INDEPENDENT SCHOOL DISTRICT BOARD OF
TRUSTEES UNDER THE
TEXAS ECONOMIC DEVELOPMENT ACT
ON THE APPLICATION SUBMITTED BY
REGENCY FIELD SERVICES LLC (#1030)

STATE OF TEXAS

§

COUNTY OF REEVES

§

On the 16th day of April, 2015, a public meeting of the Board of Trustees of the Pecos-Barstow-Toyah Independent School District ("District") was held. The meeting was duly posted in accordance with the provisions of the Texas Open Meetings Act, Chapter 551, Texas Government Code. At the meeting, the Board of Trustees took up and considered the application of Regency Field Services LLC ("Applicant") for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code. The Board of Trustees solicited input into its deliberations on the Application from interested parties within the District. After hearing presentations from the District's administrative staff, and from consultants retained by the District to advise the Board in this matter, the Board of Trustees makes the following findings with respect to application from Applicant, and the economic impact of that application:

On June 17, 2014, the Superintendent of the District, acting as agent of the Board of Trustees, and the Texas Comptroller of Public Accounts ("Comptroller") received an Application from Applicant for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code. The application was determined complete by the Comptroller on December 2, 2014. A copy of the Application is attached as **Attachment A**.

The Applicant, (Texas Taxpayer Id. 32054004273), is an entity subject to Chapter 171, Texas Tax Code, and is certified to be an active franchise taxpayer by the Comptroller. See **Attachment B**.

The Board of Trustees acknowledged receipt of the Application, along with the requisite application fee, established pursuant to Texas Tax Code § 313.025(a)(1) and Local District Policy.

The Application was delivered to the Comptroller for review pursuant to Texas Tax Code § 313.025(d). A copy of the Application was delivered to the Reeves County Appraisal District for review pursuant to 34 Tex. Admin. Code § 9.1054.

The Application was reviewed by the Comptroller pursuant to Texas Tax Code §313.026, and a Comptroller Certificate was issued on October 23, 2014 in which the Comptroller has determined that: 1) the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised values; 2) the proposed project is reasonably likely to generate tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement before the 25th anniversary of the beginning of the limitation period; and, 3) the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state. A copy of the Certificate is attached to the findings as **Attachment C**.

The Board of Trustees also directed that a specific financial analysis be conducted of the impact of the proposed value limitation on the finances of District. A copy of the report prepared by Moak, Casey & Associates, Inc. is attached to these findings as **Attachment D**.

The Board of Trustees has confirmed that the taxable value of property in the District for the preceding tax year, as determined under Subchapter M, Chapter 403, Government Code, is as stated in **Attachment E**.

The Texas Education Agency has evaluated the impact of the project on the District's facilities. TEA's determination is attached to these findings as **Attachment F**.

At the specific direction of the Comptroller's Office, the parties used the template Texas Economic Development Agreement. As required by the Comptroller's Office, the parties changed only the provisions of the template that the Comptroller permitted. The proposed Agreement is attached to these findings as **Attachment G**. In November 2014, the Texas Comptroller's Office announced its intention to modify Comptroller Form 50-

286 and to permit amendments to existing agreements including the agreement for which these Findings are being made.

After review of the Comptroller's Certificate and economic analysis, and in consideration of its own studies the Board finds:

Board Finding Number 1.

The Board finds that the property meets the requirements of §313.024 for eligibility for a limitation on appraised value.

In support of Finding 1, the Application indicates that:

REGENCY FIELD SERVICES LLC (RE Avalon) is requesting an appraised value limitation from Pecos-Barstow-Toyah Independent School District (PBTISD) for their proposed solar facility.

Property that is used for renewable energy electric generation satisfies the requirements of §313.024(b)(5).

Board Finding Number 2.

The project proposed by the applicant is reasonably likely to generate, before the 25th anniversary of the beginning of the limitation period, tax revenue, including state tax revenue, school district maintenance and operations ad valorem tax revenue attributable to the project, and any other tax revenue attributable to the effect of the project on the economy of the state, in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement.

In support of Finding 2, the economic impact evaluation Attachment B states:

This represents the Comptroller's determination that RE Avalon, LLC (project) is reasonably likely to generate, before the 25th anniversary of the beginning of the limitation period, tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement. This evaluation is based on an analysis of the estimated M&O portion

of the school district property tax levy directly related to this project, using estimated taxable values provided in the application.

Disclaimer: This examination is based on information from the application submitted to the school district and forwarded to the comptroller. It is intended to meet the statutory requirement of Chapter 313 of the Tax Code and is not intended for any other purpose.

Board Finding Number 3.

The limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state.

In support of Finding 3, the economic impact evaluation Attachment C states:

The Comptroller has determined that the limitation on appraised value is a determining factor in the RE Avalon, LLC's decision to invest capital and construct the project in this state. This is based on information available, including information provided by the applicant. Specifically, the comptroller notes the following:

- According to the application, the applicant is currently developing and constructing other projects throughout the U.S. and internationally.
- Per the applicant, this project requires the limitation on appraised value in order to move forward with constructing this project in Texas.
- According to the applicant, without the tax limitation, the company would be forced to abandon the project and invest funds in other areas where there is a higher rate of return on their development and investment funds.

Board Finding Number 4.

The Board finds that the Application Fee received for the Application for which these Findings are being made was reasonable and only in such an amount as was necessary to cover the District's costs of processing such Application.

Board Finding Number 5.

Based upon the information provided in the Application and in the Comptroller's Certificate package, the Board finds that that the number of jobs to be created and the wages to be paid comply with the requirements of statute. And, the Board finds that the Chapter 313 Tax Limitation Agreement (Attachment G), in accordance with Comptroller's Form 50-286, contains all required provisions and information related to the required job creation requirements, to wit: the provisions set forth in Subsections 9.1C&D of said Agreement.

The Applicant has committed to creating two (2) new qualifying jobs. The average salary level of qualifying jobs will be at least \$37,000 per year. The review of the application by the State Comptroller's Office indicated that this amount—based on Texas Workforce Commission data—complies with the requirement that qualifying jobs must pay 110 percent of the county average manufacturing wage. As defined in Section 313.021 of the Tax Code, "Qualifying job" means a permanent full-time job that:

- (A) requires at least 1,600 hours of work a year;
- (B) is not transferred from one area in this state to another area in this state;
- (C) is not created to replace a previous employee;
- (D) is covered by a group health benefit plan for which the business offers to pay at least 80 percent of the premiums or other charges assessed for employee-only coverage under the plan, regardless of whether an employee may voluntarily waive the coverage; and
- (E) pays at least 110 percent of the county average weekly wage for manufacturing jobs in the county where the job is located.

Board Finding Number 6.

Based upon the information provided to the District with regard to the industry standard for staffing ratios of similar projects in the State of Texas, the District has determined that if the job creation requirement set forth in Texas Tax Code § 313.021(2)(A)(iv)(b) was applied, for the size and scope of the project described in the Application, the required number of jobs meets or exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility.

Board Finding Number 7.

The Applicant does not intend to create any non-qualifying jobs.

For any non-qualifying job the Applicant creates, the Applicant must pay at least the county average wage for all jobs in the county.

Board Finding Number 8.

The revenue gains that will be realized by the school district if the Application is approved will be significant in the long-term, with special reference to revenues used for supporting school district debt.

In support of this finding, the analysis prepared by Moak, Casey & Associates projects that the project would initially add \$190 million to the tax base for debt service purposes at the peak investment level for the 2017-18 school year, with the project value expected to depreciate over the course of the agreement. The project remains fully taxable for debt services taxes, with the District levying a \$0.05 per \$100 I&S rate. Under the estimates presented in the school finance analysis, the taxpayers of PBTISD should see long-term benefit from the project in meeting the District's future debt service needs even with the expected depreciation of the project's taxable value.

Board Finding Number 9.

The effect of the applicant's proposal, if approved, on the number or size of needed school district instructional facilities is not expected to increase the District's facility needs, with current trends suggest little underlying enrollment growth based on the impact of the project.

The summary of financial impact prepared by Moak, Casey & Associates, Inc., indicates that there will be little to no impact on school facilities created by the new solar project. This finding is confirmed by the TEA evaluation of this project's impact on the number and size of school facilities in the District as stated in **Attachment F**.

Board Finding Number 10.

The Board finds that with the adoption of District Policy CCG (Local), implemented in conformance with both Comptroller and Texas Education Agency Rules governing Chapter 313 Agreements, it has developed a process to verify, either directly or through its consultants, the accuracy and completeness of information in annual eligibility reports and biennial progress reports regarding (1) the reported number of jobs created and (2) the reported amount invested in the property.

Board Finding Number 11.

The Board of Trustees hired consultants to review and verify the information in the Application. Based upon the consultants' review, the Board has determined that the information provided by the Applicant is true and correct.

The Board has developed a written policy CCG (Local) which requires, upon the filing of an Application under Tax Code Chapter 313, the retention of consultants in order to verify: (1) that Applicant's information contained in the Application as to existing facts is true and correct; (2) that Applicant's information contained in the Application with respect to projections of future events are commercially reasonable and within the ability of Applicant to execute; (3) that information related to job creation is commercially reasonable and within the ability of Applicant to execute; (4) that Applicant's representations concerning and economic incentives being offered, if any, and (2) the proposed project meets eligibility requirements.

As a part of its verification process the Board notes that the Chapter 313 Application for which these Findings are being made has been submitted by Applicant under oath. Chapter 313 Applications are governmental records under Tex. Penal Code § 37.01(2)(A); as a result, all statements contained therein are representations of fact within the meaning of Tex. Penal Code § 37.01(3). Since Board action upon the adoption of these Findings and the approval of the Chapter 313 Tax Limitation Agreement (**Attachment G**) is an "official proceeding," a false statement on a Chapter 313 application constitutes perjury under Tex. Penal Code § 37.03.

The Board finds that sworn statements are routinely used as an acceptable verification method for reliance by fact finders in each of the three separate branches of government, including trials.

The consultants have prepared signed statements that the consultants have reviewed and verified the contents of the Application and have determined that the current statements of fact contained in the Application are true and correct. The Board finds that reliance by the

Board and its consultants upon verified statements of the Applicant, especially as to Applicant's future intentions which cannot be objectively verified is reasonable and within the intent of Chapter 313, Texas Tax Code.

Board Finding Number 12.

The Board of Trustees has determined that the Tax Limitation Amount requested by Applicant is currently Twenty-Five Million Dollars, which is consistent with the minimum values currently set out by Tax Code, § 313.054(a).

The Board finds that the Chapter 313 Tax Limitation Agreement (**Attachment G**), in accordance with Comptroller's Form 50-286, contains all required provisions and information related to the required investment amount, to wit: the amount set forth in Section 2.4B of said Agreement. According to the Texas Comptroller of Public Accounts' School and Appraisal Districts' Property Value Study 2013 Final Findings made under Subchapter M, Chapter 403, Government Code for the preceding tax year, Attachment E, the total 2013 industrial value for the District is \$363.5 million; however, the Comptroller's Certificate has based their calculation of the value limitation on the industrial value found in the 2012 Final Findings, Attachment E. The total 2012 industrial value for the District is \$155.9 million. The District is categorized as Subchapter C, which applies only to a school district that has territory in a strategic investment area, as defined under Subchapter O, Chapter 171, Tax Code or in a county: (1) that has a population of less than 50,000 and (2) in which, from 1990 to 2000, according to the federal decennial census, the population: (A) remained the same; (B) decreased; or (C) increased, but at a rate of not more than three percent per annum. The District is classified as a "rural" district due to its population characteristics. Given that the value of industrial property in the District is more than \$90 million but less than \$200 million, it is classified as a Category II district which can offer a minimum value limitation of \$25 million.

Board Finding Number 13.

The Board finds that the Chapter 313 Tax Limitation Agreement (Attachment G), in accordance with Comptroller's Form 50-286, contains all required provisions and information related to the required investment amount, to wit: the amount set forth in Section 2.4B of said Agreement.

Board Finding Number 14.

The Applicant (Taxpayer Id. 32054004273) is eligible for the limitation on appraised value of qualified property as specified in the Agreement as an active franchise-tax paying entity.

The Applicant, (Texas Taxpayer Id. 32054004273), is an entity subject to Chapter 171, Texas Tax Code, and is certified to be an active franchise tax payer by the Comptroller. See **Attachment B**. The Board also finds that the Chapter 313 Tax Limitation Agreement (Attachment G), in accordance with Comptroller's Form 50-286 contains all required provisions necessary for the Board to assess the eligibility of any business to which an agreement is transferred, to wit: the requirement that all assignments are amendments to the provision forth in Section 10.4 of said Agreement.

Board Finding Number 15.

The project will be located within an area that is currently designated as a reinvestment zone, pursuant to Chapter 312 of the Texas Tax Code. Should it be required, the District will cooperate with the Applicant in ensuring that the area remains designated as a reinvestment zone through the Final Termination Date of the Agreement.

Board Finding Number 16.

The Agreement for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code, attached hereto as Attachment G, includes adequate and appropriate revenue protection provisions for the District.

In support of this finding, the report of Moak, Casey & Associates, Inc. shows that the District will incur a revenue loss primarily in most years that the value limitation is in effect without the proposed Agreement. However, with this Agreement, the negative consequences of granting the value limitation are offset through the revenue protection

provisions agreed to by the Applicant and the District. Revenue protection measures are in place for the duration of the Agreement.

Board Finding Number 17.

The Board finds that the methodology and processes for determining Applicant's revenue protection payments as are set forth in Article IV of the Chapter 313 Tax Limitation Agreement (Attachment G) comply with Texas Tax Code, Chapter 313.

Board Finding Number 18.

The Board finds that the Chapter 313 Tax Limitation Agreement (Attachment G), in accordance with Comptroller's Form 50-286 contains all required provisions necessary for the Board to assess performance standards and to require periodic deliverables that will enable it to hold businesses accountable for achieving desired results, to wit: the reporting requirements set forth in Article VIII of said Agreement.

Board Finding Number 19.

The Agreement for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code, attached hereto as Attachment G, is in the form of the template Texas Economic Development Act adopted by the Comptroller. Should a new template be adopted that corrects the broken cross references, clarifies wording and grammatical errors, and corrects contractual ambiguities not acceptable to either party, the Board finds that it would be in the District's best interest to agree to amend the Agreement.

Board Finding Number 20.

The Board finds that there are no conflicts of interest at the time of considering the agreement.

The Board finds that with the adoption of District Policies BBFA and BBFB, both (Legal) and (Local), that it has taken appropriate action to ensure that all District Trustees, have disclosed any potential conflicts of interest, and that such disclosures will be made if any conflict of interest arises in the future, in compliance with the requirements of Texas Local Gov't Code §171.004.

The Board finds that with the adoption of District Policies DBD, DGA, and DH BBFB, both (Legal) and (Local) that it has taken appropriate action to ensure that all District

employees and/or consultants, have disclosed any potential conflicts of interest, and that such disclosures will be made if any conflict of interest arises in the future, in compliance with the requirements of Texas Local Gov't Code §171.004.

The Board finds that that no non-disclosed conflicts of interest exist as to the Application for which these Findings are being made, as of the time of action on these Findings. In addition, District should ensure that disclosure occurs at the meeting at which the school board will vote on the business's application.

Board Finding Number 21.

The Board finds that it has directed that a link on its Web site to the Comptroller's Office's Web site where appraisal limitation related documents are made available to the public.

Board Finding Number 22.

Considering the purpose and effect of the law and the terms of the Agreement, that it is in the best interest of the District and the State to enter into the attached Agreement for Limitation on Appraised Value of Property for School District Maintenance and Operations Taxes.

It is therefore ORDERED that the Agreement attached hereto as **Attachment G** is approved and hereby authorized to be executed and delivered by and on behalf of the District. It is further ORDERED that these findings and the Attachments referred to herein be attached to the Official Minutes of this meeting, and maintained in the permanent records of the Board of Trustees of the District.

It is further ORDERED that upon the issuance by the Comptroller's Office of a new Form 50-286 that the Board, in accordance with Comptroller rules and new form 50-286, will consider an amendment to Attachment G upon the request of Applicant or District staff.

Dated the 18th day of December 2014.

Form 50-296-A

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

The MiVida Cryo Plant project is a new gas processing facility designed to manufacture industrial gases and natural gas liquids by processing 200 MMscf/d of natural gas from various proposed gathering systems in the Delaware Basin area. The process train will utilize a standard TH Russell Cryogenic Turbo-Expander Plant with auxiliary refrigeration using the Gas Subcooled Process (GSP) to extract ethane and heavier hydrocarbons from the rich natural gas feed stream. Applicant has significant acreages and volumes under contract, should this project proceed.

The MiVida Cryo Plant project will consist of the following main processing units and utility systems:

- Standard 200MMscf/d Russell Plant and treating
- Inlet Compression
- Liquid Handling and Stabilization
- Electrical Infrastructure
- Internal Inlet Pipeline Metering and Controls
- Internal NGL Pipeline and Metering
- Amine Treater

Numerous similar or identical cryo plants have received appraised value limitations under active Chapter 313 agreements, including the following projects:

- No. 199, Edna ISD — DCP Midstream, LP
- No. 224, Edna ISD — Flag City Processing Partners, LLC

Tab 5 — CONFIDENTIAL

Limitation Is A Determining Factor

1. Hobbs, New Mexico, is a competing location for the proposed project. Much of the natural gas raw product that would be processed at this plant is actually gathered in New Mexico, utilizing the same gathering and transportation infrastructure. The State of New Mexico offers a comprehensive and aggressive package of incentives which has been highly competitive with those offered by the State of Texas and which any company with a choice of locations near the Texas/New Mexico border would be compelled to consider in exercising due diligence.
2. The applicant's parent company, Regency Energy Partners, is internally considering a similar cryogenic processing and manufacturing project that would be located in North Louisiana. The company already has significant infrastructure and activity throughout that region, and its proposed capital expenditure would meet or exceed the amount proposed for the subject MiVida project.

State Comptroller's Certification

GLENN HEGAR TEXAS COMPTROLLER OF PUBLIC ACCOUNTS

P.O. Box 13528 • Austin, TX 78711-3528

February 25, 2015

Stetson Roane
Superintendent
Pecos-Barstow-Toyah Independent School District
1302 South Park Street
Pecos, Texas 79772

Dear Superintendent Roane:

On December 2, 2014, the Comptroller issued written notice that Regency Field Services, LLC (the applicant) submitted a completed application (Application #1030) for a limitation on appraised value under the provisions of Tax Code Chapter 313¹. This application was originally submitted on July 17, 2014, to the Pecos-Barstow-Toyah Independent School District (the school district) by the applicant.

This presents the results of the Comptroller's review of the application and determinations required:

- 1) under Section 313.025(h) to determine if the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C; and
- 2) under Section 313.025(d), to issue a certificate for a limitation on appraised value of the property and provide the certificate to the governing body of the school district or provide the governing body a written explanation of the comptroller's decision not to issue a certificate, using the criteria set out in Section 313.026.

Determination required by 313.025(h)

Sec. 313.024(a)	Applicant is subject to tax imposed by Chapter 171.
Sec. 313.024(b)	Applicant is proposing to use the property for an eligible project.
Sec. 313.024(d)	Applicant has committed to create the required number of new qualifying jobs and pay all jobs created that are not qualifying jobs a wage that exceeds the county average weekly wage for all jobs in the county where the jobs are located.
Sec. 313.024(d-2)	Not applicable to Application #1030.

Based on the information provided by the applicant, the Comptroller has determined that the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C.

¹ All statutory references are to the Texas Tax Code, unless otherwise noted.

Certificate decision required by 313.025(d)

Determination required by 313.026(c)(1)

The Comptroller has determined that the project proposed by the applicant is reasonably likely to generate tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement before the 25th anniversary of the beginning of the limitation period. See Attachment B.

Determination required by 313.026(c)(2)

The Comptroller has determined that the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state. See Attachment C.

Based on these determinations, the Comptroller issues a certificate for a limitation on appraised value. This certificate is contingent on the school district's receipt and acceptance of the Texas Education Agency's determination per 313.025(b-1).

The Comptroller's review of the application assumes the accuracy and completeness of the statements in the application. If the application is approved by the school district, the applicant shall perform according to the provisions of the Texas Economic Development Act Agreement (Form 50-286) executed with the school district. The school district shall comply with and enforce the stipulations, provisions, terms, and conditions of the agreement, applicable Texas Administrative Code and Chapter 313, per TAC 9.1054(i)(3).

This certificate is no longer valid if the application is modified, the information presented in the application changes, or the limitation agreement does not conform to the application. Additionally, this certificate is contingent on the school district approving and executing the agreement within a year from the date of this letter.

Note that any building or improvement existing as of the application review start date of Dec. 2, 2014, or any tangible personal property placed in service prior to that date may not become "Qualified Property" as defined by 313.021(2) and the Texas Administrative Code.

Should you have any questions, please contact Robert Wood, Associate Deputy Comptroller, by email at robert.wood@cpa.texas.gov or by phone at 1-800-531-5441, ext. 3-3973, or direct in Austin at 512-463-3973.

Sincerely,

Mike Reissig
Deputy Comptroller

Enclosure

Attachment C – Limitation as a Determining Factor

Tax Code 313.026 states that the Comptroller may not issue a certificate for a limitation on appraised value under this chapter for property described in an application unless the comptroller determines that “the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state.” This represents the basis for the Comptroller's determination.

Methodology

Texas Administrative Code 9.1055(d) states the Comptroller shall review any information available to the Comptroller including:

- the application, including the responses to the questions in Section 8 (Limitation as a Determining Factor);
- public documents or statements by the applicant concerning business operations or site location issues or in which the applicant is a subject;
- statements by officials of the applicant, public documents or statements by governmental or industry officials concerning business operations or site location issues;
- existing investment and operations at or near the site or in the state that may impact the proposed project;
- announced real estate transactions, utility records, permit requests, industry publications or other sources that may provide information helpful in making the determination; and
- market information, raw materials or other production inputs, availability, existing facility locations, committed incentives, infrastructure issues, utility issues, location of buyers, nature of market, supply chains, other known sites under consideration.

Determination

The Comptroller **determines** that the limitation on appraised value is a determining factor in the Regency Field Services, LLC's decision to invest capital and construct the project in this state. This is based on information available, including information provided by the applicant. Specifically, the comptroller notes the following:

- In 2012, Southern Union Gas (SUG) was purchased by Energy Transfer Equity, a general partner with Regency Energy Partners. The following year (2013), the SUG assets were conveyed to Regency Energy Partners of which Regency Field Services, LLC is an affiliate.
- According to a company news release dated February 27, 2013, the applicant announced that it would acquire land, processing and treating facilities and 5,600 miles of gathering systems in West Texas and New Mexico from SUG. The application for this proposed new plant, which is to be located on the land purchased from SUG, was submitted to the school district in July 2014.
- This same news release also mentions a cryogenic processing facility, with the same stated capacity as the facility in the application, as already being in the planning stages. A specific location is not listed.
- The applicant indicated in Section 8 of the application that they provided capital investment or return on investment information for the proposed project in comparison with other investment opportunities. No such information was provided in the application.
- In Section 8 of the application, the applicant indicated that they provided information related to the applicant's inputs, transportation and markets for the proposed product. No such information was provided in the application.
- As part of the application, the applicant has stated that Hobbs, New Mexico and North Louisiana are also being considered for this project.

Summary of Financial Impact

**CHAPTER 313 PROPERTY VALUE LIMITATION
FINANCIAL IMPACT OF THE PROPOSED RGP WESTEX
G&P II LTD PROJECT IN THE PECOS-BARSTOW-TOYAH
INDEPENDENT SCHOOL DISTRICT
(PROJECT # 1030)**

PREPARED BY

MARCH 4, 2015

Executive Summary

RGP Westex G&P II LTD (Company) has requested that the Pecos-Barstow-Toyah Independent School District (P-B-TISD) consider granting a property value limitation under Chapter 313 of the Tax Code, also known as the Texas Economic Development Act. In an application submitted to P-B-TISD on July 17, 2014 the Company plans to invest \$175.1 million to construct a renewable energy electric generation facility. Moak, Casey & Associates (MCA) has been retained to prepare an analysis of this value limitation and help the district navigate the overall application and agreement process.

The Westex project is consistent with the state's goal to "encourage large scale capital investments in this state." When enacted as House Bill 1200 in 2001, Chapter 313 of the Tax Code granted eligibility to companies engaged in manufacturing, research and development, and renewable electric energy production to apply to school districts for property value limitations. Subsequent legislative changes expanded eligibility to clean coal projects, nuclear power generation and data centers, among others.

Under the provisions of Chapter 313, P-B-TISD may offer a minimum value limitation of \$25 million. This value limitation, under the proposed application, will begin in 2016-17 and remain at that level of taxable value for Maintenance and Operations (M&O) tax purposes for ten years. The entire project value will remain taxable for I&S or debt service purposes for the term of the agreement.

MCA's initial school finance analysis is detailed in this report. The overall conclusions are as follows, but please read all of the subsequent details in the report below for more information.

Total Revenue Loss Payment owed to P-B-TISD	\$719,040
Total Savings to Company after Revenue Loss Payment. (This does not include any supplemental benefit payments to the district.)	\$12,670,659

Application Process

After the school district has submitted an application to the Comptroller's Office (Comptroller), the Comptroller begins reviewing the application for completeness. The purpose of this review is to ensure all necessary information and attachments are included in the application before moving forward with the formal review process. At the time the application is determined complete—typically 4-6 weeks after receipt—the Comptroller will deliver a Completeness Letter to the company and the school district.

The issuance of a Completeness Letter is important because it sets the timeline for the rest of process. From the date of issuance, the Comptroller has 90 days to conduct its full review of the project and provide its certificate for a limitation on appraised value. After the certificate

is received, the district has until the 150th day from the receipt of the Completeness Letter or until December 31st, whichever is earlier, to adopt an agreement.

Each value limitation agreement is unique and to ensure the proper revenue-loss protection and maximum supplemental benefits are in place, an understanding of the school district's finances and a thorough knowledge of the Ch. 313 statute are required. MCA and O'Hanlon, McCollom & Demerath will ensure the best interests of P-B-TISD are secured. After the Comptroller's certificate is received, O'Hanlon, McCollom & Demerath will contact the school district to discuss the value limitation agreement and begin negotiations of the supplemental benefit payment with the Company. A final version of the agreement must be submitted to the Comptroller for review 30 days prior to final adoption by the school district's board of trustees.

At the final board meeting, the school board will review the Value Limitation Agreement and Findings of Fact that detail the project's conformance with state law. In some instances, the school board may also be required to adopt a job waiver or create a reinvestment zone during this meeting. Prior to this meeting, O'Hanlon, McCollom & Demerath will provide the district with the necessary agenda language and any additional action items.

How the 313 Agreement Interacts with Texas School Finance

M&O funding for Texas schools relies on two methods of finance: local school district property taxes and state aid. State aid consists of three components: Tier I, Tier II and additional state aid for tax reduction.

Tier I provides state funding based on ADA and special student populations, as well as transportation. The local funds for Tier I are M&O taxes raised at the compressed tax rate—\$1.00 per \$100 of taxable value for most school districts (less any recapture payments owed to the state from high property-wealth school districts).

Tier II guarantees a specific amount of funding per student in weighted average daily attendance for each penny of a school district's tax effort above a specified level. There are two levels of Tier II funding—funding under the six so-called golden pennies and the eleven so-called copper pennies. Voter approval is required in most cases to access the last two golden pennies and the eleven copper pennies.

Additional State Aid for Tax Reduction (ASATR) guarantees a school district a set amount of state and local M&O funds per student in weighted average daily attendance to compensate for the mandatory reduction in, or compression of, the local M&O tax rate that was adopted in 2005 or 2006. For more detailed information on the school finance funding system, please review the Texas Education Agency's [School Finance 101: Funding of Texas Public Schools](#). For the 2014-15 school year it is estimated that 230 school districts will receive ASATR hold-harmless funding (\$335 million in state funding). ASATR funding is expected to be eliminated by the 2017-18 school year under current law.

For a school district that approves a Chapter 313 value limitation, the first year is often problematic financially. The implementation of the value limitation often results in an M&O revenue loss to the school district in the first year of the limitation that would not be reimbursed by the state, but require some type of compensation from the Company under

the revenue protection provisions of the agreement. This is because the general school finance formula system calculates state aid entitlements using the property value for the preceding year as certified by the Comptroller.

School districts that receive ASATR funding may not require as large of a company revenue-loss payment as those districts that are considered to be on "formula". **As ASATR is reduced, more districts will be considered on "formula" and the revenue losses may be greater than anticipated in the initial revenue-loss estimates.**

P-B-TISD does not receive ASATR funding under current law. In most instances smaller revenue losses would be anticipated in years 2-10 of the limitation when the state M&O property values are aligned at the minimum value established by the Board on both the local tax roll and the corresponding state property value study. **If the full value of the project increases significantly during the value limitation period, the revenue losses may be greater than originally estimated.**

A taxpayer receiving a value limitation pays M&O taxes on the reduced value for the project in years 1-10 and receives a tax bill for I&S taxes based on the full project value throughout the qualifying and value limitation period (and thereafter).

Future legislative action on school funding could potentially affect the impact of the value limitation on the school district's finances and result in revenue-loss estimates that differ from the estimates presented in this report.

Underlying School District Data Assumptions

A key element in any analysis of the school finance implications of a Chapter 313 agreement is the provision for revenue protection in the agreement between the school district and the applicant. The agreement calls for a calculation of the revenue impact of the value limitation in years 1-10 of the agreement, under whatever school finance and property tax laws are in effect in each of those years. This meets the statutory requirement under Section 313.027(f)(1) of the Tax Code to provide school district revenue-protection language in the agreement. This approach also reduces guess work as to future changes in school finance and property tax laws.

Student enrollment counts are held constant at 2,391 students in average daily attendance (ADA) in analyzing the effects of the project on the finances of P-B-TISD. The District's local tax base reached \$4.2 billion for the 2014 tax year (the most recent year available) and is maintained for the forecast period in order to isolate the effects of the property value limitation. An M&O tax rate of \$1.0400 is used throughout this analysis. P-B-TISD has estimated 2014-15 state property wealth per weighted ADA or WADA of approximately \$686,901. As a result, P-B-TISD is considered a Chapter 41 or recapture district under the school finance system. Table 1 summarizes the enrollment and property value assumptions for the 15 years that are the subject of this analysis.

The M&O tax rate for 2026-27 is maintained at \$1.0400 per \$100. Although the impact of the Chapter 313 project value returning to the total tax roll for M&O funding purposes could result in a lower M&O tax rate that analysis is beyond the scope of this revenue report.

The general approach used here to analyze the future revenue stream of the school district under a value limitation is to maintain static enrollment and property values in order to isolate the effects of the value limitation under the school finance system. ASATR is continued under the current funding elements until the 2017-18 school year.

M&O Impact of the Westex project on P-B-TISD

School finance models were prepared for P-B-TISD under these assumptions through the 2030-31 school year. Under the proposed agreement, a model is established to make a calculation of the “Baseline Revenue Model” by adding the total value of the project to the model, but without assuming that a value limitation is approved. This is detailed in Table 2.

Additionally, a separate model is established to make a calculation of the “Value Limitation Revenue Model” by adding the project’s limited value of 2016-17 2016-17million to the model. These results are shown in Table 3.

Table 4 displays the results of the comparison between the Baseline Revenue Model and the Value Limitation Revenue Model (Tables 2 and 3). The difference between the two models indicates there will be a total revenue loss of \$719,040 over the course of the Agreement.

Nearly all of the reduction in M&O taxes under the limitation agreement is offset through a reduction in recapture costs owed to the state under current law.

M&O Impact on the Taxpayer

Table 5 summarizes the impact of the property value limitation in terms of the potential tax savings to the taxpayer under the property value limitation agreement. The focus of this table is on the M&O tax rate only. A \$1.0400 M&O tax rate is assumed in 2014-15 (the most recent year available) and thereafter.

Under the assumptions used here, the potential tax savings from the value limitation total \$13.4 million over the life of the agreement. The P-B-TISD revenue losses are expected to total approximately \$719,040 over the course of the agreement. In total, the potential net tax benefits (after hold-harmless payments are made) are estimated to total \$12,670,659 million. While legislative changes to ASATR funding could increase the hold-harmless amount owed in the initial limitation year under these estimates, there would still be a substantial tax benefit to the Company under the value limitation agreement for the remaining years that the limitation is in effect.

I&S Funding Impact on School District

The project remains fully taxable for debt services taxes, with P-B-TISD currently levying a \$0.0500 I&S rate. The value of the Westex project is expected to depreciate over the life of the agreement and beyond, but full access to the additional value is expected to increase the District's projected wealth per ADA to \$1,518,676 in the peak year of I&S taxable project value. Even with depreciation in project values in future years, local taxpayers should benefit from the addition of the Westex project to the local I&S tax roll.

The project is not expected to affect P-B-TISD in terms of enrollment. Continued expansion of the project and related development could result in additional employment in the area and an increase in the school-age population, but this project is unlikely to have much impact on a stand-alone basis.

Note: School district revenue-loss estimates are subject to change based on numerous factors, including:

- Legislative and Texas Education Agency administrative changes to the underlying school finance formulas used in these calculations.
- Legislative changes addressing property value appraisals and exemptions.
- Year-to-year appraisals of project values and district taxable values.
- Changes in school district tax rates and student enrollment.

"Original M&O Revenue" means the total State and local Maintenance & Operations Revenue that the District would have received for the school year under the Applicable School Finance Law had this Agreement not been entered into by the Parties and the Qualified Property and/or Qualified Investment been subject to the ad valorem maintenance & operations tax at the tax rate actually adopted by the District for the applicable year.
- ii. "New M&O Revenue" means the total State and local Maintenance & Operations Revenue that the District actually received for such school year, after all adjustments have been made to Maintenance and Operations Revenue because of any portion of this agreement.

- iv. All calculations made for years 2016 through 2025 of this Agreement under Section 4.2, Subsection *ii* of this Agreement will reflect the Tax Limitation Amount for such year.
- v. All calculations made under this Section 4.2 shall be made by a methodology which isolates the full M&O revenue impact caused by this Agreement. The Applicant shall not be responsible to reimburse the District for other revenue losses created by other agreements, or on account of or otherwise arising out of any other factors not contained in this Agreement.

Section 4.3. CUMULATIVE PAYMENT LIMITATION.

For each year of this Agreement, amounts due and owing by Applicant to the District which, by virtue of the application of payment limitation set forth in this Section are not payable to the District for a given year, shall be carried forward to future years, but shall be subject, in each subsequent year to the limit set forth in this Section.

Immediately upon receipt of the valuation information by the District, the District shall submit the valuation information to the Third Party selected under Section 4.5. The certified tax roll data shall form the basis of the calculation of any and all amounts due under this Agreement. All other data utilized by the Third Party to make the calculations contemplated by this Agreement shall be based upon the best available current estimates. The data utilized by the Third Party shall be adjusted from time to time by the Third Party to reflect actual amounts,

subsequent adjustments by the Appraisal District to the District's certified tax roll or any other changes in student counts, tax collections, or other data.

Section 4.7. DELIVERY OF CALCULATIONS.

On or before November 1 of each year for which this Agreement is effective, the Third Party appointed pursuant to Section 4.5 of this Agreement shall forward to the Parties the calculations required under Sections 4.2 and/or 4.4 of this Agreement in sufficient detail to allow the Parties to understand the manner in which the calculations were made. The Third Party shall simultaneously submit his, her or its invoice for fees for services rendered to the Parties, if any fees are being claimed. Upon reasonable prior notice, the employees and agents of the Applicant shall have access, at all reasonable times, to the Third Party's offices, personnel, books, records, and correspondence pertaining to the calculation and fee for the purpose of verification. The Third Party shall maintain supporting data consistent with generally accepted accounting practices, and the employees and agents of the Applicant shall have the right to reproduce and retain for purpose of audit, any of these documents. The Third Party shall preserve all documents pertaining to the calculation and fee for a period of four (4) years after the Final Termination date of this Agreement. The Applicant shall not be liable for any of Third Party's costs resulting from an audit of the Third Party's books, records, correspondence, or work papers pertaining to the calculations contemplated by this Agreement or the fee paid by the Applicant to the Third Party pursuant to Section 4.7, if such fee is timely paid.

Section 4.8. PAYMENT BY APPLICANT.

The Applicant shall pay any amount determined to be due and owing to the District under this Agreement on or before the January 31 of the year next following the tax levy for each year for which this Agreement is effective. By such date, the Applicant shall also pay any amount billed by the Third Party for all calculations under this Agreement under Section 4.7, above, plus any reasonable and necessary legal expenses paid by the District to its attorneys, auditors, or financial consultants for the preparation and filing of any financial reports, reports required by any state agency, disclosures, other reimbursement applications filed with or sent to the State of Texas which are, or may be required under the terms or because of the execution of this Agreement. In no year shall the Applicant be responsible for the payment of any total expenses under this Section and Section 4.7, above, in excess of Twelve Thousand Dollars (\$12,000.00).

Section 4.9. RESOLUTION OF DISPUTES.

Should the Applicant disagree with the Third Party calculations made pursuant to Sections 4.7 of this Agreement, the Applicant may appeal the findings, in writing, to the Third Party within thirty (30) days of receipt of the calculation. Within thirty (30) days of receipt of the Applicant's appeal, the Third Party will issue, in writing, a final determination of the calculations. Thereafter, the Applicant may appeal the final determination of the certification containing the calculations to the District's Board of Trustees. Any appeal by the Applicant of the final determination of the Third Party may be made, in writing, to the District's Board of Trustees within thirty (30) days of the final determination of the calculations.

Section 4.10. EFFECT OF PROPERTY VALUE APPEAL OR OTHER ADJUSTMENT.

In the event that, at the time the Third Party selected under Section 4.5 makes its calculations under this Agreement, the Applicant has appealed the taxable values placed by the Appraisal District on the Qualified Property, and the appeal of the appraised values are unresolved, the Third Party shall base its calculations upon the values initially placed upon the Qualified Property by the Appraisal District.

In the event that the result of an appraisal appeal or for any other reason, the Taxable Value of the Applicant's Qualified Investment and/or the Applicant's Qualified Property is changed, once the determination of a new value becomes final, the Parties shall immediately notify the Third Party who shall immediately issue new calculations for the applicable year or years. In the event the new calculations result in the change of any amount payable by the Applicant under this Agreement, the party from whom the adjustment is payable shall remit such amounts to the counter-party within thirty (30) days of the receipt of the new calculations from the Third Party.

Section 4.11. EFFECT OF STATUTORY CHANGES.

B. If the Board of Trustees is not satisfied with such response and/or that such breach has been cured, then the Board of Trustees shall, after reasonable notice to Applicant, conduct a hearing called and held for the purpose of determining whether such breach has occurred and, if so, whether such breach has been cured. At any such hearing, Applicant shall have the opportunity, together with their counsel, to be heard before the Board of Trustees. At the hearing, the Board of Trustees shall make findings as to whether or not a material breach of this Agreement has occurred, the date such breach occurred, if any, and whether or not any such breach has been cured. In the event that the Board of Trustees determines that such a breach has occurred and has not been cured, it shall also terminate the Agreement and determine the amount of recaptured taxes under Section 9.2.A and B (net of all credits under Section 9.2.A and B), and the amount of any penalty and/or interest under Section 9.2.C that are owed to District.

good faith effort to resolve, without resort to litigation and within ninety (90) days after the Applicant's receipt of notice of the Board of Trustee's determination of breach under Section 9.3, such dispute through mediation with a mutually agreeable mediator and at a mutually convenient time and place for the mediation. In the event that District successfully prosecutes legal proceedings under this section, the Applicant shall also be responsible for the payment of attorney's fees and a tax lien on Applicant's Qualified Property and Applicant's Qualified Investment pursuant to Section 33.07 of the Texas Tax Code to the attorneys representing District pursuant to Section 6.30 of the Texas Tax Code.

C. In any event where a dispute between District and Applicant under this Agreement cannot be resolved by the Parties, after completing the procedures required above in this Section, either District or Applicant may seek a judicial declaration of their respective rights and duties under this Agreement or otherwise, in any judicial proceeding, assert any rights or defenses, or seek any remedy in law or in equity, against the other Party with respect to any claim relating to any breach, default, or nonperformance of any covenant, agreement or undertaking made by a Party pursuant to this Agreement.

Section 9.5. LIMITATION OF OTHER DAMAGES.

Notwithstanding anything contained in this Agreement to the contrary, in the event of default or breach of this Agreement by the Applicant, District's damages for such a default shall under no circumstances exceed the greater of either any amounts calculated under Sections 9.2 above, or the monetary sum of the difference between the payments and credits due and owing to Applicant at the time of such default and District taxes that would have been lawfully payable to District had this Agreement not been executed. In addition, District's sole right of equitable relief under this Agreement shall be its right to terminate this Agreement. The Parties further agree that the limitation of damages and remedies set forth in this Section 9.5 shall be the sole and exclusive remedies available to the District, whether at law or under principles of equity.

Section 9.6. BINDING ON SUCCESSORS.

In the event of a merger or consolidation of District with another school district or other governmental authority, this Agreement shall be binding on the successor school district or other governmental authority.
