Re: Ch. 313 Application No. 353 from Briscoe Wind Farm, LLC to Silverton ISD
Amendment No. 001 to Application

Dear John,

Enclosed please find amended pages for the Chapter 313 Application submitted by Briscoe Wind Farm, LLC to Silverton ISD (the "Briscoe Wind Application"). Specifically, enclosed is a full and complete job waiver request for Attachment 13.

A CD containing this document is also enclosed. This Amendment, dated November 20, 2013 and numbered 001, is the first amendment to the Briscoe Wind Application. Please let me know if you require any additional information.

Thank you,

A handwritten signature in black ink that reads "Audie Sciumbato". The signature is fluid and cursive, with a small flourish at the end.

Silverton, Texas 79257

Re: Chapter 313 Job Waiver Request

Dear Mr. Southard:

Briscoe Wind Project, LLC requests that the Silverton Independent School District's Board of Trustees waive the job requirement provision as allowed by Section 313.025(f-1) of the Texas Tax Code. This waiver would be based on the school district's board findings that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application.

Briscoe Wind Project, LLC requests that the Silverton Independent School District make such a finding and waive the job creation requirement for 10 permanent jobs. In line with industry standards for job requirements, Briscoe Wind Project, LLC has committed to create 7 total jobs for the project, of which 2 will be in Silverton ISD.

Wind projects create a large number of full and part-time, but temporary jobs during the construction phase of the project, but require a relatively small number of highly skilled technicians to operate and maintain the project after commercial operation commences.

The industry standard for employment is typically one full-time employee for approximately every 15 turbines. This number may vary depending on the operations and maintenance requirements of the turbines selected as well as the support and technical assistance offered by the turbine manufacturer. The permanent employees of a wind project maintain and service wind turbines, underground electrical connections, substations and other infrastructure associated with the safe and reliable operation of the project. In addition to the onsite

employees, there may be managers or technicians who support the project from offsite locations.

Respectfully,

A handwritten signature in black ink that reads "Monty Humble". The signature is written in a cursive, slightly slanted style.

Monty Humble
