FINDINGS OF THE SABINE PASS INDEPENDENT
SCHOOL DISTRICT BOARD OF TRUSTEES UNDER THE
TEXAS ECONOMIC DEVELOPMENT ACT
ON THE APPLICATION SUBMITTED BY
GOLDEN PASS PRODUCTS LLC

STATE OF TEXAS §

COUNTY OF JEFFERSON §

On the 3rd day of November, 2014, a public meeting of the Board of Trustees of the Sabine Pass Independent School District was held. The meeting was duly posted in accordance with the provisions of the Texas Open Meetings Act, Chapter 551, Texas Government Code. At the meeting, the Board of Trustees took up and considered the application of Golden Pass Products LLC (Golden Pass #376) for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code. The Board of Trustees solicited input into its deliberations on the Application from interested parties within the District. After hearing presentations from the District's administrative staff, and from consultants retained by the District to advise the Board in this matter, the Board of Trustees of the Sabine Pass Independent School District makes the following findings with respect to the application of Golden Pass, and the economic impact of that application:

On November 20, 2013, the Superintendent of Schools of the Sabine Pass Independent School District, acting as agent of the Board of Trustees, and the Texas Comptroller of Public Accounts received an Application from Golden Pass for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code. A copy of the Application is attached as **Attachment A**.

The Applicant, Golden Pass (Texas Taxpayer Id. 32052468710), is an entity subject to Chapter 171, Texas Tax Code, and is certified to be in good standing with the Texas Comptroller of Public Accounts. See **Attachment B**.

The Board of Trustees has acknowledged receipt of the Application, along with the requisite application fee, as established pursuant to Texas Tax Code § 313.025(a)(1) and Local District Policy.

Board Findings of the Sabine Pass Independent School District

The Application was delivered to the Texas Comptroller's Office for review pursuant to Texas Tax Code § 313.025(d). A copy of the Application was delivered to the Sabine Pass Appraisal District for review pursuant to 34 Tex. Admin. Code § 9.1054.

The Application was reviewed by the Texas Comptroller's Office pursuant to Texas Tax Code § 313.026, and a favorable recommendation was issued on March 4, 2014. A copy of the Comptroller's letter is attached to the findings as **Attachment C**.

After receipt of the Application, the Texas Comptroller of Public Accounts caused to be conducted an economic impact evaluation pursuant to Texas Tax Code § 313.026 and the Board of Trustees has carefully considered such evaluation. A copy of the economic impact evaluation is attached to these findings as **Attachment D**.

The Board of Trustees also directed that a specific financial analysis be conducted of the impact of the proposed value limitation on the finances of the Sabine Pass Independent School District. A copy of a report prepared by Moak, Casey & Associates, Inc. is attached to these findings as **Attachment E**.

The Board of Trustees has confirmed that the taxable value of property in the Sabine Pass Independent School District for the preceding tax year, as determined under Subchapter M, Chapter 403, Government Code, is as stated in **Attachment F**.

After receipt of the Application, the District entered into negotiations with Golden Pass, over the specific language to be included in the Agreement for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code, including appropriate revenue protection provisions for the District. The proposed Agreement is attached to these findings as **Attachment G**.

Board Findings of the Sabine Pass Independent School District

After review of the Comptroller's recommendation, and in consideration of its own economic impact study the Board finds:

Board Finding Number 1.

There is a strong relationship between the Applicant's industry and the types of qualifying jobs to be created by the Applicant and the long-term economic growth plan of this State as described in the strategic plan for economic development (ED Plan) submitted by the Texas Strategic Economic Development Planning Commission under Section 481.033, Texas Government Code.

In support of Finding 1, the economic impact evaluation states:

The Texas Economic Development Plan focuses on attracting and developing industries using technology. It also identifies opportunities for existing Texas industries. The plan centers on promoting economic prosperity throughout Texas and the skilled workers that the Golden Pass Products LLC, project requires appear to be in line with the focus and themes of the plan. Texas identified manufacturing as one of six target clusters in the Texas Cluster Initiative. The plan stresses the importance of technology in all sectors of the manufacturing industry.

Board Finding Number 2.

The economic condition of Sabine Pass, Texas is in need of long-term improvement, based on the state's analysis of Jefferson County data.

Based on information provided by the Comptroller's Office that focused on the county level, Jefferson County is the 20th largest county in the state in terms of population. Population growth in Jefferson County is up slightly, based on these data, but well below the state average. The population of Jefferson County increased by 0.2 percent between 2009 and 2010, below the 1.8 percent increase experienced across the state population during the same period.

September 2011 employment for Jefferson County was up 0.6 from September 2010, below the state's 0.9 percent increase in total employment during the same period. The unemployment rate in Jefferson County was 11.9 percent in September 2011, higher than the state average of 8.5 percent.

Board Findings of the Sabine Pass Independent School District

Jefferson County continues to have a slightly lower per capita personal income than the state as a whole. In terms of per capita income, Jefferson County's \$37,139 in 2009 ranked 59th among the 254 counties in Texas, while the Texas average was \$38,609 for the same period.

The local economy in Jefferson County will benefit from economic activity like that associated with the Golden Pass project. Major capital investments like this project are beneficial to the community on a number of fronts, including direct and indirect employment, expanded opportunities for existing businesses and increased local tax bases.

Board Finding Number 3.

The average salary level of qualifying jobs is expected to be at least \$72,000 per year. The review of the application by the State Comptroller's Office indicated that this amount—based on Texas Workforce Commission data—complies with the requirement that qualifying jobs must pay 110 percent of the regional average manufacturing wage. Golden Pass indicates that total employment will be approximately 20 new jobs, 16 of which all will be qualifying jobs.

In support of Finding 3, the economic impact evaluation states:

After construction, the project will create 20 new jobs when fully operational. 16 jobs will meet the criteria for qualifying jobs as specified in Tax Code Section 313.021(3). According to the Texas Workforce Commission (TWC), the regional manufacturing wage for the South East Texas Regional Planning Region, where Jefferson County is located was \$61,118 in 2012. The annual average manufacturing wage for 2012-2013 for Jefferson County is \$91,364. That same year, the county annual average wage for all industries was \$49,712. In addition to a salary of \$72,000, each qualifying position will receive benefits: At least 80% of employees of the Project will be employed in qualifying jobs pursuant to Texas Tax Code 313.024(d). Qualifying jobs will meet the definition of Texas Tax Code Section 313.051(b). Employees will be offered a group health benefit plan for which the operator of the Project will pay at least 80% of the premiums or other charges assessed for employee-only coverage under the plan or as necessary to be in compliance with the Affordable Care Act. In addition,

Board Findings of the Sabine Pass Independent School District

each qualifying employee will receive a competitive 401(k) Retirement Savings Plan, vacation time, sick leave, and skills training..

Board Finding Number 4.

The level of the applicant's average investment per qualifying job over the term of the Agreement is estimated to be approximately \$221.9 million on the basis of the goal of 16 new qualifying positions for the entire Golden Pass project.

In support of Finding 4, the economic impact evaluation states:

The project's total investment is \$3.5 billion, resulting in a relative level of investment per qualifying job of \$221.9 million.

Board Finding Number 5.

Subsequent economic effects on the local and regional tax bases will be significant. In addition, the impact of the added infrastructure will be significant to the region.

Table 1 depicts Golden Pass Products LLC's estimated economic impact to Texas. It depicts the direct, indirect and induced effects to employment and personal income within the state. The Comptroller's office calculated the economic impact based on 17 years of annual investment and employment levels using software from Regional Economic Models, Inc. (REMI). The impact includes the construction period and the operating period of the project.

The statewide average ad valorem tax base for school districts in Texas was \$1.65 billion in 2012-2013. Sabine Pass ISD's ad valorem tax base in 2012-2013 was \$664 million. The statewide average wealth per WADA was estimated at \$343,155 for fiscal 2012-2013. During that same year, Sabine Pass ISD's estimated wealth per WADA was \$1.14 million. The impact on the facilities and finances of the district are presented in Attachment 2.

Table 2 examines the estimated direct impact on ad valorem taxes to the school district, Jefferson County, Sabine-Neches Navigation District, and Port of Sabine Pass, with all property tax incentives sought being granted using estimated market value from Golden Pass Products LLC's application. Golden Pass Products LLC has applied for both a value limitation under Chapter 313, Tax Code and tax abatements with the county, navigation district, and port authority. Table 3 illustrates the estimated tax impact of Golden Pass Products LLC project on the region if all taxes are assessed.

Board Findings of the Sabine Pass Independent School District

Board Finding Number 6.

The revenue gains that will be realized by the school district if the Application is approved will be significant in the long-term, with special reference to revenues used for supporting school district debt.

In support of this finding, the analysis prepared by Moak, Casey & Associates projects that the project would initially add \$3.2 billion to the tax base for debt service purposes at the peak investment level for the 2020-21 school year. The Golden Pass project remains fully taxable for debt services taxes, with Sabine Pass ISD recently adopting a \$0.135 per \$100 I&S rate. While the value of the Golden Pass project is expected to depreciate over the life of the agreement and beyond, full access to the additional value will add significantly to the District's I&S tax base.

Board Finding Number 7.

The effect of the applicant's proposal, if approved, on the number or size of needed school district instructional facilities is not expected to increase the District's facility needs, with current trends suggest little underlying enrollment growth based on the impact of the Golden Pass project.

The summary of financial impact prepared by Moak, Casey & Associates, Inc., indicates that there will be little to no impact on school facilities created by the new manufacturing project. This finding is confirmed by the TEA evaluation of this project's impact on the number and size of school facilities in Sabine Pass ISD as stated in **Attachment D**.

Board Finding Number 8.

The ability of the applicant to locate the proposed facility in another state or another region of this state is substantial, as a result of the highly competitive marketplace for economic development.

In support of Finding 8, the economic impact evaluation states:

According to Golden Pass Products LLC's application, "Golden Pass Products LLC was formed by affiliates of Qatar Petroleum International (QP) and ExxonMobil. ExxonMobil has an extensive global position in LNG with interests in liquefaction capacity of approximately 65 million tonnes per year

Board Findings of the Sabine Pass Independent School District

through their ventures in Qatar and Indonesia. In 2009, ExxonMobil and Qatar Petroleum started up three 7.8 million-tonnes-per-year LNG trains in Qatar, the largest in service anywhere in the world. ExxonMobil and QP have also added LNG regasification capacity with the opening of the South Hook Terminal in Wales and the Adriatic LNG Terminal offshore Italy, increasing access to attractive European markets. In addition to the Asia Pacific, ExxonMobil and joint venture partners have sanctioned the Gorgon Jansz and PNG LNG projects and additional LNG projects are being pursued in Australia and West Africa. The extensive global experience of its two partners provides Golden Pass Products the technology, marketing and financial strength to construct a world-class liquefaction and export facility anywhere in the United States and around the world.”

Board Finding Number 9.

During the past two years, 11 projects in the South East Texas Regional Planning Region applied for value limitation agreements under Tax Code, Chapter 313.

Board Finding Number 10.

The Board of Trustees hired consultants to review and verify the information in the Application from Golden Pass. Based upon the consultants’ review, the Board has determined that the information provided by the Applicant is true and correct.

Board Finding Number 11.

The Board of Trustees has determined that the Tax Limitation Amount requested by Applicant is currently Thirty Million Dollars, which is consistent with the minimum values currently set out by Tax Code, § 313.054(a).

According to the Texas Comptroller of Public Accounts’ School and Appraisal Districts’ Property Value Study 2013 Final Findings made under Subchapter M, Chapter 403, Government Code for the preceding tax year, Attachment F, the total 2013 industrial value for Sabine Pass ISD is \$1.1 billion. Sabine Pass ISD is categorized as Subchapter C, which applies only to a school district that has territory in a strategic investment area, as defined under Subchapter O, Chapter 171, Tax Code or in a county: (1) that has a population of less

Board Findings of the Sabine Pass Independent School District

than 50,000 and (2) in which, from 1990 to 2000, according to the federal decennial census, the population: (A) remained the same; (B) decreased; or (C) increased, but at a rate of not more than three percent per annum. Sabine Pass ISD is classified as a "rural" district due to its population characteristics. Given that the value of industrial property in Sabine Pass ISD is more than \$200 million, it is classified as a Category I district which can offer a minimum value limitation of \$30 million.

Board Finding Number 12.

The Applicant (Taxpayer Id. 32052468710) is eligible for the limitation on appraised value of qualified property as specified in the Agreement based on its "good standing" certification as a franchise-tax paying entity.

Board Finding Number 13.

The Agreement for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code, attached hereto as Attachment G, includes adequate and appropriate revenue protection provisions for the District.

In support of this finding, the report of Moak, Casey & Associates, Inc. shows that the District will incur a revenue loss in the first and subsequent years that the value limitation is in effect without the proposed Agreement. However, with this Agreement, the negative consequences of granting the value limitation are offset through the revenue protection provisions agreed to by the Applicant and the District. Revenue protection measures are in place for the duration of the Agreement.

Board Finding Number 14.

Considering the purpose and effect of the law and the terms of the Agreement, that it is in the best interest of the District and the State to enter into the attached Agreement for Limitation on Appraised Value of Property for School District Maintenance and Operations Taxes.

It is therefore ORDERED that the Agreement attached hereto as **Attachment G** is approved and hereby authorized to be executed and delivered by and on behalf of the Sabine Pass Independent School District. It is further ORDERED that these findings and the Attachments referred to herein be attached to the Official Minutes of this meeting, and

Board Findings of the Sabine Pass Independent School District

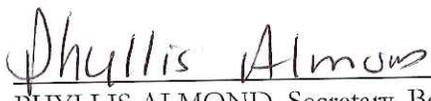

maintained in the permanent records of the Board of Trustees of the Sabine Pass Independent School District.

Form 50-296
(Revised July 2013)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application.

This notice must include:

- the date on which the school district received the application;
- the date the school district determined that the application was complete;
- the date the school board decided to consider the application; and
- a request that the comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original completed application to the Comptroller in a three-ring binder with tabs separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules as explained in the Confidentiality Notice below.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, make a recommendation to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application before the 151st day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to complete the recommendation, economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at www.texasahead.org/tax_programs/chapter313/. There are links on this Web page to the Chapter 313 statute, rules and forms. Qualifying Time Period usually begins with the final board approval of the application and extends generally for the following two complete tax years.

Column A: This represents the total dollar amount of planned investment in tangible personal property the applicant considers qualified investment- as defined in Tax Code §313.021(1)(A)-(D). For the purposes of investment, please list amount invested each year, not cumulative totals.

[For the years outside the qualifying time period, this number should simply represent the planned investment in tangible personal property]. Include estimates of investment for "replacement" property-property that is part of original agreement but scheduled for probable replacement during limitation period.

Column B: The total dollar amount of planned investment each year in buildings or nonremovable component of buildings that the applicant considers qualified investment under Tax Code §313.021(1)(E). For the years outside the qualifying time period, this number should simply represent the planned investment in new buildings or nonremovable components of buildings.

Column D: Dollar value of other investment that may not be qualified investment but that may affect economic impact and total value – for planning, construction and operation of the facility. The most significant example for many projects would be land. Other examples may be items such as professional services, etc. Note: Land can be listed as part of investment during the "pre-year 1" time period. It cannot be part of qualifying investment.

Notes: For advanced clean energy projects, nuclear projects, projects with deferred qualifying time periods, and projects with lengthy application review periods, insert additional rows as needed.

This schedule must be submitted with the original application and any application for tax credit. When using this schedule for any purpose other than the original application, replace original estimates with actual appraisal district data for past years and update estimates for current and future years. If original estimates have not changed, enter those amounts for future years.

Detailed Description of the Project

Golden Pass Products (GPP) and Golden Pass Pipeline LLC (collectively, "Golden Pass") propose to own, site, construct, and operate a liquefied natural gas ("LNG") export project ("GPX Project"). The GPX Project consists of:

(1) The Export Terminal, which will be constructed adjacent to the Golden Pass LNG Terminal LLC ("GPLNG") import terminal site, located onshore at the Sabine-Neches Waterway in Jefferson County, Texas; and

(2) Additions to the existing Golden Pass Pipeline LLC system ("GPPL") by construction of approximately a total of eight to ten miles of new 30- to 36-inch pipeline in two non-contiguous loops and up to four new compressor stations with all necessary integration interconnections for bi-directional service. Golden Pass Pipeline System is specifically excluded and not part of this Application for Limitation on Appraised Value of Qualified Property.

The GPX Project will be located on over 1,100 acres owned or controlled by GPP affiliates in Jefferson County, Texas. The GPX Project will allow Golden Pass to receive natural gas from domestic sources, convert natural gas to LNG, store, and export that LNG. The GPX Project will be constructed and operated contiguous to and integrated with the GPLNG terminal and GPPL. This will enable Golden Pass to maximize use of the existing GPLNG terminal and GPPL facilities, to provide for bi-directional service and thus allow for exportation and importation of natural gas. The total estimated capital investment of the Project for all three liquefaction trains in Sabine Pass ISD is approximately \$8.5-10 billion.

GPP will construct three liquefaction trains with a nominal total production capacity of 15.6 million metric tons per annum (MTPA) of LNG for export (each having a nominal throughput of 5.2 million MTPA). The Project is expected to be constructed in phases, with each LNG train commencing operations approximately six to twelve months after the previous train.

A separate Application for Limitation of Appraised Value of Qualified Property is being filed for each train. This application is for the first train of the Project and all newly installed and constructed supporting infrastructure improvements including, but not limited to, land improvements, tanks, intraplant piping, plant control equipment, pollution control equipment, buildings and associated equipment to support these major components.

The GPP Export Terminal includes, but is not limited to, the following major components described below.

LNG Liquefaction Export Terminal

The Project will entail construction of new liquefaction facilities, together with the integration to certain existing LNG import terminal facilities. All preexisting facilities, equipment, and buildings, are excluded from this application.

Specific new facilities include:

- a) Inlet gas treating systems utilizing amine for carbon dioxide, hydrogen sulfide removal followed by molecular sieve dehydration. Water and heavy hydrocarbons will be removed by dehydration units, scrubbers and separators.
- b) Liquefaction capability Train #1 will have a nominal throughput capacity of 5.2 MTPA. This process train will include the following components:
 - i. Propane pre-cooling, mixed refrigerant LNG process (also known as the C3MR process) utilizing two gas-fired turbines;
 - ii. Coil wound main cryogenic heat exchangers for liquefaction and sub-cooling.
- c) Nominal electrical power generation of up to 250 megawatts.
- d) Associated utilities, equipment and air coolers.
- e) Interconnections to existing import facilities and controls.
- f) Installation of facilities to allow for the loading of LNG (truck and marine).
- g) The addition of LNG storage tank pumps to accommodate loading operations.
- h) Central control room and terminal isolation equipment.
- i) Additional buildings for administration, maintenance, security and storage warehouses.
- j) Expansion of the facility's storm protection levee system, safety and security assets.
- k) Optimization of facility processes to allow for import and export capabilities.

Describe the ability of your company to locate or relocate in another state or another region of the state.

Golden Pass Products LLC was formed by affiliates of Qatar Petroleum International (QP) and ExxonMobil. ExxonMobil has an extensive global position in LNG with interests in liquefaction capacity of approximately 65 million tonnes per year through their ventures in Qatar and Indonesia. In 2009, ExxonMobil and Qatar Petroleum started up three 7.8 million-tonnes-per-year LNG trains in Qatar, the largest in service anywhere in the world. ExxonMobil and QP have also added LNG regasification capacity with the opening of the South Hook Terminal in Wales and the Adriatic LNG Terminal offshore Italy, increasing access to attractive European markets.

In addition to the Asia Pacific, ExxonMobil and joint venture partners have sanctioned the Gorgon Jansz and PNG LNG projects and additional LNG projects are being pursued in Australia and West Africa. The extensive global experience of its two partners provides Golden Pass Products the technology, marketing and financial strength to construct a world-class liquefaction and export facility anywhere in the United States and around the world.

Qualifying Time Period usually begins with the final board approval of the application and extends generally for the following two complete tax years. This represents the total dollar amount of planned investment in tangible personal property the applicant considers qualified investment - as defined in Tax Code §313.021(1)(A)-(D).
 Column A: For the purposes of investment, please list amount invested each year, not cumulative totals.
 Column B: For the years outside the qualifying time period, this number should simply represent the planned investment in tangible personal property.
 Column C: Include estimates of investment for "replacement" property-property that is part of original agreement but scheduled for probable replacement during limitation period.
 Column D: The total dollar amount of planned investment each year in buildings or nonremovable component of buildings that the applicant considers qualified investment under Tax Code §313.021(1)(E).
 Column E: For the years outside the qualifying time period, this number should simply represent the planned investment in new buildings or nonremovable components of buildings.
 Dollar value of other investment that may not be qualified investment but that may affect economic impact and total value-for planning, construction and operation of the facility.
 The most significant example for many projects would be land. Other examples may be items such as professional services, etc.
 Note: Land can be listed as part of investment during the "pre-year 1" time period. It cannot be part of qualifying investment.
 Notes: For advanced clean energy projects, nuclear projects, projects with deferred qualifying time periods, and projects with lengthy application review periods, insert additional rows as needed. This schedule must be submitted with the original application and any application for tax credit. When using this schedule for any purpose other than the original application, replace original estimates with actual appraisal district data for past years and update estimates for current and future years. If original estimates have not changed, enter those amounts for future years.

March 4, 2014

Kristi Rochelle Heid
Superintendent
Sabine Pass Independent School District
P. O. Box 1148
Sabine Pass, Texas 77655

Dear Superintendent Heid:

On Dec. 10, 2013, the Comptroller received the completed application (Application # 376) for a limitation on appraised value under the provisions of Tax Code Chapter 313¹. This application was originally submitted in November 2013 to the Sabine Pass Independent School District (the school district) by Golden Pass Products LLC (the applicant). This letter presents the results of the Comptroller's review of the application:

- 1) under Section 313.025(h) to determine if the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C; and
- 2) under Section 313.025(d), to make a recommendation to the governing body of the school district as to whether the application should be approved or disapproved using the criteria set out by Section 313.026.

The school district is currently classified as a rural school district in Category 1 according to the provisions of Chapter 313. Therefore, the applicant properly applied under the provisions of Subchapter C, applicable to rural school districts. The amount of proposed qualified investment (\$3.55 billion) is consistent with the proposed appraised value limitation sought (\$30 million). The property value limitation amount noted in this recommendation is based on property values available at the time of application and may change prior to the execution of any final agreement.

The applicant is an active franchise taxpayer in good standing, as required by Section 313.024(a), and is proposing the construction of a manufacturing facility in Jefferson County, an eligible property use under Section 313.024(b). The Comptroller has determined that the property, as described in the application, meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C.

After reviewing the application using the criteria listed in Section 313.026, and the information provided by the applicant, the Comptroller's recommendation is that this application under Tax Code Chapter 313 be approved.

Our review of the application assumes the truth and accuracy of the statements in the application and that, if the application is approved, the applicant would perform according to the provisions of the agreement reached with the school district. Our recommendation does not address whether the applicant has complied with all Chapter 313 requirements; the school district is responsible for verifying that all requirements of the statute have been fulfilled. Additionally, Section 313.025 requires the school district to only approve an application if the school district finds that the information in the application is true and

¹ All statutory references are to the Texas Tax Code, unless otherwise noted.

correct, finds that the applicant is eligible for a limitation and determines that granting the application is in the best interest of the school district and this state. As stated above, the Comptroller's recommendation is prepared by generally reviewing the application and supporting documentation in light of the Section 313.026 criteria.

Note that any new building or other improvement existing as of the application review start date of Dec. 10, 2013, or any tangible personal property placed in service prior to that date may not become "Qualified Property" as defined by 313.021(2).

The Comptroller's recommendation is based on the application submitted by the school district and reviewed by the Comptroller. The recommendation may not be used by the school district to support its approval of the property value limitation agreement if the application is modified, the information presented in the application changes, or the limitation agreement does not conform to the application. Additionally, this recommendation is contingent on future compliance with the Chapter 313 and Texas Administrative Code, with particular reference to the following requirements related to the execution of the agreement:

- 1) The applicant must provide the Comptroller a copy of the proposed limitation on appraised value agreement no later than ten (10) days prior to the meeting scheduled by the school district to consider approving the agreement, so that the Comptroller may review it for compliance with the statutes and the Comptroller's rules as well as consistency with the application;
- 2) The limitation agreement must contain provisions that require:
 - a. the applicant to provide sufficient information to the Central Appraisal District (CAD) to distinguish between and separately appraise qualified property (as defined by 313.021(2)) from any property that is not qualified;
 - b. the school district to confirm with the CAD that the applicant has provided such information; and
 - c. that the Comptroller is provided with the CAD approved information no later than the first annual reporting period following the execution of the agreement;
- 3) The Comptroller must confirm that it received and reviewed the draft agreement and affirm the recommendation made in this letter;
- 4) The school district must approve and execute a limitation agreement that has been reviewed by the Comptroller within a year from the date of this letter; and
- 5) The school district must provide a copy of the signed limitation agreement to the Comptroller within seven (7) days after execution, as required by Section 313.025.

Should you have any questions, please contact Robert Wood, director of Economic Development & Analysis Division, by email at robert.wood@cpa.state.tx.us or by phone at 1-800-531-5441, ext. 3-3973, or direct in Austin at 512-463-3973.

Martin A. Hubert
Deputy Comptroller

Dear Mr. Wood:

As required by the Tax Code, §313.025 (b-1), the Texas Education Agency (TEA) has evaluated the impact of the proposed Golden Pass Products LLC project (train 1) on the number and size of school facilities in Sabine Pass Independent School District (SPISD). Based on the analysis prepared by Moak, Casey and Associates for the school district and a conversation with the SPISD superintendent, Kristi Rochelle Heid, the TEA has found that the Golden Pass Products LLC project (train 1) would not have a significant impact on the number or size of school facilities in SPISD.

Please feel free to contact me by phone at (512) 463-9186 or by email at al.mckenzie@tea.state.tx.us if you need further information about this issue.

Dear Mr. Wood:

The Texas Education Agency (TEA) has analyzed the revenue gains that would be realized by the proposed Golden Pass Products LLC (train 1) project for the Sabine Pass Independent School District (SPISD). Projections prepared by the TEA State Funding Division confirm the analysis that was prepared by Moak, Casey and Associates and provided to us by your division. We believe their assumptions regarding the potential revenue gain are valid, and their estimates of the impact of the Golden Pass Products LLC project (train 1) on SPISD are correct.

PASS PRODUCTS LLC PROJECT (TRAIN 1) ON THE FINANCES
OF THE SABINE PASS INDEPENDENT SCHOOL DISTRICT UNDER
A REQUESTED CHAPTER 313 PROPERTY VALUE LIMITATION**

December 16, 2013

Final Report

PREPARED BY

Estimated Impact of the Proposed Golden Pass Products LLC Project (Train 1) on the Finances of the Sabine Pass Independent School District under a Requested Chapter 313 Property Value Limitation

Introduction

Golden Pass Products LLC (Golden Pass Train 1) has requested that the Sabine Pass Independent School District (SPISD) consider granting a property value limitation under Chapter 313 of the Tax Code, also known as the Texas Economic Development Act. In an application submitted to SPISD on November 20, 2013, Golden Pass Train 1 proposes to invest \$3.55 billion to construct a new manufacturing project in SPISD.

The Golden Pass Train 1 project is consistent with the state's goal to "encourage large scale capital investments in this state." When enacted as House Bill 1200 in 2001, Chapter 313 of the Tax Code granted eligibility to companies engaged in manufacturing, research and development, and renewable electric energy production to apply to school districts for property value limitations. Subsequent legislative changes expanded eligibility to clean coal projects, nuclear power generation and data centers, among others.

Under the provisions of Chapter 313, SPISD may offer a minimum value limitation of \$30 million. The provisions of Chapter 313 call for the project to be fully taxable in the 2018-19 and 2019-20 school years, reflecting the request in the application for an extension of the start of the two-year qualifying time period. For the purpose of this analysis, it is assumed that the qualifying time period will be the 2018-19 and 2019-20 school years. Beginning with the 2020-21 school year, the project would go on the local tax roll at \$30 million and remain at that level of taxable value for eight years for maintenance and operations (M&O) taxes.

The full taxable value of the project could be assessed for debt service taxes on voter-approved bond issues throughout the limitation period, with SPISD currently levying a \$0.1350 per \$100 I&S tax rate. The full taxable value of the investment is expected to reach \$3.2 billion in 2020-21, which would substantially enhance the ability of SPISD to meet its debt service needs.

In the case of the Golden Pass Train 1 project, the agreement calls for a calculation of the revenue impact of the value limitation in years 3-10 of the agreement, under whatever school finance and property tax laws are in effect in each of those years. SPISD would experience a revenue loss as a result of the implementation of the value limitation in the 2020-21 school year (-\$5,196,656), with smaller amounts in subsequent years.

Under the assumptions outlined below, the potential tax benefits under a Chapter 313 agreement could reach an estimated \$243.8 million over the course of the agreement. This amount is net of any anticipated revenue losses for the District.

School Finance Mechanics

Under the current school finance system, the property values established by the Comptroller's Office that are used to calculate state aid and recapture lag by one year, a practical consequence

of the fact that the Comptroller's Office needs this time to conduct its property value study and the audits of appraisal district operations in alternating years. A taxpayer receiving a value limitation pays M&O taxes on the reduced value for the project in years 3-10 and receives a tax bill for I&S taxes based on the full project value throughout the qualifying and value limitation period (and thereafter). The school funding formulas use the Comptroller's property values that reflect a reduction due to the property value limitation in years 4-11 as a result of the one-year lag in property values.

The third year is often problematical financially for a school district that approves a Chapter 313 value limitation. The implementation of the value limitation often results in a revenue loss to the school district in the third year of the agreement that would not be reimbursed by the state, but require some type of compensation from the applicant under the revenue protection provisions of the agreement. In years 4-10, smaller revenue losses would be anticipated when the state M&O property values are aligned at the minimum value established by the Board on both the local tax roll and the corresponding state property value study.

Under the HB 1 system adopted in 2006, most school districts received Additional state Aid for Tax Reduction (ASATR) that was used to maintain their target revenue amounts established at the revenue levels under old law for the 2005-06 or 2006-07 school years, whichever was highest. In terms of new Chapter 313 property value limitation agreements, adjustments to ASATR funding often moderated the impact of the reduced M&O collections as a result of the limitation, in contrast with the earlier formula-driven finance system.

House Bill 3646 as enacted in 2009 created more "formula" school districts that were less dependent on ASATR state aid than had been the case previously. The formula reductions enacted during the First Called Session in 2011 made \$4 billion in reductions to the existing school funding formulas for the 2011-12 and 2012-13 school years. For the 2011-12 school year, across-the-board reductions were made that reduced each district's WADA count and resulted in an estimated 781 school districts still receiving ASATR to maintain their target revenue funding levels, while an estimated 243 districts operated directly on the state formulas. For the 2012-13 school year, the changes called for smaller across-the-board reductions and funding ASATR-receiving target revenue districts at 92.35 percent of the level provided for under the existing funding formula, with 689 districts operating on formula and 335 districts still receiving ASATR funding.

Senate Bill 1 and House Bill 1025 as passed by the 83rd Legislature made significant increases to the basic allotment and other formula changes by appropriation. The ASATR reduction percentage is increased slightly to 92.63 percent, while the basic allotment is increased by \$325 and \$365, respectively, for the 2013-14 and 2014-15 school years. A slight increase in the guaranteed yield for the 6 cents above compressed—known as the Austin yield—is also included. With the basic allotment increase, it is estimated that approximately 300 school districts will still receive ASATR in the 2013-14 school year and 273 districts would do so in the 2014-15 school year. Current state policy calls for ASATR funding to be eliminated by the 2017-18 school year.

SPISD is classified as a formula district under the estimates presented below. ASATR funds are not a factor in any of the estimates presented here, given the timing of the project and current state policy. As a formula district, the finances of SPISD are susceptible to changes in property values and M&O tax collections like those associated with a property value limitation agreement.

One concern in projecting into the future is that the underlying state statutes in the Education Code were not changed in order to provide these funding increases. All of the major formula

changes were made by appropriation, which gives them only a two-year lifespan unless renewed in the 2015 legislative session. Despite this uncertainty, it is assumed that these changes will remain in effect for the forecast period for the purpose of these estimates, assuming a continued legislative commitment to these funding levels in future years.

A key element in any analysis of the school finance implications is the provision for revenue protection in the agreement between the school district and the applicant. In the case of the Golden Pass Train 1 project, the agreement calls for a calculation of the revenue impact of the value limitation in years 3-10 of the agreement, under whatever school finance and property tax laws are in effect in each of those years. This meets the statutory requirement under Section 313.027(f)(1) of the Tax Code to provide school district revenue protection language in the agreement.

Underlying Assumptions

There are several approaches that can be used to analyze the future revenue stream of a school district under a value limitation. Whatever method is used, a reasonable analysis requires the use of a multi-year forecasting model that covers the years in which the agreement is in effect. The Chapter 313 application now requires 15 years of data and analysis on the project being considered for a property value limitation.

The general approach used here is to maintain static enrollment and property values in order to isolate the effects of the value limitation under the school finance system. The SB 1 basic allotment increases are reflected in the underlying models, as are the changes in the equalized wealth level. The projected taxable values of the Golden Pass Products LLC project are factored into the base model used here in order to simulate the financial impact of constructing the project in the absence of a value limitation agreement. The impact of the limitation value for the proposed Golden Pass Train 1 project is isolated separately and the focus of this analysis.

Student enrollment counts are held constant at 337 students in average daily attendance (ADA) in analyzing the effects of the Golden Pass Train 1 project on the finances of SPISD. The District's local tax base reached \$648.5 million for the 2013 tax year and is maintained at that level for the forecast period in order to isolate the effects of the property value limitation. An M&O tax rate of \$1.040 per \$100 is used throughout this analysis. SPISD has estimated state property wealth per weighted ADA or WADA of approximately \$1.1 million for the 2013-14 school year. The enrollment and property value assumptions for the 15 years that are the subject of this analysis are summarized in Table 1.

School Finance Impact

School finance models were prepared for SPISD under the assumptions outlined above through the 2032-33 school year. Beyond the 2014-15 school year, no attempt was made to forecast the 88th percentile or Austin yield that influence future state funding beyond the projected level for that school year. In the analyses for other districts and applicants on earlier projects, these changes appeared to have little impact on the revenue associated with the implementation of the property value limitation, since the baseline and other models incorporate the same underlying assumptions.

Under the proposed agreement, a model is established to make a calculation of the "Baseline Revenue" by adding the value of the proposed Golden Pass Train 1 facility to the model, but

without assuming that a value limitation is approved. The results of this model are shown in Table 2.

A second model is developed which adds the Golden Pass Train 1 value but imposes the proposed property value limitation effective in the third year, which in this case is the 2020-21 school year. The results of this model are identified as “Value Limitation Revenue Model” under the revenue protection provisions of the proposed agreement (see Table 3). A summary of the differences between these models is shown in Table 4.

Under these assumptions, SPISD would experience a revenue loss as a result of the implementation of the value limitation in the 2020-21 school year (-\$5,196,656). Smaller out-year losses are assumed for the remaining seven value limitation years. The revenue reduction results chiefly from the mechanics of the lag in the state property value study and the up to six cents beyond the compressed M&O tax rate equalized to the Austin yield or not subject to recapture.

As the differences presented in Table 4 indicate, nearly all of the tax benefits to be provided to Golden Pass Train 1 are offset by reductions in recapture costs imposed on SPISD. The remaining differences are attributable to the four cents of SPISD tax effort that are not subject to recapture. The reduced property values under the limitation reduce the revenue that would have been earned by the District for these four cents of tax effort.

The Comptroller’s state property value study influences these calculations, as noted previously. At the school-district level, a taxpayer benefiting from a property value limitation has two property values assigned by the local appraisal district for their property covered by the limitation: (1) a reduced value for M&O taxes, and (2) the full taxable value for I&S taxes. This situation exists for the eight years that the value limitation is in effect. Two state property value determinations are also made for school districts granting Chapter 313 agreements, consistent with local practice. A consolidated single state property value had been provided previously.

Impact on the Taxpayer

Table 5 summarizes the impact of the proposed property value limitation in terms of the potential tax savings under the property value limitation agreement. The focus of this table is on the M&O tax rate only. As noted previously, the property is fully taxable in the first two years under the agreement. A \$1.040 per \$100 of taxable value M&O rate is assumed in 2013-14 and thereafter.

Under the assumptions used here, the potential tax savings from the value limitation total \$232.2 million over the life of the agreement. In addition, Golden Pass Train 1 would be eligible for a tax credit for M&O taxes paid on value in excess of the value limitation in each of the first two qualifying years. The credit amount is paid out slowly through years 4-10 due to statutory limits on the scale of these payments over these seven years, with catch-up payments permitted in years 11-13. The tax credits are expected to total approximately \$26.8 million over the life of the agreement, with no unpaid tax credits anticipated. The school district is to be reimbursed by the Texas Education Agency for the cost of these credits.

The key SPISD revenue losses are expected to total approximately \$15.2 million over the course of the agreement under current law. The total potential net tax benefits (inclusive of tax credits but after hold-harmless payments are made) are estimated to reach \$243.8 million over the life of the agreement.

Facilities Funding Impact

The Golden Pass Train 1 project remains fully taxable for debt services taxes, with SPISD currently levying a \$0.1350 per \$100 I&S tax rate. The value of the Golden Pass Train 1 project is expected to depreciate over the life of the agreement and beyond, but full access to the additional value will substantially enhance the ability of SPISD to meet its debt-service needs.

The Golden Pass Train 1 project is not expected to affect SPISD in terms of enrollment. Continued expansion of the project and related development could result in additional employment in the area and an increase in the school-age population, but this project is unlikely to have much impact on public school enrollments in the area.

Conclusion

The proposed Golden Pass Train 1 manufacturing project enhances the tax base of SPISD. It reflects continued capital investment in keeping with the goals of Chapter 313 of the Tax Code.

Under the assumptions outlined above, the potential tax savings for the applicant under a Chapter 313 agreement could reach an estimated \$243.8 million. (This amount is net of any anticipated revenue losses for the District.) The additional taxable value also enhances the tax base of SPISD in meeting its future debt service obligations.

- ii. "New M&O Revenue" means the total State and local Maintenance & Operations Revenue that the District actually received for such school year, after all adjustments have been made to such Maintenance and Operations Revenue because of any portion of this Agreement.

In making the calculations required by this Section 3.2:

- ii. For purposes of this calculation, the tax collection rate on the Applicant's Qualified Property and/or the Applicant's Qualified Investment will be presumed to be one hundred percent (100%)
- iii. If, for any year of this Agreement, the difference between the Original M&O Revenue and the New M&O Revenue as calculated under this Section 3. results in a negative number, the negative number will be considered to be zero.
- iv. All calculations made for years three (3) through ten (10) of this Agreement under this Section 3.2, will reflect the Tax Limitation Amount for such year.
- v. All calculations made under this Section 3.2 shall be made by a methodology which isolates the full M & O revenue impact caused by the Agreements.

- vi. The Applicant shall not be responsible to reimburse the District for other revenue losses created by other agreements, or on account of any other factors not contained in or described by this Agreement.

Section 3.3. COMPENSATION FOR LOSS OF OTHER REVENUES

In addition to the amounts determined pursuant to Section 3.2 above, and to the extent provided in Section 6.3, the Applicant, on an annual basis, shall also indemnify and reimburse the District for the following:

- (a) all non-reimbursed costs incurred by the District in paying or otherwise crediting to the account of the Applicant, any applicable tax credit to which the Applicant may be entitled pursuant to Chapter 313, Subchapter D of the Texas Tax Code, and for which the District does not receive reimbursement from the State pursuant to Texas Educ. Code § 42.2515, or other similar or successor statute.
- (b) all non-reimbursed costs, certified by the District's external auditor to have been incurred by the District for extraordinary education-related expenses related to the project that are not directly funded in state aid formulas, including expenses for the purchase of portable classrooms and the hiring of additional personnel to accommodate a temporary increase in student enrollment directly attributable to construction of the project for which this application is made.
- (c) any other loss of District revenues which are, or may be attributable to the payment by the Applicant to or on behalf any other third party beneficiary.

Section 3.4. CALCULATIONS TO BE MADE BY THIRD PARTY

All calculations under this Agreement shall be made annually by an independent third party (the "*Third Party*") jointly approved each year by the District and the Applicant. If the Parties cannot agree on the Third Party, then the Third Party shall be selected by the mediator that is selected pursuant to the dispute resolution process provided in Section 7.9 of this Agreement.

Section 3.5. DATA USED FOR CALCULATIONS

The calculations for payments under this Agreement shall be initially based upon the valuations placed upon the Applicant's Qualified Investment and/or the Applicant's Qualified Property by the Jefferson County Appraisal District in its annual certified tax roll submitted to the District pursuant to Texas Tax Code §26.01 on or about July 25 of each year of this Agreement. Immediately upon receipt of the valuation information by the District, the District shall submit the valuation information to the Third Party selected under Section 3.4. The certified tax roll data shall form the basis of the calculation of any and all amounts due under this Agreement. All other data utilized by the Third Party to make the calculations contemplated by

this Agreement shall be based upon the best available current estimates. The data utilized by the Third Party shall be adjusted from time to time by the Third Party to reflect actual amounts, subsequent adjustments by the Jefferson County Appraisal District to the District's certified tax roll or any other changes in student counts, tax collections, or other data.

Section 3.6. DELIVERY OF CALCULATIONS

On or before November 1 of each year for which this Agreement is effective, the Third Party appointed pursuant to Section 3.4 of this Agreement shall forward to the Parties a certification containing the calculations required under Sections 3.2 and/or 3.3 and Article IV, and/or under Section 5.1 of this Agreement in sufficient detail to allow the Parties to understand the manner in which the calculations were made. The Third Party shall simultaneously submit his, her or its invoice for fees for services rendered to the Parties, if any fees are being claimed. Upon reasonable prior notice, the employees and agents of the Applicant shall have access, at all reasonable times, to the Third Party's offices, personnel, books, records, and correspondence pertaining to the calculation and fee for the purpose of verification. The Third Party shall maintain supporting data consistent with generally accepted accounting practices, and the employees and agents of the Applicant shall have the right to reproduce and retain for purpose of audit, any of these documents. The Third Party shall preserve all documents pertaining to the calculation and fee for a period of five (5) years after payment. The Applicant shall not be liable for any of the Third Party's costs resulting from an audit of the Third Party's books, records, correspondence, or work papers pertaining to the calculations contemplated by this Agreement or the fee paid by the Applicant to the Third Party pursuant to Section 3.7, if such fee is timely paid.

Section 3.7. PAYMENT BY APPLICANT

The Applicant shall pay any amount determined to be due and owing to the District under this Agreement on or before the January 31 next following the tax levy for each year for which this Agreement is effective. By such date, the Applicant shall also pay any amount billed by the Third Party for all calculations under this Agreement under Section 3.6, above, plus any reasonable and necessary legal expenses paid by the District to its attorneys, auditors, or financial consultants for the preparation and filing of any financial reports, disclosures, or tax credit or other reimbursement applications filed with or sent to the State of Texas which are, or may be required under the terms or because of the execution of this Agreement. For no Tax Year during the term of this Agreement shall the Applicant be responsible for the payment of any total expenses under this Section 3.7 and Section 3.6, above, in excess of Ten Thousand Dollars (\$10,000.00).

Section 3.8. RESOLUTION OF DISPUTES

Pursuant to Sections 3.3(b), 3.4, and 3.6, should the Applicant disagree with the certification containing the calculations, the Applicant may appeal the findings, in writing, to the Third Party within thirty (30) days of receipt of the certification. Within thirty (30) days of receipt of the Applicant's appeal, the Third Party will issue, in writing, a final determination of the certification containing the calculations. Thereafter, the Applicant may appeal the final

determination of certification containing the calculations to the District. Any appeal by the Applicant of the final determination of the Third Party may be made, in writing, to the District's Board of Trustees within thirty (30) days of the final determination of certification containing the calculations.

Section 3.9. EFFECT OF PROPERTY VALUE APPEAL OR OTHER ADJUSTMENT

If, at the time the Third Party selected under Section 3.4 makes its calculations under this Agreement, the Applicant has appealed any matter relating to the valuations placed by the County Appraisal District on the Applicant's Qualified Property, and such appeal remains unresolved, the Third Party shall base its calculations upon the values placed upon the Applicant's Qualified Property by the County Appraisal District.

If as a result of an appraisal appeal or for any other reason, the Taxable Value of the Applicant's Qualified Investment and/or the Applicant's Qualified Property is changed, once the determination of the new Taxable Value becomes final, the Parties shall immediately notify the Third Party who shall immediately issue new calculations for the applicable year or years using the new Taxable Value. In the event the new calculations result in a change in any amount paid or payable by the Applicant under this Agreement, the Party from whom the adjustment is payable shall remit such amounts to the other Party within thirty (30) days of the receipt of the new calculations from the Third Party.

Section 3.10. EFFECT OF STATUTORY CHANGES

Notwithstanding any other provision in this Agreement, but subject to the limitations contained in Section 5.1, in the event that, by virtue of statutory changes to the Applicable School Finance Law, administrative interpretations by the Comptroller, the Commissioner of Education, or the Texas Education Agency, or for any other reason attributable to statutory change, the District will receive less Maintenance and Operations Revenue, or, if applicable, will be required to increase its payment of funds to the State, or to other governmental entities including the Appraisal District, because of its participation in this Agreement, the Applicant shall make payments to the District, up to the annual limitations set forth in Section 5.1, that are necessary to offset any negative impact on the District as a result of its participation in this Agreement. Such calculation shall take into account any adjustments to the amount calculated for the current fiscal year that should be made in order to reflect the actual impact on the District. Both the District and the Applicant anticipate and intend that the provisions of Section 3.2 through 3.6 above will fulfill the requirements of this Section 3.10.

ARTICLE IV

SUPPLEMENTAL PAYMENTS

Section 4.1. INTENT OF PARTIES WITH RESPECT TO SUPPLEMENTAL PAYMENTS

In interpreting the provisions of Article IV, the parties agree as follows:

(a) Amounts Exclusive of Indemnity Amounts

In addition to undertaking the responsibility for the payment of all of the amounts set forth under Article III, and as further consideration for the execution of this Agreement by the District, the Applicant shall also be responsible for the Supplemental Payments set forth in this Article IV. The Applicant shall not be responsible to the District or to any other person or persons in any form for the payment or transfer of money or any other thing of value in recognition of, anticipation of, or consideration for this Agreement for limitation on appraised value made pursuant to Chapter 313, Texas Tax Code, unless it is explicitly set forth in this Agreement. It is the express intent of the Parties that the Applicant's obligation to make Supplemental Payments under this Article IV are separate and independent of the obligation of the Applicant to pay the amounts described in Article III; provided, however, that all payments under Articles III and IV are subject to the limitations contained in Section 5.1, and that all payments under this Article IV are subject to the separate limitations contained in Section 4.4.

(b) Adherence to Statutory Limits on Supplemental Payments

It is the express intent of the Parties that any Supplemental Payments made to or on behalf of the District by the Applicant, under this Article IV, shall not exceed the limit imposed by the provisions of Texas Tax Code 313.027(i), as such limit is allowed or required to be increased by the Legislature in a future year of this Agreement; however, in such event, it shall not exceed the stipulated Supplemental Payment Amount described in Sections 4.2 and 4.3 below.

Each such payment shall be referred to herein as a "Supplemental Payment."

Section 4.2. STIPULATED SUPPLEMENTAL PAYMENT AMOUNT - SUBJECT TO AGGREGATE LIMIT

During the term of this Agreement, the District shall not be entitled to receive Supplemental Payments that exceed the lesser of the following:

(a) the Applicant's "Stipulated Supplemental Payment Amount", which is hereby defined as Sixteen Percent (16%) of the Applicant's Net Tax Benefit; or,

(b) the Aggregate Limit.

Section 4.3. ANNUAL CALCULATION OF STIPULATED SUPPLEMENTAL PAYMENT AMOUNT

The Parties agree that for each Tax Year during the term of this Agreement, beginning with the third full year (Tax Year 2020), the Stipulated Supplemental Payment Amount, described in Section 4.2 will annually be calculated based upon the then most current estimate of tax savings to the Applicant, which will be made, based upon assumptions of student counts, tax collections, and other applicable data, in accordance with the following formula:

Taxable Value of the Applicant's Qualified Property for such Tax Year had this Agreement not been entered into by the Parties (i.e., the Taxable Value of the Applicant's Qualified Property used for the District's interest and sinking fund tax purposes for such Tax Year, or school taxes due to any other governmental entity, including the State of Texas, for such Tax Year);

Minus,

The Taxable Value of the Applicant's Qualified Property for such Tax Year after giving effect to this Agreement (i.e., the Taxable Value of the Applicant's Qualified Property used for the District's maintenance and operations tax purposes for such Tax Year, or school taxes due to any other governmental entity, including the State of Texas, for such Tax Year);

Multiplied by,

The District's maintenance and operations tax rate for such Tax Year, or the school tax rate of any other governmental entity, including the State of Texas, for such Tax Year;

Plus,

Any Tax Credit received by the Applicant with respect to such Tax Year;

Minus,

Any amounts previously paid to the District under Article III;

Multiplied by,

The number 0.16;

Minus,

Any amounts previously paid to the District under Sections 4.2 and 4.3 with respect to such Tax Year.

In the event that there are changes in the data upon which the calculations set forth herein are made, the Third Party described in Section 3.4, above, shall adjust the Applicant's Stipulated Supplemental Payment Amount calculation to reflect such changes in the data.

Section 4.4. CALCULATION OF ANNUAL SUPPLEMENTAL PAYMENTS TO THE DISTRICT AND APPLICATION OF AGGREGATE LIMIT

For each Tax Year during the term of this Agreement, beginning with Tax Year three (Tax Year 2020) and continuing thereafter through Tax Year thirteen (Tax Year 2030), the District, or its successor beneficiary should one be designated under Section 4.6, below, shall not be entitled to receive Supplemental Payments, computed under Sections 4.2 and 4.3, above, that exceed the Aggregate Limit.

If, for any Tax Year during the term of this Agreement the payment of the Applicant's Stipulated Supplemental Payment Amount, calculated under sections 4.2 and 4.3, above for such Tax Year, exceeds the Aggregate Limit for that Tax Year, the difference between the Applicant's Stipulated Supplemental Payment Amount so calculated and the Aggregate Limit for such Tax Year, shall be carried forward from year-to-year into subsequent Tax Years during the term of this Agreement, and to the extent not limited by the Aggregate Limit in any subsequent Tax Year during the term of this Agreement, shall be paid to the District.

Any of the Applicant's Stipulated Supplemental Payment Amount, which cannot be paid to the District prior to the end of Tax Year thirteen (Tax Year 2030), because such payment would exceed the Aggregate Limit, will be deemed to have been cancelled by operation of law, and the Applicant shall have no further obligation with respect thereto.

Section 4.5. PROCEDURES FOR SUPPLEMENTAL PAYMENT CALCULATIONS

- (a) All calculations required by this Article IV, including but not limited to: (i) the calculation of the Applicant's Stipulated Supplemental Payment Amount; (ii) the determination of both the Annual Limit and the Aggregate Limit; (iii) the effect, if any, of the Aggregate Limit upon the actual amount of Supplemental Payments eligible to be paid to the District by the Applicant; and, (iv) the carry forward and accumulation of any of the Applicant's Stipulated Supplemental Payment Amounts unpaid by the Applicant due to the Aggregate Limit in previous years, shall be calculated by the Third Party selected pursuant to Section 3.4.
- (b) The calculations made by the Third Party shall be made at the same time and on the same schedule as the calculations made pursuant to Section 3.6.

- (c) The payment of all amounts due under this Article shall be made at the time set forth in Section 3.7.

Section 4.6. DISTRICT'S OPTION TO DESIGNATE SUCCESSOR BENEFICIARY

At any time during this Agreement, the Board of Trustees may, in its sole discretion, so long as such decision does not result in additional costs to the Applicant under this Agreement, direct that the Applicant's payment under this Article IV be made to the District's educational foundation, or to a similar entity. Any payments under this Article are based on the average daily attendance of SPISD as of the date of this agreement, and in the event of (a) a merger or consolidation with another independent school district or (b) an annexation by another independent school district, the Applicant shall have no additional obligations beyond the obligations that are included in this Agreement. Such foundation or entity may only use such funds received under this Article IV to support the educational mission of the District and its students. Any designation of such a foundation or entity must be made by recorded vote of the Board of Trustees at a properly posted public meeting of the Board of Trustees. Any such designation will become effective after such public vote and the delivery of notice of said vote to the Applicant in conformance with the provisions of Section 6.1, below. Such designation may be rescinded by the Board of Trustees, by Board action, at any time, and any such rescission will become effective after delivery of notice of such action to the Applicant in conformance with the provisions of Section 8.1.

Any designation of a successor beneficiary under this Section shall not alter the Aggregate Limit on Supplemental Payments described in Section 4.4, above.

ARTICLE V

ANNUAL LIMITATION OF PAYMENTS BY APPLICANT

SECTION 5.1. ANNUAL LIMITATION AFTER FIRST THREE YEARS

Notwithstanding anything contained in this Agreement to the contrary, and with respect to each Tax Year during the term of this Agreement beginning after the end of the 2020 Tax Year and ending on the Final Termination Date, in no event shall (i) the sum of the maintenance and operations ad valorem taxes paid by the Applicant to the District for such Tax Year, plus the sum of all payments previously paid or otherwise due from the Applicant to the District under Articles III and IV with respect to such current and all preceding tax years, exceed (ii) the amount of the maintenance and operations ad valorem taxes that the Applicant would have paid to the District for such current and all preceding tax years (determined by using the District's actual maintenance and operations tax rate for each applicable tax year) if the Parties had not entered into this Agreement. The calculation and comparison of the amounts described in clauses (i) and (ii) of the preceding sentence shall be included in all calculations made pursuant to Section 3.4, and in the event the sum of the amounts described in said clause (i) exceeds the

amount described in said clause (ii), then the payments otherwise due from the Applicant to the District under Articles III and IV shall be reduced until such excess is eliminated.

Section 5.2. OPTION TO CANCEL AGREEMENT

Notwithstanding anything in this Agreement to the contrary, in the event the Applicant determines at any prior to the termination of the Qualifying Time Period, that a positive Final Investment Decision will not be reached, the Applicant may terminate this Agreement by providing written notice of termination to the District, in which case this Agreement shall become null and void as of the date of the notice provided by Applicant.

In the event that any payment otherwise due from the Applicant to the District under Article III and/or Article IV with respect to a Tax Year is subject to reduction in accordance with the provisions of Section 5.1 above, then the Applicant shall have the option to terminate this Agreement. The Applicant may exercise such option to cancel this Agreement by notifying the District of its election in writing not later than the July 31 of the year next following the Tax Year with respect to which a reduction under Section 5.1 is applicable. Any cancellation of this Agreement under the foregoing provisions of this Section 5.2 shall be effective immediately prior to the second Tax Year next following the Tax Year in which the reduction giving rise to the option occurred. In addition to the foregoing, in the event the Applicant determines that it will not commence or complete construction of the Applicant's Qualified Investment, the Applicant shall have the option, during the Qualifying Time Period, to terminate this Agreement by notifying the District in writing of its exercise of such option. Any termination of this Agreement under the immediately preceding sentence shall be effective immediately prior to the beginning of the Tax Year immediately following the Tax Year during which such notification is delivered to the District. Upon any termination this Agreement under this Section 5.2, this Agreement shall terminate and be of no further force or effect; provided, however, that the Parties respective rights and obligations under this Agreement with respect to the Tax Year or Tax Years (as the case may be) through and including the Tax Year during which such notification is delivered to the District, shall not be impaired or modified as a result of such termination and shall survive such termination unless and until satisfied and discharged.

ARTICLE VI

TAX CREDITS

Section 6.1. APPLICANT'S ENTITLEMENT TO TAX CREDITS

The Applicant shall be entitled to Tax Credits from the District under and in accordance with the provisions of Subchapter D of the Act and Comptroller Rules, provided that the Applicant complies with the requirements under such provisions, including the filing of a completed Application under Section 313.103 of the Texas Tax Code and Comptroller Rules.

Section 6.2. DISTRICT'S OBLIGATIONS WITH RESPECT TO TAX CREDITS

The District shall timely comply and shall cause the District's collector of taxes to timely comply with their obligations under Subchapter D of the Act and Comptroller Rules, including, but not limited to, such obligations set forth in Section 313.104 of the Texas Tax Code, and either Comptroller and/or Texas Education Agency Rules.

Section 6.3. COMPENSATION FOR LOSS OF TAX CREDIT PROTECTION REVENUES

If after the Applicant has actually received the benefit of a Tax Credit under Section 6.1, the District does not receive aid from the State pursuant to Texas Education Code §42.2515 or other similar or successor statute with respect to all or any portion of such Tax Credit for reasons other than the District's failure to comply with the requirements for obtaining such aid, then the District shall notify the Applicant in writing thereof and the circumstances surrounding the State's failure to provide such aid to the District. The Applicant shall pay to the District the amount of such Tax Credit for which the District did not receive such aid within thirty (30) calendar days after receipt of such notice, and such payment shall be subject to the same provisions for late payment as are set forth in Section 7.4 and 7.5. If the District receives aid from the State for all or any portion of a Tax Credit with respect to which the Applicant has made a payment to the District under this Section 6.3, then the District shall pay to the Applicant the amount of such aid within thirty (30) calendar days after the District's receipt thereof.

ARTICLE VII

ADDITIONAL OBLIGATIONS OF APPLICANT

Section 7.1. DATA REQUESTS AND CONFIDENTIALITY

(a) During the term of this Agreement, and upon the written request of one Party or by the Comptroller (the "Requesting Party"), the other Party shall provide the Requesting Party with all information reasonably necessary for the Requesting Party to determine whether the other Party is in compliance with its obligations, including any employment obligations which may arise under this Agreement. The Applicant shall allow authorized employees of the District, the Comptroller, the State Auditor, and/or the Jefferson County Appraisal District to have access to the Applicant's Qualified Property and/or business records, in accordance with Texas Tax Code §22.07, during the term of this Agreement, in order to inspect the project to determine compliance with the terms hereof. All inspections will be made at a mutually agreeable time after the giving of not less than seven (7) business days prior written notice which may be provided via email upon "read receipt", and will be conducted in such a manner so as not to unreasonably interfere with either the construction or operation of the Applicant's Qualified Property. All inspections may be accompanied by one or more representatives of the Applicant, and shall be conducted in accordance with the Applicant's safety, security, and operational standards. Notwithstanding the foregoing, nothing contained in this Agreement shall require the Applicant to provide the District, the Comptroller, the State Auditor, or the Jefferson County Appraisal District with any technical or business information that is private personnel data, proprietary, a trade secret or confidential in nature or is subject to a confidentiality agreement with any third party.

(b) Notwithstanding the Section 7.1(a), the District acknowledges that performance of the obligations under this Agreement could result in disclosure of Confidential Information. The District shall (i) use any Confidential Information obtained solely for the purpose of performing its duties and obligations under this Agreement and for no other purpose; (ii) not disclose the Confidential Information to any third party, except for disclosures to its directors, officers, employees, subcontractors, and representatives of its or the Applicant's advisors (such as independent accountants and attorneys) acting on its behalf (such directors, officers, employees, and representatives of its advisors being referred to collectively as its "Representatives"), who in each case, in the District's reasonable judgment, need to know such information for the purpose of performance of this Agreement; (iv) inform its Representatives of the confidential nature of the Confidential Information and direct their Representatives to treat the Confidential Information confidentially; (v) take all additional reasonable precautions necessary to prevent the disclosure of the Confidential Information by its Representatives to any third party; and (vi) be responsible for any breach of the confidentiality obligations by its Representatives.

Section 7.2. REPORTS TO OTHER GOVERNMENTAL AGENCIES

The Applicant shall timely make any and all reports that are or may be required under the provisions of law or administrative regulation, including but not limited to the annual report or certifications that may be required to be submitted by the Applicant to the Comptroller under the provisions of Texas Tax Code §313.032. The Applicant shall forward a copy of all such required reports or certifications to the District contemporaneously with the filing thereof. The obligation to make all such required filings shall be a material obligation under this Agreement.

Section 7.3. APPLICANT'S OBLIGATION TO MAINTAIN VIABLE PRESENCE

By entering into this Agreement, the Applicant warrants that:

- (c) it will abide by all of the terms of this Agreement;
- (d) it will Maintain Viable Presence in the District through the Final Termination Date of this Agreement, provided however that, notwithstanding anything contained in this Agreement to the contrary, the Applicant shall not be in breach of this Agreement, and shall not be subject to any liability for failure to Maintain Viable Presence to the extent such failure is caused by Force Majeure, provided the Applicant makes commercially reasonable efforts to remedy the cause of such Force Majeure; and
- (e) it will meet the applicable minimum eligibility requirements under Tax Code, Chapter 313 throughout the value limitation and tax-credit settle-up periods.

Section 7.4. CONSEQUENCES OF EARLY TERMINATION OR OTHER BREACH BY APPLICANT

(a) In the event that the Applicant terminates this Agreement without the consent of the District, except as provided in Section 5.2, or in the event that the Applicant or its successor-in-interest fails to comply in any material respect with the terms of this Agreement or to meet any material obligation under this Agreement, after the notice and cure period provided by Section 7.8, then the District shall be entitled to the recapture of all ad valorem tax revenue lost as a result of this Agreement together with the payment of interest, as calculated in accordance with Section 7.5, on that recaptured ad valorem tax revenue. For purposes of this recapture calculation, the Applicant shall be entitled to a credit for all payments made to the District pursuant to Article III. The Applicant shall also be entitled to a credit for any amounts paid to the District pursuant to Article IV.

(b) Notwithstanding Section 7.4(a), in the event that the District determines that the Applicant has failed to Maintain Viable Presence and provides written notice of termination of this Agreement, then it shall be determined that the recapture of all ad valorem tax revenue lost along with interest shall constitute the District's sole remedy.

Section 7.5. CALCULATION OF INTEREST

In determining the amount of interest, or both, due in the event of a breach of this Agreement, the District shall first determine the base amount of recaptured taxes owed less all credits under Section 7.4 for each Tax Year during the term of this Agreement since the Commencement Date. The District shall calculate penalty or interest for each Tax Year during the term of this Agreement since the Commencement Date in accordance with the methodology set forth in Chapter 33 of the Texas Tax Code, as if the base amount calculated for such Tax Year less all credits under Section 7.4 had become due and payable on February 1 of the calendar year following such Tax Year. Interest on said amounts shall be calculated in accordance with the methodology set forth in Texas Tax Code §33.01(c), or its successor statute.

Section 7.6 MATERIAL BREACH OF AGREEMENT

The Applicant shall be in Material Breach of this Agreement if it commits one or more of the following acts or omissions:

- (a) Applicant is determined to have failed to meet its obligations to have made accurate material representations of fact in the submission of its Application as is required by Section 8.13, below.
- (b) Applicant fails to Maintain Viable Presence in the District, as required by Section 7.3 of this Agreement, through the Final Termination Date of this Agreement.

- (c) Applicant fails to make any payment required under Articles III or IV of this Agreement on or before its due date.
- (d) Applicant fails to create and maintain at least the number of New Jobs set forth it committed to create and maintain as set forth on Schedule C, Column C of its Application.
- (e) Applicant fails to create and maintain at least the number of New Jobs set forth it committed to create and maintain as set forth on Schedule C, Column E of its Application.
- (f) Applicant fails to create and maintain at least Eighty Percent (80%) of all New Jobs as Qualifying Jobs.
- (g) Applicant makes any payments to the District or to any other person or persons in any form for the payment or transfer of money or any other thing of value in recognition of, anticipation of, or consideration for this Agreement, in excess of the amounts set forth in Articles III and IV, above. Voluntary donations made by Applicant to the District after the date of execution of this Agreement, and not mandated by this Agreement or made in recognition of, or in consideration for this Agreement are not barred by this provision.
- (h) Applicant fails to comply in any material respect with any other term of this Agreement, or the Applicant fails to meet its obligations under the applicable Comptroller's Rules, and under the Act.

Section 7.7 LIMITED STATUTORY CURE OF MATERIAL BREACH

In accordance with the provisions of Texas Tax Code §313.0275, for any full tax year which commences after the project has become operational, the Applicant may cure the Material Breach of this Agreement, described in Sections 7.6(d) and 7.6(e) or 7.6(f), above, without the termination of the remaining term of this Agreement. In order to cure any such non-compliance with Sections 7.6(d) and 7.6(e) or 7.6(f) for such Tax Year, the Applicant may make the payment required by Texas Tax Code §313.0275(b), in accordance with the provisions of Texas Tax Code §313.0275(c).

Section 7.8. DETERMINATION OF MATERIAL BREACH AND TERMINATION OF AGREEMENT

Prior to making a determination under Section 7.4 or Section 7.6 that the Applicant is in Material Breach of this Agreement, such as making a material misrepresentation in the Application, failing to Maintain Viable Presence in the District as required by Section 7.3 of this Agreement, failing to make any payment required under this Agreement when due, or that the Applicant has otherwise committed a Material Breach of this Agreement, the District shall provide the Applicant with a written notice of the facts which it believes have caused the

Material Breach of this Agreement, and if cure is possible, the cure proposed by the District. After receipt of the notice, the Applicant shall be given ninety (90) days to present any facts or arguments to the Board of Trustees showing that a Material Breach of this Agreement has not occurred and/or that it has cured or undertaken to cure any such Material Breach.

If the Board of Trustees is not satisfied with such response and/or that such breach has been cured, then the Board of Trustees shall, after reasonable notice to the Applicant, conduct a hearing called and held for the purpose of determining whether such breach has occurred and, if so, whether such breach has been cured. At any such hearing, the Applicant shall have the opportunity, together with their counsel, to be heard before the Board of Trustees. At the hearing, the Board of Trustees shall make findings as to whether or not a Material Breach of this Agreement has occurred, the date such breach occurred, if any, and whether or not any such breach has been cured. In the event that the Board of Trustees determines that such a breach has occurred and has not been cured, it shall also terminate the Agreement and determine the amount of recaptured taxes under Section 7.4 (net of all credits under Section 7.4), and the amount of any interest under Section 7.5 that are owed to the District.

After making its determination regarding any alleged breach, the Board of Trustees shall cause the Applicant to be notified in writing of its determination (a "Determination of Breach and Notice of Contract Termination").

Section 7.9. DISPUTE RESOLUTION

After receipt of notice of the Board of Trustee's Determination of Breach and Notice of Contract Termination under Section 7.8, the Applicant shall have ninety (90) days in which either to tender payment or evidence of its efforts to cure, or to initiate mediation of the dispute by written notice to the District, in which case the District and the Applicant shall be required to make a good faith effort to resolve, without resort to litigation and within ninety (90) days after the Applicant's receipt of notice of the Board of Trustee's Determination of Material Breach under Section 7.8, such dispute through mediation with a mutually agreeable mediator and at a mutually convenient time and place for the mediation. If the Parties are unable to agree on a mediator, a mediator shall be selected by the senior state district court judge then residing in Jefferson County, Texas. The Parties agree to sign a document that designates the mediator and the mediation will be governed by the provisions of Chapter 154 of the Texas Civil Practice and Remedies Code and such other rules as the mediator shall prescribe. With respect to such mediation, (i) the District shall bear one-half of such mediator's fees and expenses and the Applicant shall bear one-half of such mediator's fees and expenses, and (ii) otherwise each Party shall bear all of its costs and expenses (including attorneys' fees) incurred in connection with such mediation.

In the event that any mediation is not successful in resolving the dispute or that payment is not received before the expiration of such ninety (90) days, the District shall have the remedies for the collection of the amounts determined under Section 7.8 as are set forth in Texas Tax Code Chapter 33, Subchapters B and C, for the collection of delinquent taxes. In the event that the District successfully prosecutes legal proceedings under this section, the Applicant shall also be

responsible for the payment of attorney's fees and a tax lien on the Applicant's Qualified Property and the Applicant's Qualified Investment pursuant to Texas Tax Code §33.07 to the attorneys representing the District pursuant to Texas Tax Code §6.30.

In any event where a dispute between the District and the Applicant under this Agreement cannot be resolved by the Parties, after completing the procedures required above in this Section, either the District or the Applicant may seek a judicial declaration of their respective rights and duties under this Agreement or otherwise, in any judicial proceeding, assert any rights or defenses, or seek any remedy in law or in equity, against the other Party with respect to any claim relating to any breach, default, or nonperformance of any covenant, agreement or undertaking made by a Party pursuant to this Agreement.

Section 7.10. LIMITATION OF OTHER DAMAGES

Notwithstanding anything contained in this Agreement to the contrary, in the event of default or breach of this Agreement by the Applicant, the District's damages for such a default shall under no circumstances exceed the greater of either any amounts calculated under Sections 7.4 and 7.5 above, or the monetary sum of the difference between the payments and credits due and owing to the Applicant at the time of such default and the District taxes that would have been lawfully payable to the District had this Agreement not been executed. In addition, the District's sole right of equitable relief under this Agreement shall be its right to terminate this Agreement.

The Parties further agree that the limitation of damages and remedies set forth in this Section 7.10 shall be the sole and exclusive remedies available to the District, whether at law or under principles of equity.

Section 7.11. BINDING ON SUCCESSORS

In the event of a merger or consolidation of the District with another school district or other governmental authority, this Agreement shall be binding on the successor school district or other governmental authority.

Section 7.12. ADDITIONAL APPLICANT OBLIGATIONS PRIOR TO END OF DEFERRAL PERIOD

As set forth in section 1.2, above, the Parties have agreed to the deferral of the Commencement Date for this Agreement until January 2, 2017. Applicant must, therefore comply with the following additional requirements in conformance with the provisions of 34 Texas Administrative Code § 9.1054(h)(13). Not earlier than July 7, 2016, nor later than October 4, 2016, Applicant shall provide the District with an update on the project status. EXHIBIT 3

DESCRIPTION OF THE APPLICANT'S QUALIFIED INVESTMENT/QUALIFIED PROPERTY

The project consists of Train 1 of a three train liquefied natural gas ("LNG") export project ("GPX Project"). The GPX Project consists of:

- 1) The Export Terminal, which will be constructed adjacent to the Golden Pass LNG Terminal LLC ("GPLNG") import terminal site, located onshore at the Sabine-Neches Waterway in Jefferson County, Texas [*The import facility is covered by the above-referenced 2006 Agreement and 2007 Amended Agreement, and thereby excluded from this Agreement*]; and
- 2) Additions to the existing Golden Pass Pipeline LLC system ("GPPL") by construction of approximately a total of eight to ten miles of new 30- to 36-inch pipeline in two non-contiguous loops and up to four new compressor stations with all necessary integration interconnections for bi-directional service. [*The Golden Pass Pipeline System is specifically excluded and not part of this Application for Limitation on Appraised Value of Qualified Property.*]

The total project will consist of three liquefaction trains with a nominal total production capacity of 15.6 million metric tons per annum (MTPA) of LNG for export (each having a nominal throughput of 5.2 million MTPA). Trains 2 and 3 of the project will be covered by other, contemporaneously approved agreements. The Project will be constructed in phases, with each LNG train commencing operations approximately six to twelve months after the previous train. The total estimated capital investment of the Project for all three liquefaction trains in Sabine Pass ISD is approximately \$8.5-10 billion.

Train 1 of the GPX Project will be located within the *Golden Pass Products Reinvestment Zone* described in **EXHIBIT 1**. The GPX Project will allow Applicant to receive natural gas from domestic sources, convert natural gas to LNG, store, and export that LNG. The GPX Project will be constructed and operated contiguous to and integrated with the GPLNG terminal and GPPL. This will enable Golden Pass to maximize use of the existing GPLNG terminal and GPPL facilities, to provide for bi-directional service and thus allow for exportation and importation of natural gas.

Train 1 of the GPP Export Terminal includes, but is not limited to, the following major components described below:

1. Inlet gas treating systems utilizing amine for carbon dioxide, hydrogen sulfide removal followed by molecular sieve dehydration. Water and heavy hydrocarbons will be removed by dehydration units, scrubbers and separators.
2. Liquefaction capability Train #1 will have a nominal throughput capacity of 5.2 MTPA. This process train will include the following components:
 - a. Propane pre-cooling, mixed refrigerant LNG process (also known as the C3MR process) utilizing two gas-fired turbines;
 - b. Coil wound main cryogenic heat exchangers for liquefaction and sub-cooling.
3. Nominal electrical power generation of up to 250 megawatts.
4. Associated utilities, equipment and air coolers.
5. Interconnections to existing import facilities and controls.
6. Installation of facilities to allow for the loading of LNG (truck and marine).
7. LNG storage tank pumps to accommodate loading operations.
8. A central control room and terminal isolation equipment.
9. Additional buildings for administration, maintenance, security and storage warehouses.
10. Expansion of the facility's storm protection levee system, safety and security assets.
11. Optimization of facility processes to allow for import and export capabilities.
