Local Government Assistance & Economic Analysis
Texas Comptroller of Public Accounts
P.O. Box 13528
Austin, Texas 78711-3528

RE: Amended Application to the Barbers Hill Independent School District from Cedar Bayou Fractionators, LP

To the Local Government Assistance & Economic Analysis Division:

On August 1, 2013, the Barbers Hill Independent School District submitted the Application of Cedar Bayou Fractionators, LP. On August 28, 2013, a deficiency letter was issued for the application. In response to that the letter, Cedar Bayou Fractionators, LP submitted an amended application. The District re-determined the application complete as of September 4, 2013. Please prepare the economic impact report.

Please note, the District has confirmed that no construction has begun at the project site as of the date of the filing of the application and the District's determination that the application is complete. The Applicant is aware that the determination of a completed application by the Comptroller determines what property may be eligible for a value limitation agreement.

There is no existing property for this project. The site selected for the current project (CFB#5 and LEP#2) is vacant land.

The school district has determined that the wage information included in the application represents the most recent wage data available at the time of the application. The wage the Applicant has committed to paying on this project is well above the required statutory minimums.

To specifically address the deficiencies in the Application noted by the Comptroller's Office, the Applicant has provided the following additional information:

September 4, 2013

Page 2 of 2

1. In lieu of providing a higher resolution map that was attached to the deficiency letter, the Applicant submitted two different maps that were pre-approved by the Office of the Comptroller as sufficient to describe the planned location of the qualified property.
2. The Applicant submitted a revised Attachment 14 reflecting the most recent wage information.
3. The Schedules have been signed by the Authorized Business Representative identified in the Application.
4. Schedule C has been updated to reflect the most recent wage information.
5. The Applicant confirmed that the reinvestment zone was one contiguous area, and provided a copy of the map with a legend for ease of reference.

Due to the size of the application, an electronic copy is not attached. A paper and electronic copy of the application will be hand delivered to your office tomorrow. In accordance with 34 Tex. Admin Code §9.1054, a copy of the application will be submitted to the Chambers County Appraisal District.

Please feel free to contact me with questions.

Sincerely,

Re: Application for Section 313 - Value Limitation Agreement

Dear Dr. Greg Poole:

Cedar Bayou Fractionators, LP is considering plans to build a fractionation facility and IGP project inside Barbers Hill ISD, which will allow us the ability to process raw natural gas into useable products. The estimated investment for this project is \$300,000,000.

The positive economic impact stretches beyond the investment by providing hundreds of jobs during the construction phase, and at least 10 full time local jobs once construction is complete.

Cedar Bayou Fractionators, LP is committed to the growth and welfare of the community. We believe our investment in Mont Belvieu affirms our dedication to maintaining a considerable presence in the area.

Attached is our application for property the tax limitation. We respectfully request this 10 year limitation under The Appraised Value Limitation on Qualified Property (Chapter 313 of the Texas Tax Code).

Please feel free to contact me if you have any questions. I can be reached via telephone 469-298-1594 or by email mfry@keatax.com.

Sincerely,

A handwritten signature in blue ink that reads "Mike Fry". The signature is fluid and cursive, with the first name "Mike" and last name "Fry" clearly distinguishable.

Application for Appraised Value Limitation on Qualified Property (Tax Code, Chapter 313, Subchapter B or C)

Form 50-296
(Revised May 2010)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application.

This notice must include:

- the date on which the school district received the application;
- the date the school district determined that the application was complete;
- the date the school board decided to consider the application; and
- a request that the comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original completed application to the Comptroller in a three-ring binder with tabs separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its Web site. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules as explained in the Confidentiality Notice below.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, make a recommendation to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application before the 151st day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to complete the recommendation, economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's Web site to find out more about the program at <http://www.window.state.tx.us/taxinfo/proptax/hb1200/index.html>. There are links on this Web page to the Chapter 313 statute, rules and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

**INVESTMENT**

NOTE: The minimum amount of qualified investment required to qualify for an appraised value limitation and the minimum amount of appraised value limitation vary depending on whether the school district is classified as rural, and the taxable value of the property within the school district. For assistance in determining estimates of these minimums, access the Comptroller's Web site at www.window.state.tx.us/taxinfo/proptax/hb1200/values.html.

At the time of application, what is the estimated minimum qualified investment required for this school district? 30 Million

What is the amount of appraised value limitation for which you are applying? 30 Million

What is your total estimated *qualified* investment? 300 Million

NOTE: See 313.021(1) for full definition. Generally, Qualified Investment is the sum of the investment in tangible personal property and buildings and new improvements made between beginning of the qualifying time period (date of application final approval by the school district) and the end of the second complete tax year.

What is the anticipated date of application approval? November 2013

What is the anticipated date of the beginning of the qualifying time period? November 2013

What is the total estimated investment for this project for the period from the time of application submission to the end of the limitation period? 300 Million

Describe the qualified investment.[See 313.021(1).]

Attach the following items to this application:

- (1) a specific and detailed description of the qualified investment you propose to make on the property for which you are requesting an appraised value limitation as defined by Tax Code §313.021,
- (2) a description of any new buildings, proposed improvements or personal property which you intend to include as part of your minimum qualified investment and
- (3) a map of the qualified investment showing location of new buildings or new improvements with vicinity map.

Do you intend to make at least the minimum qualified investment required by Tax Code §313.023 (or 313.053 for rural school districts) for the relevant school district category during the qualifying time period? ☒ Yes ☐ No

Except for new equipment described in Tax Code §151.318(q) or (q-1), is the proposed tangible personal property to be placed in service for the first time:

- (1) in or on the new building or other new improvement for which you are applying? ☒ Yes ☐ No
- (2) if not in or on the new building or other new improvement for which you are applying for an appraised value limitation, is the personal property necessary and ancillary to the business conducted in the new building or other new improvement? ☒ Yes ☐ No
- (3) on the same parcel of land as the building for which you are applying for an appraised value limitation? ☒ Yes ☐ No

("First placed in service" means the first use of the property by the taxpayer.)

Will the investment in real or personal property you propose be counted toward the minimum qualified investment required by Tax Code §313.023, (or 313.053 for rural school districts) be first placed in service in this state during the applicable qualifying time period? ☒ Yes ☐ No

Does the investment in tangible personal property meet the requirements of Tax Code §313.021(1)? ☒ Yes ☐ No

If the proposed investment includes a building or a permanent, non-removable component of a building, does it house tangible personal property? ☒ Yes ☐ No

QUALIFIED PROPERTY

Describe the qualified property. [See 313.021(2)] (If qualified investment describes qualified property exactly you may skip items (1), (2) and (3) below.)

Attach the following items to this application:

- (1) a specific and detailed description of the qualified property for which you are requesting an appraised value limitation as defined by Tax Code §313.021,
- (2) a description of any new buildings, proposed improvements or personal property which you intend to include as part of your qualified property and
- (3) a map of the qualified property showing location of new buildings or new improvements – with vicinity map.

Land

Is the land on which you propose new construction or improvements currently located in an area designated as a reinvestment zone under Tax Code Chapter 311 or 312 or as an enterprise zone under Government Code Chapter 2303? ☒ Yes ☐ No

If you answered "no" to the question above, what is the anticipated date on which you will submit proof of a reinvestment zone with boundaries encompassing the land on which you propose new construction or improvements? _____

Will the applicant own the land by the date of agreement execution? ☒ Yes ☐ No

Will the project be on leased land? ☐ Yes ☒ No

QUALIFIED PROPERTY (CONTINUED)

If the land upon which the new building or new improvement is to be built is part of the qualified property described by §313.021(2)(A), please attach complete documentation, including:

1. Legal description of the land
2. Each existing appraisal parcel number of the land on which the improvements will be constructed, regardless of whether or not all of the land described in the current parcel will become qualified property
3. Owner
4. The current taxable value of the land. Attach estimate if land is part of larger parcel.
5. A detailed map (with a vicinity map) showing the location of the land

Attach a map of the reinvestment zone boundaries, certified to be accurate by either the governmental entity creating the zone, the local appraisal district, or a licensed surveyor. (With vicinity map)

Attach the order, resolution or ordinance establishing the zone, and the guidelines and criteria for creating the zone, if applicable.

Miscellaneous

Is the proposed project a building or new improvement to an existing facility? ☐ Yes ☒ No

Attach a description of any existing improvements and include existing appraisal district account numbers.

List current market value of existing property at site as of most recent tax year. 0 2012

Will all of the property for which you are requesting an appraised value limitation be free of a tax abatement agreement entered into by a school district for the duration of the limitation? ☒ Yes ☐ No

WAGE AND EMPLOYMENT INFORMATION

What is the estimated number of permanent jobs (more than 1,600 hours a year), with the applicant or a contractor of the applicant, on the proposed qualified property during the last complete quarter before the application review start date (date your application is finally determined to be complete)? 0

The last complete calendar quarter before application review start date is the:

☐ First Quarter ☒ Second Quarter ☐ Third Quarter ☐ Fourth Quarter of 2013
(year)

What were the number of permanent jobs (more than 1,600 hours a year) this applicant had in Texas during the most recent quarter reported to the TWC?
81 (Eighty-One)

Note: For job definitions see TAC §9.1051(14) and Tax Code 313.021(3). If the applicant intends to apply a definition for "new job" other than TAC §9.1051(14)(C), then please provide the definition of "new job" as used in this application. N/A

Total number of new jobs that will have been created when fully operational 10

Do you plan to create at least 25 new jobs (at least 10 new jobs for rural school districts) on the land and in connection with the new building or other improvement? ☒ Yes ☐ No

Do you intend to request that the governing body waive the minimum new job creation requirement, as provided under Tax Code §313.025(f-1)? ☐ Yes ☒ No

If you answered "yes" to the question above, attach evidence documenting that the new job creation requirement above exceeds the number of employees necessary for the operation, according to industry standards. **Note: Even if a minimum new job waiver is provided, 80% of all new jobs must be qualifying jobs pursuant to Texas Tax Code, §313.024(d).**

What is the maximum number of qualifying jobs meeting all criteria of §313.021(3) you are committing to create? 8

If this project creates more than 1,000 new jobs, the minimum required wage for this project is 110% of the average county weekly wage for all jobs as described by 313.021(3)(E)(ii).

If this project creates less than 1,000 new jobs, does this district have territory in a county that meets the demographic characteristics of 313.051(2)? (see table of information showing this district characteristic at <http://www.window.state.tx.us/taxinfo/proptax/hb1200/values.html>)

If yes, the applicant must meet wage standard described in 313.051(b) (110% of the regional average weekly wage for manufacturing)

If no, the applicant shall designate one of the wage standards set out in §§313.021(5)(A) or 313.021(5)(B).

**WAGE AND EMPLOYMENT INFORMATION (CONTINUED)**

For the following three wage calculations please include on an attachment the four most recent quarters of data for each wage calculation. Show the average and the 110% calculation. Include documentation from TWC Web site. The final actual statutory minimum annual wage requirement for the applicant for each qualifying job — which may differ slightly from this estimate — will be based on information from the four quarterly periods for which data were available at the time of the application review start date (date of a completed application). See TAC §9.1051(7).

There is an exception, outlined below, by which information will be withheld from disclosure.

The Comptroller's office will withhold information from public release if:

- 1) it describes the specific processes or business activities to be conducted or the specific tangible personal property to be located on real property covered by the application;
- 2) the information has been segregated in the application from other information in the application; and
- 3) the party requesting confidentiality provides the Comptroller's office a list of the documents for which confidentiality is sought and for each document lists the specific reasons, including any relevant legal authority, stating why the material is believed to be confidential.

All applications and parts of applications which are not segregated and marked as confidential as outlined above will be considered public information and will be posted on the internet.

Such information properly identified as confidential will be withheld from public release unless and until the governing body of the school district acts on the application, or we are directed to do so by a ruling from the Attorney General.

Other information in the custody of a school district or the comptroller submitted in connection with the application, including information related to the economic impact of a project or the essential elements of eligibility under Texas Tax Code, Chapter 313, such as

the nature and amount of the projected investment, employment, wages, and benefits, will not be considered confidential business information and will be posted on the internet.

All documents submitted to the Comptroller, as well as all information in the application once the school district acts thereon, are subject to public release unless specific parts of the application or documents submitted with the application are identified as confidential. Any person seeking to limit disclosure of such submitted records is advised to consult with their legal counsel regarding disclosure issues and also to take the appropriate precautions to safeguard copyrighted material, trade secrets, or any other proprietary information. The Comptroller assumes no obligation or responsibility relating to the disclosure or nondisclosure of information submitted by respondents. A person seeking to limit disclosure of information must submit in writing specific detailed reasons, including any relevant legal authority, stating why that person believes the material to be confidential.

The following outlines how the Comptroller's office will handle requests for information submitted under the Texas Public Information Act for application portions and submitted records appropriately identified as confidential.

- This office shall forward the request for records and a copy of the documents at issue to the Texas Attorney General's office for an opinion on whether such information may be withheld from disclosure under the Texas Public Information Act.
- The Comptroller will notify the person who submitted the application/documents when the information is forwarded to the Attorney General's office.
- Please be aware that this Office is obligated to comply with an Attorney General's decision, including release of information ruled public even if it was marked confidential.

Qualifying Time Period usually begins with the final board approval of the application and ends with the final board approval of the application																			

Qualifying Time Period usually begins with the final board approval of the application and extends generally for the following two complete tax years.

Column A: This represents the total dollar amount of planned investment in tangible personal property the applicant considers qualified investment - as defined in Tax Code §313.02(1)(A)-(D).

For the purposes of investment, please list amount invested each year, not cumulative totals.

If for the years outside the qualifying time period, this number should simply represent the planned investment in tangible personal property.

Include estimates of investment for "replacement" property-property that is part of original agreement but scheduled for probable replacement during limitation period.

The total dollar amount of planned investment each year in buildings or nonremovable component of buildings that the applicant considers qualified investment under Tax Code §313.02(1)(E).

For the years outside the qualifying time period, this number should simply represent the planned investment in new buildings or nonremovable components of buildings.

Dollar value of other investment that may not be qualified investment but that may affect economic impact and total value-for planning, construction and operation of the facility.

Note: Land can be listed as part of investment during the "pre-year 1" time period. It cannot be part of qualifying investment.

Notes: For advanced clean energy projects, nuclear projects, projects with deferred qualifying time periods, and projects with lengthy application review periods, insert additional rows as needed.

This schedule must be submitted with the original application and any application for tax credit. When using this schedule for any purpose other than the original application,

replace original estimates with actual appraisal district data for past years and update estimates for current and future years. If original estimates have not changed, enter

those amounts for future years.

Detailed Description of Project

ATTACHMENT: 1
APPLICATION FOR TAX LIMITATION
BARBERS HILL SCHOOL DISTRICT

Proposed Project Description

Cedar Bayou Fractionators, LP proposes to build a new NGL fractionator in Mont Belvieu, Texas.

NGL Fractionation

NGL fractionation is the process of manufacturing raw NGL mix produced by natural gas processing plants into discrete NGL purity components (i.e., ethane, propane, normal butane, iso-butane, and natural gasoline).

Fractionation Process

The fractionation process is accomplished by applying heat and pressure to the mixture of raw NGL hydrocarbons and separating each discrete product at the different boiling points for each NGL component of the mixture. The raw NGL mixture is passed through a specific series of distillation towers: deethanizer, depropanizer, debutanizer, and deisobutanizer. The name of each of these towers corresponds to the NGL component that is separated in that tower. The raw NGL mixture first passes through the deethanizer, where its temperature is increased to the point where ethane (the lightest component) boils off the top of the tower as a gas and is condensed into a purity liquid that is routed to storage. The heavier components in the mixture at the bottom of the tower (i.e., propane, butane, iso butane, and natural gasoline) are routed to the second tower (depropanizer), where the process is repeated and the net lightest component (propane) is separated. This process is repeated until the mixture of liquids has been separated into its purity components. This facility will also be built with the necessary equipment to produce International Grade Propane.

Demand for NGLs

Sources of U.S. NGL demand include petrochemical consumption, gasoline blending, heating and fuel, and exports. Demand is driven primarily by the petrochemical industry, which accounts for 40-50% of total consumption. The U.S. petrochemical industry uses NGL products as feedstock (i.e. raw material) to produce ethylene, propylene, and butadiene (also known as olefins).

The following factors influence demand for each individual NGL component:

- **Ethane.** Essentially all of the ethane extracted from natural gas is consumed by the petrochemical industry as a feedstock for ethylene production. (Ethylene is a building block for polyethylene, which is the most popular plastic in the world.)
- **Propane.** Approximately 25-30% of propane is used as a feedstock by the petrochemical industry to produce ethylene and propylene. (Like ethylene,

propylene is an important building block used in the manufacture of plastics.) The bulk of the remaining demand for propane is primarily as a heating fuel in the residential and commercial markets.

- **Normal butane.** Normal butane is used as a petrochemical feedstock for the production of ethylene and butadiene (used to make synthetic rubber), as a blendstock for motor gasoline, and as a feedstock to create isobutene.
- **Isobutane.** Isobutane has the same molecular formula as normal butane, but a different structural formula (i.e., atoms are rearranged). Isobutane is used in refinery alkylation to enhance the octane content of motor gasoline.
- **Natural gasoline.** Natural gasoline is used primarily as a blendstock.

Ability to locate or relocate:

CBF currently operates in two states. They allocate capital investment to projects and locations that create the best economic return. The existence of a limitation on tax value is a significant factor in calculating the economic return and allocation of reserves to the project. However, CBF could redirect its expenditures to its plants in:

The following factors influence demand for each individual NGL component:

- **Ethane.** Essentially all of the ethane extracted from natural gas is consumed by the petrochemical industry as a feedstock for ethylene production. (Ethylene is a building block for polyethylene, which is the most popular plastic in the world.)
- **Propane.** Approximately 25-30% of propane is used as a feedstock by the petrochemical industry to produce ethylene and propylene. (Like ethylene,

propylene is an important building block used in the manufacture of plastics.) The bulk of the remaining demand for propane is primarily as a heating fuel in the residential and commercial markets.

- **Normal butane.** Normal butane is used as a petrochemical feedstock for the production of ethylene and butadiene (used to make synthetic rubber), as a blendstock for motor gasoline, and as a feedstock to create isobutene.
- **Isobutane.** Isobutane has the same molecular formula as normal butane, but a different structural formula (i.e., atoms are rearranged). Isobutane is used in refinery alkylation to enhance the octane content of motor gasoline.
- **Natural gasoline.** Natural gasoline is used primarily as a blendstock.

Proposed Project Description

Cedar Bayou Fractionators, LP proposes to build a new NGL fractionator in Mont Belvieu, Texas.

NGL Fractionation

NGL fractionation is the process of manufacturing raw NGL mix produced by natural gas processing plants into discrete NGL purity components (i.e., ethane, propane, normal butane, iso-butane, and natural gasoline).

Fractionation Process

The fractionation process is accomplished by applying heat and pressure to the mixture of raw NGL hydrocarbons and separating each discrete product at the different boiling points for each NGL component of the mixture. The raw NGL mixture is passed through a specific series of distillation towers: deethanizer, depropanizer, debutanizer, and deisobutanizer. The name of each of these towers corresponds to the NGL component that is separated in that tower. The raw NGL mixture first passes through the deethanizer, where its temperature is increased to the point where ethane (the lightest component) boils off the top of the tower as a gas and is condensed into a purity liquid that is routed to storage. The heavier components in the mixture at the bottom of the tower (i.e., propane, butane, iso butane, and natural gasoline) are routed to the second tower (depropanizer), where the process is repeated and the net lightest component (propane) is separated. This process is repeated until the mixture of liquids has been separated into its purity components. This facility will also be built with the necessary equipment to produce International Grade Propane.

Demand for NGLs

Sources of U.S. NGL demand include petrochemical consumption, gasoline blending, heating and fuel, and exports. Demand is driven primarily by the petrochemical industry, which accounts for 40-50% of total consumption. The U.S. petrochemical industry uses NGL products as feedstock (i.e. raw material) to produce ethylene, propylene, and butadiene (also known as olefins).

The following factors influence demand for each individual NGL component:

- **Ethane.** Essentially all of the ethane extracted from natural gas is consumed by the petrochemical industry as a feedstock for ethylene production. (Ethylene is a building block for polyethylene, which is the most popular plastic in the world.)
- **Propane.** Approximately 25-30% of propane is used as a feedstock by the petrochemical industry to produce ethylene and propylene. (Like ethylene,

propylene is an important building block used in the manufacture of plastics.) The bulk of the remaining demand for propane is primarily as a heating fuel in the residential and commercial markets.

- **Normal butane.** Normal butane is used as a petrochemical feedstock for the production of ethylene and butadiene (used to make synthetic rubber), as a blendstock for motor gasoline, and as a feedstock to create isobutene.
- **Isobutane.** Isobutane has the same molecular formula as normal butane, but a different structural formula (i.e., atoms are rearranged). Isobutane is used in refinery alkylation to enhance the octane content of motor gasoline.
- **Natural gasoline.** Natural gasoline is used primarily as a blendstock.

FIELD NOTES of a 53.880 acre tract of land situated in the William Bloodgood League, Abstract Number 4, Chambers County, the Henry Griffith League, Abstract Number 12, Chambers County, the William Bloodgood Augmentation Survey, Abstract Number 5, Chambers County, and being out of and a part of a 242.5057 acre tract of land called Tract 9 and conveyed to Midstream Combination Corp. by Chevron U.S.A. Inc., in deed dated August 20, 1996, and recorded in Volume 108 at Page 85 of the Official Public Records of Chambers County. This 53.880 acre tract of land is more particularly described by metes and bounds as follows, to-wit:

NOTE: ALL BEARINGS ARE LAMBERT GRID BEARINGS AND ALL COORDINATES REFER TO THE STATE PLANE COORDINATE SYSTEM, SOUTH CENTRAL ZONE, AS DEFINED BY ARTICLE 21.071 OF THE NATURAL RESOURCES CODE OF THE STATE OF TEXAS, 1927 DATUM. ALL DISTANCES ARE ACTUAL DISTANCES. REFERENCE IS MADE TO PLAT OF EVEN DATE ACCOMPANYING THIS METES AND BOUNDS DESCRIPTION.

BEGINNING at a brass cap set in concrete for the Northeast corner of this tract of land, having a State Plane Coordinate Value of $Y = 752,799.30$ and $X = 3,299,929.27$. From this BEGINNING corner a 1 1/4 inch iron pipe found for the Northeast corner of said Bloodgood League, an interior corner of the Henry Griffith League, Abstract Number 12, Chambers County, an angle point in the North line of said 242.5057 acres, and an angle point in the South line of a tract of land conveyed to Texas Eastern Transmission Corporation by O. Z. Smith, et ux, in deed dated January 3, 1959, and recorded in Volume 227 at Page 201 of the Deed Records of Chambers County bears North $15^{\circ} 06' 31''$ West a distance of 1245.27 feet.

Qualifying Time Period usually begins with the final board approval of the application and ends with the final board approval of the application									

Qualifying Time Period usually begins with the final board approval of the application and extends generally for the following two complete tax years.

Column A: This represents the total dollar amount of planned investment in tangible personal property the applicant considers qualified investment - as defined in Tax Code §313.02(1)(A)-(D).

For the purposes of investment, please list amount invested each year, not cumulative totals.

If for the years outside the qualifying time period, this number should simply represent the planned investment in tangible personal property.

Include estimates of investment for "replacement" property-property that is part of original agreement but scheduled for probable replacement during limitation period.

The total dollar amount of planned investment each year in buildings or nonremovable component of buildings that the applicant considers qualified investment under Tax Code §313.02(1)(E).

Column B: For the years outside the qualifying time period, this number should simply represent the planned investment in new buildings or nonremovable components of buildings.

Dollar value of other investment that may not be qualified investment but that may affect economic impact and total value-for planning, construction and operation of the facility.

Note: Land can be listed as part of investment during the "pre-year 1" time period. It cannot be part of qualifying investment.

Notes: For advanced clean energy projects, nuclear projects, projects with deferred qualifying time periods, and projects with lengthy application review periods, insert additional rows as needed.

This schedule must be submitted with the original application and any application for tax credit. When using this schedule for any purpose other than the original application, replace original estimates with actual appraisal district data for past years and update estimates for current and future years. If original estimates have not changed, enter those amounts for future years.

Order, Resolution or Ordinance Establishing Zone
Abatement Guidelines and Criteria

ORDINANCE NO. 2011-006

AN ORDINANCE PROVIDING FOR ELIGIBILITY TO PARTICIPATE IN TAX ABATEMENT, MAKING CERTAIN FINDINGS OF FACT, AND ADOPTING GUIDELINES AND CRITERIA FOR TAX ABATEMENT AGREEMENTS FOR THE CITY OF MONT BELVIEU IN ACCORDANCE WITH CHAPTER 312 OF THE TEXAS TAX CODE.

WHEREAS, pursuant to Chapter 312 of the Texas Tax Code, the City must elect to become eligible to participate in tax abatement;

WHEREAS, pursuant to Chapter 312 of the Texas Tax Code, certain tax abatement guidelines and criteria are necessary prior to the creation of a reinvestment zone or prior to entering into a tax abatement agreement;

WHEREAS, the prior tax abatement guidelines and criteria established by the City of Mont Belvieu expired on February 23, 2011;

WHEREAS, the City Council of the City of Mont Belvieu finds and determines that the guidelines and criteria as hereinafter set out are in the best interest of the City of Mont Belvieu to encourage certain types of development to the exclusion of others;

WHEREAS, the City Council of the City of Mont Belvieu reaffirms its absolute discretion to approve and/or reject any applicant for tax abatement, whether or not an application meets the criteria and/or guidelines as herein stated; and

WHEREAS, the City Council of the City of Mont Belvieu finds and determines that it should consider application for tax abatement and enter into tax abatement agreements which provide for tax abatements under criteria established by other taxing entities without city participation;

**NOW, THEREFORE,
BE IT ORDAINED BY THE CITY COUNCIL
OF THE CITY OF MONT BELVIEU, TEXAS:**

That pursuant to the provisions of Section 312.002(a) of the Texas Tax Code, the City of Mont Belvieu does hereby elect to become eligible to participate in tax abatement and hereby adopts the following tax abatement guidelines and criteria pursuant to 312.002(d):

Section 1.

The property subject to the abatement must be located within the city limits of the City of Mont Belvieu, Texas. Eligible business shall include any business duly authorized to operate in the State of Texas.

Section 2.

Eligible activities for which a tax abatement may be granted shall include the lesser of either the additional assessed value over the base year value or actual investment resulting from construction or acquisition of fixed assets.

Section 3.

The standard abatement formula that may be permitted in any abatement agreement shall be:

- 1.) Abatement shall not exceed five (5) years, beginning on January 1st after the signing of the tax abatement agreement.
- 2.) Years one (1), two (2), and three (3) will be one hundred percent (100%) abatement.
- 3.) Year four (4) will be at seventy five percent (75%) abatement.
- 4.) Year five (5) will be at fifty percent (50%) abatement.
- 5.) Year six (6) the abatement expires and all taxes are paid.

Section 4.

The City Council reserves the right to offer different terms in furtherance of the public interest. Conditions which justify non-standard terms and percentages of abatement include projects over \$10,000,000 million dollars of value, over twenty (20) new proposed jobs created or public infrastructure contributions.

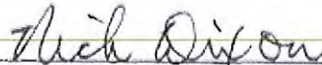

Section 5.

The City may consider an application for abatement when entering into a tax abatement agreement which provides for no abatement to be granted by the City, but which provides for an abatement to be granted by other taxing entities to the extent of the limitations provided under their guidelines and criteria.

Section 6.

In the event that one or more of the provisions contained in this Ordinance shall for any reason be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability of this Ordinance shall be construed as if such invalid, illegal or unenforceable provision has never been contained herein, but shall not affect the remaining provisions of this Ordinance, which shall remain in full force and effect.

PASS AND APPROVED on this the 16th day of May, 2011.

Nick Dixon, Mayor
