**Board Finding Number 3.**

The average salary level of qualifying jobs is expected to be at least \$38,038 per year. The review of the application by the State Comptroller's Office indicated that this amount—based on Texas Workforce Commission data—complies with the requirement that qualifying jobs must pay 110 percent of the county average manufacturing wage. Wolf Ridge Wind, LLC, indicates that total employment will be approximately six (6) new jobs.

In support of Finding 3, the economic impact evaluation states:

The economic assumptions underlying the analysis are summarized in the table below. The following table highlights the total employment, payroll, and capital investment for the wind farm project in Cooke County. Based on approved Texas Economic Development Act wind farm applications and industry standards, the typical wind farm employs one person per 15 wind turbines. Wolf Ridge Wind's project is consistent with this ratio. As noted in the introduction, the financial impact of the requested property value limitation on the finances of Muenster I.S.D. is addressed in a separate report.
