Re: 313 Application #1703 – CG Leon County II LLC – Amendment No. 1 Changes

Dear Superintendent Sadler:

Please find attached Amendment No. 1 for CG Leon County II LLC's 313 Application #1703. Specific changes found in the amendment are as follows:

- Application Page 1, Section 1: Updated authorized school district representative
- Application Page 2, Section 2: Updated authorized company representative
- Application Page 3, Section 2: Updated authorized company consultant
- Application Page 8, Section 14, Question #1: Updated from "2" → "1" new qualifying job
- Tab (Checklist Item) #12: Updated "Request for Waiver" letter. Updated from "2" → "1" new qualifying job
- Tab (Checklist Item) #14: Updated Schedule C. Updated to "1" new qualifying job
- Application Page 9, Section 16: Provide new signature page

The Applicant is requesting a reduction in the qualifying job commitment from two (2) jobs to one (1) job to better align with the long-term operational staffing needs of a utility-scale solar facility. Due to advancements in technology and the nature of solar operations, these facilities generally require a limited on-site workforce, making the revised commitment more consistent with industry standards.

Please let me know if you have any questions or comments.

Yours sincerely,

Troy Reed

Form 50-296-AApplication for Appraised Value Limitation on Qualified Property
(Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Texas Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the completed application to the Comptroller, separating each section of the documents. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, and has determined that all assertions of confidentiality are appropriate, the Comptroller will publish all submitted non-confidential application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller's rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project and issue a certificate for a limitation on appraised value to the school board regarding the application by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete by the Comptroller), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

RE: CG Leon County II LLC Job Requirements Waiver Request

Dear Superintendent Sadler:

Please consider this letter to be CG Leon County II LLC's formal request to waive the minimum new job creation requirement, as provided under Texas Tax Code 313.025(f-1).

The governing body of a school district may waive the new jobs creation requirement in Section 313.021(2)(A)(iv)(b) or 313.051(b) and approve an application if the governing body makes a finding that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property that is described in this application. Solar energy projects create a large number of full-time jobs during the construction phase, but these jobs are temporary by nature. Once the project is in operation, a small crew of full-time employees will maintain and operate the facility. Based upon our experience in the solar industry, we have determined that an appropriate industry standard for full-time operations of a solar energy facility is one (1) employee for every 400 MW of solar capacity. Based on this industry standard, we expect that one (1) employee would be needed to operate a 350 MW facility, and we can commit to creating one (1) full-time position to fill those needs. The newly created position will be a qualifying job as described in Section 313.021(3) of the Texas Tax Code.

The applicant requests that the Leon ISD's Board of Trustees make such a finding and waive the job creation requirement. This waiver request is in line with the industry standards for the job requirements for a solar facility of this size, as evidenced by limitation agreement applications that have been filed by other solar developers, and by documentation related to the development and operation of solar generation facilities.

The project stands to provide significant benefits to the community with respect to increased tax base and the ongoing royalty payments it will make to local landowners.

Respectfully,

CG Leon County II LLC
