RE: Application to the Perrin-Whitt Consolidated Independent School District from
Keechi Wind, LLC

To the Local Government Assistance & Economic Analysis Division:

By copy of this letter transmitting the application for review to the Comptroller's Office, the Perrin-Whitt Consolidated Independent School District is notifying the Applicant Keechi Wind, LLC of its intent to consider the application for appraised value limitation on qualified property. The Applicant submitted the application to the school district on May 28, 2013. The Board voted to accept the application May 28, 2013. The application was determined completed on June 3, 2013. Please prepare the economic impact report.

Please note, no construction has begun at the project site as of the date of the filing of the application and the District's determination that the application is complete. The Applicant is aware that the determination of a completed application by the Comptroller determines what property may be eligible for a value limitation agreement. There is no existing property for this project.

As you are aware, regional wage information is published annually and based upon the Texas Workforce Commission (TWC) OES data. According to the TWC, the new OES survey information will not be available until the end of June or July. A new publication will only be created if the information is available and at the request of your office. Therefore, the school district has determined that the wage information included in the application represents the most recent wage data available at the time of the application. The wage the Applicant has committed to paying on this project is above the required statutory minimums.

Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

Form 50-296
(Revised May 2010)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application.
This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original completed application to the Comptroller in a three-ring binder with tabs separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its Web site. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules as explained in the Confidentiality Notice below.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, make a recommendation to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application before the 151st day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to complete the recommendation, economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's Web site to find out more about the program at <http://www.window.state.tx.us/taxinfo/proptax/hb1200/index.html>. There are links on this Web page to the Chapter 313 statute, rules and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Qualifying Time Period usually begins with the final board approval of the application and extends generally for the following two complete tax years.

Column A: This represents the total dollar amount of planned investment in tangible personal property the applicant considers qualified investment - as defined in Tax Code §313.02(1)(A)-(D). For the purposes of investment, please list amount invested each year, not cumulative totals.

Column B: Include estimates of investment for "replacement" property-property that is part of original agreement but scheduled for probable replacement during limitation period.

Column C: The total dollar amount of planned investment each year in buildings or nonremovable component of buildings that the applicant considers qualified investment under Tax Code §313.02(1)(E).

Column D: For the years outside the qualifying time period, this number should simply represent the planned investment in new buildings or nonremovable components of buildings. Dollar value of other investment that may not be qualified investment but that may affect economic impact and total value-for planning, construction and operation of the facility. The most significant example for many projects would be land. Other examples may be items such as professional services, etc.

Column E: Note: Land can be listed as part of investment during the "pre-year 1" time period. It cannot be part of qualifying investment.

Notes: For advanced clean energy projects, nuclear projects, and projects with deferred qualifying time periods, and projects with lengthy application review periods, insert additional rows as needed.

This schedule must be submitted with the original application and any application for tax credit. When using this schedule for any purpose other than the original application, replace original estimates with actual appraisal district data for past years and update estimates for current and future years. If original estimates have not changed, enter those amounts for future years.

Keechi Wind, LLC (“Keechi Wind”) is requesting an appraised value limitation from Perrin-Whitt Consolidated Independent School District (CISD) for the Keechi Wind Project (the “Project”), a proposed wind powered electric generating facility in Jack County. The proposed Project (comprising this application) will be constructed in a reinvestment zone which Keechi Wind will request be created by either Jack County Commissioners Court or the Board of Trustees of Perrin-Whitt CISD. A map showing the location of the project is included as Attachment 7.

The proposed Project is anticipated to have an estimated total capacity of 120 megawatts (MW), of which approximately 25%, or 30MW, will be located in Perrin-Whitt CISD. The balance of the project will be located in Jacksboro ISD. Final turbine decisions have not been made. Current plans are for Keechi Wind to use up to ten (10) Siemens 113 3.0 MW turbines but this is subject to change depending upon turbine availability.

Keechi Wind requests a value limitation for all materials and equipment installed for the Project, including, but not limited to, wind turbines, towers, foundations, roadways, buildings and offices, anemometer towers, collection systems, electrical substations, transmission lines and associated towers, and interconnection facilities.

Construction of the Project is anticipated to begin in the December 2013 with completion by December 31, 2014.

RES Americas is one of the top renewable energy companies in North America. The parent company RES Ltd. is headquartered in the U.K. and was founded in 1982. The RES Group of companies has constructed nearly 100 wind projects with a total capacity of more than 6,000 megawatts (MW) around the world.

RES Americas has been involved in the development, construction, ownership, and/or operation of renewable energy projects since 1997, and in that time it has built more than 5,700 MW of renewable energy, representing approximately 10% of the operating wind farms in the U.S.

RES developed and constructed its first project, the 60 MW Cameron Ridge wind farm in Tehachapi, California in 1999. In 2001, RES co-developed and constructed the 278 MW King Mountain Wind Ranch in Texas, the largest wind project in the world at the time. In 2006, RES Americas financed and completed construction of its first ownership asset in the U.S., the 60 MW Whirlwind Energy Center in Texas. In 2008, RES completed its second owned project in Texas, the 166 MW Hackberry Wind Farm.

RES has the ability to locate wind farms in the US and foreign countries.

Mr. John Kuhn
Superintendent
Perrin-Whitt Consolidated Independent School District
216 N. Benson
Perrin, TX 76486

Re: Chapter 313 Job Waiver Request

Dear Mr. Kuhn,

Keechi Wind, LLC, requests that the Perrin-Whitt Consolidated Independent School District's Board of Trustees waive the job requirement provision as allowed by Section 313.025(f-1) of the Tax Code. This waiver would be based on the school district's board findings that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application.

Keechi Wind, LLC requests that the Board of Trustees make such a finding and waive the job creation requirement for 10 permanent jobs. In line with industry standards for job requirements, Keechi Wind, LLC has committed to create four total jobs for the project, two of which will be in Perrin-Whitt CISD and two in Jacksboro ISD.

Wind projects create a large number of full and part-time, but temporary jobs during the construction phase of the project, but require a relatively small number of highly skilled technicians to operate and maintain the project after commercial operation commences.

The industry standard for employment is typically one full-time employee for approximately every 15 turbines. This number may vary depending on the operations and maintenance requirements of the turbines selected as well as the support and technical assistance offered by the turbine manufacturer. The permanent employees of a wind project maintain and service wind turbines, underground electrical connections, substations and other infrastructure associated with the safe and reliable operation of the project. In addition to the onsite employees, there may be managers or technicians who support the project from offsite locations.

Sincerely,

D. Dale Cummings

Qualifying Time Period usually begins with the final board approval of the application and extends generally for the following two complete tax years.

Column A: This represents the total dollar amount of planned investment in tangible personal property the applicant considers qualified investment - as defined in Tax Code §313.02(1)(A)-(D). For the purposes of investment, please list amount invested each year, not cumulative totals.

Column B: The total dollar amount of planned investment each year in buildings or nonremovable component of buildings that the applicant considers qualified investment under Tax Code §313.02(1)(E).

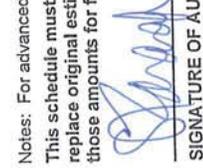

Column C: For the years outside the qualifying time period, this number should simply represent the planned investment in tangible personal property. (For the years outside the qualifying time period, this number should simply represent the planned investment but scheduled for probable replacement during limitation period. Include estimates of investment for "replacement" property-property that is part of original agreement but scheduled for probable replacement during limitation period.

Column D: The total dollar amount of planned investment each year in buildings or nonremovable component of buildings that the applicant considers qualified investment under Tax Code §313.02(1)(E).

Column E: For the years outside the qualifying time period, this number should simply represent the planned investment in new buildings or nonremovable components of buildings. Dollar value of other investment that may not be qualified investment but that may affect economic impact and total value-for planning, construction and operation of the facility. The most significant example for many projects would be land. Other examples may be items such as professional services, etc.

Notes: For advanced clean energy projects, nuclear projects, and projects with deferred qualifying time periods, and projects with lengthy application review periods, insert additional rows as needed. Note: Land can be listed as part of investment during the "pre-year 1" time period. It cannot be part of qualifying investment.

This schedule must be submitted with the original application and any application for tax credit. When using this schedule for any purpose other than the original application, replace original estimates with actual appraisal district data for past years and update estimates for current and future years. If original estimates have not changed, enter those amounts for future years.
