Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

Form 50-296
(Revised May 2010)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application.

This notice must include:

- the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
 - must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
 - forward the original completed application to the Comptroller in a three-ring binder with tabs separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its Web site. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules as explained in the Confidentiality Notice below.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, make a recommendation to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application before the 151st day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to complete the recommendation, economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's Web site to find out more about the program at <http://www.window.state.tx.us/taxinfo/proptax/hb1200/index.html>. There are links on this Web page to the Chapter 313 statute, rules and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

PROJECT DESCRIPTION

Question 1: Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

The proposed project will consist of a facility designed to use wind power to generate electricity (otherwise known as a wind farm). The Applicant expects to build the proposed project to be operational by the 4th quarter of 2014. 100% of the construction will be within the jurisdictional boundaries of Los Fresnos ISD and Cameron County. The Applicant expects to commence construction on or before April 2014 and expects to complete construction within one year. The Applicant expects to meet the minimum qualified investment threshold referenced, by December 2013. The applicant intends to reach this threshold investing \$26 million in development, engineering, environmental, aviation, and other studies and soft costs necessary for project development. All property for which the Applicant is seeking a limitation on appraised value will be owned by the Applicant.

Question 2: Describe the ability of your company to locate or relocate in another state or another region of the state.

Apex Wind Energy Holdings, LLC, acting as parent company of Cameron Wind I, LLC is a U.S. developer of wind projects, and has operations in several regions and states within the contiguous United States. Construction is one of the most significant costs in creating a wind farm. The physical improvements of the Cameron Wind I power project, once completed, cannot be feasibly moved to another location. The wind turbines and supporting infrastructure are long-lived assets engineered and designed specifically for this project location. The cost of installing the improvements on the site is substantial and the cost to remove, redesign, and relocate the improvements to a different location would be prohibitive.

Apex has the ability to locate wind farms anywhere in the U.S. with the right conditions. For these reasons Apex Wind Energy studies and looks at various competing sites throughout the market areas where wind development is attractive. Without a Value Limitation program, Apex Wind Energy would seek to move to alternative sites outside the State of Texas.

PROJECT SCOPE, INFORMATION, and SIZE

The total proposed project the Applicant intends to construct and operate consists of, but is not limited to up to 97 wind turbines, an operations and maintenance facility and an electrical substation, all constructed in a single phase commencing on or before December 31, 2013. The project is anticipated to be completed and fully operational on or before December 2014.

To date, the Applicant has acquired leases on approximately 10,000 acres of land in the project area, which is bounded approximately by FM 510, FM 1847, FM 803 and Fernando Road. 100% of the project area is incorporated within the Los Fresnos ISD in Cameron County.

When completed the Cameron Wind I project will add over \$240 million to the ad valorem tax rolls of Cameron County and Los Fresnos ISD. The Project will significantly enhance sales and use taxes for the state and local area, particularly during the construction period.

INVESTMENT

- (1) A specific and detailed description of the qualified investment you propose to make on the property for which you are requesting and appraised value limitation as defined by Tax Code §313.021.*

The Applicant is requesting an appraised value limitation on all of the property constructed or placed upon the real property described and shown in Map Exhibit within Los Fresnos ISD, which is located in Cameron County, Texas. The property for which the Applicant is requesting an appraised value limitation shall include, but is NOT limited to, the following: up to 97 wind turbines, ranging from 1.7 to 2.4 megawatts with a generating capacity of approximately 165Mw; up to 97 steel reinforced concrete foundations supporting the weight of each turbine tower; up to 97 electric power transformers; electric poles and conductor cables used to transport electricity from each turbine tower to an electrical substation; and a new project electrical substation interconnected to the South Texas Electric Cooperative 138kV transmission line located along FM 1847.

Additionally, the map provided does not present the location of the improvements; however all of the improvements that make up the amount of qualified investment will be made within the Project Investment Area as shown on Map Exhibit A. The Applicant will provide a map with the location of the improvements in the near future.

During 2013, the Applicant obtained Reinvestment Zone designation and approval from Cameron County for the proposed project area and areas of consideration for future expansion.

None of the abovementioned property is covered under an existing County Appraisal District account number.

- (2) A description of any new buildings, proposed improvements or personal property which you intend to include as part of your minimum qualified investment.*

The Applicant intends to construct a building(s) to house maintenance and operations, supplies, replacement parts and other miscellaneous related equipment.

- (3) A map of the qualified investment area.*

Attached within the proposal is a Map Exhibit of the qualified investment area.

Checklist Item #7

Map of Qualified Investment showing location of Improvements

The improvements depicted on the following map are subject to change and does not depict the exact or precise location of the improvements. It does, however, provide an accurate account of the qualified improvements within the reinvestment zone.

Checklist Item #8

Description of Qualified Property (per Application pg 8)

Cameron Wind I Project will consist of a wind-powered electric generating facility with an operating capacity of approximately 165 megawatts. The exact number of turbines and foundations will depend on the nameplate capacity of the turbine selected. The turbine size will be between 1.7 and 2.4 MW.

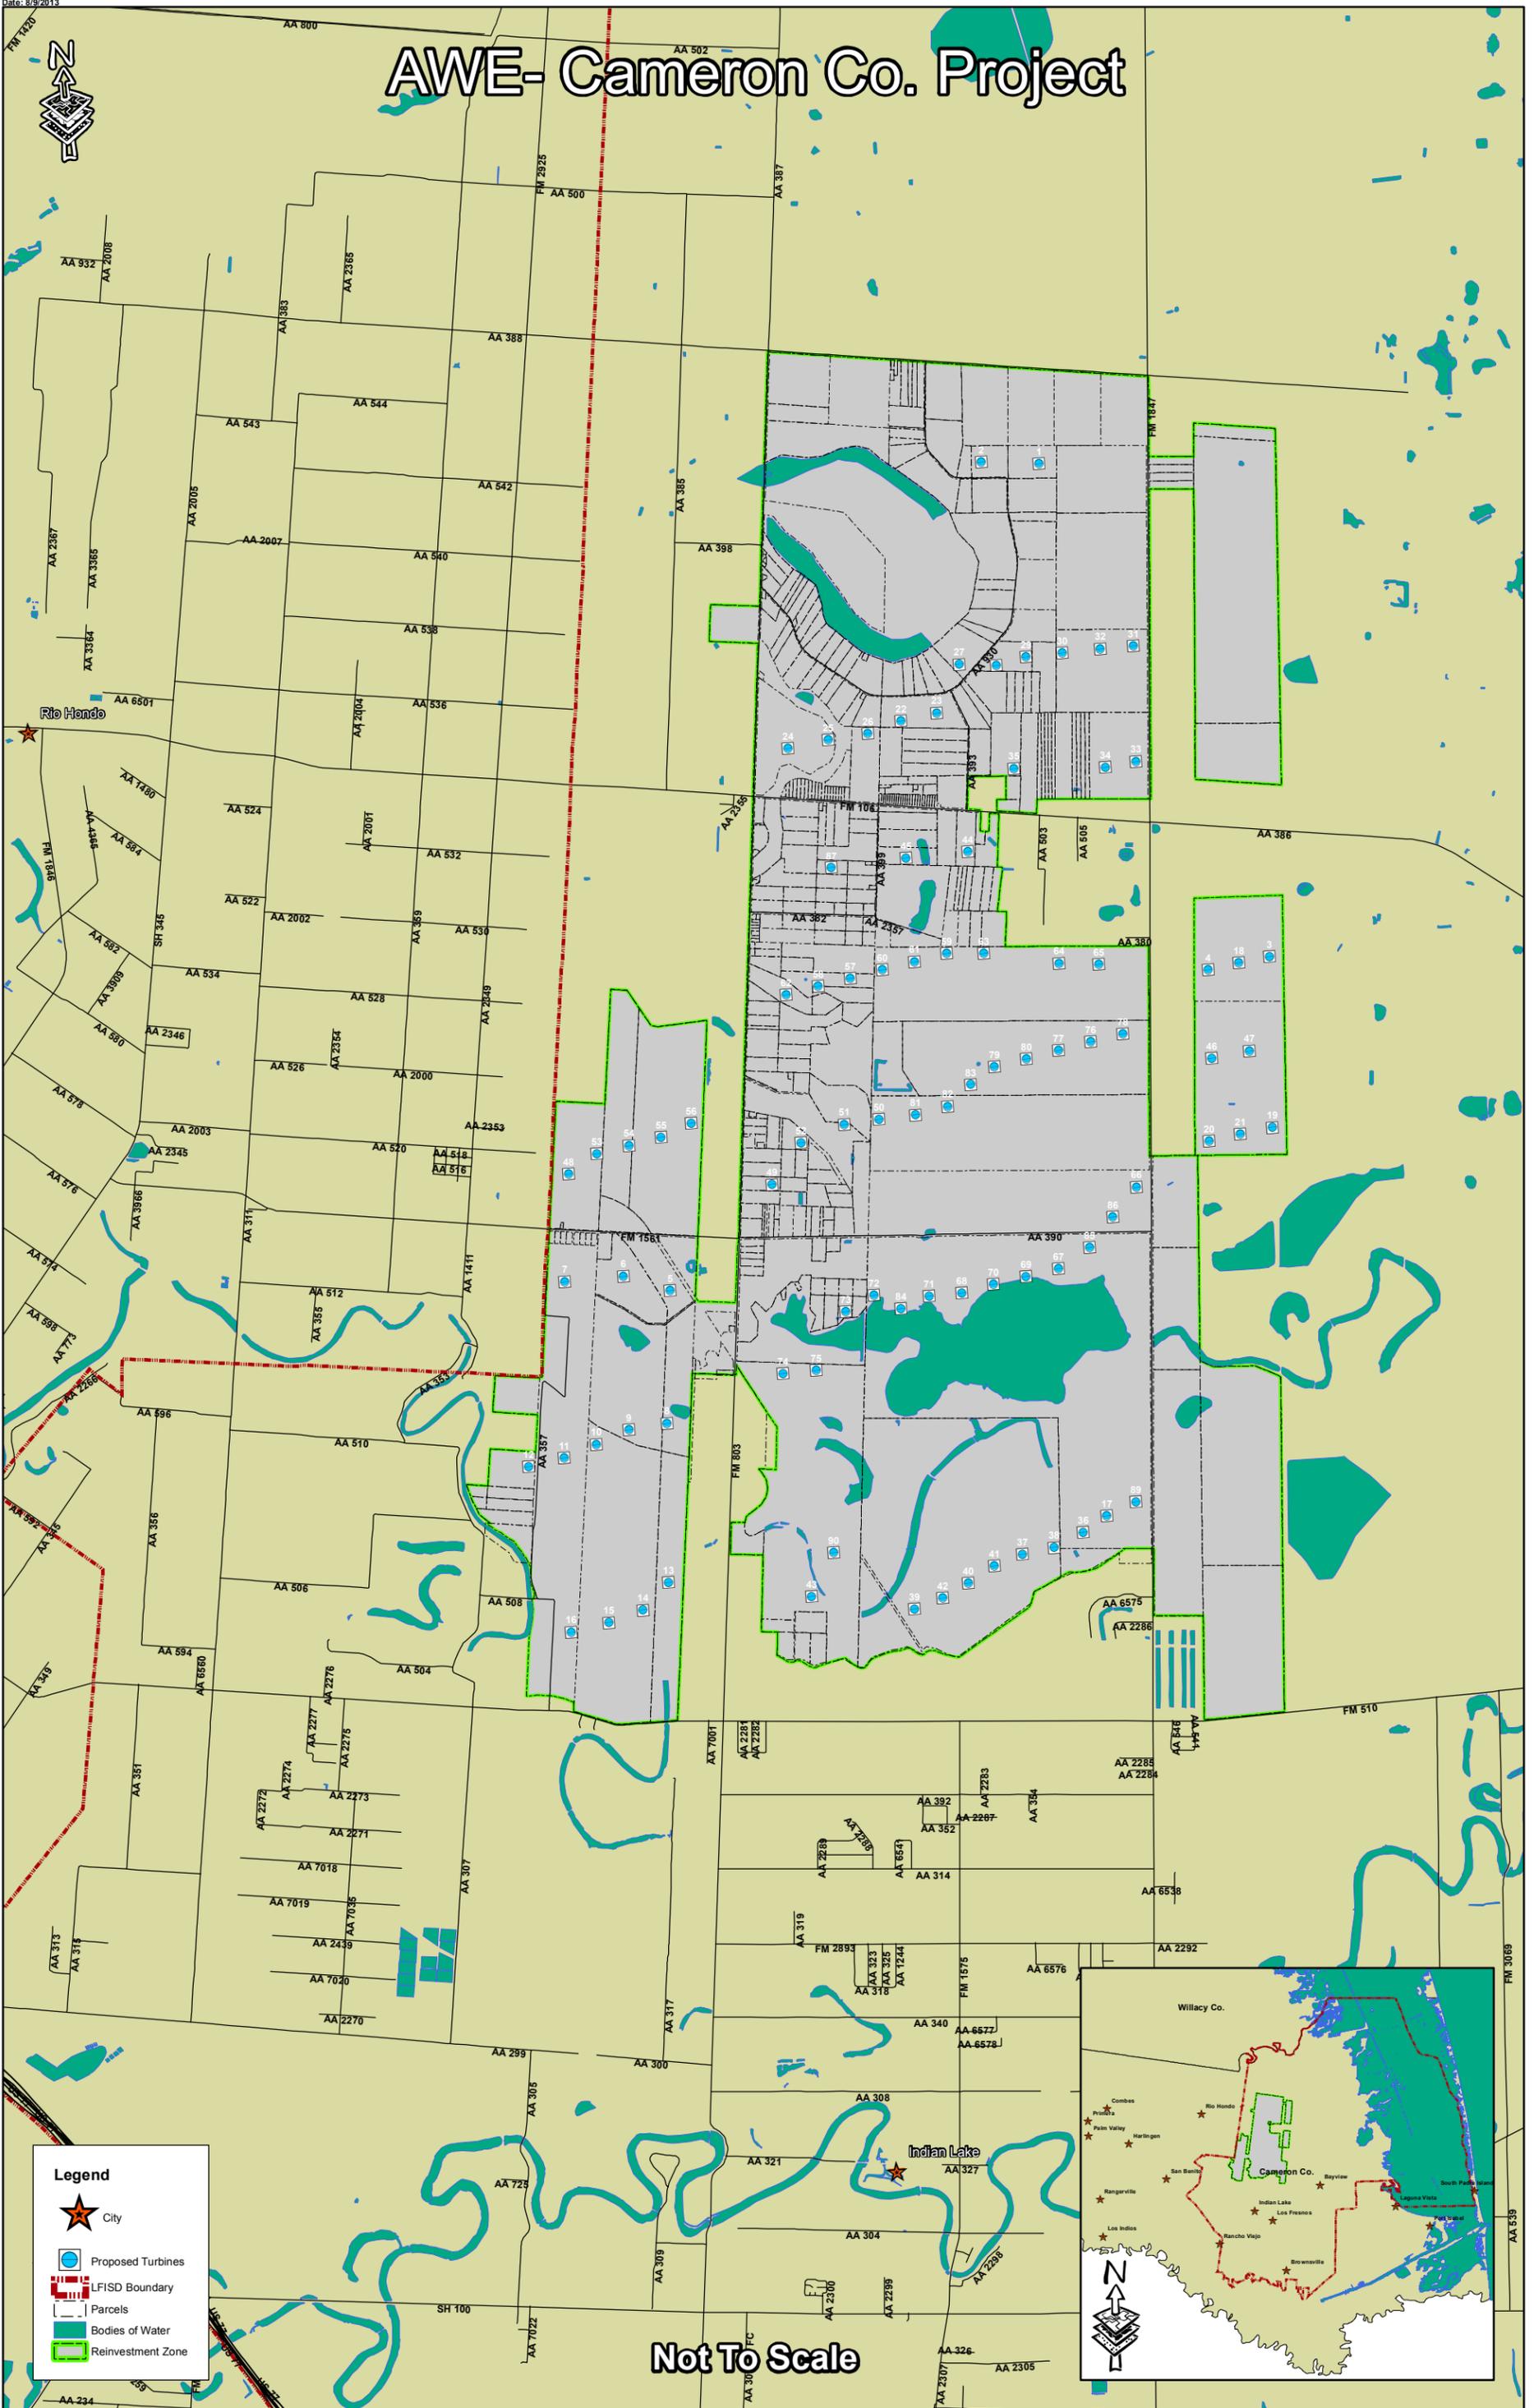

The additional improvements of Qualified Property for the Cameron Wind I Project include but are not limited to:

- Up to 97 wind turbine generator foundations, anchor bolt embeds & template mounting rings.
- An electric substation including power transformers, associated circuit breakers, switches, reactive power compensation equipment and control building & fencing of perimeter.
- Operations & Maintenance Building with offices, warehouse & all standard utilities (i.e. telephone, water, drainage, sewer, etc.)
- Underground power cables from wind turbines to substation with various cable accessories including junction boxes.
- Roadwork sloped for drainage, with turnouts from public roads.
- Permanent meteorological towers, quality and location of which to be determined by final layout turbine.
- Underground communication cables.
- Wind turbine lighting per FAA requirements.

Qualifying Time Period usually begins with the final board approval of the application and extends generally for the following two complete tax years.

Column A: This represents the total dollar amount of planned investment in tangible personal property the applicant considers qualified investment - as defined in Tax Code §313.021(1)(A)-(D). For the purposes of investment, please list amount invested each year, not cumulative totals.

Column B: The total dollar amount of planned investment each year in buildings or nonremovable component of buildings that the applicant considers qualified investment under Tax Code §313.021(1)(E).

Column D: Dollar value of other investment that may not be qualified investment but that may affect economic impact and total value for planning, construction and operation of the facility. The most significant example for many projects would be land. Other examples may be items such as professional services, etc. Note: Land can be listed as part of investment during the "pre-year 1" time period. It cannot be part of qualifying investment.

Notes: For advanced clean energy projects, nuclear projects, projects with deferred qualifying time periods, and projects with lengthy application review periods, insert additional rows as needed. This schedule must be submitted with the original application and any application for tax credit. When using this schedule for any purpose other than the original application, replace original estimates with actual appraisal district data for past years and update estimates for current and future years. "District" has the meaning set out in policy AB(LOCAL).

"Substantive Document" means a document or other information or data in electronic media that includes or transmits information or data significant to an Application, the evaluation or consideration of such Application, or the Agreement or implementation of such Agreement for limitation of appraised value pursuant to Tax Code, Chapter 313. The term includes, but is not limited to, any application requesting a limitation on appraised value and any amendments or supplements, any economic impact evaluation made in connection with an application, any agreement between applicant and the District and any subsequent amendments or assignments, District written finding or report filed with the Comptroller as required under this subchapter, and any Application requesting school tax credits under Tax Code, 313.103.

FILING OF THE APPLICATION

Five (5) copies of every Application filed under this policy shall be filed by the Applicant with the Superintendent. The Superintendent shall acknowledge the date of the receipt of the Application and Application Fee in writing.

Applications shall be considered for final approval by the Board only after the District's receipt of the Application Fee established by the Board and after completion of the economic analysis and the school facilities impact analysis required by the Act.

Applications submitted without the Application Fee shall be held by the Superintendent until satisfactory arrangements have been made for the payment of the Application Fee. The Superintendent's determination of whether satisfactory arrangements for the payment of the Application Fee have been made shall be final.

Upon receipt of any Amended Application or supplemental information, the Superintendent shall review and forward the material to the Comptroller and to each applicable Appraisal District.

STANDARD
APPLICATION

The standard Application Fee is Seventy-Five Thousand Dollars (\$75,000.00) and shall not refundable except:

1. For large project fees after the initial tender as set forth below; or,
2. In the event the Application is denied after an initial Board review, as defined in this policy.

The Standard Application Fee does not include any amount charged by the Comptroller's office for its economic impact study, if such a fee is charged.

LARGE

An Applicant proposing a qualified investment in excess of Three Hundred Million Dollars (\$300,000,000.00) in value shall initially tender an Application Fee of Seventy-Five Thousand Dollars (\$75,000.00). Before the 91st day after the Comptroller receives a copy of the Application, the Comptroller will (1) determine whether the property which is the subject of the Application is eligible for a limitation on appraised value and (2) if the Comptroller determines the property is eligible, submit a recommendation to the Board of Trustees as to whether the Application should be approved or disapproved.

If the Comptroller determines that the property which is the subject of the application is not eligible for a limitation in appraised value, the District may not approve the Application.

If the Comptroller determines that the property which is the subject of the application is eligible for a limitation in appraised value and recommends that the Board of Trustees approve the Application, before the 151st day after the day the Application was filed with the District, the Board of Trustees shall make written findings of fact as to:

WAIVER OF JOBS
REQUIREMENT

The Board may waive the new jobs creation requirement of Section 313.021(2)(A)(iv)(b) or 313.051(b) of the Tax Code and may approve an Application if the Board makes a finding that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility described in the Application.

In the event that such request is made other than at the time of the original Application, the Board may charge the Applicant a fee to cover the costs of any consultant required by the Board in making the requisite finding.

All such documents required by Comptroller's rules or by state law to be filed with the State of Texas shall be transmitted within seven (7) days of adoption.

APPLICANT'S
CLAIMS OF
INFORMATION
CONFIDENTIALITY

At the time that the Applicant submits its Application, or any amendment or supplement thereto, the Applicant may request that all or parts of such document not be posted on the Internet and not otherwise be publicly released.
