Phil Cotham
Superintendent
Lockney Independent School District
416 W. Willow
Lockney, Texas 79241

Dear Superintendent Cotham:

On June 19, 2013, the Comptroller received the completed application (Application # 295) for a limitation on appraised value under the provisions of Tax Code Chapter 313¹. This application was originally submitted in May 2013 to the Lockney Independent School District (the school district) by Longhorn Wind Project, LLC (the applicant). This letter presents the results of the Comptroller's review of the application:

- 1) under Section 313.025(h) to determine if the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C; and
- 2) under Section 313.025(d), to make a recommendation to the governing body of the school district as to whether the application should be approved or disapproved using the criteria set out by Section 313.026.

The school district is currently classified as a rural school district in Category 3 according to the provisions of Chapter 313. Therefore, the applicant properly applied under the provisions of Subchapter C, applicable to rural school districts. The amount of proposed qualified investment (\$144 million) is consistent with the proposed appraised value limitation sought (\$10 million). The property value limitation amount noted in this recommendation is based on property values available at the time of application and may change prior to the execution of any final agreement.

The applicant is an active franchise taxpayer in good standing, as required by Section 313.024(a), and is proposing the construction of a wind power electric generation facility in Floyd County, an eligible property use under Section 313.024(b). The Comptroller has determined that the property, as described by the application, meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C.

After reviewing the application using the criteria listed in Section 313.026, and the information provided by the applicant, the Comptroller's recommendation is that this application under Tax Code Chapter 313 be approved.

Our review of the application assumes the truth and accuracy of the statements in the application and that, if the application is approved, the applicant would perform according to the provisions of the agreement reached with the school district. Our recommendation does not address whether the applicant has complied with all Chapter 313 requirements; the school district is responsible for verifying that all requirements of the statute have been fulfilled. Additionally, Section 313.025 requires the school district to only approve an application if the school district finds that the information in the application is true and

¹ All statutory references are to the Texas Tax Code, unless otherwise noted.

correct, finds that the applicant is eligible for a limitation and determines that granting the application is in the best interest of the school district and this state. When approving a job waiver requested under Section 313.025(f-1), the school district must also find that the statutory jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility. As stated above, the Comptroller's recommendation is prepared by generally reviewing the application and supporting documentation in light of the Section 313.026 criteria and a cursory review of the industry standard evidence necessary to support the waiver of the required number of jobs.

Note that any new building or other improvement existing as of the application review start date of June 19, 2013, or any tangible personal property placed in service prior to that date may not become "Qualified Property" as defined by 313.021(2).

The Comptroller's recommendation is based on the application submitted by the school district and reviewed by the Comptroller. The recommendation may not be used by the school district to support its approval of the property value limitation agreement if the application is modified, the information presented in the application changes, or the limitation agreement does not conform to the application. Additionally, this recommendation is contingent on future compliance with the Chapter 313 and the Texas Administrative Code, with particular reference to the following requirements related to the execution of the agreement:

- 1) The applicant must provide the Comptroller a copy of the proposed limitation on appraised value agreement no later than ten (10) days prior to the meeting scheduled by the school district to consider approving the agreement, so that the Comptroller may review it for compliance with the statutes and the Comptroller's rules as well as consistency with the application;
- 2) The Comptroller must confirm that it received and reviewed the draft agreement and affirm the recommendation made in this letter;
- 3) The school district must approve and execute a limitation agreement that has been reviewed by the Comptroller within a year from the date of this letter; and
- 4) The school district must provide a copy of the signed limitation agreement to the Comptroller within seven (7) days after execution, as required by Section 313.025..

Should you have any questions, please contact Robert Wood, director of Economic Development & Analysis Division, by email at robert.wood@cpa.state.tx.us or by phone at 1-800-531-5441, ext. 3-3973, or direct in Austin at 512-463-3973.

Sincerely,

Martin A. Hubert
Deputy Comptroller

This presents the Comptroller's economic impact evaluation of Longhorn Wind Project, LLC (the project) applying to Lockney Independent School District (the district), as required by Tax Code, 313.026. This evaluation is based on information provided by the applicant and examines the following criteria:

- (1) the recommendations of the comptroller;
- (2) the name of the school district;
- (3) the name of the applicant;
- (4) the general nature of the applicant's investment;
- (5) the relationship between the applicant's industry and the types of qualifying jobs to be created by the applicant to the long-term economic growth plans of this state as described in the strategic plan for economic development submitted by the Texas Strategic Economic Development Planning Commission under Section 481.033, Government Code, as that section existed before February 1, 1999;
- (6) the relative level of the applicant's investment per qualifying job to be created by the applicant;
- (7) the number of qualifying jobs to be created by the applicant;
- (8) the wages, salaries, and benefits to be offered by the applicant to qualifying job holders;
- (9) the ability of the applicant to locate or relocate in another state or another region of this state;
- (10) the impact the project will have on this state and individual local units of government, including:
 - (A) tax and other revenue gains, direct or indirect, that would be realized during the qualifying time period, the limitation period, and a period of time after the limitation period considered appropriate by the comptroller; and
 - (B) economic effects of the project, including the impact on jobs and income, during the qualifying time period, the limitation period, and a period of time after the limitation period considered appropriate by the comptroller;
- (11) the economic condition of the region of the state at the time the person's application is being considered;
- (12) the number of new facilities built or expanded in the region during the two years preceding the date of the application that were eligible to apply for a limitation on appraised value under this subchapter;
- (13) the effect of the applicant's proposal, if approved, on the number or size of the school district's instructional facilities, as defined by Section 46.001, Education Code;
- (14) the projected market value of the qualified property of the applicant as determined by the comptroller;
- (15) the proposed limitation on appraised value for the qualified property of the applicant;
- (16) the projected dollar amount of the taxes that would be imposed on the qualified property, for each year of the agreement, if the property does not receive a limitation on appraised value with assumptions of the projected appreciation or depreciation of the investment and projected tax rates clearly stated;
- (17) the projected dollar amount of the taxes that would be imposed on the qualified property, for each tax year of the agreement, if the property receives a limitation on appraised value with assumptions of the projected appreciation or depreciation of the investment clearly stated;
- (18) the projected effect on the Foundation School Program of payments to the district for each year of the agreement;
- (19) the projected future tax credits if the applicant also applies for school tax credits under Section 313.103; and
- (20) the total amount of taxes projected to be lost or gained by the district over the life of the agreement computed by subtracting the projected taxes stated in Subdivision (17) from the projected taxes stated in Subdivision (16).

Wages, salaries and benefits [313.026(6-8)]

After construction, the project will create two new jobs when fully operational. All two jobs will meet the criteria for qualifying jobs as specified in Tax Code Section 313.021(3). According to the Texas Workforce Commission (TWC), the regional manufacturing wage for the South Plains Association of Governments Region, where Floyd County is located was \$34,210 in 2012. The annual average manufacturing wage for 2012 for Floyd County is \$42,068. That same year, the county annual average wage for all industries was \$33,124. In addition to a salary of \$40,000, each qualifying position will receive the following benefits: At least 80% of employees of the operator of the Longhorn Wind Project will be employed in qualifying jobs pursuant to Texas Tax Code 313.024(d). Qualifying jobs will meet the definition of Texas Tax Code Section 313.051(b). Employees will be offered a group health benefit plan for which the operator of the Longhorn Wind Project will pay at least 80% of the premiums or other charges assessed for employee-only coverage under the plan or as necessary to be in compliance with the Affordable Care Act. In addition, each qualifying employee will receive area wide competitive 401(k) Retirement Savings Plan, vacation time, sick leave and skills training. The project's total investment is \$144 million, resulting in a relative level of investment per qualifying job of \$72 million.

Ability of applicant to locate to another state and [313.026(9)]

According to Longhorn Wind Project, LLC's application, "RES Americas is a wholly-owned indirect subsidiary of Renewable Energy Systems Limited (RES Ltd.), one of the most experienced wind development, construction and operations companies in the world. The organization is currently developing, constructing and operating wind and solar projects on six continents." "RES Americas is a developer and EPC/BOP contractor of utility-scale renewable energy projects, having built or currently constructing over 5,740 MW throughout North America to date. As such, RES has the ability to locate wind farms throughout the US and in foreign countries."

Number of new facilities in region [313.026(12)]

During the past two years, 4 projects in the South Plains Association of Governments Region applied for value limitation agreements under Tax Code, Chapter 313.

Relationship of applicant's industry and jobs and Texas's economic growth plans [313.026(5)]

The Texas Economic Development Plan focuses on attracting and developing industries using technology. It also identifies opportunities for existing Texas industries. The plan centers on promoting economic prosperity throughout Texas and the skilled workers that the Longhorn Wind Project, LLC project requires appear to be in line with the focus and themes of the plan. Texas identified energy as one of six target clusters in the Texas Cluster Initiative. The plan stresses the importance of technology in all sectors of the energy industry.

Economic Impact [313.026(10)(A), (10)(B), (11), (13-20)]

Table 1 depicts Longhorn Wind Project, LLC's estimated economic impact to Texas. It depicts the direct, indirect and induced effects to employment and personal income within the state. The Comptroller's office calculated the economic impact based on 16 years of annual investment and employment levels using software from Regional Economic Models, Inc. (REMI). The impact includes the construction period and the operating period of the project.

The statewide average ad valorem tax base for school districts in Texas was \$1.74 billion in 2011. Lockney ISD's ad valorem tax base in 2011 was \$91.6 million. The statewide average wealth per WADA was estimated at \$347,943 for fiscal 2011-2012. During that same year, Lockney ISD's estimated wealth per WADA was \$114,157. The impact on the facilities and finances of the district are presented in Attachment 2.

Table 2 examines the estimated direct impact on ad valorem taxes to the school district, Floyd County, and Caprock Hospital District, with all property tax incentives sought being granted using estimated market value from Longhorn Wind Project, LLC's application. Longhorn Wind Project, LLC has applied for both a value limitation under Chapter 313, Tax Code and tax abatements with the county and hospital district. Table 3 illustrates the estimated tax impact of the Longhorn Wind Project, LLC project on the region if all taxes are assessed.

Attachment 1 includes schedules A, B, C, and D provided by the applicant in the application. Schedule A shows proposed investment. Schedule B is the projected market value of the qualified property. Schedule C contains employment information, and Schedule D contains tax expenditures and other tax abatement information.

Attachment 2, provided by the district and reviewed by the Texas Education Agency, contains information relating to the financial impact of the proposed project on the finances of the district as well as the tax benefit of the value limitation. "TABLE II" in this attachment shows the estimated 13 year M&O tax levy without the value limitation agreement would be \$12,234,489. The estimated gross 13 year M&O tax benefit, or levy loss, is \$9,193,916.

Attachment 3 is an economic overview of Floyd County.

Disclaimer: This examination is based on information from the application submitted to the school district and forwarded to the comptroller. It is intended to meet the statutory requirement of Chapter 313 of the Tax Code and is not intended for any other purpose.

Qualifying Time Period usually begins with the final board approval of the application and extends generally for the following two complete tax years.

Column A: This represents the total dollar amount of planned investment in tangible personal property the applicant considers qualified investment - as defined in Tax Code §313.02(1)(A)-(D). For the purposes of investment, please list amount invested each year, not cumulative totals.

Column B: Include estimates of investment for "replacement" property that is part of original agreement but scheduled for probable replacement during limitation period. The total dollar amount of planned investment each year in buildings or nonremovable component of buildings that the applicant considers qualified investment under Tax Code §313.02(1)(E).

Column C: For the years outside the qualifying time period, this number should simply represent the planned investment in new buildings or nonremovable components of buildings. Dollar value of other investment that may not be qualified investment but that may affect economic impact and total value-for planning, construction and operation of the facility. The most significant example for many projects would be land. Other examples may be items such as professional services, etc.

Column D: Note: Land can be listed as part of investment during the "pre-year 1" time period. It cannot be part of qualifying investment.

Notes: For advanced clean energy projects, nuclear projects, projects with deferred qualifying time periods, and projects with lengthy application review periods, insert additional rows as needed. This schedule must be submitted with the original application and any application for tax credit. When using this schedule for any purpose other than the original application, replace original estimates with actual appraisal district data for past years and update estimates for current and future years. If original estimates have not changed, enter those amounts for future years.

Dear Mr. Wood:

The Texas Education Agency (TEA) has analyzed the revenue gains that would be realized by the proposed Longhorn Wind, LLC project for the Lockney Independent School District (LISD). Projections prepared by the TEA State Funding Division confirm the analysis that was prepared by Randy McDowell and Neal Brown and provided to us by your division. We believe their assumptions regarding the potential revenue gain are valid, and their estimates of the impact of the Longhorn Wind, LLC project on LISD are correct.

Please feel free to contact me by phone at (512) 463-9186 or by email at al.mckenzie@tea.state.tx.us if you need further information about this issue.

Dear Mr. Wood:

As required by the Tax Code, §313.025 (b-1), the Texas Education Agency (TEA) has evaluated the impact of the proposed Longhorn Wind, LLC project on the number and size of school facilities in Lockney Independent School District (LISD). Based on the analysis prepared by Randy McDowell and Neal Brown for the school district and a conversation with the LISD superintendent, Phil W. Cotham, the TEA has found that the Longhorn Wind, LLC project would not have a significant impact on the number or size of school facilities in LISD.

Please feel free to contact me by phone at (512) 463-9186 or by email at al.mckenzie@tea.state.tx.us if you need further information about this issue.

Lockney ISD Financial Impact of Chapter 313 Agreement

Summary of Lockney ISD Financial Impact of the Limited Appraised Value Application from Longhorn Wind Project, LLC

Introduction

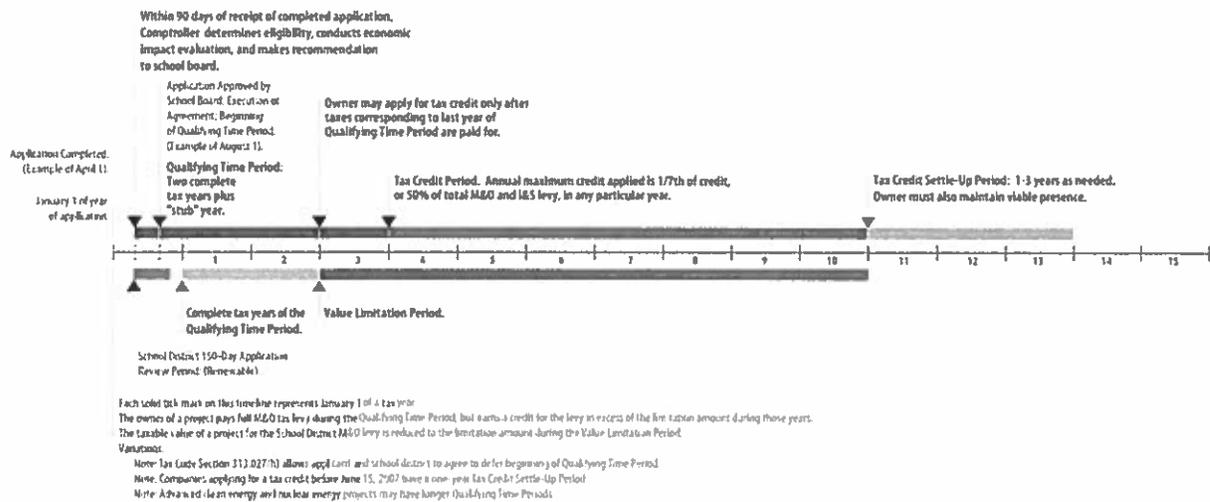

Longhorn Wind Project, LLC applied for a property value limitation from Lockney Independent School District under Chapter 313 of the Tax Code. The application was submitted on May 29, 2013 and subsequently approved for consideration by the Lockney ISD Board of Trustees. Longhorn Wind Project, LLC (“Longhorn Wind”), is requesting the property value limitation as a “renewable energy electric generation” project as listed in Sec. 313.024.(b) of the Tax Code.

“The Economic Development Act”, Tax Code Chapter 313, was created by House Bill 1200 of the 77th Texas Legislature in 2001. Further amendments were made to Chapter 313 as a result of House Bill 1470 from the 80th Texas Legislative Session in 2007.

The Economic Development Act was created to attract qualifying businesses to Texas by allowing school districts the option of approving a property value limitation to these qualifying entities. The purpose of the property value limitation is to reduce the maintenance and operations taxes paid by the company, to a school district during the applicable years as displayed below.

Lockney ISD Financial Impact of Chapter 313 Agreement

Appraised Value Limitation and Credit under Tax Code Chapter 313 for School District Maintenance & Operations (M&O) Tax

The company must file an application with the school district to qualify for consideration of a Limited Appraised Value Agreement (“LAVA” or “Agreement”) to begin the following tax year or a later year if agreed upon by the District and the Company. The first two years of the agreement are considered the qualifying time period and the company’s school district taxes will be levied at one-hundred percent of the appraised value. The applicant may then file a separate application with the school district to request tax credits (for taxes paid during the qualifying time period) to be applied during years four through ten of the LAVA, but not to exceed 50% of their tax levy for those years. Any tax credit balance remaining after this period can then be applied during years eleven through thirteen of the agreement, but cannot exceed the actual amount of taxes paid to the school district during the Settle-Up Period. After year thirteen, any leftover credits will not be applied and will expire.

During years three through ten of the LAVA, the qualifying entity’s taxable value will be reduced to the minimum qualified investment for the applicable school district as determined by the State Comptroller’s Office. Lockney ISD is considered a Rural category 3 District as categorized with total taxable value of industrial property of at least \$1 million but less than \$90 million, thus Lockney ISD has a minimum qualified investment amount of \$10 million. A qualifying entity’s taxable

Lockney ISD Financial Impact of Chapter 313 Agreement

value would be reduced to \$10 million during years three through ten of the agreement for the purposes of computing the tax levy for the maintenance and operations (M&O) tax of Lockney ISD. The entire appraised value will be used for computing the interest and sinking (I&S) tax levy.

Taxable Value Impact from LAVA

The “Additional Value from Longhorn Wind” represents the values that the company estimated as their taxable values in the application that was filed with the district. During years three through ten, the company’s taxable value will be limited to the \$10,000,000 minimum qualified investment of Lockney ISD.

Lockney ISD Financial Impact of Chapter 313 Agreement

Longhorn Wind's Tax Benefit from Agreement

The projected amount of the net tax savings for Longhorn Wind is \$8.486 million over the life of the Agreement. This net savings is after all tax credits have been applied and after estimated payments have been made to the district to offset their revenue losses that were a direct result of entering into this Agreement. Tax credits during years four through ten are limited to the lesser of 1/7 of the total tax credit or 50% of the total taxes paid for that tax year. Any tax credits not refunded to the company during those years will be refunded up to 100% of the taxes paid in years eleven through thirteen.

Lockney ISD's projected tax rates for maintenance & operations (M&O) and interest & sinking (I&S) are based on the following assumptions:

- The District has held a tax ratification election and the study projects that it will maintain an M&O tax rate of \$1.14 for the life of this agreement. The M&O rates for 2015-2016 & 2024-2025 are projected to drop to \$1.04 due to the rollback tax rate calculations.
- The district currently has no outstanding bonds and no I&S tax is projected in the study. The district could however pursue a bond election and issue bonded debt during the life of this agreement.

TABLE II- Computation of Net Tax Savings:

Lockney ISD Financial Impact of Chapter 313 Agreement

Financial Impact Study

This Financial Impact Study was performed to determine the financial impact of the Limited Appraised Value Agreement on Lockney ISD. First, a thirteen year financial forecast was prepared to establish a baseline without the added values of the renewable energy electric generation company. Second, a thirteen year financial forecast was prepared that incorporated the additional taxable value of the company without a LAVA in effect. Third, a thirteen year financial forecast was prepared that incorporates the additional taxable value of the company with an approved LAVA. These three forecasts are detailed in the "Calculation of LAVA Impact on District's Finances" section. The following assumptions were used to compare the financial impact of the LAVA:

- The current state funding formulas (in effect for 2013-2014 fiscal year) were used for state aid and recapture calculation purposes
 - Level 2 of Tier II yield - \$61.86 per weighted student in average daily attendance (WADA) per penny of tax effort
- The district's tax rate for maintenance & operations (M&O) will remain at the same rate as for tax year 2012.
- A tax collection rate of 100% on current year tax levy with no projected delinquent taxes
- An annual taxable value increase of 1.0% was used to project the district's taxable value, except as it related to the requested LAVA. The district's 2012 taxable value was used as a baseline for all projections
- The district's enrollment is projected to decrease slightly; therefore, the projected ADA and WADA for school year 2012-2013 was decreased by .25% per year for the life of the agreement.

Although these assumptions were used to develop a baseline scenario for comparison purposes, many of these factors will not remain constant for the thirteen years of this proposed agreement. Also, Legislative changes to the school finance formulas are likely during the near future and almost certain during the life of this agreement.

Lockney ISD Financial Impact of Chapter 313 Agreement

Calculation of LAVA Impact on District's Finances

The tables displayed below (Table III, IV, V) show the different impacts on the school district's finances. These scenarios were computed to compare the District's revenue without the additional taxable value of Longhorn Wind (Table III), the addition of Longhorn Wind's taxable values without a Chapter 313 Agreement (Table IV), and the addition of Longhorn Wind's taxable values with a Chapter 313 Agreement (Table V).

Lockney ISD Financial Impact of Chapter 313 Agreement

Current School Finance Law

A major overhaul of the school finance formulas was implemented as a result of House Bill 1 of the 79th Legislative Session and became effective for the 2006-2007 school year. These formula changes have had an effect on the district's financial impact from granting a property value limitation. Due to the district's "Hold Harmless" provision that was enacted in the new funding formulas, it is presumed that the majority of the district's revenue losses in year three of the LAVA will be offset with additional state funding or a reduction of recapture payments made to the State. Prior to these recent formula changes, school districts felt a significant loss in revenues in year three because the state funding formulas considered the district more property wealthy based on their prior year taxable value. However, districts were only able to tax on the lower value that was a result of the LAVA. Districts are currently "held harmless" for the majority amount of loss in year three; however, it is possible that a future legislative session could eliminate this provision. If the "hold harmless" provision is eliminated, then the company would be required to offset the district's losses as computed in Article III of the Agreement.

Payments in Lieu of Taxes

Assuming that the District and Longhorn Wind Project, LLC mutually agree in the LAVA that \$100 per student in average daily attendance (ADA) will be paid to Lockney ISD by Longhorn Wind, the projected amount of these payments over the life of the agreement is \$637,141 of the \$8.486 million net tax savings amount. This amount will be computed annually according to Section IV of the Agreement.

Impact of Projected Student Growth On District Facilities

TABLE VII – Campus Capacity and Available Growth

Campus Name	Grade Level	# of Regular Classrooms	Building Capacity	Current Enrollment	Enrollment Growth Available
Lockney Elem	EE thru 5	33	660	247	413
Lockney Jr High	6-8	14	252	110	142
Lockney High	9-12	21	378	156	222
Total		68	1,290	513	777

The building capacities are based on 20 students per classroom for the elementary campuses, 18 students for the middle and high school. Lockney ISD is a early education through 12th grade district.

Longhorn Wind Project, LLC provided supplemental information with their application that projected the number of full-time employees that are expected for permanent employment after construction of the project is completed. They projected that two full-time employees are expected. It is not known whether these would be new employees to the Lockney ISD, or if current residents would occupy these positions; however, it is assumed that these employees would be new residents to the district.

Based on average statewide figures provided by a demographer, it is projected that each new household would produce .5 students. Thus, the new two positions equates to 1 new student.

This minimal projected student growth can easily be accommodated with the current facilities of Lockney ISD as displayed in Table VII above.

Lockney ISD Financial Impact of Chapter 313 Agreement

Conclusion

This Financial Impact Study displays that entering into a Limited Appraised Value Agreement with Longhorn Wind Project, LLC, would be beneficial to both Longhorn Wind and Lockney ISD under the current school finance system.

Longhorn Wind Project, LLC would benefit from reduced property taxes during years three through ten of the LAVA. Although some of the tax savings would be used to offset district's revenue losses and payments in lieu of taxes to the District, Longhorn Wind is projected to benefit from a 82% tax savings over the first twelve year period of this agreement. Longhorn Wind also has the option of terminating the Agreement if the amount paid to the District during a tax year is greater than the amount of taxes that would have been paid without the agreement; therefore, there is no inherent risk for the company from entering into the Agreement.

Lockney ISD would also have no inherent risk under the current school finance system and with the provisions in the LAVA that require Longhorn Wind to offset any district losses caused by the LAVA. An annual calculation will be performed each year to determine if a loss to the District has been incurred. The revenue impact to the District will be computed by comparing the District's revenues with and without the LAVA in effect.
