Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

Economic Development
and Analysis
Form 50-296-A

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at www.texasahead.org/tax_programs/chapter313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Detailed Description of the Project

Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

****CONFIDENTIAL****

TAB 5

Documentation to assist in determining if limitation is a determining factor.

Horse Creek Wind, LLC ("Horse Creek") is a Delaware limited liability company. Horse Creek has one member with 100% ownership, Lincoln Clean Energy, LLC ("LCE"). LCE has successfully developed projects involving almost \$1 billion in capital investment in some of the largest electricity markets in the United States (including Texas, California and New Jersey).

Horse Creek has entered into a number of contracts related to the project, including long-term lease option agreements with area landowners, a limited-notice-to-proceed contract with a construction contractor, and environmental consultants to assess the suitability of the site, and a request for studies leading to an interconnection agreement with the transmission provider.

In order for the project to qualify for the federal income tax Production Tax Credit (PTC), the Applicant was required to complete a minimum amount of PTC qualification work before the statutorily imposed deadline of December 31, 2014. In order to complete this minimum amount of PTC qualification work, the Applicant received a TPDES General Permit TXR150014869 and completed the amount of PTC qualification work required for the project to qualify for the federal income tax PTC, which expired on December 31, 2014 and has not been renewed at the time this application was submitted. The amount of PTC qualification work completed prior to December 31, 2014, constitutes less than 0.04% of total estimated investment for the project. This work was done in the Munday CISD portion of the project area. The Applicant's completion of this minor amount of PTC qualification work does not legally or financially commit it to constructing the project.

The Applicant is a national wind developer with the ability to locate projects of this type in other states within the United States and other regions within Texas with favorable wind characteristics. The Applicant is actively assessing and developing other projects that are competing for limited investment funds. This appraised value limitation is critical to the ability of the Project to move forward as currently sited.

Description of Qualified Investment

Horse Creek Wind, LLC plans to construct a 200 MW wind farm in Haskell and Knox Counties.

This application covers all qualified property within Haskell CISD necessary for the commercial operations of the proposed wind farm described in Tab 4. Approximately fifty-three (53) will be located in Haskell CISD. For purposes of this application, the Project anticipates using 2.0 MW turbines manufactured by GE. Horse Creek is also constructing approximately 3 miles of generation transmission tie line that will be in Haskell CISD.

This application covers all qualified investment and qualified property necessary for the commercial operations of the wind farm.

Qualified Investment and qualified property includes, but is not limited to, turbines, towers, foundations, transformers, pad mounts, underground collection systems, electric substation, transmission lines, electrical interconnections, met towers, roads, spare parts, and control systems necessary for commercial generation of electricity.

The map in TAB 11 shows the proposed project area with the preliminary turbine locations. The exact placement of these turbines is subject to ongoing planning, soil studies, and engineering and will be determined before construction begins.

Request for Waiver of Job Creation Requirement and supporting information (if applicable)

See Attached

March 23, 2015

Superintendent Bill Alcorn
Haskell Consolidated Independent School District
605 N. Avenue E
Haskell, TX 79521

Re: Chapter 313 Job Waiver Request

Dear Superintendent Alcorn,

Please consider this letter to be Horse Creek Wind, LLC's formal request to waive the minimum new job creation requirement, as provided under Texas Tax Code 313.025(f-1).

The governing body of a school district may waive the new jobs creation requirement in Section 313.021(2)(A)(iv)(b) or 313.051(b) and approve an application if the governing body makes a finding that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property that is described in this application. Wind energy projects create a large number of full-time jobs during the construction phase, but these jobs are temporary by nature. Once the project is in operation, a small crew of full-time employees will maintain and operate the facility. Based upon our experience in the wind industry, we expect that seven (7) employees would be needed to operate a 200 MW facility, and we can commit to creating four (4) full-time positions to fill those needs from Haskell CISD. All four would be qualifying jobs as described in Section 313.021(3) of the Texas Tax Code.

The applicant requests that the Haskell CISD's Board of Trustees make such a finding and waive the job creation requirement. This waiver request is in line with industry standards for the job requirements for a wind energy facility of this size, as evidenced by limitation agreement applications that have been filed by other wind energy developers, and by documentation related to the development and operation of solar generation facilities.

The project stands to provide significant benefits to the community with respect to increased tax base and the ongoing royalty payments it will make to local landowners.

Kind Regards,
