AUGUST 23, 2016

STATE OF TEXAS §
COUNTY OF JEFFERSON §

On December 15, 2015, the Superintendent of the District, acting as agent of the Board of Managers, and the Texas Comptroller of Public Accounts (“Comptroller”) received an Application from Applicant for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code. A copy of the Application is attached as **Attachment A**.

The Board of Managers acknowledged receipt of the Application, along with the requisite application fee, established pursuant to Texas Tax Code § 313.025(a)(1) and Local District Policy.

The Application was delivered to the Comptroller for review pursuant to Texas Tax Code § 313.025(d). A copy of the Application was delivered to the Jefferson Central Appraisal District for review pursuant to 34 Tex. Admin. Code § 9.1054. On March 10, 2016, the Comptroller determined the Application to be complete.

The Application was reviewed by the Comptroller pursuant to Texas Tax Code §313.026, and a Comptroller Certificate was issued on June 8, 2016 in which the Comptroller has determined, inter alia, that: 1) Application is subject to the provisions of Chapter 171, Texas Tax Code; 2) the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised values; 3) the proposed project is reasonably likely to generate tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement before the 25th anniversary of the beginning of the limitation period; and, 4) the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state. A copy of the Certificate is attached to the findings as **Attachment C**.

The Board of Managers has previously directed that a specific financial analysis be conducted concerning the impact of the proposed value limitation on the finances of District. A copy of the report prepared by Moak, Casey & Associates, Inc. is attached to these findings as **Attachment D**.

The Board of Managers has confirmed that the taxable value of property in the District for the preceding tax year, as determined under Subchapter M, Chapter 403, Government Code, is as stated in **Attachment E**.

The Texas Education Agency has evaluated the impact of the project on the District's facilities. TEA's determination is attached to these findings as **Attachment F**.

The Board has adopted the Texas Economic Development Agreement (Form 50-826) as promulgated by the Comptroller's Office. Form 50-826 has been altered only in accordance only the provisions of the template that the Comptroller permitted. The proposed Agreement is attached to these findings as **Attachment G**.

After review of the Comptroller's Certificate and economic analysis, and in consideration of its own studies the Board finds:

Board Finding Number 1.

The Board finds that the property described in the Application meets the requirements of Tex. Tax Code §313.024 for eligibility for a limitation on appraised value.

In support of Finding 1, the Application indicates that:

ExxonMobil Oil Corporation ("ExxonMobil" or the "Applicant") proposes to construct a new SCANfining (Selective Cat Naphtha hydrofining) processing unit facility in Jefferson County, Texas, on unimproved land within the Applicant's existing Beaumont, Texas, Refinery Complex (the "Project"). The proposed Project facility would employ a hydroprocessing technology utilizing a proprietary catalyst to produce high-quality, ultra-low sulfur fuels.

Property used for manufacturing is eligible for a limitation under §313.024(b)(1).

Board Finding Number 2.

The project proposed by the applicant is reasonably likely to generate, before the 25th anniversary of the beginning of the limitation period, tax revenue, including state tax revenue, school district maintenance and operations ad valorem tax revenue attributable to the project, and any other tax revenue attributable to the effect of the project on the economy of the state, in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement.

In support of Finding 2, the Comptroller's Economic Impact Evaluation and Certification, Attachment C, states:

This represents the Comptroller's determination that EXXONMOBIL OIL CORPORATION (project) is reasonably likely to generate, before the 25th anniversary of the beginning of the limitation period, tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement. This evaluation is based on an analysis of the estimated M&O portion of the school district property tax levy directly related to this project, using estimated taxable values provided in the application.

Disclaimer: This examination is based on information from the application submitted to the school district and forwarded to the comptroller. It is intended to meet the statutory requirement of Chapter 313 of the Tax Code and is not intended for any other purpose.

Board Finding Number 3.

The limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state.

The Comptroller has **determined** that the limitation on appraised value is a determining factor in ExxonMobil Oil Corporation's decision to invest capital and construct the project in this state. This is based on information available, including information provided by the applicant. Specifically, the Comptroller notes the following:

- As stated in the original Tab 5 of the application, ExxonMobil Corporation "operates in more than 200 countries" and "has the ability to invest, locate and develop new projects, such as the one that is the subject of this application, in numerous locations throughout the world."
- Specific to North America, the applicant, in Tab 5 of the application, states that "the proposed new facility could be constructed at any of our North American-based refining locations in our continued efforts to produce high-quality, ultra-low sulfur fuels to meet the world's growing demand for such quality products. The alternative North American refining sites are located in Baton Rouge (LA), Joliet (IL), Billings (MT), Sarnia, Ontario (Canada), and Edmonton, Alberta (Canada)."
- Per the applicant in amended Tab 5 materials submitted June 6, 2016: "The projected property tax liabilities for the proposed project without a Chapter 313 appraised value limitation lower the economic rate of return and detract from the financial attractiveness of the project making it less competitive with other capital intensive projects that deliver higher rates of return on invested capital. Accordingly, securing a Chapter 313 appraised value limitation is critical to establishing a rate of return competitive with other investment opportunities and, therefore, is an important factor affecting ExxonMobil's final investment decision to construct and operate the proposed project in Texas." The applicant also provided a table comparing school district ad valorem taxes with--and without--the Chapter 313 limitation (see amended Tab 5 attachment below).

- A *Bloomberg BNA* article dated March 3, 2014, indicates that implementation of the EPA Tier 3 rule will begin in 2017 and will “require refiners to reduce the annual average amount of sulfur in gasoline to 10 parts per million”.
- The applicant provided in their March 4, 2016 letter (attached) the responses below to questions from Chapter 313 program staff:

Comptroller staff question: “Please provide more detail regarding the proposed output capacity, interconnections with adjacent facilities, the final product produced, and feedstock sources.” [via email]

Applicant response in March 4 letter (excerpt):

Interconnections with Adjacent Facilities:

On the input side, the proposed SCANFiner processing unit facility would be interconnected with an existing fluid catalytic cracker unit/naphtha splitting unit which produces naphtha and splits the naphtha into light, intermediate and heavy grades according to process needs.

On the output side, the proposed SCANFiner processing unit facility would be interconnected with an existing catalytic hydro desulfurization unit which would allow the Scanfinite produced by the proposed SCANFiner processing unit facility to be further processed into motor gasoline (“mogas”) blendstock or ULSD, depending upon economics.

Comptroller staff question: “Is ExxonMobil required to construct the proposed SCANFiner processing unit facility project in order to satisfy the Environmental Protection Agency (“EPA”) Tier 3 gasoline sulfur content rule?” [phone conversation]

Applicant response in March 4 letter (excerpt):

ExxonMobil is not required to construct the proposed SCANFiner processing unit facility project in order to satisfy the EPA Tier 3 gasoline sulfur content rule.

ExxonMobil has several options for meeting the EPA Tier 3 gasoline sulfur content rule at the Beaumont Refinery without constructing the proposed SCANFiner processing unit facility project. These options include augmenting and revamping existing units to:

- increase pretreatment severity in the existing fluid catalytic cracker unit ("FCC"),*
- expand FCC pretreatment,*
- use gasoline sulfur reduction additives in FCC,*
- increase FCC gasoline post-treatment severity in existing units,*
- expand FCC post-treatment, or*
- a combination of two or more of the above.*

ExxonMobil could satisfy the EPA Tier 3 gasoline sulfur content rule without constructing the proposed SCANFiner processing unit facility project.

In addition, as an alternative to the above options, ExxonMobil could make no changes at the Beaumont Refinery to meet the EPA Tier 3 gasoline sulfur content rule, and could instead ship gasoline produced at the Beaumont Refinery to other refineries for further processing to a gasoline product that satisfies the EPA Tier 3 gasoline sulfur content rule.

Moreover, and separate and apart from the EPA Tier 3 gasoline sulfur content rule, the proposed SCANFiner processing unit facility project would enhance capacity and margins, enable the production of an additional 20 thousand barrels per day of ultra- low-sulfur diesel production, and optimize barrel placements and dispositions within the Beaumont Refinery to maximize the value of the Beaumont Refinery's product slate.

Board Finding Number 4.

The Board finds that the Application Fee received was reasonable and only in such an amount as was necessary to cover the District's costs of processing the Application under consideration.

In support of Finding 4, the Board reviewed the Application Fee payment included in the Application at Attachment A, the contract with the District's consultants and the internal costs for processing the application, if any.

Board Finding Number 5.

Based upon the Application and in the Comptroller's Economic Impact Evaluation and Certification, Attachment B, the Board finds that that the number of jobs to be created and the wages to be paid comply with the requirements of statute; and, the Board further finds that the Chapter 313 Tax Limitation Agreement (Attachment G) contains all required provisions and information related to job creation requirements, to wit: the provisions set forth in Subsections 9.1C&D of such Agreement.

In its Application, Applicant has committed to creating five (5) new qualifying jobs. The average salary level of qualifying jobs will be at least \$66,829.40 per year. The review of the application by the Comptroller's indicated that this amount—based on Texas Workforce Commission data—complies with current Tex. Tax Code §313.021(3) requirement that qualifying jobs must pay 110 percent of the county average manufacturing wage. As defined in Section 313.021 of the Tax Code, "Qualifying Job" means a permanent full-time job that:

- (A) requires at least 1,600 hours of work a year;
- (B) is not transferred from one area in this state to another area in this state;
- (C) is not created to replace a previous employee;
- (D) is covered by a group health benefit plan for which the business offers to pay at least 80 percent of the premiums or other charges assessed for employee-only coverage under the plan, regardless of whether an employee may voluntarily waive the coverage; and
- (E) pays at least 110 percent of the county average weekly wage for manufacturing jobs in the county where the job is located.

Board Finding Number 6.

Based upon the information provided to the District with regard to the industry standard for staffing ratios of similar projects in the State of Texas, the District has determined that if the job creation requirement set forth in Texas Tax Code § 313.021(2)(A)(iv)(b) was applied, for the size and scope of the project described in the Application, the required number of jobs meets or exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility.

Board Finding Number 7.

The Applicant intends to create no non-qualifying jobs.

In its Application, Applicant has indicated that it does not intend to create any non-qualifying jobs. But, for any non-qualifying job which the Applicant may create, the Applicant will be required to pay at least the county average wage for all jobs in the county in accordance with the provisions of Tex. Tax Code §313.024(d).

Board Finding Number 8.

The revenue gains that will be realized by the school district if the Application is approved will be significant in the long-term, with special reference to revenues used for supporting school district debt.

In support of this finding, the analysis prepared by Moak, Casey & Associates projects that the project would initially add \$232 million to the tax base for debt service purposes at the peak investment level for the 2019-20 school year. The project remains fully taxable for debt services taxes, with the District currently levying a \$0.2750 per \$100 I&S rate. While the value of the Project is expected to depreciate over the life of the agreement and beyond, full access to the additional value is expected to increase the District's projected I&S taxable value well above the level available through the state's facility programs. As a result, local taxpayers should benefit from the addition of the Project to the local I&S tax roll.

Board Finding Number 9.

The effect of the applicant's proposal, if approved, on the number or size of needed school district instructional facilities is not expected to increase the District's facility needs, with current trends suggest little underlying enrollment growth based on the impact of the project.

The summary of financial impact prepared by Moak, Casey & Associates, Inc., indicates that there will be little to no impact on school facilities created by the new project. This finding is confirmed by the TEA evaluation of this project's impact on the number and size of school facilities in the District as stated in **Attachment F**.

Board Finding Number 10.

The Board finds that with the adoption of District Policy CCG (Local), implemented in conformance with both Comptroller and Texas Education Agency Rules governing Chapter 313 Agreements, it has developed a process to verify, either directly or through its consultants, the accuracy and completeness of information in annual eligibility reports and biennial progress reports regarding (1) the reported number of jobs created and (2) the reported amount invested in the property.

Board Finding Number 11.

The Board of Managers hired consultants to review and verify the information in the Application. Based upon the consultants' review, the Board has determined that the information provided by the Applicant is true and correct.

The Board has developed a written policy CCG (Local) which requires, upon the filing of an Application under Tax Code Chapter 313, the retention of consultants in order to verify: (1) that Applicant's information contained in the Application as to existing facts is true and correct; (2) that Applicant's information contained in the Application with respect to projections of future events are commercially reasonable and within the ability of Applicant to execute; (3) that information related to job creation is commercially reasonable and within the ability of Applicant to execute; (4) that Applicant's representations concerning and economic incentives being offered, if any, and (5) the proposed project meets eligibility requirements.

As a part of its verification process the Board notes that the Chapter 313 Application for which these Findings are being made has been submitted by Applicant under oath. Chapter 313 Applications are governmental records under Tex. Penal Code §37.01(2)(A); as a result, all statements contained therein are representations of fact within the meaning of Tex. Penal Code § 37.01(3). Since Board action upon the adoption of these Findings and the approval of the Chapter 313 Tax Limitation Agreement (**Attachment G**) is an "official proceeding," a false statement on a Chapter 313 application constitutes perjury under Tex. Penal Code § 37.03.

The Board finds that sworn statements are routinely used as an acceptable verification method for reliance by fact finders in each of the three separate branches of government, including trials.

The consultants have prepared signed statements that the consultants have reviewed and verified the contents of the Application and have determined that the current statements of fact contained in the Application are true and correct. (**Attachment H**) The Board finds that reliance by the Board and its consultants upon verified statements of the Applicant, especially as to Applicant's future intentions which cannot be objectively verified is reasonable and within the intent of Chapter 313, Texas Tax Code.

Board Finding Number 12.

The Board of Managers has determined that the Tax Limitation Amount requested by Applicant is currently Thirty Million Dollars, which is consistent with the minimum values currently set out by Tax Code, § 313.054(a).

The Board finds that the Chapter 313 Tax Limitation Agreement (**Attachment G**), in accordance with Comptroller's Form 50-826, contains all required provisions and information related to the required investment amount, to wit: the amount set forth in Section 2.5 of said Agreement. According to the Texas Comptroller of Public Accounts' School and Appraisal Districts' Property Value Study 2014 Final Findings made under Subchapter M, Chapter 403, Government Code for the preceding tax year, Attachment F.

The total industrial value for the District is \$3.881 billion. The District is categorized as Subchapter C, which applies only to a school district that has territory in a strategic investment area, as defined under Subchapter O, Chapter 171, Tax Code or in a county: (1) that has a population of less than 50,000 and (2) in which, from 1990 to 2000, according to the federal decennial census, the population: (A) remained the same; (B) decreased; or (C) increased, but at a rate of not more than three percent per annum. The District is classified as a "rural" district due to its placement in a strategic investment area. Given that the value of industrial property is more than \$200 million, it is classified as a Category I district which can offer a minimum value limitation of \$30 million.

Board Finding Number 13.

The Board finds that the Chapter 313 Tax Limitation Agreement (Attachment G) contains all necessary provisions and information related to establishing the required investment amount, to wit: the amount set forth in Section 2.5 of said Agreement.

The Board relies on the certifications of its consultants and the Comptroller's Approval of the Agreement form to make this Finding. (Attachment I)

Board Finding Number 14.

The Applicant (Taxpayer No. 11354015700) is eligible for the limitation on appraised value of qualified property as an active franchise-tax paying entity.

The Applicant, (Texas Taxpayer No. 11354015700), is an entity subject to Chapter 171, Texas Tax Code, and is certified to be an active franchise tax payer by the Comptroller. See Attachment B. The Board also finds that the Chapter 313 Tax Limitation Agreement (Attachment G) contains all required provisions necessary for the Board to assess eligibility of any business to which an agreement is transferred.

Board Finding Number 15.

The project will be located within an area that is currently designated as a reinvestment zone, pursuant to Chapter 312 of the Texas Tax Code.

Board Finding Number 16.

The Agreement for an Appraised Value Limitation on Qualified Property, pursuant to Chapter 313 of the Texas Tax Code, attached hereto as Attachment G, includes adequate and appropriate revenue protection provisions for the District, and such provisions comply with the specific terms of Texas Tax Code, Chapter 313.

In support of this finding, the report of Moak, Casey & Associates, Inc. shows that the District will incur a revenue loss in the first year that the value limitation is in effect without the proposed Agreement. However, with this Agreement, the negative consequences of granting the value limitation are offset through the revenue protection provisions agreed to by the Applicant and the District. The Agreement contains adequate revenue protection measures for the duration of the Agreement. In support of this Finding, the Board relies upon the recommendation of its consultants. (Attachment H)

Board Finding Number 17.

The Board finds that the Chapter 313 Tax Limitation Agreement (Attachment G) contains all required provisions necessary for the Board to assess performance standards and to require periodic deliverables that will enable it to hold businesses accountable for achieving desired results, to wit: the reporting requirements set forth in Article VIII of said Agreement.

Board Finding Number 18.

The Board finds that there are no conflicts of interest at the time of considering the agreement.

The Board finds that with the adoption of District Policies BBFA and BBFB, both (Legal) and (Local), set forth at <http://pol.tasb.org/Home/Index/725>, that it has taken appropriate action to ensure that all District Managers and the Superintendent, have disclosed any potential conflicts of interest, and that such disclosures will be made if any conflict of interest arises in the future, in compliance with the requirements of Texas Local Gov't Code §171.004.

In addition, at the public hearing, the Board caused the statement set forth in **Attachment J** to be read into the public record and that only Board members audibly responding that

no conflict of interest existed either deliberated or voted on the Tax Limitation Agreement, these Findings or any matter relating to the Application upon which these Findings have been premised.

The Board finds that with the adoption of District Policies DBD, DGA, DH, and BBFB, both (Legal) and (Local) that it has taken appropriate action to ensure that all District employees and/or consultants, have disclosed any potential conflicts of interest, and that such disclosures will be made if any conflict of interest arises in the future, in compliance with the requirements of Texas Local Gov't Code §171.004.

The Board finds that that no non-disclosed conflicts of interest exist as to the Application for which these Findings are being made, as of the time of action on these Findings.

Board Finding Number 19.

The Board directs that a link on its Web site to the Comptroller's Office's Web site where appraisal limitation related documents are made available to the public.

Board Finding Number 20.

Considering the purpose and effect of the law and the terms of the Agreement, that it is in the best interest of the District and the State to enter into the attached Agreement for Limitation on Appraised Value of Property for School District Maintenance and Operations Taxes.

It is therefore ORDERED that the Agreement attached hereto as **Attachment G** is approved and hereby authorized to be executed and delivered by and on behalf of the District. It is further ORDERED that these findings and the Attachments referred to herein be attached to the Official Minutes of this meeting, and maintained in the permanent records of the Board of Managers of the District.

Dated the 23rd day of August 2016.

Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

Detailed Description of Proposed Project

In Tab 4, attach a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

ExxonMobil Oil Corporation ("ExxonMobil" or the "Applicant") proposes to construct a new SCANfining (Selective Cat Naphtha hydrofining) processing unit facility in Jefferson County, Texas, on unimproved land within the Applicant's existing Beaumont, Texas, Refinery Complex (the "Project"). The proposed Project facility would employ a hydroprocessing technology utilizing a proprietary catalyst to produce high-quality, ultra-low sulfur fuels.

The proposed improvements for which the tax limitation is sought will include all process facilities, infrastructure and auxiliary equipment, including but not limited to, recycle compressors, reactors, 2-stage furnaces, cooling towers, tower heat exchangers, drums, scrubbers, pumps, analyzers, stabilizer tower, instrumentation and control, fractionation units, utilities service upgrades, on-site piping and tie-ins, flare system, building, and condensers and any other infrastructure additions related to the processing unit facility.

The Applicant currently estimates that construction of the Project would commence in the third quarter of 2016 and would take approximately one and a half years to complete, with commercial operations currently estimated to begin in the first quarter of 2018.

TAB 5

Documentation that the Limitation on Appraised Value is a Determining Factor in the Decision to Invest Capital and Construct the Project in Texas

Chapter 313.026(e) states "the applicant may submit information to the Comptroller that would provide a basis for an affirmative determination under Subsection (c)(2)." If you answered "yes" to any of the questions in Section 8, attach supporting information in Tab 5.

The Applicant is a wholly-owned subsidiary of Exxon Mobil Corporation, one of the largest integrated international oil and gas companies in the world with operations in more than 200 countries. As such, the Applicant competes with other members of the Exxon Mobil Corporation group for approval of a portion of the group's capital investment budget to fund the capital investment necessary to construct the Project. Moreover, the Exxon Mobil Corporation group has the ability to invest, locate and develop new projects, such as the one that is the subject of this application, in numerous locations throughout the world.

The Applicant owns and operates the Beaumont Refinery Complex where the Project would be sited on unimproved land if the Beaumont Refinery Complex location were chosen as the site for the Project.

ExxonMobil takes a disciplined, long-term approach to investing, regardless of the economic cycle and the geographic location. We consistently seek new global investment opportunities that create value for our shareholders. Our business model is to conduct an extensive evaluation before we make any final investment decision. A project team is evaluating these opportunities with a focus on global logistic capabilities, efficiency, scale and site integration. The proposed new facility could be constructed at any of our North American-based refining locations in our continued efforts to produce high-quality, ultra-low sulfur fuels to meet the world's growing demand for such quality products. The alternative North American refining sites are located in Baton Rouge (LA), Joliet (IL), Billings, (MT), Sarnia, Ontario (Canada), and Edmonton, Alberta (Canada).

Competitive abatement programs for the proposed new facility exist in alternative locations. The impact of the property tax burden on the economic return of the proposed new facility is a critical factor in the Applicant's site selection evaluation and decision, as well as in obtaining approval for the Project internally within the Exxon Mobil Corporation group. For the tax year 2015, Beaumont ISD's maintenance and operations (M&O) tax rate represents over 50% of the total property tax burden imposed on taxable property located at the Beaumont location. Consequently, a limitation on appraised value under Chapter 313 of the Texas Tax Code is a determining factor in the Applicant's decision to invest capital and construct the Project in the State of Texas.

**ExxonMobil Oil Corporation

December 10, 2015

Dr. John W. Frossard
Superintendent
Beaumont Independent School District
3395 Harrison Avenue
Beaumont, Texas 77706

Re: Chapter 313 Job Waiver Request

Dear Dr. Frossard:

ExxonMobil Oil Corporation ("ExxonMobil") respectfully requests that the Beaumont Independent School District's Board of Managers waive the minimum new job requirement provision as allowed by Section 313.025(f-1) of the Texas Tax Code. This waiver would be based on the school district's Board of Managers findings that the minimum new jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application.

ExxonMobil requests that the Beaumont Independent School District make such findings and waive the job creation requirement for 10 new permanent jobs. The processing unit facility project creates a large number of full and part-time, although temporary, jobs during the construction phase of the project, but require a relatively small number of highly skilled technicians to operate and maintain the project after commercial operation commences.

ExxonMobil and its affiliates operate 37 refineries in 21 countries and is the largest refiner in the world. As a leading global refiner, ExxonMobil has determined that locating the processing unit facility at ExxonMobil's Beaumont, Texas, Refinery Complex will require the creation of five new jobs. The number of jobs specified in this application is in line with the industry standards for a processing unit facility of this type, scope and size. Accordingly, in line with industry standards for job requirements, ExxonMobil has committed to create 5 total new permanent jobs for the project, all of which will be in Beaumont ISD.

Sincerely,

Darren D. Owen
Property Tax Division Manager

Re: Chapter 313 Applicant: ExxonMobil Oil Corporation ("ExxonMobil")
Beaumont Independent School District Chapter 313 Application No. 1118 (the "Application")

Dear Ms. Caufield:

We are writing in response to the requests for additional information contained in your e-mail of January 27, 2016, and an additional question from Gary Price.

1. **Tab 13. Qualifying Job Waiver.** Please provide more detail regarding the industry standard cited in the waiver request letter.

ExxonMobil has determined that five (5) new permanent jobs are required to operate and sustain the proposed SCANFiner processing unit facility and that this number of new jobs is within the industry standard range of required new positions necessary for the operation of the facility.

ExxonMobil and its affiliates operate 37 refineries in 21 countries and is the largest refiner in the world. The proposed SCANFiner processing unit facility project utilizes a proprietary process that ExxonMobil owns. In the United States, ExxonMobil currently has SCANFiner processing unit facilities at its Baton Rouge, Louisiana, and Baytown, Texas, refineries that utilize this proprietary process, while its Beaumont, Texas, Joliet, Illinois, and Billings, Montana, refineries do not have such facilities. In addition, ExxonMobil has licensed the technology to third parties for SCANFiner processing units.

No two refineries are the same, and the number of new qualifying jobs for sustainment staffing of a SCANFiner processing unit facility is very site specific and depends heavily on the configuration of the refinery, current staffing levels, efficiencies available, and other factors.

ExxonMobil conferred with its global resourcing subject matter expert on the level of sustainment staffing required for a SCANFiner processing unit facility. The expert confirmed that there is not one fixed number that is an industry standard. Rather, the industry standard is a range, and the staffing requirements for a particular SCANFiner processing unit facility are heavily dependent on the site specifics (such as refinery configuration), current staffing levels, efficiencies available, and other factors. Accordingly, looking at SCANFiner processing unit facilities constructed at various locations around the world would yield a range of required new positions.

ExxonMobil reviewed the data for the existing SCANFiner processing unit facility at ExxonMobil's Baton Rouge, Louisiana, refinery (the "Baton Rouge Refinery"), which has a capacity of 45 thousand barrels per day ("kbd"), and determined that when the unit began operation, seven (7) new process positions were required after taking into account the configuration of the refinery, current staffing levels, efficiencies available, and other factors.

ExxonMobil also reviewed the data for the existing SCANFiner processing unit facility at ExxonMobil's Baytown, Texas, refinery (the "Baytown Refinery"), which was constructed in 2003 and has a capacity of 80 kbd, and determined that when the unit began operation, five (5) new process positions were required after taking into account the configuration of the refinery, current staffing levels, efficiencies available, and other factors. No data was found concerning any new hires for the mechanical and engineering functions, although it is at least possible that one new hire occurred for one or both of these functions. Thus, ExxonMobil concluded that five (5) new positions and possibly as many as seven (7) new positions were required for the Baytown Refinery SCANFiner processing unit facility – a range of 5 to 7. We note that the SCANFiner processing unit facility at the Baytown Refinery has a capacity that is 1.73 times that of the proposed facility at the Beaumont Refinery.

Looking at just the Baton Rouge Refinery and Baytown Refinery SCANFiner processing unit facilities, there is a range of 5 to 7 new positions. Accordingly, the creation of five (5) new jobs at the proposed Beaumont Refinery SCANFiner processing unit facility is within the industry standard range of required new positions necessary for the operation of the facility.

Finally, we note that Section 313.025(f-1) of the Texas Tax Code provides:

(f-1) Notwithstanding any other provision of this chapter to the contrary, including Section 313.003(2) or 313.004(3)(A) or (B)(iii), the governing body of a school district may waive the new jobs creation requirement in Section 313.021(2)(A)(iv)(b) or 313.051(b) and approve an application if the governing

body makes a finding that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application.

Thus, the "industry standard" under this provision is determined in relation to the number of employees necessary for the operation of the specific facility that is the subject of the Application. Accordingly, for the reasons discussed above, the creation of five (5) new jobs at the proposed Beaumont Refinery SCANFiner processing unit facility satisfies the statute.

2. **Tab 11. Map Clarifications.** Applications must include a map depicting both b) "Qualified investment, including location of tangible personal property to be placed in service during the qualifying time period and buildings to be constructed during the time period." and c) "Qualified property, including location of new buildings and new improvements." Please provide a map or site plan indicating the location of tangible personal properties inside the "SCANfiner Plot" area. Additionally, please clearly specify that the border around the "Project Site" is the "Project Boundary".

Please see the attached revised Tab 11 and maps and picture included in Tab 11.

The fourth revised map included in the attached revised Tab 11 has been revised to specify that the "Project Site" is the "Project Boundary."

In addition, a fifth page has been added in the attached revised Tab 11 which indicates that the location of all new tangible personal property, buildings and improvements constituting the elements of the SCANFiner processing unit facility project are inside the Project Boundary.

Finally, a sixth page has been added in the attached revised Tab 11 which provides an illustrative picture of a SCANFiner processing unit facility upon completion of construction.

3. **Tab 4. Description of Proposed Project.** Please provide more detail regarding the proposed output capacity, interconnections with adjacent facilities, the final product produced, and feedstock sources.

Proposed Output Capacity:

The proposed SCANFiner processing unit facility is designed for a feed rate of 46 kbd and output of approximately:

- 25 kbd of Scanfinate which is primarily a low Reid vapor pressure motor gasoline ("mogas") blendstock; and
- 20 kbd of ultra-low-sulfur diesel ("ULSD").

Interconnections with Adjacent Facilities:

On the input side, the proposed SCANFiner processing unit facility would be interconnected with an existing fluid catalytic cracker unit/naphtha splitting unit which produces naphtha and splits the naphtha into light, intermediate and heavy grades according to process needs.

On the output side, the proposed SCANFiner processing unit facility would be interconnected with an existing catalytic hydro desulfurization unit which would allow the Scanfinite produced by the proposed SCANFiner processing unit facility to be further processed into motor gasoline ("mogas") blendstock or ULSD, depending upon economics.

Final Product Produced:

The proposed SCANFiner processing unit facility is designed to produce approximately:

- 25 kbd of Scanfinite which is primarily a low Reid vapor pressure motor gasoline ("mogas") blendstock; and
- 20 kbd of ultra-low-sulfur diesel ("ULSD").

Feedstock Sources:

The feedstock for the proposed SCANFiner processing unit facility is comprised of light, intermediate and heavy grades of naphtha produced by an existing fluid catalytic cracker unit/naphtha splitting unit.

4. **On Page 7, Section 14, Question 9 and 10** indicates that \$66,289.40 is the regional wage target. This appears to be a transposition error that needs correcting.

Please see the attached revised Page 7 of the Application on which Questions 9 and 10 in Section 14 have been revised to fix the transposition and reflect \$66,829.40 as the correct amount.

5. **Tab 13 and Page 7, Section 14 Question 7.** There is a new quarter (3rd Qtr 2015) available from Texas Workforce Commission. Please recalculate the wages for TAB 13 and using the four most recent quarters.

Please see:

- the attached revised Page 7 of the Application on which the information in Question 7, a. and b., of Section 14 has been revised to reflect the wage information for the third quarter of 2015 recently available from the Texas Workforce Commission; and

- the attached revised Tab 13 of the Application reflecting the current four most recent quarters of data for each of the three wage calculations, including documentation from the Texas Workforce Commission website.

6. **Additional Question.** Gary Price has asked whether ExxonMobil is required to construct the proposed SCANFiner processing unit facility project in order to satisfy the Environmental Protection Agency ("EPA") Tier 3 gasoline sulfur content rule.

ExxonMobil is not required to construct the proposed SCANFiner processing unit facility project in order to satisfy the EPA Tier 3 gasoline sulfur content rule.

The EPA Tier 3 gasoline sulfur content rule generally requires a reduction in annual average gasoline sulfur content from 30 parts per million ("ppm") to 10 ppm and retains the current maximum per-gallon sulfur content of 80 ppm refinery gate and 95 ppm downstream.

The gasoline pool is composed of gasoline boiling range hydrocarbons from several sources in the refinery. Typical gasoline pool blending components include butanes, ethanol, light straight run naphtha, isomerate, reformate, alkylate, fluid catalytic cracker ("FCC") gasoline and hydrocracker gasoline. In addition, purchased blending components may also be present. Most of these components are very low in sulfur (typically less than 1 ppm), except for the FCC gasoline. FCC gasoline has the highest sulfur content, and is typically the largest volume component of the gasoline pool. As a result, FCC gasoline sulfur would typically have to be reduced to meet the EPA Tier 3 gasoline sulfur content rule.

ExxonMobil has several options for meeting the EPA Tier 3 gasoline sulfur content rule at the Beaumont Refinery without constructing the proposed SCANFiner processing unit facility project. These options include augmenting and revamping existing units to:

- increase pretreatment severity in the existing fluid catalytic cracker unit ("FCC"),
- expand FCC pretreatment,
- use gasoline sulfur reduction additives in FCC,
- increase FCC gasoline post-treatment severity in existing units,
- expand FCC post-treatment, or
- a combination of two or more of the above.

The pretreatment options reduce the sulfur content of the FCC feed, which in turn lowers the sulfur content of the FCC products including FCC gasoline. The post-treatment options directly reduce the sulfur content of FCC gasoline. By utilizing the pretreatment of FCC feed options, the post-treatment of FCC gasoline options, or a combination of FCC feed pretreatment and FCC gasoline post-treatment options,

ExxonMobil could satisfy the EPA Tier 3 gasoline sulfur content rule without constructing the proposed SCANFiner processing unit facility project.

In addition, as an alternative to the above options, ExxonMobil could make no changes at the Beaumont Refinery to meet the EPA Tier 3 gasoline sulfur content rule, and could instead ship gasoline produced at the Beaumont Refinery to other refineries for further processing to a gasoline product that satisfies the EPA Tier 3 gasoline sulfur content rule.

Moreover, and separate and apart from the EPA Tier 3 gasoline sulfur content rule, the proposed SCANFiner processing unit facility project would enhance capacity and margins, enable the production of an additional 20 thousand barrels per day of ultra-low-sulfur diesel production, and optimize barrel placements and dispositions within the Beaumont Refinery to maximize the value of the Beaumont Refinery's product slate.

Thus, while the proposed SCANFiner processing unit facility project is expected to provide operating and other efficiencies at the Beaumont Refinery, ExxonMobil is not required to construct the proposed SCANFiner processing unit facility project in order to satisfy the EPA Tier 3 gasoline sulfur content rule.

Please do not hesitate to contact me if you have any questions or need any additional information.

Thank you for your consideration.

Very truly yours,

Stephen A. Kuntz

Documentation that the Limitation on Appraised Value is a Determining Factor in the Decision to Invest Capital and Construct the Project in Texas

Chapter 313.026(e) states "the applicant may submit information to the Comptroller that would provide a basis for an affirmative determination under Subsection (c)(2)." If you answered "yes" to any of the questions in Section 8, attach supporting information in Tab 5.

The Applicant is a wholly-owned subsidiary of Exxon Mobil Corporation, one of the largest integrated international oil and gas companies in the world with operations in more than 200 countries. As such, the Applicant competes with other members of the Exxon Mobil Corporation group for approval of a portion of the group's capital investment budget to fund the capital investment necessary to construct the Project. Moreover, the Exxon Mobil Corporation group has the ability to invest, locate and develop new projects, such as the one that is the subject of this application, in numerous locations throughout the world.

The Applicant owns and operates the Beaumont Refinery Complex where the Project would be sited on unimproved land if the Beaumont Refinery Complex location were chosen as the site for the Project.

ExxonMobil takes a disciplined, long-term approach to investing, regardless of the economic cycle and the geographic location. We consistently seek new global investment opportunities that create value for our shareholders. Our business model is to conduct an extensive evaluation before we make any final investment decision. A project team is evaluating these opportunities with a focus on global logistic capabilities, efficiency, scale and site integration. The proposed new facility could be constructed at any of our North American-based refining locations in our continued efforts to produce high-quality, ultra-low sulfur fuels to meet the world's growing demand for such quality products. The alternative North American refining sites are located in Baton Rouge (LA), Joliet (IL), Billings, (MT), Sarnia, Ontario (Canada), and Edmonton, Alberta (Canada).

Competitive abatement programs for the proposed new facility exist in alternative locations. The impact of the property tax burden on the economic return of the proposed new facility is an important factor in the Applicant's site selection evaluation and decision, as well as in obtaining approval for the Project internally within the Exxon Mobil Corporation group. For the tax year 2015, Beaumont ISD's maintenance and operations (M&O) tax rate represents over 50% of the total property tax burden imposed on taxable property located at the Beaumont location. Consequently, a limitation on appraised value under Chapter 313 of the Texas Tax Code is a determining factor in the Applicant's decision to invest capital and construct the Project in the State of Texas.

The decision to make an investment in a particular jurisdiction depends on the economics of the investment in that jurisdiction. ExxonMobil's decision to proceed with the investment in the proposed project will be based on a number of commercial, regulatory and financial considerations, including the ability to obtain relief regarding property taxes. Capital investments are allocated to projects and locations based on expected economic return,

and projected property tax liabilities associated with the proposed project are a substantial ongoing cost of operation. The projected property tax liabilities for the proposed project without a Chapter 313 appraised value limitation lower the economic rate of return and detract from the financial attractiveness of the project making it less competitive with other capital intensive projects that deliver higher rates of return on invested capital. Accordingly, securing a Chapter 313 appraised value limitation is critical to establishing a rate of return competitive with other investment opportunities and, therefore, is an important factor affecting ExxonMobil's final investment decision to construct and operate the proposed project in Texas.

A comparison of Beaumont ISD M&O ad valorem taxes with and without the Chapter 313 appraised value limitation through the 25th anniversary of the beginning of the limitation period is shown below:

Year	Beaumont ISD M&O Taxes Without 313	Beaumont ISD M&O Taxes With 313

TOTAL	\$49,977,468	\$31,011,397
DIFFERENCE		\$(18,966,071)

As shown above, the Chapter 313 appraised value limitation is projected to result in \$18.97 million of tax savings. These savings have a material impact on the rate of return and discounted cash flow projections for the project and are equivalent to 4.2% of the projected total investment in the proposed project, and consequently are a significant and determining factor in ExxonMobil's decision to invest in this project in Texas.

State Comptroller's Certification

GLENN HEGAR TEXAS COMPTROLLER OF PUBLIC ACCOUNTS

P.O. Box 13528 • Austin, TX 78711-3528

June 08, 2016

John Frossard
Superintendent
Beaumont Independent School District
3395 Harrison Avenue
Beaumont, Texas 77706

Dear Superintendent Frossard:

On March 10, 2016, the Comptroller issued written notice that ExxonMobil Oil Corporation (the applicant) submitted a completed application (Application #1118) for a limitation on appraised value under the provisions of Tax Code Chapter 313¹. This application was originally submitted on December 15, 2015, to the Beaumont Independent School District (the school district) by the applicant.

This presents the results of the Comptroller's review of the application and determinations required:

- 1) under Section 313.025(h) to determine if the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C; and
- 2) under Section 313.025(d), to issue a certificate for a limitation on appraised value of the property and provide the certificate to the governing body of the school district or provide the governing body a written explanation of the comptroller's decision not to issue a certificate, using the criteria set out in Section 313.026.

Determination required by 313.025(h)

Sec. 313.024(a)	Applicant is subject to tax imposed by Chapter 171.
Sec. 313.024(b)	Applicant is proposing to use the property for an eligible project.
Sec. 313.024(d)	Applicant has requested a waiver to create the required number of new qualifying jobs and pay all jobs created that are not qualifying jobs a wage that exceeds the county average weekly wage for all jobs in the county where the jobs are located.
Sec. 313.024(d-2)	Not applicable to Application #1118.

Based on the information provided by the applicant, the Comptroller has determined that the property meets the requirements of Section 313.024 for eligibility for a limitation on appraised value under Chapter 313, Subchapter C.

¹ All statutory references are to the Texas Tax Code, unless otherwise noted.

Certificate decision required by 313.025(d)

Determination required by 313.026(c)(1)

The Comptroller has determined that the project proposed by the applicant is reasonably likely to generate tax revenue in an amount sufficient to offset the school district maintenance and operations ad valorem tax revenue lost as a result of the agreement before the 25th anniversary of the beginning of the limitation period. See Attachment B.

Determination required by 313.026(c)(2)

The Comptroller has determined that the limitation on appraised value is a determining factor in the applicant's decision to invest capital and construct the project in this state. See Attachment C.

Based on these determinations, the Comptroller issues a certificate for a limitation on appraised value. This certificate is contingent on the school district's receipt and acceptance of the Texas Education Agency's determination per 313.025(b-1).

The Comptroller's review of the application assumes the accuracy and completeness of the statements in the application. If the application is approved by the school district, the applicant shall perform according to the provisions of the Texas Economic Development Act Agreement (Form 50-826) executed with the school district. The school district shall comply with and enforce the stipulations, provisions, terms, and conditions of the agreement, applicable Texas Administrative Code and Chapter 313, per TAC 9.1054(i)(3).

This certificate is no longer valid if the application is modified, the information presented in the application changes, or the limitation agreement does not conform to the application. Additionally, this certificate is contingent on the school district approving and executing the agreement by December 31, 2016.

Note that any building or improvement existing as of the application review start date of March 10, 2016, or any tangible personal property placed in service prior to that date may not become "Qualified Property" as defined by 313.021(2) and the Texas Administrative Code.

Summary of Financial Impact

**CHAPTER 313 PROPERTY VALUE LIMITATION
FINANCIAL IMPACT OF THE PROPOSED EXXONMOBIL
PROJECT IN THE BEAUMONT INDEPENDENT SCHOOL
DISTRICT
(PROJECT # 1118)**

PREPARED BY

JULY 15, 2016

Executive Summary

The ExxonMobil Oil Corporation (Company) has requested that the Beaumont Independent School District (BISD) consider granting a property value limitation under Chapter 313 of the Tax Code, also known as the Texas Economic Development Act. In an application submitted to BISD on December 15, 2015 the Company plans to invest an amount that will result in an estimated \$232.2 million in taxable value to construct a low-sulfur fuels manufacturing facility. Moak, Casey & Associates (MCA) has been retained to prepare an analysis of this value limitation and help the district navigate the overall application and agreement process.

The ExxonMobil project is consistent with the state's goal to "encourage large scale capital investments in this state." When enacted as House Bill 1200 in 2001, Chapter 313 of the Tax Code granted eligibility to companies engaged in manufacturing, research and development, and renewable electric energy production to apply to school districts for property value limitations. Subsequent legislative changes expanded eligibility to clean coal projects, nuclear power generation and data centers, among others.

Under the provisions of Chapter 313, BISD may offer a minimum value limitation of \$30 million. This value limitation, under the proposed application, will begin in the 2019-20 school year and remain at that level of taxable value for Maintenance and Operations (M&O) tax purposes for ten years. The entire project value will remain taxable for I&S or debt service purposes for the term of the agreement.

MCA's initial school finance analysis is detailed in this report, incorporating the major legislative changes adopted in May. The overall conclusions are as follows, but please read all of the subsequent details in the report below for more information.

Total Revenue Loss Payment owed to BISD	\$2.26 million
Total Savings to Company after Revenue Loss Payment. (This does not include any supplemental benefit payments to the district.)	\$16.86 million

Application Process

After the school district has submitted an application to the Comptroller's Office (Comptroller), the Comptroller begins reviewing the application for completeness. The purpose of this review is to ensure all necessary information and attachments are included in the application before moving forward with the formal review process. At the time the application is determined complete, the Comptroller will deliver a Completeness Letter to the company and the school district. The Completeness Letter was issued on March 10, 2016.

The issuance of a Completeness Letter is important because it sets the timeline for the rest of process. From the date of issuance, the Comptroller has 90 days to conduct its full review of the project and provide its certificate for a limitation on appraised value. After the certificate

is received, the district has until the 150th day from the receipt of the Completeness Letter or until December 31st, whichever is earlier, to adopt an agreement. The Certificate for this project was issued on June 8, 2016.

Each value limitation agreement is unique and to ensure the proper revenue-loss protection and maximum supplemental benefits are in place, an understanding of the school district's finances and a thorough knowledge of the Ch. 313 statute are required. MCA and O'Hanlon, McCollom & Demerath will ensure the best interests of BISD are secured. A final version of the agreement must be submitted to the Comptroller for review prior to final adoption by the school district's board of trustees.

At the final board meeting, the school board will review the Value Limitation Agreement and Findings of Fact that detail the project's conformance with state law. The school board will also be required to adopt a job waiver for the ExxonMobil project during this meeting. Prior to this meeting, O'Hanlon, McCollom & Demerath will provide the district with the necessary agenda language and any additional action items.

How the 313 Agreement Interacts with Texas School Finance

M&O funding for Texas schools relies on two methods of finance: local school district property taxes and state aid. State aid consists of three components: Tier I, Tier II and additional state aid for tax reduction (ASATR), although ASATR is currently scheduled to be eliminated by the 2017-18 school year. (For more detailed information on the school finance funding system, please review the Texas Education Agency's [School Finance 101: Funding of Texas Public Schools.](#))

Tier I provides state funding based on ADA and special student populations, as well as transportation. The local funds for Tier I are M&O taxes raised at the compressed tax rate—\$1.00 per \$100 of taxable value for most school districts (less any recapture payments owed to the state from high property-wealth school districts).

Tier II guarantees a specific amount of funding per student in weighted average daily attendance for each penny of a school district's tax effort above a specified level. There are two levels of Tier II funding—funding under the six so-called golden pennies and the eleven so-called copper pennies. Voter approval is required in most cases to access the last two golden pennies and the eleven copper pennies.

Additional State Aid for Tax Reduction (ASATR) guarantees a school district a set amount of state and local M&O funds per student in weighted average daily attendance to compensate for the mandatory reduction in, or compression of, the local M&O tax rate that was adopted in 2005 or 2006. ASATR funding is expected to be eliminated by the 2017-18 school year under current law.

For a school district that approves a Chapter 313 value limitation, the first year is often problematic financially. The implementation of the value limitation often results in an M&O revenue loss to the school district in the first year of the limitation that would not be reimbursed by the state, but require some type of compensation from the Company under the revenue protection provisions of the agreement. This is because the general school

finance formula system calculates state aid entitlements using the property value for the preceding year as certified by the Comptroller.

In most instances smaller revenue losses would be anticipated in years 2-10 of the limitation when the state M&O property values are aligned at the minimum value established by the Board on both the local tax roll and the corresponding state property value study. **If the full value of the project increases significantly during the value limitation period, the revenue losses may be greater than originally estimated.**

A taxpayer receiving a value limitation pays M&O taxes on the reduced value for the project in years 1-10 and receives a tax bill for I&S taxes based on the full project value throughout the qualifying and value limitation period (and thereafter).

Future legislative action on school funding could potentially affect the impact of the value limitation on the school district's finances and result in revenue-loss estimates that differ from the estimates presented in this report.

Underlying School District Data Assumptions

A key element in any analysis of the school finance implications of a Chapter 313 agreement is the provision for revenue protection in the agreement between the school district and the applicant. The agreement calls for a calculation of the revenue impact of the value limitation in years 1-10 of the agreement, under whatever school finance and property tax laws are in effect in each of those years. This meets the statutory requirement under Section 313.027(f)(1) of the Tax Code to provide school district revenue-protection language in the agreement. This approach also reduces guess work as to future changes in school finance and property tax laws.

The general approach used here to analyze the future revenue stream of the school district under a value limitation is to maintain static enrollment and property values in order to isolate the effects of the value limitation under the school finance system. Student enrollment counts are held constant at 17,500 students in average daily attendance (ADA) in analyzing the effects of the project on the finances of BISD. The District's local tax base reached \$10 billion for the 2015 tax year (the most recent year available) and is maintained for the forecast period in order to isolate the effects of the property value limitation. An M&O tax rate of \$1.04 per \$100 is used throughout this analysis. The impact of any previously-approved Chapter 313 projects is factored into the M&O tax bases used for both models presented below.

BISD has estimated 2015-16 state property wealth per weighted ADA or WADA of approximately \$408,287. As a result, BISD is not considered a Chapter 41 or recapture district under the school finance system. Table 1 summarizes the enrollment and property value assumptions for the 15 years that are the subject of this analysis.

Recent legislative changes are incorporated into these estimates. The basic allotment was raised from \$5,040 to \$5,140 per WADA, which is used throughout the state aid calculations. The Tier II guaranteed yield level for up to six cents of tax effort was increased

from \$61.86 in 2014-15 to \$74.28 and \$77.53, respectively, for the 2015-16 and 2016-17 school years.

In addition, BISD is eligible for a "fractional" funding adjustment, since it imposed less than \$1.50 M&O tax rate for the 2006 tax year. Given the analysis shown below, it does not appear that BISD would benefit from shifting tax effort to take advantage of the fractional funding fix approved by legislators and that change is not incorporated in these estimates. However, BISD does not currently levy a tax rate that falls into the \$31.95 tier.

While the mandated school district homestead exemption will be increased from \$15,000 to \$25,000, only the 2014 CPTD reflects this increased exemption. Given that the models below focus exclusively on the ExxonMobil project values, however, the anticipated homestead exemption change is not expected to have an impact on this analysis.

The M&O tax rate for 2015 is maintained at \$1.04 per \$100. Although the impact of the Chapter 313 project value returning to the total tax roll for M&O funding purposes could result in a lower M&O tax rate that analysis is beyond the scope of this revenue report.

M&O Impact of the Exxon project on BISD

School finance models were prepared for BISD under these assumptions through the 2033-34 school year. Under the proposed agreement, a model is established to make a calculation of the "Baseline Revenue Model" by adding the total value of the project to the model, but without assuming that a value limitation is approved. These model results are detailed in Table 2.

Additionally, a separate model is established to make a calculation of the "Value Limitation Revenue Model" by adding the project's limited value of \$30 million to the model. These results are shown in Table 3.

Table 4 displays the results of the comparison between the Baseline Revenue Model and the Value Limitation Revenue Model (Tables 2 and 3). The difference between the two models indicates there will be a total revenue loss of \$2.256 million over the course of the Agreement, with all of this loss reflected in the first limitation year (2019-20). Nearly all of the reduction in M&O taxes under the limitation agreement is offset through an increase in state aid under current law.

M&O Impact on the Taxpayer

Table 5 summarizes the impact of the property value limitation in terms of the potential tax savings to the taxpayer under the property value limitation agreement. The focus of this table is on the M&O tax rate only. A \$1.04 M&O tax rate is assumed in 2015-16 (the most recent year available) and thereafter.

Under the assumptions used here, the potential tax savings from the value limitation total \$19.0 million over the life of the agreement. The BISD revenue losses are expected to total approximately \$2.256 million in the initial limitation year under the agreement. In total, the potential net tax benefits (after hold-harmless payments are made) are estimated to reach \$16.86 million, prior to any negotiations with ExxonMobil on supplemental payments.

Table 5 - Estimated Financial Impact of the ExxonMobil Project Property Value Limitation Request Submitted to BISD at \$1.04 per \$100 M&O Tax Rate

I&S Funding Impact on School District

The project remains fully taxable for debt services taxes, with BISD currently levying a \$0.2750 per \$100 I&S rate. While the value of the ExxonMobil project is expected to depreciate over the life of the agreement and beyond, local taxpayers should benefit from the addition of the ExxonMobil project to the local I&S tax roll.

The project is not expected to affect BISD in terms of enrollment. Continued expansion of the project and related development could result in additional employment in the area and an increase in the school-age population, but this project is unlikely to have much impact on a stand-alone basis.

Note: School district revenue-loss estimates are subject to change based on numerous factors, including:

- Legislative and Texas Education Agency administrative changes to the underlying school finance formulas used in these calculations.
- Legislative changes addressing property value appraisals and exemptions.
- Year-to-year appraisals of project values and district taxable values.
- Changes in school district tax rates and student enrollment.

Section 3.3. DESCRIPTION OF QUALIFIED PROPERTY. The Qualified Property that is subject to the Tax Limitation Amount is described in **EXHIBIT 4**, which is attached hereto and incorporated herein by reference for all purposes. Property which is not specifically described in **EXHIBIT 4** shall not be considered by the District or the Appraisal District to be part of the Applicant's Qualified Property for purposes of this Agreement, unless by official action the Board of Managers provides that such other property is a part of the Applicant's Qualified Property for purposes of this Agreement in compliance with Section 313.027(e) of the TEXAS TAX CODE, the Comptroller's Rules, and Section 10.2 of this Agreement.

ARTICLE IV PROTECTION AGAINST LOSS OF FUTURE DISTRICT REVENUES

Section 4.1. INTENT OF THE PARTIES. Subject to the limitations contained in this Agreement (including Sections 7.1 and 4.10), it is the intent of the Parties that the District shall, in accordance with the provisions of Section 313.027(f)(1) of the TEXAS TAX CODE, be compensated by the Applicant for any loss that the District incurs in its Maintenance and Operations Revenue in each year of this Agreement for which this Agreement was, in any manner, a producing cause, or which resulted, at least in part, because of, or on account of, the execution of this Agreement, after taking into account any payments to be made under this Agreement. Such payments shall be independent of, and in addition to, such other payments as set forth in Articles V and VI of this Agreement. Subject to the limitations contained in this Agreement (including Sections 7.1 and 4.10), it is the intent of the Parties that the risk of any negative financial consequence to the District's Maintenance and Operations Revenue, to which the execution of this Agreement contributed in any manner, will be borne solely by the Applicant and not by the District.

The Parties expressly understand and agree that, for all Tax Years to which this Agreement may apply, the calculation of negative financial consequences will be defined for each applicable Tax Year in accordance with the Applicable School Finance Law, as defined in Section 1.2 above, and that such definition specifically contemplates that calculations made under this Agreement may

periodically change in accordance with changes in the Applicable School Finance Law. The Parties further agree that the printouts and projections produced during the negotiations and approval of this Agreement are: (i) for illustrative purposes only, and are not intended to be relied upon, and have not been relied upon, by the Parties as a prediction of future consequences to either Party; (ii) based upon the current Applicable School Finance Law, which is subject to change by statute, by administrative regulation, or by judicial decision at any time; and (iii) may change in future years to reflect changes in the Applicable School Finance Law.

Section 4.2. CALCULATING THE AMOUNT OF LOSS OF REVENUES BY THE DISTRICT. Subject to the provisions of Sections 4.10, 7.1 and 7.2, the amount to be paid by the Applicant to compensate the District for loss of Maintenance and Operations Revenue resulting from, or on account of, this Agreement for each year starting in the year of the Application Review Start Date and ending on the Final Termination Date (the "M&O Amount") shall be determined in compliance with the Applicable School Finance Law in effect for such year and according to the following formula:

- A. Notwithstanding any other provision in this Agreement, the M&O Amount owed by the Applicant to the District means the Original M&O Revenue *minus* the New M&O Revenue, based on the following definitions, where:
 - i. "Original M&O Revenue" means the total State and local Maintenance and Operations Revenue that the District would have received for the school year, under the Applicable School Finance Law for such Tax Year, had this Agreement not been entered into by the Parties and the Applicant's Qualified Property been subject to the District's ad valorem maintenance and operations tax at the District-adopted rate for the applicable Tax Year. For purposes of this calculation, the Third Party (as defined in Section 4.3) will base its calculations upon (1) the total Taxable Values for the applicable Tax Year as certified by the Appraisal District for all taxable accounts in the District for the District's maintenance and operations ad valorem tax purposes, save and except for the Applicant's Qualified Property subject to this Agreement, *plus* (2) the total Taxable Values for such applicable Tax Year as certified by the Appraisal District for the Applicant's Qualified Property subject to this Agreement for the District's debt service (interest and sinking fund) ad valorem tax purposes (which total Taxable Values for the Applicant's Qualified Property subject to this Agreement shall be used in lieu of the total Taxable Values for such applicable Tax Year as certified by the Appraisal District for the Applicant's Qualified Property subject to this Agreement for the District's maintenance and operations ad valorem tax purposes).
 - ii. "New M&O Revenue" means the total State and local Maintenance and Operations Revenue that the District actually received or is accrued to the District in accordance with the provisions of the Applicable School Finance Law for such school year.

- B. In making the calculations required by this Section 4.2:
- i. The Taxable Value of property for each school year will be determined under the Applicable School Finance Law as that law exists for the year for which the calculation is made.
 - ii. For purposes of this calculation, the tax collection rate on the Applicant's Qualified Property will be presumed to be one hundred percent (100%).
 - iii. If, for any year of this Agreement, the difference between the Original M&O Revenue and the New M&O Revenue, as calculated under this Section 4.2, results in a negative number, the negative number will be considered to be zero.
 - iv. All calculations made for any year during the Tax Limitation Period under Subsection *ii* of Section 4.2.A will reflect the Tax Limitation Amount for such year.
 - v. All calculations made under this Section 4.2 shall be made using a methodology which isolates only the revenue impact caused by this Agreement. The Applicant shall not be responsible to reimburse the District for other revenue losses created by other agreements or any other factor not contained in this Agreement.

Section 4.3. CALCULATIONS TO BE MADE BY THIRD PARTY. All calculations under this Agreement shall be made annually by an independent third party (the "Third Party") jointly selected and appointed each year by the District and the Applicant. If the Parties cannot agree on the Third Party, then the Third Party shall be selected by a mediator selected in accordance with the procedures set forth in Section 9.3A.

Section 4.4. DATA USED FOR CALCULATIONS. The calculations for payments under this Agreement shall be initially based upon the valuations that are placed upon all taxable property in the District, including the Applicant's Qualified Investment and/or the Applicant's Qualified Property, by the Appraisal District in its annual certified tax roll submitted to the District pursuant to Texas Tax Code § 26.01 on or about July 25 of each year of this Agreement. Immediately upon receipt of the valuation information by the District, the District shall submit the valuation information to the Third Party selected and appointed under Section 4.3. The certified tax roll data shall form the basis of the calculation of any and all amounts due under this Agreement. All other data utilized by the Third Party to make the calculations contemplated by this Agreement shall be based upon the best available current estimates. The data utilized by the Third Party shall be adjusted from time to time by the Third Party to reflect actual amounts, subsequent adjustments by the Appraisal District to the District's certified tax roll or any other changes in student counts, tax collections, or other data.

Section 4.5. DELIVERY OF CALCULATIONS. On or before November 1 of each year for which this

Agreement is effective, the Third Party appointed pursuant to Section 4.3 shall forward to the Parties a certification containing the calculations required under this Article IV, Article V, and/or Article VI of this Agreement in sufficient detail to allow the Parties to understand the manner in which the calculations were made. The Third Party shall simultaneously submit his, her or its invoice for fees for services rendered to the Parties, if any fees are being claimed, which fee shall be the sole responsibility of the District, but subject to the provisions of Section 4.6, below. Upon reasonable prior notice, the employees and agents of the Applicant shall have access, at all reasonable times, to the Third Party's calculations, offices, personnel, books, records, and correspondence pertaining to the calculation and fee for the purpose of verification. The Third Party shall maintain supporting data consistent with generally accepted accounting practices, and the employees and agents of the Applicant shall have the right to reproduce and retain for purpose of audit, any of these documents. The Third Party shall preserve all documents pertaining to the calculations until the Final Termination Date. The Applicant shall not be liable for any of the Third Party's costs resulting from a review or audit of the Third Party's books, records, correspondence, or work papers pertaining to the calculations contemplated by this Agreement or the fee paid by the Applicant to the Third Party pursuant to Section 4.6, if such fee is timely paid.

Section 4.6. PAYMENT BY APPLICANT. The Applicant shall pay any amount determined to be due and owing to the District under this Agreement on or before the January 31 next following the tax levy for each year for which this Agreement is effective. By such date, the Applicant shall also pay any amount billed by the Third Party for all calculations under this Agreement under Section 4.5, above, plus any reasonable and necessary legal expenses paid by the District to its attorneys, auditors, or financial consultants for the preparation and filing of any financial reports, disclosures, or other reimbursement applications filed with or sent to the State of Texas which are, or may be required under the terms or because of the execution of this Agreement. Notwithstanding the foregoing, for no Tax Year during the term of this Agreement shall the Applicant be responsible for the payment of an aggregate amount of fees and expenses under this Section 4.6 and Section 4.5 which exceeds Fifteen Thousand Dollars (\$15,000.00).

Section 4.7. EFFECT OF PROPERTY VALUE APPEAL OR OTHER ADJUSTMENT. If at the time the Third Party selected and appointed under Section 4.3 makes its calculations under this Agreement the Applicant has appealed any matter relating to the valuations placed by the Appraisal District on the Applicant's Qualified Property and/or the Applicant's Qualified Investment and such appeal remains unresolved, the Third Party shall base its calculations upon the values placed upon the Applicant's Qualified Property and/or the Applicant's Qualified Investment, respectively, by the Appraisal District. If as a result of an appeal or for any other reason, the Taxable Value of the Applicant's Qualified Investment and/or the Applicant's Qualified Property is changed, once the determination of the new Taxable Value becomes final, the Parties shall immediately notify the Third Party who shall immediately issue new calculations required by this Agreement for the applicable year or years using the new Taxable Value. Upon completion of the new calculations, the Third Party shall transmit the new calculations to the Parties. In the event the new calculations result in a change in any amount paid or payable by the Applicant under this Agreement, the Party from whom the adjustment is payable shall remit such amounts to the other Party within thirty (30) days of the receipt of the new calculations from the Third Party.

Section 4.8. STATUTORY CHANGES AFFECTING M&O REVENUE. Notwithstanding any other provision in this Agreement, but subject to the limitations contained in Sections 7.1 and 4.10, in the event that, by virtue of statutory changes to the Applicable School Finance Law, administrative interpretations by the Comptroller, the Commissioner of Education, or the Texas Education Agency, or for any other reason attributable to statutory change, the District will receive less Maintenance and Operations Revenue, or, if applicable, will be required to increase its payment of funds to the State, because of its participation in this Agreement, the Applicant shall make payments to the District, up to but not to exceed the amount of the limits set forth in this Agreement (including Sections 7.1 and 4.10), that are necessary to offset any such negative impact on the District as a result of its participation in this Agreement. The calculation of any such payments to the District shall take into account any adjustments to the amount calculated for the current fiscal year that should be made in order to reflect the actual impact on the District.

Section 4.9 RESOLUTION OF DISPUTES. Should the Applicant disagree with the certification containing the calculations prepared and/or delivered pursuant to Section 4.5, the Applicant may appeal the findings, in writing, to the Third Party within thirty (30) days following the later of (i) receipt of the certification, or (ii) the date the Applicant is granted access to the books, records, and other information in accordance with Section 4.5 for purposes of auditing or reviewing the information in connection with the certification. Within ten (10) days of receipt of the Applicant's appeal, the Third Party will issue, in writing, a final determination of the certification containing the calculations. Thereafter, the Applicant may appeal the final determination of the certification containing the calculations to the Board of Managers. Any such appeal by the Applicant of the final determination of the Third Party may be made, in writing, to the Board of Managers within thirty (30) days of the Applicant's receipt of the Third Party's final determination of the certification containing the calculations, and shall be without limitation of the Applicant's other rights and remedies available hereunder, at law or in equity.

Section 4.10. CUMULATIVE PAYMENT LIMITATION. Notwithstanding anything contained in this Agreement to the contrary, in no event shall the Cumulative Payments calculated for a Tax Year of this Agreement during the period from the Tax Year that includes the date on which the Qualifying Time Period commences under this Agreement as provided in Section 2.3.C.i (i.e. the Tax Year 2016), and ending with the Tax Year 2029, which is the first Tax Year following the end of the Tax Limitation Period, exceed an amount equal to One Hundred Percent (100%) of the Applicant's Cumulative Unadjusted Tax Benefit for such Tax Year. For each Tax Year of this Agreement, amounts otherwise due and owing by the Applicant to the District which, by virtue of the application of the payment limitation set forth in this Section 4.10, are not payable to the District for such Tax Year, shall be carried forward from year-to-year into subsequent Tax Years during the term of this Agreement, but shall be subject, in each subsequent Tax Year, to the limit set forth in this Section 4.10. Any of the Cumulative Payments which cannot be paid to the District prior to the end of the first Tax Year following the end of the Tax Limitation Period (i.e. the Tax Year 2029) because such payment would exceed the Applicant's Cumulative Unadjusted Tax Benefit under this Agreement will be deemed to have been cancelled by operation of law, and the Applicant shall have no further obligation with respect thereto.

ARTICLE V
PAYMENT OF EXTRAORDINARY EDUCATION-RELATED EXPENSES

Section 5.1. EXTRAORDINARY EXPENSES. In addition to the amounts determined pursuant to Section 4.2 of this Agreement above, the Applicant on an annual basis shall also indemnify and reimburse the District for all non-reimbursed costs, certified by the District's external auditor to have been incurred by the District for extraordinary education-related expenses related to the project described in the Application that are not directly funded in state aid formulas, including expenses for the purchase of portable classrooms and the hiring of additional personnel to accommodate a temporary increase in student enrollment attributable to such project. The Applicant shall have the right to contest the findings of the District's external auditor in accordance with the procedures set forth in Section 4.9.

ARTICLE VI
SUPPLEMENTAL PAYMENTS

Section 6.1. INTENT OF PARTIES WITH RESPECT TO SUPPLEMENTAL PAYMENTS.

(a) Amounts Exclusive of Indemnity Amounts

In addition to undertaking the responsibility for the payment of all of the amounts set forth under Articles IV and V, and as further consideration for the execution of this Agreement by the District, the Applicant shall also be responsible for the supplemental payments set forth in this Article VI (the "Supplemental Payments"). The Applicant shall not be responsible to the District or to any other person or persons in any form for the payment or transfer of money or any other thing of value in recognition of, anticipation of, or consideration for this Agreement for limitation on appraised value made pursuant to Chapter 313, Texas Tax Code, unless it is explicitly set forth in this Agreement. It is the express intent of the Parties that the Applicant's obligation to make Supplemental Payments under this Article VI is separate and independent of the obligation of the Applicant to pay the amounts described in Articles IV and V; provided, however, that all payments under Articles IV and V and this Article VI are subject to the limitations contained in Sections 7.1 and 4.10, and that all payments under this Article VI are subject to the separate limitations contained in Sections 6.2 and 6.3.

B. Supplemental Payments may only be made during the period starting the first year of the Qualifying Time Period and ending December 31 of the third year following the end of the Tax Limitation Period;

C. the limitation in Section 6.2.A does not apply to amounts described by Section 313.027(f)(1)–(2) of the TEXAS TAX CODE as implemented in Articles IV and V of this Agreement; and

D. for purposes of this Agreement, the calculation of the limit of the annual Supplemental Payment shall be the greater of \$50,000 or \$100 multiplied by the District's Average Daily Attendance as calculated pursuant to Section 42.005 of the TEXAS EDUCATION CODE, based upon the District's 2015-2016 Average Daily Attendance of 17,414 (rounded to the nearest whole number).

Section 6.4. ANNUAL CALCULATION OF APPLICANT'S STIPULATED SUPPLEMENTAL PAYMENT AMOUNT. The Parties agree that for each Tax Year of the Supplemental Payment Period, the Applicant's Stipulated Supplemental Payment Amount, described in Section 6.3(a), above will annually be calculated based upon the then most current estimate of tax savings to the Applicant, which will be made, based upon assumptions of student counts, tax collections, and other applicable data, and with respect to each Tax Year included in the computation of the Net Tax Benefit used in the calculation of the Applicant's Stipulated Supplemental Payment Amount for such Tax Year, in accordance with the following formula:

Taxable Value of the Applicant's Qualified Property for such Tax Year had this Agreement not been entered into by the Parties (i.e., the Taxable Value of the Applicant's Qualified Property used for the District's interest and sinking fund tax purposes for such Tax Year, or school taxes due to any other governmental entity, including the State of Texas, for such Tax Year);

Minus,

The Taxable Value of the Applicant's Qualified Property for such Tax Year after giving effect to this Agreement (i.e., the Taxable Value of the Applicant's Qualified Property used for the District's maintenance and operations tax purposes for such Tax Year, or school taxes due to any other governmental entity, including the State of Texas, for such Tax Year);

Multiplied by,

The District's maintenance and operations tax rate for such Tax Year, or the applicable school tax rate of any other governmental entity, including the State of Texas, for such Tax Year;

Minus,

Any amounts previously paid to the District under Articles IV and V for such Tax Year;

Multiplied by,

The number 0.45;

Minus,

Any amounts previously paid to the District under this Article VI with respect to such Tax Year.

In the event that there are changes in the data upon which the calculations set forth herein are made, the Third Party selected pursuant to Section 4.3, above, shall adjust the Applicant's

Stipulated Supplemental Payment Amount calculation to reflect any changes in the data.

Section 6.5. CALCULATION OF ANNUAL SUPPLEMENTAL PAYMENTS TO THE DISTRICT AND APPLICATION OF AGGREGATE LIMIT. For each Tax Year during the Supplemental Payment Period the District, or its successor beneficiary should one be designated under Section 6.7 below shall not be entitled to receive Supplemental Payments, computed under Sections 6.2, 6.3 and 6.4 above, that exceed the Aggregate Limit.

If, for any Tax Year during the Supplemental Payment Period, the amount of the Supplemental Payment for such Tax Year, calculated under Sections 6.2, 6.3 and 6.4 above, exceeds the Aggregate Limit for such Tax Year, the difference between the Supplemental Payment so calculated and the Aggregate Limit for such Tax Year, shall be carried forward from year-to-year into subsequent Tax Years during the Supplemental Payment Period, and to the extent not limited by the Aggregate Limit in any subsequent Tax Year during the Supplemental Payment Period, shall be paid to the District. If there are changes in Chapter 313 of the Texas Tax Code that increase or decrease the limit on the amount of the Supplemental Payments that may be made to or on behalf of the District by the Applicant under this Article VI, any higher or lower amount of Supplemental Payments that first became due hereunder prior to the effective date of any such statutory change will not be adjusted.

Any of the Supplemental Payments which cannot be paid to the District on or before January 31, 2028, because such payment would exceed the Aggregate Limit, will be deemed to have been cancelled by operation of law, and the Applicant shall have no further obligation with respect thereto.

Section 6.6. PROCEDURES FOR SUPPLEMENTAL PAYMENT CALCULATIONS.

- (a) All calculations required by this Article VI, including but not limited to: (i) the calculation of the Applicant's Stipulated Supplemental Payment Amount; (ii) the determination of both the Annual Limit and the Aggregate Limit; (iii) the effect, if any, of the Aggregate Limit upon the actual amount of Supplemental Payments eligible to be paid to the District by the Applicant; and (iv) the carry forward and accumulation of any of the Supplemental Payments unpaid by the Applicant due to the Aggregate Limit in previous years, shall be calculated by the Third Party selected pursuant to Section 4.3.
- (b) The calculations made by the Third Party shall be made at the same time and on the same schedule as the calculations made pursuant to Section 4.5.
- (c) The payment of all amounts due under this Article VI shall be made at the time set forth in Section 4.6.

Section 6.7. DISTRICT'S OPTION TO DESIGNATE SUCCESSOR BENEFICIARY. At any time during the term of this Agreement, the Board of Managers may, in its sole discretion, so long as such decision does not result in additional costs to the Applicant under this Agreement, direct that any

of the Applicant's payments under this Article VI be made to the District's educational foundation or to a similar entity. Such foundation or entity may only use such funds received under this Article VI to support the educational mission of the District and its students. Any designation of such foundation or entity must be made by recorded vote of the Board of Managers at a properly posted public meeting of the Board of Managers. Any such designation will become effective after such public vote and the delivery of notice of said vote to the Applicant in conformance with the provisions of Section 10.1 below. Such designation may be rescinded by the Board of Managers, by action of the Board of Managers, at any time, and any such rescission will become effective after delivery of notice of such action to the Applicant in conformance with the provisions of Section 10.1.

Any designation of a successor beneficiary under this Section 6.7 shall not alter the limits on Supplemental Payments described in this Article IV, including Sections 6.2 and 6.3, above.

Notwithstanding the foregoing, any payments made by the Applicant shall be made in the manner and to the Party designated in this Agreement unless the Applicant receives unambiguous written notice from the District that such payments are to be made to a different party.

ARTICLE VII

ANNUAL LIMITATION OF PAYMENTS BY APPLICANT

Section 7.1. ANNUAL LIMITATION. Notwithstanding anything contained in this Agreement to the contrary, and with respect to each Tax Year of the Tax Limitation Period beginning after the first Tax Year of the Tax Limitation Period, in no event shall (i) the sum of the maintenance and operations ad valorem taxes paid by the Applicant to the District for such Tax Year, plus the sum of all payments otherwise due from the Applicant to the District under Articles IV, V, and VI of this Agreement with respect to such Tax Year, exceed (ii) the amount of the maintenance and operations ad valorem taxes that the Applicant would have paid to the District for such Tax Year (determined by using the District's actual maintenance and operations tax rate for such Tax Year) if the Parties had not entered into this Agreement. The calculation and comparison of the amounts described in clauses (i) and (ii) of the preceding sentence shall be included in all calculations made pursuant to Article IV of this Agreement, and in the event the sum of the amounts described in said clause (i) exceeds the amount described in said clause (ii), then the payments otherwise due from the Applicant to the District under Articles IV, V, and VI shall be reduced until such excess is eliminated.

Section 7.2. OPTION TO TERMINATE AGREEMENT. In the event that any payment otherwise due from the Applicant to the District under Article IV, Article V, or Article VI of this Agreement with respect to a Tax Year is subject to reduction in accordance with the provisions of Section 7.1, then the Applicant shall have the option to terminate this Agreement. The Applicant may exercise such option to terminate this Agreement by notifying the District of its election in writing not later than the July 31 of the year following the Tax Year with respect to which a reduction under Section 7.1 is applicable. Any termination of this Agreement under the foregoing provisions of this Section 7.2 shall be effective immediately prior to the second Tax Year next following the Tax Year in which the reduction giving rise to the option occurred.

Section 7.3. EFFECT OF OPTIONAL TERMINATION. Upon the exercise of the option to terminate pursuant to Section 7.2, this Agreement shall terminate and be of no further force or effect; provided, however, that:

A. the Parties respective rights and obligations under this Agreement with respect to the Tax Year or Tax Years (as the case may be) through and including the Tax Year during which such notification is delivered to the District, shall not be impaired or modified as a result of such termination and shall survive such termination unless and until satisfied and discharged; and

B. the provisions of this Agreement regarding payments (including liquidated damages and tax payments), records and dispute resolution shall survive the termination or expiration of this Agreement.

ARTICLE VIII ADDITIONAL OBLIGATIONS OF APPLICANT

Section 8.1. APPLICANT'S OBLIGATION TO MAINTAIN VIABLE PRESENCE. In order to receive and maintain the limitation authorized by Section 2.4 in addition to the other obligations required by this Agreement, the Applicant shall Maintain Viable Presence in the District commencing at the start of the Tax Limitation Period through the Final Termination Date of this Agreement. Notwithstanding anything contained in this Agreement to the contrary, the Applicant shall not be in breach of, and shall not be subject to any liability for failure to Maintain Viable Presence to the extent such failure is caused by Force Majeure, provided the Applicant makes commercially reasonable efforts to remedy the cause of such Force Majeure.

Section 8.2. REPORTS. In order to receive and maintain the limitation authorized by Section 2.4 in addition to the other obligations required by this Agreement, the Applicant shall submit all reports required from time to time by the Comptroller, listed in 34 TEXAS ADMIN. CODE Section 9.1052 and as currently located on the Comptroller's website, including all data elements required by such form to the satisfaction of the Comptroller on the dates indicated on the form or the Comptroller's website and starting on the first such due date after the Application Approval Date.

Section 8.3. COMPTROLLER'S REPORT ON CHAPTER 313 AGREEMENTS. During the term of this Agreement, both Parties shall provide the Comptroller with all information reasonably necessary for the Comptroller to assess performance under this Agreement for the purpose of issuing the Comptroller's report, as required by Section 313.032 of the TEXAS TAX CODE.

Section 8.4. DATA REQUESTS. Upon the written request of the District, the State Auditor's Office, the Appraisal District, or the Comptroller during the term of this Agreement, the Applicant, the District or any other entity on behalf of the District shall provide the requesting party with all information reasonably necessary for the requesting party to determine whether the Applicant is in compliance with its rights, obligations or responsibilities, including, but not limited to, any employment obligations which may arise under this Agreement.

Section 8.5. SITE VISITS AND RECORD REVIEW. The Applicant shall allow authorized employees of the District, the Comptroller, the Appraisal District, and the State Auditor's Office to have reasonable access to the Applicant's Qualified Property and business records from the Application Review Start Date through the Final Termination Date, in order to inspect the project to determine compliance with the terms hereof or as necessary to properly appraise the Taxable Value of the Applicant's Qualified Property.

A. All inspections will be made at a mutually agreeable time after the giving of not less than forty-eight (48) hours prior written notice, and will be conducted in such a manner so as not to unreasonably interfere with either the construction or operation of the Applicant's Qualified Property.

B. All inspections may be accompanied by one or more representatives of the Applicant, and shall be conducted in accordance with the Applicant's safety, security, and operational standards. Notwithstanding the foregoing, nothing contained in this Agreement shall require the Applicant to provide the District, the Comptroller, or the Appraisal District with any technical or business information that is proprietary, a trade secret, or is subject to a confidentiality agreement with any third party.

Section 8.6. RIGHT TO AUDIT; SUPPORTING DOCUMENTS; AUTHORITY OF STATE AUDITOR. By executing this Agreement, implementing the authority of, and accepting the benefits provided by Chapter 313 of the TEXAS TAX CODE, the Parties agree that this Agreement and their performance pursuant to its terms are subject to review and audit by the State Auditor as if they are parties to a State contract and subject to the provisions of Section 2262.154 of the TEXAS GOVERNMENT CODE and Section 313.010(a) of the TEXAS TAX CODE. The Parties further agree to comply with the following requirements:

A. The District and the Applicant shall maintain and retain supporting documents adequate to ensure that claims for the Tax Limitation Amount are in accordance with applicable Comptroller and State of Texas requirements. The Applicant and the District shall maintain all such documents and other records relating to this Agreement and the State's property for a period of four (4) years after the latest occurring date of:

- i. date of submission of the final payment;
- ii. Final Termination Date; or
- iii. date of resolution of all disputes or payment.

B. During the time period defined under Section 8.6.A, the District and the Applicant shall make available at reasonable times and upon reasonable notice, and for reasonable periods, all information related to this Agreement; the Applicant's Application; and the Applicant's Qualified Property, Qualified Investment, New Qualifying Jobs, and wages paid for New Non-Qualifying Jobs such as work papers, reports, books, data, files, software, records, calculations, spreadsheets and other supporting documents pertaining to this Agreement, for purposes of inspecting, monitoring, auditing, or evaluating by the Comptroller, State Auditor's Office, State of Texas or their authorized representatives. The Applicant and the District shall cooperate with auditors and other authorized Comptroller and State of Texas representatives and shall provide them with prompt access to all of such property as requested by the Comptroller or the State of

Texas. By example and not as an exclusion to other breaches or failures, the Applicant's or the District's failure to comply with this Section shall constitute a Material Breach of this Agreement.

C. In addition to and without limitation on the other audit provisions of this Agreement, the acceptance of tax benefits or funds by the Applicant or the District or any other entity or person directly under this Agreement acts as acceptance of the authority of the State Auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. Under the direction of the legislative audit committee, the Applicant or the District or other entity that is the subject of an audit or investigation by the State Auditor must provide the State Auditor with access to any information the State Auditor considers relevant to the investigation or audit. The Parties agree that this Agreement shall for its duration be subject to all rules and procedures of the State Auditor acting under the direction of the legislative audit committee.

D. The Applicant shall include the requirements of this Section 8.6 in its subcontract with any entity whose employees or subcontractors are subject to wage requirements under the Act, the Comptroller's Rules, or this Agreement, or any entity whose employees or subcontractors are included in the Applicant's compliance with job creation or wage standard requirement of the Act, the Comptroller's Rules, or this Agreement.

Section 8.7. FALSE STATEMENTS; BREACH OF REPRESENTATIONS. The Parties acknowledge that this Agreement has been negotiated, and is being executed, in reliance upon the information contained in the Application, and any supplements or amendments thereto, without which the Comptroller would not have approved this Agreement and the District would not have executed this Agreement. By signature to this Agreement, the Applicant:

A. represents and warrants that all information, facts, and representations contained in the Application are true and correct to the best of its knowledge;

B. agrees and acknowledges that the Application and all related attachments and schedules are included by reference in this Agreement as if fully set forth herein; and

C. acknowledges that if the Applicant submitted its Application with a false statement, signs this Agreement with a false statement, or submits a report with a false statement, or it is subsequently determined that the Applicant has violated any of the representations, warranties, guarantees, certifications, or affirmations included in the Application or this Agreement, the Applicant shall have materially breached this Agreement and the Agreement shall be invalid and void except for the enforcement of the provisions required by Section 9.2 of this Agreement.

ARTICLE IX MATERIAL BREACH OR EARLY TERMINATION

Section 9.1. EVENTS CONSTITUTING MATERIAL BREACH OF AGREEMENT. The Applicant shall be in Material Breach of this Agreement if it commits one or more of the following acts or omissions (each a "Material Breach"):

O. The Applicant failed to comply with the conditions included in the certificate for limitation issued by the Comptroller.

Section 9.2. DETERMINATION OF BREACH AND TERMINATION OF AGREEMENT.

A. Prior to making a determination that the Applicant has failed to comply in any material respect with the terms of this Agreement or to meet any material obligation under this Agreement, the District shall provide the Applicant with a written notice of the facts which it believes have caused the breach of this Agreement, and if cure is possible, the cure proposed by the District. After receipt of the notice, the Applicant shall be given ninety (90) days to present any facts or arguments to the Board of Managers showing that it is not in breach of its obligations under this Agreement, or that it has cured or undertaken to cure any such breach.

B. If the Board of Managers is not satisfied with such response or that such breach has been cured, then the Board of Managers shall, after reasonable notice to the Applicant, conduct a hearing called and held for the purpose of determining whether such breach has occurred and, if so, whether such breach has been cured. At any such hearing, the Applicant shall have the opportunity, together with their counsel, to be heard before the Board of Managers. At the hearing, the Board of Managers shall make findings as to:

- i. whether or not a breach of this Agreement has occurred;
- ii. whether or not such breach is a Material Breach;
- iii. the date such breach occurred, if any;
- iv. whether or not any such breach has been cured; and

Section 9.3. DISPUTE RESOLUTION.

A. After receipt of notice of the Board of Trustee's Determination of Breach and Notice of Contract Termination under Section 9.2, the Applicant shall have sixty (60) days in which either to tender payment or evidence of its efforts to cure, or to initiate mediation of the dispute by written notice to the District, in which case the District and the Applicant shall be required to make a good faith effort to resolve, without resort to litigation and within sixty (60) days after the Applicant initiates mediation, such dispute through mediation with a mutually agreeable mediator and at a mutually convenient time and place for the mediation. If the Parties are unable to agree on a mediator, a mediator shall be selected by the senior state district court judge

then presiding in Jefferson County, Texas. The Parties agree to sign a document that provides the mediator and the mediation will be governed by the provisions of Chapter 154 of the TEXAS CIVIL PRACTICE AND REMEDIES CODE and such other rules as the mediator shall prescribe. With respect to such mediation, (i) the District shall bear one-half of such mediator's fees and expenses and the Applicant shall bear one-half of such mediator's fees and expenses, and (ii) otherwise each Party shall bear all of its costs and expenses (including attorneys' fees) incurred in connection with such mediation.

B. In the event that any mediation is not successful in resolving the dispute or that payment is not received within the time period described for mediation in Section 9.3.A, either the District or the Applicant may seek a judicial declaration of their respective rights and duties under this Agreement or otherwise, in a judicial proceeding in a state district court in Jefferson County, assert any rights or defenses, or seek any remedy in law or in equity, against the other Party with respect to any claim relating to any breach, default, or nonperformance of any contract, agreement or undertaking made by a Party pursuant to this Agreement.

Section 9.4. CONSEQUENCES OF EARLY TERMINATION OR OTHER BREACH BY APPLICANT.

A. In the event that the Applicant terminates this Agreement without the consent of the District, except as provided in Section 7.2 of this Agreement, the Applicant shall pay to the District liquidated damages for such failure within thirty (30) days after receipt of the notice of breach.

B. In the event that the District determines that the Applicant has failed to comply in any material respect with the terms of this Agreement or to meet any material obligation under this Agreement, the Applicant shall pay to the District liquidated damages, as calculated by Section 9.4.C, prior to, and the District may terminate the Agreement effective on the later of: (i) the expiration of the sixty (60) days provided for in Section 9.3.A, and (ii) thirty (30) days after any mediation and judicial proceedings initiated pursuant to Sections 9.3.A and 9.3.B are resolved in favor of the District.

C. The sum of liquidated damages due and payable shall be the sum total of the District ad valorem taxes for all of the Tax Years for which a tax limitation was granted pursuant to this Agreement prior to the year in which the default occurs that otherwise would have been due and payable by the Applicant to the District without the benefit of this Agreement, including penalty and interest, as calculated in accordance with Section 9.4.E. For purposes of this liquidated damages calculation, the Applicant shall be entitled to a credit for all payments made to the District

pursuant to Articles IV, V, and VI. Upon payment of such liquidated damages, the Applicant's obligations under this Agreement shall be deemed fully satisfied, and such payment shall constitute the District's sole remedy.

D. In the event that the District determines that the Applicant has committed a Material Breach identified in Section 9.1, after the notice and mediation periods provided by Sections 9.2 and 9.3, then the District may, in addition to the payment of liquidated damages required pursuant to Section 9.4.C, terminate this Agreement.

E. In determining the amount of penalty or interest, or both, due in the event of a breach of this Agreement, the District shall first determine the base amount of recaptured taxes less all credits under Section 9.4.C owed for each Tax Year during the Tax Limitation Period. The District shall calculate penalty or interest for each Tax Year during the Tax Limitation Period in accordance with the methodology set forth in Chapter 33 of the TEXAS TAX CODE, as if the base amount calculated for such Tax Year less all credits under Section 9.4.C had become due and payable on February 1 of the calendar year following such Tax Year. Penalties on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(a) of the TEXAS TAX CODE, or its successor statute. Interest on said amounts shall be calculated in accordance with the methodology set forth in Section 33.01(c) of the TEXAS TAX CODE, or its successor statute.

Section 9.5. LIMITATION OF OTHER DAMAGES. Notwithstanding anything contained in this Agreement to the contrary, in the event of default or breach of this Agreement by the Applicant, the District's damages for such a default shall under no circumstances exceed the amounts calculated under Section 9.4. In addition, the District's sole right of equitable relief under this Agreement shall be its right to terminate this Agreement. The Parties further agree that the limitation of damages and remedies set forth in this Section 9.5 shall be the sole and exclusive remedies available to the District, whether at law or under principles of equity.

Section 9.6. STATUTORY PENALTY FOR INADEQUATE QUALIFIED INVESTMENT. Pursuant to Section 313.0275 of the TEXAS TAX CODE, in the event that the Applicant fails to make \$30,000,000 of Qualified Investment, in whole or in part, during the Qualifying Time Period, the Applicant is liable to the State for a penalty. The amount of the penalty is the amount determined by: (i) multiplying the maintenance and operations tax rate of the school district for that tax year that the penalty is due by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the Tax Year the penalty is due. This penalty shall be paid on or before February 1 of the year following the expiration of the Qualifying Time Period and is subject to the delinquent penalty provisions of Section 33.01 of the TEXAS TAX CODE. The Comptroller may grant a waiver of this penalty in the event of Force Majeure which prevents compliance with this provision.

Section 9.7. REMEDY FOR FAILURE TO CREATE AND MAINTAIN REQUIRED NEW QUALIFYING JOBS. Pursuant to Section 313.0276 of the TEXAS TAX CODE, for any full Tax Year that commences after the project has become operational, in the event that it has been determined that the Applicant has failed to meet the job creation or retention requirements defined in Sections 9.1.C, the Applicant shall not be deemed to be in Material Breach of this Agreement until such time as the Comptroller has made a determination to rescind this Agreement under Section

313.0276 of TEXAS TAX CODE, and that determination is final.

Section 9.8. REMEDY FOR FAILURE TO CREATE AND MAINTAIN COMMITTED NEW QUALIFYING JOBS.

A. In the event that the Applicant fails to create and maintain the number of New Qualifying Jobs specified in Schedule C of the Application, an event constituting a Material Breach as defined in Section 9.1.D, the Applicant and the District may elect to remedy the Material Breach through a penalty payment.

B. Following the notice and mediation periods provided by Sections 9.2 and 9.3, the District may request the Applicant to make a payment to the State in an amount equal to: (i) multiplying the maintenance and operations tax rate of the school district for that Tax Year that the Material Breach occurs by (ii) the amount obtained after subtracting (a) the Tax Limitation Amount identified in Section 2.4.B from (b) the market value of the property identified on the Appraisal District's records for each tax year the Material Breach occurs.

C. In the event that there is no tax limitation in place for the tax year that the Material Breach occurs, the payment to the State shall be in an amount equal to: (i) multiplying the maintenance and operations tax rate of the School District for each tax year that the Material Breach occurs by (ii) the amount obtained after subtracting (a) the tax limitation amount identified in Section 2.4.B from (b) the Market Value of the property identified on the Appraisal District's records for the last Tax Year for which the Applicant received a tax limitation.

D. The penalty shall be paid no later than 30 days after the notice of breach and is subject to the delinquent penalty provisions of Section 33.01 of the TEXAS TAX CODE.

Upon such determination that any term or other provision is invalid, illegal, or incapable of being enforced, the Parties hereto shall negotiate in good faith to modify this Agreement in an acceptable manner so as to effect the original intent of the Parties as closely as possible so that the transactions contemplated hereby are fulfilled to the extent possible. As used in this Section 10.7, the term "Law" shall mean any applicable statute, law (including common law), ordinance, regulation, rule, ruling, order, writ, injunction, decree, or other official act of or by any federal, state or local government, governmental department, commission, board, bureau, agency, regulatory authority, instrumentality, or judicial or administrative body having jurisdiction over the matter or matters in question.
