, the District shall first determine the base amount of recaptured taxes owed less all credits under Section 7.4 for each Tax Year during the term of this Agreement since the Commencement Date. The District shall calculate penalty or interest for each Tax Year during the term of this Agreement since the Commencement Date in accordance with the methodology set forth in Chapter 33 of the Texas Tax Code, as if the base amount calculated for such Tax Year less all credits under Section 7.4 had become due and payable on February 1 of the calendar year following such Tax Year. Penalties on said amounts shall be calculated in accordance with the methodology set forth in Texas Tax Code §33.01(a), or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Texas Tax Code §33.01(c), or its successor statute.

Section 7.6. MATERIAL BREACH OF AGREEMENT

The Applicant shall be in Material Breach of this Agreement (herein so called) if it commits one or more of the following acts or omissions:

- (a.) Applicant is determined to have failed to meet its obligations to have made accurate material representations of fact in the submission of its Application as is required by Section 8.13, below.
- (b.) Applicant fails to Maintain Viable Presence in the District, as required by Section 7.3 of this Agreement, through the Final Termination Date of this Agreement.

- (c.) Applicant fails to make any payment required under Articles III or IV of this Agreement on or before its due date.
- (d.) Applicant fails to create and maintain at least the number of New Jobs it committed to create and maintain as set forth on Schedule C, Column C of its Application.
- (e.) Applicant fails to create and maintain at least the number of New Jobs it committed to create and maintain as set forth on Schedule C, Column E of its Application.
- (f.) Applicant fails to create and maintain at least Eighty Percent (80%) of all such New Jobs on the project as Qualifying Jobs.
- (g.) Applicant makes any payments to the District or to any other person or persons in any form for the payment or transfer of money or any other thing of value in recognition of, anticipation of, or consideration for this Agreement, in excess of the amounts set forth in Articles III and IV, above. Voluntary donations made by the Applicant to the District after the date of execution of this Agreement, and not mandated by this Agreement or made in recognition of or in consideration for this Agreement are not barred by this provision.
- (h.) Applicant fails to materially comply in any material respect with any other term of this Agreement, or the Applicant fails to meet its obligations under the applicable Comptroller's Rules, and under the Act.

Section 7.7. LIMITED STATUTORY CURE OF MATERIAL BREACH

In accordance with the provisions of Texas Tax Code §313.0275, for any full Tax Year which commences after the project has become operational, the Applicant may cure any Material Breaches of this Agreement described in Sections 7.6(d) and 7.6(e) or 7.6(f), above, without the termination of the remaining term of this Agreement. In order to cure any such non-compliance with Sections 7.6(d) and 7.6(e) or 7.6(f) for any such Tax Year, the Applicant may make the liquidated damages payment required by Texas Tax Code §313.0275(b), in accordance with the provisions of Texas Tax Code §313.0275(c).

Section 7.8. DETERMINATION OF MATERIAL BREACH AND TERMINATION OF AGREEMENT

Prior to making a determination under Section 7.4 or Section 7.6 that the Applicant is in Material Breach of this Agreement or has failed to Maintain Viable Presence, the District shall provide the Applicant with a written notice of the facts which it believes have caused the Material Breach or failure to Maintain Viable Presence, and if cure is possible, the cure proposed by the District. After receipt of the notice, the Applicant shall be given ninety (90) days to present any facts or arguments to the Board of Trustees showing that a Material Breach or failure to Maintain Viable Presence has not occurred and/or that it has cured or undertaken to cure any such Material Breach or failure to Maintain Viable Presence.

If the Board of Trustees is not reasonably satisfied with such response and/or that such Material Breach or failure to Maintain Viable Presence has been cured, then the Board of Trustees shall, after reasonable notice to the Applicant, conduct a hearing called and held for the purpose of determining whether such Material Breach or failure to Maintain Viable Presence has occurred and, if so, whether such Material Breach or failure to Maintain Viable Presence has been cured. At any such hearing, the Applicant shall have the opportunity, together with their counsel, to be heard before the Board of Trustees. At the hearing, the Board of Trustees shall make findings as to whether or not a Material Breach or failure to Maintain Viable Presence has occurred, the date such Material Breach or failure to Maintain Viable Presence occurred, if any, and whether or not any such Material Breach or failure to Maintain Viable Presence has been cured. Except as otherwise provided in Section 7.7, in the event that the Board of Trustees determines that such a Material Breach or failure to Maintain Viable Presence has occurred and has not been cured after the conclusion of the ninety (90) day period contemplated above, it shall also terminate this Agreement and determine the amount of recaptured taxes under Section 7.4 (net of all credits under Section 7.4), and the amount of any penalty and/or interest under Section 7.5 that are owed to the District.

After making its determination regarding any alleged Material Breach or failure to Maintain Viable Presence, the Board of Trustees shall cause the Applicant to be notified in writing of its determination (a "Determination of Breach and Notice of Contract Termination").

Section 7.9. DISPUTE RESOLUTION

After receipt of notice of the Board of Trustee's Determination of Breach and Notice of Contract Termination under Section 7.8, the Applicant shall have ninety (90) days in which either to tender payment or evidence of its efforts to cure, or to initiate mediation of the dispute by written notice to the District, in which case the District and the Applicant shall be required to make a good faith effort to resolve, without resort to litigation and within ninety (90) days after the Applicant's receipt of notice of the Board of Trustee's Determination of Breach and Notice of Contract Termination under Section 7.8, such dispute through mediation with a mutually agreeable mediator and at a mutually convenient time and place for the mediation. If the Parties are unable to agree on a mediator, a mediator shall be selected by the senior state district court judge then presiding in Archer County, Texas. The Parties agree to sign a document that provides the mediator and the mediation will be governed by the provisions of Chapter 154 of the Texas Civil Practice and Remedies Code and such other rules as the mediator shall prescribe. With respect to such mediation, (i) the District shall bear one-half of such mediator's fees and expenses and the Applicant shall bear one-half of such mediator's fees and expenses, and (ii) otherwise each Party shall bear all of its costs and expenses (including attorneys' fees) incurred in connection with such mediation.

In the event that any mediation is not successful in resolving the dispute or that payment is not received before the expiration of such ninety (90) days, the District shall have the remedies for the collection of the amounts determined under Section 7.8 as are set forth in Texas Tax Code Chapter 33, Subchapters B and C, for the collection of delinquent taxes. In the event that the District successfully prosecutes legal proceedings under this section, the Applicant shall also be

responsible for the payment of reasonable attorney's fees and a tax lien on the Applicant's Qualified Property and the Applicant's Qualified Investment pursuant to Texas Tax Code §33.07 to the attorneys representing the District pursuant to Texas Tax Code §6.30. In the event that the Applicant is a prevailing party in any such legal proceedings under this section, the District shall be responsible for the payment of the Applicant's reasonable attorney's fees.

In any event where a dispute between the District and the Applicant under this Agreement cannot be resolved by the Parties, after completing the procedures required above in this Section 7.9, either the District or the Applicant may seek a judicial declaration of their respective rights and duties under this Agreement or otherwise, in any judicial proceeding, assert any rights or defenses, or seek any remedy in law or in equity, against the other Party with respect to any claim relating to any breach, default, or nonperformance of any covenant, agreement or undertaking made by a Party pursuant to this Agreement.

Section 7.10. LIMITATION OF OTHER DAMAGES

Notwithstanding anything contained in this Agreement to the contrary, the District's damages for any default shall under no circumstances exceed the greater of either any amounts calculated under Sections 7.4 and 7.5 above, or the monetary sum of the difference between the payments and credits due and owing to the Applicant at the time of such default and the District taxes that would have been lawfully payable to the District had this Agreement not been executed. In addition, the District's sole right of equitable relief under this Agreement shall be its right to terminate this Agreement.

The Parties further agree that the limitation of damages and remedies set forth in this Section 7.10 shall be the sole and exclusive remedies available to the District, whether at law or under principles of equity.

Section 7.11. BINDING ON SUCCESSORS

In the event of a merger or consolidation of the District with another school district or other governmental authority, this Agreement shall be binding on the successor school district or other governmental authority.
