RE: Application to the Sheldon Independent School District from FMC Technologies, Inc.

**(First Qualifying Year 2015)**

To the Local Government Assistance & Economic Analysis Division:

By copy of this letter transmitting the application for review to the Comptroller's Office, the Sheldon Independent School District is notifying FMC Technologies, Inc. of its intent to consider the application for appraised value limitation on qualified property. The Applicant submitted the Application to the school district on November 19, 2013. The Board voted to accept the application on November 19, 2013. The application has been determined complete as of November 19, 2013. Please prepare the economic impact report.

The Applicant plans to consolidate three existing locations in Harris County into one new site within the Sheldon ISD. There is no property located at the site at which the company is proposing to locate the new facilities. Furthermore, the company does not anticipate transferring any existing property to the new facility. However, should that plan change, the Applicant will request the Harris County Appraisal District to create new account numbers for any transferred property to ensure that only the new improvements identified in the application are subject to any appraised value limitation granted by the school district.

The school district has determined that the wage information included in the application represents the most recent wage data available at the time of the application.

The applicant will supplement the application with a copy of the order designating the reinvestment zone upon its adoption by the Commissioner's Court of Sheldon.
