Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Texas Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
 - the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the completed application to the Comptroller, separating each section of the documents. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, and has determined that all assertions of confidentiality are appropriate, the Comptroller will publish all submitted non-confidential application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller's rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project and issue a certificate for a limitation on appraised value to the school board regarding the application by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application not later than the 150th day after the application review start date (the date the application is finally determined to be complete by the Comptroller), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at comptroller.texas.gov/economy/local/ch313/. There are links to the Chapter 313 statute, rules, guidelines and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Eagle Spings Solar, LLC
Chapter 313 Application to Cooper ISD

CHECKLIST ITEM #4

Detailed Description of Project

The applicant is developing a utility scale single axis tracker photovoltaic facility designed to use solar power to generate electricity. The project will be capable of generating approximately 50 MWac and will cover a surface area approximately 880 acres. The exact capacity and specific technology will be determined during the design process, and so the exact location of the improvements cannot be specified at this time. In addition, 100% of the entire project is planned to be installed in Delta County.

If granted an Appraised Value Limitation pursuant to Texas Tax Code 313, the applicant expects to issue a full notice to proceed for construction in Q2 of 2024 and expects to complete construction in Q4 of 2025.

The investment will include the following: solar modules/panels, metal mounting system with tracking capabilities, battery or battery system, underground conduit, communications cables and electric system wiring, combiner boxes, a project substation including breakers, a transformer and meters, overhead transmission lines, inverter boxes on concrete pads, an operations and maintenance facility, fencing for safety and security, telephone and internet communication system, meteorological equipment to measure solar irradiation and weather conditions, and any other eligible ancillary and necessary equipment for commercial operations of the proposed project.

The project has applied to ERCOT and has been assigned INR numbers of 24INR0136 and 24INR0137. This project has been known by no other names in past media reports, investor presentations, or any listings with any federal or state agency.

Eagle Springs Solar, LLC
Chapter 313 Application to Cooper ISD

CHECKLIST ITEM #7

Description of Qualified Investment

The Applicant anticipates constructing a solar photovoltaic electric generating facility with an operating capacity of approximately 50 MWac and will cover a surface area of approximately 880 acres. 100% of the project will be located in the reinvestment zone and project boundary within Delta County, and will be considered qualified investment for this application. The exact capacity and specific technology components will be determined during the development and design process. The facility includes eligible ancillary and necessary equipment, including the following property:

- Solar modules/panels
- Metal mounting system with tracking capabilities
- Battery or battery system
- Underground conduit, communications cables, and electric collection system wiring
- Combiner boxes
- A project substation including breakers, a transformer and meters
- Overhead transmission lines
- Inverter boxes on concrete pads
- Operations and maintenance facility
- Fencing for safety and security
- Telephone and internet communications system
- Meteorological equipment to measure solar irradiation and weather conditions

Batteries or battery system included in the Qualified Investment will only be used to store electricity generated by the solar panels included in the Project. This application covers all qualified investment in the reinvestment zone and project boundary within Cooper ISD necessary for commercial operations.

Column A: This represents the total dollar amount of planned investment in tangible personal property. Only include estimates of investment for "replacement" property if the property is specifically described in the application.
Only tangible personal property that is specifically described in the application can become qualified property.

Column B: The total dollar amount of planned investment each year in buildings or nonremovable component of buildings.

Column C: Dollar value of other investment that may affect economic impact and total value. Examples of other investment that will not become qualified property include investment meeting the definition of 313.021(1) but not creating a new improvement as defined by TAC 9.1051. This is proposed property that functionally replaces existing property; is used to maintain, refurbish, renovate, modify or upgrade existing property, or is affixed to existing property—described in SECTION 13, question #5 of the application.

Column D: Dollar value of other investment that may affect economic impact and total value. Examples of other investment that may result in qualified property are land or professional services.

Total Investment: Add together each cell in a column and enter the sum in the blue total investment row. Enter the data from this row into the first row in Schedule A2.

Qualified Investment: For the green qualified investment cell, enter the sum of all the green-shaded cells.
