Local Government Assistance & Economic Analysis Texas Comptroller of Public Accounts P.O. Box 13528 Austin, Texas 78711-3528

RE: Application to the Comanche Independent School District from Logan's Gap Wind I, LLC

FIRST QUALIFYING YEAR 2014

To the Local Government Assistance & Economic Analysis Division:

By copy of this letter transmitting the application for review to the Comptroller's Office, the Comanche Independent School District is notifying the Applicant Logan's Gap Wind I, LLC of its intent to consider Logan's Gap Wind I, LLC's application for appraised value limitation on qualified property. The Applicant submitted the application to the school district on August 1, 2013. The Board voted at a properly posted Board meeting to accept the application on August 5, 2013. The application was determined complete by the school district on August 7, 2013. Please prepare the economic impact report.

It is projected that this project will be located within three different districts. This application is for only the property located within Comanche ISD. The Applicant has provided detailed maps and project descriptions that show only the qualified property that is the subject of this application. Also, the qualified property that is the subject of the application does not include land.

The Applicant has included confidential materials with the application. The materials have been provided both in electronic and hard copy format. We have not attached the confidential materials to this email to avoid the unintended disclosure of these materials. In accordance with 34 TAC 9.1053, the specific information that is the subject of this request is segregated from the materials submitted contemporaneously with this application. Specifically, the information regarding the preliminary layout of the wind farm represents proprietary

commercial information found at Attachment 9. The public release of this information would reveal information which Logan's Gap Wind I, LLC considers to be a trade secret. Specifically, Logan's Gap Wind I, LLC avers that specific information regarding the preliminary layout of the wind farm gives the company a competitive advantage, and that the company has invested considerable sums in the development of such information and in the efforts to keep such information confidential. The release of such information would cause Logan's Gap Wind I, LLC to suffer substantial competitive harm.

No construction has begun at the project site as of the date of the filing of the application and the District's determination that the application is complete. The Applicant is aware that the determination of a completed application by the Comptroller determines what property may be eligible for a value limitation agreement.

The reinvestment zone for this project has not been adopted as yet. The final executed copy of the reinvestment zone order and tax abatement guidelines will be provided upon adoption, before the Board considers final approval of the application.

The school district has determined that the wage information included in the application represents the most recent wage data available at the time of the application. The wage the Applicant has committed to paying on this project is above the required statutory minimums.

A paper copy of the application will be hand delivered to your office tomorrow. In accordance with 34 Tex. Admin Code §9.1054, a copy of the application will be submitted to the Comanche County Appraisal District.

Please feel free to contact me with questions.

Sincerely,

Kevin O'Hanlon School District Consultant

Comanche County Appraisal District

Logan's Gap Wind I, LLC

Rick Howard, Comanche ISD

Application for Appraised Value Limitation on Qualified Property (Tax Code, Chapter 313, Subchapter B or C)

Form 50-296

(Revised May 2010)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

notify the Comptroller that the school board has elected to consider the application.

This notice must include:

- the date on which the school district received the application;
- the date the school district determined that the application was complete;
- the date the school board decided to consider the application; and
- a request that the comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original completed application to the Comptroller in a three-ring binder with tabs separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its Web site. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules as explained in the Confidentiality Notice below.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, make a recommendation to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application before the 151st day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to complete the recommendation, economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's Web site to find out more about the program at http://www.window.state.tx.us/taxinfo/proptax/hb1200/index.html. There are links on this Web page to the Chapter 313 statute, rules and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

NOTE: The minimum amount of qualified investment required to qualify for an appraised value limitation and the minimum amount of appraised value lim vary depending on whether the school district is classified as rural, and the taxable value of the property within the school district. For assistance in deter estimates of these minimums, access the Comptroller's Web site at www.window.state.tx.us/taxinfo/proptax/hb1200/values.html .	
At the time of application, what is the estimated minimum qualified investment required for this school district?	
What is the amount of appraised value limitation for which you are applying? \$10 million	
What is your total estimated <i>qualified</i> investment? \$210,600,000	
NOTE: See 313.021(1) for full definition. Generally, Qualified Investment is the sum of the investment in tangible personal property and buildings and new improvements made between beginning of the qualifying time period (date of application final approval by the school district) and the end of the second of tax year.	
What is the anticipated date of application approval? Dec. 2013	
What is the anticipated date of the beginning of the qualifying time period? Dec. 2013	
What is the total estimated investment for this project for the period from the time of application submission to the end of the limitation period? \$210,600,000	
Describe the qualified investment.[See 313.021(1).]	
Attach the following items to this application:	
(1) a specific and detailed description of the qualified investment you propose to make on the property for which you are requesting an appraised value li as defined by Tax Code §313.021,	mitation
(2) a description of any new buildings, proposed improvements or personal property which you intend to include as part of your minimum qualified investry	nent and
(3) a map of the qualified investment showing location of new buildings or new improvements with vicinity map.	
Do you intend to make at least the minimum qualified investment required by Tax Code §313.023 (or 313.053 for rural school districts) for the relevant school district category during the qualifying time period?	□ No
Except for new equipment described in Tax Code §151.318(q) or (q-1), is the proposed tangible personal property to be placed in service for the first time	9:
(1) in or on the new building or other new improvement for which you are applying?	☐ No
(2) if not in or on the new building or other new improvement for which you are applying for an appraised value limitation, is the personal property necessary and ancillary to the business conducted in the new building or other new improvement?	□ No
(3) on the same parcel of land as the building for which you are applying for an appraised value limitation?	☐ No
("First placed in service" means the first use of the property by the taxpayer.)	
Will the investment in real or personal property you propose be counted toward the minimum qualified investment required by Tax Code §313.023, (or 313.053 for rural school districts) be first placed in service in this state during the applicable qualifying time period? ✓ Yes	□ No
Does the investment in tangible personal property meet the requirements of Tax Code §313.021(1)?	☐ No
If the proposed investment includes a building or a permanent, non-removable component of a building, does it house tangible personal property?	☐ No
QUALIFIED PROPERTY	100
Describe the qualified property. [See 313.021(2)] (If qualified investment describes qualified property exactly you may skip items (1), (2) and (3) below.) Attach the following items to this application: (1) a specific and detailed description of the qualified property for which you are requesting an appraised value limitation as defined by Tax Code §313.02 (2) a description of any new buildings, proposed improvements or personal property which you intend to include as part of your qualified property and (3) a map of the qualified property showing location of new buildings or new improvements — with vicinity map.	?1,
Land Is the land on which you propose new construction or improvements currently located in an area designated as a reinvestment zone under Tax Code Chapter 311 or 312 or as an enterprise zone under Government Code Chapter 2303?	☑ No
If you answered "no" to the question above, what is the anticipated date on which you will submit proof of a reinvestment zone with boundaries encompassing the land on which you propose new construction or improvements? Oct. 1, 2013	
Will the applicant own the land by the date of agreement execution?	☑ No
Will the project be on leased land?	□ No

QUALIFIED PROPERTY (CONTINUED)

If the land upon which the new building or new improvement is to be built is part of the qualified property described by §313.021(2)(A), please attach complete documentation, including:

- 1. Legal description of the land
- 2. Each existing appraisal parcel number of the land on which the improvements will be constructed, regardless of whether or not all of the land described in the current parcel will become qualified property
- 4. The current taxable value of the land. Attach estimate if land is part of larger parcel.
- 5. A detailed map (with a vicinity map) showing the location of the land

Attach a map of the reinvestment zone boundaries, certified to be accurate by either the governmental entity creating the zone, the local appraisal district, or a

licensed surveyor. (With vicinity map) Attach the order, resolution or ordinance establishing the zone, and the guidelines and criteria for creating the zone, if applicable. Miscellaneous ✓ No Is the proposed project a building or new improvement to an existing facility?..... Attach a description of any existing improvements and include existing appraisal district account numbers. List current market value of existing property at site as of most recent tax year. (Tax Year) ✓ No Is any of the existing property subject to a value limitation agreement under Tax Code 313? Will all of the property for which you are requesting an appraised value limitation be free of a tax ☐ No abatement agreement entered into by a school district for the duration of the limitation?..... WAGE AND EMPLOYMENT INFORMATION What is the estimated number of permanent jobs (more than 1,600 hours a year), with the applicant or a contractor of the applicant, on the proposed qualified property during the last complete quarter before the application review start date (date your application is finally determined to be complete)? The last complete calendar quarter before application review start date is the: ☐ Fourth Quarter of 2013 ☐ First Quarter Second Quarter What were the number of permanent jobs (more than 1,600 hours a year) this applicant had in Texas during the most recent quarter reported to the TWC? Note: For job definitions see TAC §9.1051(14) and Tax Code 313.021(3). If the applicant intends to apply a definition for "new job" other than TAC §9.1051(14)(C), then please provide the definition of "new job" as used in this application. N/A Total number of new jobs that will have been created when fully operational $\frac{4}{2}$ Do you plan to create at least 25 new jobs (at least 10 new jobs for rural school districts) on the land and in connection with the new building or other improvement?..... 🚨 Yes Do you intend to request that the governing body waive the minimum new job creation requirement, as provided under Tax Code §313.025(f-1)?.... If you answered "yes" to the question above, attach evidence documenting that the new job creation requirement above exceeds the number of employees necessary for the operation, according to industry standards. Note: Even if a minimum new job waiver is provided, 80% of all new jobs must be qualifying jobs pursuant to Texas Tax Code, §313.024(d). What is the maximum number of qualifying jobs meeting all criteria of §313.021(3) you are committing to create? 4 If this project creates more than 1,000 new jobs, the minimum required wage for this project is 110% of the average county weekly wage for all jobs as described by 313.021(3)(E)(ii). If this project creates less than 1,000 new jobs, does this district have territory in a county that meets the demographic characteristics of 313.051(2)? (see table of information showing this district characteristic at http://www.window.state.tx.us/taxinfo/proptax/hb1200/values.html) If yes, the applicant must meet wage standard described in 313.051(b) (110% of the regional average weekly wage for manufacturing) If no, the applicant shall designate one of the wage standards set out in §§313.021(5)(A) or 313.021(5)(B).

WAGE AND EMPLOYMENT INFORMATION (CONTINUED)

For the following three wage calculations please include on an attachment the four most recent quarters of data for each wage calculation. Show the average and the 110% calculation. Include documentation from TWC Web site. The final actual statutory minimum annual wage requirement for the applicant for each qualifying job — which may differ slightly from this estimate — will be based on information from the four quarterly periods for which data were available at the time of the application review start date (date of a completed application). See TAC §9.1051(7).

110% of the county average weekly wage for all jobs (all industries) in the county is \$625.09	
110% of the county average weekly wage for manufacturing jobs in the county is \$768.35	
110% of the county average weekly wage for manufacturing jobs in the region is \$802.60	
Please identify which Tax Code section you are using to estimate the wage standard required for this project:	
□§313.021(5)(A) or □§313.021(5)(B) or □§313.021(3)(E)(ii), or □§313.051(b)?	
What is the estimated minimum required annual wage for each qualifying job based on the qualified property? \$41,735.10	
What is the estimated minimum required annual wage you are committing to pay for each of the qualifying jobs you create on the qualified property?	
Will 80% of all new jobs created by the owner be qualifying jobs as defined by 313.021(3)?	□ No
Will each qualifying job require at least 1,600 of work a year?	□ No
Will any of the qualifying jobs be jobs transferred from one area of the state to another?	No No
Will any of the qualifying jobs be retained jobs?	No No
Will any of the qualifying jobs be created to replace a previous employee?	☑ No
Will any required qualifying jobs be filled by employees of contractors?	□ No
If yes, what percent? 100%	
Does the applicant or contractor of the applicant offer to pay at least 80% of the employee's health insurance premium for each qualifying job?	□ No
Describe each type of benefits to be offered to qualifying jobholders. (Use attachments as necessary.)	
see Checklist Item 15	
ECONOMIC IMPACT	
Is an Economic Impact Analysis attached (If supplied by other than the Comptroller's office)?	☑ No
Is Schedule A completed and signed for all years and attached?	☐ No
Is Schedule B completed and signed for all years and attached?	☐ No
Is Schedule C (Application) completed and signed for all years and attached?	☐ No
Is Schedule D completed and signed for all years and attached?	□ No
Note: Excel spreadsheet versions of schedules are available for download and printing at URL listed below.	
If there are any other payments made in the state or economic information that you believe should be included in the economic analysis, please attach a sep schedule showing the amount for each year affected, including an explanation.	parate

RE: AVL Application Fee for the Application of Logan's Gap Wind I, LLC

Dear Mr. Buis,

In accordance with Board Policy CCG (Local), a nonrefundable Application Fee must be paid by an Applicant to the District to cover the District's costs incurred in the processing and consideration of an Application for Appraised Value Limitation on Qualified Property.

As the authorized representative of the Comanche Independent School District, please be advised that the District has considered your request to defer the immediate payment of the full application fee for the application submitted by Logan's Gap Wind I, LLC ("Logan's Gap"). I have determined that the District will accept the payment of the application fee in installments. Payments will be due as follows:

- 1. An initial payment of \$15,000 to the Comanche Independent School District to be made on the date of the Board meeting to consider accepting the application.
- 2. A second and final payment of \$35,000 to be made on the date of the Board meeting at which final action of the Board of Trustees is scheduled to consider and, if appropriate, to approve the application submitted by Logan's Gap.

Logan's Gap must provide satisfactory evidence to the District that the payments have been made prior to any action by the Board on the application.

Sincerely,

Rick Howard

Superintendent, Comanche ISD

Rick Howard

Detailed Description of Project

The Applicant is requesting an appraised value limitation from Comanche Independent School District for a proposed renewable energy project using wind turbines (the "Project") in Comanche County, Texas. The Project spans three (3) school districts. The portion of the Project in Comanche ISD represents approximately 81% of the Project. A map showing the location of the Project is included as Checklist Item 9.

The Project will be constructed within a reinvestment zone established Comanche County. Current land use for the private property within the reinvestment zone consists of farming and ranching.

While the exact number of wind turbines and the size of each turbine may vary depending upon the wind turbines selected and the generating capacity of the project completed, Logan's Gap Wind I, LLC anticipates that the Project will have a capacity of between 125 and 200 megawatts (MW), comprised of 67 to 100 wind turbines with a nameplate generation capacity rating of 2.0 to 3MW each. Depending on availability of the federal production tax credit, necessary equipment and purchased-power agreements, up to 81 wind turbines will be installed in Comanche ISD, up to 17 wind turbines will be installed in Blanket ISD, and up to 8 wind turbines will be installed in Mullin ISD.

The property for which the applicant is requesting an appraised value limitation shall include, but not be limited to, the following: the above-referenced wind power turbines, towers, reinforced concrete slabs supporting the weight of each turbine tower; equipment and towers used to gather meteorological data; buried and overhead electrical conductor cables (including poles) used to transport electricity from each turbine tower to an electrical substation; the electrical substation and electrical conductor cables used to transport electricity off of the project site; buried and overhead communication cables; FAA-required wind turbine obstruction lighting; one or more operation and maintenance buildings used to store maintenance supplies, replacement parts and related equipment; and various appurtenant equipment and small items related to the above. The facility will require installation and use of a relatively insubstantial amount of personal property. None of this property is covered under an existing appraisal district account number.

Construction of the Project is proposed to begin in the fourth quarter of 2013 and will take approximately nine (9) to twelve (12) months to complete. During construction the Project will employ an estimated two hundred (200) construction workers at the Project site.

Ability to Relocate

Wind farms are currently being developed, built and installed in numerous other states with significant renewable energy portfolio requirements and/or power markets supportive of renewable generation, including but not limited to Alabama, Arizona, California, Connecticut, Maryland, Nevada, New Hampshire, and Pennsylvania. Within Texas, at least 20 other counties have wind farms proposed, under construction or operating. The Project could be sited in other states or other counties in Texas that would give the Project the opportunity to maximize its return on capital investments. Securing this Chapter 313 agreement with Comanche ISD will help further the project's economic viability.

Project Distribution Across Districts

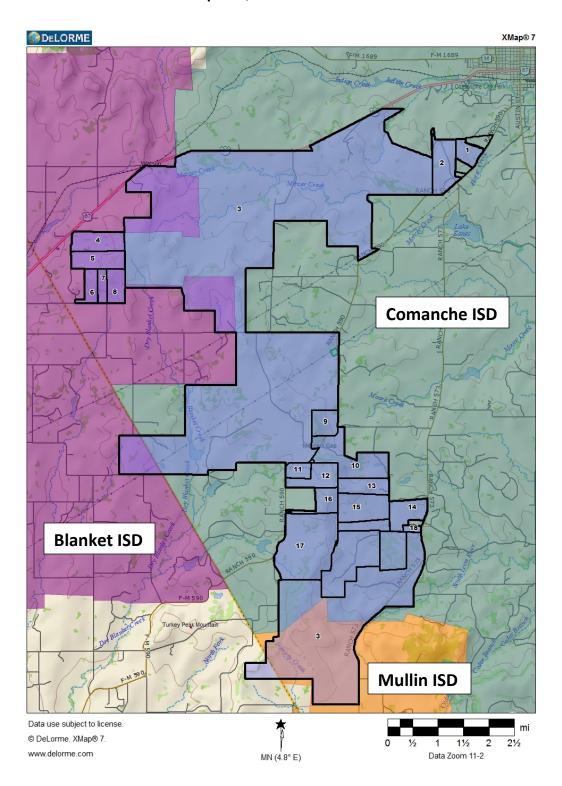

200 MW Project	Comanche ISD	Blanket ISD	Mullin ISD
Estimated % per ISD	81%	15%	4%
Approx. MW	162	30	8

Description of Qualified Investment

This application covers qualified investment necessary for commercial operations of the wind farm located within the Comanche Independent School District. The size and number of wind turbines will be determined by the time Project construction begins and ultimately depends on the availability of the federal production tax credit (PTC), necessary equipment and purchased-power agreements.

Qualified investment includes, but is not limited to, wind turbines, towers, reinforced concrete slabs supporting the weight of each turbine tower; equipment and towers used to gather meteorological data; buried and overhead electrical conductor cables (including poles) used to transport electricity from each turbine tower to an electrical substation; the electrical substation and electrical conductor cables used to transport electricity off of the project site; buried and overhead communication cables; FAA-required wind turbine obstruction lighting; one or more operation and maintenance buildings used to store maintenance supplies, replacement parts and related equipment; and various appurtenant equipment and small items related to the above.

And Qualified Property

Description of Qualified Property

While the exact number of wind turbines and the size of each turbine may vary depending upon the wind turbines selected and the generating capacity of the project completed, Logan's Gap Wind I, LLC anticipates that the qualified property located within the Comanche ISD will consist of up to eighty-one (81) wind turbines with a rated capacity of 2 to 3MW each. In addition, the qualified property includes, but is not limited to, wind turbines, towers, reinforced concrete slabs supporting the weight of each turbine tower; equipment and towers used to gather meteorological data; buried and overhead electrical conductor cables (including poles) used to transport electricity from each turbine tower to an electrical substation; the electrical substation and electrical conductor cables used to transport electricity off of the project site; buried and overhead communication cables; FAA-required wind turbine obstruction lighting; one or more operation and maintenance buildings used to store maintenance supplies, replacement parts and related equipment; and various appurtenant equipment and small items related to the above.

The exact location and placement of the property has not been finalized at this time due to ongoing planning activities and negotiations with landowners and equipment suppliers. However, all of the qualified property for which Logan's Gap Wind I, LLC is requesting an appraised value limitation as defined by Tax Code Section 313.021(2), will be placed within the reinvestment zone established by Comanche County.

The applicant expects to build the proposed project within one year, with approximately 81% of the construction to be in the Comanche ISD. Applicant intends to begin construction in the fourth quarter of 2013 and intends to complete construction prior to the end of 2014. The applicant expects to meet the minimum qualified investment criteria by the end of 2014, and in any event, prior to the expiration of the Qualifying Period. All of the property for which a limitation on appraised value is hereby sought will be owned by the Applicant.

Description of Existing Improvements

N/A

Request for Waiver of Job Creation Requirement

Pursuant to Section 313.025(f-1) of the Texas Tax Code, the governing body of a school district may waive the new jobs creation requirement in Section 313.021(2)(A)(iv)(b) or 313.051(b) and approve an application if the governing body makes a finding that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in this application.

While wind projects involve a large number of temporary jobs during the construction period, the long-term operational phase requires only a relatively small number of highly-skilled technicians. These technicians provide scheduled and unscheduled maintenance and repair work on the wind turbines, electrical collection system, substation, and other appurtenant infrastructure associated with a utility-scale wind farm. Additional project-related full-time jobs may include a project manager and an asset manager, although these positions may or may not be located at the project site.

The table below illustrates the estimated investment, installed in megawatts, and number of qualifying jobs to be created by the Project. The Project will encompass three (3) school districts. It is anticipated that the Project will result in the creation of six (6) new, qualifying jobs to operate and maintain equipment at the Project site.* The Applicant believes this number of jobs to be consistent with the industry standard number of full-time jobs, which is approximately 1 job for every 15 to 20 wind turbines installed. The number of jobs required to operate the facility depends on various factors, including the number, size, and type of turbine installed; geographical dispersion of the project site; and the support and technical assistance offered by the turbine manufacturer.

According to econometric projections, and based on Logan's Gap Wind I, LLC's experience with existing operational wind projects in many areas of Texas, the Applicant's investments in the Comanche ISD will result in substantially increased local economic activity, in addition to creating new, indirect jobs in Comanche County as well as other parts of the state.

The proposed wind project cannot sustain the minimum requirement of 10 jobs per each school district in which the Project is to be located. Accordingly, Logan's Gap Wind I, LLC requests that Comanche ISD find that the jobs creation requirement exceeds industry standard and waive its requirement for the Project, in accordance with Chapter 313 of the Texas Tax Code.

200 MW Project	Comanche ISD	Blanket ISD	Mullin ISD
Estimated Investment (\$, millions)	\$211	\$39	\$10
Percentage per ISD	81%	15%	4%
Estimated Installed Turbines	81	15	4
Estimated Installed Capacity (MW)	162	30	8
Total Qualifying Jobs	4	1	1

^{*} Applicant anticipates a total of 5-8 full-time jobs will be created by the Project. These jobs may not be classified to a specific district, as the duties associated with the operations and maintenance of the Project are likely to keep each employee active in all of the districts in which the Project is located.

Description of Benefits

In addition to the annual salary, qualified employees of Logan's Gap Wind I, LLC will be offered medical insurance coverage (including prescription, dental and vision) with at least 80% of the premiums for the employee paid by the Applicant. Additionally, each qualified position will receive, but not be limited to, the following benefits:

- Short and long-term disability benefits
- Health care flexible spending account plan
- Paid holidays
- Paid vacation
- Retirement savings plan

Qualifying Time Period usually begins with the final board approval of the application and extends generally for the following two complete tax years. Column A:

This represents the total dollar amount of planned investment in tangible personal property the applicant considers qualified investment - as defined in Tax Code §313 021(1)(A)-(D).

For the purposes of investment, please list amount invested each year, not cumulative totals.

[For the years outside the qualifying time period, this number should simply represent the planned investment in tangible personal property].

Include estimates of investment for "replacement" property that is part of original agreement but scheduled for probable replacement during limitation period.

The total dollar amount of planned investment each year in buildings or nornemovable component of buildings that the applicant considers qualified investment under Tax Code §313 (021(1)(E))

For the years outside the qualifying time period, this number should simply represent the planned investment in new buildings or norremovable components of buildings

Dollar value of other investment that may not be qualified investment but that may affect economic impact and total value-for planning, construction and operation of the facility. The most significant example for many projects would be land. Other examples may be items such as professional services, etc.

Note: Land can be listed as part of investment during the "pre-year 1" time period. It carnot be part of qualifying investment.

Column D:

Column B:

Notes: For advanced clean energy projects, nuclear projects, projects with deferred qualifying time periods, and projects with lengthy application review periods, insert additional rows as needed

This schedule must be submitted with the original application and any application for tax oredit. When using this schedule for any purpose other than the original application, replace original estimates with actual appraisal district data for past years and update estimates for current and future years. If original estimates have not changed, enter those amounts for future years.
