Pages 1 through 7 of application.

Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Detailed Description of the Project

Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

Prospero Solar II, LLC (Prospero Solar II) is requesting an appraised value limitation from Andrews Independent School District (ISD) for the Prospero Solar II Project (the "Project"), a proposed solar powered electric generating facility in Andrews County. The proposed Andrews ISD Project (this application) will be constructed within a Reinvestment Zone that will be established by Andrews County. A map showing the location of the project is included in TAB 11.

The proposed Project is anticipated to have a capacity of approximately 250 MW located in Andrews ISD. The exact number and location of panels and inverters will vary depending upon ongoing siting analysis, manufacturer's availability, prices, and the megawatt generating capacity of the Project when completed. Current estimated plans are to install approximately 752,388 PV modules and 80 inverters with all improvements located in Andrews ISD. The Applicant requests a value limitation for all facilities and equipment installed for the Project, including; solar modules/panels, racking and mounting structures, inverters, combiner boxes, meteorological equipment, foundations, roadways, O&M building, paving, fencing, collection system, electrical substations, generation transmission tie line and associated towers, interconnection facilities and all eligible ancillary and necessary equipment.

Full construction of the Project is anticipated to begin in the 3rd Quarter of 2020 with completion by December 31, 2021.

**NOTE:* The map in TAB 11 shows the potential locations of improvements within Andrews ISD boundaries; however, the final number of panels and inverters and the location of each of these facilities is dependent upon ongoing negotiations with power purchasers and other factors.

TAB 5

Documentation to assist in determining if limitation is a determining factor.

The applicant's parent company, Longroad Development, LLC, is a national solar developer with the ability to locate projects of this type in other counties and states in the US with strong solar characteristics. The applicant is actively developing other projects throughout the US. The applicant requires this appraised value limitation in order to move forward with constructing this project in Texas. Specifically, without the available tax incentives, the economics of the project become unappealing to investors and the likelihood of constructing the project in Texas becomes unlikely.

Longroad is keen to develop and build the proposed Prospero Solar II Project as per this application, but since this Project is still in the early stages of development, further investment could be, if necessary, redeployed to other counties and states competing for similar solar projects. Longroad is active in states throughout the United States, where each project individually competes for a finite pool of capital investment. State and local tax incentives contribute to the lowering of the cost of power sold to our customers and making our investment more viable and marketable. Longroad has various projects in development throughout the country and are continually comparing investment opportunities, rate of return, and market viability of each project based upon project financial metrics. For example, Longroad currently has ongoing project developments in many states, including but not limited to, Alabama, Arizona, California, Nevada, North Carolina and Utah.

Due to the extremely competitive power market in Texas most if not all PPA's economic model assumptions are based on the Project securing this Chapter 313 appraised value limitation and other local tax incentives. The property tax liabilities of a project without tax incentives in Texas lowers the return to investors and financiers to an unacceptable level at today's contracted power rates under a PPA. A signed PPA in the Texas market is at a much lower rate than other states because of competitively low electricity prices. Both parties of the PPA have an escape clause if the terms of the PPA cannot be met. Without the tax incentives in Texas, a project with a PPA becomes non-financeable. Therefore, this appraised value limitation is critical to the ability of the proposed Project to move forward as currently sited.

TAB 7

Description of Qualified Investment

Prospero Solar II, LLC plans to construct a 250 MW solar farm in Andrews County.

This application covers all qualified property within Andrews ISD necessary for the commercial operations of the proposed solar farm described in Tab 4. Two hundred and fifty megawatts (250 MW) will be located in Andrews ISD. Panel placement is subject to change but for purposes of this application, the Project anticipates using approximately 752,388 PV modules or equivalent and 80 inverters.

This application covers all qualified investment and qualified property necessary for the commercial operations of the solar farm.

Qualified Investment and qualified property includes; solar modules/panels, racking and mounting structures, inverters, combiner boxes, meteorological equipment, foundations, roadways, O&M building, paving, fencing, collection system, electrical substations, generation transmission tie line and associated towers, interconnection facilities, control systems necessary for commercial generation of electricity and all eligible ancillary and necessary equipment.

**NOTE:* The map in TAB 11 shows the potential locations of improvements within Andrews ISD boundaries; however, the final number of panels and inverters and the location of each of these facilities is dependent upon ongoing negotiations with power purchasers and other factors.

Request for Waiver of Job Creation Requirement and supporting information (if applicable)

See Attached

January 14, 2020

Dr. Bobby Azam, Superintendent
Andrews Independent School District
405 NW 3rd St.
Andrews, TX 79714

Re: Chapter 313 Job Waiver Request

Dear Dr. Azam,

Prospero Solar II, LLC requests that the Andrews Independent School District's Board of Trustees waive the job requirement provision as allowed by Section 313.025(f-1) of the tax code. This waiver would be based on the school district's board findings that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application.

Prospero Solar II, LLC requests that the Andrews ISD makes such a finding and waive the job creation requirement for 10 permanent jobs. In line with industry standards for job requirements, Prospero Solar II, LLC has committed to create one qualified job in Andrews ISD.

Solar projects create a large number of full and part-time, but temporary, jobs during the construction phase of the project, but require a relatively small number of highly skilled technicians to operate and maintain the project after commercial operation commences. The number of jobs committed to in this application is in line with the industry standards for a solar project this size. This is evidenced by previously certified limitation agreement applications by solar developers who also requested a waiver of the job requirements. In addition, there are educational materials and other documentation that also suggest that Prospero Solar II, LLC has the appropriate number of jobs for this project at one permanent job per 250MW of installed capacity.

The permanent employees of a solar project maintain and service PV panels, and inverters, underground electrical connections, substations and other infrastructure associated with the safe and reliable operation of the project. In addition to the onsite employees, there may be managers or technicians who support the project from offsite locations.

Sincerely,

- a) Limit the discretion of the governing body to decide whether to enter into a specific tax abatement agreement;
 - b) Limit the discretion of the governing body to delegate to its employees the authority to determine whether or not the governing body should consider a particular application or request for tax abatement; or,
 - c) Create any property, contract, or other legal right in any person to have the governing body consider or grant a specific application or request for tax abatement.
13. The burden to demonstrate that an application for tax abatement should be granted shall be upon the applicant.  3. A notice, as above described in Subparagraph 2, is presumed delivered when placed in the mail, postage paid and properly addressed to the appropriate presiding officer.  4. Failure to deliver the notice does not affect the validity of the agreement.

SECTION VI. Application:

1. Any present owner of taxable property located within an Affected Jurisdiction may apply for tax abatement by filing an application with the County Judge County of Andrews, when the Real Property or Tangible Personal Property for which abatement is sought is located within the County of Andrews but outside of the City limits or extraterritorial jurisdiction of the City of Andrews or with the City Manager when the Real Property or Tangible Personal Property for which abatement is sought is located within the City limits of the City of Andrews.

In the event that applicant or owner meets this burden and the Affected Jurisdiction is satisfied that the discontinuance of the production of goods or services was the result of events beyond the control of the applicant or owner, then such applicant or owner shall have a period of one (1) year in which to resume the production of goods and services. In the event that the applicant or owner fails to resume the production of goods or services within one (1) year, then the Tax Abatement Agreement shall terminate and the Abatement of all taxes shall likewise terminate. Taxes abated during the calendar year in which termination takes place shall be payable to each Affected Jurisdiction by no later than January 31st of the following year. Taxes abated in years prior to the year of termination shall be payable to each Affected Jurisdiction within ninety (90) days of the date of termination. The one year time period, hereinabove mentioned, shall commence upon written notification from the Affected Jurisdiction to the applicant or owner.
2. In the event that the applicant or owner has entered into a Tax Abatement Agreement to make improvements to a facility of any type described in Section 1 above, but fails to undertake or complete such improvements, then in such event the Affected Jurisdiction to whom the application for tax abatement was directed shall give the applicant or owner ninety (90) days notice of such failure. The applicant or owner shall demonstrate to the satisfaction of the Affected Jurisdiction, above mentioned, that the applicant or owner has commenced to cure such failure within the ninety (90) days above mentioned. In the event that the applicant or owner fails to demonstrate that he is taking affirmative action to cure his failure, then in such event the Tax Abatement Agreement shall terminate and all abatement of taxes shall likewise terminate. Taxes abated during the calendar year in which termination takes place shall be payable to each Affected Jurisdiction by no later than January 31st of the following year. Taxes abated in years prior to the year of termination shall be payable to each Affected Jurisdiction within ninety (90) days of the date of termination.

3. In the event that the Affected Jurisdiction to whom application for tax abatement was directed determines that the applicant or owner is in default of any of the terms or conditions contained in the Tax Abatement Agreement, then in such event the Affected Jurisdiction, shall give the applicant or owner ninety (90) days written notice to cure such default. In the event such default is not cured to the satisfaction of the Affected Jurisdiction within the ninety (90) days notice period, then the Tax Abatement Agreement shall terminate and all abatement of taxes shall likewise terminate. Taxes abated during the calendar year in which termination takes place shall be payable to each Affected Jurisdiction by no later than January 31st of the following year. Taxes abated in years prior to the year of termination shall be payable to each Affected Jurisdiction within ninety (90) days of the date of termination.
4. In the event that the applicant or owner allows ad valorem taxes on property ineligible for tax abatement owed to any Affected Jurisdiction to become delinquent and fails to timely and properly follow the legal procedures for their protest or contest, then in such event the Tax Abatement Agreement shall terminate and all abatement of taxes shall likewise terminate. Taxes abated during the calendar year in which termination, under this subparagraph, takes place shall be payable to each Affected Jurisdiction by no later than January 31st of the following year. Taxes abated in years prior to the year of termination shall be payable to each Affected Jurisdiction within ninety (90) days of the date of termination.
5. In the event that the applicant or owner, who has executed a Tax Abatement Agreement with any Affected Jurisdiction, relocates the business for which tax abatement has been granted to a location outside of the designated Reinvestment Zone, then in such event, the Tax Abatement Agreement shall terminate after ninety (90) days written notice by the Affected Jurisdiction to the Owner/Applicant. Taxes abated during the calendar year in which termination, under this subparagraph takes place shall be payable to each Affected Jurisdiction by no later than January 31st of the following year. Taxes abated in years prior to the year of termination shall be payable to each Affected Jurisdiction within ninety (90) days of the date of termination.
6. The date of termination as that term is used in this Subsection VII shall, in every instance, be the 60th day after the day the Affected Jurisdiction sends notice of default, in the mail to the address shown in the Tax Abatement Agreement to the Applicant or Owner. Should the default be cured by the owner or Applicant within the ninety (90) day notice period, the Owner/Applicant shall be responsible for so advising the Affected Jurisdiction and obtaining a release from the notice of default from the Affected Jurisdiction, failing in which, the abatement remains terminated and the abated taxes must be paid.
7. In every case of termination set forth above, the Affected Jurisdiction to which the application for tax abatement was directed shall determine whether default has occurred by Owner (Applicant) in the terms and conditions of the Tax Abatement Agreement and shall so notify all other Affected Jurisdictions. Termination of the Tax Abatement Agreement by the Affected Jurisdiction to which the application for tax abatement was directed shall constitute simultaneous termination of all Tax Abatement Agreements of all other Affected Jurisdictions.

8. In the event that a Tax Abatement Agreement is terminated for any reason whatsoever and taxes are not paid within the time period herein specified, then in such event, the provisions of V.T.C.A., Tax Code, Section 33.01 will apply.
