Pages 1-9 of Application

Application for Appraised Value Limitation on Qualified Property (Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Detailed description of the project

Formosa Plastics Corporation, Texas, proposes to develop a Polypropylene Unit (PP3 Unit) within the Calhoun County Independent School District.

The project will be constructed on approximately 7.73 acres. The project will be located entirely in Calhoun County and within the Calhoun County Independent School District.

Production of Polypropylene process is a propylene monomer and some ethylene monomer that combine in the presence of catalyst in two horizontal agitated reactors in series to create polypropylene powder. The powder is then fed into an extruder along with a specific additive recipe which gives the polymer its required properties. The polymer is melted and extruded into strands, and then cut into small pellets. These pellets are transported to holding silos to prepare for loading and shipping. The pellets will be transferred to other silos after quality control evaluations then to bagging, boxing or transferred to bulk truck or Seabulk shipping. These pellets are for domestic and export shipping to customers.

Feedstock Sources:

The proposed Polypropylene plant will accept ethylene and propylene from the storage spheres; pipe it into the Reactor system where the Propylene molecules and the Ethylene molecules are form Polypropylene. The plant will consist of piping, instrumentation, reactors, compressors, valves, columns, heat exchangers, mixing/loading tanks and product bagging and loading areas.

Interconnections with neighboring facility:

The connection from the neighboring facility would be the use of steam, water, power from the Utility Unit and Ethylene and Propylene from on-site spheres. Other than the above, the waste water will be sent to the Utilities Department, combined waste water treatment plant, CWTP, for treatment and ensuring compliance with regulations.

Documentation to assist in determining if limitation is a determining factor

The Applicant is a wholly-owned subsidiary of Formosa Plastics Group, Taiwan. As such, the Applicant competes with other members of the Formosa Plastics Group for approval of a portion of the group's capital investment budget to fund the capital investment necessary to construct the Project. Moreover, the Formosa Plastics Group has the ability to invest, locate and develop new projects, such as the one that is the subject of this application, in numerous locations throughout the world.

The Applicant owns and operates the Point Comfort Complex where the Project would be sited on unimproved land if the Point Comfort location were chosen as the site for the Project.

Formosa Plastics takes a disciplined, long-term approach to investing, regardless of the economic cycle and the geographic location. We consistently seek new global investment opportunities that create value for our shareholders. Our business model is to conduct an extensive evaluation before we make any final investment decision. A project team is evaluating these opportunities with a focus on global logistic capabilities, efficiency, scale and site integration. The propose new facility could also be constructed at our Louisiana facility. Formosa Plastics has an entire investment plan for multiple stages of development. Point Comfort has already been chosen for two pieces of the final investment plan, but each unit can be located at any site. The PP3 unit does not require any specific materials that would require the plant to locate in Point Comfort.

Competitive abatement programs for the proposed new facility exist in alternative locations. The impact of the property tax burden on the economic return of the proposed new facility is a critical factor in the Applicant's site selection evaluation and decision, as well as in obtaining approval for the Project internally within the Formosa Plastics group. Calhoun County ISD's maintenance and operations (M&O) tax rate represents approximately 40% of the total property tax burden imposed on taxable property located at the Point Comfort location. Consequently, a limitation on appraised value under Chapter 313 of the Texas Tax Code is a determining factor in the Applicant's decision to invest capital and construct the Project in the State of Texas.

Formosa has made announcements regarding development at the Point Comfort location. These announcements relate to the new projects that have already been approved by Formosa. As stated above, the limitation on appraised value is necessary to the determination to locate at the Point Comfort site.

TAB 7

Description of Qualified Investment

The proposed improvements for which the tax limitation is sought will include the PP3 Unit.

PP3 Unit

Propylene monomer and some ethylene monomer are combined in the presence of catalyst in two horizontal agitated reactors in series to create polypropylene powder. The powder is then fed into an extruder along with a specific additive recipe which gives the polymer its required properties. The polymer is melted and extruded into strands, and then cut into small pellets. These pellets are transported to holding silos to prepare for loading and shipping to customers. The pellets will be transferred to other silos after quality control evaluations then to bagging, boxing or transferred to bulk truck or Seabulk shipping. These pellets are for domestic and export shipping.

The major components of this unit include:

- Propylene and Ethylene Feed Stock Piping
- Reactor Vessels
- Extrusion System
- Blending and Loading Silos
- Product Loading Area
- Compressors
- Pumps
- Instrumentation
- Utility Steam, Electricity, Nitrogen, Water
- Automated Storage and Retrieval System
- Form-Fill Seal Packing Equipment

Section 5

DESIGNATION OF REINVESTMENT ZONE

(a) **Authority to Designate Reinvestment Zones.** Reinvestment zones may be designated by either the Commissioners' Court for property located outside the jurisdiction of any municipality in the County, or by a municipality, if the property is

located within the jurisdiction of such municipality.

(b) **Application for County Designated Reinvestment Zone.** An application to the County for designation of a Reinvestment Zone may be combined with the application for business incentives. The application must include information to support the required findings in subsection (c), inclusive of this section. It must also include a map showing the boundaries of the proposed reinvestment zone and a legal description of the proposed reinvestment zone. Any information contained in the application for business incentives that answers the requirements for designation of a reinvestment zone does not need to be duplicated, if the application for designation of a reinvestment zone and business incentives are combined in one application.

(c) **Designation.** The Commissioners' Court may not designate an area as a reinvestment zone until:

(1) The Commissioners' Court has held a public hearing on the designation at which time interested persons shall be entitled to speak and present evidence for or against the designation; and

(2) The Commissioners' Court must make the following findings in order to designate an area as a reinvestment zone:

(a) The designation would contribute to the retention or expansion of primary employment; or,

(b) The designation would attract major investment in the zone that would be a benefit to the property to be included in the zone; and,

(c) The designation would contribute to the economic development of the county.

(d) **Notice of Hearing.** Notice of the hearing shall be clearly identified on the Commissioners' Court agenda. In addition, notice shall issue as follows:

(1) Notice of the hearing must be published in a newspaper of general circulation in the County not later than the 7th day before the date of the hearing; and

(2) Written notice of the hearing shall be delivered to the presiding officer of the governing body of each taxing unit that includes in its boundaries real property that is included in the proposed reinvestment zone. Such notice

shall be delivered at least 7 days before the hearing. Pursuant to Tex Tax Code Ann. §312.201(e) this notice shall be presumed delivered when placed in the mail postage paid and properly addressed to the appropriate presiding officer.

(e) **Municipality Designated Reinvestment Zones.** If the reinvestment zone is designated by a municipality, to be eligible for tax abatement as a business incentive with the County, the property must be located in a reinvestment zone and the municipality must have entered into an agreement for the same project with the applicant no more than ninety days before the County enters into an agreement with the same applicant for the same project.

(f) **Date of Expiration.** The designation of a reinvestment zone shall expire five (5) years after the date of designation. However, the designation of a reinvestment zone that has expired may be renewed by the County or municipality for periods not to exceed five (5) years. The expiration of the designation of a reinvestment zone shall not affect existing agreements made under these Guidelines and Criteria.

Section 6

AGREEMENTS

(a) **Resolution of Commissioners' Court.** After approval, the Commissioners' Court shall formally pass a resolution and execute an agreement with the owner of the facility and lessee as required, which shall include those matters contained in Texas Tax Code §312.205 and any other terms and conditions in the best interests of the County.

(b) **Notice to Other Taxing Jurisdictions.** If the County is the designating authority, it shall deliver written notice to the presiding officer of the governing body of each other taxing unit in which the property that is the subject of the agreement is located that the County intends to enter into an agreement. The notice must be delivered at least 7 days before the County enters into the agreement. The notice must also include a copy of the proposed agreement. The notice shall be presumed to be delivered when placed in the mail postage paid and properly addressed to the appropriate presiding officer.

(c) **Execution/Effective Date.** After giving the notices required above, and after making

the necessary findings, the County may, in its discretion, approve and execute the agreement. The effective date of the agreement shall be the date that the County's designated representative or official executes the agreement if the County is the designating authority. If a municipality is the designating authority, the effective date of the agreement shall be the date that the City's designated representative or official executes the agreement.

Section 7

RECAPTURE

(a) **Conditions of Default. Cure and Termination.** Should the Commissioners' Court determine that the Taxpayer is in default according to the terms and conditions of its agreement, the Commissioners' Court shall notify the Taxpayer in writing at the address stated in the agreement, and if such default is not cured within sixty (60) days from the date of such notice ("Cure Period"), then the agreement may be terminated by the Commissioners' Court. Provided, that upon proof of a curative effort commencing within sixty (60) days, if construction is required, the Commissioners' Court may extend the time to complete the curative work, based upon reasonable construction requirements.

(b) **Elements of Default.** The following shall be considered elements of default, in the event that the Taxpayer:

- (1) Allows its ad valorem taxes owed to Calhoun County to become delinquent without timely and proper protest and/or contest; or
- (2) Violates any of the terms and conditions of the abatement agreement, or any prior or subsequent agreement with the County, or any other taxing jurisdiction that has granted an agreement to the Taxpayer for any project that the Commissioners' Court has also granted business incentives; or
- (3) Discontinues producing product or service at the improvements subject to abatement and described in the application, for any reason excepting fire, explosion or other casualty or accident or natural disaster for a period of one year during the abatement period after the facility is completed and begins producing product or service.

(4) Violates any written term, covenant, condition, agreement, or promise of a gift or donation made by the taxpayer to the County, although such may be extraneous to the agreement, and even though same might be otherwise legally unenforceable; or

(5) Makes any material misrepresentations, either in the application or agreement.

(c) **Termination.** If, after written notice, the Taxpayer fails to cure within the prescribed period any specified default, such failure shall be grounds for termination for cause. Termination of the agreement for cause shall be retroactive to the beginning of the agreement. Termination shall be effected by resolution of the Commissioners' Court and written notice mailed to the Taxpayer.

(d) **Non Waiver.** In the event the County fails to act on or enforce any element or breach that is identified as a default, such failure to act shall not be a waiver of the County's right to subsequently enforce the same default or any other prior or subsequent default.

(e) **Recapture.** On termination for cause, the Taxpayer shall then become liable for the payment of all taxes that would have otherwise become due but for the abatement agreement for all calendar years during which the abatement agreement was in effect. Said taxes shall be paid to the Calhoun County Consolidated Tax Office for the credit of Calhoun County within sixty (60) days from the date of receipt of notice of termination. All such taxes due shall include statutory penalty and interest from the date they would otherwise have become delinquent but for the agreement, until the date they are actually paid.

Section 8

ADMINISTRATION

(a) **Duties of Chief Appraiser.** The Chief Appraiser of the County shall, as a normal consequence of his duties, annually determine an assessment of the real and personal property comprising the reinvestment zone. Each year, on or before April 1, the Taxpayer receiving abatement shall furnish the Chief Appraiser with such information as may be

reasonably requested. Once value has been established, the Chief Appraiser shall notify the affected taxing jurisdictions, which have granted tax abatement as a business incentive in the reinvestment zone, of the amount of the appraisal.

(b) **Compliance Inspections.** All compliance inspections will be made only after giving twenty-four (24) hours notice and will only be conducted in such manner as not to unreasonably interfere with the construction and/or operation of the facility. All inspections will be made with one or more representatives of the company or individual and in accordance with its safety standards.

(c) **Annual Evaluations** Upon completion of construction, the Commissioners' Court of Calhoun County, or their designees, shall annually evaluate each facility receiving abatement to ensure compliance with the agreement.

(d) **Notice Requirements.** Any notice required to be given to Calhoun County hereunder shall be in writing, and mailed or personally delivered to the County Judge. Notices to the Taxpayer shall be in writing, and addressed to its designated representative at the address provided in its application or the agreement.

Section 9

MISCELLANEOUS

(a) **Variance.** An application for a variance from the provisions of these Guidelines and Criteria may be made in written form to the Commissioners' Court. The total duration of abatement shall in no instance exceed ten (10) consecutive tax years commencing January 1 following the effective date of the agreement, including any extension. Such request shall include a complete description of the circumstances explaining why the applicant should be granted such variance. Approval of a request for variance requires at least a three-fourths (3/4) vote of the Commissioners' Court.

(b) **Assignments.** An abatement agreement may be transferred and assigned by the holder to a new owner or lessee of the same facility, subject to obtaining written approval by resolution of the Commissioners' Court. Approval shall be conditioned upon the assignee providing whatever proof the Commissioners' Court may require to show the assignee's financial capability to carry out all the terms and conditions of the agreement.

The County reserves the right to require such additional information as it may deem appropriate to determine not only the assignee's financial capability to carry out the terms and conditions of the agreement, but also its experience and historical record to determine that it is in fact capable of operating the project subject to the abatement in such a manner that it can reasonably be expected to strictly comply with every term, covenant, condition and assurance contained in the agreement. Further, the assignee shall agree in writing by amendment to the original agreement that it shall be bound by all the terms, covenants and conditions contained in the original agreement. No assignment or transfer shall be approved if the parties to the existing agreement, the new owner or new lessee are liable to Calhoun County or any other taxing unit affected by the agreement for delinquent taxes, or otherwise in default of any of the terms, covenants or conditions contained in the agreement. Subject to the foregoing conditions, the Commissioners' Court shall not unreasonably withhold approval of any proposed assignment. Any approval of assignment of the agreement shall not release any previous Taxpayer who has been a party to the agreement from its obligations under the agreement.

(c) **Application for Exemption.** It shall be the responsibility of the Taxpayer to perfect any right of exemption as a result of any agreements entered into with the County. For each year in which abatement has been authorized by the County under the agreement, it shall be the responsibility of the Taxpayer to file its annual application with the Calhoun County Appraisal District for property exemption in accordance with the Texas Tax Code and related administrative regulations.

(d) **Effective Date.** These Guidelines and Criteria shall be effective for two (2) years, from June 25, 2017 through June 24, 2019, inclusive.

(e) **Sunset Provision.** At the end of the two year effective period of these Guidelines and Criteria, all agreements created pursuant to these provisions will be reviewed by the Calhoun County Commissioners' Court to determine whether the goals have been achieved. Based upon that review, the Guidelines and Criteria may be modified, renewed or eliminated. In the event that these Guidelines and Criteria are not modified or renewed, they shall automatically terminate effective June 24, 2019.

(f) **Effect of Modification or Termination.** The modification or termination of these Guidelines and Criteria shall have no effect upon existing agreements entered into while these Guidelines and Criteria are in effect.

(g) **Subtitles.** The use of subtitles in these Guidelines and Criteria is strictly for convenience, and shall have no legal significance whatsoever. The use of the singular shall include the plural and the use of plural shall include the singular when appropriate. The use of any reference to gender shall include any and all other genders when appropriate.

(h) **Severability.** In the event any paragraph, clause, phrase or other provision of these Guidelines and Criteria should be declared to be unconstitutional, void or otherwise unenforceable the remaining provisions shall remain in full force and effect as if the unconstitutional, void or otherwise unenforceable provisions had not been included.
