and Analysis
Form 50-296-A

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at www.texasahead.org/tax_programs/chapter313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Detailed Description of the Project

Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

Albercas Wind Energy II, LLC (Albercas) is requesting an appraised value limitation from Webb Consolidated Independent School District (ISD) for the Albercas Wind Project (the “Project”), a proposed wind powered electric generating facility in Webb County. The proposed Webb CISD Project (this application) will be constructed within the Webb County Wind Energy Reinvestment Zone No. 4 that was established by Webb County on December 13, 2013. A map showing the location of the project is included in TAB 11.

The proposed Project is anticipated to have a capacity of 200 MW located in Webb CISD. The exact number and location of wind turbines and size of each turbine will vary depending upon ongoing wind and siting analysis, turbine manufacturer’s availability, prices, and the megawatt generating capacity of the Project when completed. Current plans are to install 2.0 MW GE turbines with an estimated 100 turbines located in Webb CISD. Albercas is also constructing transmission generation tie line in Webb CISD which is estimated to be approximately 12 miles in length. The Applicant requests a value limitation for all materials, facilities and equipment installed for the Project, including but not limited to, wind turbines, towers, foundations, roadways, buildings and offices, meteorological towers, collection system, communication system, electric substation, electric switchyard, electric transformers, transmission line and associated towers, and interconnection facilities.

Full construction of the Project is anticipated to begin in the 2nd Quarter of 2016 with completion by December 31, 2016.

**NOTE:* The map in TAB 11 shows the potential locations of 100 of the wind turbines, a collector substation within Webb CISD boundaries; however, the final number of turbines and the location of each of these facilities is dependent upon ongoing negotiations with power purchasers and other factors.

TAB 5

Documentation to assist in determining if limitation is a determining factor.

NextEra Energy Resources (NEER), one of the largest wholesale generators of electric power in the U.S., with nearly 19,800 MW of generating capacity across 24 states and four Canadian provinces as of February 2015. NEER produces the majority of its electricity from clean and renewable sources, including wind and solar. NEER also provides full energy and capacity requirements services, engages in power and gas marketing and trading activities, participates in natural gas, natural gas liquids and oil production and pipeline infrastructure development and owns a retail electricity provider. NEER has a long term commitment to both wind and solar with an outlook to significantly expand our fleet of clean energy generating capacity.

NEER is keen to develop and build the proposed Albercas Project as per this application, but since this Project is still in the early stages of development, further investment could be, if necessary, redeployed to other counties and states competing for similar wind projects. NextEra is active in states throughout the Great Plains and southwest, where each project individually competes for a finite pool of capital investment. State and local tax incentives contribute to the lowering of the cost of power sold to our customers and making our investment more viable and marketable. We have over 40 wind sites in development throughout the country and are continually comparing investment opportunities, rate of return, and market viability of each project based upon project financial metrics.

Albercas has presently secured a Power Purchase Agreement (PPA) for one-third of the estimated design capacity. Due to the extremely competitive power market in ERCOT this PPA's economic model assumptions are based on the Project securing this Chapter 313 appraised value limitation and other local tax incentives. The property tax liabilities of a project without tax incentives in Texas lowers the return to investors and financiers to an unacceptable level at today's contracted power rates under a PPA. A signed PPA in the Texas market is at a much lower rate than other states because of competitively low electricity prices. Both parties of the PPA have an escape clause if the terms of the PPA cannot be met. Without the tax incentives in Texas, a project with a PPA becomes non financeable. Therefore, this appraised value limitation is critical to the ability of the proposed Project to move forward as currently sited.

Description of Qualified Investment

Albercas Wind Energy II, LLC plans to construct a 200 MW wind farm in Webb County.

This application covers all qualified property within Webb CISD necessary for the commercial operations of the proposed wind farm described in Tab 4. Two hundred megawatts (200 MW) will be located in Webb CISD. Turbine placement is subject to change but for purposes of this application, the Project anticipates using 2.0 MW turbines manufactured by GE. Albercas is also constructing approximately 12 miles of generation transmission tie line that will be in Webb CISD.

This application covers all qualified investment and qualified property necessary for the commercial operations of the wind farm.

Qualified Investment and qualified property includes, but is not limited to, turbines, towers, foundations, transformers, pad mounts, buildings and offices, underground collection systems, electric substation, transmission lines, electrical interconnections, met towers, roads, spare parts, and control systems necessary for commercial generation of electricity.

The map in TAB 11 shows the proposed project area with the preliminary turbine locations for 100 wind turbines. The exact placement of these turbines is subject to ongoing planning, soil studies, and engineering and will be determined before construction begins.

Re: Chapter 313 Job Waiver Request

Dear Dr. Sanchez,

Albercas Wind Energy II, LLC (Albercas) requests that the Webb Consolidated Independent School District's Board of Trustees waive the job requirement provision as allowed by Section 313.025(f-1) of the tax code. This waiver would be based on the school district's board findings that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application.

Albercas requests that the Webb Consolidated Independent School District makes such a finding and waive the job creation requirement for 10 permanent jobs. In line with industry standards for job requirements, Albercas has committed to create 7 total jobs for the project, both of which will be in Webb CISD.

Wind projects create a large number of full and part-time, but temporary jobs during the construction phase of the project, but require a relatively small number of highly skilled technicians to operate and maintain the project after commercial operation commences.

The number of jobs specified in this application is in line with the industry standards for a wind farm of this scope and size. The industry standard for employment is typically one full-time employee for approximately every 10 - 15 turbines. This number may vary depending on the operations and maintenance requirements of the turbines selected as well as the support and technical assistance offered by the turbine manufacturer. This is evidenced by previously filed limitation agreement applications by wind developers who also requested a waiver of the job requirements.

Sincerely,

A handwritten signature in black ink, reading "J. Weston Jackson", with a long horizontal flourish extending to the right.

3.1 Authorized Facility: Abatement may be eligible for new facilities and improvements to existing facilities for the purpose of Modernization or Expansion.

3.2 Creation of New Value: Abatement may only be granted for the Added Value of eligible property improvements based on valuations as determined by the Webb County Appraisal District and subject to and listed in an abatement agreement between County and the property owner and lessee, if required, subject to such limitations as said jurisdiction may require.

3.3 Eligible Property: Abatement may be extended to the Added Value of real and tangible personal property as noted in Section 3.6.

3.4 Ineligible Property: The following types of property shall be fully taxable and ineligible for abatement: Land; inventories; supplies; tools; furnishings, and other forms of movable personal property; vehicles; vessels; aircraft; housing; hotel accommodations; deferred maintenance investments; property with an economic life of less than 15 years; property owned used by the state of Texas or its political subdivisions or by any organization owned, operated or directed by a political subdivision of the state of Texas, or any property exempted by local, state or federal law. When such exempted property includes manufacturing machinery and equipment listed in the Investment Budget (as required in "Application"), then the value of such property may not be included toward the achievement of investment or valuation thresholds set in the Agreement.

3.5 Types Of Industry: In keeping with the broad based approach to economic development, agreements will not be restricted to any particular type of industry. Preference will,

however, be given to manufacturing and any other type of industry which provides relatively higher wages. In keeping with obtaining the highest cost-benefit, tax abatements will be granted on the basis of (a) new jobs and (b) additional investments, for a maximum term of 10 years.

3.6 Period and Percentage of Abatement:

THE BASIC FORMULA:

New Permanent Full Time Jobs	Added Value in Real Property, as assessed by Webb County Appraisal District	Percent of Abatement	Term
50 to 100 jobs	\$1 million up to \$2.5 million	25%	5 years
101 to 150 jobs	over \$2.5 million up to \$5 million	50%	5 years
151 to 200 jobs	over \$5 million up to \$10 million	75%	5 years
Over 200 jobs	Over \$10 million	100%	5 years
New Permanent Full Time Jobs	Added Value in Real and Tangible Personal Property, as Assessed by Webb County Appraisal District	Percent of Abatement	Term
Over 200 Jobs	Over \$20 million	100%	5 years

In cases where the required additional investment exceeds \$10 million and the number of jobs is not expected to be met, an abatement may be allowed utilizing the following criteria:

New Permanent Full Time Jobs	Added Value in Real Property, as assessed by Webb County Appraisal District	Percent of Abatement	Term
At least 10 jobs	Over \$10 million	100%	Year 1
		80%	Year 2
		60%	Year 3
		40%	Year 4
		20%	Year 5
At least 5 jobs	Over \$50 million	60%	Years 1-5
		40%	Years 6-10

3.7. Living Wage Requirement: In order to count as a permanent full-time job under this tax abatement program, the job should pay employees wages at a minimum level which is equal to two dollars (\$2.00) above the U.S. minimum wage in effect at the time of the agreement. Additional compensation, such as commissions and mileage, will be taken into consideration and will be included in the wages. However, overtime will not be considered.

3.8 Other General Amended Guidelines:

3.8.1 Companies shall pay permanent full time employees with at least 50% of their health benefits.

3.8.2 They must be offered to local companies for the expansion of existing facilities as well as new facilities.

3.8.3 They must be "performance based" to provide cost benefit advantages to Laredo and Webb County.

3.8.4 They must not permit outside companies to unfairly compete with local companies in the same business in the local market: competing companies may be considered if 75% of their customers are outside Laredo/Webb County, or if any other measures are offered which are judged to make the companies compatible with County of Webb interests.

3.8.5 They must be negotiated quickly and in good faith by representatives of all concerned local entities.

3.8.6 They must be contractual and fully and accurately disclosed to the public.

3.8.7 The contracts must be effectively protected by cancellation, recalibration and "claw-back" provisions which would insure the return of the community's funds if the companies default on their part of the agreement, There should however, be no levy of penalties above repayment of actual local costs.

3.9 Negotiation and Variance

3.9.1 Notwithstanding anything to the contrary in these Amended Guidelines, the Webb County Commissioners Court may, depending upon the applicant, grant tax abatements which differ from the Basic Formula contained in Section 3.6 taking into consideration the cost benefit, company's financial statements or D&B rating, past business history, nature of the production process, environmental hazards, cost breakdown of the investment into land, building, equipment, probable project status at the end of 10 years, percent of hiring of local workers, and benefits to be paid to local workers and other criteria deemed appropriate by Webb County Commissioners Court.

3.9.2 The Webb County Commissioners Court further reserves the right to vary the term and percent of abatement from the Basic Formula contained in Section 3.6, on a case by case basis, where the applicant shows unique-circumstances that, in the opinion of Webb County Commissioners Court, meet the economic development goals and objectives of Webb County, Texas.
